(All Attendees Welcome)

Sunday, March 22

6:30 PM–7:30 PM

West Terrace

25-Year (Or More) Member Reception

(By Invitation Only)

Sunday, March 22

7:00 PM–8:00 PM

Room 5

SOT Annual Business Meeting

(All SOT Members Invited)

Tuesday, March 24

4:30 PM–6:00 PM

Ballroom 6A

These events take place in the San Diego Convention Center.

Dear Colleagues,

It is my pleasure to invite you to attend SOT's 54th Annual Meeting, March 22–26, 2015, at the San Diego Convention Center in San Diego, California. The Annual Meeting provides opportunities to learn from your colleagues about their latest scientific findings in the field of toxicology and related disciplines as well as from distinguished leaders who will expand your scientific horizons. In addition, the SOT Annual Meeting provides a venue for you to share your year's work. For the science of toxicology, this is the premier meeting that should not be missed.

Ample networking time allows Annual Meeting attendees to meet potential collaborators and mentors, and with increasing attendance from scientists around the world, those interactions can take on a global scope. The Annual Meeting also offers a chance to pause and pay tribute to those scientists who have distinguished themselves in their field of expertise as the recipients of the Society's most prestigious awards. I'm sure that all attendees also look forward to enjoying the company of friends and colleagues.

Finally, SOT attendees can take advantage of the ToxExpo, which is the world's largest exposition of its kind. Hundreds of exhibits offer a comprehensive marketplace for product information and cutting-edge technology.

The SOT Annual Meeting is the premier event the Society hosts every year to meet the needs of the entire toxicology community, showcasing the most leading-edge toxicology research. Please join me in San Diego for this meeting and help us to make the SOT 54th Annual Meeting an event to remember.

Sincerely,

Norbert E. Kaminski, PhD
2014–2015 SOT President

54th Annual Meeting and ToxExpo

Scientific Program Overview

THEMATIC APPROACH

The Scientific Program Committee has devised a thematic approach that encompasses five themes of topical interest. The Sunday CE course and Monday–Thursday session titles related to each theme are color-coded in this Program Overview.

- ✓ Advancing Clinical and Translational Toxicology
- * Approaches for Protecting Vulnerable Populations
- Epigenomic Influences in Toxicological Responses
- ✦ Safety Assessment Approaches for Product Development
- Strategies for Exposure and Risk Assessments

A page reference follows the course or session information.

Sunday, March 23

7:00 AM to 7:45 AM

SUNRISE CONTINUING EDUCATION COURSE

1. New Horizons in Chemical Carcinogenesis: Advances in Mode of Action and Mechanism of Cancer Pathogenesis (p102)

8:15 AM to 12:00 Noon

MORNING CONTINUING EDUCATION COURSES

- 2. An Introduction to the Exposome (p102)
- 3. Demystifying Mixtures: From Study Design Selection to Risk Assessment Application (p103)
- ✦ 4. Safety Evaluation of CNS Administered Therapeutics—Study Design, Dose Routes, and Data Interpretation (p103)
- ✦ 5. The Future of Developmental and Reproductive Toxicology—Building a Bridge to the Animal Free Zone (p104)*
- ✓ 6. The New World of Cancer Immunotherapy: Challenges in Bench to Bedside Translation (p104)*
- ✦ 7. Toxicology and Regulatory Considerations for Combination Products (p105)

1:15 PM to 5:00 PM

AFTERNOON CONTINUING EDUCATION COURSES

- ✦ 8. Advances in Safety Assessment of Medical Devices (p105)
- ✦ 9. Interpretation of Cardiovascular Safety Data in Toxicology Studies (p106)*
- ✦ 10. Is Synthetic Biology the Future of Toxicology? (p106)
- ✦ 11. Skeletal System Endocrinology and Toxicology (p107)
- ✦ 12. Strategies in Investigative Toxicology in a Pharmaceutical Setting (p107)
- 13. Toxicogenomics Meets Regulatory Decision-Making: How to Get Past Heat Maps, Network/Pathway Diagrams, and “Favorite” Genes (p108)*

**Four CE Courses will be presented as live webcasts—
Separate registration for webcasts required.**

Morning Webcasts:

- AM05—The Future of Developmental and Reproductive Toxicology—Building a Bridge to the Animal Free Zone
- AM06—The New World of Cancer Immunotherapy: Challenges in Bench to Bedside Translation

(Both webcasts begin at 8:15 am US Pacific Time)

WWW.TOXICOLOGY.ORG/REGISTER

Afternoon Webcasts:

- PM09—Interpretation of Cardiovascular Safety Data in Toxicology Studies
- PM13—Toxicogenomics Meets Regulatory Decision-Making: How to Get Past Heat Maps, Network/Pathway Diagrams, and “Favorite” Genes

(Both webcasts begin at 1:15 pm US Pacific Time)

Monday, March 23

8:00 AM to 9:00 AM

PLENARY OPENING LECTURE

Life at the Speed of Light

Lecturer: J. Craig Venter,
J. Craig Venter Institute
(p134)

9:15 AM to 12:00 Noon

SYMPOSIUM SESSIONS

- ✓ New and Emerging Tobacco Products—Biomarkers of Exposure and Injury (p135)
- The Role of Connexin-Based Channels in Toxicity (p135)

WORKSHOP SESSIONS

- ✓ Environmental Exposures and Alzheimer's Disease: Epidemiology, Mechanisms, and Future Strategies (p136)
- ✦ Friend or Foe—Challenges and Perspectives for Nonclinical Development of Antibody-Drug Conjugates (p136)
- * Linking Early-Life Stages: The First Step toward Lifecourse Risk Assessment (p137)
- The US Tox21 Collaboration: Advances Made and Lessons Learned (p137)
- Toxicological Epigenomics: The Interface between the Environment and Human Health (p138)
- * Transporters As Gatekeepers for Chemical Exposure in Reproductive Tissues (p138)

PLATFORM SESSION

- Disposition and Pharmacokinetics (p139)

If found, please return to:

Name: _____

Contact Telephone: _____

9:30 AM to 12:30 PM

POSTER SESSIONS

- Alternatives to Mammalian Models I—Cardio, Neuro, Developmental (p152)
- Biotransformation and Cytochrome P450 (p140)
- Developmental Neurotoxicology—*In Vitro* Screening (p154)
- Developmental Neurotoxicology—Nonmammalian Models (p153)
- Ecotoxicology (p160)
- ✓ **Inflammation in Disease** (p145)
- ✓ **Inflammation: Methods and Mechanisms** (p146)
- Liver (p142)
- Metals (p157)
- Nanotoxicology, General, Environmental, Metals (p155)
- Nonpharmaceutical Safety Assessment
- Persistent Organic Pollutants (p162)
- Pharmacogenomics and Genetic Polymorphisms (p142)
- **Risk Assessment I** (p149)
- Stem Cell Biology in Toxicology Research (p163)

12:00 Noon to 1:30 PM

RESEARCH FUNDING SESSION

Research Funding Luncheon: Multiple Perspectives on the Grant Process (p166)

12:10 PM to 1:30 PM

ROUNDTABLE SESSIONS

- * **Addressing Potential Age-Related Sensitivity to Neurotoxicity of Pyrethroids** (p166)
- **Confronting and Overcoming the Barriers to Sharing Toxicological Research Data for Risk Assessment in the 21st Century** (p167)

INFORMATIONAL SESSION

- Toxicological Application of Studies Funded by California Stem Cell Research and Cures Act (Prop 71) (p167)

EDUCATION-CAREER DEVELOPMENT SESSION

- Adaptive Leadership: Anticipating, Initiating, and Responding to Change (p168)

12:30 PM to 1:20 PM

MERIT AWARD LECTURE

Chronicles of Particles: From Micro- to Nano-Particles

Lecturer: Günter Oberdörster, University of Rochester Medical Center (p169)

1:00 PM to 4:30 PM

POSTER SESSIONS

- Alternatives to Mammalian Models II—Skin, Eye, Liver (p169)
- ✓ **Autoimmunity/Hypersensitivity** (p185)
- Biological Modeling (p190)
- Biomonitoring and Exposure Assessment (p174)
- Cell Death and Apoptosis (p178)
- Developmental Neurotoxicology—Stem Cells (p185)
- Epidemiology (p193)
- Genetic Toxicology I (p176)
- Liver and Models (p188)
- Natural Products (p172)
- ◆ **Ocular Toxicology** (p172)
- Pharmaceutical Safety: Large Molecule Case Studies (p182)
- Pharmaceutical Safety: Small Molecule Case Studies (p183)
- **Risk Assessment II** (p180)

1:30 PM to 2:30 PM

MEET THE DIRECTORS

A Conversation with Linda Birnbaum and Jim Jones

Lecturers: Linda Birnbaum, NIEHS; and Jim Jones, US EPA (p194)

2:00 PM to 4:45 PM

SYMPOSIUM SESSIONS

- ✓ **Cardio-Oncology Concerns Encourage Novel Approaches to Pharmaceutical Risk Assessment** (p195)
- ✓ **Immunostimulant Cancer Treatments: Toxicology Programs with an Autoimmune "Twist"** (p196)
- Nrf2 Signaling Pathways in Model Systems: A Master Regulator of Neurotoxicity and a Potential Therapeutic Target (p196)

WORKSHOP SESSIONS

- * **Evaluating and Quantifying Stress for Inclusion in Cumulative Risk Assessment** (p197)
- * **Infant Formula Nutrition: Regulatory and Safety Evaluation of Ingredients** (p197)
- Pulmonary Toxicity of Graphene Nanomaterials: An Emerging Concern in Manufacturing and Applications? (p198)

EDUCATION-CAREER DEVELOPMENT SESSION

- Challenges in the Life Cycle of a Toxicologist (p198)

PLATFORM SESSION

- 21st Century DART: Advances, Challenges, and Promises (p199)

4:45 PM to 6:00 PM

SOT/EUROTOX DEBATE

In Vitro Alternatives Are Ready to Be Implemented and Relied Upon for Human Safety Testing (p200)

Tuesday, March 24

8:00 AM to 8:50 AM

TRANSLATIONAL IMPACT AWARD LECTURE

How to Make a (Translational) Impact
Lecturer: Jeffrey Burgess, University of Arizona (p203)

9:00 AM to 12:00 Noon

FRONTIERS FOR TOXICOLOGY SESSION

Bugs to Drugs: The Microbiome in Human Health, Disease, and Therapeutics (p204)

Mark D. Adams, J. Craig Venter Institute

Rob Knight, University of California San Diego

Pieter C. Dorrestein, University of California San Diego

Jeremy K. Nicholson, Imperial College London

9:00 AM to 11:45 AM

SYMPOSIUM SESSIONS

- ◆ **Alternative Models to Study Classical Toxicants: A Mechanistic View** (p205)
- Immune Responses to Different Classes of Inhaled Particulates: Unique vs. Shared Responses and Mechanisms (p205)
- ✓ **Local and Systemic Toxicity from Cobalt and Chromium-Containing Hip Prostheses** (p206)

WORKSHOP SESSIONS

- **Considering Pharmacokinetics As the Mechanistic Basis to Link Chemical Exposures to Adverse Outcome Pathways** (p206)
- * **Regulatory Neurodevelopmental Testing: New Guiding Principles for Harmonization of Data Collection and Analysis** (p207)
- **The EDSP Screening Battery: A Work in Progress for Prioritizing Compounds for Quantitative Risk Assessment** (p208)
- **Understanding and Communicating Uncertainty in Hazard Assessment and Dose Response** (p208)

9:00 AM to 12:30 PM

POSTER SESSIONS

- Alternatives to Mammalian Models III (p229)
- Biomarkers (p231)
- Carcinogenesis I (p217)
- Educational Activities and Outreach (p225)
- Food Safety, *In Vitro* (p212)
- Gene Regulation and Signal Transduction (p223)
- Genetic Toxicology II (p221)
- ✓ **Immunotoxicity I** (p226)
- *In Vitro* Cardiovascular Safety (p228)
- Juvenile Toxicity (p221)
- Neurotoxicology, Metals—Lead and Others (p216)
- Neurotoxicology, Metals—Manganese (p215)
- Neurotoxicology, Metals—Mercury (p214)
- Oxidative Injury and Redox Biology (p219)
- Pharmaceutical Safety: Models and Methods (p209)
- Systems Biology and Toxicology (p211)

9:30 AM to 4:30 PM

RESEARCH FUNDING SESSION

Research Funding Information Room (p234)

12:00 Noon to 1:30 PM

NETWORKING TIME

1:00 PM to 4:30 PM

POSTER SESSIONS

- Cigarettes, E-Cigarettes, and Hookah (p256)
- Clinical and Translational Toxicology (p239)
- Computational Toxicology and Data Integration I (p241)
- Endocrine Toxicology (p252)
- Food Safety, *In Vivo* (p247)
- ✓ **Immunotoxicity II** (p243)
- ✓ **Inhalants and Cardiopulmonary** (p257)
- Nanotoxicology, Carbon-Based Nanomaterials (p236)
- Neurotoxicology, Neurodegenerative Disease—Alzheimer's Disease and Others (p254)
- Neurotoxicology, Neurodegenerative Disease—Parkinson's Disease (p255)
- Particulate Matter (p260)
- Reproductive Toxicology I (p248)
- Reproductive Toxicology II (p250)
- Skin (p238)
- Toxicity of Chemical Mixtures (p245)

1:30 PM to 4:15 PM

SYMPOSIUM SESSIONS

- **Incorporating *In Vitro* Pharmacokinetic Data and Tools into Toxicity Testing and Risk Assessments: State of the Science** (p262)
- ✓ **New Developments in the Management of Nerve Agent Poisoning** (p262)
- ✓ **Where the Metal Meets the Bone...** (p263)

WORKSHOP SESSIONS

- ✦ **An Ounce of Prevention Is Worth a Pound of Cure: How 21st Century Toxicology Can Transform Product Safety Assessments and Design of Lower-Toxicity Products** (p263)
- ✓ **Current Understanding of Immune-Mediated Adverse Drug Reactions** (p264)
- *In Vitro* Microphysiological Systems—Developing Confidence in Predictive Ability (p264)

PLATFORM SESSIONS

- **Investigating Mode of Action in Chemical Carcinogenesis** (p265)
- Prudent Animal Usage in Pharmaceutical Safety Testing (p266)

4:30 PM to 6:00 PM

SOT ANNUAL BUSINESS MEETING

Wednesday, March 25

8:00 AM to 9:00 AM

KEYNOTE MEDICAL RESEARCH COUNCIL (MRC) LECTURE

Environmental Influences on the Immune System via the Aryl Hydrocarbon Receptor
Lecturer: Brigitta Stockinger, MRC National Institute for Medical Research (p269)

9:00 AM to 11:45 AM

SYMPOSIUM SESSION

- Role of the Gut Microbiome in the Host Response to Xenobiotics (p269)

WORKSHOP SESSIONS

- An Experiment in Collective Wisdom Utilizing Real-Time Audience Input: Weight-of-Evidence Assessment for Chemical-Specific Modes of Action Utilizing Two Case Studies (p270)
- ✦ **Application of High-Throughput *In Vitro* Assays in Assessing Small Molecule Safety** (p270)
- ✓ **Deciphering Clinical and Experimental Retinal Toxicology: An Eye on the Present and Future** (p271)
- Evaluating Similarity across Related Complex Mixtures: The Challenge of Herbal Supplements (p271)

REGIONAL INTEREST SESSION

- ✦ **Some Like It Hot: Impacts of Wildfires on Human Health** (p272)

PLATFORM SESSIONS

- Applications of ToxCast/Tox21 Data: Confidence and Predictivity (p272)
- ✦ **Emerging Concepts in Genotoxicity Assessment** (p273)

9:00 AM to 12:30 PM

POSTER SESSIONS

- Animal Models of Disease (p282)
- Animal Models: Measurements, Validations, and Historical Data (p283)
- Animal Models: Methods (p284)
- Cardiovascular Toxicity and Hemodynamics (p280)
- Developmental Neurotoxicology (p278)
- Developmental Toxicology I (p274)
- Developmental Toxicology II (p276)
- Fetal Basis of Adult Disease (p273)
- General and Developmental Neurotoxicology of Therapeutic Agents and Drugs of Abuse (p279)
- ✦ **Medical Devices: Risk Assessment and Test Methods** (p294)
- Metals—As, Cd, Hg (p292)
- Nanotoxicology, *In Vitro* (p289)
- **Regulation/Policy** (p287)
- **Risk Assessment III** (p285)

9:30 AM to 4:30 PM

RESEARCH FUNDING SESSION

Research Funding Information Room (p296)

12:00 Noon to 1:20 PM

ROUNDTABLE SESSIONS

- Should Respiratory Sensitizers Be Listed As Substances of Very High Concern (SVHC) under REACH? (p297)
- ✦ **Will Generally Recognized As Safe (GRAS) Become an Endangered Species?** (p298)

INFORMATIONAL SESSION

- Risk Communication and Management in the Era of Social Media and the Internet: Serving Society's Needs with Accurate Information (p298)

EDUCATION-CAREER DEVELOPMENT SESSION

- What Toxicologist Do You Wanna Be? The Role of Toxicologists across Diverse Organizations (p299)

12:30 PM to 1:20 PM

**DISTINGUISHED TOXICOLOGY
SCHOLAR AWARD LECTURE**

Allergic Sensitization: Defining Molecular Mechanisms and Characterizing Hazard and Risk

Lecturer: Ian Kimber,
University of Manchester
(p296)

1:00 PM to 4:30 PM

POSTER SESSIONS

- Bioinformatics (p311)
- Carcinogenesis II (p301)
- Chemical and Biological Weapons (p303)
- Computational Toxicology and Data Integration II (p312)
- Disposition and Pharmacokinetics: Drugs, Chemicals, and Transporters (p305)
- Epigenetics (p314)
- Kidney (p317)
- Nanotoxicology, *In Vivo* (p322)
- Neurotoxicology, General (p306)
- Neurotoxicology, Pesticides (p307)
- Pesticides (p309)
- Receptors (p319)
- **RNA-Based Biomarkers** (p300)

1:30 PM to 4:15 PM

SYMPOSIUM SESSIONS

- Adult Neurogenesis in Chemical-Induced Neurotoxicities: A New Frontier in Toxicological Mechanistic Investigations, Biomarker Research, and Therapeutic Targeting (p324)
- **Advanced Approaches for Quantitative Risk Assessment Using Human Data with Applications across Disciplines** (p324)

WORKSHOP SESSIONS

- **Genomics of Nonrodent Mammalian Species and Impacts on Nonclinical Safety Evaluation of Pharmaceuticals and Clinical Translation** (p325)
- Increasing Interest and Engagement in Toxicology and STEM Disciplines: The Multiple Modalities and Impact of Research and Internship Opportunities for High School and Undergraduate Students (p325)
- Integrating Gene Expression Profiling into High-Throughput Toxicity Testing (p326)
- ◆ **Strengths and Weaknesses of Mouse Models in Studies of Immunological Effects of Drugs and Chemicals** (p326)
- **The Carcinogenicity of Outdoor Air Pollution: A Review of the IARC Evaluation of Outdoor Air Pollution and Particulate Matter in Polluted Air As Group 1 (Known) Human Lung Carcinogens and Possible Bladder Carcinogens** (p327)
- ◆ **Windfall or Pitfall: Is There a Need for Modification of Developmental and Reproductive Toxicology Studies When Endocrine Disruption Is the Mode of Action?** (p328)

PLATFORM SESSION

- * **Inflammation in Disease Due to Environmental Exposures** (p328)

4:30 PM to 5:50 PM

ROUNDTABLE SESSIONS

- **Epigenetics and Chemical Safety Assessment: Are We Ready?** (p329)
- ◆ **The Future of Carcinogenicity Testing** (p330)

**EDUCATION-CAREER
DEVELOPMENT SESSION**

- Crafting High-Impact Manuscripts: The Process from Hypothesis through Review and Publication (p330)

Thursday, March 26

8:30 AM to 12:00 Noon

POSTER SESSIONS

- Late-Breaking Poster Session
Access via *Mobile Event App* or *Online Planner*.

9:00 AM to 11:45 AM

SYMPOSIUM SESSIONS

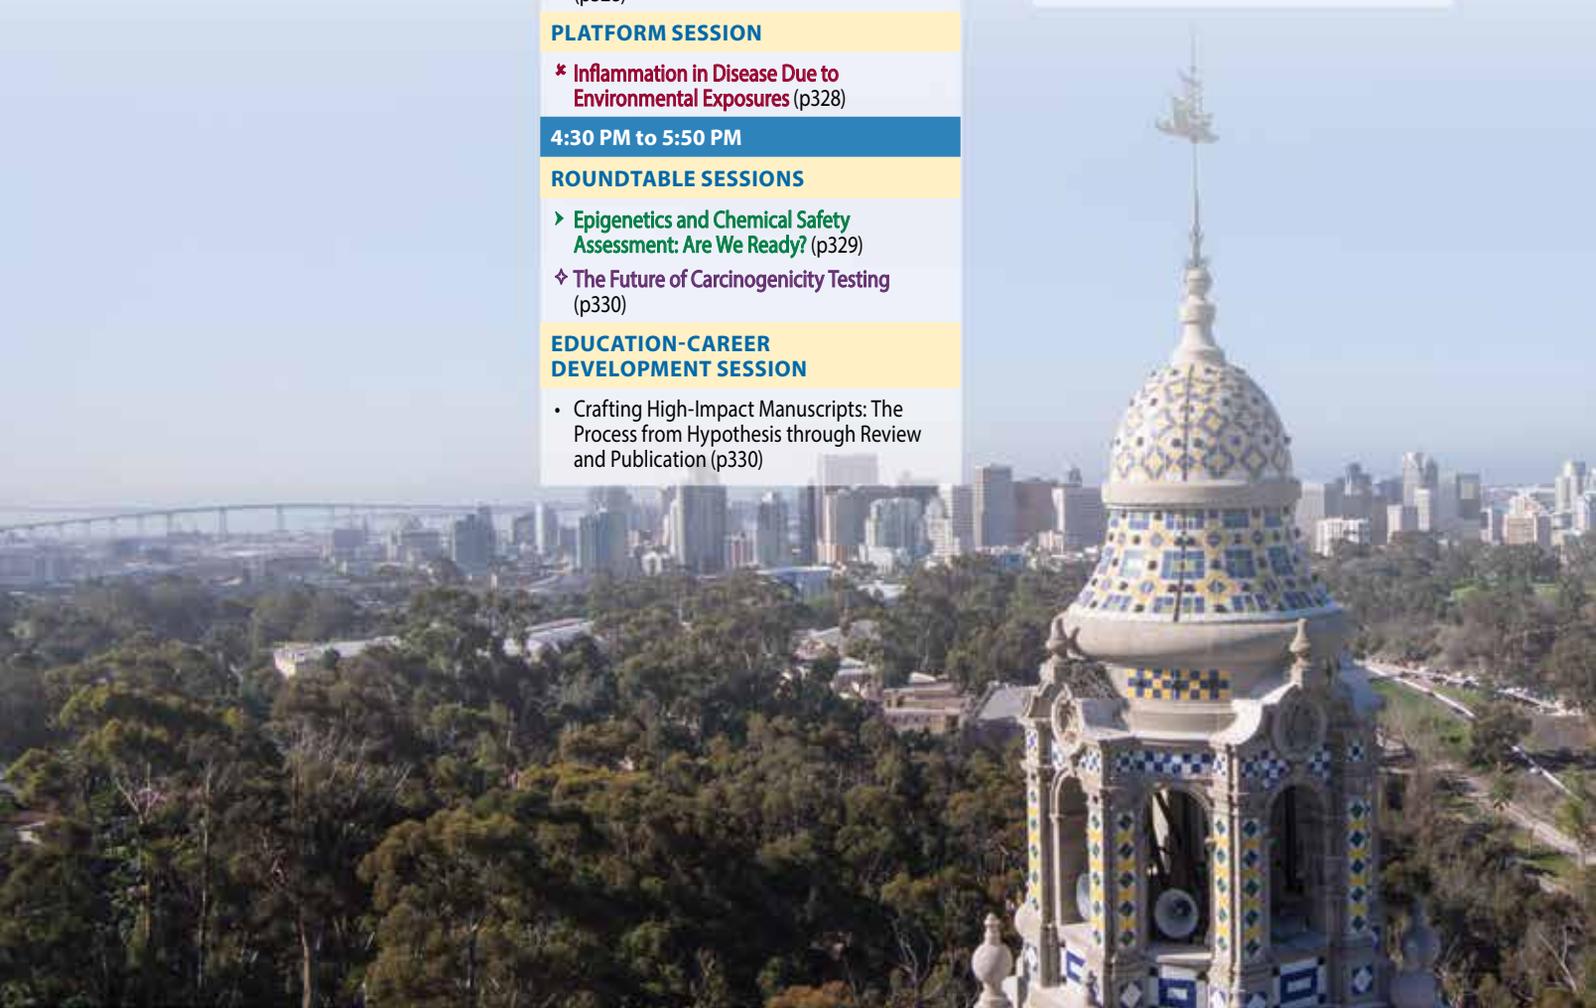

- **Chromatin Structure, Genomics, and Transcriptional Responses to Environmental Insults** (p332)
- Comprehensive Analysis of Nano Silver Toxicity Profiles: Known, Unknown, and Surprises! (p332)
- **Epigenetics, Developmental Programming, and Immune Function: Where Do We Go from Here?** (p333)
- **Exposure Assessment in the 21st Century: Needs and Challenges Facing High-Throughput Exposure Modeling** (p334)

WORKSHOP SESSIONS

- **Microphysiological Models of the Developing Nervous System: Biologically Driven Assembly Inspired by Embryology and Translated to Human Developmental Toxicology** (p334)
- Painting the Future of Repeat-Dose Systemic Toxicity Testing: Progress from the European SEURAT-1 Project (p335)

PLATFORM SESSION

- POPs—*In Vitro*, *In Vivo*, and Computational Modeling Studies (p335)

ePosters—A Convenient Way to View Posters

Did you miss the opportunity to view a poster of interest? In addition to attending Poster Sessions, you can view some posters through the SOT Mobile Event App.

Search and view the ePosters on your mobile device using the ePoster feature in the SOT Mobile Event App—before, during, and after the meeting (until May 11, 2015).

If you are a poster presenter, please take a few minutes to upload your PowerPoint or PDF poster through an Internet-based, user-friendly presentation system prior to the meeting at <https://cms.psav.com/sot2015> or during the meeting in the Speaker Ready Room at the San Diego Convention Center, Room 11B.

The SOT 2015 Annual Meeting Mobile Event App

This year we are happy to announce an enhanced Mobile Event App and Online Planner. These tools offer you multiplatform mobile solutions for the SOT Annual Meeting and ToxExpo, provided free of charge to attendees and exhibitors. The Mobile Event App and Online Planner are available via the SOT website and app marketplaces. These mobile tools enable you, the attendee, to engage with organizers, exhibitors, and each other, and to manage your time and maximize your experience while at the Annual Meeting.

The Mobile Event App will allow you to:

- Connect with fellow attendees
- Build your own schedule and synchronize from the Online Planner to your iPad, tablet, and smartphone simply by logging in
 - Add individual presentations or entire sessions to your schedule
 - Add a specific session abstract to your schedule
 - Add your own items to your schedule
- View presentation details, abstracts, and ePosters
- Boolean search for items based on session title, abstract title, abstract keywords, thematic track, and author name or affiliation
- Identify and interact with speakers
- View the San Diego Convention Center map and San Diego city maps
- Navigate the real-time ToxExpo floor plan and search for products, specials, and exhibitors
- Contact exhibitors
- Integrate with ToXchange, Twitter, and Facebook

To connect to the free wireless Internet, browse the available wireless networks and select the **SOT2015** wireless network. When prompted for a password, use **sotguest** to connect to the network.

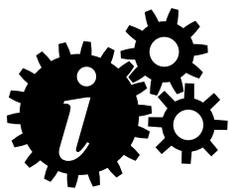

Online Planner Features:

- Boolean search schedule
- Separate speaker and abstract tabs
- Collapsible/expandable by day, hide abstracts
- Schedule export for iCal and PDF
- Schedule sync with Mobile Event App

Access information from any mobile device, including popular smartphones, tablets, iPads, and computers—synchronize your personal schedule by logging in.

See more details on inside back cover.

How to Use This Program

The Society of Toxicology's Annual Meeting is always an exciting opportunity to highlight advancements in the science of toxicology. In order to maximize the value of your Annual Meeting attendance, we offer this *Program* Publication Layout Overview, Program Schedule Scientific Session Reference, and Scientific Session Type Legend to assist you. We hope that you find this information useful and welcome your comments.

Program Publication Layout Overview

Section	Description
Front Fold-Out Cover—Scientific Program Overview	This quick reference guide lists the Annual Meeting scientific sessions with corresponding page numbers in the Program Schedule section. Color-coded presentation titles assist you in identifying sessions within each theme.
Daily Pocket Calendar (pages 5–15)	This at-a-glance calendar is your guide to the daily activities of the Annual Meeting, including special sessions; Regional Chapter, Special Interest Group, Specialty Section, and ancillary functions; and SOT committee meetings. We encourage you to tear out the daily guide for easy reference. Please note that the scientific session details are included at the end of each day's guide.
Schedule by Event Name (pages 15–24)	This is an alphabetical listing of all the functions held during the Annual Meeting. You may use this easy-to-read schedule to quickly locate an event. Please note that the scientific sessions are located in the Scientific Program Overview on the front fold-out cover or Daily Pocket Calendar on pages 5–15.
Scientific Session Index (pages 113–119)	This index lists the scientific sessions by type, date, and time. In addition, this information includes the session titles with abstract numbers, poster boards, session locations, and corresponding page numbers in the Program Schedule section.
Poster Session Schedules and Board Surface Maps (pages 121–128)	The Poster Session Schedule and Poster Board Surface Maps are displayed with a mock layout of the ToxExpo Exhibit Hall to assist you in finding poster sessions. Each poster schedule and surface map shows the poster session abstract numbers and the poster surface locations for each poster session time. Posters are displayed in the Exhibit Hall Monday–Wednesday and Sails Pavilion on Thursday.
Author Index (pages 338–364)	The numerals following the author names refer to the abstract numbers referenced in this <i>Program</i> , <i>The Toxicologist</i> , and the Mobile Event App or Online Planner. The asterisk after the abstract number indicates the author is the first presenter.
Abstract Keyword Index (pages 365–380)	This index provides a listing of keywords by subject or chemical and the relevant abstract(s) referenced in this <i>Program</i> , <i>The Toxicologist</i> , the Mobile Event App, and Online Planner.

Program Schedule Scientific Session Reference (pages 131–333)

The Program Schedule layout is ordered by date and start time. Please refer to the description below. Each scientific session listing includes a session abstract and list of speakers or the featured presenters.

Listing	Description
Session Type and Title	Session type and title display in bold type. A brief description for each scientific session type is listed below.
Endorser(s)/Supporter(s):	This section lists the supporters from SOT Special Interest Groups, Specialty Sections, Regional Chapters, or SOT Committees. Endorsers/Supporters are listed alphabetically.
Abstract Number or Presentation Time	The first number listed is the abstract number, or the SOT final identifying number. For scientific sessions (but not Continuing Education Courses or Poster Presentations), the second number is the presentation time. Individual abstracts can be found using the Mobile Event App or Online Planner, in the PDF of <i>The Toxicologist</i> via the SOT website (free to all attendees), and in <i>The Toxicologist</i> publication (available for purchase on-site for \$40).
Poster Sessions	The poster board surface number is listed above the title of each individual poster presentation for easy reference.

Session Type Legend

EC Education-Career Development Sessions (80 minutes)—Sessions that provide the tools and resources to toxicologists that will enhance their professional and scientific development

E Exhibitor-Hosted Sessions (60 minutes)—Informative sessions developed by an exhibiting company

FS Featured Sessions (50–165 minutes)—Keynote and other special lectures

IS Informational Sessions (80 minutes)—Scientific planning or membership development

PL Platform Sessions (165 minutes)—Oral presentations that cover new areas, concepts, or data

PS Poster Sessions (180–210 minutes)—Topic-specific presentations that cover new areas, concepts, or data

RI Regional Interest Session (165 minutes)—Central topics of relevance that describe public health and/or ecological problems of a particular region

R Roundtable Sessions (80 minutes)—Controversial subjects

S Symposium Sessions (165 minutes)—Cutting-edge science: new areas, concepts, or data

T Thematic Sessions (45–225 minutes)—Timely topics of relevance to toxicology

W Workshop Sessions (165 minutes)—State-of-the-art knowledge in toxicology

Daily Pocket Calendar

Tired of carrying the *Program* during the meeting? Access the real-time schedule via the Mobile Event App or Online Planner.

For your convenience, please tear out and carry with you. Easily folds to nest within your badge holder. (Calendar as of February 6; private events are not listed.)

Saturday March 21

Events are listed alphabetically by the event start time.

Most events will be held in the San Diego Convention Center unless otherwise noted. Events at the San Diego Convention Center are noted as CC.

7:30 AM to 8:00 AM
Council Orientation Breakfast
Marriott Marquis Carlsbad

8:00 AM to 12:00 Noon
Council Orientation Meeting
Marriott Marquis Cardiff

8:00 AM to 5:00 PM
ToxExpo Set Up
CC Exhibit Hall

10:00 AM to 5:00 PM
San Diego Festival of Science and Engineering
EXPO Day
Petco Park, San Diego (Public Event)

10:30 AM to 12:30 PM
Pick Your Poison: A Close Look at the Toxicants Surrounding Us (Presented by OASIS: Public Event)
TBD

12:00 Noon to 6:00 PM
American Board of Toxicology
Board of Directors Meeting
Marriott Marquis Encinitas

12:00 Noon to 1:00 PM
Council Luncheon
Marriott Marquis Carlsbad

1:00 PM to 5:30 PM
Council Meeting
Marriott Marquis Cardiff

4:00 PM to 7:00 PM
@SOT Center—Internet Access
CC Lobby C

4:00 PM to 7:00 PM
Housing Desk
CC Lobby A

4:00 PM to 7:00 PM
Registration
CC Lobby A

4:00 PM to 7:00 PM
SOT Office
CC Room 15A

4:00 PM to 7:00 PM
Speaker Ready Room
(Scientific Session and ePoster Upload)
CC Room 11B

4:30 PM to 5:15 PM
Continuing Education Committee
Walk-Through
CC Ballroom 6B

5:00 PM to 5:15 PM
Undergraduate Education Program:
Registration for CDI Travel Awardees
CC Room 33B Foyer

5:15 PM to 7:30 PM
Undergraduate Education Program:
Opening Event (CDI Travel Awardees)
CC Room 33B

7:30 PM to 8:30 PM
Committee on Diversity Initiatives Reunion
(Invited: All Current and Past Participants and Volunteers in the Undergraduate Education Program)
CC Room 33B

Sunday March 22

Events are listed alphabetically by the event start time.

Most events will be held in the San Diego Convention Center unless otherwise noted. Events at the San Diego Convention Center are noted as CC.

7:00 AM to 6:00 PM
@SOT Center—Internet Access
CC Lobby C

7:00 AM to 4:00 PM
Concession Stands
CC Lobby A

7:00 AM to 7:45 AM
Continuing Education Sunrise Mini-Course
(Ticket Required)
CC Ballroom 6B

7:00 AM to 8:00 PM
Registration
CC Lobby A

7:00 AM to 5:30 PM
SOT Office
CC Room 15A

7:00 AM to 5:30 PM
Speaker Ready Room
(Scientific Session and ePoster Upload)
CC Room 11B

7:30 AM to 9:30 AM
Career Resource and Development Committee Meeting
CC Room 12

8:00 AM to 8:00 PM
Coat/Luggage Check
CC Lobby C

8:00 AM to 5:00 PM
Guest/Spouse Hospitality Room
Marriott Marquis La Mesa

8:00 AM to 5:00 PM
Housing Desk
CC Lobby A

8:00 AM to 12:00 Noon
Scientific Liaison Coalition Meeting
CC Room 14B

8:00 AM to 5:00 PM
ToxExpo Set Up
CC Exhibit Hall

8:00 AM to 12:00 Noon
Toxicology Education Foundation
Board of Trustees Meeting
Marriott Marquis Palomar

8:00 AM to 9:45 AM
Undergraduate Education Program:
Toxicology Presentations (CDI Travel Awardees and Registered Participants)
CC Room 31C

8:15 AM to 12:00 Noon
Continuing Education Morning Courses
(Ticket Required)
CC Upper Level

9:55 AM to 11:00 AM
Undergraduate Education Program:
Interactive Presentation (CDI Travel Awardees and Registered Participants)
CC Room 33B

11:10 AM to 12:00 Noon
Undergraduate Education Program: Toxicology Presentation (CDI Travel Awardees and Registered Participants)
CC Room 31 C

11:45 AM to 1:15 PM
Continuing Education Luncheon for Speakers, Committee, and Student Volunteers
(By Invitation Only)
CC Room 4

12:00 Noon to 1:00 PM
Toxicology Excellence for Risk Assessment:
Alliance for Risk Assessment
"Beyond Science and Decisions"
Marriott Marquis Miramar

12:00 Noon to 12:45 PM
Undergraduate Education Program: Lunch and Networking (CDI Travel Awardees and Registered Participants)
CC Room 33B

12:30 PM to 3:30 PM
Toxicological Sciences Associate Editors Meeting
Marriott Marquis Cardiff/Carlsbad

12:55 PM to 1:55 PM
Undergraduate Education Program: Breakout Sessions for Students—Planning for Graduate School (CDI Travel Awardees and Registered Participants)
CC Rooms 32A, 32B, 30E

12:55 PM to 1:55 PM
Undergraduate Education Program: Breakout Session for Advisors: Tips for Advising Prospective Graduate Students (CDI Advisor Travel Awardees)
CC Room 33C

1:00 PM to 5:00 PM
Job Bank Center
CC Room 23A

1:15 PM to 5:00 PM
Continuing Education Afternoon Courses
(Ticket Required)
CC Upper Level

2:05 PM to 2:55 PM
Undergraduate Education Program: Career Roundtables—Opportunities in Toxicology (CDI Travel Awardees and Registered Participants)
CC Room 33B

3:00 PM to 5:00 PM
Gabriel L. Pla Award Interviews
CC Room 12

3:00 PM to 5:00 PM
Undergraduate Education Program: Open Time with Academic Toxicology Program Directors and Internship Hosts (CDI Travel Awardees and Registered Participants)
CC Room 31C

3:30 PM to 4:00 PM
Council Members Photographed
CC Room 5

4:00 PM to 5:00 PM
Awards Recipients Photographed (By Invitation Only)
CC Room 5

4:00 PM to 5:00 PM
K-12 Subcommittee Meeting
CC Room 14B

4:45 PM to 5:15 PM
Awards Ceremony Music—
Performed by Amy Lynn Kanner
(All Attendees Welcome)
CC Ballroom 6A

5:15 PM to 6:30 PM
Awards Ceremony (All Attendees Welcome)
CC Ballroom 6A

6:30 PM to 7:30 PM
Welcome Reception (All Attendees Welcome)
CC West Terrace

7:00 PM to 8:00 PM
25-Year (Or More) Member Reception
(By Invitation Only)
CC Room 5

7:30 PM to 10:30 PM
Arizona Night
Marriott Marquis Torrey Pines

7:30 PM to 10:00 PM
Lovelace Respiratory Research Institute's Annual Reception
Marriott Marquis Catalina

7:30 PM to 9:00 PM
Student/Postdoctoral Scholar Mixer (Ticket Required)
CC Ballroom 20D

What time is it in San Diego...

San Diego, California

12:00 Noon 3/22/15
San Diego uses Pacific Daylight Saving Time

Tokyo, Japan

4:00 am 3/23/15

54th Annual Meeting and ToxExpo

Daily Pocket Calendar (Continued)

Scientific Program Overview by Day & Time

For your convenience, please tear out and carry with you. Easily folds to nest within your badge holder. (Calendar as of February 6; private events are not listed.)

Sunday		March 22
7:00 AM to 7:45 AM	8:15 AM to 12:00 Noon	1:15 PM to 5:00 PM
CONTINUING EDUCATION SUNRISE MINI-COURSE	CONTINUING EDUCATION MORNING COURSES	CONTINUING EDUCATION AFTERNOON COURSES
1. New Horizons in Chemical Carcinogenesis: Advances in Mode of Action and Mechanism of Cancer Pathogenesis (Ballroom 6B)	2. An Introduction to the Exposome (Room 7) 3. Demystifying Mixtures: From Study Design Selection to Risk Assessment Application (Ballroom 6C) 4. Safety Evaluation of CNS Administered Therapeutics—Study Design, Dose Routes, and Data Interpretation (Ballroom 6D) 5. The Future of Developmental and Reproductive Toxicology—Building a Bridge to the Animal Free Zone (Ballroom 6F) 6. The New World of Cancer Immunotherapy: Challenges in Bench to Bedside Translation (Ballroom 6E) 7. Toxicology and Regulatory Considerations for Combination Products (Ballroom 6B)	8. Advances in Safety Assessment of Medical Devices (Ballroom 6B) 9. Interpretation of Cardiovascular Safety Data in Toxicology Studies (Ballroom 6E) 10. Is Synthetic Biology the Future of Toxicology? (Ballroom 6C) 11. Skeletal System Endocrinology and Toxicology (Ballroom 6D) 12. Strategies in Investigative Toxicology in a Pharmaceutical Setting (Room 7) 13. Toxicogenomics Meets Regulatory Decision-Making: How to Get Past Heat Maps, Network/Pathway Diagrams, and "Favorite" Genes (Ballroom 6F)

ToXchange

Home Members ▾ Member CVs Blogs Communities

At the heart of ToXchange is an enhanced SOT membership directory that allows you to:

- Create a customized SOT member My Page that you can update online 24/7
- Search for and find other SOT members based on their profile information
- Be found by other SOT members based on YOUR profile information
- Communicate with your SOT peers with easy-to-use, secure networking tools
- Participate in blogs, community discussions, and more!

Plus, you can pull in content from other social networking systems, making ToXchange your one-stop professional online resource.

Hosted on a safe and secure network platform, ToXchange is specifically designed for SOT members.

Be sure to visit the SOT Pavilion, booth 526, in the Exhibit Hall for on-site information.

ToXchange

It's YOUR Network. Be a part of it.

For online information, go to www.toXchange.org.

For your convenience, please tear out and carry with you. Easily folds to nest within your badge holder. (Calendar as of February 6; private events are not listed.)

Monday March 23

Events are listed alphabetically by the event start time.

Most events will be held in the San Diego Convention Center unless otherwise noted. Events at the San Diego Convention Center are noted as CC.

6:00 AM to 7:30 AM

Toxicologic and Exploratory Pathology Specialty Section Officers Meeting
CC Room 31B

6:15 AM to 7:45 AM

SOT Mentoring Breakfast (Registration Required)
CC Room 5B

6:30 AM to 8:00 AM

Carcinogenesis Specialty Section Officers Meeting
CC Room 25

6:30 AM to 8:00 AM

Clinical and Translational Toxicology Specialty Section Officers Meeting
CC Room 25

6:30 AM to 8:00 AM

Dermal Toxicology Specialty Section Officers Meeting
CC Room 25

6:30 AM to 8:00 AM

Food Safety Specialty Section Officers Meeting
CC Room 25

6:30 AM to 8:00 AM

Immunotoxicology Specialty Section Officers Meeting
CC Room 25

6:30 AM to 8:00 AM

In Vitro and Alternative Methods Specialty Section Officers Meeting
CC Room 25

6:30 AM to 8:00 AM

Inhalation and Respiratory Specialty Section Technical Meeting
CC Room 30A

6:30 AM to 8:00 AM

Mechanisms Specialty Section Officers Meeting
CC Room 25

6:30 AM to 7:30 AM

Mixtures Specialty Section Officers Meeting
Richard Walker's Pancake House

6:30 AM to 8:00 AM

Molecular and Systems Biology Specialty Section Officers Meeting
CC Room 25

6:30 AM to 8:00 AM

Neurotoxicology Specialty Section Officers Meeting
CC Room 25

6:30 AM to 8:00 AM

Past Presidents Breakfast
CC Room 15B

6:30 AM to 8:00 AM

Regulatory and Safety Evaluation Specialty Section Officers Meeting
CC Room 25

6:30 AM to 8:00 AM

Risk Assessment Specialty Section Officers Meeting
CC Room 25

6:45 AM to 8:00 AM

Hispanic Organization of Toxicologists Special Interest Group Officers Meeting
Marriott Marquis Marina Kitchen

7:00 AM to 6:00 PM

@SOT Center—Internet Access
CC Lobby C

7:00 AM to 8:00 AM

Central States Regional Chapter Meeting/Breakfast
Marriott Gaslamp Soleil @K Restaurant

7:00 AM to 8:00 PM

Coat/Luggage Check
CC Lobby C

7:00 AM to 4:00 PM

Concession Stands
CC Ballroom 6 Foyer

7:00 AM to 5:00 PM

Registration
CC Lobby A

7:00 AM to 8:30 AM

Reproductive and Developmental Toxicology Specialty Section Officers Meeting
CC Room 30D

7:00 AM to 7:45 AM

Scientific Program Committee Walk-Through
CC Ballroom 6A

7:00 AM to 5:00 PM

SOT Office
CC Room 15A

7:00 AM to 5:00 PM

Speaker Ready Room (Scientific Session and ePoster Upload)
CC Room 11B

7:30 AM to 9:30 AM

Poster Set Up (See Poster Board Surface Maps or Mobile Event App for Details)
CC Exhibit Hall

8:00 AM to 5:00 PM

Guest/Spouse Hospitality Room
Marriott Marquis La Mesa

8:00 AM to 5:00 PM

Housing Desk
CC Lobby A

8:00 AM to 9:00 AM

Plenary Opening Lecture: Life at the Speed of Light, Lecturer: J. Craig Venter, J. Craig Venter Institute
CC Hall D

8:00 AM to 3:30 PM

Undergraduate Education Program: Meeting Participation
CC

8:30 AM to 2:00 PM

Concession Stands
CC Exhibit Hall

9:00 AM to 10:00 AM

Complimentary Coffee
CC Exhibit Hall

9:00 AM to 5:00 PM

Job Bank Center
CC Room 23A

9:00 AM to 4:30 PM

SOT Pavilion, Booth 526
CC Exhibit Hall

9:00 AM to 4:30 PM

ToxExpo Exhibits Open
CC Exhibit Hall

9:15 AM to 10:15 AM

Exhibitor-Hosted Session: Bioreclamation/IVT and InSphero Inc.
CC Room 24C

9:15 AM to 10:15 AM

Exhibitor-Hosted Session: Covance
CC Room 24B

9:15 AM to 10:15 AM

Exhibitor-Hosted Session: MPI Research
CC Room 24A

9:15 AM to 10:15 AM

Exhibitor-Hosted Session: Toxikon Corporation
CC Room 22

9:15 AM to 12:00 Noon

Scientific Sessions
CC Upper Level

9:30 AM to 11:30 AM

Global Collaboration Coffee
CC Room 4

9:30 AM to 12:30 PM

Poster Sessions
CC Exhibit Hall

10:00 AM to 11:00 AM

Trainee Discussion with Plenary Lecturer: Dr. Venter (Ticket Required; SOT Student and Postdoctoral Members Only, Limited Seating)
CC Room 21

10:45 AM to 11:45 AM

Exhibitor-Hosted Session: Cyprotec
CC Room 24B

10:45 AM to 11:45 AM

Exhibitor-Hosted Session: Huntingdon Life Sciences/Harlan Laboratories
CC Room 24C

10:45 AM to 11:45 AM

Exhibitor-Hosted Session: Lhasa Limited
CC Room 22

10:45 AM to 11:45 AM

Exhibitor-Hosted Session: Promega Corporation
CC Room 24A

11:00 AM to 12:00 Noon

CME Task Force Meeting
CC Room 12

11:45 AM to 12:15 PM

Regional Chapter, Special Interest Group, Specialty Section Poster Sessions—Representative Attended (Near the SOT Pavilion, Booth 526)
CC Exhibit Hall

11:45 AM to 12:15 PM

Global Gallery of Toxicology Poster Session—Representative Attended (Across from SOT Pavilion, Booth 526)
CC Exhibit Hall

12:00 Noon to 1:30 PM

Comparative and Veterinary Specialty Section Meeting/Luncheon
CC Room 3

12:00 Noon to 1:30 PM

Continuing Education Committee Meeting
CC Room 14A

12:00 Noon to 1:30 PM

Drug Discovery Toxicology Specialty Section Lunch with an Expert
CC Room 27

12:00 Noon to 1:30 PM

HESI Luncheon Seminar
Marriott Marquis Marina Ballroom D

12:00 Noon to 1:20 PM

In Vitro Toxicology Lecture and Luncheon for Students: Alternative *In Vitro* Approaches for Predicting the Health Impacts of Nanomaterials, Lecturer: James C. Bonner, North Carolina State University (Ticket Required)
CC Ballroom 20D

12:00 Noon to 2:00 PM

IQ Consortium Open SEND Session
Manchester Grand Hyatt Regatta

12:00 Noon to 2:00 PM

Mid-Atlantic Regional Chapter Luncheon
Roy's Restaurant Big Island Room

12:00 Noon to 1:30 PM

Research Funding Luncheon: Multiple Perspectives on the Grant Process
CC Room 5B

12:00 Noon to 1:30 PM

Special Interest Group Collaboration Group Meeting
CC Room 14B

12:00 Noon to 1:30 PM

Toxicologic and Exploratory Pathology Specialty Section Meeting/Luncheon
CC Room 2

12:00 Noon to 2:00 PM

Toxicology and Applied Pharmacology Editorial Board Meeting
Marriott Marquis Coronado

12:00 Noon to 1:00 PM

Website Task Force Meeting
CC Room 15B

12:10 PM to 1:30 PM

Scientific Sessions
CC Upper Level

12:15 PM to 1:15 PM

Exhibitor-Hosted Session: EPISKIN ACADEMY
CC Room 24A

12:15 PM to 1:15 PM

Exhibitor-Hosted Session: Fraunhofer ITEM
CC Room 24B

12:15 PM to 1:15 PM

Exhibitor-Hosted Session: PDS Preclinical Lifesciences Inc and Integrated Nonclinical Development Solutions (INDS) Inc
CC Room 22

12:15 PM to 1:15 PM

Exhibitor-Hosted Session: RTC and Ellegaard Göttingen Minipigs
CC Room 24C

12:15 PM to 1:30 PM

Toxicology Excellence for Risk Assessment: Turning Big Data to Knowledge (BD2K): A Discussion of the NIH BD2K Initiative and How It Might Advance the Practice of Toxicology and Risk Assessment
Marriott Marquis Del Mar

12:30 PM to 1:30 PM

International Neurotoxicology Association Business Meeting
Marriott Marquis Cardiff

12:30 PM to 1:20 PM

Merit Award Lecture: Chronicles of Particles: From Micro- to Nano-Particles, Lecturer: Günter Oberdörster, University of Rochester Medical Center
CC Ballroom 6B

12:30 PM to 1:00 PM

Poster Set Up (See Poster Board Surface Maps or Mobile Event App for Details)
CC Exhibit Hall

12:45 PM to 1:00 PM

Announcement of Daily Winner of Diamond Level Supporter Exhibitor Drawing
CC Exhibit Hall

1:00 PM to 4:30 PM

Poster Sessions
CC Exhibit Hall

1:30 PM to 2:30 PM

Rapid Response Task Force Meeting
CC Room 12

1:30 PM to 2:30 PM

Meet the Directors: A Conversation with Linda Birnbaum, NIEHS; and Jim Jones, US EPA
CC Ballroom 6A

1:45 PM to 2:45 PM

Exhibitor-Hosted Session: Charles River
CC Room 24C

1:45 PM to 2:45 PM

Exhibitor-Hosted Session: IDEXX Laboratories
CC Room 24A

1:45 PM to 2:45 PM

Exhibitor-Hosted Session: Korea Institute of Toxicology
CC Room 22

1:45 PM to 2:45 PM

Exhibitor-Hosted Session: Lovelace Respiratory Research Institute
CC Room 24B

2:00 PM to 4:45 PM

Scientific Sessions
CC Upper Level

2:00 PM to 3:00 PM

Specialty Section Collaboration and Communication Group Meeting
CC Room 14A

2:00 PM to 3:00 PM

ToxLearn Work Group
CC Room 14B

2:30 PM to 3:30 PM

Complimentary Lemonade and Popcorn
CC Exhibit Hall

3:15 PM to 4:15 PM

Exhibitor-Hosted Session: BioReliance
CC Room 22

3:15 PM to 4:15 PM

Exhibitor-Hosted Session: InSphero Inc.
CC Room 24C

3:15 PM to 4:15 PM

Exhibitor-Hosted Session: MultiCASE Inc
CC Room 24B

Monday (Continued)

March 23

3:15 PM to 4:15 PM

Exhibitor-Hosted Session: NSF International
CC Room 24A

3:30 PM to 4:30 PM

Undergraduate Education Program:
Host Mentor and Peer Mentor Meeting
CC Room 32B

3:30 PM to 4:30 PM

Undergraduate Education Program: Presentation
(*CDI Travel Awardees*)
CC Room 33B

4:00 PM to 5:00 PM

K-12 Regional Chapter Outreach Contacts Meeting
CC Room 14B

4:30 PM to 6:00 PM

American Board of Toxicology Open Mixer Meeting
Marriott Marquis Rancho Santa Fe

4:30 PM to 6:00 PM

Roundtable of Toxicology Consultants
Annual Business Meeting
Marriott Marquis La Costa

4:30 PM to 5:00 PM

Undergraduate Education Program:
Program Closing Session (*CDI Travel Awardees*)
CC Room 33B

4:45 PM to 5:45 PM

Exhibitor-Hosted Session: APTUIT LLC
CC Room 24B

4:45 PM to 5:45 PM

Exhibitor-Hosted Session: Instem
CC Room 24C

4:45 PM to 5:45 PM

Exhibitor-Hosted Session: Leadscope, Inc.
CC Room 24A

4:45 PM to 6:00 PM

SOT/EUROTOX Debate: *In Vitro* Alternatives Are Ready to Be Implemented and Relied Upon for Human Safety Testing. *Lecturers: George P. Daston, Procter & Gamble Company; Maurice P. Whelan, European Commission Joint Research Centre*
CC Ballroom 6A

5:00 PM to 7:30 PM

Human Toxicology Project Consortium: "AOPs 201": A Brief Seminar on Development, Recording, and Use of Adverse Outcome Pathways
Marriott Marquis Marina Ballroom F

5:00 PM to 6:30 PM

Allegheny-Erie and Michigan Regional Chapters Joint Reception
Marriott Marquis Balboa

5:00 PM to 8:00 PM

American Association of Chinese in Toxicology Special Interest Group Reception and Distinguished Chinese Toxicologist Lectureship Presentation
Marriott Marquis San Diego Ballroom B

5:00 PM to 7:00 PM

Elsevier Editorial Board Member Reception
Marriott Marquis Bayside Pavilion

5:00 PM to 6:00 PM

Ohio Valley and Midwest Regional Chapters Joint Reception
Henry's Pub

5:00 PM to 7:00 PM

Institute for In Vitro Sciences, Inc: Workshop Report: *In Vitro* COPD Models for Tobacco Regulatory Science—Highlights and Paths Forward
Marriott Marquis Torrey Pines

5:30 PM to 7:00 PM

MultiCASE Inc: Users and Friends Meeting
Marriott Marquis Newport Beach

5:30 PM to 7:30 PM

National Capital Area and North Carolina Regional Chapters Joint Reception
Karl Strauss Brewery

5:30 PM to 7:30 PM

Pacific Northwest Regional Chapter Reception
Harbor House

5:30 PM to 7:30 PM

Toxicologists of African Origin Special Interest Group Reception
Rama Thai

6:00 PM to 7:30 PM

Carcinogenesis Specialty Section Meeting/Reception
CC Room 31C

6:00 PM to 7:30 PM

Inhalation and Respiratory Specialty Section Meeting/Reception
CC Room 30A

6:00 PM to 7:30 PM

Mixtures Specialty Section Meeting/Reception
CC Room 30E

6:00 PM to 7:30 PM

Molecular and Systems Biology Specialty Section Meeting/Reception
CC Room 29A

6:00 PM to 7:30 PM

Regulatory and Safety Evaluation Specialty Section Meeting/Reception
CC Room 28A

6:00 PM to 10:00 PM

Southeastern Regional Chapter Reception
Dublin Square Authentic Irish Pub & Grille

6:00 PM to 8:00 PM

St. John's University Alumni and Friends Dinner
Marriott Marquis Miramar

6:30 PM to 8:00 PM

The Truth about Food: How the Sustainer of Life Can Also Be Poison (*Public Event*)
Reuben H. Fleet Science Center

7:00 PM to 9:00 PM

Association of Scientists of Indian Origin Special Interest Group Reception
Marriott Marquis Temecula

7:00 PM to 9:00 PM

Korean Toxicologists Association in America Meeting/Reception
Nippon Sushi Bar and Thai Food

7:00 PM to 10:00 PM

Toxicological Sciences/Oxford University Press Appreciation Dinner (*By Invitation Only*)
Meze

7:30 PM to 9:30 PM

Food and Chemical Toxicology Editorial Board Dinner Meeting
Marriott Marquis Marina Ballroom E

Scientific Program Overview by Day & Time

Monday

March 23

8:00 AM to 9:00 AM

PLENARY OPENING LECTURE

Life at the Speed of Light
Lecturer: J. Craig Venter, J. Craig Venter Institute (Hall D)

9:15 AM to 12:00 Noon

SYMPOSIUM SESSIONS

- New and Emerging Tobacco Products—Biomarkers of Exposure and Injury (Ballroom 6A)
- The Role of Connexin-Based Channels in Toxicity (Room 1)

WORKSHOP SESSIONS

- Environmental Exposures and Alzheimer's Disease: Epidemiology, Mechanisms, and Future Strategies (Ballroom 6B)
- Friend or Foe—Challenges and Perspectives for Nonclinical Development of Antibody-Drug Conjugates (Room 7)
- Linking Early-Life Stages: The First Step toward Lifecourse Risk Assessment (Ballroom 6F)
- The US Tox21 Collaboration: Advances Made and Lessons Learned (Ballroom 6E)
- Toxicological Epigenomics: The Interface between the Environment and Human Health (Ballroom 6D)
- Transporters As Gatekeepers for Chemical Exposure in Reproductive Tissues (Ballroom 6C)

PLATFORM SESSION

- Disposition and Pharmacokinetics (Room 8)

9:30 AM to 12:30 PM

POSTER SESSIONS

(Exhibit Hall—See *Poster Board Surface Map* on pages 122–123)

- Alternatives to Mammalian Models I—Cardio, Neuro, Developmental
- Biotransformation and Cytochrome P450
- Developmental Neurotoxicology—*In Vitro* Screening
- Developmental Neurotoxicology—Nonmammalian Models
- Ecotoxicology
- Inflammation in Disease
- Inflammation: Methods and Mechanisms
- Liver
- Metals
- Nanotoxicology, General, Environmental, Metals

- Nonpharmaceutical Safety Assessment
- Persistent Organic Pollutants
- Pharmacogenomics and Genetic Polymorphisms
- Risk Assessment I
- Stem Cell Biology in Toxicology Research

12:00 Noon to 1:30 PM

RESEARCH FUNDING SESSION

Research Funding Luncheon: Multiple Perspectives on the Grant Process (Room 5B)

12:10 PM to 1:30 PM

ROUNDTABLE SESSIONS

- Addressing Potential Age-Related Sensitivity to Neurotoxicity of Pyrethroids (Ballroom 6F)
- Confronting and Overcoming the Barriers to Sharing Toxicological Research Data for Risk Assessment in the 21st Century (Ballroom 6E)

INFORMATIONAL SESSION

- Toxicological Application of Studies Funded by California Stem Cell Research and Cures Act (Prop 71) (Room 1)

EDUCATION-CAREER DEVELOPMENT SESSION

- Adaptive Leadership: Anticipating, Initiating, and Responding to Change (Room 7)

12:30 PM to 1:20 PM

MERIT AWARD LECTURE

Chronicles of Particles: From Micro- to Nano-Particles
Lecturer: Günter Oberdörster, University of Rochester Medical Center (Ballroom 6B)

1:00 PM to 4:30 PM

POSTER SESSIONS

(Exhibit Hall—See *Poster Board Surface Map* on pages 122–123)

- Alternatives to Mammalian Models II—Skin, Eye, Liver
- Autoimmunity/Hypersensitivity
- Biological Modeling
- Biomonitoring and Exposure Assessment
- Cell Death and Apoptosis
- Developmental Neurotoxicology—Stem Cells

- Epidemiology
- Genetic Toxicology I
- Liver and Models
- Natural Products
- Ocular Toxicology
- Pharmaceutical Safety: Large Molecule Case Studies
- Pharmaceutical Safety: Small Molecule Case Studies
- Risk Assessment II

1:30 PM to 2:30 PM

MEET THE DIRECTORS

A Conversation with Linda Birnbaum and Jim Jones
Lecturers: Linda Birnbaum, NIEHS; and Jim Jones, US EPA (Ballroom 6A)

2:00 PM to 4:45 PM

SYMPOSIUM SESSIONS

- Cardio-Oncology Concerns Encourage Novel Approaches to Pharmaceutical Risk Assessment (Ballroom 6C)
- Immunostimulant Cancer Treatments: Toxicology Programs with an Autoimmune "Twist" (Ballroom 6F)
- Nrf2 Signaling Pathways in Model Systems: A Master Regulator of Neurotoxicity and a Potential Therapeutic Target (Room 1)

WORKSHOP SESSIONS

- Evaluating and Quantifying Stress for Inclusion in Cumulative Risk Assessment (Ballroom 6E)
- Infant Formula Nutrition: Regulatory and Safety Evaluation of Ingredients (Ballroom 6B)
- Pulmonary Toxicity of Graphene Nanomaterials: An Emerging Concern in Manufacturing and Applications? (Ballroom 6D)

EDUCATION-CAREER DEVELOPMENT SESSION

- Challenges in the Life Cycle of a Toxicologist (Room 7)

PLATFORM SESSION

- 21st Century DART: Advances, Challenges, and Promises (Room 8)

4:45 PM to 6:00 PM

SOT/EUROTOX DEBATE

In Vitro Alternatives Are Ready to Be Implemented and Relied Upon for Human Safety Testing (Ballroom 6A)

Daily Pocket Calendar (Continued)

Tired of carrying the *Program* during the meeting? Access the real-time schedule via the Mobile Event App or Online Planner.

For your convenience, please tear out and carry with you. Easily folds to nest within your badge holder. (Calendar as of February 6; private events are not listed.)

Tuesday March 24

Events are listed alphabetically by the event start time.

Most events will be held in the San Diego Convention Center unless otherwise noted. Events at the San Diego Convention Center are noted as CC.

6:45 AM to 8:30 AM

Education Committee Meeting
CC Room 15B

6:45 AM to 7:45 AM

Graduate Student Leadership Committee Meeting
CC Room 9

7:00 AM to 6:00 PM

@SOT Center—Internet Access
CC Lobby C

7:00 AM to 8:00 AM

Awards Committee Meeting
CC Room 14B

7:00 AM to 8:30 AM

Calvert Labs Consultant Appreciation Breakfast
Marriott Marquis Cardiff

7:00 AM to 8:00 PM

Coat/Luggage Check
CC Lobby C

7:00 AM to 9:00 AM

IQ Consortium DruSafe
(Preclinical Safety Leadership Group)
Marriott Marquis Coronado

7:00 AM to 8:30 AM

Past Presidents' 5K Fun Run/Walk
Embarcadero Marina Park

7:00 AM to 4:30 PM

SOT Office
CC Room 15A

7:00 AM to 4:30 PM

Speaker Ready Room
(Scientific Session and ePoster Upload)
CC Room 11B

7:30 AM to 9:00 AM

American Association of Chinese in Toxicology/Korean Toxicologists Association in America Special Interest Groups Career Workshop 1: Current US Job Market for Toxicologists
CC Room 3

7:30 AM to 4:00 PM

Concession Stands
CC Ballroom 6 Foyer

7:30 AM to 9:00 AM

Poster Set Up (See *Poster Board Surface Maps or Mobile Event App for Details*)
CC Exhibit Hall

7:45 AM to 8:45 AM

Women in Toxicology Special Interest Group Executive Board Meeting
Marriott Marquis Malibu

8:00 AM to 5:00 PM

Guest/Spouse Hospitality Room
Marriott Marquis La Mesa

8:00 AM to 11:00 AM

Housing Desk
CC Lobby A

8:00 AM to 4:00 PM

Registration
CC Lobby A

8:00 AM to 8:50 AM

Translational Impact Award Lecture: How to Make a (Translational) Impact, *Lecturer: Jefferey Burgess, University of Arizona*
CC Ballroom 6B

8:30 AM to 2:00 PM

Concession Stands
CC Exhibit Hall

8:30 AM to 9:30 AM

Exhibitor-Hosted Session: Hepregen Corporation
CC Room 24B

8:30 AM to 9:30 AM

Exhibitor-Hosted Session: MPI Research
CC Room 22

8:30 AM to 9:30 AM

Exhibitor-Hosted Session: Toxikon Corporation
CC Room 24C

8:30 AM to 9:30 AM

Exhibitor-Hosted Session: WuXi AppTec
CC Room 24A

8:30 AM to 5:00 PM

Job Bank Center
CC Room 23A

8:30 AM to 4:30 PM

SOT Pavilion, Booth 526
CC Exhibit Hall

8:30 AM to 4:30 PM

ToxExpo Exhibits Open
CC Exhibit Hall

9:00 AM to 10:30 AM

Audit Committee Meeting
CC Room 13

9:00 AM to 10:00 AM

Complimentary Coffee
CC Exhibit Hall

9:00 AM to 12:00 Noon

Frontiers for Toxicology Session: Bugs to Drugs: The Microbiome in Human Health, Disease, and Therapeutics
CC Ballroom 6A

9:00 AM to 12:30 PM

Poster Sessions
CC Exhibit Hall

9:00 AM to 11:45 AM

Scientific Sessions
CC Upper Level

9:30 AM to 4:30 PM

Research Funding Information Room
CC Room 11A

10:00 AM to 11:00 AM

Exhibitor-Hosted Session: Algorithme Pharma
CC Room 24A

10:00 AM to 11:00 AM

Exhibitor-Hosted Session: Datacolor Inc.
CC Room 24B

10:00 AM to 11:00 AM

Exhibitor-Hosted Session: Huntingdon Life Sciences/ Harlan Laboratories
CC Room 22

10:00 AM to 11:00 AM

Exhibitor-Hosted Session: In Vitro ADMET Laboratories, LLC
CC Room 24C

10:30 AM to 12:30 PM

High School Poster Exposition
(Across from SOT Pavilion, Booth 526)
CC Exhibit Hall

11:00 AM to 12:00 Noon

ToxExpo Exhibit Hall Council Walk-Through
CC Exhibit Hall

11:30 AM to 12:30 PM

Exhibitor-Hosted Session: Cellular Dynamics International and ACEA Biosciences
CC Room 24B

11:30 AM to 12:30 PM

Exhibitor-Hosted Session: Data Sciences International
CC Room 22

11:30 AM to 12:30 PM

Exhibitor-Hosted Session: HTG Molecular Diagnostics
CC Room 24C

11:30 AM to 12:30 PM

Exhibitor-Hosted Session: Lovelace Respiratory Research Institute
CC Room 24A

11:45 AM to 1:30 PM

Toxicology Letters Editorial Board Meeting
Marriott Marquis Catalina

12:00 Noon to 1:30 PM

American Association of Chinese in Toxicology Special Interest Group Career Workshop 2: Opportunities for Toxicologists in China
CC Room 3

12:00 Noon to 2:00 PM

Association of Scientists of Indian Origin Special Interest Group Lunch and Learn
Marriott Marquis La Costa

12:00 Noon to 1:30 PM

Cardiovascular Toxicology Specialty Section Meeting/Luncheon
CC Room 29A

12:00 Noon to 1:30 PM

Endowment Fund Board Meeting
CC Room 15B

12:00 Noon to 1:30 PM

Networking Time
CC

12:00 Noon to 2:00 PM

Northeast Regional Chapter Student Luncheon
CC Room 4

12:00 Noon to 1:30 PM

Occupational and Public Health Specialty Section Meeting/Luncheon
CC Room 25

12:00 Noon to 1:15 PM

Postdoctoral Assembly Luncheon (Ticket Required)
CC Ballroom 5

12:00 Noon to 2:00 PM

Regulatory and Safety Evaluation Specialty Section Brown Bag Luncheon: Global Regulatory Toxicology: First Stop EU
CC Room 2

12:00 Noon to 1:30 PM

Risk Assessment Specialty Section Mentoring Luncheon
CC Room 28A

12:15 PM to 1:25 PM

Graduate Education Subcommittee Meeting
CC Room 14A

12:30 PM to 1:00 PM

Poster Set Up (See *Poster Board Surface Maps or Mobile Event App for Details*)
CC Exhibit Hall

12:45 PM to 1:00 PM

Announcement of Daily Winner of Diamond Level Supporter Exhibitor Drawing
CC Exhibit Hall

1:00 PM to 2:00 PM

Department of Defense Government Liaison Group
CC Room 14B

1:00 PM to 2:00 PM

Exhibitor-Hosted Session: American Preclinical Services
CC Room 24A

1:00 PM to 2:00 PM

Exhibitor-Hosted Session: BioReliance
CC Room 22

1:00 PM to 2:00 PM

Exhibitor-Hosted Session: Charles River
CC Room 24C

1:00 PM to 2:00 PM

Exhibitor-Hosted Session: ICF International
CC Room 24B

1:00 PM to 4:30 PM

Poster Sessions
CC Exhibit Hall

1:30 PM to 4:15 PM

Scientific Sessions
CC Upper Level

1:30 PM to 2:00 PM

Undergraduate Education Subcommittee Meeting
CC Room 14A

2:00 PM to 5:00 PM

TRI-Service Toxicology Consortium
Marriott Marquis Coronado

2:15 PM to 3:30 PM

Undergraduate Educator Network Meeting
CC Room 14A

2:30 PM to 3:30 PM

Complimentary Lemonade and Popcorn
CC Exhibit Hall

2:30 PM to 3:30 PM

Exhibitor-Hosted Session: Battelle
CC Room 22

2:30 PM to 3:30 PM

Exhibitor-Hosted Session: CiTox.LAB and Ellegaard Göttingen Minipigs
CC Room 24B

2:30 PM to 3:30 PM

Exhibitor-Hosted Session: InSphero Inc.
CC Room 24C

2:30 PM to 3:30 PM

Exhibitor-Hosted Session: Stemina Biomarker Discovery, Inc.
CC Room 24A

4:00 PM to 5:00 PM

Exhibitor-Hosted Session: Alberta Centre for Toxicology and The Hamner Institutes
CC Room 24A

4:00 PM to 5:00 PM

Exhibitor-Hosted Session: APTUIT LLC
CC Room 22

4:00 PM to 5:00 PM

Exhibitor-Hosted Session: PointCross LifeSciences, Inc.
CC Room 24B

4:00 PM to 5:00 PM

Exhibitor-Hosted Session: Takara Bio Europe AB (formerly Cellartis)
CC Room 24C

4:00 PM to 5:00 PM

Undergraduate Student Meeting (All Undergraduate Meeting Registrants Invited)
CC Room 14A

4:30 PM to 6:00 PM

SOT Annual Business Meeting (All SOT Members Invited)
CC Ballroom 6A

4:45 PM to 6:00 PM

ToxExpo 2016 Exhibit Space Selection Process
CC Room 22

5:00 PM to 7:00 PM

Lone Star and South Central Regional Chapters Mixer
Dussini's Loft Bar

6:00 PM to 7:30 PM

Drug Discovery Toxicology Specialty Section Meeting/Reception
CC Room 27

6:00 PM to 7:30 PM

Food Safety Specialty Section Meeting/Reception
CC Room 31C

6:00 PM to 7:30 PM

Immunotoxicology Specialty Section Meeting/Reception
CC Room 29A

6:00 PM to 7:30 PM

Medical Device and Combination Product Specialty Section Meeting/Reception
CC Room 33A

6:00 PM to 7:30 PM

Metals Specialty Section Meeting/Reception
CC Room 30E

6:00 PM to 9:00 PM

Mountain West and Southern California Regional Chapters Mixer
Museum of Photographic Arts

6:00 PM to 7:30 PM

Nanotoxicology Specialty Section Meeting/Reception
CC Room 30A

6:00 PM to 7:30 PM

Neurotoxicology Specialty Section Meeting/Reception
CC Room 25

Tired of carrying the *Program* during the meeting? Access the real-time schedule via the Mobile Event App or Online Planner.

For your convenience, please tear out and carry with you. Easily folds to nest within your badge holder. (*Calendar as of February 6; private events are not listed.*)

Tuesday (Continued)

March 24

6:00 PM to 7:30 PM Ocular Toxicology Specialty Section Meeting/Reception CC Room 32	7:00 PM to 10:00 PM University of Rochester Toxicology Program Annual Alumni Reception Marriott Marquis Catalina
6:00 PM to 7:30 PM Risk Assessment Specialty Section Meeting/Reception CC Room 28	7:30 PM to 10:30 PM Northern California Regional Chapter Reception Yard House
6:30 PM to 8:30 PM <i>Chemico-Biological Interactions</i> Editorial Board Meeting Marriott Marquis San Diego Ballroom C	7:30 PM to 9:00 PM Tox ShowDown (<i>All Attendees Welcome</i>) Marriott Marquis Marina Ballroom D
6:30 PM to 9:30 PM Hispanic Organization of Toxicologists Special Interest Group Reception and Awards Ceremony Café Sevilla	8:00 PM to 11:00 PM Toxicology Excellence for Risk Assessment's Ice Cream Social Marriott Marquis Coronado
6:30 PM to 8:00 PM University of Cincinnati Kettering Alumni Meeting Marriott Marquis Carlsbad	9:00 PM to 11:00 PM Rutgers University Joint Graduate Program Toxicology Annual Dessert Reception Marriott Marquis Rancho Santa Fe

Scientific Program Overview by Day & Time

Tuesday

March 24

8:00 AM to 8:50 AM TRANSLATIONAL IMPACT AWARD LECTURE How to Make a (Translational) Impact <i>Lecturer: Jeffrey Burgess, University of Arizona</i> (Ballroom 6B)	9:30 AM to 4:30 PM RESEARCH FUNDING SESSION Research Funding Information Room (Room 11A)	1:30 PM to 4:15 PM SYMPOSIUM SESSIONS <ul style="list-style-type: none"> Incorporating <i>In Vitro</i> Pharmacokinetic Data and Tools into Toxicity Testing and Risk Assessments: State of the Science (Ballroom 6B) New Developments in the Management of Nerve Agent Poisoning (Ballroom 6D) Where the Metal Meets the Bone... (Ballroom 6E)
9:00 AM to 12:00 Noon FRONTIERS FOR TOXICOLOGY SESSION Bugs to Drugs: The Microbiome in Human Health, Disease, and Therapeutics (Ballroom 6A)	12:00 Noon to 1:30 PM NETWORKING TIME	WORKSHOP SESSIONS <ul style="list-style-type: none"> An Ounce of Prevention Is Worth a Pound of Cure: How 21st Century Toxicology Can Transform Product Safety Assessments and Design of Lower-Toxicity Products (Room 7) Current Understanding of Immune-Mediated Adverse Drug Reactions (Ballroom 6F) <i>In Vitro</i> Microphysiological Systems—Developing Confidence in Predictive Ability (Ballroom 6C)
9:00 AM to 11:45 AM SYMPOSIUM SESSIONS <ul style="list-style-type: none"> Alternative Models to Study Classical Toxicants: A Mechanistic View (Ballroom 6D) Immune Responses to Different Classes of Inhaled Particulates: Unique vs. Shared Responses and Mechanisms (Ballroom 6B) Local and Systemic Toxicity from Cobalt and Chromium-Containing Hip Prostheses (Ballroom 6C) 	1:00 PM to 4:30 PM POSTER SESSIONS (Exhibit Hall—See <i>Poster Board Surface Map</i> on pages 124–125) <ul style="list-style-type: none"> Cigarettes, E-Cigarettes, and Hookah Clinical and Translational Toxicology Computational Toxicology and Data Integration I Endocrine Toxicology Food Safety, <i>In Vivo</i> Immunotoxicity II Inhalants and Cardiopulmonary Nanotoxicology, Carbon-Based Nanomaterials Neurotoxicology, Neurodegenerative Disease—Alzheimer's Disease and Others Neurotoxicology, Neurodegenerative Disease—Parkinson's Disease Particulate Matter Reproductive Toxicology I Reproductive Toxicology II Skin Toxicity of Chemical Mixtures 	PLATFORM SESSIONS <ul style="list-style-type: none"> Investigating Mode of Action in Chemical Carcinogenesis (Room 8) Prudent Animal Usage in Pharmaceutical Safety Testing (Room 1)
9:00 AM to 12:30 PM POSTER SESSIONS (Exhibit Hall—See <i>Poster Board Surface Map</i> on pages 124–125) <ul style="list-style-type: none"> Alternatives to Mammalian Models III Biomarkers Carcinogenesis I Educational Activities and Outreach Food Safety, <i>In Vitro</i> Gene Regulation and Signal Transduction Genetic Toxicology II Immunotoxicity I <i>In Vitro</i> Cardiovascular Safety Juvenile Toxicity Neurotoxicology, Metals—Lead and Others Neurotoxicology, Metals—Manganese Neurotoxicology, Metals—Mercury Oxidative Injury and Redox Biology Pharmaceutical Safety: Models and Methods Systems Biology and Toxicology 		4:30 PM to 6:00 PM SPECIAL MEMBER SESSION SOT Annual Business Meeting (Ballroom 6A)

Daily Pocket Calendar (Continued)

Tired of carrying the *Program* during the meeting? Access the real-time schedule via the Mobile Event App or Online Planner.

For your convenience, please tear out and carry with you. Easily folds to nest within your badge holder. (Calendar as of February 6; private events are not listed.)

Wednesday March 25

Events are listed alphabetically by the event start time. Most events will be held in the San Diego Convention Center unless otherwise noted. Events at the San Diego Convention Center are noted as CC.

- 6:30 AM to 8:00 AM**
Academy of Toxicological Sciences
Board of Directors Meeting
Marriott Marquis Solana
- 7:00 AM to 8:30 AM**
American Board of Toxicology Breakfast
on Global Toxicology Professional Certification:
Why ABT Certification Is Important?
Buster's Beach House
- 7:00 AM to 8:00 PM**
Coat/Luggage Check
CC Lobby C
- 7:00 AM to 8:30 AM**
Committee on Diversity Initiatives Meeting
CC Room 14B
- 7:00 AM to 8:30 AM**
Graduate Student Leadership Committee
Executive Board Meeting
CC Room 14A
- 7:00 AM to 4:30 PM**
SOT Office
CC Room 15A
- 7:00 AM to 4:30 PM**
Speaker Ready Room
(Scientific Session and ePoster Upload)
CC Room 11B
- 7:00 AM to 8:00 AM**
Special Interest Group Collaboration Group
Global Hot Topic Event—Global Drug Development
and Natural Products: End of an Era or an Endless
Frontier?
CC Room 2
- 7:00 AM to 8:15 AM**
ToxExpo Liaison Working Group
CC Room 13
- 7:00 AM to 7:45 AM**
Toxic Substances Control Act Task Force Update:
Strategy, Issues, and Outreach
CC Room 8
- 7:30 AM to 4:00 PM**
Concession Stands
CC Ballroom 6 Foyer
- 7:30 AM to 8:30 AM**
Contemporary Concepts in Toxicology Conference
Committee Meeting
CC Room 15B
- 7:30 AM to 9:00 AM**
Poster Set Up (See *Poster Board Surface Maps* or *Mobile
Event App for Details*)
CC Exhibit Hall
- 8:00 AM to 6:00 PM**
@SOT Center—Internet Access
CC Lobby C
- 8:00 AM to 5:00 PM**
Guest/Spouse Hospitality Room
Marriott Marquis La Mesa
- 8:00 AM to 9:00 AM**
Keynote Medical Research Council (MRC) Lecture:
Environmental Influences on the Immune System via
the Aryl Hydrocarbon Receptor.
*Lecturer: Brigitta Stockinger, MRC National Institute
for Medical Research*
CC Ballroom 6A
- 8:00 AM to 4:00 PM**
Registration
CC Lobby A
- 8:30 AM to 2:00 PM**
Concession Stands
CC Exhibit Hall
- 8:30 AM to 5:00 PM**
Job Bank Center
CC Room 23A

- 8:30 AM to 4:30 PM**
SOT Pavilion, Booth 526
CC Exhibit Hall
- 8:30 AM to 4:30 PM**
ToxExpo Exhibits Open
CC Exhibit Hall
- 9:00 AM to 10:00 AM**
Complimentary Coffee
CC Exhibit Hall
- 9:00 AM to 12:30 PM**
Poster Sessions
CC Exhibit Hall
- 9:00 AM to 11:45 AM**
Scientific Sessions
CC Upper Level
- 9:15 AM to 10:15 AM**
Exhibitor-Hosted Session: Charles River
CC Room 24C
- 9:15 AM to 10:15 AM**
Exhibitor-Hosted Session: Covance
CC Room 24B
- 9:15 AM to 10:15 AM**
Exhibitor-Hosted Session: MPI Research
CC Room 24A
- 9:30 AM to 4:30 PM**
Research Funding Information Room
CC Room 11A
- 9:30 AM to 10:30 AM**
Trainee Discussion with Medical Research Council
(MRC) Lecturer: Dr. Stockinger (*Ticket Required;
SOT Student and Postdoctoral Members Only, Limited
Seating*)
CC Room 5B
- 10:45 AM to 11:45 AM**
Exhibitor-Hosted Session: Hurel Corporation
CC Room 24B
- 10:45 AM to 11:45 AM**
Exhibitor-Hosted Session: Organovo
CC Room 24A
- 10:45 AM to 11:45 AM**
Exhibitor-Hosted Session: Toxikon Corporation
CC Room 24C
- 11:30 AM to 12:30 PM**
Finance Committee Meeting
CC Room 13
- 11:30 AM to 1:00 PM**
Membership Committee Meeting
CC Room 15B
- 11:30 AM to 1:00 PM**
Postdoctoral Assembly Executive Board Meeting
CC Room 33B
- 11:45 AM to 1:30 PM**
Toxicology Editorial Board Meeting
Marriott Marquis Coronado
- 12:00 Noon to 2:00 PM**
Board of Publications Meeting
CC Room 14B
- 12:00 Noon to 1:30 PM**
Ethical, Legal, and Social Issues Specialty Section
Meeting/Luncheon
CC Room 31A
- 12:00 Noon to 1:30 PM**
In Vitro and Alternative Methods Specialty Section
Meeting/Luncheon
CC Room 28A
- 12:00 Noon to 1:30 PM**
Regional Chapter Collaboration and Communications
Committee (RC4) Meeting
CC Room 12
- 12:00 Noon to 1:20 PM**
Scientific Sessions
CC Upper Level
- 12:15 PM to 1:15 PM**
Exhibitor-Hosted Session: EMD Millipore
CC Room 24A

- 12:15 PM to 1:15 PM**
Exhibitor-Hosted Session: Huntingdon Life Sciences/
Harlan Laboratories
CC Room 24C
- 12:30 PM to 12:45 PM**
Announcement of Exhibitor provided Raffle Prizes
CC Exhibit Hall
- 12:30 PM to 1:20 PM**
Distinguished Toxicology Scholar Award Lecture:
Allergic Sensitization: Defining Molecular Mechanisms
and Characterizing Hazard and Risk,
Lecturer: Ian Kimber, University of Manchester
CC Ballroom 6B
- 12:30 PM to 1:00 PM**
Poster Set Up (See *Poster Board Surface Maps* or *Mobile
Event App for Details*)
CC Exhibit Hall
- 12:45 PM to 1:00 PM**
Announcement of Daily Winner of Diamond Level
Supporter Exhibitor Drawing
CC Exhibit Hall
- 1:00 PM to 4:30 PM**
Poster Sessions
CC Exhibit Hall
- 1:30 PM to 4:15 PM**
Scientific Sessions
CC Upper Level
- 1:45 PM to 2:45 PM**
Exhibitor-Hosted Session: Agilent Technologies
CC Room 24A
- 1:45 PM to 2:45 PM**
Exhibitor-Hosted Session: BioReliance
CC Room 24B
- 2:30 PM to 3:30 PM**
Complimentary Lemonade and Popcorn
CC Exhibit Hall
- 4:30 PM to 7:00 PM**
EPA CSS STAR Center Awards Kick Off Session:
Organotypic Culture Models for Predictive Toxicology
Center
CC Room 5A
- 4:30 PM to 5:50 PM**
Scientific Sessions
CC (See *Session Index* or *Mobile Event App for
Locations*)
- 4:30 PM to 11:00 PM**
ToxExpo Tear Down
CC Exhibit Hall
- 4:30 PM to 6:30 PM**
Women in Toxicology Special Interest Group Reception
Marriott Marquis Marina Ballroom D
- 5:00 PM to 6:00 PM**
Toxicology History Association
Marriott Marquis Newport Beach
- 6:00 PM to 7:30 PM**
Biological Modeling Specialty Section
Meeting/Reception
CC Room 30E
- 6:00 PM to 7:30 PM**
Biotechnology Specialty Section Meeting/Reception
CC Room 31C
- 6:00 PM to 7:30 PM**
Clinical and Translational Toxicology Specialty Section
Meeting/Reception
CC Room 31A
- 6:00 PM to 7:30 PM**
Dermal Toxicology Specialty Section Meeting/
Reception
CC Room 30C
- 6:00 PM to 7:30 PM**
Mechanisms Specialty Section Meeting/Reception
CC Room 29
- 6:00 PM to 7:30 PM**
Reproductive and Developmental Toxicology
Specialty Section Meeting/Reception
CC Room 28A

- 6:00 PM to 7:30 PM**
Stem Cells Specialty Section Meeting/Reception
CC Room 30A
- 7:00 PM to 8:30 PM**
President's Reception (*By Invitation Only*)
Marriott Marquis San Diego Ballroom A
- 8:30 PM to 10:00 PM**
Academy of Toxicological Sciences Reception
(*Ticket Required*)
Marriott Marquis San Diego Ballroom C

Daily Pocket Calendar (Continued)

Scientific Program Overview by Day & Time

For your convenience, please tear out and carry with you. Easily folds to nest within your badge holder. (Calendar as of February 6; private events are not listed.)

Wednesday		March 25
8:00 AM to 9:00 AM KEYNOTE MEDICAL RESEARCH COUNCIL (MRC) LECTURE Environmental Influences on the Immune System via the Aryl Hydrocarbon Receptor <i>Lecturer: Brigitta Stockinger, MRC National Institute for Medical Research (Ballroom 6A)</i>	9:30 AM to 4:30 PM RESEARCH FUNDING SESSION Research Funding Information Room (Room 11A)	1:30 PM to 4:15 PM SYMPOSIUM SESSIONS <ul style="list-style-type: none"> Adult Neurogenesis in Chemical-Induced Neurotoxicities: A New Frontier in Toxicological Mechanistic Investigations, Biomarker Research, and Therapeutic Targeting (Ballroom 6B) Advanced Approaches for Quantitative Risk Assessment Using Human Data with Applications across Disciplines (Ballroom 6A)
9:00 AM to 11:45 AM SYMPOSIUM SESSION <ul style="list-style-type: none"> Role of the Gut Microbiome in the Host Response to Xenobiotics (Ballroom 6B) 	12:00 Noon to 1:20 PM ROUNDTABLE SESSIONS <ul style="list-style-type: none"> Should Respiratory Sensitizers Be Listed As Substances of Very High Concern (SVHC) under REACH? (Ballroom 6E) Will Generally Recognized As Safe (GRAS) Become an Endangered Species? (Ballroom 6F) 	WORKSHOP SESSIONS <ul style="list-style-type: none"> Genomics of Nonrodent Mammalian Species and Impacts on Nonclinical Safety Evaluation of Pharmaceuticals and Clinical Translation (Ballroom 6D) Increasing Interest and Engagement in Toxicology and STEM Disciplines: The Multiple Modalities and Impact of Research and Internship Opportunities for High School and Undergraduate Students (Room 7) Integrating Gene Expression Profiling into High-Throughput Toxicity Testing (Ballroom 6C) Strengths and Weaknesses of Mouse Models in Studies of Immunological Effects of Drugs and Chemicals (Ballroom 6E) The Carcinogenicity of Outdoor Air Pollution: A Review of the IARC Evaluation of Outdoor Air Pollution and Particulate Matter in Polluted Air As Group 1 (Known) Human Lung Carcinogens and Possible Bladder Carcinogens (Room 1) Windfall or Pitfall: Is There a Need for Modification of Developmental and Reproductive Toxicology Studies When Endocrine Disruption Is the Mode of Action? (Ballroom 6F)
WORKSHOP SESSIONS <ul style="list-style-type: none"> An Experiment in Collective Wisdom Utilizing Real-Time Audience Input: Weight-of-Evidence Assessment for Chemical-Specific Modes of Action Utilizing Two Case Studies (Ballroom 6F) Application of High-Throughput <i>In Vitro</i> Assays in Assessing Small Molecule Safety (Room 7) Deciphering Clinical and Experimental Retinal Toxicology: An Eye on the Present and Future (Ballroom 6E) Evaluating Similarity across Related Complex Mixtures: The Challenge of Herbal Supplements (Ballroom 6C) 	INFORMATIONAL SESSION <ul style="list-style-type: none"> Risk Communication and Management in the Era of Social Media and the Internet: Serving Society's Needs with Accurate Information (Room 1) 	
REGIONAL INTEREST SESSION <ul style="list-style-type: none"> Some Like It Hot: Impacts of Wildfires on Human Health (Ballroom 6D) 	EDUCATION-CAREER DEVELOPMENT SESSION <ul style="list-style-type: none"> What Toxicologist Do You Wanna Be? The Role of Toxicologists across Diverse Organizations (Room 7) 	
PLATFORM SESSIONS <ul style="list-style-type: none"> Applications of ToxCast/Tox21 Data: Confidence and Predictivity (Room 1) Emerging Concepts in Genotoxicity Assessment (Room 8) 	12:30 PM to 1:20 PM DISTINGUISHED TOXICOLOGY SCHOLAR AWARD LECTURE Allergic Sensitization: Defining Molecular Mechanisms and Characterizing Hazard and Risk <i>Lecturer: Ian Kimber, University of Manchester (Ballroom 6B)</i>	PLATFORM SESSION <ul style="list-style-type: none"> Inflammation in Disease Due to Environmental Exposures (Room 8)
9:00 AM to 12:30 PM POSTER SESSIONS (Exhibit Hall—See Poster Board Surface Map on pages 126–127)	1:00 PM to 4:30 PM POSTER SESSIONS (Exhibit Hall—See Poster Board Surface Map on pages 126–127)	4:30 PM to 5:50 PM ROUNDTABLE SESSIONS <ul style="list-style-type: none"> Epigenetics and Chemical Safety Assessment: Are We Ready? (Ballroom 6D) The Future of Carcinogenicity Testing (Ballroom 6E)

ePosters—A Convenient Way to View Posters

Did you miss the opportunity to view a poster of interest?

In addition to attending Poster Sessions, you can view some posters through the SOT Mobile Event App.

Search and view the ePosters on your mobile device using the ePoster feature in the SOT Mobile Event App—before, during, and after the meeting (until May 11, 2015).

If you are a poster presenter, please take a few minutes to upload your PowerPoint or PDF poster through an Internet-based, user-friendly presentation system prior to the meeting at <https://cms.psav.com/sot2015> or during the meeting in the Speaker Ready Room at the San Diego Convention Center, Room 11B.

Daily Pocket Calendar (Continued)

Tired of carrying the *Program* during the meeting? Access the real-time schedule via the Mobile Event App or Online Planner.

For your convenience, please tear out and carry with you. Easily folds to nest within your badge holder. (Calendar as of February 6; private events are not listed.)

ToXchange *It's YOUR Network. Be a part of it.*

The ToXchange mobile application puts access to SOT members and your online communities in the palm of your hand. The mobile version of ToXchange features virtually everything that you can do online including:

- Search for other users
- Download files
- View all information for your communities
- View upcoming events and meetings
- Read blog articles
- And much more!
- Participate in forums

Networking expands far beyond face-to-face events or computer-to-computer interactions; be a part of it and use the mobile application to connect via ToXchange anywhere, at any time.

The Global Impacts of SOT

To increase the impact of toxicology in addressing global health and environmental issues, SOT developed a number of initiatives to enrich toxicology resources for scientists throughout the world, especially in developing countries.

SOT Global Initiatives include:

Discounted SOT Membership for Scientists from Developing Countries*—Dues of \$50, which includes free membership in one Special Interest Group and one Specialty Section, and many other benefits. Membership dues assistance is available for students and postdocs.

Free Continuing Education (CEd-Tox)—Online courses are available to scientists from developing countries.* Some courses offer English transcriptions with video start-stop capability.

Global Senior Scholar Exchange Program (GSSEP)—The program funds exchange visits between two Senior Scholar toxicologists from developing countries and their hosts who work in established toxicology programs in academia, government, and industry.

International ToxScholar Outreach Grants—SOT senior toxicologists visit campuses in developing countries through support from this grant.

Global Initiatives Funds—A total of \$20,000 each year supports collaborative projects between SOT Regional Chapters (RC), Specialty Sections (SS), Special Interest Groups (SIG), SOT Committees, and other international organizations. Bring your ideas!

Global Travel Fellowships/Awards—Senior scientists from countries where toxicology is underrepresented receive travel funding to attend the SOT Annual Meeting. Graduate Student Travel Awards also are available for funding travel to the SOT Annual Meeting.

For more information on SOT Global Initiatives, go to www.toxicology.org/ms/globalfunds.asp.

Or visit the SOT Poster in the Global Gallery

* 2014 World Bank list of countries with GNI <\$8,000.

Global Gallery of Toxicology

A Worldwide Vision for Toxicology

Toxicology-related scientific societies from around the world are invited to display a poster showcasing their key information, accomplishments, strategic initiatives, and activities.

Attendees interested in collaboration and discussion are invited to the Global Gallery Monday, March 23, 11:45 am–12:15 pm, for a representative-attended poster session with all Global Gallery participants.

In addition to the 30 2014 Global Gallery participating societies, new participants for the 2015 Annual Meeting include:

- Bulgarian Society of Toxicology • Chinese Society of Toxicology • Estonian Society of Toxicology • French Society of Toxicology • International Society for the Study of Xenobiotics • International Society of Exposure Science • Israeli Society of Toxicology • Japanese Society of Immunotoxicology • Korean Society of Toxicology • Scientific Liaison Coalition • Society for Risk Analysis • Swedish Society of Toxicology •

Posters will be displayed prominently in the ToxExpo Exhibit Hall.

Please see details on page 50.

Schedule by Event Name

Tired of carrying the *Program* during the meeting? Access the real-time schedule via the Mobile Event App or Online Planner. (Schedule as of February 6; private events are not listed.)

Event:	Date:	Time:	Location:	Room:
@SOT Center—Internet Access	Saturday, Mar 21	4:00 PM to 7:00 PM	Convention Center	Lobby C
@SOT Center—Internet Access	Sunday, Mar 22	7:00 AM to 6:00 PM	Convention Center	Lobby C
@SOT Center—Internet Access	Monday, Mar 23	7:00 AM to 6:00 PM	Convention Center	Lobby C
@SOT Center—Internet Access	Tuesday, Mar 24	7:00 AM to 6:00 PM	Convention Center	Lobby C
@SOT Center—Internet Access	Wednesday, Mar 25	8:00 AM to 6:00 PM	Convention Center	Lobby C
@SOT Center—Internet Access	Thursday, Mar 26	8:00 AM to 12:00 Noon	Convention Center	Lobby C
25-Year (Or More) Member Reception (<i>By Invitation Only</i>)	Sunday, Mar 22	7:00 PM to 8:00 PM	Convention Center	Room 5
A				
Academy of Toxicological Sciences Board of Directors Meeting	Wednesday, Mar 25	6:30 AM to 8:00 AM	Marriott Marquis	Solana
Academy of Toxicological Sciences Reception (<i>Ticket Required</i>)	Wednesday, Mar 25	8:30 PM to 10:00 PM	Marriott Marquis	San Diego Ballroom C
Allegheny-Erie and Michigan Regional Chapters Joint Reception	Monday, Mar 23	5:00 PM to 6:30 PM	Marriott Marquis	Balboa
Alternative Models Developing in KIT for Predictive Toxicology	Monday, Mar 23	1:45 PM to 2:45 PM	Convention Center	Room 22
American Association of Chinese in Toxicology Special Interest Group Reception and Distinguished Chinese Toxicologist Lectureship Presentation	Monday, Mar 23	5:00 PM to 8:00 PM	Marriott Marquis	San Diego Ballroom B
American Association of Chinese in Toxicology/Korean Toxicologists Association in America Special Interest Groups Career Workshop 1: Current US Job Market for Toxicologists	Tuesday, Mar 24	7:30 AM to 9:00 AM	Convention Center	Room 3
American Association of Chinese in Toxicology Special Interest Group Career Workshop 2: Opportunities for Toxicologists in China	Tuesday, Mar 24	12:00 Noon to 1:30 PM	Convention Center	Room 3
American Board of Toxicology Board of Directors Meeting	Saturday, Mar 21	12:00 Noon to 6:00 PM	Marriott Marquis	Encinitas
American Board of Toxicology Breakfast on Global Toxicology Professional Certification: Why ABT Certification Is Important?	Wednesday, Mar 25	7:00 AM to 8:30 AM	Buster's Beach House	
American Board of Toxicology Open Mixer Meeting	Monday, Mar 23	4:30 PM to 6:00 PM	Marriott Marquis	Rancho Santa Fe
Announcement of Daily Winner of Diamond Level Supporter Exhibitor Drawing	Monday, Mar 23	12:45 PM to 1:00 PM	Convention Center	Exhibit Hall
Announcement of Daily Winner of Diamond Level Supporter Exhibitor Drawing	Tuesday, Mar 24	12:45 PM to 1:00 PM	Convention Center	Exhibit Hall
Announcement of Exhibitor provided Raffle Prizes	Wednesday, Mar 25	12:30 PM to 12:45 PM	Convention Center	Exhibit Hall
Announcement of Daily Winner of Diamond Level Supporter Exhibitor Drawing	Wednesday, Mar 25	12:45 PM to 1:00 PM	Convention Center	Exhibit Hall
Arizona Night	Sunday, Mar 22	7:30 PM to 10:30 PM	Marriott Marquis	Torrey Pines
Association of Scientists of Indian Origin Special Interest Group Lunch and Learn	Tuesday, Mar 24	12:00 Noon to 2:00 PM	Marriott Marquis	La Costa
Association of Scientists of Indian Origin Special Interest Group Reception	Monday, Mar 23	7:00 PM to 9:00 PM	Marriott Marquis	Temecula
Audit Committee Meeting	Tuesday, Mar 24	9:00 AM to 10:30 AM	Convention Center	Room 13
Awards Ceremony (<i>All Attendees Welcome</i>)	Sunday, Mar 22	5:15 PM to 6:30 PM	Convention Center	Ballroom 6A
Awards Ceremony Music—Performed by Amy Lynn Kanner (<i>All Attendees Welcome</i>)	Sunday, Mar 22	4:45 PM to 5:15 PM	Convention Center	Ballroom 6A
Awards Committee Meeting	Tuesday, Mar 24	7:00 AM to 8:00 AM	Convention Center	Room 14B
Awards Recipients Photographed (<i>By Invitation Only</i>)	Sunday, Mar 22	4:00 PM to 5:00 PM	Convention Center	Room 5
B				
Biological Modeling Specialty Section Meeting/Reception	Wednesday, Mar 25	6:00 PM to 7:30 PM	Convention Center	Room 30E
Biotechnology Specialty Section Meeting/Reception	Wednesday, Mar 25	6:00 PM to 7:30 PM	Convention Center	Room 31C
Board of Publications Meeting	Wednesday, Mar 25	12:00 Noon to 2:00 PM	Convention Center	Room 14B
C				
Calvert Labs Consultant Appreciation Breakfast	Tuesday, Mar 24	7:00 AM to 8:30 AM	Marriott Marquis	Cardiff
Carcinogenesis Specialty Section Meeting/Reception	Monday, Mar 23	6:00 PM to 7:30 PM	Convention Center	Room 31C
Carcinogenesis Specialty Section Officers Meeting	Monday, Mar 23	6:30 AM to 8:00 AM	Convention Center	Room 25

Schedule by Event Name (Continued)

Tired of carrying the *Program* during the meeting? Access the real-time schedule via the Mobile Event App or Online Planner.
(Schedule as of February 6; private events are not listed.)

Event:	Date:	Time:	Location:	Room:
Cardiovascular Toxicology Specialty Section Meeting/Luncheon	Tuesday, Mar 24	12:00 Noon to 1:30 PM	Convention Center	Room 29A
Career Resource and Development Committee Meeting	Sunday, Mar 22	7:30 AM to 9:30 AM	Convention Center	Room 12
Committee on Diversity Initiatives Reunion (Invited: All Current and Past Participants and Volunteers in the Undergraduate Education Program)	Saturday, Mar 21	7:30 PM to 8:30 PM	Convention Center	Room 33B
Central States Regional Chapter Meeting/Breakfast	Monday, Mar 23	7:00 AM to 8:00 AM	Marriott Gaslamp	Soleil @ K Restaurant
<i>Chemico-Biological Interactions</i> Editorial Board Meeting	Tuesday, Mar 24	6:30 PM to 8:30 PM	Marriott Marquis	San Diego Ballroom C
Clinical and Translational Toxicology Specialty Section Meeting/Reception	Wednesday, Mar 25	6:00 PM to 7:30 PM	Convention Center	Room 31A
Clinical and Translational Toxicology Specialty Section Officers Meeting	Monday, Mar 23	6:30 AM to 8:00 AM	Convention Center	Room 25
CME Task Force Meeting	Monday, Mar 23	11:00 AM to 12:00 Noon	Convention Center	Room 12
Coat/Luggage Check	Sunday, Mar 22	8:00 AM to 8:00 PM	Convention Center	Lobby C
Coat/Luggage Check	Monday, Mar 23	7:00 AM to 8:00 PM	Convention Center	Lobby C
Coat/Luggage Check	Tuesday, Mar 24	7:00 AM to 8:00 PM	Convention Center	Lobby C
Coat/Luggage Check	Wednesday, Mar 25	7:00 AM to 8:00 PM	Convention Center	Lobby C
Coat/Luggage Check	Thursday, Mar 26	7:00 AM to 12:00 Noon	Convention Center	Lobby C
Committee on Diversity Initiatives Meeting	Wednesday, Mar 25	7:00 AM to 8:30 AM	Convention Center	Room 14B
Communicating Science Workshop (By Invitation Only)	Thursday, Mar 26	1:30 PM to 4:30 PM	Convention Center	Room 8
Comparative and Veterinary Specialty Section Meeting/Luncheon	Monday, Mar 23	12:00 Noon to 1:30 PM	Convention Center	Room 3
Complimentary Coffee	Monday, Mar 23	9:00 AM to 10:00 AM	Convention Center	Exhibit Hall
Complimentary Coffee	Tuesday, Mar 24	9:00 AM to 10:00 AM	Convention Center	Exhibit Hall
Complimentary Coffee	Wednesday, Mar 25	9:00 AM to 10:00 AM	Convention Center	Exhibit Hall
Complimentary Lemonade and Popcorn	Monday, Mar 23	2:30 PM to 3:30 PM	Convention Center	Exhibit Hall
Complimentary Lemonade and Popcorn	Tuesday, Mar 24	2:30 PM to 3:30 PM	Convention Center	Exhibit Hall
Complimentary Lemonade and Popcorn	Wednesday, Mar 25	2:30 PM to 3:30 PM	Convention Center	Exhibit Hall
Concession Stands	Sunday, Mar 22	7:00 AM to 4:00 PM	Convention Center	Lobby A
Concession Stands	Monday, Mar 23	7:00 AM to 4:00 PM	Convention Center	Ballroom 6 Foyer
Concession Stands	Monday, Mar 23	8:30 AM to 2:00 PM	Convention Center	Exhibit Hall
Concession Stands	Tuesday, Mar 24	7:30 AM to 4:00 PM	Convention Center	Ballroom 6 Foyer
Concession Stands	Tuesday, Mar 24	8:30 AM to 2:00 PM	Convention Center	Exhibit Hall
Concession Stands	Wednesday, Mar 25	7:30 AM to 4:00 PM	Convention Center	Ballroom 6 Foyer
Concession Stands	Wednesday, Mar 25	8:30 AM to 2:00 PM	Convention Center	Exhibit Hall
Concession Stands	Thursday, Mar 26	8:00 AM to 12:00 Noon	Convention Center	Ballroom 6 Foyer
Contemporary Concepts in Toxicology Conference Committee Meeting	Wednesday, Mar 25	7:30 AM to 8:30 AM	Convention Center	Room 15B
Continuing Education Committee Walk-Through	Saturday, Mar 21	4:30 PM to 5:15 PM	Convention Center	Ballroom 6B
Continuing Education Luncheon for Speakers, Committee, and Student Volunteers (By Invitation Only)	Sunday, Mar 22	11:45 AM to 1:15 PM	Convention Center	Room 4
Continuing Education Sunrise Mini-Course (Ticket Required)	Sunday, Mar 22	7:00 AM to 7:45 AM	Convention Center	Ballroom 6B
Continuing Education Morning Courses (Ticket Required)	Sunday, Mar 22	8:15 AM to 12:00 Noon	Convention Center	Upper Level
Continuing Education Afternoon Courses (Ticket Required)	Sunday, Mar 22	1:15 PM to 5:00 PM	Convention Center	Upper Level
Continuing Education Committee Meeting	Monday, Mar 23	12:00 Noon to 1:30 PM	Convention Center	Room 14A
Council Luncheon	Saturday, Mar 21	12:00 Noon to 1:00 PM	Marriott Marquis	Carlsbad
Council Meeting	Saturday, Mar 21	1:00 PM to 5:30 PM	Marriott Marquis	Cardiff
Council Members Photographed	Sunday, Mar 22	3:30 PM to 4:00 PM	Convention Center	Room 5
Council Orientation Breakfast	Saturday, Mar 21	7:30 AM to 8:00 AM	Marriott Marquis	Carlsbad
Council Orientation Meeting	Saturday, Mar 21	8:00 AM to 12:00 Noon	Marriott Marquis	Cardiff

Schedule by Event Name (Continued)

Tired of carrying the *Program* during the meeting? Access the real-time schedule via the Mobile Event App or Online Planner. (Schedule as of February 6; private events are not listed.)

Event:	Date:	Time:	Location:	Room:
D				
Department of Defense Government Liaison Group	Tuesday, Mar 24	1:00 PM to 2:00 PM	Convention Center	Room 14B
Dermal Toxicology Specialty Section Meeting/Reception	Wednesday, Mar 25	6:00 PM to 7:30 PM	Convention Center	Room 30C
Dermal Toxicology Specialty Section Officers Meeting	Monday, Mar 23	6:30 AM to 8:00 AM	Convention Center	Room 25
Distinguished Toxicology Scholar Award Lecture: Allergic Sensitization: Defining Molecular Mechanisms and Characterizing Hazard and Risk, <i>Lecturer: Ian Kimber, University of Manchester</i>	Wednesday, Mar 25	12:30 PM to 1:20 PM	Convention Center	Ballroom 6B
Drug Discovery Toxicology Specialty Section Lunch with an Expert	Monday, Mar 23	12:00 Noon to 1:30 PM	Convention Center	Room 27
Drug Discovery Toxicology Specialty Section Meeting/Reception	Tuesday, Mar 24	6:00 PM to 7:30 PM	Convention Center	Room 27
E				
Education Committee Meeting	Tuesday, Mar 24	6:45 AM to 8:30 AM	Convention Center	Room 15B
<i>Elsevier</i> Editorial Board Member Reception	Monday, Mar 23	5:00 PM to 7:00 PM	Marriott Marquis	Bayside Pavilion
Endowment Fund Board Meeting	Tuesday, Mar 24	12:00 Noon to 1:30 PM	Convention Center	Room 15B
EPA CSS STAR Center Awards Kick Off Session: Organotypic Culture Models for Predictive Toxicology Center	Wednesday, Mar 25	4:30 PM to 7:00 PM	Convention Center	Room 5A
Ethical, Legal, and Social Issues Specialty Section Meeting/Luncheon	Wednesday, Mar 25	12:00 Noon to 1:30 PM	Convention Center	Room 31A
Exhibitor-Hosted Sessions:				
Exhibitor-Hosted Session: Agilent Technologies	Wednesday, Mar 25	1:45 PM to 2:45 PM	Convention Center	Room 24A
Exhibitor-Hosted Session: Alberta Centre for Toxicology and The Hamner Institutes	Tuesday, Mar 24	4:00 PM to 5:00 PM	Convention Center	Room 24A
Exhibitor-Hosted Session: Algorithm Pharma	Tuesday, Mar 24	10:00 AM to 11:00 AM	Convention Center	Room 24A
Exhibitor-Hosted Session: American Preclinical Services	Tuesday, Mar 24	1:00 PM to 2:00 PM	Convention Center	Room 24A
Exhibitor-Hosted Session: APTUIT LLC	Monday, Mar 23	4:45 PM to 5:45 PM	Convention Center	Room 24B
Exhibitor-Hosted Session: APTUIT LLC	Tuesday, Mar 24	4:00 PM to 5:00 PM	Convention Center	Room 22
Exhibitor-Hosted Session: Battelle	Tuesday, Mar 24	2:30 PM to 3:30 PM	Convention Center	Room 22
Exhibitor-Hosted Session: BioreclamationIVT and InSphero	Monday, Mar 23	9:15 AM to 10:15 AM	Convention Center	Room 24C
Exhibitor-Hosted Session: BioReliance	Monday, Mar 23	3:15 PM to 4:15 PM	Convention Center	Room 22
Exhibitor-Hosted Session: BioReliance	Tuesday, Mar 24	1:00 PM to 2:00 PM	Convention Center	Room 22
Exhibitor-Hosted Session: BioReliance	Wednesday, Mar 25	1:45 PM to 2:45 PM	Convention Center	Room 24B
Exhibitor-Hosted Session: Cellular Dynamics International and ACEA Biosciences	Tuesday, Mar 24	11:30 AM to 12:30 PM	Convention Center	Room 24B
Exhibitor-Hosted Session: Charles River	Monday, Mar 23	1:45 PM to 2:45 PM	Convention Center	Room 24C
Exhibitor-Hosted Session: Charles River	Tuesday, Mar 24	1:00 PM to 2:00 PM	Convention Center	Room 24C
Exhibitor-Hosted Session: Charles River	Wednesday, Mar 25	9:15 AM to 10:15 AM	Convention Center	Room 24C
Exhibitor-Hosted Session: CiToxLAB and Ellegaard Göttingen Minipigs	Tuesday, Mar 24	2:30 PM to 3:30 PM	Convention Center	Room 24B
Exhibitor-Hosted Session: Covance	Monday, Mar 23	9:15 AM to 10:15 AM	Convention Center	Room 24B
Exhibitor-Hosted Session: Covance	Wednesday, Mar 25	9:15 AM to 10:15 AM	Convention Center	Room 24B
Exhibitor-Hosted Session: Cyprotex	Monday, Mar 23	10:45 AM to 11:45 AM	Convention Center	Room 24B
Exhibitor-Hosted Session: Data Sciences International	Tuesday, Mar 24	11:30 AM to 12:30 PM	Convention Center	Room 22
Exhibitor-Hosted Session: Datacolor Inc.	Tuesday, Mar 24	10:00 AM to 11:00 AM	Convention Center	Room 24B
Exhibitor-Hosted Session: EMD Millipore	Wednesday, Mar 25	12:15 PM to 1:15 PM	Convention Center	Room 24A
Exhibitor-Hosted Session: EPISKIN Academy	Monday, Mar 23	12:15 PM to 1:15 PM	Convention Center	Room 24A
Exhibitor-Hosted Session: Fraunhofer ITEM	Monday, Mar 23	12:15 PM to 1:15 PM	Convention Center	Room 24B
Exhibitor-Hosted Session: Hepregen Corporation	Tuesday, Mar 24	8:30 AM to 9:30 AM	Convention Center	Room 24B
Exhibitor-Hosted Session: HTG Molecular Diagnostics	Tuesday, Mar 24	11:30 AM to 12:30 PM	Convention Center	Room 24C

Metropolitan Transit System

The Metropolitan Transit System (MTS) offers fast and convenient service from the airport to the San Diego Convention Center. MTS operates a light rail system called the San Diego Trolley (www.sdmts.com/trolley/trolley.asp). In addition to the trolley, MTS bus route 992 directly services the airport and the downtown area. Please visit www.sdmts.com/home1.asp for information on various routes, fares, and schedules.

SOT | Contemporary Concepts in Toxicology

Stay Current During the 54th Annual Meeting and ToxExpo

During the 54th Annual Meeting and ToxExpo, Society of Toxicology reporters will provide timely commentary on the scientific sessions through the SOT *Communiqué* blog. Additionally, up-to-date news about the toxicological research, technology, and innovations being presented will be available through SOT's Facebook (www.facebook.com/societyoftoxicology) and Twitter feeds (@SOToxicology and @ToxExpo).

Want to start the conversations? Email marcia@toxicology.org to become an SOT reporter or use #2015SOT and #ToxExpo when posting to your own Facebook and Twitter accounts about content related to the meeting.

SOT Pavilion

Your Place to Connect at the Annual Meeting

Located in the ToxExpo Exhibit Hall, the SOT Pavilion is your place to connect and learn about SOT programs, services, membership benefits, and more. Find out about the SOT Endowment Fund, *Toxicological Sciences*, SOT awards, supported awards and fellowships, ToXchange—the SOT member network—educational programs from K–12 throughout the toxicology career, and everything taking place at the Annual Meeting. The SOT Pavilion is your place on the exhibit floor for all you want to learn about SOT and more. It's a great place to connect, network, and discover what's new.

The SOT Pavilion is Booth 526 inside the Exhibit Hall.

Find out how you can:

- Apply to Join SOT or Check on Member Status
- Participate in Your SOT Regional Chapter, Special Interest Group, and/or Specialty Section
- Connect through the SOT Website
- Learn about the Wide Variety of SOT's Online Resources
- Get One-on-One SOT Mobile Event App and Online Planner Assistance
- Utilize the SOT Job Bank
- Actively Participate in ToXchange, the Private and Secure SOT Member Network
- Nominate and/or Apply for SOT Awards

SOT component group (Regional Chapters, Special Interest Groups, and Specialty Sections) and Global Gallery of Toxicology posters will be on display each day throughout ToxExpo hours. Stop by for a special "Representative Attended" poster session from 11:45 am–12:15 pm on Monday, March 23. "Meet the Leaders" each day from 3:00 pm–4:00 pm and learn more about the component groups within the Society of Toxicology.

Come see the High School Poster Exposition across from the SOT Pavilion from 10:30 am–12:30 pm on Tuesday, March 24.

Meet with Toxicological Sciences Editors

Monday–Wednesday

Gary W. Miller, Editor-in-Chief

10:00 am–11:00 am
and 2:00 pm–3:00 pm

Virginia Hawkins,
Managing Editor
9:00 am–4:00 pm

A schedule of events in the SOT Pavilion can be found on page 56 or by using the 2015 SOT Mobile Event App.

Advance Your Science
Be Connected • Be Involved • Be Informed • Be Inspired

Secure contract providing data collection systems for an international organization

Offer show site discount on newest toxicology-related books

Debate the latest medical device in the industry

Monday

9:15 AM to 10:15 AM

Presented by	Topic	Room	Page
Bioreclamation/VT and InSphero Inc.	3D Microtissue Cultures: Use in Long-Term Hepatocyte ADME-Tox Studies	Room 24C	140
Covance	From Candidate Drug to Clinical POC: Managing the Continuum	Room 24B	140
MPI Research	Safety Biomarkers in Preclinical Studies: A Clinical Pathology Perspective	Room 24A	140
Toxikon Corporation	Considerations for Nonclinical Safety Testing of Biologics, Biosimilars, and Biobetters	Room 22	140

10:45 AM to 11:45 AM

Presented by	Topic	Room	Page
Cyprotex	Utilization of <i>In Vitro</i> Mechanistic and 3D Models to Improve the Prediction of Hepatotoxicity and Cardiotoxicity	Room 24B	165
Huntingdon Life Sciences/Harlan Laboratories	The Immunology of Immunogenicity?	Room 24C	164
Lhasa Limited	Computational Approach to Managing Mutagenicity Risk for ICH M7 and Beyond	Room 22	164
Promega Corporation	Adapting Cell-Based Assays to 3D Culture Models	Room 24A	164

12:15 PM to 1:15 PM

Presented by	Topic	Room	Page
EPISKIN Academy	Overview of Cutaneous Safety and Efficacy Assessment with Reconstructed Human Epidermis (RHE)	Room 24A	168
Fraunhofer ITEM	Alternative Methods in Inhalation Toxicology	Room 24B	168
PDS Preclinical Lifesciences Inc and Integrated Nonclinical Development Solutions (INDS) Inc	Impact of Electronic Standards on Drug Development Landscape	Room 22	168
RTC and Ellegaard Göttingen Minipigs	The Göttingen Minipig As Experimental Model for Anti-Neoplastic Drug Toxicity	Room 24C	169

1:45 PM to 2:45 PM

Presented by	Topic	Room	Page
Charles River	Diabetes and Weaker Bones— Exploring the Connection	Room 24C	195
IDEXX Laboratories	The Gut Microbiota As a Source of Variability in Animal Models	Room 24A	195
Korea Institute of Toxicology	Alternative Models Developing in KIT for Predictive Toxicology	Room 22	195
Lovelace Respiratory Research Institute	Solutions and Lessons Learned with Inhaled Compounds in the Pharmaceutical and Chemical Industries: Perspective and Insights from Key Opinion Leaders James Swenberg and Chet Leach	Room 24B	195

3:15 PM to 4:15 PM

Presented by	Topic	Room	Page
BioReliance	Further Exploration of Study Design for Tg.rash2 Mouse Carcinogenicity Studies	Room 22	200
InSphero Inc.	3D Microtissues Meet OMICS Technologies and High-Content Imaging	Room 24C	200
MultiCASE Inc	<i>In Silico</i> Approach to the ICH M7 Challenges	Room 24B	200
NSF International	Chemical Risk Assessment Best Practices	Room 24A	200

4:45 PM to 5:45 PM

Presented by	Topic	Room	Page
APTUIT LLC	Strategies to Reduce Attrition in Early and Late Stages of Drug Development	Room 24B	201
Instem	Practical SEND Planning and Implementation: Key Learnings from a Dedicated Community of Experience and Expertise	Room 24C	201
Leadscope, Inc.	Semi-Automatic Generation of Expert Reports for ICH M7 Regulatory Submissions	Room 24A	201

TOXEXPO

Copies of the *ToxExpo Directory* are available at Registration and inside the entrance of ToxExpo.

*“Come run with the leadership and
enjoy the fellowship of SOT”
—William Slikker Jr.
SOT 2012–2013 President*

Please see page 45
for more details.

Tuesday

8:30 AM to 9:30 AM

Presented by	Topic	Room	Page
Hepregen Corporation	The Use of Human HepatoPac, an <i>In Vitro</i> MicroLiver Platform, for Predictive Toxicology	Room 204 24B	
MPI Research	Challenges, Conundrums, and the “Catch-22” in Abuse Liability Testing for NDA Approvals: The Bugaboo of Biologics?	Room 22	203
Toxikon Corporation	Key Factors an End-User Must Consider When Examining a Vendor’s Extractable/Leachable Program	Room 24C	204
WuXi AppTec	Considerations and Challenges Associated with Medical Device Risk Assessment	Room 24A	203

10:00 AM to 11:00 AM

Presented by	Topic	Room	Page
Algorithme Pharma	Overcoming Challenges during Preclinical Sample Collection to Minimize the Impact on Toxicological Data	Room 24A	234
Datacolor Inc.	Application of Color Calibration in Photomicrography for Toxicologic Pathology	Room 24B	234
Huntingdon Life Sciences/Harlan Laboratories	Less Compound, Less Cost—How to Succeed in Early-Phase Inhalation Programs	Room 22	234
In Vitro ADMET Laboratories, LLC	<i>In Vitro</i> Hepatotoxicity Evaluation with Cryopreserved Human, Animal, and Transgenic Animal Hepatocytes	Room 24C	234

11:30 AM to 12:30 PM

Presented by	Topic	Room	Page
Cellular Dynamics International and ACEA Biosciences	Making Cardiotoxicity Prediction Simple and Relevant: Human iPSC-Cardiomyocytes and Integrated Impedance and Field Potential-Based Assays Enable Highly Predictive Cardiotoxicity Assessments across Multiple Mechanisms	Room 24B	235
Data Sciences International	Structural and Functional Endpoints in Repeat-Dose Toxicity Cardiovascular Risk Assessments and the Use of <i>In Vivo</i> Physiologic Monitoring	Room 22	235
HTG Molecular Diagnostics	Fully Automated and Easy-to-Use Solution for Your Cytochrome p450 Gene Expression Testing	Room 24C	234
Lovelace Respiratory Research Institute	Models of Chemical, Biological, Radiological, Nuclear, and Explosive (CBRNE) Threats: Considerations for Drug Development under the Animal Rule	Room 24A	235

1:00 PM to 2:00 PM

Presented by	Topic	Room	Page
American Preclinical Services	Improved Methods for <i>In Vivo</i> and <i>In Vitro</i> Thrombogenicity Testing for Medical Devices	Room 24A	261
BioReliance	Revised OECD Test Guidelines for Genetic Toxicology	Room 22	261
Charles River	Usefulness of Biomarkers in Support of Preclinical Studies	Room 24C	261
ICF International	Using DRAGON to Implement Systematic Review: Lessons Learned	Room 24B	261

2:30 PM to 3:30 PM

Presented by	Topic	Room	Page
Battelle	The Path to Licensure: Ebola Vaccines	Room 22	267
CToxLAB and Ellegaard Göttingen Minipigs	Reproductive and Juvenile Studies in Minipigs	Room 24B	266
InSphero Inc.	3D Liver Models and Beyond: 3D Hepatic, Cardiac, Pancreatic, and Neural Microtissue Models for Toxicity Testing	Room 24C	266
Stemina Biomarker Discovery, Inc.	Application Study: Human-Induced Pluripotent Stem (iPS) Cell Assay As a Tool for Compound Ranking Based on Human Developmental Toxicity Potential	Room 24A	266

Your 24/7 source for the latest developments in equipment, technology, toxicology services, and publications

Copies of the *ToxExpo Directory* are available at Registration and inside the entrance of ToxExpo.

Exhibitor-Hosted Session Index (Continued)

ToxExpo 2016 Exhibit Space Selection Process

Tuesday, March 25, at 4:45 PM in Room 22

Priority Point booth sales for 2016 will take place on an appointment basis at the ToxExpo Sales Office. Those companies in higher point levels will be contacted in advance of the show with their scheduled appointment time. If you did not receive an appointment in advance, please plan to attend the 2016 Sales Meeting.

4:00 PM to 5:00 PM

Presented by	Topic	Room	Page
Alberta Centre for Toxicology and The Hamner Institutes	Utilization of the Impedance-Based xCELLigence Real-Time Cell Analysis (RTCA) Technology for <i>In Vitro</i> Health Risk Assessment	Room 24A	267
APTUIT LLC	Efficiently Integrating CMC and Preclinical Safety/DMPK to Streamline the Access to Phase I: Is the Balance between Speed, Cost, and Risk Management Possible?	Room 22	267
PointCross LifeSciences, Inc	SEND Compliance with US FDA Guidance	Room 24B	267
Takara Bio Europe AB (formerly Cellartis)	Stem Cell-Derived Hepatocytes with Enhanced Drug Metabolizing Functions	Room 24C	267

Wednesday

9:15 AM to 10:15 AM

Presented by	Topic	Room	Page
Charles River	Consequences of Immunogenicity in Nonclinical Safety Studies	Room 24C	296
Covance	Metabolites in Safety Testing—A Novel Key to Turn for Your 3Rs Initiatives	Room 24B	296
MPI Research	Application of Molecular Imaging and Radiochemistry in Drug Development	Room 24A	296

Win \$500!

Visit Diamond Level Supporter booths (marked with a diamond symbol on pages 36–38) and drop your business card into the drawing box.

\$500 American Express Gift Card awarded daily!

10:45 AM to 11:45 AM

Presented by	Topic	Room	Page
Hµrel Corporation	HµREL: “Plug-and-Play” Primary Hepatic Models for a Variety of Definitive Hepatotoxicity Applications	Room 24B	297
Organovo	Unraveling the Gordian Knot of Predictive Toxicology: Can Next-Gen Culture Systems Solve the Puzzle?	Room 24A	297
Toxikon Corporation	Blending Biocompatibility and Pharmaceutical Testing Processes to Obtain Subacute, Subchronic, and Chronic Toxicity Evaluations of Medical Devices	Room 24C	296

12:15 PM to 1:15 PM

Presented by	Topic	Room	Page
EMD Millipore	Kidney Toxicity Biomarker Analysis Tips from the Experts: Why Just Multiplex When You Can MILLIPLEX?	Room 24A	299
Huntingdon Life Sciences/Harlan Laboratories	Advances in <i>In Vitro</i> and <i>In Silico</i> Techniques: Regulatory Acceptance Worldwide	Room 24C	299

1:45 PM to 2:45 PM

Presented by	Topic	Room	Page
Agilent Technologies	Sharpen the Focus of Your Toxicology Research Program Using Agilent’s Integrated Biology/Omics Solutions	Room 24A	329
BioReliance	Advanced <i>In Vitro</i> ADME and Toxicology Services Designed to Improve Drug Safety and Efficacy	Room 24B	329

Additional sessions may be scheduled after the printing of this Program. Please see the ToxExpo Directory or use the Mobile Event App for the most current schedule.

ePosters—A Convenient Way to View Posters

Did you miss the opportunity to view a poster of interest?

In addition to attending Poster Sessions, you can view some posters through the SOT Mobile Event App.

Search and view the ePosters on your mobile device using the ePoster feature in the SOT Mobile Event App—before, during, and after the meeting (until May 11, 2015).

If you are a poster presenter, please take a few minutes to upload your PowerPoint or PDF poster through an Internet-based, user-friendly presentation system prior to the meeting at <https://cms.psav.com/sot2015> or during the meeting in the Speaker Ready Room at the San Diego Convention Center, Room 11B.

Copies of the ToxExpo Directory are available at Registration and inside the entrance of ToxExpo.

Join SOT at the level of membership that's right for you!

Founded in 1961, the Society of Toxicology includes more than 7,800 members from nearly 60 countries worldwide. SOT members are drawn from academic institutions, industry, and government service, among other areas, and are active in myriad related fields and professions. All members partner with SOT in advancing science to enhance human, animal, and environmental health. You may apply to join the SOT at the following membership levels:

Student—be enrolled in a graduate degree program related to toxicology

Postdoctoral—hold a PhD or other doctoral degree (e.g., MD, DVM) with an interest in toxicology, and be under the direction of a research mentor

Associate—be engaged in continuing professional scientific activities in toxicology

Full—demonstrate a continuing professional interest in toxicology and have conducted and published original research, and/or be generally recognized as expert in some area of toxicology

Apply for—or upgrade to—the level of membership that's right for you! Please see the SOT website (www.toxicology.org/ms/join.asp) or visit the SOT Pavilion (Booth 526) for further information.

Undergraduate students may become **SOT Undergraduate Student Affiliates**.

As an SOT member you can...

Communicate, connect, and collaborate with colleagues via **ToXchange**, the professional, secure SOT member network, and keep current at www.toxicology.org with member-only information.

Qualify for reduced SOT member rates for the SOT Annual Meeting, Continuing Education Courses, and Contemporary Concepts in Toxicology topical meetings.

Access the official journal of SOT, *Toxicological Sciences*, online and/or choose to receive in print.

Utilize Career Resources such as the SOT Job Bank, and register to find or be a mentor on Mentor Match.

Qualify for exclusive SOT member awards from Graduate Student Travel Support and Research Training to Postdoctoral Fellowships, Traveling Lectureships, SOT Awards, and more!

Plus...

Join one or more of 27 Specialty Sections, 18 Regional Chapters, or 6 Special Interest Groups that provide a variety of networks for exchanging information and collaborating with peers.

Note: Graduate Student and Postdoctoral members may *join one Specialty Section and one Special Interest Group at no additional cost*.

Membership Fees:

Full Membership	\$138	Postdoctoral Membership.....	\$35
Associate Membership	\$138	Student Membership	\$20

Reduced Dues and Membership Dues Assistance for Scientists from Developing Countries*

Full and Associate Developing Countries Membership	\$50
Student and Postdoctoral Developing Countries Membership.....	\$10

Student and Postdoctoral members may also qualify for a dues waiver through the Membership Dues Assistance Program.

Special offer to nonmember 2015 Annual Meeting attendees: submit your completed application by May 1, 2015 and, upon acceptance, SOT will waive your 2015 membership dues!

Membership

www.toxicology.org

*For complete information about membership in the Society of Toxicology, visit the SOT website at www.toxicology.org and select "Join SOT" at the top of the page.

54th Annual Meeting and ToxExpo™
San Diego, California

March 22–26, 2015 • San Diego Convention Center

Registration

Annual Meeting Registration Fees

	On-Site
SOT Member	\$420
Nonmember	\$760
SOT Retired/Emeritus Member	\$170
Postdoctoral SOT Member	\$185
Postdoctoral Nonmember [†]	\$270
Graduate Student SOT Member.....	\$165
Graduate Student Nonmember [†]	\$230
Undergraduate Student.....	\$0
High School Student	\$0
SOT Affiliate	\$0
Press	\$0
Guest (Nonscientist).....	\$100

*(Guests do not have access to the Scientific Sessions or the ToxExpo.)
[†] = Rates for Physicians-in-Training Resident and Fellow Nonmembers and Medical Student Nonmembers, for PM11 (CE/CME) course only. Physicians-in-Training Resident and Fellow Nonmembers, and Medical Student Nonmembers, should contact SOT Headquarters for further registration information. Note: Registration fees are for the Annual Meeting and the CE/CME course only and not for the CME credits themselves.*

Continuing Education Sunrise Mini-Course Fees

(includes continental breakfast)

(Only Annual Meeting Registrants May Enroll in CE Courses.)

	On-Site
SOT Member/Affiliate.....	\$125
SOT Retired/Emeritus Member	\$125
Nonmember	\$145
Postdoctoral	
<i>(SOT Member or Nonmember)</i>	\$125
Graduate or Undergraduate Student	
<i>(SOT Member or Nonmember)</i>	\$95
Press	\$0

Continuing Education Course Fees

(per morning or afternoon course)

(Only Annual Meeting Registrants May Enroll in CE Courses.)

	On-Site
SOT Member/SOT Affiliate.....	\$220
SOT Retired/Emeritus Member	\$180
Nonmember	\$370
Postdoctoral <i>(SOT Member or Nonmember)</i> [†]	\$160
Graduate or Undergraduate Student	
<i>(SOT Member or Nonmember)</i> [†]	\$115
Press	\$0

Annual Meeting Registration Includes:

- Awards Ceremony, Sunday, March 22, 5:15 pm–6:30 pm.
- Welcome Reception, Sunday, March 22, 6:30 pm–7:30 pm.
- Plenary Opening Lecture, Monday, March 23, 8:00 am–9:00 am.
- All Scientific Sessions, 9:15 am, Monday, March 23, through 12:00 noon, Thursday, March 26 (see Program Schedule beginning on page 131 for additional details).
- ToxExpo, Exhibit Hall, 9:00 am–4:30 pm, Monday, March 23; 8:30 am–4:30 pm, Tuesday, March 24, and Wednesday, March 25.

Participants also are encouraged to register for the Continuing Education Courses. These are available during three time intervals on Sunday, March 22—the Sunrise Mini-Course is 7:00 am–7:45 am, morning courses are 8:15 am–12:00 noon, and afternoon courses are 1:15 pm–5:00 pm.

Badges

Annual Meeting attendees who register by January 31, 2015, will receive badges and registration materials in the mail. Attendees who already have their 2015 Annual Meeting badges do not need to wait in the registration line. If you have registered and have NOT received your badge by mail, or need a replacement badge, go to the “BADGE PICK UP” registration counter to pick up your badge. You will be asked to show a photo ID.

If you have not registered for the meeting before you arrive in San Diego, please complete the on-site Registration Form found at the kiosks in the Registration area and proceed to the appropriate registration line.

For security reasons, badges may not be altered. Please go to the SOT on-site Registration to update information on your badge.

Registration Hours

The Registration Desk is located in the lobby of the Ground Level in the San Diego Convention Center.

Registration hours:

Saturday.....	4:00 PM–7:00 PM
Sunday	7:00 AM–8:00 PM
Monday.....	7:00 AM–5:00 PM
Tuesday.....	8:00 AM–4:00 PM
Wednesday.....	8:00 AM–4:00 PM
Thursday	8:00 AM–12:00 Noon

Registration Confirmation

You should receive a registration confirmation/receipt via email regardless of whether you registered online, by mail, or by fax. If you don't receive your confirmation within two weeks, please contact SOT Headquarters at sothq@toxicology.org, or call 703.438.3115.

2015 SOT Annual Meeting Policies

By registering for the 2015 SOT Annual Meeting, you are agreeing to the following terms and conditions:

For individuals who are not members of SOT, participation in SOT's Annual Meeting and ToxExpo is available only to bona fide individuals who are engaged in or promote the field of toxicology or biotechnology research and support the growth and development of the toxicology field. For organizations, participation in the SOT's Annual Meeting and ToxExpo is available only to bona fide organizations with public policy positions and business practices that are generally consistent with SOT's mission, goals, reputation, and its policies and principles as determined by SOT. SOT reserves the right to review applications for participation at SOT's Annual Meeting and ToxExpo to confirm that the applicant meets these criteria and may, at SOT's sole discretion, reject a registration by any individual or organization or withdraw registration privileges at any time if any individual or organization is found to be inconsistent with SOT's principles and interests.

Unless written notification by the registrant, stating otherwise, is submitted to SOT Headquarters prior to the Annual Meeting or while registering on-site, SOT Annual Meeting registrants grant SOT permission:

- To reproduce, copy, and publish image, voice, and any or all media taken at the Annual Meeting.
- To share registrant contact information with organizations that we believe might have a product or service of interest to you. Limited data provided to third parties include name, affiliation, title, and business address. Your telephone and fax numbers, and email will not be disclosed to third parties.
- To share registrant name and affiliation with SOT exhibiting companies.
- To be included in the Attendee listing accessible to meeting registrants using the Mobile Event App—registrant name and affiliation shared.

SOT Annual Meeting registrants are prohibited from:

- Inviting children under the age of 15 and guest/spouse registrants into the Exhibit Hall. Session chair must provide consent for the guest/spouse or child to attend the session.
- Soliciting in the ToxExpo Exhibit Hall unless they are an approved exhibitor. SOT and ToxExpo retains the right to have removed from the exposition any company that has not duly contracted for exhibit space.
- Taking photographs or other electronic capture of scientific sessions in meeting rooms or the ToxExpo without the consent of the session chair and the presenter(s)/author(s).
- Photographing colleagues against the backdrop of scientific posters on display without the express consent of the presenting author(s).
- Photographing exhibit booths.
- Speaking on cell phone while attending scientific sessions.

The policies adopted above will be enforced by the Society. Those individuals who do not comply will be asked to leave the session or ToxExpo floor. If you have any questions regarding these policies, please contact the SOT Headquarters Office.

SOT | Contemporary Concepts in Toxicology

FutureTox III: Transforming 21st Century Science into Risk Assessment and Regulatory Decision-Making

November 19–20, 2015

Hilton Crystal City at Washington Reagan National Airport
Arlington, Virginia

Meeting Overarching Objectives:

- Advancing the cornerstones for high-throughput risk assessment
- Taking TT21C *in vitro* data and *in silico* models forward while reducing reliance on animal testing
- Exploring progress and identifying challenges in implementing the emerging “big-data” toolbox for regulatory decision-making

The conference will include plenary sessions (invited lectures), poster sessions (open presentations), and topical breakout groups.

For more information on this and other CCT meetings, please visit www.toxicology.org/cct.

Tuesday, March 24, 2015

7:00 AM

“Come run with the leadership and enjoy the fellowship of SOT”
– William Slikker Jr., SOT 2012–2013 President

*Thank You to Our Supporter:
IDEXX Laboratories, Inc.*

*To register, visit the Social Events under the Special Events section
of the SOT Annual Meeting website.*

*Registration is only \$20 and all proceeds will go toward
the SOT Endowment Fund.*

ePosters—A Convenient Way to View Posters

Did you miss the opportunity to view a poster of interest? In addition to attending Poster Sessions, you can view some posters through the SOT Mobile Event App.

Search and view the ePosters on your mobile device using the ePoster feature in the SOT Mobile Event App—before, during, and after the meeting (until May 11, 2015).

If you are a poster presenter, please take a few minutes to upload your PowerPoint or PDF poster through an Internet-based, user-friendly presentation system prior to the meeting at <https://cms.psav.com/sot2015> or during the meeting in the Speaker Ready Room at the San Diego Convention Center, Room 11B.

General Information

Accessibility for Persons with Disabilities

The San Diego Convention Center and most of the SOT hotels are accessible to persons with disabilities. If you require special services, please mark the appropriate box on the Annual Meeting Registration Form.

LSA Interpretation Services

800.305.9673

www.lsaweb.com

Language Services Associates is a nationwide full-service firm providing translators and interpreters in 180 languages.

Scooter Rentals:

Scoot Around

888.441.7575

www.scootaround.com

If you require more information about accessibility, please contact Heidi Prange at SOT Headquarters: 703.438.3115 ext. 1424.

Annual Meeting Materials

All Annual Meeting registrants receive a copy of the *Program* that can be picked up on-site. In an effort to conserve resources, the printed *Program* will be mailed ONLY by request (in the US and Canada only). If you wish to receive your printed *Program* before the meeting (request made by February 28), please select the “I want to receive the printed *Program* before the meeting by mail” checkbox on the Registration Form, and the *Program* will be mailed in early March (in the US and Canada only). The *Program* and *The Toxicologist*,* a special issue of *Toxicological Sciences* that includes all meeting abstracts, will be available for download on the SOT website prior to the Annual Meeting.

Pre-Registered: When you arrive at the San Diego Convention Center, if you have received your badge and your requested copy of the *Program* in the mail, you will only need to pick up a badge holder and a copy of the *ToxExpo Directory*, which will be available throughout the center and inside Exhibit Hall. If you have registered and have NOT received your badge by mail, or need a replacement badge, please visit the “BADGE PICK UP” registration counter located in Registration. Your 2015 Annual Meeting registration badge must be presented to obtain access to SOT functions.

Should you need to pick up materials on-site, present your badge to an attendant at one of the handout tables and your request will be fulfilled. Please read the information below:

- SOT Members in the United States and Canada attending the Annual Meeting who selected “I want to receive the printed *Program* before the meeting by mail” when they registered received the printed *Program* prior to the Annual Meeting.

- SOT Members in the United States and Canada not attending the Annual Meeting may request that a copy of the *Program* be mailed following the Annual Meeting. Send email requests to jimd@toxicology.org.
- SOT Members outside of the United States and Canada may pick up the printed *Program* at the meeting or may request that it be mailed following the Annual Meeting. Send email requests to jimd@toxicology.org.
- Non-SOT Members in the United States and Canada who registered on or before February 28 and selected the “I want to receive the printed *Program* before the meeting by mail” received the printed *Program* prior to the Annual Meeting. All non-SOT Members who registered after February 28 (and non-SOT Members from outside of the United States or Canada) may pick up the printed *Program* at the meeting.

Materials for Those Who Need to Register On-Site: If you have not already registered, please go to the counter in Registration in the San Diego Convention Center to complete this process. When you have received your registration badge and event/CE course tickets, simply stop by one of the handout tables and present your badge to obtain the Annual Meeting materials (i.e., the *Program*, the *ToxExpo Directory*, and other supplementary materials).

Download the Mobile Event App or access the Online Planner to view the most up-to-date meeting information. These tools enable you to engage with organizers, exhibitors, and each other, and to manage your time and maximize your experience at the Annual Meeting.

*Annual Meeting attendees may purchase a printed version of *The Toxicologist* for \$40 per copy at the Registration desk in the San Diego Convention Center. You may preorder using the Registration Form and pick up a copy on-site or wait to purchase a copy on-site (while supplies last). *The Toxicologist* will be available for download (beginning February 2015) free of charge on the SOT website.

Attire

The official attire for the Annual Meeting is business casual. No coat or tie is required! We encourage you to bring comfortable clothing and shoes. Because meeting rooms may seem cold, please bring a sweater or jacket and/or dress in layers.

General Information (Continued)

Business Center

Tel: 619.525.5450
 Fax: 619.525.5455
 Email: usa1324@fedex.com

The San Diego Convention Center FedEx Office/Business Center is conveniently located in the lobby on the Ground Level across from Exhibit Hall D. The Business Center offers services such as FedEx shipping, common office supplies, Internet access, high-quality full color and black and white copying, printing, and uploading documents from a memory stick or CD.

Business Center Hours:

Saturday–Sunday 9:00 AM–5:00 PM
 Monday–Friday 8:00 AM–5:00 PM

Career Resource and Development Services

As part of the Career Resource and Development (CRAD) services, the on-site Job Bank Center is located in the San Diego Convention Center in Rooms 23A (Office) and 23BC (Interview Rooms) on the Upper Level.

The Job Bank Center Hours:

Sunday 1:00 PM–5:00 PM
 Monday 9:00 AM–5:00 PM
 Tuesday 8:30 AM–5:00 PM
 Wednesday 8:30 AM–5:00 PM

Full CRAD services and event details may be found on page 62.

Chat with an Expert

The Chat with an Expert (CWAE) events are informal gatherings of small groups of students and a Toxicology Expert. The Graduate Student Leadership Committee organizes these events to provide students with an opportunity to network with well-established toxicologists while obtaining career advice and meeting new colleagues. The groups are matched by research interests, and the Expert for each group identifies a time and place to assemble. The CWAE Poster provides all the details for the group meetings and is located on the Ground Level near the @SOT Center. Groups meet at the poster before proceeding to their informal meeting location.

Child Care Services

Arrangements for child care services during the Annual Meeting may be made by contacting the concierge desk at your hotel. To ensure safety, children are not permitted in session rooms, ToxExpo, or the poster areas.

Coat/Luggage Check

For your convenience, a coat/luggage check will be available near the Registration area. The coat/luggage check will be open Sunday, March 22, through Thursday, March 26. There will be a fee of \$3 per item checked. Laptops, cameras, and other electronics will not be accepted.

Hours of operation:

Sunday 8:00 AM–8:00 PM
 Monday 7:00 AM–8:00 PM
 Tuesday 7:00 AM–8:00 PM
 Wednesday 7:00 AM–8:00 PM
 Thursday 7:00 AM–12:00 Noon

Coat/Luggage Check hours are subject to change.

Exhibitor Information

Full exhibit information details may be found on page 33–41.

Exhibit Hall (Hours/Location)

Exhibit Hours at the San Diego Convention Center:

Monday 9:00 AM–4:30 PM
 Tuesday 8:30 AM–4:30 PM
 Wednesday 8:30 AM–4:30 PM

The ToxExpo Exhibition is located on the Ground Level of the San Diego Convention Center. A map of the Exhibit Hall is located on pages 34–35. Exhibit personnel may enter the hall one hour before the ToxExpo opens with an Exhibitor badge. Poster presenters may enter the hall at the poster set-up times specified on page 121. *ToxExpo Directory* copies are available at Registration and inside the entrance of ToxExpo.

ToxExpo 2016 Exhibit Space Selection Process

Priority Point booth sales for 2016 will take place on an appointment basis at the ToxExpo Sales Office. Companies in higher point levels will be contacted in advance of the show with their scheduled appointment time. If you did not receive an appointment in advance, please plan to attend the 2016 Sales Meeting on Tuesday, March 24, at 4:45 pm in Room 22.

General Information (Continued)

First Aid and Emergency Services at the San Diego Convention Center

If an emergency should occur while at the San Diego Convention Center, proceed directly to the nearest house phone, located throughout the facility, and dial 5911 for security. You will be connected directly to the 24-hour manned security department at the convention center.

A First Aid room will be located in Box Office A, near Registration.

An emergency medical technician will be on duty:

Saturday.....	12:00 Noon–6:00 PM
Sunday.....	6:00 AM–8:00 PM
Monday.....	7:00 AM–8:00 PM
Tuesday.....	7:00 AM–8:00 PM
Wednesday.....	7:00 AM–8:00 PM
Thursday.....	7:00 AM–12:00 Noon

Please note that in accordance with regulations, the First Aid Administrator is not permitted to dispense any medication.

Food Services at the San Diego Convention Center

Coffee Breaks

The exhibiting companies are pleased to sponsor complimentary coffee in the Exhibit Hall 9:00 am–10:00 am Monday–Wednesday. See Exhibit Hall signage for locations.

Concessions

Concession stands are available in Exhibit Hall Monday at 9:00 am–2:00 pm and Tuesday–Wednesday at 8:30 am–2:00 pm. Breakfast and lunch items will be available for purchase, as well as coffee, soda, bottled water, and snacks. Seating is available in the Concession areas in the Exhibit Hall. Concessions are run by Centerplate Catering, providing outstanding and delectable food and beverage in the San Diego Convention Center. Several Starbucks are also located inside the center and will be open in the mornings for coffee/pastries.

Restaurants

A full restaurant listing may be found on the SOT website and via the City Guide feature in the Mobile Event App.

Green in San Diego

The San Diego Convention Center is committed to supporting and encouraging sustainable practices, including the hosting of environmentally-friendly “green” meetings in their building. Their highly successful conservation and recycling efforts have earned them LEED Silver Certification from the US Green Building Council and more than two dozen state and city awards for their eco-conscious initiatives over the past five years. They provide clients with energy-efficient facilities and venue. The convention center also has a long-standing recycling program that includes not only paper, but the collection of plastic, cardboard, and glass materials.

Outside of the San Diego Convention Center, the city of San Diego also is doing its part to be green, with its San Diego Area Green Business Project encouraging green practices among businesses in the region, by offering tools to implement more efficient and sustainable business operations.

Guest/Spouse Hospitality Room

The SOT Guest/Spouse Hospitality Room provides guest participants (nonscientists) with a place to meet and socialize with other guests. To visit the Hospitality Room, guests must register for the Annual Meeting with the person they are accompanying. Guests/spouses will not have access to the scientific sessions or ToxExpo. Please remember to wear your badge to all SOT events. The Guest/Spouse Hospitality Room will be located at the San Diego Marriott Marquis Hotel in the La Mesa Room.

Guest/Spouse Hospitality Room Hours:

Sunday.....	8:00 AM–5:00 PM
Monday.....	8:00 AM–5:00 PM
Tuesday.....	8:00 AM–5:00 PM
Wednesday.....	8:00 AM–5:00 PM
Thursday.....	8:00 AM–10:00 AM

Housing Desk

SOT Housing Partner—Connections Housing

For information regarding your hotel reservation on-site, please visit the SOT Housing Desk located in the Registration area of San Diego Convention Center.

Housing Desk Hours:

Saturday.....	4:00 PM–7:00 PM
Sunday.....	8:00 AM–5:00 PM
Monday.....	8:00 AM–5:00 PM
Tuesday.....	8:00 AM–11:00 AM

Housing desk hours are subject to change. For housing assistance after Tuesday, please call 404.918.9129.

General Information (Continued)

Internet Access at the San Diego Convention Center

SOT knows the importance of staying connected to your daily activities while attending the Annual Meeting and provides several ways for you to access the Internet while at the San Diego Convention Center.

@SOT—Internet Access

SOT will provide computers you can use to access the Internet. These computers are available to attendees in the @SOT center, located on the Ground Level of the San Diego Convention Center.

Free Wireless Internet Access

As a service to Annual Meeting attendees, SOT will be providing free wireless Internet access in designated areas of the San Diego Convention Center. SOT is providing wireless Internet access to help attendees access a new SOT Annual Meeting App and help make the Annual Meeting a more productive and enjoyable experience.

To connect to the free wireless Internet, browse the available wireless networks and select the SOT2015 wireless network. When prompted for a password, use sotguest to connect to the network. Once connected, launch your web browser and the SOT welcome splashpage will automatically load.

Letter of Attendance

Please stop by Registration after Tuesday morning if you would like a letter of attendance for your participation in the 2015 SOT Annual Meeting and/or the Continuing Education Course(s). If you missed your chance to get your attendance letter at the meeting, you can send your request to sothq@toxicology.org or call 703.438.3115.

Lost and Found

Lost and found articles may be taken to the SOT Headquarters Office, Room 15A, of the San Diego Convention Center. Any items left in the office after 11:30 am, Thursday, March 26, will be taken back to SOT Headquarters. If you do not remove your poster at the end of your session, you will find it on the “Poster Retrieval Tables” located in the Exhibit Hall. Any posters left behind at 4:30 pm on Wednesday will be taken to SOT Headquarters Office, Room 15A, Thursday morning, March 26. All posters not claimed by 1:00 pm on Thursday, March 26, will be recycled.

Media Support Services

SOT welcomes accredited representatives of media organizations. Journalists receive complimentary registration for all meeting sessions. Interviews can be arranged with SOT Council, members, and speakers. For information about the program speakers and/or sessions, please contact Michelle Werts at SOT Headquarters: 703.438.3115, ext. 1640, or email at michelle@toxicology.org.

Networking Time

The Scientific Program Committee has dedicated time on Tuesday, March 24, for attendee networking. We encourage you to connect and engage with your colleagues at the Annual Meeting from 12:00 noon to 1:30 pm on Tuesday between sessions. Only networking events and Exhibit Hall activities are scheduled during this time. Head into ToxExpo to network with your colleagues and expand your network!

Poster Displays

Global Gallery of Toxicology

All Global Gallery Posters displayed Monday–Wednesday during ToxExpo.

Representative Attended: Monday, March 23, 11:45 am–12:15 pm.

Toxicology societies from around the world are invited to participate in the Global Gallery of Toxicology. Now in its fifth year, posters showcasing the key information, accomplishments, and strategic initiatives of these societies will be prominently displayed during the Annual Meeting. Attendees interested in collaboration and discussion are invited to a special “Representative Attended” poster time from 11:45 am–12:15 pm on Monday, March 23. The goal of all of these societies is to further the science of toxicology and to advance human health and disease prevention. The Global Gallery posters are located prominently in the Exhibit Hall adjacent to the SOT Pavilion, Booth 526. A complete list of participating societies can be found on page 165. For more information, please contact Kevin Merritt at kevin@toxicology.org.

High School Poster Exposition

The research activities of high school students will be featured 10:30 am–12:30 pm on Tuesday, March 24, during a poster display near the SOT Pavilion. More information about the High School Poster Exposition can be found on page 97.

General Information (Continued)

Poster Tours for Trainees

Graduate students and postdoctoral scholars have the opportunity for a one-hour poster tour of posters selected by a guide. Participants sign up in advance and meet at the appointed time Monday, March 23, to Wednesday, March 25, at the Postdoctoral Assembly Poster Tour board on the Ground Level near the @SOT Center. See page 93 for more information.

RC, SIG, and SS Posters

SOT will have dedicated poster space available for the Regional Chapters, Special Interest Groups, and Specialty Sections at the 2015 SOT Annual Meeting. The poster area will be located near the SOT Pavilion, Booth 526, across from the Global Gallery in the ToxExpo Exhibit Hall and will be attended on Monday, March 23, 11:45 am–12:15 pm.

Scientific Poster Printing Service

SOT offers our poster presenters a convenient poster printing service through Shepard Exposition Services, the official general service contractor for the Annual Meeting. Presenters who submitted a print order by February 27, 2015, may pick up their poster on-site at the Exhibitor Service Center (at the end of the 2400 Aisle or rear right-hand side of the hall.)

Scientific Poster Sessions

Poster sessions will take place in the Exhibit Hall on Monday, March 23, 9:30 am–12:30 pm and 1:00 pm–4:30 pm; on Tuesday, March 24, and Wednesday, March 25, poster sessions will be presented 9:00 am–12:30 pm and 1:00 pm–4:30 pm. On Thursday, March 26, poster sessions are from 8:30 am–12:00 noon in Sails Pavilion.

Full Scientific Poster Session details and information about retrieving your poster may be found on page 121.

Scientific ePosters

SOT is pleased to offer our poster presenters the opportunity to share their research electronically as well as in their assigned poster sessions. If you are a poster presenter, please take a few minutes to upload your PowerPoint or PDF poster through an Internet-based, user-friendly presentation system prior to the meeting at <https://cms.psav.com/sot2015> or during the meeting at the Speaker Ready Room at the San Diego Convention Center, Room 11B. Attendees will be able to access ePosters through the Mobile Event App anytime during the meeting, and until May 11, 2015.

Program

This is the 2015 Annual Meeting *Program*. This publication is made available to all Annual Meeting registrants and SOT members. Physical copies are available on-site in the Registration area for anyone with a meeting badge. A PDF version is available on the SOT website.

Instructions for How to Use This *Program* are located on page 4.

Recording, Photography, and Electronic Device Policies

Each year, we welcome more than 6,500 attendees to the Society of Toxicology's Annual Meeting and ToxExpo. With almost 3,000 presentations, this meeting is the largest international forum for toxicological research.

The Society does not permit photography or the electronic capture of scientific sessions in meeting rooms or the ToxExpo without the consent of the session chair and the presenter(s)/author(s). This policy also includes photographing colleagues against the backdrop of scientific posters on display without the express consent of the presenting author(s).

- Photographing exhibit booths is prohibited.
- Electronic capture of scientific sessions by any method is prohibited.
- All cell phones and electronic devices must be put on mute while attending scientific sessions.

The policies adopted above will be enforced by the Society. Those individuals who do not comply will be asked to leave the session or ToxExpo floor. If you have any questions regarding these policies, please contact the SOT Headquarters Office.

Registration Hours

Registration will be located outside Hall A on the Ground Level of the San Diego Convention Center.

Registration Hours:

Saturday.....	4:00 PM–7:00 PM
Sunday	7:00 AM–8:00 PM
Monday.....	7:00 AM–5:00 PM
Tuesday.....	8:00 AM–4:00 PM
Wednesday.....	8:00 AM–4:00 PM
Thursday.....	8:00 AM–12:00 Noon

Full registration details may be found on page 43.

General Information (Continued)

Research Funding Information Room

SOT places a strong emphasis on the development of opportunities for research support and funding. As a service to its members and new investigators, SOT offers the Research Funding Information Room so that members and attendees may network and learn more about the various opportunities available to them. Program and review staff from federal agencies that fund research, including NIH, US FDA, NIEHS, CDC, and US EPA, will be available in the Research Funding Information Room (Room 11A) for individual conversations. Attendees may check the posted schedule for specific times agency staff members will be available during the week to answer questions about the scientific review process and various grant opportunities. The schedule will be available in the Registration area, the Research Funding Information Room, and during the *Research Funding Luncheon: Multiple Perspectives on the Grant Process* on Monday. See page 129 for more information.

Research Funding Information Room Hours:

Tuesday 9:30 AM–4:30 PM
 Wednesday 9:30 AM–4:30 PM

Safety and Security

The possibility of demonstrators is very real given the nature of our conference. Activities might range from verbal confrontations, protests, and strikes, to riots. We recommend the following procedures:

- Have your name badge available upon entering the San Diego Convention Center. Wear your name badge in the convention center. When leaving the facility, remove it so as to blend with other people. Conceal bags and other items that might identify you as an SOT meeting attendee.
- If you see a demonstration or protest beginning, please contact any member of the SOT Annual Meeting staff and they will initiate an SOT response. If you see actions that appear threatening, notify the nearest security officer.
- Do not engage, defend either side, or subdue person(s) in any type of disturbance. Demonstrators are usually trying to attract media attention. Don't help them!
- SOT representatives will respond to media inquiries. Do not participate in interviews or other media responses.
- In the unlikely event that outsiders disrupt a scientific session or other event, SOT security officials have developed a contingency plan. Please follow directions from the chairperson and avoid becoming involved in the situation.

Safety Tips

Walk “smart” when you leave the San Diego Convention Center:

- Know your destination and the best way to reach it.
- Travel along sidewalks in lighted areas at night and don't walk alone.
- Establish a “buddy” system with another attendee to walk to and from the convention center.
- Share schedules and check up on each other periodically.
- Build your awareness of unknown surroundings by reviewing local information.
- Laptop computers, smartphones, and electronic tablets are attractive, easy targets for thieves. Be sure they are stored in a secure place.
- Jackets with pockets provide a convenient alternative to reduce the chance for lost or stolen handbags.

Our first priority is safety. The best way to stay safe is to be aware of your surroundings and to avoid situations where you feel uncomfortable.

San Diego General Information

San Diego is America's eighth-largest city with over 1.3 million residents. San Diego sits on the coast of the Pacific Ocean in Southern California, immediately adjacent to the border with Mexico and south of Los Angeles. It is nicknamed “America's Finest City;” with friendly locals, 70 miles of stunning coastline, world-class attractions, and a relaxed atmosphere all its own, it's easy to see how San Diego earned its nickname. For more information on things to do, where to eat, special events, etc., please visit www.meetmeinsandiego.com/sot.

Science in San Diego

Birch Aquarium at Scripps Institution of Oceanography
 2300 Expedition Way | Tel: 858.534.FISH
www.aquarium.ucsd.edu

Tap into your inner oceanographer and learn about the creatures of the sea at Birch Aquarium at Scripps. Located in La Jolla, the aquarium is home to more than 3,000 specimens representing more than 380 species of fishes and invertebrates. Make sure to visit Tide-Pool Plaza, which features three living tide pools, where visitors can touch and learn about the pools' inhabitants.

Reuben H. Fleet Science Center
 1875 El Prado Balboa Park | Tel: 619.238.1233
www.rhfleet.org

The Reuben H. Fleet Science Center is home to the world's first-ever IMAX® Dome Theater, which presents digital planetarium shows and IMAX movies daily. The center's eight galleries contain 12 permanent exhibitions and often host major traveling exhibitions, giving visitors the opportunity to explore 100+ interactive all-ages exhibits that bring science to life.

General Information (Continued)

San Diego Festival of Science and Engineering

Petco Park, 100 Park Boulevard | Tel: 858.455.0300 ext.104

www.lovestemsd.org

The San Diego Festival of Science and Engineering is March 14–20 and culminates in EXPO DAY at Petco Park on Saturday, March 21. The festival mission is to engage with and encourage kids in science and engineering, to inspire today's students to become tomorrow's science, technology, engineering, and math (STEM) innovators. Hundreds of community businesses and organizations present more than 35 interactive events with dynamic speakers throughout the week. This includes the Southern California SOT Regional Chapter, which will have a toxicology-focused booth at the EXPO. Bring the family. Volunteer. Enjoy the excitement of a giant science festival.

San Diego Natural History Museum

1788 El Prado Balboa Park | Tel: 619.232.3821

www.sdnhm.org

Founded in 1874, the San Diego Natural History Museum pays homage to its roots by keeping the focus of its exhibits on the Southern California region it calls home, both past and present day. The Museum often hosts multiple traveling exhibitions, so be sure to check the calendar before you go!

San Diego Zoo

2920 Zoo Drive | Tel: 619.718.3000

zoo.sandiegozoo.org

The world-famous San Diego Zoo is perhaps best known for its successful panda program, but there's certainly much more to check out than those black and white giants! Located in the heart of Balboa Park, the zoo is 100 acres in size and is home to more than 3,700 animals representing more than 650 species from around the world. As the first zoo to house its animals in habitats that mimic their natural environment, the zoo has been set up as a unique walking experience with regionally themed trails through rolling hills.

San Diego Zoo Safari Park

15500 San Pasqual Valley Road | Tel: 619.718.3000

www.sdzsafari.org

Get away from the hustle and bustle of downtown and visit San Diego Zoo Safari Park, a 1,800-acre wildlife reserve that boasts more than 2,600 animals. You can choose from among seven different safaris the park offers, or choose them all with the ultimate safari, so you don't miss a thing! See one of the Safari's Cheetah Ambassadors run at over 60 mph in the one-of-a-kind Cheetah Run. The Safari Park is a cutting-edge facility that lets you get up close and personal with animals in a completely different way than traditional zoos.

San Diego Area Activities

For things to do in San Diego, go to www.meetmeinsandiego.com/sot.

Balboa Park

1549 El Prado | Tel: 619.239.0512

www.balboapark.org

Encompassing 1,200 acres, Balboa Park is home to 15 museums, beautiful gardens, and the world-famous San Diego Zoo. Often referred to as the "Smithsonian of the West," Balboa Park is the largest urban park in North America, bigger than even New York's Central Park in size. Balboa Park is celebrating its 100th anniversary in 2015, with plenty of special events to mark the occasion!

Cabrillo National Monument

1800 Cabrillo Memorial Drive | Tel: 619.557.5450

www.nps.gov/cabr/index.htm

A visit to San Diego's only national park offers fantastic views that can stretch from Mexico to Los Angeles on a clear winter's day. Visit the picturesque Old Point Loma Lighthouse, which has been restored to its original 1800s appearance and presents a peek into the daily life of a light keeper. South of the Lighthouse is the Kelp Forest Overlook, where visitors can spot Pacific gray whales during their migration season. On the western side of Point Loma, pools form during low tide in the rocky cavities; in them you may see colorful starfish, octopi, and a multitude of other creatures.

Carlsbad Flower Fields

5704 Paseo del Norte | Tel: 760.930.9123

www.theflowerfields.com

The Flower Fields® never set out to be an attraction, but this 50-acre working farm couldn't keep spectators away from the stunning fields of ranunculus flowers planted on a hillside overlooking the California coastline. The Flower Fields® bloom from early March to early May, giving visitors the incomparable opportunity to experience the rainbow rows of ranunculus flowers up close.

Gaslamp Quarter

614 5th Avenue | Tel: 619.233.5227

www.gaslamp.org/visitor-guide

San Diego's Gaslamp Quarter comprises 16-square blocks immediately across from the San Diego Convention Center. A mix of Victorian-era buildings and modern skyscrapers house more than 100 of the city's finest restaurants, pubs, nightclubs, and retail shops. The Quarter is loaded with cultural offerings that include theaters, art galleries, symphony halls, concert venues, museums, and Padres baseball.

General Information (Continued)

Hotel del Coronado

1500 Orange Avenue | Tel: 619.435.6611
www.hoteldel.com

Spend a day enjoying sun, sand, and shopping at the iconic Hotel del Coronado, located on the beaches of Coronado Island. Built in 1888 and designated a National Historic Landmark in 1977, this red-roofed building is the largest wooden structure in the country and is certainly the jewel of the “Crown City.”

LEGOLAND® California

One LEGOLAND Drive | Tel: 760.918.5346
www.california.legoland.com

Come see over 30,000 models created using over 60 million LEGO® bricks at LEGOLAND® California Resort. This family-friendly amusement park has more than 60 rides, shows, and attractions, including three rollercoasters. The resort is also home to LEGOLAND® Water Park and SEA LIFE® Aquarium.

Old Town San Diego State Historic Park

2415 San Diego Avenue | Tel: 619.291.4903
www.oldtownsandiego.org

Old Town San Diego, considered the birthplace of California, was founded in 1769 as the first permanent Spanish settlement on the West Coast. Today visitors to this state park can explore 17 unique historic attractions along with museums, art galleries, and the Old Globe Theatre. The district offers up free tours with docents and live entertainment, featuring mariachi bands and dancers in period attire. If you have a craving for tacos, Old Town has the highest concentration of Mexican restaurants in San Diego.

SeaWorld® San Diego

500 SeaWorld Drive | Tel: 800.257.4268
www.seaworldparks.com/seaworld-sandiego

The original SeaWorld® opened in San Diego on March 21, 1964; 50 years later the park has expanded to several locations across the country and still entertains millions of visitors every year. Head to Shamu Stadium to catch one of their world-famous shows featuring orcas, but don't forget your poncho in case you end up in the splash zone! In addition to traditional aquarium exhibits, the park also offers a variety of interactive experiences with marine animals, including dolphins.

USS Midway Museum

910 Harbor Drive | Tel: 619.544.9600
www.midway.org

Visit the USS Midway Museum, and watch as history comes alive when you explore the longest-serving US Navy aircraft carrier of the 20th century! Climb into one of the museums, 29 meticulously restored airplanes, try one of their two flight simulators, or stop and talk to one of the docents stationed throughout the ship.

San Diego Golf Courses

Balboa Park Golf Course

2600 Golf Course Drive | Tel: 619.235.1184
(5 minutes from the convention center)

Offering outstanding views of downtown, the ocean, Coronado Bridge, and Lindbergh Aircraft Field, Balboa Park Golf Course grounds include a challenging par-72, 18-hole course and a 9-hole executive course. You will also find a driving range, putting greens, coffee shop, and halfway house at the oldest public golf course in San Diego.

Coronado Golf Course

2000 Visalia Row | Tel: 619.435.8129 ext. 3
(12 minutes from the convention center)

This oceanside course provides beautiful views of yachts on sparkling blue waters. Coronado Municipal Golf Course is conveniently located just minutes from downtown San Diego. The 18-hole course measures 6,590 yards from the blue tees and is a par 72.

Torrey Pines Golf Club

11480 N. Torrey Pines Road | Tel: 858.552.1662
(26 minutes from the convention center)

Located in La Jolla, Torrey Pines Golf Course sits on cliffs overlooking the Pacific Ocean and is widely recognized as a premier destination golf course, having played host to the US Open and many other PGA Tour events. Torrey Pines comprises two par-72, 18-hole courses, known as the North and South Courses. The course's namesake is the Torrey Pine, a tree that only grows in the wild along this small stretch of the coastline in San Diego County and on Santa Rosa Island.

San Diego Beaches

Coronado Beach

920 Ocean Boulevard
(13 minutes from the convention center)

Often voted one of America's best beaches by The Travel Channel, Coronado's beaches sparkle with soft, white sand. You won't find any big swells at this beach, making it great for families or just relaxing while soaking in the sun.

La Jolla Shores

8200 Camino Del Oro
(20 minutes from the convention center)

Watch the sun set from La Jolla Shores while you sit next to one of the firepits that dot this mile-long crescent beach. A favorite among beachgoers of all interests, this spot is popular for both swimming and surfing. With the Scripps Institute of Oceanography Pier at one end, you're likely to spot some (friendly) marine life.

General Information (Continued)

Mission Beach

3000 Mission Boulevard

(15 minutes from the convention center)

Mission Beach offers up a West Coast beach boardwalk experience. Two miles of sandy shores are right next to the carnival-like Belmont Park, where you can ride a rollercoaster or take a spin on a Tilt-A-Whirl.

Ocean Beach

5059 Newport Avenue

(14 minutes from the convention center)

Situated between the San Diego River and the hills of Point Loma, Ocean Beach is great for surfers who can catch the waves created by the jetties here. The beach is friendly for all types of beachgoers, even the four-legged kind!

Pacific Beach

4500 Ocean Avenue

(17 minutes from the convention center)

Pacific Beach is the iconic Southern California beach town. With three miles of boardwalk and a lively atmosphere, this is a great place to people watch or take a walk over to Crystal Pier, where you can see great views of the coastline.

San Diego Fun Facts

1. San Diego is the birthplace of California. The first European exploration of the West Coast was by Juan Rodriguez Cabrillo, a Portuguese navigator sailing for Spain, who landed in San Diego on September 28, 1542.
2. The world's oldest working ship, the Star of India, built in 1863, has her home port in San Diego.
3. The San Diego Zoo grew out of the exotic animal exhibitions abandoned after the 1915 Panama-California Exposition, which celebrated the opening of the Panama Canal.
4. From the early thirties up until the late seventies, San Diego was known as the "Tuna Capital of the World."
5. The Hotel Del Coronado is the largest wooden structure in the country. Marilyn Monroe filmed "Some Like it Hot" at the hotel, which has hosted ten United States presidents, as well as the 1970 state dinner which was the first held outside the White House. The resort also unveiled the world's first electrically lighted, outdoor Christmas tree in 1904.
6. Charles Lindbergh took off from San Diego in 1927, in the Spirit of St. Louis, and headed to New York before his famous non-stop flight to Paris.
7. The San Diego International Airport is the busiest single-runway major airport in the nation and the second-busiest in the world after London Gatwick.

8. San Diego County has the largest number of farms (almost 7,000) in the US. San Diego County also produces the most avocados of any region in the country.
9. The La Jolla Playhouse and Old Globe Theatre of San Diego have sent more shows to Broadway than any other US city.
10. San Diego's Geisel Library, in La Jolla, houses the world's largest collection of original Dr. Seuss manuscripts. Dr. Seuss (Ted Geisel) was a one-time resident of La Jolla.

Session Etiquette for Attendees

Attendees are encouraged to ask questions following the presentations by speakers or at the direction of the moderator.

Given the importance of the scientific program to attendees and out of respect for the presenters, we ask that you adhere to the following rules of etiquette:

- Cell phones and other electronic devices should be set on mute.

- Electronic capture of scientific sessions by any method is prohibited.
- Inviting children under the age of 15 and guest/spouse registrants into the Exhibit Hall is prohibited. Session chair must provide consent for the guest/spouse or child to attend the session.

These policies will be enforced by the Society. Individuals who do not comply will be asked to leave the session.

Any items that are left behind in any of the rooms should be taken to the SOT Headquarters Office, Room 15A.

If you have any questions regarding these policies, please contact the SOT Headquarters staff at Registration.

SOT Headquarters Office

The SOT Headquarters Office is located in the San Diego Convention Center, Room 15A, on the Mezzanine Level. SOT leadership and staff utilize this office to conduct SOT business while on-site. Use the office to report or reclaim lost and found items at the San Diego Convention Center.

SOT Headquarters Office Hours:

Saturday.....	4:00 PM–7:00 PM
Sunday.....	7:00 AM–5:30 PM
Monday.....	7:00 AM–5:00 PM
Tuesday.....	7:00 AM–4:30 PM
Wednesday.....	7:00 AM–4:30 PM
Thursday.....	7:00 AM–12:00 Noon

(continued to next page)

General Information (Continued)

SOT Pavilion

Located at Booth 526 in the ToxExpo Exhibit Hall, the SOT Pavilion is the place for you to connect and learn about SOT programs, services, membership benefits, and more. Find out about the SOT Endowment Fund, *Toxicological Sciences*, SOT awards, supported awards and fellowships, ToXchange—the SOT member network, educational programs from K–12 throughout the toxicology career, and everything taking place at the Annual Meeting.

All SOT Annual Meeting attendees are welcome to stop by at any time during ToxExpo hours.

Pavilion Hours:

Monday 9:00 AM–4:30 PM
 Tuesday 8:30 AM–4:30 PM
 Wednesday 8:30 AM–4:30 PM

Be sure to come by during one of the scheduled events listed below for specific information on these topics, programs, or component groups.

Pavilion Events

Monday, March 23 through Wednesday, March 25

Events will be held Monday through Wednesday unless otherwise noted.

9:00 AM–4:00 PM	Hispanic Organization of Toxicologists Special Interest Group —Meet and Greet
9:00 AM–4:00 PM	<i>Toxicological Sciences</i> —Meet with Managing Editor Virginia Hawkins
9:00 AM–4:00 PM	Toxicologists of African Origin Special Interest Group —Meet and Greet <i>(Monday and Tuesday only)</i>
10:00 AM–11:00 AM	<i>Toxicological Sciences</i> —Meet with Editor-in-Chief Gary W. Miller
2:00 PM–3:00 PM	<i>Toxicological Sciences</i> —Meet with Editor-in-Chief Gary W. Miller
3:00 PM–4:00 PM	Meet the Leaders —Regional Chapters, Special Interest Groups, and Specialty Sections

Be sure to visit the Global Gallery, Regional Chapter, Special Interest Group, and Specialty Section poster displays across from the SOT Pavilion open throughout ToxExpo hours. Attendees interested in discussion and collaboration are encouraged to attend the Global Gallery and RC/SIG/SS “Representative Attended” poster session on Monday, March 23, from 11:45 am–12:15 pm. The High School Poster Exposition will be nearby on Tuesday from 10:30 am–12:30 pm.

Speaker Ready Room

The Speaker Ready Room will be located in Room 11B. SOT will provide all confirmed presenters in scientific sessions with login credentials to access the submission site to preload your presentations. Poster presenters should use the submission site at <https://cms.psav.com/sot2015> to upload ePosters. Scientific session presenters should use the submission site at <https://cms.psav.com/sot2015a> to preload presentations. All presentations should be preloaded in advance of the meeting, but not fewer than 30 minutes prior to the start of the sessions if loaded in the Speaker Ready Room. Presenters will not be able to upload a presentation in the session room.

Speaker Ready Room Hours:

Saturday 4:00 PM–7:00 PM
 Sunday 7:00 AM–5:30 PM
 Monday 7:00 AM–5:00 PM
 Tuesday 7:00 AM–4:30 PM
 Wednesday 7:00 AM–4:30 PM
 Thursday 7:00 AM–11:30 AM

Supporting Opportunities

The SOT Annual Meeting Supporters play an integral role in the success of this important event which is the largest scientific gathering of toxicologists in the world. Becoming an Annual Meeting Supporter demonstrates your organization’s commitment to SOT’s vision of “creating a safer and healthier world by advancing the science of toxicology.”

Being an Annual Meeting Supporter also provides an opportunity for better name recognition of your company among SOT members and the Annual Meeting attendees.

In addition, your support allows the Society to keep registration fees low, thereby enabling us to attract more than 6,500 attendees to the Annual Meeting.

There are five levels of support available:

Diamond (\$10,000 or more), Platinum (\$5,000–\$9,999), Gold (\$2,500–\$4,999), Silver (\$2,000–\$2,499), and Contributor (\$1,000–\$1,999). You will find a complete menu of supporting opportunities designed to assist your organization in establishing a leadership position at the SOT Annual Meeting on the website at www.toxicology.org.

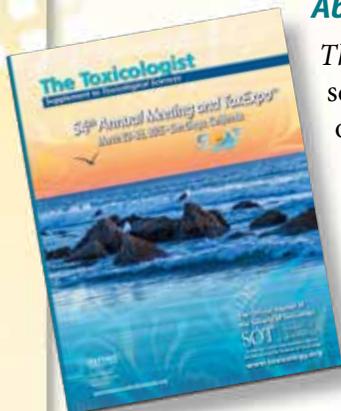

Supporter names are prominently displayed on the Annual Meeting website, as well as in print materials that are distributed before and during the Annual Meeting. Supporters also are recognized through signage displayed throughout the San Diego Convention Center during the Annual Meeting.

Annual Meeting support contributions are tax deductible per IRS regulations. For detailed information about SOT supporting opportunities, please contact Laura Helm at SOT Headquarters: 703.438.3115 or email: laura@toxicology.org.

For a complete list of our 2015 Annual Meeting Supporters (as of press time), please see page 416 and the back cover, or access them via the Mobile Event App.

The Toxicologist and Annual Meeting Program

The Toxicologist: The Official Record of the 2015 Annual Meeting Abstracts

The Toxicologist is an important scientific resource, as it is the official compilation of all accepted abstracts for the 54th Annual Meeting of the Society of Toxicology. With over 2,500 abstracts for the meeting, this supplementary issue of *Toxicological Sciences* is a critical publication to access the latest findings in toxicology.

- Preorder a copy of the printed version of *The Toxicologist* via the registration form or purchase a copy on-site while supplies last for \$40.
- *The Toxicologist* PDF is available for complimentary download via the SOT website.
- Full abstracts are accessible via the Mobile Event App or Online Planner available on the SOT website.

The Late-Breaking Abstract Supplement to *The Toxicologist* is available to download as a PDF via the SOT website in early March.

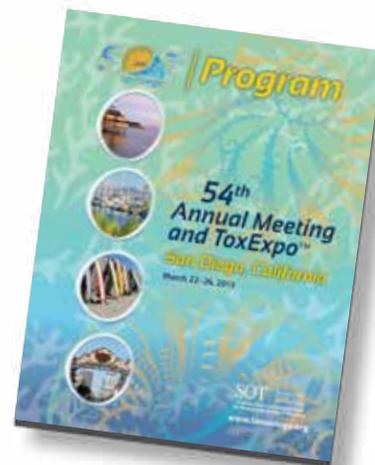

The late-breaking abstracts are searchable in the Mobile Event App and Online Planner.

The Program: A Guide to the SOT 2015 Annual Meeting and ToxExpo

The *Program* is the official guide to all the activities of the 2015 Annual Meeting and ToxExpo. The *Program* includes detailed information on the scientific sessions, including a session overview, with the exception of the Poster and Platform Sessions. The *Program* includes the Poster Session schedule and a map of the Poster Sessions, as well as an abstract overview of all the Continuing Education course offerings. The *Program* details the schedule of events by name and a listing of all the special events, including 2015 award recipients, 2015 Honorary member, SOT Endowment Fund 2014 award recipients, recognition and special events, and Regional Chapter, Special Interest Group, and Specialty Section meetings and receptions. In addition, the *Program* includes a general section that highlights travel, hotel, registration, parking, and safety and security information. The complete listing of the ToxExpo exhibitors is provided along with the floor plan for the ToxExpo and a complete listing of Exhibitor-Hosted Sessions.

- The *Program* PDF is available for download via the SOT website.
- A copy of the *Program* is available on-site. In an effort to better use resources, the printed *Program* is mailed ONLY by requests received before February 28. (within the US and Canada only). The *Program* is mailed in early March.

General Information (Continued)

Transportation

Air Transportation

Preferred Carrier Airfare Discounts

SOT has established discounted rates through Southwest and United Airlines originating in the United States and Canada. Be sure to use the reference numbers when making your reservations. You may purchase your ticket online, call the airline directly using the toll-free numbers, or provide your travel agent with the reference/discount numbers listed below to receive the discount.

Southwest Airlines

Tel: 800.435.9792

www.swabiz.com

SOT Discount Code: 99150833

SOT's conference attendees will receive a discount and bonus Rapid Reward points from Southwest Airlines through our SWABIZ® account. Southwest Airlines is offering a 15% discount off Anytime and Business Select® fares and a 5% discount off select Wanna Get Away® fares for travel to and from the conference. Discounts are available for travel March 15–31, 2015.

United Airlines

Tel: 800.426.1122 (a service fee will apply)

www.united.com

SOT Discount Code: ZSSM552928

United Airlines is offering up to a 10% discount on fares for attendees traveling to San Diego for the SOT Annual Meeting. The discount is valid March 16–April 1, 2015. You may book your ticket at www.united.com (to receive an additional 3% discount and have service fees waived); in the offer code box, type **ZSSM552928** to receive the discount.

You may also book your reservation by calling United Meetings at 800.426.1122; however, a service fee will apply. International attendees should call their local United Airlines reservations office or email groupmeetings@united.com with their preferred itinerary and discount codes. If you are booking through a travel professional, please give them the following information:
Agreement Code: 552928, Z Code: ZSSM.

SOT Travel Provider—ATC Travel Management

ATC Travel is the official travel management firm for SOT's 54th Annual Meeting. To take advantage of their services and savings, visit www.atcmeetings.com/sot, or call toll-free 800.458.9383 Monday through Friday, 8:30 am–7:00 pm (Eastern Standard Time) and ask to speak to anyone on our SOT-dedicated team, or email reservations@atcmeetings.com. To obtain the maximum discounted fares, call at least 60 days prior to departure. Please note that depending on your reservation method, ATC Travel Management charges a \$10 online service fee or a live agent reservation fee. Before contacting ATC Travel Management, please gather the following information:

- Your name as it appears on your ID and your date of birth
- The desired dates of arrival to and departure from San Diego
- Your home city or originating airport
- Your approximate time of departure from the originating airport
- The number of persons traveling (adults/children)
- Your method of payment, either credit card or check
- Your airline frequent flyer number(s)

Identify yourself as a Society of Toxicology attendee. ATC Travel Management will find the best fare for you and email you an itinerary.

San Diego International Airport (SAN)

San Diego International Airport, also known as Lindbergh Field, is a public airport operated by the San Diego County Regional Airport Authority, and is located three miles northwest of downtown San Diego.

Train Transportation

Amtrak

Tel: 800.872.7245

www.amtrak.com

Amtrak operates out of Santa Fe Depot (also known as Union Station) in downtown San Diego. The Pacific Surfliner goes as far north as San Luis Obispo, with stops in Anaheim, Los Angeles, and Santa Barbara, and is a convenient and cost-effective option for traveling throughout Southern California.

Ground Transportation—From the Train Station

The San Diego Trolley Green Line leaves from the Santa Fe Depot and has stops at the San Diego Convention Center and Gaslamp District. Taxicabs are also available for hire outside the station.

General Information (Continued)

Ground Transportation—From the Airport

Ground transportation is located curbside at each of the three terminals.

Taxicabs

There are multiple companies that provide taxicab services for San Diego International Airport. After disembarking from your plane and picking up any checked bags, follow the signs leading to the transportation plazas. A transportation coordinator will place you in the first available taxi, unless you specify otherwise. All taxi rates are based per trip, not per person. Most taxi rates are about \$17 to downtown.

Shuttle Services

SOT Discount Code: EA58G

SuperShuttle and Execucar provide the easiest and most cost-effective ground transportation service between San Diego International Airport and major hotels in the downtown area. Shuttles depart from 9:00 am to 9:00 pm daily for downtown hotels every 15 minutes. Passengers may purchase tickets at the airport baggage claim area. Ticket fares are \$8 per person to downtown hotels or \$16 for a roundtrip ticket. Book using the SOT discount code and receive an additional discount. Discounted online rates are \$7 one-way and \$14 for round-trip per person. For more information, visit SuperShuttle (www.supershuttle.com/default.aspx?GC=EA58G) or Execucar (www.execucar.com) and enter the discount code EA58G. The SOT discount is valid March 20–31, 2014, and only available online or over the telephone. For more information about SuperShuttle, call 602.244.9000 or for Execucar, call 800.410.4444.

Car Rental

Car rental reservation boards are located near the baggage claim areas of Terminals 1 and 2. Courtesy phones are provided to request shuttle transport to the car rental company you plan to use. Shuttles to car rental pickup operate regularly at the Terminal 1 center traffic aisle and at the traffic island at the far west end of Terminal 2. If you follow the signage to either of these areas, there will most likely be a shuttle waiting.

Hertz

800.654.2240 (US and Canada); 405.749.4434

www.hertz.com

Discount Number: CV#04X50003

Hertz is the official car rental company for the 54th SOT Annual Meeting. SOT discounted rates begin at \$39 per day. These special group rates are good one week before and after the SOT Annual Meeting. To reserve your car online go to www.hertz.com. You may also call Hertz directly at the numbers listed above. Be sure to mention the SOT Hertz discount number CV#04X50003.

Public Transportation—Getting around Town

Metropolitan Transit System

The Metropolitan Transit System (MTS) offers fast and convenient service from the airport to the San Diego Convention Center. MTS operates a light rail system called the San Diego Trolley (www.sdmts.com/trolley/trolley.asp). In addition to the trolley and MTS bus route 992 directly services the airport and the downtown area.

Please visit www.sdmts.com/home1.asp for information on various routes, fares, and schedules.

San Diego Convention Center Location and Parking

The San Diego Convention Center has a large parking garage conveniently located underneath the center on Harbor Drive between First Avenue and Fifth Avenue. The daily rate is \$15 with no in-and-out privileges or overnight parking allowed.

San Diego Convention Center

111 West Harbor Drive, San Diego, CA 92101

Metered street parking is available in areas surrounding the San Diego Convention Center at a rate of \$1.25 per hour. Parking meters are enforced 8:00 am–6:00 pm, Monday through Saturday, unless otherwise noted.

Check the San Diego website for more information on parking at www.visitsandiego.com.

Overnight Parking

Gaslamp City Square Garage

461 4th Avenue, San Diego, CA 92101

Entry Location:

4th Avenue between Island Avenue and J Street

Due to city zoning restrictions, overnight parking is not permitted in San Diego Convention Center parking garages.

Please check the SOT Hotel Accommodations and Services PDF on the Annual Meeting website for valet and self-parking rates for your hotel.

SOT Ride Share

SOT is offering a ride-share program in conjunction with the Annual Meeting. For those who live close enough to the San Diego area or those who do not wish to fly, you may want to consider the ride-share program. Avoid airport hassles by driving and make it easier for other scientists to attend by sharing ideas. Students especially appreciate ways to make the meeting even more economical.

Once you have registered for the Annual Meeting, you can access the ride-share program. You can indicate whether you want to drive or be a passenger, and then see a list of others who

General Information (Continued)

have signed up. It will be up to you to match your plans with someone else who is registered, and then to remove your name when you have travel plans in place.

Weather

San Diego has a Mediterranean climate, typical of much of California. Days are frequently warm, with pleasantly cool evenings. The average high temperature for March is 66°F. For an up-to-date, detailed weather forecast, visit the National Weather Service Forecast Office at www.wrh.noaa.gov/sgx.

What time is it in San Diego...

SOT | 55th Annual Meeting and ToxExpo

New Orleans is the host city for SOT's 2016 Annual Meeting, March 13-17.

Be sure to visit the New Orleans Desk across from Registration for more information.

www.toxicology.org/jobbank

YOUR EMPLOYMENT AND RECRUITMENT RESOURCE

Job Seekers—Find Your Next Opportunity

Employers Are Looking for Candidates through the SOT Job Bank

- Every SOT member can utilize the SOT Job Bank as a job seeker **free of charge**.
- SOT members can log in to instantly browse posted positions.
- Post your resume and activate your profile to be seen by potential employers.
- Review the positions posted by major corporations, academic institutions, government agencies, and private research organizations; positions are available at all experience levels.
- Search by geographic location, employer name, salary, and other criteria.
- Find potential matches to your skills and training at any stage of your career.
- Contact select employers for additional information on available positions.
- Gain access to information that will help you plan your near-term and long-term goals and objectives.
- See which sectors are hiring.
- Stay abreast of new and emerging fields.

Employers—Recruit Highly Qualified Candidates

The SOT Job Bank Is the Ideal Place to Streamline Your Hiring Process

- Join the many employers who rely on this cost-effective and efficient database to assist with their employment needs.
- Find the right candidate from among scientists trained in toxicology and the biological sciences with the expertise and work experience for which you are looking.
- Schedule interviews to be held during the SOT Annual Meeting at the on-site Job Bank Center.
- Reserve interview rooms in advance or on-site.
- SOT Affiliates receive a reduced registration rate in appreciation for supporting the Society in achieving its objectives.

The Online SOT Job Bank is available any time at
www.toxicology.org/jobbank

SOT

Society of
Toxicology

Career Resource and Development Services

The Society of Toxicology’s Career Resource and Development services include the online Mentor Match program and Job Bank, special Job Bank amenities at the Annual Meeting, career development seminars, and employer ads in SOT’s newsletter, the *Communiqué*, which reaches the entire SOT membership and beyond.

Online Mentor Match Program

Be a Mentor, Mentee—or Both!

The Society of Toxicology recognizes the importance of mentoring in the scientific and professional development of its members. The Mentor Match online mentoring program, available only to SOT members, connects mentees with potential mentors, who can provide advice on career path selection, professional development, and life/work balance issues. SOT members are encouraged to share their professional knowledge and experience by serving as mentors for colleagues and for the next generation of toxicologists. The SOT Annual Meeting provides a great opportunity for the mentor and mentee to meet in person. We strongly encourage members of the Society to visit the Mentor Match site and register online as mentors and/or mentees. The Mentor Match program is accessible to all active SOT members by visiting www.toxicology.org/mentormatch.

SOT Online Job Bank

Free Job Search for SOT Members!

The Society’s online Job Bank is easy for candidates and employers alike to access any time, any place via the SOT website at www.toxicology.org/jobbank.

This forum links job candidates with employment positions in toxicology and related biological sciences. The SOT Job Bank allows you to:

- Register as an employer or candidate
- Post employment positions
- Search the Job Bank database
- Contact candidates or employers

SOT Members can access the positions posted in the Job Bank and register as candidates at no charge.

The online Job Bank lists positions available at corporations, academic institutions, government agencies, and private research organizations. Employers rely on this online service to provide them with a robust database of candidates available for career opportunities ranging from junior- to senior-level positions.

The Job Bank helps streamline the process for candidates and employers. Candidates can gain access to a variety of positions suited to their experience, areas of expertise, and desired geographical location. In addition, job seekers can see which sectors are hiring and stay abreast of new and emerging fields.

Employers can attract potential candidates in a targeted and cost-effective manner through this SOT service. By having access to detailed candidate resumes, employers can determine the right match for a specific position and expedite the recruitment process. **SOT Corporate Affiliates receive a reduced rate for position posting in appreciation for supporting the Society in achieving its objectives.**

Job Seeker Registration for SOT Online Job Bank

Candidate Types	Fees
SOT Member	\$ 0
Non-SOT Member	\$80
Non-SOT Member—Postdoctoral	\$45
Non-SOT Member—Student	\$30

Employer Registration for SOT Online Job Bank

Employer Types	Fees
SOT Affiliate	\$220
Corporation	\$440
University or Government	\$110
Nonprofit Organization	\$110

Career Resource and Development Services (Continued)

Annual Meeting On-Site Job Bank Center

Located in the San Diego Convention Center, the on-site Job Bank Center provides Annual Meeting attendees with access to the SOT Job Bank system and facilitates face-to-face interviews. **All SOT Members and users with current registrations at the time of the Annual Meeting are welcome to use this service.**

A bank of computers will be available in the SOT Job Bank Center for updating your account information or posting, as well as printers for producing paper copies of candidate profiles and position descriptions. **If you are a candidate attending the Annual Meeting, you should bring multiple copies of your personal resume for interviews.** All candidates and positions should be sought via the online Job Bank. Attendees interested in learning more about using the Job Bank to facilitate your job search or employee recruitment are welcome to come to the Job Bank Office.

Employers recognize that the Annual Meeting On-Site Job Bank Center provides a cost-effective and efficient way to interview a distinguished pool of candidates. Employers and candidates may take advantage of the multiple spaces available for interviews in Room 23BC on the Upper Level. Rooms are available to be scheduled in advance of the meeting or on-site, on a first-come, first-served basis. Please contact careerresources@toxicology.org to make a reservation.

To ensure privacy for candidates, the SOT Job Bank Center is located away from the scientific sessions. Interview rooms will be fitted with modular hard walls to increase privacy.

Job seekers and employers are encouraged to use the SOT Job Bank year-round outside of the Annual Meeting, as new positions and candidates are continuously available.

The center is available during the following hours of operation:

Sunday	1:00 PM–5:00 PM
Monday.....	9:00 AM–5:00 PM
Tuesday.....	8:30 AM–5:00 PM
Wednesday.....	8:30 AM–5:00 PM

Online Job Bank access will be available—as always—through your personal computer and at the Annual Meeting @SOT Center (information on page 50).

For additional information, contact Kevin Merritt at SOT Headquarters: 703.438.3115 ext. 1601 or email: careerresources@toxicology.org.

SOT’s Career Development Program Track

To help you develop your near-term and long-term career path, plan on attending the Education-Career Development Sessions scheduled this year that will be of special interest to you. Sessions include the following:

- Adaptive Leadership: Anticipating, Initiating, and Responding to Change—Monday, March 23, 12:10 pm to 1:30 pm, Room 7
- Challenges in the Life Cycle of a Toxicologist—Monday, March 23, 2:00 pm to 4:45 pm, Room 7
- What Toxicologist Do You Wanna Be? The Role of Toxicologists across Diverse Organizations—Wednesday, March 25, 12:00 noon to 1:20 pm, Room 7
- Crafting High-Impact Manuscripts: The Process from Hypothesis through Review and Publication—Wednesday, March 25, 4:30 pm to 5:50 pm, Room 7

Employer Ads in SOT Communiqué

The Society’s newsletter/blog is disseminated each week and offers employers the opportunity to attract a pool of highly qualified candidates. It includes employment position advertisements from corporate, university, governmental, and nonprofit organizations wishing to reach the entire SOT membership and beyond. For more information, contact Marcia Lawson at SOT Headquarters: 703.438.3115 ext. 1446 or email: marcia@toxicology.org.

SOT Encourages the Recruitment of Undergraduates to Toxicology

Undergraduates can sign up on the SOT website for special status as Undergraduate Student Affiliates

Participate in the Undergraduate ToXchange community

Special Programs for Undergraduates at the SOT Annual Meeting

These are coordinated by the SOT Education Committee and Committee on Diversity Initiatives.

- Undergraduate Education Program for students from groups underrepresented in the sciences and their advisors
- Undergraduate Education Program for students at institutions that receive low federal funding in science, math, engineering, and technology
- Sunday Undergraduate Education Program for any undergraduate student registering for this event with Annual Meeting registration
- Pfizer SOT Undergraduate Student Travel Award and SOT Undergraduate Intern Travel Award for outstanding students presenting abstracts
- Annual Meeting Scavenger Hunt for Undergraduates
- Undergraduate Student Meeting, Tuesday, March 24, 4:00 pm–5:00 pm (*all undergraduates welcome*)

Support for toxicology career presentations through the ToXscholar Outreach Grants

Toxicologists receive travel support for visits to campuses to present seminars and meet informally with students to introduce toxicology and discuss career pathways. Funds are also available for international career presentations.

SOT Recognizes Undergraduate Educators

The SOT 2015 Undergraduate Educator Award

*is presented to
Mindy F. Reynolds
Washington College*

Find more information at
www.toxicology.org

SOT 2015 Award Recipients

Achievement Award

Vishal S. Vaidya

Vishal S. Vaidya, PhD, is awarded the 2015 SOT Achievement Award.

Dr. Vaidya is the recipient of the Society of Toxicology 2015 Achievement Award. He has contributed to advancing regulatory science by modernizing toxicology and has set a high standard for future drug development and patient care. Dr. Vaidya has developed, evaluated, and validated highly novel tools for biomarker detection, comparing biomarkers (kidney injury molecule-1 [Kim-1], fibrinogen, extracellular microRNAs) using preclinical

and clinical models of kidney injury in many collaborative studies. His work, supported by a National Institutes of Health/National Institute of Environmental Health Sciences (NIH/NIEHS) Pathway to Independence grant, in collaboration with the Predictive Safety Testing Consortium, led to the first kidney toxicity biomarker (kidney injury molecule-1) qualified by the US Food and Drug Administration (US FDA) and the European Medicines Agency in 2008. These studies are likely to have a very significant impact on the way scientists monitor kidney injury in drug development and also in the clinics. In 2011, Dr. Vaidya won the NIH/NIEHS Outstanding New Environmental Scientist (ONES) award, and in 2013 he was selected as one of six North American scientists to receive the Innovation in Regulatory Science Award from the Burroughs Wellcome Fund.

Dr. Vaidya received his PhD in toxicology from the University of Louisiana in 2003 and completed his postdoctoral fellowship in nephrology from Brigham and Women's Hospital in 2007. As an Assistant Professor at Harvard, he has faculty appointments at the Brigham and Women's Hospital, where he directs the Laboratory of Kidney Toxicology and Regeneration; at the Harvard Medical School where he heads the Systems Toxicology Program within the Harvard Program in Therapeutic Sciences; at the Harvard School of Public Health where he directs a five-credit graduate level course on principles of toxicology-molecular and translational toxicology every fall; and at the Harvard Clinical and Translational Science Center (Harvard Catalyst), where he directs the course "Understanding Biomarker Science: From Molecules to Images" every spring.

He has been a member of SOT since 1999. In 2001 he received the Novartis Graduate Student Fellowship Award that was presented at the SOT Annual Meeting. Over the years, Dr. Vaidya has received the Comparative and Veterinary Specialty Section Award (2002), Risk Assessment Specialty Section Award (2005), American Scientist of Indian Origin Young Investigator Award (2012), and SOT's Leading Edge in Basic Science Award (2014).

He also has been active within SOT committees, having served on the Career Resource and Development Committee, Continuing Education Committee, and as a councilor for the Northeast Regional Chapter of SOT. The Society is pleased to present Dr. Vaidya with the 2015 SOT Achievement Award.

Arnold J. Lehman Award

Richard A. Becker

Richard A. Becker, PhD, DABT, is awarded the 2015 SOT Arnold J. Lehman Award.

Dr. Becker is the recipient of the 2015 SOT Arnold J. Lehman Award. Dr. Becker has significantly contributed to the field of toxicology for over 30 years. During this time, he has been a major driving force for development and application of new technologies and approaches for improving the practice of human health risk assessment. He has consistently been one of the forerunners in support of efforts to move human risk assessment forward

scientifically through innovative thinking and principled risk assessment practice.

In particular, his work with colleagues on development of methods for interpretation of chemical biomonitoring data, on hypothesis-driven weight-of-evidence frameworks for evaluating data for endocrine disruptors, on extending the work of the National Academy of Science from its Science and Decisions report, "Silver Book," and on enhanced tiered toxicity testing frameworks with triggers for assessing hazards and risks of commodity chemicals, are all important contributions to the debate of scientifically based safety assessment in the US and abroad.

Moreover, Dr. Becker has engaged and educated the scientific community through collaborative symposia that evaluate and review scientific evidence and strategies that enhance communication of chemical assessment information. All of these efforts have led to major progress in the use of new methodologies in health assessments conducted by industry, US federal agencies, and agencies around the world.

He received his PhD in pharmacology and toxicology from the University of California, Irvine. After postdoctoral training at the University of Toronto and the International Agency for Research on Cancer (IARC), he spent close to a dozen years as a scientist with the state of California. In 1999, he joined the American Chemistry Council (ACC), and in 2014, was appointed to lead ACC's Science and Research Division. He now manages ACC's Long-Range Research Initiative, a program focused on catalyzing innovations in toxicity testing and exposure science in the 21st Century.

Dr. Becker has been a member of the Society of Toxicology since 1990. During this time he has served on the Regulatory Affairs and Legislative Assistance Committee, as well as the Congressional Science Fellowship Review Subcommittee.

The Society is pleased to present Dr. Becker with the SOT 2015 Arnold J. Lehman Award.

Board of Publications Award for the Best Paper in *Toxicological Sciences*

The Society of Toxicology Board of Publications has selected the paper titled “Temporal Concordance Between Apical and Transcriptional Points of Departure for Chemical Risk Assessment” (*Toxicological Sciences* 2013, 134(1): 180–194).

Russell S. Thomas, Scott C. Wesselkamper, Nina Ching Y. Wang, Q. Jay Zhao, Dan D. Petersen, Jason C. Lambert, Ila Cote, Longlong Yang, Eric Healy, Michael B. Blank, Harvey J. Clewell III, Bruce C. Allen, and Melvin E. Andersen.

Ignorance Is Bliss?

Chemical risk assessment relies on sound information. Specifically, for regulatory agencies it is necessary to have comprehensive reviews on which to draw values for risk assessment. There are over 100,000 industrial chemicals that exist in our environment, yet the US Environmental Protection Agency (EPA) has fewer than 600 chemicals in their Integrated Risk Information System (IRIS), and the Office of Pesticide Programs (OPP) has evaluated just over 600 chemicals. What about the other 98,000+ chemicals?

Surprisingly, the current model deems that if we have no reliable toxicity data for a given chemical then it must be assumed to be safe. While we may be blissfully ignorant of the toxicity, this could indeed be very dangerous for the health of the human race and for the planet.

Biological science has undergone an ‘omic renaissance over the past several years. We can measure transcripts, proteins, lipids, and metabolites in the hundreds of thousands, if not millions. These modern-day techniques, which are commonly used by toxicologists, are being underutilized when it comes to risk assessment. While data from ‘omic approaches play supportive roles in helping identify pathways of toxicity and providing weight of evidence, they are not integrated into the risk assessment models. In the paper by Thomas and coworkers, the authors attempt to show that data from transcriptomics, using gene expression microarrays, can be used in a meaningful way in risk assessment models for cancer and non-cancer endpoints.

The authors examined six thoroughly studied chemicals and performed standard necropsy and histology, along with microarrays to identify benchmark dosing. The authors then analyzed tissue samples using microarrays from five days to 14 weeks and compared results to standard two-year rodent bioassays. Their analysis revealed that transcriptomics provided highly accurate information rivaling traditional approaches.

Risk assessment must rely on strong data from well thought-out studies. Regulatory agencies are notoriously slow to adopt more innovative approaches, but this paper suggests that the time is drawing near for the integration of ‘omic technology. This paper provides a strong foundation for the use of transcriptomics in risk

(continued to next page)

SOT 2015 Award Recipients (Continued)

assessment; indeed, the authors propose a framework for how this can be done. I, for one, would rather have a transcriptomic-based toxicological risk assessment for 20,000 chemicals than go with the ignorance approach we currently employ for the majority of our chemical space. Moreover, the generation of these types of data on thousands of chemicals would help populate computational models that may allow us to provide useful predictions on the other 80,000 chemicals.

In toxicology and risk assessment, ignorance is not bliss. Bliss comes from the generation of high-quality data and sophisticated and validated models of prediction on all of the chemicals that reach the marketplace. The paper by Thomas et al. represents a major step forward in spanning our gap of ignorance. Based upon this, the Board of Publications is pleased to award the Best Paper of the Year Award.

Distinguished Toxicology Scholar Award

Ian Kimber

Ian Kimber, OBE, BSc, MSc, PhD, FSB, FBTS, ATS, is awarded the 2015 SOT Distinguished Toxicology Scholar Award.

Dr. Kimber has worked in academia and industry, and he currently serves as Chair and Professor of Toxicology at the University of Manchester and Associate Dean for Business Development in the Faculty of Life Sciences.

Dr. Kimber has made many seminal contributions to immunotoxicology and the reduction of animals in research, as well as human and environmental safety. Dr. Kimber led the development of local lymph node assay (LLNA). As a validated *in vivo* test for skin sensitization, the LLNA has largely replaced the more animal-intensive previous test methods. The LLNA has been accepted by the OECD for Testing of Chemicals and the REACH Regulations as the first choice for *in vivo* testing. Dr. Kimber has pioneered changes in the approach taken by the international scientific community to the management of chemical and protein allergenicity. This has been achieved through progress in a number of areas including identification and characterization of cytokine signals that regulate epidermal Langerhans cell migration, the discovery that different classes of chemical allergens stimulate discrete adaptive immune responses, and development of a novel approach for characterization of the potential allergenicity of transgenic products in crop plants.

Dr. Kimber has made many contributions to toxicology, having authored over 500 peer-reviewed journal publications and more than 100 book chapters. He has delivered over 1,500 presentations at scientific meetings internationally. In the midst of this he has still managed to mentor over 40 PhD students.

Dr. Kimber has been a member of SOT since 1990. During this time, he has served in the leadership of the Immunotoxicology and Dermal Toxicology Specialty Sections, as well as on three ad hoc SOT Subcommittees. Dr. Kimber has distinguished himself such

that he has received many honors in toxicology. He was awarded an SOT Enhancement of Animal Welfare Award in 2003, and the Immunotoxicology Specialty Section Career Achievement Award in 2005. In 2010, he received the EUROTOX Bo Holmstedt Prize for contributions to chemical and drug safety. Dr. Kimber is a past President of the British Toxicology Society (2012–2014), and a former Chairman of the Board of the UK National Centre for the Replacement, Refinement and Reduction of Animals in Research (NC3Rs) (2008–2013). He was honored in 2011 when he was awarded an OBE (Officer of the Order of the British Empire) for services to science in the Queen's Birthday Honours List.

The Society is pleased to present Dr. Kimber with the 2015 Distinguished Toxicology Scholar Award.

FS Distinguished Toxicology Scholar Award Lecture: Allergic Sensitization: Defining Molecular Mechanisms and Characterizing Hazard and Risk, Wednesday, March 25, 12:30 pm to 1:20 pm, Ballroom 6B

Education Award

Theodore A. Slotkin

Theodore A. Slotkin, PhD, is awarded the 2015 SOT Education Award.

Dr. Slotkin has made impressive and significant contributions to education through his use of conventional and unconventional teaching techniques, including open discussions of current literature, of lay media, and of students' own research projects. Through classroom conversations, he ensures that students learn the requisite subject areas but always within a framework of critical evaluation of hypotheses and experimental

outcomes. Dr. Slotkin has devoted significant effort and time to developing new courses and new curricula, including *Essentials of Pharmacology, Toxicology and Drug Design*, and *Experimental Design and Biostatistics for Basic Biomedical Scientists*. His ability to teach mathematical concepts to biologists is the hallmark of his success. With a career that spans four decades, he has had a major impact, having taught thousands of students and personally trained 26 undergraduates, 31 PhD students, and 23 postdoctoral researchers and visiting scientific scholars in his laboratory far beyond the requirements of his teaching duties. In many cases these trainees have gone on to successful careers in industry, government, and academia due in no small part to Dr. Slotkin's influence.

He has played integral roles in curriculum development for the Pharmacology PhD Program, the Integrated Toxicology and Environmental Health PhD program, and the Undergraduate Pharmacology Curriculum for Biology and Chemistry Majors. These are in addition to the key role he has played in other training programs, including those in Cell and Molecular Biology, Neurosciences, Pharmacological Sciences, and MD/PhD.

(continued to next page)

SOT 2015 Award Recipients (Continued)

Dr. Slotkin received his PhD from the University of Rochester in 1970. Currently, he serves as Professor in the Departments of Pharmacology and Cancer Biology, Psychiatry and Behavioral Sciences, and Neurobiology, as well as the Integrated Toxicology Program at the Duke University Medical Center. Dr. Slotkin received a Board of Publications Best Paper Award in 1996 and has been a member of SOT since 1997.

The Society is pleased to present Dr. Slotkin with the 2015 Education Award.

Enhancement of Animal Welfare Award

Marcel Leist

Marcel Leist, PhD, is awarded the 2015 SOT Enhancement of Animal Welfare Award.

Dr. Leist has been involved in the improvement of animal welfare through active research and application of alternative methods to replace animal experiments for more than 25 years. During this time, Dr. Leist has contributed successfully to the establishment of multiple experimental *in vitro* models that provide data on toxicity of environmental chemicals and other compound classes and that allow drug efficacy testing without the use of animals.

Dr. Leist has played an important role in transatlantic efforts in the development of new animal-free testing strategies based on new methodologies and new concepts proposed by the National Academy of Sciences Committee on Toxicity Testing or the Tox21 consortium. Dr. Leist pioneered the use of cell-based systems in combination with human histology data to validate drug targets and to drive drug discovery projects up to clinical testing. The concept of using human cell-based disease models of neurodegenerative diseases Dr. Leist put into place 15 years ago has only just become mainstream thought in major pharmaceutical companies. The generation of LUHMES cells, an easily accessible model for human neurons, is used widely in the field of Parkinson's disease. He developed the neurite outgrowth assay, which is among the very few assays that can detect human neurotoxicants and clearly distinguish them from unspecified cytotoxicants.

This will likely become part of a battery of tests that will substitute animal-based neurotoxicity and developmental neurotoxicity testing. He has promoted the scientific exchange of scientists from academia, industry, and regulatory authorities on animal replacement issues. He has worked in collaboration with over 200 scientists worldwide to issue guidance to the entire field of toxicology for the last six years. A notable example is his roadmap for the transition to animal-free toxicity testing.

Dr. Leist received his PhD in 1993 from the University of Konstanz, Germany. Currently he serves as the Doerenkamp-Zbinden Chair for *In Vitro* Toxicology and Biomedicine and is a full Professor at the Department of Biology at the University of Konstanz. He has been a member of the Society since 2010.

The Society is pleased to present Dr. Leist with the 2014 Enhancement of Animal Welfare Award.

Global Senior Scholar Exchange Program

The Society of Toxicology Global Senior Scholar Exchange Program aims to increase the global impact of toxicology on human health and safety by working to strengthen toxicology programs and capacity in universities in developing countries. SOT sponsors specific collaborations between selected Senior Scholars from academic institutions in developing countries and SOT Member Hosts from established academic, government, and industry toxicology programs worldwide. The program enables an exchange visit of these scientists to support the developing country university's core toxicology curriculum, increase research collaborations, provide courses or symposia on toxicology topics of high priority in the developing country, and fund the senior scholar to attend the SOT Annual Meeting as an opportunity to present research and establish networking opportunities.

Sunisa Chaiklieng

Sunisa Chaiklieng, BSc, MSc, Dr Biol Hum, Khon Kaen University, Muang, Thailand

Dr. Chaiklieng is an expert in risk assessment of occupational ergonomics and occupational exposures to benzene. She is an Assistant Professor of Occupational Health at Khon Kaen University in Thailand. She received her BSc and MSc from Mahidol University in Bangkok and her doctoral degree in biomedical science from Ulm University in Germany. She then continued her postdoctoral training at Ulm University at the Institute of Applied Physiology.

Dr. Chaiklieng joined the Faculty of Public Health at Khon Kaen University in Thailand, which is a leader in public health research and training in northeast Thailand and includes the departments of environmental health science and occupational health, biostatistics and demography, epidemiology, health education, nutrition, and public health administration. At Khon Kaen University, Dr. Chaiklieng has been involved in teaching occupational and environmental toxicology, industrial toxicology, and risk assessment. She has also recently been appointed as director of a new occupational health and safety MSc program to begin in 2015. Dr. Chaiklieng has contributed to over 30 publications, has received awards for the best oral presentation at the 4th National Toxicology Conference in Toxicology in Bangkok, and was an SOT Endowment Fund/IUTOX travel fellowship winner in 2012.

The Global Senior Scholarship Exchange Program will assist Dr. Chaiklieng in strengthening the graduate program at Khon Kaen University through increasing understanding of the international accreditation requirements in occupational safety and health. One specific program that will be explored is the establishment of cooperative research in risk assessment of benzene exposure. This is particularly important in Thailand because workers at gas stations are at increased risk of exposure to benzene; therefore, there exists a need to establish biomarkers of benzene exposure and establish effective workplace surveillance of benzene levels. Meeting these needs will minimize exposures and improve the health of workers

(continued to next page)

SOT 2015 Award Recipients (Continued)

in Thailand. Finally, collaborations can be developed between the faculty at Khon Kaen University and the host university to provide additional training opportunities, research projects and/or joint publications.

Norbert E. Kaminski

Host:
Norbert E. Kaminski, PhD, Michigan State University, East Lansing, MI

Dr. Chaiklieng will be hosted by Dr. Kaminski at Michigan State University (MSU). Dr. Kaminski is a Professor in the Department of Pharmacology and Toxicology and is the Director of the Center for Integrative Toxicology (CIT). The CIT at MSU is an outstanding environment for training in all aspects of toxicology through its interdepartmental MS and PhD programs. The CIT has over

60 affiliated faculty from more than 16 departments across campus, providing interdisciplinary training with strengths in biomedical, occupational, environmental, food-borne, and pharmaceutical toxicology. The CIT also houses the MSU Superfund Research Program Center Grant (funded by the National Institute for Environmental Health Sciences) and the recently established Center for Research on Ingredient Safety. Dr. Chaiklieng will benefit from learning about MSU's interdisciplinary toxicology curriculum. In addition, Dr. Kaminski will travel to Khon Kaen University to engage in teaching and explore research collaborations.

Deepak Dhakal

Deepak Dhakal, MS, Tribhuvan University, Patan, Nepal

Mr. Dhakal is Assistant Professor in the Department of Chemistry, Patan Multiple Campus, Institute of Science and Technology at Tribhuvan University (TU), Patan, Nepal. Mr. Dhakal has conducted research on pesticide residues in food commodities and clinical solid waste, with expertise in analytical chemistry and environmental toxicology. He has been instrumental in the inclusion of environmental chemistry in the curriculum at TU and the recent addition of

environmental toxicology to the graduate curriculum.

He was also integral in establishing the National Society of Toxicology (Nepal) in 2009, and is currently serving as president. In this role, he has worked for the collection of national data about the classification of the toxic chemicals, including obsolete pesticides (PCB, POPs) in Nepal, with the help of UN organizations (UNIDO) since 2009. These obsolete pesticides may result in many health and environmental problems around the stored areas of the different parts of Nepal.

These and other potential environmental toxicology issues have led to an increased interest in the study of toxicology for Nepal. The Global Senior Scholar Exchange Program will assist Mr. Dhakal in strengthening the toxicology curriculum at TU to train researchers to help understand and address these environmental toxicology issues.

These efforts include training on techniques for identifying, evaluating, and controlling emerging environmental contaminants such as those in drinking water, pesticide residues, and stored obsolete toxic chemicals like PCB and pesticides. Curriculum development will involve higher level of studies in toxicology, such as human health risk assessment of toxic chemicals, including obsolete toxic chemicals like PCBs that remain a source of concern in Nepal.

Aaron Barchowsky

Host:
Aaron Barchowsky, PhD, University of Pittsburgh, Pittsburgh, PA

Dr. Barchowsky will host Mr. Dhakal at the Department of Environmental and Occupational Health at the University of Pittsburgh. Dr. Barchowsky has been with the Department of Environmental and Occupational Health at the University of Pittsburgh since 2003, where he is currently a full Professor. His research interests are in investigating the cellular and molecular mechanisms underlying cardiovascular

and lung diseases caused by environmental exposures to metals and chronic changes in redox status. The University of Pittsburgh has a history of research discoveries that have improved the health of populations around the globe. This tradition endures through Pitt's world-class faculty, who continue to build upon the legacy of individuals such as Jonas Salk, William Hammond, and Peter Safar, and through Pitt's outstanding student body, which continually embraces the field of global health and truly makes a difference on a worldwide scale. An example of commitment to advancing global health is the Graduate School of Public Health certificate in Global Health that is available to graduate students. Global health refers to health issues that transcend national boundaries. The field faces unprecedented challenges brought on by issues such as shifting immigration patterns, climate change, conflict, and global commerce.

SOT 2015 Award Recipients (Continued)

Merit Award

Günter Oberdörster

Günter Oberdörster, DVM, PhD, is awarded the 2015 SOT Merit Award.

Dr. Oberdörster is a pioneer in the field of research on aerosol behavior in the respiratory tract. His research has encouraged many breakthroughs in our understanding of particle deposition, clearance, and effects in the respiratory tract. His research has focused on furthering our understanding of the influence of aerosol characteristics on the toxicity and underlying mechanisms of inhaled materials. His observations in intact

mammals including human subjects have helped to advance our understanding of the role of particle dose-metrics with respect to mass, number, surface area, and chemical composition in the pathogenesis of respiratory tract diseases. Ground-breaking findings of Dr. Oberdörster and his colleagues are key to understanding the toxicity of nanomaterials and ensuring safety in many beneficial applications. Because of this he is widely known as the “Father of Nanotoxicology” in many circles.

Dr. Oberdörster’s early research at the Fraunhofer Institute on inhaled cadmium, nickel, and zinc compounds changed the understanding of the inhalation hazards of these elements. In the late 1970s, Dr. Oberdörster visited the University of Rochester as a Visiting Faculty member, which served only to nurture his interest in inhalation toxicology. In 1981 he was appointed Associate Professor there, promoted to Professor in 1989, and has continued making seminal contributions to the fields of aerosol sciences and respiratory toxicology through his research, teaching, and public service for four decades. During this time he has authored or co-authored over 300 publications.

Dr. Oberdörster received his Doctor of Veterinary Medicine degree in 1964 and a PhD in Pharmacology in 1966 from the University of Giessen in Germany. He has been an SOT member since 1983, with a brief interruption for ~1 year in 2000. During this time he has been very active within the Society, having presented papers regularly at the SOT Annual Meeting and has organized and chaired many scientific sessions. He has also been very active with the Inhalation and Respiratory Specialty Section, where he had served as President and was the recipient of the Career Achievement Award in 1996. He became an active member of the Nanotoxicology Specialty Section at its formation in 2009 and received a Special Recognition Award in 2014.

The Society is pleased to present Dr. Oberdörster with the 2015 Merit Award.

Public Communications Award

Andrew D. Maynard, PhD, is awarded the 2015 SOT Public Communications Award.

Dr. Maynard utilizes social media outlets in a novel way to communicate public health topics to broad audiences. He has been featured in nearly all media formats including television, print, web, and radio, and writes regularly for his personal blog, *2020 Science*. Dr. Maynard is most recognized for his established social media presence on a YouTube channel called Risk Bites. His work on Risk Bites is rooted in the sciences of toxicology, exposure assessment,

epidemiology, and risk. With simple graphics and concise language, Dr. Maynard provides insight into risk and safety topics that are easily understandable. Risk Bites has featured in mainstream publications ranging from *USA Today* to the technology website Gizmodo. More recently, Dr. Maynard was recognized as one of "The Top 50 Science Stars on Twitter," by *Science Magazine*.

In the classroom, Dr. Maynard consistently challenges students to reach wider audiences of scientists and the general public alike by using innovative communications formats. His course "Communicating Science through Social Media" provided a unique approach to learning how to use social media as a tool to raise and help explain complex public health issues to those with or without advanced technical backgrounds.

In the scientific community, Dr. Maynard contributes significantly to peer-reviewed literature, serves on many journal editorial boards, actively participates in national and local conferences and workshops, and is a regularly invited lecturer. He is a recognized leader in the field of nanotechnology, and has been published widely on topics such as exposure, risk, regulation, toxicological impacts, and the challenges associated with the evaluation of nanomaterials.

Dr. Maynard currently serves as the Director of the University of Michigan Risk Science Center. Based on his dedication to broadening public awareness of toxicological issues, the Society is pleased to present Dr. Maynard with the 2015 Public Communication Award.

Translational Impact Award

Jefferey Burgess

Jefferey Burgess, MD, MS, MPH, is awarded the 2015 SOT Translational Impact Award.

Over the past ten years, Dr. Burgess has made significant contributions to translational research studying environmental arsenic exposure, the effects of combustion product exposure in firefighters, and exposure to diesel and alternative fuel emissions in miners.

Dr. Burgess's translational research was pivotal in providing an important link in arsenic exposure on the development of pulmonary diseases, incorporating previous findings on animal and *in vitro* model systems and applying into human studies. He has been able to validate specific arsenic-induced changes in lung and blood biomarker proteins associated with levels of arsenic exposures. More recently, Dr. Burgess has determined a significant source of arsenic exposure stems from ingested food sources. His work is helping to evaluate those levels of exposure and the subsequent biological response.

In addition, Dr. Burgess became interested in combustion product exposure in firefighters early in his career. This interest, paired with his understanding of chemical-induced toxic effect, his interactions with basic researchers, and his application of basic science markers as biomarkers in a targeted population, allowed him to translate science into studies that are providing a deeper assessment of firefighter's exposure and an approach to minimize the risk and health effects for this at-risk group. A major outcome of this work has been to increase firefighter use of respiratory protection during overhaul, the final phase of fighting a fire when self-contained breathing apparatus was previously not worn and when chemical exposures were still elevated despite no visible smoke.

Similarly, Dr. Burgess has begun to address the health status of miners. He has used his basic science and clinical skills to examine the risk that miners have in their current working conditions. His focus has been on the use of diesel engines within the mines and the effects of emissions on miners' health. He is now examining the extent of exposure and associated health effects of diesel, biodiesel, and other alternative fuels in underground mining operations, which should help guide future efforts to reduce hazardous exposures in this setting.

Dr. Burgess currently serves as the Associate Dean of Research at the Mel and Enid Zuckerman College of Public Health at the University of Arizona.

The Society is pleased to present Dr. Burgess with the 2015 SOT Translational Impact Award.

ES Translational Impact Award Lecture: How to Make a (Translational) Impact, Tuesday, March 24, 8:00 am to 8:50 am, Ballroom 6B

SPECIAL EVENTS

SOT 2015 Award Recipients (Continued)

Undergraduate Educator Award

Mindy F. Reynolds

Mindy F. Reynolds, BS, PhD, is awarded the SOT 2015 Undergraduate Educator Award.

Dr. Reynolds has demonstrated dedication and a commitment to undergraduate education in toxicology. When she arrived at Washington College in 2008 there were no toxicology courses offered and no toxicological research was being conducted. Within her first year she had strived to develop a course in the principles of toxicology and by spring of 2009 she had begun to teach this course to

undergraduate students. This course has been offered every spring since then. Dr. Reynolds also makes it a priority to oversee the independent research of undergraduate students each summer in an intensive 11-week research program.

In addition, Dr. Reynolds has given numerous presentations to undergraduate educators on the integration of toxicology into an undergraduate curriculum. She is very active within metals toxicology research which includes cytotoxic and genotoxic effects of multiple heavy metal exposure in human cells, but has expanded her research to include whole animal ecotoxicology in both vertebrate and invertebrate models. She actively involves students in this research and has mentored over 18 students on their senior thesis projects, several of which have dealt directly with her research.

Dr. Reynolds has been a member of the Society of Toxicology since 2004. Since that time she has been very active working toward her longtime mission of advancing the science of toxicology to undergraduates. She currently serves as Chair of the SOT Undergraduate Education Subcommittee and has served as a member of this committee since its inception in 2009. In 2010 she led the Undergraduate Subcommittee Work Group to develop an online resource for undergraduate instructors. Under her leadership the Subcommittee has developed multiple programs for faculty, including a webinar series. Dr. Reynolds was a featured speaker at the 2011 SOT Education Summit to provide perspective on undergraduate teaching to help develop SOT strategic efforts. Such is her commitment to her undergraduates that many students in her laboratory present their research annually at the SOT Annual Meeting and receive awards such as the Pfizer SOT Undergraduate Travel Award.

The Society is proud to present Dr. Reynolds with the 2015 SOT Undergraduate Educator Award.

SOT | Society of Toxicology

**Creating a Safer and Healthier World
by Advancing the Science of Toxicology**

*Do you know a toxicologist
who deserves to be recognized?*

SOT recognizes distinguished toxicologists and students with many prestigious awards each year. In addition to receiving the specific award, recipients are honored at a special Awards Ceremony during the SOT Annual Meeting and their names are listed in SOT publications. Most award nominations and applications are submitted through a quick online process.

Applications for 2016 national SOT awards are due October 9, 2015.

Regional Chapter Awards, Special Interest Group Awards, and Specialty Section Awards have various deadlines throughout the year.

Visit the Awards and Fellowships section of the website to view award details to make nominations.

SOT 2015 Honorary Membership

Honorary membership is awarded by the Society of Toxicology to people who are not members of the Society in recognition of outstanding and sustained contributions to advancing the science and field of toxicology. Shawn Douglas Lamb is named Society of Toxicology Honorary Member. Submitted by SOT 2014–2015 Past President Lois D. Lehman-McKeeman.

SPECIAL EVENTS

Shawn Douglas Lamb

Shawn Douglas Lamb served as Executive Director for the Society of Toxicology since 1993, retiring December 31, 2014. Under her vigilant eye, the Society has grown from an international membership of 3,000 to a vigorous society of over 8,000 members. As Executive Director, she has worked with 21 different SOT Presidents and Councils, contributed broadly to the Society’s strategic planning, governance, growth, and outreach, and she has made personal contributions—too many to count—to the success of the Society.

In fact, as Council members rotate on and off and the presidential chain is new each year, Ms. Lamb has been the single constant factor in the Society’s leadership over the past two decades. She has had a direct impact on every initiative undertaken or proposed by each SOT Council, Committee and Subcommittee, Task Force, or other ad hoc group. Her tireless dedication and steadfast support of these groups are paralleled only by her outstanding leadership. Ms. Lamb has demonstrated an uncanny ability to understand the complex challenges that face our Society. Her polished organizational skill has provided options toward solutions for any obstacles that have been encountered.

In addition to the role she has played within SOT, Ms. Lamb has been working with the global toxicological community for many years. She has an international reputation and stature in toxicology. She has served as the Executive Director of IUTOX, the International Union of Toxicology. As the founder of Association Innovation and Management, Inc. (AIM), an association management company focused on providing a complete and broad array of administrative services to professional scientifically-based client associations, she has shared our mission to improve human and environmental health.

Honorary membership in the Society is designed to recognize nonmembers who “embody outstanding and sustained achievements in the field of toxicology.” We often honor those individuals who have made noteworthy contributions through research and education in the science. Ms. Lamb has developed international recognition as a collaborative voice for toxicologists. As an administrative leader of the Society, she has been a stalwart supporter of the growth and vitality of our Society. As with our other distinguished honorees who achieved recognition through their research, she has been extremely influential for our science. Given the breadth of her contributions in support of toxicology, it is only fitting that the SOT bestows Honorary Membership to Shawn Douglas Lamb.

Building for the Future

Contributors to the SOT Endowment Fund are helping to build for the future of toxicology through long-term financial support that generates critical resources to enable the Society to fulfill its mission, now and in the years to come.

Since the Endowment Fund's inception in 2006, contributors have:

- Underwritten more than 140 Student Travel Awards to the SOT Annual Meeting.
- Recognized colleagues who have made enormous contributions to improving human health and the environment.
- Created funds that acknowledge the contributions of toxicology educators to undergraduate students in toxicology and toxicology-related areas.
- Strengthened global participation by providing financial support to scientists from developing countries to attend the SOT Annual Meeting.

The Society of Toxicology is matching contributions to all permanently restricted funds dollar for dollar (donations to temporarily restricted funds will vest once the fund has reached the required threshold for permanent status). The 1-to-1 match is effective for contributions made between July 1, 2013, and June 30, 2016, or until the \$400,000 in matching funds has been expended.

Please help SOT continue to make a difference by becoming a contributor to the SOT Endowment Fund. For more information, visit www.toxicology.org/endowment.

The Endowment Fund Contribution Donor Form can be found on page 411.

SOT Endowment Fund 2014 Award Recipients

SOT Endowment Fund—Helping the Society Fulfill Its Mission to Build for the Future

The SOT Endowment Fund is a family of funds comprising the Education Fund, Global Activities Fund, SOT Priorities Fund, and the 34 Named Funds.

In the SOT 2013–2014 fiscal year, the Education, Global Activities, and SOT Strategic Priorities Society Funds, and the Named Endowment Funds, the Harry W. Hays Memorial Fund and the Sheldon D. Murphy Memorial Fund, contributed funding to SOT initiatives that addressed one or more of the Society’s strategic objectives.

The Founders Award

The Founders Award was conferred on John A. Thomas. This award was established for his leadership in advancing the role of toxicology.

Undergraduate Educator Award

The Undergraduate Educator Award was conferred on William D. Atchison. This award was established to recognize efforts to increase the pipeline of future toxicologists and was funded through the SOT Endowment Education Fund.

SOT/AstraZeneca/SOT Endowment Fund/IUTOX Travel Awards

As part of our effort to strengthen global participation, the Global Activities Fund and the SOT Strategic Priorities Fund provided financial assistance for scientists from countries where toxicology is underrepresented to assist with travel to the Annual Meeting. The principal goal of these fellowships is to increase capacity in the developing country through strengthening toxicology within the university and the country. The International Union of Toxicology (IUTOX) administered the award review process. Historical listing of recipients can be found on page 403.

Student Travel to SOT Annual Meeting

Hundreds of students, many of them now leaders in SOT, attended their first SOT meeting by winning a Student Travel Award funded by the Society. From the early days of SOT to the present, it has been understood that such participation is essential to “building for the future of toxicology.” For the 2014 Annual Meeting, the SOT Priorities and Education Society Endowment Funds provided funding for an additional ten students, who might not otherwise have found funding to participate in the Annual Meeting.

SOT Endowment Fund 2014 Award Recipients

Mary Amdur Student Award Fund

Mary A. Popovech, MPH,
New York University,
School of Medicine,
Tuxedo, NY

Laxman S. Desai Association of Scientists of Indian Origin Student Award Fund

Neel Fofaria, BS,
Texas Tech University
Health Sciences Center,
Amarillo, TX

Education Fund: Undergraduate Educator Award

William D. Atchison,
PhD, Michigan State
University, East Lansing,
MI

Young Soo Choi Student Scholarship Award Fund

Jinyoung Lee, MPH,
Purdue University,
West Lafayette, IN

Kevin Kumar, BS,
Vanderbilt University
School of Medicine,
Nashville, TN

Founders Fund

John A. Thomas, PhD,
ATS, Indiana University
School of Medicine-
Fishers, Indianapolis, IN

John Doull Student Award Fund

Melanie Adler, PhD,
Brigham and Women’s
Hospital, HIM, Renal
Division, Boston, MA

Houston, Houston, TX

Component Groups

Regional Chapters

- Allegheny-Erie
- Central States
- Lake Ontario
- Lone Star
- Michigan
- Mid-Atlantic
- Midwest
- Mountain West
- National Capital Area Chapter
- North Carolina
- Northeast
- Northern California
- Northland
- Ohio Valley
- Pacific Northwest
- South Central
- Southeastern
- Southern California

Special Interest Groups

- American Association of Chinese in Toxicology
- Association of Scientists of Indian Origin
- Hispanic Organization of Toxicologists
- Korean Toxicologists Association in America
- Toxicologists of African Origin
- Women in Toxicology

Enhance Your Annual Meeting Experience

Participate in Regional Chapter, Special Interest Group, and Specialty Section Meetings/Receptions.

Component group meetings and receptions offer an excellent opportunity to network at the SOT Annual Meeting. If you're a component group member, be sure to attend your Regional Chapter, Special Interest Group, or Specialty Section meeting/reception to connect and engage with your peers. It's a great time to catch up with long-time friends and colleagues, or make new ones!

*Women in Toxicology
 Special Interest Group
 2014 Reception*

*Regulatory and Safety
 Evaluation Specialty Section
 2014 Meeting/Reception*

*Metals Specialty Section
 2014 Meeting/Reception*

Are you interested in joining a Regional Chapter, Special Interest Group, or Specialty Section? Attend a component group networking meeting/reception at the Annual Meeting. There's no better way to meet, network, and decide on joining a component group. You'll be glad you did!

Component group meetings/receptions may be found on pages 90-92 of this *Program*. For a full and complete listing, visit the SOT website, Mobile Event App, or Online Planner.

Component Groups

Specialty Sections

- Biological Modeling
- Biotechnology
- Carcinogenesis
- Cardiovascular Toxicology
- Clinical and Translational Toxicology
- Comparative and Veterinary
- Dermal Toxicology
- Drug Discovery Toxicology
- Ethical, Legal, and Social Issues
- Food Safety
- Immunotoxicology
- *In Vitro* and Alternative Methods
- Inhalation and Respiratory
- Mechanisms
- Medical Device and Combination Product
- Metals
- Mixtures
- Molecular and Systems Biology
- Nanotoxicology
- Neurotoxicology
- Occupational and Public Health
- Ocular Toxicology
- Regulatory and Safety Evaluation
- Reproductive and Developmental Toxicology
- Risk Assessment
- Stem Cells
- Toxicologic and Exploratory Pathology

Social Events

All activities will be held at the San Diego Convention Center unless otherwise noted.

Regional Chapter, Special Interest Group, and Specialty Section Receptions

Monday, March 23–Wednesday, March 25, Various Times

Many of the SOT RC, SIG, and SS meet during the SOT Annual Meeting. All current and prospective RC, SIG, and SS members are encouraged to attend. More information can be found on pages 90–92.

SATURDAY

Committee on Diversity Initiatives Reunion

Saturday, March 21, 7:30 PM to 8:30 PM

Room 33B (Invited: All Current and Past Participants and Volunteers in the Undergraduate Education Program)

Hosted by:

Committee on Diversity Initiatives

Please connect with the Committee on Diversity Initiatives (CDI) as we celebrate the Undergraduate Education Program and the people who make it successful. The CDI Reunion will provide a great opportunity for former students, organizers of the program, and volunteers to gather and celebrate 26 years of success in encouraging the next generation of scientists. Please welcome and network with this year's undergraduate student participants and the Gehring Diversity Student Travel Awardee. Dessert, coffee, and tea will be served, so please mark your calendars and start the 54th Annual Meeting with a fun and interactive evening at the CDI Reunion.

SUNDAY

Awards Ceremony

Sunday, March 22, 4:45 PM to 6:30 PM

Ballroom 6A

(All Attendees Welcome)

Pre-Ceremony Musical Performance

Performed by Amy Kanner

4:45 PM to 5:15 PM

Amy Lynn Kanner will perform for SOT Annual Meeting attendees prior to the SOT Awards Ceremony. Amy's passion is playing the harp. She is also a composer and recording artist—her CD, "Garden of Delights," features performances on multiple instruments. Amy is also a physician and a graduate of the International Harp Therapy program—utilizing the unique resonance of the harp to create an atmosphere of relaxation and respite for both patients and health care staff. Find additional event details on the SOT 2015 Annual Meeting website at www.toxicology.org/ai/meet/am2015/social-events.asp.

Awards Ceremony

5:15 PM to 6:30 PM

Please join the Awards Committee, in conjunction with Council, the Board of Publications, and the Education Committee as we honor scientists who have distinguished themselves with presentation of awards at our prestigious SOT Awards Ceremony (pages 65–78) following the pre-ceremony musical performance. Please refer to the Awards and Fellowships section of the SOT website for complete details.

Welcome Reception

Sunday, March 22, 6:30 PM to 7:30 PM

West Terrace

(All Attendees Welcome)

Continue the celebration by attending the Welcome Reception following the Awards Ceremony. The Welcome Reception is a great opportunity to renew old friendships and to make new acquaintances. Please join the Society in this kick-off of the Annual Meeting.

25-Year (or More) Member Reception

Sunday, March 22, 7:00 PM to 8:00 PM

Room 5

If you have been a member of the Society of Toxicology for 25 years or more, please join your colleagues to celebrate and recognize the scientists who established the Society. Be sure to wear your anniversary pin.

MONDAY

SOT Mentoring Breakfast

Monday, March 23, 6:15 AM to 7:45 AM

Room 5B

(Registration Required)

Endorser(s):

Career Resource and Development Committee

Graduate Student Leadership Committee

Postdoctoral Assembly

The Society of Toxicology recognizes the importance of mentoring in the scientific and professional development of its members. As such, the Career Resource and Development Committee, in conjunction with the Postdoctoral Assembly and Graduate Student Leadership Committee, is pleased to host the fourth annual Mentoring Breakfast.

The Mentoring Breakfast is for SOT members at any career stage—from graduate students and postdoctoral fellows to senior scientists—who are seeking a mentor. A brief introduction will be followed by small group discussions led by trained facilitators. Facilitators will work to match participants with compatible mentors.

Social Events (Continued)

Global Collaboration Coffee

Monday, March 23, 9:30 AM to 11:30 AM

Room 4

The Society of Toxicology invites all Global Gallery poster presenters and representatives of societies from around the world to the Global Collaboration Coffee. Other invitees include SOT Special Interest Group leaders, IUTOX Executive Committee members, SOT Councilors, 2015 Global Senior Scholars and their hosts, and the 2015 recipients of the SOT/AstraZeneca/SOT Endowment Fund/IUTOX Travel Award. This event offers an opportunity for scientific leaders to meet, discuss important issues facing the global toxicology community, and lay the groundwork for future collaborations. Following the coffee, attendees will adjourn together to the Global Gallery where presenters will share their posters in a “Representative Attended” poster time from 11:45 am–12:15 pm. See the Global Gallery information that follows for more details.

Global Gallery of Toxicology
A Worldwide Vision for Toxicology

Attendees interested in collaboration and discussion are invited to the Global Gallery Monday, March 23, 11:45 am–12:15 pm, for a representative-attended poster session with all Global Gallery Participants.

More information can be found on page 165.

Posters will be displayed prominently in the ToxExpo Exhibit Hall.

Global Gallery of Toxicology

Monday, March 23, 11:45 am to 12:15 pm

Representative Attended

Exhibit Hall (Across from SOT Pavilion, Booth 526)

Toxicology Societies from around the world are invited to participate in the Global Gallery of Toxicology. Now in its fourth year, posters showcasing the key information, accomplishments, and strategic initiatives of these societies will be prominently displayed during the meeting. In addition, the 2015 Global Gallery poster session has a “Representative Attended” poster time of 11:45 am–12:15 pm on Monday, March 23. The goal of SOT and of all these societies is to further the science of toxicology to advance human health and disease prevention. The Global Gallery posters are located in the Exhibit Hall near SOT Pavilion, Booth 526. A complete list of participants can be found on page 165. For more information, please contact Kevin Merritt at kevin@toxicology.org.

Research Funding Luncheon:

Multiple Perspectives on the Grant Process

Monday, March 23, 12:00 Noon to 1:30 PM

Room 5B

Hosted by:

Career Resource and Development Committee

Grant writing is a challenging endeavor. One must effectively communicate the significance, innovation, and approach of their research project in a clear, but concise manner, with appropriate grammar. While there are some aspects of grant writing that apply regardless of the grant application phase, such as a clearly stated hypothesis and specific aims, the style and required elements of the various phases of the grant writing process can differ significantly. Thus, the goals of this session are to discuss the various phases of the grant writing process, including preparing a new application versus a competitive renewal, composing the rebuttal and revised grant application, how best to create a “new” proposal if a grant has not been funded after two review cycles, and an overview of the review process and choosing the best scientific review group. Four experts will expertly cover these topics and participate in a panel discussion at the end of the session.

- **Essentials in Grantsmanship from a Program Officer’s Perspective**
Annette Kirshner, NIEHS Health Scientist Administrator, Research Triangle Park, NC
- **The NIH Application Review Process from a SRO’s Perspective**
Janice Allen, NIEHS Scientific Review Branch, Research Triangle Park, NC
- **Taking a Look Behind the Curtain: What REALLY Happens at Study Section?**
Cheryl Walker, Texas A&M Institute of Biosciences and Technology, Houston, TX
- **Science to Achieve Results (STAR), US EPA’s Competitive Extramural Grants Program: Process and Opportunities**
Mitch Lasat, US EPA, Washington, DC
- **Roundtable Discussion and Questions**

See page 129 for more information.

Social Events (Continued)

In Vitro Toxicology Lecture and Luncheon for Students: Alternative *In Vitro* Approaches for Predicting the Health Impacts of Nanomaterials

Monday, March 23, 12:00 Noon to 1:20 PM

Ballroom 20D

(Ticket Required)

Chairperson(s): Richard Pollenz, University of South Florida, Tampa, FL; Emily G. Notch, Western New England University, Springfield, MA; and Daniel J. Spade, Brown University, Providence, RI.

Lecturer: James C. Bonner, North Carolina State University, Raleigh, NC

Supported by:

An educational grant from the Colgate-Palmolive Company

Hosted by:

Education Committee

The goal of the *In Vitro* Toxicology Lecture series is to feature important research using *in vitro* and alternative techniques to study basic mechanisms and to illustrate how these test methods benefit animal welfare by refining, reducing, and replacing animal use whenever it is feasible.

Undergraduates, graduate students, postdoctoral scholars, and recipients of Colgate-Palmolive awards are among the guests at the *In Vitro* Toxicology Lecture and Luncheon. Students and postdoctoral scholars register for \$10 (nonrefundable) via the Annual Meeting registration. Dr. Bonner will present an introduction to the topic and then participants will discuss related questions and report responses. More information can be found on page 94.

TUESDAY

Past Presidents' 5K Fun Run/Walk

Tuesday, March 24, 7:00 AM

Embarcadero Marina Park

Supported by:

IDEXX Laboratories, Inc.

When you pack for SOT 2015, don't forget your running shoes so you can join us for the fifth annual Past Presidents' 5K Fun Run/Walk! Open to anyone interested, this event is a great opportunity to meet old friends and make new acquaintances in a casual environment, joining SOT's Past Presidents in showing support for SOT. Whether you're in it for some friendly competition or would rather take a leisurely stroll, this event's emphasis is on camaraderie and will bring together runners and walkers of all levels and paces. Come join us—we look forward to seeing you!

To register, visit the Special Events section of the SOT Annual Meeting website. Registration is only \$20, and all proceeds will go toward the SOT Endowment Fund.

Research Funding Information Room

Tuesday, March 24 and Wednesday, March 25,

9:30 AM to 4:30 PM

Room 11A

Hosted by:

Career Resource and Development Committee

SOT places a strong emphasis on the development of opportunities for research support and funding. As a service to its members and new investigators, SOT offers the Research Funding Information Room so that members and attendees may network and learn more about the various opportunities available to them. Program and review staff from federal agencies that fund research, including NIH, US FDA, NIEHS, CDC, and US EPA will be available in the Research Funding Information Room (Room 11A) for individual conversations. Attendees may check the posted schedule for specific times agency staff members will be available during the week to answer questions about the scientific review process and various grant opportunities. The schedule will be available in the Registration area, the Research Funding Information Room, and during the *Research Funding Luncheon: Multiple Perspectives on the Grant Process* on Monday.

Postdoctoral Assembly Luncheon

Tuesday, March 24, 12:00 Noon to 1:15 PM

Ballroom 5

(Ticket Required)

Chairperson(s): Colleen E. McLoughlin, National Institute for Occupational Safety and Health, Morgantown, WV.

Hosted by:

Postdoctoral Assembly

To encourage increased participation and networking among postdoctoral scholars, this year the Postdoctoral Assembly (PDA) Board has planned the PDA Luncheon to be more casual than a seated lunch. Finishing up a discussion from your morning poster session? Leaving early to run off to set up a poster or attend another meeting? That's no problem; come stop in when you can! You can enjoy a buffet lunch and move around the room to mingle with others, including PDA officers, Postdoctoral Representatives, and SOT Councilors. This is the time for postdocs to relax, celebrate achievements, and have fun.

Social Events (Continued)

Undergraduate Educator Network Meeting

Tuesday, March 24, 2:15 PM to 3:30 PM

Room 14A

Chairperson(s): Mindy F. Reynolds, Washington College, Chestertown, MD.

Hosted by:

Education Committee
Undergraduate Education Subcommittee

The Education Committee and the Undergraduate Education Subcommittee are hosting the Undergraduate Educator Network Meeting for all faculty involved in the teaching of toxicology to undergraduates, or for those interested in including toxicology at the undergraduate level. Hear an update on initiatives for undergraduate faculty, provide your input, and network.

Undergraduate Student Meeting

Tuesday, March 24, 4:00 PM to 5:00 PM

Room 14A

(All Undergraduate Meeting Registrants Are Invited)

Chairperson(s): Mindy F. Reynolds, Washington College, Chestertown, MD.

Hosted by:

Education Committee
Undergraduate Education Subcommittee

All undergraduate students attending the meeting are encouraged to participate in an informal meeting to talk about shared interests related to career paths in toxicology, discuss undergraduate tox-related activities, clubs, and majors on their campuses, and to provide feedback to the Undergraduate Education Subcommittee. Bring your Scavenger Hunt card to turn in.

SOT Annual Business Meeting

Tuesday, March 24, 4:30 PM to 6:00 PM

Ballroom 6A

(All SOT Members Invited)

Members are invited and encouraged to attend the 54th SOT Annual Business Meeting. The agenda includes discussion of plans for 2015–2016, a financial summary, a review of the 2014–2015 activities, and an introduction of the 2015–2018 Strategic Plan.

Tox ShowDown

Tuesday, March 24, 7:30 PM to 9:00 PM

Marriott Marquis Marina Ballroom D

(All Attendees Welcome)

Chairperson(s): Sue M. Ford, St. John's University, Jamaica, NY; and Phil Wexler, NIH-NLM, Bethesda, MD.

Hosted by:

Graduate Student Leadership Committee

Join the Graduate Student Leadership Committee (GSLC) and your peers Tuesday night for the *Tox ShowDown*, an engaging quiz game patterned off of the popular long-running show *It's Academic*. Three teams—The Endocrine Disruptors, the Free Radicals, and the Toxic Metabolites—will compete at answering questions concerning toxicology not only in its historical and scientific context, but as it relates to arts and culture. Supported by GSLC, this event is sure to be both informative and entertaining and a perfect way to celebrate the halfway point of the SOT Annual Meeting. The game will provide attendees with a break, albeit still toxicologically oriented, from the more technical business of the meeting.

WEDNESDAY

Special Interest Group Global Hot Topics Event—Global Drug Development and Natural Products: End of an Era or an Endless Frontier?

Wednesday, March 25, 7:00 AM to 8:00 AM

Room 2

Chairperson(s): Linval DePass, Durect Corporation, Cupertino, CA.

Hosted by:

Special Interest Group Collaboration Group

The Special Interest Group Collaboration Group (SIG-CG) is excited to announce the second Global Hot Topics Event. The topic of this year's event is natural products, and we have lined up two outstanding speakers for this event. The first speaker will be John C. Vederas, Department of Chemistry, University of Alberta, Edmonton, Alberta, Canada.

Dr. Vederas is internationally known for his research on natural products. The topic of his presentation is Global Drug Development and Natural Products: End of an Era or an Endless Frontier? The second speaker will be Jon C. Mirsalis, SRI International, Menlo Park, California. Dr. Mirsalis has done extensive studies on the potential toxicity of natural products and substances derived from them. The topic of his presentation will be Toxicity of Natural Product Therapeutics: Health Aid or Poison Pill? Continental breakfast will be served at this special event to which all attendees are invited.

Sunrise Session: Toxic Substances Control Act Task Force Update: Strategy, Issues, and Outreach

Wednesday, March 25, 7:00 AM to 7:45 AM
Room 8

Chairperson(s): Mark Lafranconi, Principal Toxicologist, Environmental Resource Management, Cincinnati, OH.

Following the November elections in which Republicans took control of both houses of Congress, the Society of Toxicology Toxic Substances Control Act (TSCA) Task Force stands ready to continue efforts to push for reform on Capitol Hill of TSCA.

This past year, the Society's group has made substantial progress in meeting with staff and various senators and members of Congress to talk about the important role that toxicology plays relative to TSCA and the significance that sound science plays in crafting reform legislation that is more efficient and effective in meeting the mandate for greater public safety than the 1976 statute.

Rep. John Shimkus (R-IL), chairman of the House Energy and Commerce Environment Subcommittee, is leading the effort in the US House of Representatives to modernize TSCA. Chairman Shimkus says he will continue to try to work with Democrats in the new Congress to "produce a bill that creates jobs and protects consumers." On the Democratic side, Rep. Gene Green (D-TX), a senior member of the subcommittee, said recently in an article in *Chemical News*: "TSCA reform remains a priority for Congress, regardless of election results. The hard work and discussions that we have put in, during the 113th Congress, have laid the groundwork for next year (2015)." Senator Jim Inhofe (R-OK), who replaced Sen. Barbara Boxer (D-CA) as chairman of the Senate Environment and Public Works Committee, also is seen as moving TSCA reform forward: "We look forward to continuing toward smart, bipartisan reform to ensure the safety of everyday chemicals, and regulatory certainty to spur innovation and job creation."

Task Force members will take the lead during this special sunrise session to detail the Task Force's efforts this past year and plans for 2015 in the House of Representatives and the Senate to make SOT an important stakeholder in this ongoing legislative issue.

THURSDAY

2015–2018 Strategic Plan Discussion Breakfast

Thursday, March 26, 8:00 AM to 8:45 AM
Room 3

Join the SOT Council for a detailed discussion of the new 2015–2018 Strategic Plan. This breakfast discussion will provide ample time for the membership to meet one-on-one with Council to gain an in-depth knowledge of the 2015–2018 Strategic Plan and the process forward.

Life science is in the midst of rapid change as the result of new insights derived from biotechnology, powerful computational tools, and systems-level approaches that identify the underlying basis for the emergent properties that characterize living systems. Toxicology needs to be a vital part of these changes and in many ways is well-situated because it has always been an integrative science.

The SOT Council has developed a new strategic plan that focuses on meeting the challenge of keeping toxicology in the forefront of scientific advancements that benefit public and environmental health. The SOT strategy takes advantage of data from a representative member survey as well as targeted, in-depth interviews with key toxicology thought leaders. The strategy is intended to highlight the changes that the Council sees as necessary in order to keep toxicology at the cutting-edge of biomedical research.

The new strategy does not supplant the core functions of the Society—providing forums for scientific exchange, member services, and education. It is, however, intended to enhance them in a way that is consistent with SOT's mission, vision, and guiding values.

RC, SIG, and SS Receptions

(as of February 6)

Regional Chapter Meetings, Luncheons, and Receptions

Monday, March 23, through Wednesday, March 25, Various Times

Many of the SOT Regional Chapters meet during the SOT Annual Meeting. All current and prospective Regional Chapter members are encouraged to attend.

Event	Date	Time	Location	Room
Allegheny-Erie and Michigan Regional Chapters Joint Reception	Monday, March 23	5:00 PM to 6:30 PM	Marriott Marquis	Balboa
Central States Regional Chapter Meeting/Breakfast	Monday, March 23	7:00 AM to 8:00 AM	Marriott Gaslamp	Soleil @ K Restaurant
Lone Star and South Central Regional Chapters Mixer	Tuesday, March 24	5:00 PM to 7:00 PM	Dussini's Loft Bar	
Mid-Atlantic Regional Chapter Luncheon	Monday, March 23	12:00 Noon to 2:00 PM	Roy's Restaurant	Big Island Room
Mountain West and Southern California Regional Chapters Mixer	Tuesday, March 24	6:00 PM to 9:00 PM	Museum of Photographic Arts	
National Capital Area and North Carolina Regional Chapters Joint Reception	Monday, March 23	5:30 PM to 7:30 PM	Karl Strauss Brewery	
Northeast Regional Chapter Student Luncheon	Tuesday, March 24	12:00 Noon to 2:00 PM	Convention Center	Room 4
Northern California Regional Chapter Reception	Tuesday, March 24	7:30 PM to 10:30 PM	Yard House	
Ohio Valley and Midwest Regional Chapters Joint Reception	Monday, March 23	5:00 PM to 6:00 PM	Henry's Pub	
Pacific Northwest Regional Chapter Reception	Monday, March 23	5:30 PM to 7:30 PM	Harbor House	
Regional Chapter Collaboration and Communications Committee Meeting	Wednesday, March 25	12:00 Noon to 1:30 PM	Convention Center	Room 12
Southeastern Regional Chapter Reception	Monday, March 23	6:00 PM to 10:00 PM	Dublin Square Authentic Irish Pub & Grille	

Special Interest Group Meetings, Luncheons, and Receptions

Monday, March 23, through Wednesday, March 25, Various Times

Each of the six Special Interest Groups will hold a meeting/reception during the 2015 SOT Annual Meeting. All current and prospective SOT Special Interest Group members are encouraged to attend.

Event	Date	Time	Location	Room
American Association of Chinese in Toxicology Special Interest Group Reception and Distinguished Chinese Toxicologist Lectureship Presentation	Monday, March 23	5:00 PM to 8:00 PM	Marriott Marquis	San Diego Ballroom B
American Association of Chinese in Toxicology/Korean Toxicologists Association in America Special Interest Groups Career Workshop 1: Current US Job Market for Toxicologists	Tuesday, March 24	7:30 AM to 9:00 AM	Convention Center	Room 3
American Association of Chinese in Toxicology Special Interest Group Career Workshop 2: Opportunities for Toxicologists in China	Tuesday, March 24	12:00 Noon to 1:30 PM	Convention Center	Room 3
Association of Scientists of Indian Origin Special Interest Group Lunch and Learn	Tuesday, March 24	12:00 Noon to 2:00 PM	Marriott Marquis	La Costa
Association of Scientists of Indian Origin Special Interest Group Reception	Monday, March 23	7:00 PM to 9:00 PM	Marriott Marquis	Temecula
Hispanic Organization of Toxicologists Special Interest Group Officers Meeting	Monday, March 23	6:45 AM to 8:00 AM	Marriott Marquis	Marina Kitchen
Hispanic Organization of Toxicologists Special Interest Group Reception and Awards Ceremony	Tuesday, March 24	6:30 PM to 9:30 PM	Cafe Sevilla	
Korean Toxicologists Association in America Meeting/Reception	Monday, March 23	7:00 PM to 9:00 PM	Nippon Sushi Bar and Thai Food	
Special Interest Group Collaboration Group Meeting	Monday, March 23	12:00 Noon to 1:30 PM	Convention Center	Room 14B

(continued to next page)

RC, SIG, and SS Receptions (Continued)

(as of February 6)

Special Interest Group Meetings, Luncheons, and Receptions (Continued)

Event	Date	Time	Location	Room
Special Interest Group Collaboration Group Global Hot Topic Event—Global Drug Development and Natural Products: End of an Era or an Endless Frontier?	Wednesday, March 25	7:00 AM to 8:00 AM	Convention Center	Room 2
Toxicologists of African Origin Special Interest Group Reception	Monday, March 23	5:30 PM to 7:30 PM	Rama Thai	
Women in Toxicology Special Interest Group Executive Board Meeting	Tuesday, March 24	7:45 AM to 8:45 AM	Marriott Marquis	Malibu
Women in Toxicology Special Interest Group Reception	Wednesday, March 25	4:30 PM to 6:30 PM	Marriott Marquis	Marina Ballroom D

Specialty Section Meetings, Luncheons, and Receptions

Monday, March 23, through Wednesday, March 25, Various Times

Each of the 27 SOT Specialty Sections will hold either a luncheon or early evening meeting/reception during the SOT 2015 Annual Meeting. All current and prospective SOT Specialty Section members are encouraged to attend.

Event	Date	Time	Location	Room
Biological Modeling Specialty Section Meeting/Reception	Wednesday, March 25	6:00 PM to 7:30 PM	Convention Center	Room 30E
Biotechnology Specialty Section Meeting/Reception	Wednesday, March 25	6:00 PM to 7:30 PM	Convention Center	Room 31C
Carcinogenesis Specialty Section Meeting/Reception	Monday, March 23	6:00 PM to 7:30 PM	Convention Center	Room 31C
Carcinogenesis Specialty Section Officers Meeting	Monday, March 23	6:30 AM to 8:00 AM	Convention Center	Room 25
Cardiovascular Toxicology Specialty Section Meeting/Luncheon	Tuesday, March 24	12:00 Noon to 1:30 PM	Convention Center	Room 29A
Clinical and Translational Toxicology Specialty Section Meeting/Reception	Wednesday, March 25	6:00 PM to 7:30 PM	Convention Center	Room 31A
Clinical and Translational Toxicology Specialty Section Officers Meeting	Monday, March 23	6:30 AM to 8:00 AM	Convention Center	Room 25
Comparative and Veterinary Specialty Section Meeting/Luncheon	Monday, March 23	12:00 Noon to 1:30 PM	Convention Center	Room 3
Dermal Toxicology Specialty Section Meeting/Reception	Wednesday, March 25	6:00 PM to 7:30 PM	Convention Center	Room 30C
Dermal Toxicology Specialty Section Officers Meeting	Monday, March 23	6:30 AM to 8:00 AM	Convention Center	Room 25
Drug Discovery Toxicology Specialty Section Lunch with an Expert	Monday, March 23	12:00 Noon to 1:30 PM	Convention Center	Room 27
Drug Discovery Toxicology Specialty Section Meeting/Reception	Tuesday, March 24	6:00 PM to 7:30 PM	Convention Center	Room 27
Ethical, Legal, and Social Issues Specialty Section Meeting/Luncheon	Wednesday, March 25	12:00 Noon to 1:30 PM	Convention Center	Room 31A
Food Safety Specialty Section Meeting/Reception	Tuesday, March 24	6:00 PM to 7:30 PM	Convention Center	Room 31C
Food Safety Specialty Section Officers Meeting	Monday, March 23	6:30 AM to 8:00 AM	Convention Center	Room 25
Immunotoxicology Specialty Section Meeting/Reception	Tuesday, March 24	6:00 PM to 7:30 PM	Convention Center	Room 29A
Immunotoxicology Specialty Section Officers Meeting	Monday, March 23	6:30 AM to 8:00 AM	Convention Center	Room 25
<i>In Vitro</i> and Alternative Methods Specialty Section Meeting/Luncheon	Wednesday, March 25	12:00 Noon to 1:30 PM	Convention Center	Room 28A
<i>In Vitro</i> and Alternative Methods Specialty Section Officers Meeting	Monday, March 23	6:30 AM to 8:00 AM	Convention Center	Room 25

(continued to next page)

RC, SIG, and SS Receptions (Continued)

(as of February 6)

Specialty Section Meetings, Luncheons, and Receptions (Continued)

SPECIAL EVENTS

Event	Date	Time	Location	Room
Inhalation and Respiratory Specialty Section Meeting/Reception	Monday, March 23	6:00 PM to 7:30 PM	Convention Center	Room 30A
Inhalation and Respiratory Specialty Section Technical Meeting	Monday, March 23	6:30 AM to 8:00 AM	Convention Center	Room 30A
Mechanisms Specialty Section Meeting/Reception	Wednesday, March 25	6:00 PM to 7:30 PM	Convention Center	Room 29
Mechanisms Specialty Section Officers Meeting	Monday, March 23	6:30 AM to 8:00 AM	Convention Center	Room 25
Medical Device and Combination Product Specialty Section Meeting/Reception	Tuesday, March 24	6:00 PM to 7:30 PM	Convention Center	Room 33A
Metals Specialty Section Meeting/Reception	Tuesday, March 24	6:00 PM to 7:30 PM	Convention Center	Room 30E
Mixtures Specialty Section Meeting/Reception	Monday, March 23	6:00 PM to 7:30 PM	Convention Center	Room 30E
Mixtures Specialty Section Officers Meeting	Monday, March 23	6:30 AM to 7:30 AM	Richard Walker's Pancake House	
Molecular and Systems Biology Specialty Section Meeting/Reception	Monday, March 23	6:00 PM to 7:30 PM	Convention Center	Room 29A
Molecular and Systems Biology Specialty Section Officers Meeting	Monday, March 23	6:30 AM to 8:00 AM	Convention Center	Room 25
Nanotoxicology Specialty Section Meeting/Reception	Tuesday, March 24	6:00 PM to 7:30 PM	Convention Center	Room 30A
Neurotoxicology Specialty Section Meeting/Reception	Tuesday, March 24	6:00 PM to 7:30 PM	Convention Center	Room 25
Neurotoxicology Specialty Section Officers Meeting	Monday, March 23	6:30 AM to 8:00 AM	Convention Center	Room 25
Occupational and Public Health Specialty Section Meeting/Luncheon	Tuesday, March 24	12:00 Noon to 1:30 PM	Convention Center	Room 25
Ocular Toxicology Specialty Section Meeting/Reception	Tuesday, March 24	6:00 PM to 7:30 PM	Convention Center	Room 32
Regulatory and Safety Evaluation Specialty Section Brown Bag Luncheon: Global Regulatory Toxicology: First Stop EU	Tuesday, March 24	12:00 Noon to 2:00 PM	Convention Center	Room 2
Regulatory and Safety Evaluation Specialty Section Meeting/Reception	Monday, March 23	6:00 PM to 7:30 PM	Convention Center	Room 28A
Regulatory and Safety Evaluation Specialty Section Officers Meeting	Monday, March 23	6:30 AM to 8:00 AM	Convention Center	Room 25
Reproductive and Developmental Toxicology Specialty Section Meeting/Reception	Wednesday, March 25	6:00 PM to 7:30 PM	Convention Center	Room 28A
Reproductive and Developmental Toxicology Specialty Section Officers Meeting	Monday, March 23	7:00 AM to 8:30 AM	Convention Center	Room 30D
Risk Assessment Specialty Section Meeting/Reception	Tuesday, March 24	6:00 PM to 7:30 PM	Convention Center	Room 28
Risk Assessment Specialty Section Mentoring Luncheon	Tuesday, March 24	12:00 Noon to 1:30 PM	Convention Center	Room 28A
Risk Assessment Specialty Section Officers Meeting	Monday, March 23	6:30 AM to 8:00 AM	Convention Center	Room 25
Specialty Section Collaboration and Communication Group Meeting	Monday, March 23	2:00 PM to 3:00 PM	Convention Center	Room 14A
Stem Cells Specialty Section Meeting/Reception	Wednesday, March 25	6:00 PM to 7:30 PM	Convention Center	Room 30A
Toxicologic and Exploratory Pathology Specialty Section Meeting/Luncheon	Monday, March 23	12:00 Noon to 1:30 PM	Convention Center	Room 2
Toxicologic and Exploratory Pathology Specialty Section Officers	Monday, March 23	6:00 AM to 7:30 AM	Convention Center	Room 31B

Student and Postdoctoral Scholar Events

Student/Postdoctoral Scholar Mixer

Sunday, March 22, 7:30 PM to 9:00 PM

Ballroom 20D

(Ticket Required)

Hosted by:

Graduate Student Leadership Committee

The Graduate Student Leadership Committee hosts this opportunity for students and postdoctoral scholars to gather, to meet new colleagues, and to re-establish relationships in an informal atmosphere at the beginning of the meeting. Tickets are obtained at no cost by registering for this event on the Annual Meeting Registration Form and are required. Complimentary refreshments and a cash bar will be available.

Chat with an Expert

Monday, March 23 to Thursday, March 26

Time Varies by Group

(Meet at the Chat with an Expert Poster on the Ground Level near the @SOT Center)

Hosted by:

Graduate Student Leadership Committee

The purpose of Chat with an Expert is to provide students and postdoctoral scholars with the opportunity to network informally with well-established toxicologists while obtaining career advice and meeting new colleagues. Small groups are composed by matching research interests of students and postdocs with those of an expert. The expert for each group identifies a time and a place for an informal meeting, and the group meets at the Chat with an Expert poster before proceeding to the meeting location. This program also includes opportunities for postdocs to host informal meetings with graduate students. Sign up via the Graduate Student section of the SOT website. Details for each group meeting will be sent to participants in advance of the meeting.

Poster Tours for Trainees

Monday, March 23 to Wednesday, March 25

(Meet at Poster Tour Board on the Ground Level near the @SOT Center)

Hosted by:

Postdoctoral Assembly

The Postdoctoral Assembly organizes Poster Tours for Trainees for graduate students and postdoctoral scientists to participate in a one-hour guided poster tour with a toxicologist guide. These small group tours provide the opportunity for trainees to take part in critical evaluation of cutting-edge toxicology methods and research findings and network with a senior toxicologist. Options to sign up for specific times will be provided on the Annual Meeting website and during the Student/Postdoctoral Mixer. Groups meet at the appointed time at the Poster Tours for Trainees Board on the Ground Level near the @SOT Center.

SOT Undergraduate Scavenger Hunt

Monday, March 23 and Tuesday, March 24

Hosted by:

Undergraduate Education Subcommittee

Undergraduates can participate in this scavenger hunt by picking up a scavenger hunt card at the Registration Desk, SOT Headquarters Office, or print a copy from the Annual Meeting website Special Events: Student and Postdoc Events webpage. On Monday and Tuesday students must find individuals who match the descriptions on the card. Tuesday afternoon the cards will be collected at the Undergraduate Student Meeting. The first 100 students turning in a completed card will receive a prize. Meeting attendees should be on the lookout for undergraduates searching to complete their cards and, if asked, please sign the description which best fits you.

SOT Mentoring Breakfast

Monday, March 23, 6:15 AM to 7:45 AM

Room 5B

(Registration Required)

Endorser(s):

Career Resource and Development Committee

Graduate Student Leadership Committee

Postdoctoral Assembly

The Society of Toxicology recognizes the importance of mentoring in the scientific and professional development of its members. As such, the Career Resource and Development Committee, in conjunction with the Postdoctoral Assembly and Graduate Student Leadership Committee, is pleased to host the fourth annual Mentoring Breakfast.

The Mentoring Breakfast is for SOT members at any career stage—from graduate students and postdoctoral fellows to senior scientists—who are seeking a mentor. A brief introduction will be followed by small group discussions led by trained facilitators. Facilitators will work to match participants with compatible mentors.

Student and Postdoctoral Scholar Events (Continued)

Trainee Discussion with Plenary

Lecturer: Dr. Venter

Monday, March 23, 10:00 AM to 11:00 AM

Room 21

(Ticket Required; SOT Student and Postdoctoral Members Only, Limited Seating)

Chairperson(s): Colleen E. McLoughlin, CDC-NIOSH, Morgantown, WV.

Lecturer: J. Craig Venter, J. Craig Venter Institute, San Diego, CA.

Graduate students and postdoctoral scholars have the special opportunity of meeting for informal discussion with Dr. Venter after his Plenary Opening Lecture (see page 134). The limited tickets for this event could be obtained with your Annual Meeting registration.

In Vitro Toxicology Lecture and Luncheon for Students: Alternative In Vitro Approaches for Predicting the Health Impacts of Nanomaterials

Monday, March 23, 12:00 Noon to 1:20 PM

Ballroom 20D

(Ticket Required)

Chairperson(s): Richard Pollenz, University of South Florida, Tampa, FL, Emily G. Notch, Western New England University, Springfield, MA; and Daniel J. Spade, Brown University, Providence, RI.

Lecturer: James C. Bonner, North Carolina State University, Raleigh, NC

Supported by:

An educational grant from the Colgate-Palmolive Company

Hosted by:

Education Committee

The goal of the *In Vitro* Toxicology Lecture series is to feature important research using *in vitro* and alternative techniques to study basic mechanisms and to illustrate how these test methods benefit animal welfare by refining, reducing, and replacing animal use whenever it is feasible. Undergraduate students, graduate students, postdoctoral scholars, and recipients of Colgate-Palmolive awards are among the guests at the *In Vitro* Toxicology Lecture and Luncheon.

Students and postdoctoral scholars register for \$10 (nonrefundable) via the Annual Meeting registration. Dr. Bonner will present an introduction to the topic, challenge participants to discuss an *in vitro* engagement exercise with everyone at their tables, and then participants will report their ideas to the general audience.

The development of *in vitro* alternative approaches to test chemical toxicity and reduce the need for *in vivo* rodent testing continues to be a key area of focus for toxicologists and the public in general. While traditional toxicology methods have relied heavily on animals, new high-throughput screening approaches to generate toxicological data are becoming increasingly available for the safety assessment of chemicals. The emergence of the nanotechnology revolution has made the demand for alternative testing more urgent than ever to address a rapidly expanding number and variety of engineered nanomaterials.

Nanotechnology is anticipated to bring societal benefits in the areas of medicine, engineering, electronics, and energy. However, it is also inevitable that some nanomaterials will present risks for disease in humans exposed occupationally or as a result of exposure to consumer products that incorporate nanomaterials. As the number of different types and modifications of nanomaterials in research, development, and commercialization continues to grow exponentially, a reliable and robust scientific approach to screen nanomaterial toxicity will require *in vitro* cell systems that can predict disease in mice and humans *in vivo*.

A promising new toxicological paradigm for nanomaterials will be discussed, using carbon nanotubes as a case study, which utilizes alternative test strategies to reduce reliance on animal testing through the use of *in vitro* cell-based model systems. The most appropriate types of *in vitro* systems for predicting specific types of disease (e.g., cancer, fibrosis, asthma) will be addressed for hazard assessment of nanomaterials at various stages of synthesis, product development, and overall life cycle.

Postdoctoral Assembly Luncheon

Tuesday, March 24, 12:00 Noon to 1:15 PM

Ballroom 5

(Ticket Required)

Chairperson(s): Colleen E. McLoughlin, National Institute for Occupational Safety and Health, Morgantown, WV.

Hosted by:

Postdoctoral Assembly

To encourage increased participation and networking among postdoctoral scholars, this year the Postdoctoral Assembly (PDA) Board has planned the PDA Luncheon to be more casual than a seated lunch. Finishing up a discussion from your morning poster session? Leaving early to run off to set up a poster or attend another meeting? That's no problem; come stop in when you can! You can enjoy a buffet lunch and move around the room to mingle with others, including PDA officers, Postdoctoral Representatives, and SOT Councilors. This is the time for postdocs to relax, celebrate achievements, and have fun.

Student and Postdoctoral Scholar Events (Continued)

Undergraduate Student Meeting

Tuesday, March 24, 4:00 PM to 5:00 PM

Room 14A

(All Undergraduate Meeting Registrants Invited)

Chairperson(s): Mindy F. Reynolds, Washington College, Chestertown, MD.

Endorser(s):

Education Committee

Undergraduate Education Subcommittee

All undergraduate students attending the meeting are encouraged to participate in an informal meeting to talk about shared interests related to career paths in toxicology, discuss undergraduate tox-related activities, clubs, and majors on their campuses, and to provide feedback to the Undergraduate Education Subcommittee. Bring your Scavenger Hunt card to turn in.

Trainee Discussion with Medical Research Council (MRC) Lecturer: Dr. Stockinger

Wednesday, March 25, 9:30 AM to 10:30 AM

Room 5B

(Ticket Required; SOT Student and Postdoctoral Members Only, Limited Seating)

Chairperson(s): Kathryn E. Page, University of California Berkeley, Berkeley, CA.

Lecturer: Brigitta Stockinger, MRC National Institute for Medical Research, London, United Kingdom.

Graduate students and postdoctoral scholars have the special opportunity of meeting with Dr. Stockinger after her Keynote MRC Lecture (see page 269). The limited tickets for this event could be obtained with your Annual Meeting registration.

SPECIAL EVENTS

Scientific Session Highlights for Students and Postdocs

The following scientific sessions were organized or endorsed by the SOT Graduate Student Leadership Committee and/or the Postdoctoral Assembly. Some include graduate student and postdoctoral member speakers, and all are on topics relevant to trainees. Graduate students and postdocs are encouraged to attend these sessions.

Symposium Session: Alternative Models to Study Classical Toxicants: A Mechanistic View

Tuesday Morning, March 24

9:00 AM to 11:45 AM, CC Ballroom 6D

Chairperson(s): Kathryn E. Page, Nutritional Sciences and Toxicology, UC Berkeley, Berkeley, CA, and Monica R. Langley, Biomedical Sciences, Iowa State University, Ames, IA.

Endorser(s):

Graduate Student Leadership Committee

Mechanisms Specialty Section

Postdoctoral Assembly

Education-Career Development Session: What Toxicologist Do You Wanna Be? The Role of Toxicologists across Diverse Organizations

Wednesday Afternoon, March 25

12:00 Noon to 1:20 PM, CC Room 7

Chairperson(s): Sudheer Beedanagari, Bristol-Myers Squibb, East Brunswick, NJ, and Erica D. Bruce, Baylor University, Waco, TX.

Endorser(s):

Association of Scientists of Indian Origin Special Interest Group

Career Resource and Development Committee

Graduate Student Leadership Committee

Workshop Session: Increasing Interest and Engagement in Toxicology and STEM Disciplines: The Multiple Modalities and Impact of Research and Internship Opportunities for High School and Undergraduate Students

Wednesday Afternoon, March 25

1:30 PM to 4:15 PM, CC Room 7

Chairperson(s): Richard S. Pollenz, Cell Biology, University of South Florida, Tampa, FL, and William D. Atchison, Department of Pharmacology/Toxicology, Michigan State University, East Lansing, MI.

Endorser(s):

Committee on Diversity Initiatives

Education Committee

Postdoctoral Assembly

Education-Career Development Session: Crafting High-Impact Manuscripts: The Process from Hypothesis through Review and Publication

Wednesday Afternoon, March 25

4:30 PM to 5:50 PM, CC Room 7

Chairperson(s): Caitlin Murphy, University of Texas at Austin, Austin, TX, and Karin Streifel, University of California Davis, Davis, CA.

Endorser(s):

Board of Publications

Career Resource and Development Committee

Postdoctoral Assembly

Education Outreach Activities and Events

San Diego Festival of Science and Engineering EXPO Day

Saturday, March 21, 10:00 AM to 5:00 PM
Petco Park, Downtown San Diego

Chairperson(s): Virunya Bhat, NSF International, San Diego, CA.

Hosted by:
 Southern California Regional Chapter

Endorser(s):
 Education Committee
 K-12 Subcommittee

The Southern California Regional Chapter will host a booth at the free and largest annual Southern California festival of science, technology, engineering, and math (STEM) education. What's all the buzz about caffeine? Stop by "ToxTown" to test your caffeine trivia knowledge about beverages, food, and consumer products with added caffeine. Come play Tic-Tac-Tox, watch a specially-coordinated new "Risk Bites" YouTube episode. Chat with Andrew Maynard, creator of "RiskBites" and recipient of the 2015 SOT Public Communications Award. Engage with toxicologists in other hands-on activities designed to foster an appreciation of the science and profession of toxicology. Bring your family to participate or volunteer to help build for the future of toxicology!

Undergraduate Education Program

Saturday, March 21 to Monday, March 23
Room 33B

Chairperson(s): Kristini Miles, Kimberly-Clark Corporation, Roswell, GA; and Jorge Naciff, Procter & Gamble Company, Mason, OH.

Hosted by:
 Committee for Diversity Initiatives (CDI)

Saturday, March 21

Open to CDI Travel Awardees and Invited Guests.

- 5:00 PM–5:15 PM **Registration for Students with Committee on Diversity Initiatives Travel Awards, Room 33B**
- 5:15 PM–7:25 PM **Opening Event, Room 33B**
Welcome, Kristini Miles, Kimberly-Clark Corporation, Roswell, GA.
- 5:25 PM–5:55 PM **The Tox Squad Icebreaker,** Vicente Santa Cruz, Chevron Phillips Chemical Company LP, The Woodlands, TX.
- 6:45 PM–7:15 PM **Introduction to Toxicology,** Joshua P. Gray, US Coast Guard Academy, New London, CT
- 7:30 PM–8:30 PM **Committee on Diversity Initiatives Reunion, Room 33B**
 Open to anyone previously involved with CDI programs.
Recognition of the 2015 Perry J. Gehring Diversity Student Travel Award Recipient
 Latisha T. Pryor, 2014 Program Alumna, Fort Valley State University, Oglethorpe, GA.

Sunday, March 22

Open to CDI Travel Award Recipients, Mentors, and Organizers and Undergraduates who register with Annual Meeting registration.

Chairperson(s): Kristini Miles, Kimberly-Clark Corporation, Roswell, GA; and Jorge Naciff, Procter & Gamble Company, Mason, OH.

- 8:05 AM–8:15 AM **Welcome from SOT President, Room 31C**
 Norbert E. Kaminski, Michigan State University, East Lansing, MI.
Chair: Jorge Naciff, Procter & Gamble Company, Mason, OH.
- 8:15 AM–9:00 AM **Comparative Toxicology of the Blood-CSF Brain Barrier,** Alice R. Villalobos, Texas A&M University, College Station, TX.
- 9:00 AM–9:45 AM **Introduction to Nanotechnology Health and Safety,** Jared M. Brown, University of Colorado Denver, Aurora, CO.
- 9:45 AM–9:55 AM **Break**
- 9:55 AM–11:00 AM **Interactive Presentation, Room 33B**
Facilitator: Teresa Dodd-Butera, California State University, San Bernardino, San Bernardino, CA.
- 11:10 AM–12:00 Noon **Human Health Assessment: Hazard Evaluation and Risk Assessment, Room 31B,** Marquee D. King, US EPA, Washington, DC.
- 12:00 Noon–12:40 PM **Lunch and Networking, Room 33B**
- 12:55 PM–1:55 PM **Breakout Sessions for Students:**
What Is Graduate School and What Can I Expect? How to Get into Graduate School
Breakout 1, Room 32A
Graduate Student Facilitator: Jessica Shapiro, University of Arizona, Tucson, AZ; **Academic Advisor Facilitator:** Jose Manautou, University of Connecticut, Storrs, CT.
Breakout 2, Room 32B
Graduate Student Facilitator: Vanessa De La Rosa, University of New Mexico, Albuquerque, NM; **Academic Advisor Facilitator:** Angela Slitt, University of Rhode Island, Kingston, RI.
Breakout 3, Room 30E
Graduate Student Facilitator: Megan Culbreth, Albert Einstein College of Medicine, Bronx, NY; **Academic Advisor Facilitator:** James Luyendyk, Michigan State University, East Lansing, MI.
- 12:55 PM–1:55 PM **Breakout Session for Advisors: Tips for Advising Prospective Graduate Students or How to Get Your Students Accepted to Graduate School, Room 33C, Facilitator:** William D. Atchison, Michigan State University, Lansing, MI.

Education Outreach Activities and Events (Continued)

Sunday, March 22 (con't)

1:55 PM–2:05 PM	Break
2:05 PM–2:55 PM	Career Roundtable: Opportunities in Toxicology, Room 33B <i>Chair:</i> Robert Casillas, MRIGlobal, Mason, OH.
<i>Team 1</i>	Academia: Neera Tewari-Singh, University of Colorado Denver, Denver, CO; Government: Mary Martin Gant, NIEHS, Bethesda, MD; Industry: Sharon Holt Daily, GSK, Research Triangle Park, NC.
<i>Team 2</i>	Academia: Amy Romoser, Texas A&M University, College Station, TX; Government: Pedro L. Del Valle, US FDA CDER, Silver Spring, MD; Industry: Jennifer L. Rayner, SRC, Arlington, VA.
<i>Team 3</i>	Academia: Annelise Nguyen, Kansas State University, Manhattan, KS; Government: Minerva Mercado Feliciano, US EPA, Washington, DC; Industry: Veron Browne, MRIGlobal, Kansas City, MO.
3:00 PM–5:00 PM	Open Time with Academic Toxicology Program Directors and Internship Hosts, Room 31B <i>Chair:</i> Judy Zelikoff, New York University of Medicine, Tuxedo Park, NY. Featuring representatives from academic programs across the country recruiting talented students interested in advanced studies in the biomedical sciences.
5:15 PM–6:30 PM	Awards Ceremony, Ballroom 6A
6:30 PM–7:30 PM	Welcome Reception, West Terrace
7:30 PM–8:30 PM	Student/Postdoctoral Scholar Mixer, Ballroom 20D

Monday, March 23

Open to CDI Travel Award Recipients, Mentors, and Organizers.

8:00 AM–9:00 AM	Plenary Lecture, Hall D Life at the Speed of Light, J. Craig Venter, J. Craig Venter Institute, San Diego, CA.
9:10 AM–11:30 AM	Groups Attend Morning Annual Meeting Sessions
11:45 AM	Students and Mentors Meet, Room 33B
12:00 Noon–1:20 PM	In Vitro Lecture and Luncheon for Students, Ballroom 20D Alternative <i>In Vitro</i> Approaches for Predicting the Health Impacts of Nanomaterials, James C. Bonner, North Carolina State University, Raleigh, NC.
1:20 PM–3:15 PM	Groups Attend Afternoon Annual Meeting Sessions

3:30 PM–4:30 PM

From Toxic Molecules to Precision Medicine: A Journey of Discovery and Opportunity, Room 33B, Kenneth S. Ramos, University of Arizona, Tucson, AZ.

3:30 PM–4:30 PM

Host Mentor and Peer Mentor Meeting, Room 32B
Chair: Jorge Naciff, Procter & Gamble Company, Mason, OH; and Sakina Elzebar Eltom, Meharry Medical College, Nashville, TN.

4:30 PM–5:00 PM

Program Closing Session, Room 33B
Chair: Kristini Miles, Kimberly-Clark Corporation, Roswell, GA.

High School Poster Exposition

Tuesday, March 24, 10:30 AM to 12:30 PM
Exhibit Hall (Across from SOT Pavilion, Booth 526)

Chairperson(s): Marie Meagher Bourgeois, University of Southern Florida, Tampa, FL.

Hosted by:
Education Committee
K–12 Subcommittee

High school student research related to toxicology is featured in an area across from SOT Pavilion. This display recognizes student effort and provides the high school students who have engaged in research with scientific meeting experience. Meeting attendees are invited to drop by to visit with these outstanding potential future toxicologists. More information is available on the SOT Annual Meeting website.

San Diego Regional Science Fair Judging

Wednesday, March 25, 11:00 AM to 2:30 PM
Balboa Park, Downtown San Diego

Chairperson(s): Virunya Bhat, NSF International, San Diego, CA.

Hosted by:
Southern California Regional Chapter

Endorser(s):
Education Committee
K–12 Subcommittee

Meet at the San Diego Convention Center to travel to the nearby Greater San Diego Science and Engineering Fair to assist the Southern California Regional Chapter in their annual tradition of selecting awards for students with outstanding projects related to toxicology.

SOCIETY OF TOXICOLOGY ENDOWMENT FUND

As we express our gratitude, we must never forget that the highest appreciation is not to utter words, but to live by them.

John F. Kennedy

The Society of Toxicology has been there for you through the years, providing educational opportunities to help you stay current in this

ever-changing world. Make a donation today to the Society Endowment Fund as a symbol of your gratitude and your commitment to the future.

The Society of Toxicology is matching contributions to all permanently restricted funds dollar for dollar (donations to temporarily restricted funds will vest once the fund has reached the required threshold for permanent status). The 1-to-1 match is effective for contributions made between July 1, 2013, and June 30, 2016, or until the \$400,000 in matching funds has been expended.

Please help SOT continue to make a difference by becoming a contributor to the SOT Endowment Fund. For more information, go to www.toxicology.org/endowment.

Satellite Meetings

Updates on 21st Century Toxicology Activities and Related Efforts: Invited Presentations and Open Microphone

Thursday, March 26, 12:30 PM–4:00 PM
Manchester Grand Hyatt Hillcrest

Presented by:

The Center for Alternatives to Animal Testing and Human Toxicology Project Consortium

Purpose of the Meeting: If you're planning to attend the SOT Annual Meeting in San Diego this March, please join the Center for Alternatives to Animal Testing (CAAT) and the Human Toxicology Project Consortium (HTPC) for our annual satellite meeting on 21st century toxicology. The satellite meeting provides an informal setting in which interested stakeholders can update each other on efforts to advance *in vitro*, pathway-based testing and related approaches.

The meeting will feature a limited number of invited presentations, but also leave ample time for an open microphone segment, in which participants are welcome to give brief presentations on germane topics, with or without slides.

The draft program is as follows:

		2:45 PM
12:30 PM	Box Lunch and Welcome Thomas Hartung, Johns Hopkins University	4:00 PM
1:00 PM	Invited Speakers (10-minute presentations, each followed by 5 minutes of discussion)	

Tox21 Update

Alex Merrick, US National Toxicology Program

ToxCast Update

Russell Thomas, US Environmental Protection Agency

Hamner TT21C-Related Activity Update
Melvin Andersen, Hamner Institutes for Biomedical Sciences

SEURAT Update

Michael Schwarz, University of Tuebingen

The Center for Alternatives to Animal Testing's TT21C-Related Activity Update
Thomas Hartung, Johns Hopkins University

Human Toxicology Project Consortium Update

Catherine Willett, Humane Society of the United States

Evidence-Based Toxicology Update

Martin Stephens, Johns Hopkins University

Open Microphone for Additional Presentations and Discussion

Adjourn

SPECIAL EVENTS

Global Gallery of Toxicology

A Worldwide Vision for Toxicology

Attendees interested in collaboration and discussion are invited to the Global Gallery Monday, March 23, 11:45 am–12:15 pm, for a representative-attended poster session with all Global Gallery Participants.

More information can be found on page 165.

Advance the Science of Toxicology

Consider Organizing a Contemporary Concepts in Toxicology Meeting

Contemporary Concepts in Toxicology (CCT) Meetings expand the opportunities and forums for members to engage in the exchange of ideas and information relevant to toxicology. CCT Meetings are one- to two-day focused, open registration, scientific meetings in contemporary and rapidly progressing areas of toxicological sciences. CCT Meetings also can be held as webinars.

If you think that your research area could be enhanced by thought leader collaboration or that public health and safety could be improved by disseminating your research findings more broadly, please consider organizing an SOT CCT Meeting. The CCT Conferences Committee and the SOT Headquarters staff are prepared to help move your meeting forward.

The Society will underwrite all the liabilities of the CCT Meeting (up to the \$25,000 in seed money) with the expectation that the meeting at least break even financially. Profit sharing for SOT component groups is available. For more information about CCT Meetings, please visit the SOT website at www.toxicology.org/cct.

CCT Meetings focus on a wide range of topics. Plan to attend this year's CCT and webinar series. See page 31 for more information about the webinar series.

- FutureTox III: Transforming 21st Century Science into Risk Assessment and Regulatory Decision-Making
November 19–20, 2015
Arlington, Virginia

In order to sustain the quality standards of the Society, only meetings in which SOT maintains scientific and administrative control will be considered. Meetings developed and administered by other organizations may be eligible for sponsorship and/or endorsement by the Society of Toxicology.

Continuing Education Courses Online

CEd-Tox offers a great, affordable way to expand your professional development or stay current in the field of toxicology, all year long. Forty-one diverse CE courses from past SOT Annual Meetings are now available, including slide presentations and audio.

SOT Graduate Student and Postdoctoral members receive complimentary access to all courses!

Whether to update your knowledge or to explore a new area, we invite you to register for CEd-Tox.

For more information or to register, visit the SOT website: www.toxicology.org/cedtox.asp.

Cardiovascular Toxicology:

- Current Nonclinical Strategies and Methods for Evaluating Drug-Induced Cardiovascular Toxicity (2011)*

Dermal Toxicology:

- Cutaneous Toxicity: *In Vitro* Methods for Toxicity and Safety Evaluation (2012)

Drug Discovery Toxicology:

- Mitochondrial Toxicity: Animal Models and Screening Methods in Drug Development (2010)*
- The What, When, and How of Nonclinical Support for an IND Submission (2013)*

Food Safety:

- Weighing in on Nutrition—Essential Concepts for Toxicologists (2013)

Immunotoxicology:

- Drug Hypersensitivity Reactions: Risk Assessment and Management (2011)
- Overview and Application of the WHO-IPCS Harmonized Guidance for Immunotoxicity Risk Assessment for Chemicals (2012)*

In Vitro and Alternative Methods:

- Alternative *In Vitro* Tox Testing for the 21st Century (2012)*
- Quantitative *In Vitro* to *In Vivo* Extrapolation: The Essential Element of *In Vitro* Assay-Based Risk Assessment (2011)*

Inhalation and Respiratory:

- Comparative Biology of the Lung (2010)*
- Inhalation Studies: Challenges and Complexities (2014)

Mechanisms:

- Computational and Experimental Aspects of microRNAs in Toxicology (2014)

Medical Device:

- Combination Products: Toxicology and Regulatory Challenges (2014)

Metals:

- Toxic Effects of Metals (2013)*

Mixtures:

- Toxicology and Risk Assessment of Chemical Mixtures (2011)*

Molecular and Systems Biology:

- Applications of Computational Systems Biology for Toxicology (2011)
- Epigenetics in Toxicology: Introduction, Mechanistic Understanding and Applications in Safety Assessment (2011)*

Nanotoxicology:

- Evaluating Toxicity of Engineered Nanomaterials: Issues with Conventional Toxicology Approaches (2011)

Neurotoxicology:

- The Practice and Implementation of Neural Stem Cell-Based Approaches to Neurotoxicology (2013)

Occupational and Public Health:

- Protecting Human Health: Use of Toxicological and Epidemiological Data in Determining Safe Levels for Human Exposure (2011)*

Ocular Toxicology:

- Assessment of Ocular Toxicity in Toxicology Studies Conducted for Regulatory Purposes (2010)*

Regulatory and Safety Evaluation:

- Current Trends in Genetic Toxicology Testing (2014)
- New Technologies and Approaches in Genetic Toxicology and Their Expanding Role in General Toxicology and Safety Assessment (2011)*
- Translation of Safety Biomarkers in Drug Discovery and Development (2009)

Reproductive and Developmental Toxicology:

- Basic Embryology and Developmental Toxicity Testing (2012)
- Biology and Toxicology of the Peri- and Postnatal Development (2011)
- Nonclinical Pediatric Drug Development: Considerations, Study Designs, and Strategies (2014)

Risk Assessment:

- Basic Principles of Risk Assessment (2013)*
- Best Practices for Developing, Characterizing, and Applying Physiologically-Based Pharmacokinetic Models in Risk Assessment (2011)
- Epidemiology for Toxicologists: What the Numbers Really Mean (2014)

Stem Cells:

- Stem Cells in Toxicology (2012)*
- Stem Cells Utility in Toxicology Screening (2011)

Toxicologic and Exploratory Pathology:

- Segment-Specific Renal Pathology for the Nonpathologist (2010)*
- Stress As a Confounding Factor (2009)

Continuing Education

Continuing Education Courses

The Continuing Education (CE) Program offers a wide range of courses that cover established knowledge in toxicology, as well as new developments in toxicology and related disciplines. Courses can be applied toward certifying and licensing board requirements and may also be used for recertification with the American Board of Toxicology (ABT). Both basic and advanced course topics are offered. The basic course is intended to provide a broad overview of an area or to assist individuals in learning new techniques or approaches. The advanced course is intended to be of interest to individuals with previous knowledge of the subject or already working in the field.

All courses will be held on Sunday, March 22, 2015, at the San Diego Convention Center. Please check the signage in the Registration area and at the CE Booth for room assignments. Note: Your course materials will be available in the room immediately prior to the course (they will not be available at the Registration area). If you have your course ticket, go directly to the assigned course room. If you have not received your course ticket or have not registered, please check in at Registration on Saturday afternoon/evening or on Sunday morning. If you have misplaced your ticket, please go to the Continuing Education Booth near the course classrooms on Sunday. The booth will be open from 6:30 am–5:30 pm.

7:00 AM–7:45 AM Continuing Education Sunrise Mini-Course:

1. New Horizons in Chemical Carcinogenesis: Advances in Mode of Action and Mechanism of Cancer Pathogenesis

8:15 AM–12:00 Noon Continuing Education Morning (AM) Courses:

2. An Introduction to the Exposome
3. Demystifying Mixtures: From Study Design Selection to Risk Assessment Application
4. Safety Evaluation of CNS Administered Therapeutics—Study Design, Dose Routes, and Data Interpretation
5. The Future of Developmental and Reproductive Toxicology—Building a Bridge to the Animal Free Zone
6. The New World of Cancer Immunotherapy: Challenges in Bench to Bedside Translation
7. Toxicology and Regulatory Considerations for Combination Products

1:15 PM–5:00 PM Continuing Education Afternoon (PM) Courses:

8. Advances in Safety Assessment of Medical Devices
9. Interpretation of Cardiovascular Safety Data in Toxicology Studies
10. Is Synthetic Biology the Future of Toxicology?
11. Skeletal System Endocrinology and Toxicology
12. Strategies in Investigative Toxicology in a Pharmaceutical Setting
13. Toxicogenomics Meets Regulatory Decision-Making: How to Get Past Heat Maps, Network/Pathway Diagrams, and “Favorite” Genes

Registration for the Annual Meeting and a Continuing Education course ticket are required.

Four CE Courses will be presented as live webcasts—Separate registration for webcasts required.

Morning Webcasts:

- AM05—The Future of Developmental and Reproductive Toxicology—Building a Bridge to the Animal Free Zone
- AM06—The New World of Cancer Immunotherapy: Challenges in Bench to Bedside Translation

(Both webcasts begin at 8:15 am US Pacific Time)

WWW.TOXICOLOGY.ORG/REGISTER

Afternoon Webcasts:

- PM09—Interpretation of Cardiovascular Safety Data in Toxicology Studies
- PM13—Toxicogenomics Meets Regulatory Decision-Making: How to Get Past Heat Maps, Network/Pathway Diagrams, and “Favorite” Genes

(Both webcasts begin at 1:15 pm US Pacific Time)

Continuing Education: New Horizons in Chemical Carcinogenesis: Advances in Mode of Action and Mechanism of Cancer Pathogenesis

SR01

CE Basic

Chairperson(s): James E. Klaunig, Indiana University, Bloomington, IN; and Udayan M. Apte, University of Kansas Medical Center, Kansas City, KS.

Endorser(s):

Carcinogenesis Specialty Section

The ability of chemicals to cause cancer is an endpoint with a deep impact on public health. Understanding the mode of action of chemical carcinogens is critical for risk assessment of the chemicals. The mechanisms by which chemicals can cause cell transformation and neoplastic growth have been central to the discipline of toxicology. It is now apparent that the previous simplistic view that chemicals interact with DNA, inducing a mutation which results in the formation of a neoplasm, is incomplete. Chemical modulation of metabolism, nuclear receptors, gene expression, DNA repair processes, immune surveillance, inflammation, cell-to-cell communication, and changes in target cell function and structure, and their ability to activate stem/progenitor cells, contribute to the formation of preneoplastic cells and their progression to the malignant state. The multitude of changes in the target cell and its microenvironment must be considered in applying mode of action analysis to potential carcinogenic human risk. Besides the estrogen, CAR, PPAR, and AHR receptors, other nuclear receptors, including HNF4a, TR, Nur77, and LXR, previously not associated with cancer pathogenesis, appear to play a critical role in the formation and progression of cancer. While the role of these receptors in metabolic processes and differentiation has been known, new studies indicate these proteins are central in cancer pathogenesis via either their canonical or non-canonical actions driven by chemical exposure. This course will review our current level of understanding of chemical carcinogenesis as well as discussing some new frontiers that have implications in cancer pathogenesis from chemical exposure.

#1 7:00

Part 1: Mode of Action and Mechanism of Cancer Pathogenesis. J. E. Klaunig, Indiana University, Bloomington, IN.

7:20

Part 2: New Horizons in Chemical Carcinogenesis: Advances in MOA. U. Apte, University of Kansas Medical Center, Kansas City, KS.

Sunday Morning, March 22

8:15 AM to 12:00 Noon

Strategies for Exposure and Risk Assessments

Chairperson(s): Gary W. Miller, Emory University, Atlanta, GA; and Martyn T. Smith, University of California Berkeley, Berkeley, CA.

Endorser(s):

Mixtures Specialty Section
Postdoctoral Assembly
Risk Assessment Specialty Section

The exposome has been defined as the totality of our exposures throughout our lifetime. Such a definition defies measurement, making it less than useful as a scientific construct. More recently, the concept of the exposome

Continuing Education (Continued)

Abstract

has evolved to represent a measurable entity that encompasses our complex exposures and how our bodies respond to such exposures. The addition of the biological response component to the definition of the exposome positions the field of toxicology to make major contributions to the field. By providing an intellectual foil to the genome-centric framework in biomedical research, the exposome has the potential to elevate the importance of the environment in scientific circles and promote a framework that faithfully integrates the importance of the environment in health and disease. This course will introduce the attendees to the concept of the exposome, explain how it can be used to advance toxicological research by providing a clear translational output, and explain some of the innovative approaches being used to measure the exposome. In order for the exposome to become a useful concept it will be necessary to: (1) capture and quantify the complex exposures, (2) identify and quantify the diverse biological responses, and (3) integrate these disparate datasets with advanced conceptual thinking and innovative bioinformatic and mathematical approaches. This course was designed to address these three objectives in an informative and interactive setting.

Continuing Education: Demystifying Mixtures: From Study Design Selection to Risk Assessment Application

AM03

CE Basic

Strategies for Exposure and Risk Assessments

Chairperson(s): Jane Ellen Simmons, US EPA, Research Triangle Park, NC; and Cynthia V. Rider, NIEHS, Research Triangle Park, NC.

Endorser(s):

- Mixtures Specialty Section
- Occupational and Public Health Specialty Section
- Risk Assessment Specialty Section

Assessing chemical mixture toxicity is often considered an intractable problem. Difficulty increases for complex mixtures as much of their composition is typically unknown. Although mixtures toxicology and risk assessment (RA) are more complex than for single chemicals due to potential interactions, significant advances have been made in recent years. As a number of experiments are designed poorly from a mixtures perspective, this course will provide coherent strategies for design, analysis of mixtures experiments for robust conclusions, and data that are useful in mixtures RA. Key principles and concepts underlying modern mixtures toxicology, RA, legislation, policy, and guidance in the United States and other nations will be reviewed. Guidance based on data quality will be provided for application of either whole mixture or component-based RA approaches. Whole mixture RA discussions will include recent research on methods to determine whether mixtures are sufficiently similar such that toxicity information for one mixture can be used to estimate the toxicity of another. Most mixtures RAs are component-based and a number of approaches will be illustrated—highlighting key differences. Those include the hazard index (HI), target organ HI, interaction weighted HI, and index-chemical based (relative potency factor and toxic equivalency factor) approaches. This course empha-

Abstract

sizes recent advances and will be of value to experimentalists wanting to conduct mixture studies meaningful for evaluation of risk or safety, and risk assessors who evaluate mixtures data and apply mixtures RA methods.

Continuing Education: Safety Evaluation of CNS Administered Therapeutics—Study Design, Dose Response, and Data Interpretation

AM04

CE Basic

Safety Assessment Approaches for Product Development

Chairperson(s): Brian R. Vuilleminot, Genentech, Inc., South San Francisco, CA; and Sven H. Korte, Covance Laboratories GmbH, Muenster, Germany.

Endorser(s):

- Biotechnology Specialty Section
- Neurotoxicology Specialty Section
- Regulatory and Safety Evaluation Specialty Section

Many diseases affecting the central nervous system (CNS) are inadequately treated by traditional systemic delivery methods, partly because of the inability of large molecules to bypass the blood-brain barrier. Delivery of large molecules, cells, and other novel therapies directly to the central nervous system via direct parenchymal injection/infusion or catheterization into the intrathecal and/or ventricular spaces overcomes this obstacle and delivers the therapeutics close to the target region. Clinical experience using direct CNS administration of compounds for pain relief and chemotherapy has grown over the past decades, suggesting the same approach can be applied to the treatment of degenerative and inherited disorders. Administration of drugs directly into the brain or cerebrospinal fluid (CSF) may involve some risk, including reaction of the spinal cord or brain tissue adjacent to the device. The preclinical studies used to evaluate the safety of CNS administered compounds must differentiate between the effects of the delivery method, the therapy, and the combination. Reliable, well-characterized animal models for CNS administration of test articles have been developed, which enable nonclinical development of these potential therapeutics. This course will discuss the technical challenges of preclinical intrathecal studies, design of studies and nonclinical programs, evaluation of results, and considerations for special endpoints in the studies. The course is targeted to pathologists, toxicologists, administrators, and regulatory personnel who may need to design, conduct, or review these complicated but increasingly worthwhile investigations.

Safety Assessment Approaches for Product Development

Chairperson(s): Reza J. Rasoulpour, Dow AgroSciences, Indianapolis, IN; and Patrick Allard, University of California Los Angeles, Los Angeles, CA.

Endorser(s):

Regulatory and Safety Evaluation Specialty Section
Reproductive and Developmental Toxicology Specialty Section

In this new age of predictive toxicity, adverse outcome pathways, and replacements for traditional testing designs, the world of developmental and reproductive toxicology is the final frontier. The sheer complexity of a developing mammalian embryo/fetus coupled to, and dependent upon, maternal care to follow the predesigned path toward normal development still holds many mysteries. In the past several years, there have been breakthroughs in our thinking of developmental and reproductive toxicology alternative assays that now take what was once inconceivable to something that is merely on the horizon. The course focus will be to explore several different examples utilizing novel model system approaches to predict reproductive and developmental toxicity endpoints. The course will include an introductory overview on the history of this area and the unique challenges upon finding alternatives for reproductive and developmental assays. Fundamental developmental processes including the roundworm, *C. elegans*, as a model organism for prediction of germline toxicities, will be presented. The course will explore alternative vertebrate models and gain insight on the opportunities and challenges with the popular zebrafish as an alternative model for evaluating developmental toxicity and novel downstream safety assessment applications. The course will conclude with presentations on how different alternative assays such as whole embryo culture, zebrafish, and embryonic stem cells can be coupled together to develop a fingerprint to predict developmental toxicity, and a presentation about how the interrogation of different developmental pathways can be combined with computational approaches to develop virtual developmental and reproductive toxicity platforms, such as the virtual embryo. Scientists at multiple levels (graduate students to very experienced scientists) in academia, government, or industry who are interested in learning the current state of the science for developmental and reproductive toxicity assessment are encouraged to

Abstract

attend this course. Course learning objectives are (1) The current state of the science for different approaches in understanding potential for developmental and reproductive toxicity; (2) unique challenges and opportunities that exist within the developmental and reproductive toxicity assessment area compared to other disciplines within toxicology; (3) the pros and cons of utilizing single model species tools versus combining multiple species for predictive assays; and (4) steps that are underway for the longterm replacement of these studies with approaches in bioprofiling combined with computational modeling.

Advancing Clinical and Translational Toxicology

Chairperson(s): Rodney Prell, Genentech Inc., South San Francisco, CA; and Rafael A. Ponce, Amgen, Seattle, WA.

Endorser(s):

Biotechnology Specialty Section
Immunotoxicology Specialty Section

The concept of harnessing the immune system to eradicate cancer has been a long-term goal in immunology and oncology. After years of disappointment, the field of cancer immunotherapy (CIT) has gained a strong foothold with the recent approval of two immunotherapies (ipilimumab and sipuleucel-T), and encouraging data emerging from clinical trials testing checkpoint inhibitors, chimeric antigen T cells, oncolytic vaccines, and other modalities. This intensifying effort to identify new CIT targets and/or develop new modalities to harness the immune system presents new challenges for assessing nonclinical safety to support clinical development. For nonclinical safety assessment, understanding the threshold between desired immunological activity (desired pharmacology), and the potential for exaggerated immunologic stimulation is paramount in the clinical dose selection and identifying biomarkers for patient monitoring. Therefore, CIT drug development may require creative models and study designs that incorporate extensive immune monitoring that has not been routinely included when testing conventional cancer therapeutics. The course objective is to provide a general overview of the field of cancer immunotherapy, highlight the unique challenges for CIT drug development, and generate discussion with regard to assessing the unique challenges of developing this new oncology therapeutic.

Continuing Education (Continued)

Abstract

tics to ensure patient safety. Presenters will introduce the concept of cancer immunotherapy and summarize the current landscape of the field of CIT drug development, including the various pathways and modalities currently under development, and discuss the scientific limitations of conventional models for evaluating the pharmacology of novel immunotherapeutics, as well as the promise of novel models that may improve translatability of results to the clinical setting. The course will look into the challenges for nonclinical safety assessment of cancer immunotherapy molecules. Case studies from different CIT modalities will illustrate the challenges. Unique clinical challenges of developing CIT molecules, and the regulatory perspective on the need for nonclinical, clinical, and regulatory scientists to partner to ensure patient safety when developing CIT molecules, will also be presented.

Continuing Education: Toxicology and Regulatory Considerations for Combination Products

AM07

CE Basic

Safety Assessment Approaches for Product Development

Chairperson(s): *Jon N. Cammack, AstraZeneca Biologics, Gaithersburg, MD; and Chandramallika (Molly) Ghosh, US FDA, Silver Spring, MD.*

Endorser(s):

- Drug Discovery Toxicology Specialty Section
- Medical Device and Combination Product Specialty Section
- Regulatory and Safety Evaluation Specialty Section

Therapeutic and diagnostic products that combine drugs, devices, and/or biological elements are termed, and regulated by the US FDA, as combination products. Technological advances continue to merge product types and blur the historical lines of separation between traditional drugs, biologics, and medical devices. Further, the increasing use of absorbable platforms adds another level of complexity to the development and regulation of certain combination products. US FDA's medical product centers, the Center for Biologics Evaluation and Research (CBER), the Center for Drug Evaluation and Research (CDER), and the Center for Devices and Radiological Health (CDRH), are utilizing evolving collaborative efforts in order to address the regulatory challenges of combination products. Because combination products involve components that would normally be developed and regulated under different types of processes and policies, and frequently submitted to different US FDA centers, these products raise challenging development, regulatory, and review management questions. Differences in these pathways for each combination product type can impact the processes for all aspects of product development and management, especially preclinical testing, but also clinical investigation, marketing applications,

Abstract

manufacturing and quality control, adverse event reporting, promotion and advertising, and post-approval modifications. The 2014 Sunrise Combination Products CE course introduced the emerging topic; the 2015 CE course will provide in-depth detail on the evolving regulatory processes in developing a successful preclinical evaluation program. In addition to examples of product development scenarios (including drug/biologic-device and antibody drug conjugate combination products), US FDA will provide a reviewer perspective on key program considerations.

Endorser(s):

- Association of Scientists of Indian Origin Special Interest Group
- Medical Device and Combination Product Specialty Section
- Risk Assessment Specialty Section

Medical devices used in the diagnosis and treatment of various diseases are manufactured from polymeric materials and metal alloys, each of which may be associated with safety concerns for the patient. The aim of this course is to provide an outline of the various *in vitro*, *in vivo*, and *in silico* methodologies for the safety assessment of medical devices and to discuss how risk assessment approaches can be used in the biological evaluation process for medical devices. Presentations will provide an overview of the biocompatibility test methods recommended by ISO 10993, US Pharmacopeia, and ASTM and will include examples of test failures and how to resolve them without compromising patient safety. The course will begin with a broad overview of the approaches used to evaluate the biological safety of medical devices. Following the introductory talk, there will be presentations on two high-profile and toxicologically important topics, the potential health risks associated with the use of metallic hip implants, and approaches to evaluating the biological safety of plastic dental materials. One chal-

Continuing Education (Continued)

Abstract

lenge in conducting toxicological risk assessments of compounds released from medical device materials is when there are no adequate toxicity data for these compounds. The course will conclude with a presentation that provides practical guidance on the derivation of exposure limits for leachable chemicals released from medical devices when only limited toxicity data are available. This course should be of broad interest to toxicologists and health care professionals involved in evaluating patient risks to new treatment modalities, and in particular to toxicologists involved in evaluating the safety of medical devices and combination products containing drugs or biologics.

Endorser(s):

Cardiovascular Toxicology Specialty Section
Drug Discovery Toxicology Specialty Section
Regulatory and Safety Evaluation Specialty Section

The value of integrating cardiovascular (CV) safety evaluation into general toxicology studies has been increasingly recognized in drug development for both pharmaceutical and biotechnology-derived products. These combined study approaches offer a unique opportunity to gain a holistic understanding of drug-related functional, biochemical, and morphological changes in the context of proper pharmacokinetic/pharmacodynamic (PK/PD) data. Past courses have focused on the best practices, including study design and execution for integrating CV endpoints into toxicology studies. This course will provide a comprehensive and detailed discussion on the interpretation of CV findings as part of a toxicology study. For example, how are CV functional data interpreted (e.g. heart rate, blood pressure, electrocardiogram, contractility) as compared to traditional endpoints (e.g. pathology)? Is a physiological finding (e.g. a decrease in contractility) a primary effect or a compensatory effect to other changes? Is it due to a direct CV effect or secondary to drug-related toxicity? How/when should a CV finding be interpreted as a “hazard” versus “adverse”? What are the potential mechanisms for toxicity? How do I utilize the holistic data to design the next steps? How does surgically implanted instrumentation affect or potentially confound a pathology evaluation? The course will start with outlining the questions and focus on how these assessments are used and interpreted in this emerging paradigm of combined CV/toxicology studies. The target audience consists of toxicologists who may have limited exposure to CV or safety pharma-

Abstract

colony data or are looking to expand their knowledge in this area. By the end of this symposium, the audience should better understand the considerations and strategies in integrating CV/toxicology studies as well as real-world case studies (or best practices) for interpretation of these data for drug safety assessment.

Continuing Education: Is Synthetic Biology the Future of Toxicology?

PM10

CE Advanced

Safety Assessment Approaches for Product Development

Chairperson(s): Saber M. Hussain, US Air Force, Wright-Patterson AFB, OH; and Dan Huh, University of Pennsylvania, Philadelphia, PA.

Endorser(s):

In Vitro and Alternative Methods Specialty Section

One frequent critique of traditional *in vitro* study design is lack of functional correlation between a submerged cellular monolayer and a full organ or tissue system. However, scientists do agree that during preliminary toxicological screening, when little is known regarding the behavior of a new molecule, simple *in vitro* models coupled with basic toxicological endpoints are critical for generating a baseline response and determining future actions. Currently, a significant discrepancy exists between *in vitro* and *in vivo* correlations. One approach to bridge this gap is through the development of enhanced *in vitro* systems that more closely mimic an accurate physiological environment. When examining a physiological system, two key components to be addressed are (1) the three dimensional aspect of an organ or tissue and the cell to cell communication that occurs within this structure; and (2) the dynamic environment that flows in and around the tissue, arising from the cardiovascular system. Early improvements in traditional *in vitro* designs explored co-cultures that included immune cells, the addition of dynamic media flow, and three dimensional matrices (though limited studies have combined multiple of these variables). The focus of the course is to evaluate the current trends in synthetic biology that are advantageous to enhanced *in vitro* design. One major focus will be on current organ-on-a-chip research, which incorporates cell to cell communication coupled with dynamic flow of media or air, depending on cell type. In addition, since inhalation is a predominant route of toxicological exposure, this course will explore the design of an artificial nose that represents inhalation and the ability of a compound to cross the olfactory bulb in an effort to predict a neurotoxicity risk.

PM11

CE Basic/CME

Safety Assessment Approaches for Product Development

Jointly Provided by: University of Arkansas for Medical Sciences College of Medicine and SOT Approved for AMA PRA Category 1 Credit™—See Mobile Event App for details.

Chairperson(s): Alan M. Hoberman, Charles River Laboratories, Horsham, PA; and Susan Y. Smith, Charles River Laboratories, Senneville, QC, Canada.

Endorser(s):

- Clinical and Translational Toxicology Specialty Section
- Immunotoxicology Specialty Section
- Reproductive and Developmental Toxicology Specialty Section

The skeleton has traditionally been considered within the framework of two tenets: A hard structure for protection of the organism, and a major reservoir for the maintenance of serum calcium. Bone remodeling, the process of remaking our skeleton every decade, reinforces that structure/function correlate. However, emerging evidence suggests the skeleton is intimately related to other organ systems, including but not limited to organs involved in energy metabolism, reproductive system, immune system, central nervous system, and muscle, through paracrine, endocrine, and neural networks. The goal of this course is to explore these interactions further and highlight the importance of including skeletal evaluations in juvenile and standard toxicology studies and their relevance to humans and clinical trials. In addition, an overview of bone biology and the appropriate techniques for assessment of changes in bone will be provided. The presentations will focus on bone biology, its growth during infancy and childhood, and the regulatory systems involved in the maintenance of bone quality during adulthood; the techniques available for bone evaluations in toxicology studies; why bone has recently been accepted as an endocrine system and what the functions of hormones secreted from bone are; and the complex relationships unfolding between bone and the different biological systems, and the implications in drug development.

- #11 1:15 **Skeletal System Endocrinology and Toxicology.** A. Hoberman. Charles River Laboratories, Horsham, PA.
- 1:15 **Introduction.** S. Smith. Charles River Laboratories, Senneville, QC, Canada.
- 1:25 **Primer on Bone Biology: Cells, Matrix, and Mineral in Skeletal Modeling and Remodeling.** M. D. McKee. McGill University, Montreal, QC, Canada.

Abstract

- 2:15 **State of the Art Assessment of Bone Tissue in Preclinical Studies.** A. Varela. Charles River Laboratories, Montreal, QC, Canada.
- 3:00 **Coffee Break.**
- 3:30 **Bone As an Underappreciated Endocrine System.** C. Rosen. Maine Medical Center Research Institute, Scarborough, ME.
- 4:15 **The Cross Talk between Bone and Other Biological Systems.** R. Samadfam. Charles River Laboratories, Montreal, QC, Canada.

Continuing Education: Strategies in Investigative Toxicology in a Pharmaceutical Setting

PM12

CE Basic

Safety Assessment Approaches for Product Development

Chairperson(s): Damir Simic, Janssen R&D (Johnson & Johnson), Spring House, PA; and Mausumee Guha, Medivation—Toxicology, San Francisco, CA.

Endorser(s):

- Drug Discovery Toxicology Specialty Section
- Molecular and Systems Biology Specialty Section
- Risk Assessment Specialty Section

Investigative toxicology is a broad discipline encompassing multiple tools and strategies to help generate and test hypotheses as part of target safety assessments and derisking efforts in support of discovery and development programs. In most pharmaceutical and biotechnology companies, investigative toxicology exists as either a stand-alone lab, or the function is embedded within various support groups. Discovery and development programs that call upon investigative toxicology to manage safety liabilities and facilitate understanding of toxicity issues face a number of challenges. These include adequate communication across stakeholders, steep learning curves, identification of clear deliverables that require resource prioritization, and constantly shifting interests. This “best practices” session will highlight steps for how to overcome such challenges by focusing on three key functions: (1) designing a testable hypothesis, (2) communication of the meaningful experimental findings, and (3) proposing rationales and decision processes for the timely resolution of the issue(s). Specifically, best practices will be highlighted in relation to the stage of the program within the R&D pipeline. The presenters will focus on optimal investigative toxicology strategies applicable during target safety evaluation, lead optimization, pre-IND, IND, late stages of the compound development, and life cycle management, with case examples. The utility of tools such as genomics, RNAi, metabolomics, *in vitro* assays and informatics for the integration of supportive data (e.g. clinical chemistry, histopathology, TK, and biomarkers), and application of communication tools such as MindMaps will be discussed. Finally, a regulatory perspective on the utility, impact, and practical considerations of submitting investigative toxicology studies to regulatory authorities to assess clinical risk will be presented.

- #12 1:15 **Strategies in Investigative Toxicology in a Pharmaceutical Setting.** D. Simic. Janssen R&D (Johnson & Johnson), Spring House, PA.
- 1:15 **A Roadmap to Effective Investigative Toxicology Safety Assessment, De-Risking, and Communication.** D. Simic. Janssen R&D (Johnson & Johnson), Spring House, PA.
- 1:40 **Integrating Investigative Toxicology in the Early-Drug Discovery Space.** D. U. Lee. Genentech Inc., South San Francisco, CA.

Continuing Education: Toxicogenomics Meets Regulatory Decision-Making: How to Get Past Heat Maps, Network/Pathway Diagrams, and “Favorite” Genes

PM13

CE Advanced

Also Presented As Live Webcast—Webcast Registration Required.

Strategies for Exposure and Risk Assessments

Chairperson(s): Ivan Rusyn, Texas A&M University, College Station, TX; and Russell S. Thomas, US EPA, Research Triangle Park, NC.

Endorser(s):

Biological Modeling Specialty Section
Molecular and Systems Biology Specialty Section
Risk Assessment Specialty Section

Toxicogenomics is a mature field which provides invaluable information on the molecular events preceding or accompanying toxicity; however, most traditional use of gene expression and other ‘omic data in toxicology is largely the same as it was ten years ago: the mode-of-action analysis, classification/prediction, and biomarker discovery. As the technological advances keep driving costs down and information content and reproducibility up, the toxicogenomics data has begun to be used more widely in the human health assessments of chemicals, and will likely be one of the crucial information sources for next-generation of risk assessment decisions. Given the general familiarity of the toxicologists with high-dimensional transcriptional profiling data and major traditional ways in which such data are analyzed, presented, and interpreted, this course is designed to demonstrate how the toxicogenomics data can become a key element in hazard identification, dose-response analysis and selection of scientifically-justifiable uncertainty factors. By superimposing the opportunities that are now afforded by both traditional and high-throughput genomics data onto the human health assessment paradigm, this course will be informative to the risk assessment practitioners and the toxicology research community, and increase the scientific impact of the fundamental toxicology studies.

#13	1:15	Toxicogenomics Meets Regulatory Decision-Making: How to Get Past Heat Maps, Network/Pathway Diagrams, and “Favorite” Genes. <i>I. Rusyn. Texas A&M University, College Station, TX.</i>
	1:15	Human Health Risk Assessment: Where Do Toxicogenomics Data Fit? J. Zhao. US EPA, Cincinnati, OH.
	1:30	Gene Expression Profiling for Regulatory Decision-Making: Many Genes or Many Samples? D. Gerhold. NIH, Bethesda, MD.
	2:15	Hazard Identification and Toxicogenomic Data: Read-Across Using High-Dimensional Biological Data. I. Rusyn. Texas A&M University, College Station, TX.

Thank You, Speakers

On behalf of the SOT Council and the entire membership of the Society of Toxicology, thank you to all of the speakers who graciously agreed to come to San Diego, California, to participate in the 2015 Annual Meeting. SOT's Annual Meeting is the largest international forum to highlight novel discoveries and emerging fields and how they apply to toxicology. You played an important role in helping SOT showcase this year's achievements in research and education, and your time, efforts, and expertise are truly appreciated.

Contribute to Continuing Education in 2016! Submit a CE proposal by April 30, 2015

The SOT Continuing Education (CE) program at the Annual Meeting is composed of scientists from all over the world. The SOT CE Committee encourages you to continue the development of a 2016, or later year, CE course with your peers at the Annual Meeting in San Diego. Every year, CE courses presented on Sunday pave the way for a successful Annual Meeting.

SOT invites you to share your expertise with your peers!

55th Society of Toxicology Annual Meeting and ToxExpo™

**Deadline for Proposals
for SOT 2016
Annual Meeting
Sessions: April 30, 2015**

Why Submit a Proposal?

1. To present new developments in toxicology
2. To provide attendees with an opportunity to learn about state-of-the-art technology and how it applies to toxicological research
3. To provide attendees with an opportunity to learn about the emerging fields and how they apply to toxicology

Session Types

Continuing Education—Emphasis on quality presentations of generally accepted, established knowledge in toxicology

Note: CE courses will be held on Sunday.

Symposia—Cutting-edge science, new areas, concepts, or data

Workshops—State-of-the-art knowledge in toxicology

Roundtables—Controversial subjects

Continuing Medical Education—Emphasis on state-of-the-art knowledge to assist medical doctors, health professionals, and researchers in lifelong learning for providing high-quality health care

Note: Any session type may be considered for CME.

Historical Highlights—Review of a historical body of science that has impacted toxicology

Informational Sessions—Scientific planning or membership development

Education-Career Development Sessions—Sessions that provide the tools and resources to toxicologists that will enhance their professional and scientific development

Regional Interest—Central topics of relevance that describe public health and/or ecological problems of a particular region

Submit your proposal online at www.toxicology.org

Poisoning of kids from liquid nicotine exposure spiking as e-cigarettes become more prevalent.

This is just one of the many topics and headlines discussed daily by SOT on Facebook and Twitter.

Late-Breaking Abstracts Scheduled for Thursday

In December, we invited our colleagues to submit an abstract during the late-breaking abstract submission phase. We are pleased with the number of abstracts received for consideration and that an overwhelming number were accepted for the Annual Meeting. These abstracts will be presented on Thursday, March 26, along with several dynamic symposium and workshop sessions already scheduled. You can find the poster sessions in the Sails Pavilion. A PDF supplement of these additional abstracts will be available to download via the SOT website in early March. The abstracts are not available in the final Program but are fully searchable through the SOT Mobile Event App and Online Planner.

Poster Session Schedule and Board Surface Maps

Monday, March 23 to Wednesday, March 25—Exhibit Hall—Ground Level (See map below)

MONDAY

Morning, March 23—9:30 AM to 12:30 PM
Poster Set Up—7:30 AM to 9:30 AM

Afternoon, March 23—1:00 PM to 4:30 PM
Poster Set Up—12:30 PM to 1:00 PM

TUESDAY

Morning, March 24—9:00 AM to 12:30 PM
Poster Set Up—7:30 AM to 9:00 AM

Afternoon, March 24—1:00 PM to 4:30 PM
Poster Set Up—12:30 PM to 1:00 PM

WEDNESDAY

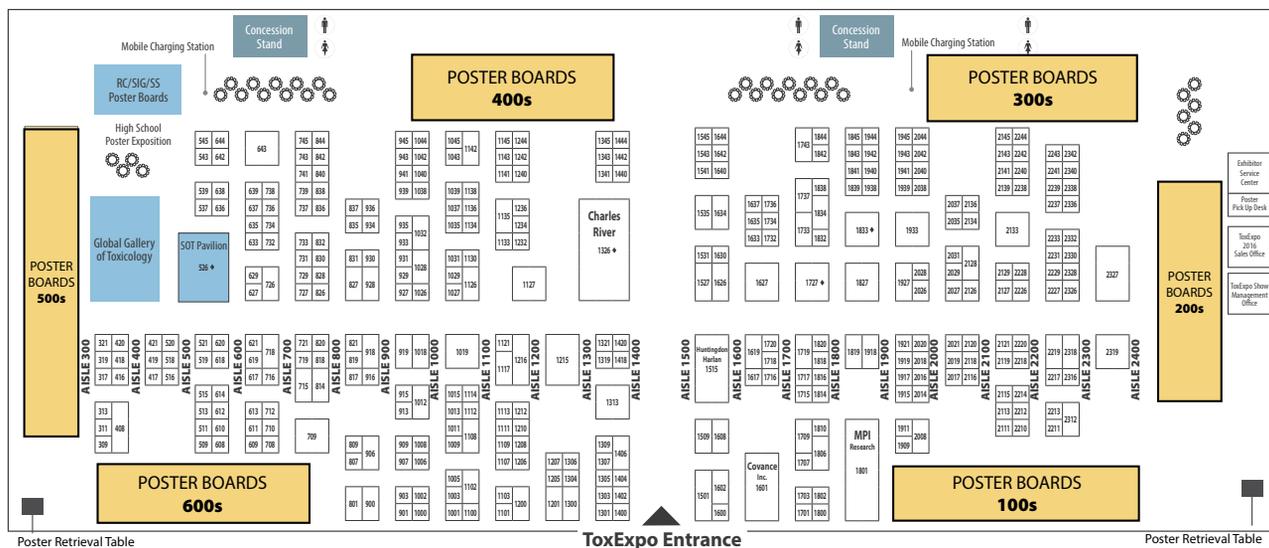

Morning, March 25—9:00 AM to 12:30 PM
Poster Set Up—7:30 AM to 9:00 AM

Afternoon, March 25—1:00 PM to 4:30 PM
Poster Set Up—12:30 PM to 1:00 PM

Thursday, March 26—Sails Pavilion—Upper Level (See map on page 128)

THURSDAY

Morning, March 26—8:30 AM to 12:00 Noon
Poster Set Up—7:00 AM to 8:30 AM

ePosters—A Convenient Way to View Posters

Did you miss the opportunity to view a poster of interest? In addition to attending Poster Sessions, you can view some posters through the SOT Mobile Event App. More information can be found on page 2.

If you do not remove your poster at the end of your session, you will find it on the “Poster Retrieval Tables” located at the front of the Exhibit Hall between poster sections 100 and 200; and between 500 and 600. Any posters left behind at 4:30 pm on Wednesday will be taken to SOT Headquarters Office, Room 15A, Thursday morning, March 26. All posters not claimed by 1:00 pm on Thursday, March 26, will be recycled.

Photography in the ToxExpo and all Poster Sessions is prohibited without the consent of exhibitors or poster presenter(s)/author(s). Please respect your colleagues’ right to privacy.

The numbers listed refer to the poster location that does not change throughout the week. Presenters should display posters ONLY on the date and time communicated in their acceptance notice. A list of Poster Session dates and times with abstract numbers can be found on pages 121–128. The full map of the Exhibit Hall can be found on pages 34–35 to assist you in finding Poster Sessions.

Poster Session Schedule and Board Surface Maps (Continued)

Monday Morning, March 23—9:30 AM to 12:30 PM—Exhibit Hall

Poster Set Up—7:30 AM to 9:30 AM

SESSION TITLE	ABSTRACT NUMBERS	POSTER BOARD NUMBERS
Biotransformation and Cytochrome P450	68–89	101–122
Pharmacogenomics and Genetic Polymorphisms	90–98	124–132
Liver	99–136	135–172
Inflammation in Disease	137–150	201–214
Inflammation: Methods and Mechanisms	151–174	215–238
Nonpharmaceutical Safety Assessment	175–195	239–259
Risk Assessment I	196–234	301–345
Alternatives to Mammalian Models I—Cardio, Neuro, Developmental	235–262	401–428
Developmental Neurotoxicology—Nonmammalian Models	263–273	431–441
Developmental Neurotoxicology— <i>In Vitro</i> Screening	274–283	445–454
Nanotoxicology, General, Environmental, Metals	284–316	501–533
Metals	317–353	536–572
Ecotoxicology	354–380	601–627
Persistent Organic Pollutants	381–397	631–647
Stem Cell Biology in Toxicology Research	398–409	653–664

Monday Afternoon, March 23—1:00 PM to 4:30 PM—Exhibit Hall

Poster Set Up—12:30 PM to 1:00 PM

SESSION TITLE	ABSTRACT NUMBERS	POSTER BOARD NUMBERS
Alternatives to Mammalian Models II—Skin, Eye, Liver	414–451	101–138
Ocular Toxicology	452–460	139–147
Natural Products	461–483	149–171
Biomonitoring and Exposure Assessment	484–520	201–237
Genetic Toxicology I	521–549	239–267
Cell Death and Apoptosis	550–572	301–323
Risk Assessment II	573–595	326–348
Pharmaceutical Safety: Large Molecule Case Studies	596–609	401–414
Pharmaceutical Safety: Small Molecule Case Studies	610–635	415–440
Developmental Neurotoxicology—Stem Cells	636–648	443–455
Autoimmunity/Hypersensitivity	649–682	501–534
Liver and Models	683–718	537–572
Biological Modeling	719–759	601–641
Epidemiology	760–778	645–663

Photography in the ToxExpo and all Poster Sessions is prohibited without the consent of exhibitors or poster presenter(s)/author(s). Please respect your colleagues' right to privacy.

The numbers listed on the map refer to the poster surface location that does not change throughout the week. Please display your poster only on the date and time assigned to you. The full map of the Exhibit Hall can be found on pages 34–35 to assist you in finding Poster Sessions.

Entrance

ALL late-breaking abstracts will be presented on Thursday in the Sails Pavilion. Please check the Mobile Event App and Online Planner for details. A PDF supplement of these additional abstracts will be available to download via the SOT website in early March. These abstracts were not printed in the final *Program*. Poster layout is subject to change based on the final number of accepted late-breaking submissions.

Photography in the ToxExpo and all Poster Sessions is prohibited without the consent of exhibitors or poster presenter(s)/author(s). Please respect your colleagues' right to privacy.

The numbers listed on the map refer to the poster surface location that does not change throughout the week. Please display your poster only on the date and time assigned to you. The full map of the Exhibit Hall can be found on pages 34–35 to assist you in finding Poster Sessions.

Explore Research Funding Opportunities and Strategies with Funding Agency Experts

All meeting attendees invited.
New investigators are encouraged to attend.

Meet with Agency Review Administrators and Program Officers Research Funding Luncheon: Multiple Perspectives on the Grant Process

Monday, March 23, 12:00 Noon–1:30 PM, Room 5B

Hosted by: Career Resource and Development Committee

Grant writing is a challenging endeavor. One must effectively communicate the significance, innovation, and approach of their research project in a clear but concise manner, with appropriate grammar. While there are some aspects of grant writing that apply regardless of the grant application phase, such as a clearly stated hypothesis and specific aims, the style and required elements of the various phases of the grant writing process can differ significantly. Thus, the goals of this session are to discuss the various phases of the grant writing process, including preparing a new application versus a competitive renewal, composing the rebuttal and revised grant application, how best to create a “new” proposal if a grant has not been funded after two review cycles, and an overview of the review process and choosing the best scientific review group. Four experts will cover these topics and participate in a panel discussion at the end of the session.

Essentials in Grantsmanship from a Program Officer’s Perspective

Annette Kirshner, NIEHS, Research Triangle Park, NC.

Annette Kirshner is a Program Administrator in the Genes, Environment and Health Branch in the Division of Extramural Research and Training. She is the lead representative for neurodevelopmental toxicology other than autism, and neurodegeneration including Amyotrophic Lateral Sclerosis and Alzheimer’s Disease, and was responsible for the development of the Parkinson’s (PD) program, which culminated in the establishment of specialized centers in PD. She brings substantial insight and experience in the grant process from a program officer’s perspective.

The NIH Application Review Process from a SRO’s Perspective

Janice Allen, NIEHS Scientific Review Branch, Research Triangle Park, NC.

The grant review process will be described by a scientific review officer, from what you need to know before starting to write your application, to preparing your application for submission, and then receiving your summary statement.

Taking a Look Behind the Curtain: What REALLY Happens at Study Section?

Cheryl Walker, Texas A&M Institute of Biosciences and Technology, Houston, TX.

Dr. Walker puts you in the reviewer’s shoes by discussing the peer-review system from the vantage point of a study section member. Is it like you imagined? Find out from an SOT member with over 25 years experience serving on study sections for the National Institutes of Health, the American Cancer Association, foreign governments, not-for-profit foundations, and advocacy groups.

Science to Achieve Results (STAR), US EPA’s Competitive Extramural Grants Program: Process and Opportunities

Mitch Lasat, US EPA, Washington, DC.

Through STAR, the agency funds scientifically meritorious research proposals that have the highest programmatic relevance to US EPA research programs, including Air Climate and Energy, Chemical Safety for Sustainability, Human Health Risk Assessment, Homeland Security, Safe and Sustainable Water Resources, and Sustainable and Healthy Communities. Recent STAR funding announcements on environmental toxicology research will be presented and the award selection process detailed. The presentation will conclude with an open discussion on US EPA’s funding process and opportunities.

Roundtable Discussion and Questions

This is an excellent opportunity for new investigators to ask those questions about grant submissions they may have hesitated to ask in the past.

Research Funding Information Room

Tuesday, March 24 and Wednesday, March 25
9:30 AM–4:30 PM, Room 11A

Hosted by: Career Resource and Development Committee

SOT places a strong emphasis on the development of opportunities for research support and funding. As a service to its members and new investigators, SOT offers the Research Funding Information Room so that members and attendees may network and learn more about the various opportunities available to them. Program and review staff from federal agencies that fund research, including NIH, US FDA, NIEHS, CDC, and US EPA will be available in the Research Funding Information Room for individual conversations. Attendees may check the posted schedule for specific times agency staff members will be available during the week to answer questions about the scientific review process and various grant opportunities. The schedule will be available in the Registration area, the Research Funding Information Room, and during the *Research Funding Luncheon: Multiple Perspectives on the Grant Process* on Monday.

Program Schedule

The Program Schedule layout is ordered by date and start time. All scientific sessions and special events will be held in the San Diego Convention Center unless otherwise noted.

SOT general events and functions are displayed with a yellow background.

SATURDAY MORNING

Saturday Morning and Afternoon, March 21

10:00 AM to 5:00 PM

Petco Park, Downtown San Diego

San Diego Festival of Science and Engineering EXPO Day Toxicology Exhibit

Chairperson(s): Virunya Bhat, NSF International, San Diego, CA

Hosted by:

Southern California Regional Chapter

Endorser(s):

Education Committee

K-12 Subcommittee

The Southern California Regional Chapter will host a booth at the free and largest annual Southern California festival of science, technology, engineering, and math (STEM) education. What's all the buzz about caffeine? Stop by "ToxTown" to test your caffeine trivia knowledge about beverages, food, and consumer products with added caffeine. Come play Tic-Tac-Tox, watch a specially-coordinated new "Risk Bites" YouTube episode, Chat with Andrew Maynard, creator of "Risk Bites" and recipient of the 2015 SOT Public Communications Award. Engage with toxicologists in other hands-on activities designed to foster an appreciation of the science and profession of toxicology. Bring your family to participate or volunteer to help build for the future of toxicology!

SATURDAY EVENING

Saturday Evening, March 21

5:15 PM to 7:30 PM

CC Room 33B

(By Invitation Only)

Undergraduate Education Program Opening Event

Chairperson(s): Kristini Miles, Kimberly-Clark Corporation, Roswell, GA.

Hosted by:

Committee for Diversity Initiatives

Open to CDI Travel Awardees in the Undergraduate Education Program and SOT program volunteers assisting with the Undergraduate Program. Full program details are found on pages 96-97.

Saturday Evening, March 21

7:30 PM to 8:30 PM

CC Room 31C

Committee on Diversity Initiatives Reunion

Hosted by:

Committee on Diversity Initiatives

Please connect with the Committee on Diversity Initiatives (CDI) as we celebrate the Undergraduate Education Program and the people who make it successful. The CDI Reunion will provide a great opportunity for former students, organizers of the program, and volunteers to gather and celebrate 26 years of success in encouraging the next generation of scientists. Please welcome and network with this year's undergraduate student participants and Gehring Diversity Student Travel Awardee. Dessert, coffee, and tea will be served, so mark your calendars and start the 54th Annual Meeting with a fun and interactive evening at the CDI Reunion.

Attention Undergraduates!!!!

Join the Scavenger Hunt

Monday, March 23, and Tuesday, March 25

Have fun!

Meet new contacts!

Win prizes!!!

Pick up cards at:

- Registration • SOT Headquarters Office •
- Printed from the Annual Meeting Website •

Turn in cards by 5:00 pm Tuesday at:

- Registration • SOT Headquarters Office •
- Undergraduate Student Meeting •

Prizes for the first 100 completed cards submitted.

Undergraduate students must find individuals who match the descriptions on the card.

Meeting attendees, if asked, please sign the description which best fits you.

Program Schedule (Continued)

SUNDAY MORNING

Sunday Morning, March 22
 7:00 AM to 7:45 AM
 CC Ballroom 6B
(Ticket Required)

Continuing Education Sunrise Mini-Course

Full Continuing Education Course details may be found on page 102.

Sunday Morning and Afternoon, March 22

8:00 AM to 3:00 PM
 CC Room 31C

(Registration Required; See Mobile Event App or pages 96–97 for Room Information)

Undergraduate Education Program

Chairperson(s): Kristini Miles, Kimberly-Clark Corporation, Roswell, GA.

Hosted by:

Committee for Diversity Initiatives

The Sunday program is open to all undergraduate students who register for this event using the Annual Meeting Registration Form, the undergraduate students and advisors receiving CDI travel funding, and SOT program volunteers. Full program details are found on pages 96–97.

Sunday Morning, March 22

8:15 AM to 12:00 Noon
 CC Upper Level

(Ticket Required; See Mobile Event App or Signage at CE Booth for Room Location)

Continuing Education Morning Courses

Full Continuing Education Course details may be found on pages 102–105.

SUNDAY AFTERNOON

Sunday Afternoon, March 22

1:15 PM to 5:00 PM
 CC Upper Level

(Ticket Required; See Mobile Event App or Signage at CE Booth for Room Location)

Continuing Education Afternoon Courses

Full Continuing Education Course details may be found on pages 105–108.

Sunday Afternoon, March 22

3:00 PM to 5:00 PM
 CC Room 31C

(Registration Required)

Undergraduate Education Program: Open Time with Academic Program Directors and Internship Sponsors

Chairperson(s): Kristini Miles, Kimberly-Clark Corporation, Roswell, GA.

Hosted by:

Committee for Diversity Initiatives

This event is open to undergraduate students who register for this event using the Annual Meeting Registration Form, the undergraduate students and advisors receiving CDI travel funding, and SOT program volunteers. Academic program directors, internship hosts, undergraduate students, and faculty advisors meet informally to discuss research and graduate study opportunities. Full program details are found on pages 96–97.

Program Schedule (Continued)

SUNDAY EVENING

Sunday Afternoon, March 22

4:45 PM to 6:30 PM

CC Ballroom 6A

(All Attendees Welcome)

Awards Ceremony

Pre-Ceremony Musical Performance

4:45 PM to 5:15 PM

Amy Lynn Kanner will perform for SOT Annual Meeting attendees prior to the SOT Awards Ceremony. Amy's passion is playing the harp. She is also a composer and recording artist—her CD, "Garden of Delights," features performances on multiple instruments.

Amy is also a physician and a graduate of the International Harp Therapy program—utilizing the unique resonance of the harp to create an atmosphere of relaxation and respite for both patients and health care staff. Find additional event details on the SOT 2015 Annual Meeting website at www.toxicology.org/ai/meet/am2015/socialevents.asp.

Awards Ceremony

5:15 PM to 6:30 PM

SOT will honor our 2015 Honorary Member, SOT award recipients, and our supported award recipients at the SOT Awards Ceremony (pages 65–78) following the pre-ceremony musical performance.

Presentation of plaques will be made to:

- Honorary Member
- Global Senior Scholar Exchange Program
- Supported Awards:
 - Colgate-Palmolive Award for Student Research Training in Alternative Methods
 - Colgate-Palmolive Grants for Alternative Research
 - Colgate-Palmolive Postdoctoral Fellowship Award in *In Vitro* Toxicology
 - Syngenta Fellowship Award in Human Health Applications of New Technologies
- SOT Awards:

<ul style="list-style-type: none"> • Achievement Award • Arnold J. Lehman Award • Board of Publications Best Paper in <i>Toxicological Sciences</i> • Distinguished Toxicology Scholar Award 	<ul style="list-style-type: none"> • Education Award • Merit Award • Public Communications Award • Translational Impact Award • Undergraduate Educator Award*
--	--

**Supported by the SOT Endowment Fund*

In addition, recipients of the Pfizer SOT Undergraduate Student Travel Awards, SOT Undergraduate Intern Travel Awards, and SOT/Astra-Zeneca/SOT Endowment Fund/IUTOX Travel Awards will be recognized.

Sunday Evening, March 22

6:30 PM to 7:30 PM

CC West Terrace

(All Attendees Welcome)

Welcome Reception

Continue the celebration by attending the Welcome Reception following the Awards Ceremony. The Welcome Reception is a great opportunity to renew old friendships and to make new acquaintances. Please join the Society in this kick-off of the Annual Meeting.

Sunday Evening, March 22

7:00 PM to 8:00 PM

CC Room 5

25-Year (Or More) Member Reception

If you have been a member of the Society of Toxicology for 25 years or more, please join your colleagues to celebrate and recognize the scientists who established the Society. Be sure to wear your anniversary pin.

Sunday Evening, March 22

7:30 PM to 9:00 PM

CC Ballroom 20D

(Ticket Required)

Student/Postdoctoral Scholar Mixer

Hosted by:

Graduate Student Leadership Committee

The Graduate Student Leadership Committee hosts this opportunity for students and postdoctoral scholars to gather, to meet new colleagues, and to re-establish relationships in an informal atmosphere at the beginning of the meeting. Tickets are obtained at no cost by registering for this event on the Annual Meeting Registration Form and are required. Complimentary refreshments and a cash bar will be available.

Program Schedule (Continued)

MONDAY MORNING

Monday Morning, March 23
6:00 AM to 7:30 AM
CC Room 31B

Toxicologic and Exploratory Pathology Specialty Section Officers

Monday Morning, March 23
6:30 AM to 7:30 AM
Richard Walker's Pancake House

Mixtures Specialty Section Officers Meeting

Monday Morning, March 23
6:15 AM to 7:45 AM
CC Room 5B
(Registration Required)

SOT Mentoring Breakfast

Endorser(s):
Career Resource and Development Committee
Graduate Student Leadership Committee
Postdoctoral Assembly

The Society of Toxicology recognizes the importance of mentoring in the scientific and professional development of its members. As such, the Career Resource and Development Committee, in conjunction with the Postdoctoral Assembly and Graduate Student Leadership Committee, is pleased to host the fourth annual Mentoring Breakfast.

The Mentoring Breakfast is for SOT members at any career stage—from graduate students to postdoctoral fellows to senior scientists—who are seeking a mentor. A brief introduction will be followed by small group discussions led by trained facilitators. Facilitators will work to match participants with compatible mentors following the Annual Meeting.

Monday Morning, March 23
6:30 AM to 8:00 AM
CC Room 30A

Inhalation and Respiratory Specialty Section Technical Meeting

Monday Morning, March 23
6:30 AM to 8:00 AM
CC Room 25

Specialty Section Officers Meetings: Carcinogenesis; Clinical and Translational Toxicology; Dermal Toxicology; Food Safety; Immunotoxicology; In Vitro and Alternative Methods; Mechanisms; Molecular and Systems Biology; Neurotoxicology; Regulatory and Safety Evaluation; Risk Assessment

Monday Morning, March 23
6:45 AM to 8:00 AM
Marriott Marquis Marina Kitchen

Hispanic Organization of Toxicologists Special Interest Group Officers Meeting

Monday Morning, March 23
7:00 AM to 8:00 AM
Marriott Gaslamp Soleil @K Restaurant

Central States Regional Chapter Meeting/Breakfast

Monday Morning, March 23
7:00 AM to 8:30 AM
CC Room 30D

Reproductive and Developmental Toxicology Specialty Section Officers Meeting

Monday Morning, March 23
8:00 AM to 9:00 AM
CC Hall D

Plenary Opening Lecture: Life at the Speed of Light

Lecturer: J. Craig Venter, J. Craig Venter Institute, San Diego, CA.

J. Craig Venter is a biologist renowned for his contributions in sequencing the first draft human genome in 2001, the first complete diploid human genome in 2007 and construction of the first synthetic bacterial cell in 2010. He is founder, chairman, and CEO of the J. Craig Venter Institute (JCVI), founder and CEO of the company, Synthetic Genomics Inc (SGI), and a co-founder and CEO of Human Longevity Inc (HLI). He and his teams are focused on a variety of projects and programs, including synthetic genomic research and the application of these advances to develop new biofuels, vaccines, and food and nutritional products; continued analysis of the human genome including the human microbiome; and discovering and understanding genetic diversity in the world's oceans. Dr. Venter is a recipient of the 2008 National Medal of Science and is a member of the National Academy of Sciences. He is the author of *Life at the Speed of Light: From the Double Helix to the Dawn of Digital Life* (Viking, 2013) and *A Life Decoded: My Genome: My Life* (Viking, 2007).

Monday Morning, March 23
8:00 AM to 12:00 Noon
(See pages 96–97 for room information)

Symposium Session: New and Emerging Tobacco Products—Biomarkers of Exposure and Injury

Advancing Clinical and Translational Toxicology

Chairperson(s): Daniel J. Conklin, University of Louisville, Louisville, KY; and Judith T. Zelikoff, Environmental Medicine, New York University School of Medicine, Tuxedo, NY.

Endorser(s):

Cardiovascular Toxicology Specialty Section
Inhalation and Respiratory Specialty Section

On June 22, 2009, the Family Smoking Prevention and Tobacco Control Act was signed into law, giving the US FDA the authority to regulate new and emerging tobacco-derived products. Subsequently, there is an obvious need to provide scientific data in order to inform US FDA's decision-making regarding these products. Thus, biomarkers of exposure, biomarkers of injury, and controlled, acute, and chronic, as well as longitudinal exposure studies, are being conducted to better define what exactly new and emerging tobacco-derived products do in a variety of preclinical and clinical settings. New and emerging tobacco- and nicotine-derived products come in a dizzying array of products including electronic cigarettes, smokeless tobacco (including snus, snuff, and gutkha), shisha for hookah/water pipes, dissolvable lozenges, and nicotine gels that contain, deliver, and/or generate a varied number of harmful or potentially harmful constituents (HPHCs), making it challenging to predict the biological effects of exposures based solely on traditional cigarette exposure studies. This symposium will provide a broad overview of ongoing studies attempting to identify biomarkers of exposure, biomarkers of injury, and acute and chronic effects in the cardiovascular, pulmonary, and reproductive organ systems resulting from exposures to new and emerging tobacco products and/or their HPHCs.

- #14 9:15 **New and Emerging Tobacco Products—Biomarkers of Exposure and Injury.** D. J. Conklin¹, and J. T. Zelikoff². ¹Department of Cardiovascular Medicine, University of Louisville, Louisville, KY; and ²Department of Environmental Medicine, New York University, Tuxedo, NY.
- 9:15 **Introduction.** D. J. Conklin. University of Louisville, Louisville, KY.
- #15 9:20 **Biomarkers of Exposure to Tobacco Smoke and Emerging Tobacco Products.** N. Benowitz. Department of Medicine, University of California San Francisco, San Francisco, CA. Sponsor: D. Conklin.
- #16 9:52 **Pulmonary Effects of Exposure to Tobacco Smoke and New Tobacco Products.** I. Jaspers. Department of Pediatrics, University of North Carolina at Chapel Hill, Chapel Hill, NC.
- #17 10:24 **Reproductive/Developmental Effects of Exposure to New and Emerging Tobacco Products and to Nicotine Delivery Devices in a Mouse Model.** J. T. Zelikoff. Department of Environmental Medicine, New York University, Tuxedo, NY.
- #18 10:56 **Cardiovascular Effects of Exposure to Harmful and Potentially Harmful Constituents (HPHCs) of Tobacco Products.** D. J. Conklin^{1,3}, L. Chen^{2,3}, and S. Srivastava^{1,3}. ¹Department of Cardiovascular Medicine, University of Louisville, Louisville, KY; ²Department of Environmental Medicine, New York University, Tuxedo, NY; and ³Tobacco Regulation and Addiction Center, American Heart Association, Dallas, TX.

Abstract

#19 11:28 **Cardiovascular Effects of Tobacco Products, Nicotine Delivery Products, and Secondhand Smoke: Exponential Effects in Humans.** S. Schick. Department of Medicine, University of California San Francisco, San Francisco, CA. Sponsor: D. J. Conklin.

Monday Morning, March 23
9:15 AM to 12:00 Noon
CC Room 1

Symposium Session: The Role of Connexin-Based Channels in Toxicity

Chairperson(s): Brad L. Upham, Pediatrics & Human Development, Michigan State University, East Lansing, MI; and Mathieu Vinken, Toxicology, Free University Brussels, Brussels, Belgium.

Endorser(s):

Mechanisms Specialty Section
Molecular and Systems Biology Specialty Section

Connexins and their channels control tissue homeostasis at three levels, all which involve separate mechanisms. First, they form gap junctions, composed of two hemichannels of neighbouring cells, of which each hemichannel is composed of six connexin proteins. As such, these gap junctions mediate the traffic of small, hydrophilic molecules between cells, a flux called gap junctional intercellular communication (GJIC) that controls gene expression and physiological functions. Secondly, hemichannels can form a separate pathway for communication, between the intracellular compartment and the extracellular environment. Thirdly, connexin proteins can affect the homeostatic balance independent of their channel-forming activities by directly interfering with gene expression. Dysfunction of connexin channels have been implicated in many diseases including cancer, reproductive dysfunction, peripheral neuropathies, liver disease, cataracts, deafness, teratogenesis, cardiac arrhythmias, and skin diseases. In the first presentation, general features of connexin-based channels will be discussed, as well as their mechanistic involvement in liver disease and toxicity. In the second presentation, the critical role of gap junction in redox signalling will be addressed. In the third presentation, toxicant-induced disruption of gap junctional intercellular communication in uterine muscle, with implications for parturition, will be outlined. The fourth presentation will focus on the use of gap junction function as a biomarker for elucidating toxicant-induced mechanisms of tissue dysfunction using advanced genomic strategies. Overall, this symposium will address significant advances and recent novel concepts in connexin biology and their application to toxicology.

- #20 9:15 **The Role of Connexin-Based Channels in Toxicity.** M. Vinken¹, and B. L. Upham². ¹Toxicology, Vrije Universiteit Brussel, Brussels, Belgium; and ²Department of Pediatrics & Human Development, and Center for Integrative Toxicology, Michigan State University, East Lansing, MI.
- 9:15 **Introduction.** M. Vinken. Vrije Universiteit Brussel, Brussels, Belgium.
- #21 9:20 **Integrative Role of Gap Junctions in Redox Signaling.** B. L. Upham¹, and P. Babica². ¹Pediatrics & Human Development, Michigan State University, East Lansing, MI; and ²RECETOX - Research Centre for Toxic Compounds in the Environment, Masaryk University, Brno, Czech Republic.
- #22 9:56 **Connexin Signaling in Liver Toxicity and Disease.** M. Vinken. Toxicology, Free University Brussels, Brussels, Belgium.
- #23 10:32 **Uterine Muscle Gap Junctions As Toxicant Targets.** R. Loch-Caruso. Environmental Health Sciences, University of Michigan, Ann Arbor, MI.

Workshop Session: Environmental Exposures and Alzheimer's Disease: Epidemiology, Mechanisms, and Future Strategies

Advancing Clinical and Translational Toxicology

Jointly Provided by: University of Arkansas for Medical Sciences College of Medicine and SOT Approved for AMA PRA Category 1 Credit™—See Mobile Event App for details.

Chairperson(s): Jason R. Richardson, *Environmental and Occupational Medicine, Robert Wood Johnson Medical School, Piscataway, NJ;* and Anumantha Kanthasamy, *Biomedical Sciences, Iowa State University, Ames, IA.*

Endorser(s):

Neurotoxicology Specialty Section

Alzheimer's disease (AD) is the most common neurodegenerative disease worldwide and is expected to increase three-fold over the next 40 years. To date, a massive amount of effort has focused on identifying genetic contributors to AD. Although there is a growing list of susceptibility genes that collectively contribute to AD, the largest GWAS study published on AD (>74,000 individuals) identified only 1 out of 19 loci as an individual strong contributor to AD. This finding has led to calls for studies to examine the potential influence of environmental and lifestyle factors on risk for AD. Given the wide-spread prevalence of AD and an ever-aging population, the role of environmental exposures in AD is a grossly understudied arena. This workshop brings together experts in the field of toxicology, neuroscience, and epidemiology to highlight the potential mechanisms by which environmental exposures contribute to AD. Experimental design and cutting-edge technologies relevant to discerning environmental influences on AD will also be discussed. The workshop contains presentations and a roundtable discussion that will address five primary questions: (1) What epidemiological strategies are likely to provide the most robust information on the association between AD and environmental exposures?; (2) What information can we apply to AD from experiences studying the role of environmental exposures in other neurodegenerative diseases?; (3) What is the role of environmental exposures in the etiology of AD?; (4) Do epigenetic alterations represent a mechanism by which environmental exposures contribute to AD?; (5) Does regulation of protein aggregation and transport of pathogenic proteins by environmental exposures contribute to the progression of AD?

- #25 9:15 **Environmental Exposures and Alzheimer's Disease: Epidemiology, Mechanisms, and Future Strategies.** J. R. Richardson¹, and A. Kanthasamy². ¹Environmental and Occupational Medicine, Robert Wood Johnson Medical School, Piscataway, NJ; and ²Iowa State University, Ames, IA.

9:15 **Introduction.** J. R. Richardson. Robert Wood Johnson Medical School, Piscataway, NJ.

- #26 9:25 **Environmental Exposures and AD: Developmental Origins and Role of Epigenetics.** N. H. Zawia. University of Rhode Island, Kingston, RI.

Abstract

- #27 9:55 **Role of the Divalent Metal Manganese in Protein Misfolding and Cell-to-Cell Transmission of Protein Aggregates via Exosomes in Cell Culture and Animal Models of Neurodegenerative Diseases.** A. Kanthasamy. Iowa State University, Ames, IA.

#28 10:25 **Pesticide Exposure As a Risk Factor for AD: Evidence in Mice and Man.** J. R. Richardson. Environmental and Occupational Medicine, Robert Wood Johnson Medical School, Piscataway, NJ.

#29 10:55 **Epidemiologic Investigation of Environmental Risk Factors for Alzheimer's Disease: Progress and Pitfalls.** M. Weisskopf. Harvard School of Public Health, Boston, MA. Sponsor: J. Richardson.

Workshop Session: Friend or Foe—Challenges and Perspectives for Nonclinical Development of Antibody-Drug Conjugates

Safety Assessment Approaches for Product Development

Chairperson(s): Mary Jane Hinrichs, *MedImmune, Gaithersburg, MD;* and Joerg Bluemel, *Safety Assessment, Genentech, Inc., South San Francisco, CA.*

Endorser(s):

Biotechnology Specialty Section

Regulatory and Safety Evaluation Specialty Section

The development of antibody-drug conjugates (ADCs) has gained considerable momentum in recent years following the successful market introduction of two novel ADC molecules, T-DM1 (Kadcyla[®]) and brentuximab vedotin (Adcetris[®]). These molecules represent an exciting new class of oncology agents that combine highly potent cytotoxic small molecules (warhead) with targeted therapeutic proteins such as monoclonal antibodies. Due to the complexity of these molecules, ADCs present unique challenges that encompass all aspects of nonclinical drug development, from the discovery process to translational issues such as patient selection. Despite the use of targeted delivery systems to deliver potent warheads, clinical development of ADCs continues to be limited by toxicity. The purpose of this workshop is to bring together experts to discuss recent progress and challenges in the design and development of more efficacious ADCs with improved tolerability. Specifically, recent data has shown that various aspects of ADC design play a major role in both the pharmacokinetic and toxicity profile of these molecules. The workshop will seek to explore how these factors can be used to engineer second-generation ADCs with improved therapeutic indices.

- #30 9:15 **Friend or Foe—Challenges and Perspectives for Nonclinical Development of Antibody-Drug Conjugates.** M. Hinrichs¹, and J. Bluemel². ¹Biologics Safety Assessment, MedImmune, Gaithersburg, MD; and ²Safety Assessment, Genentech, Inc., South San Francisco, CA.

#31 9:15 **Development of Antibody-Drug Conjugates: Many Hopes But Also a Journey with Obstacles.** J. Bluemel. Safety Assessment, Genentech, Inc., South San Francisco, CA.

#32 9:40 **Chemical Aspects of Warhead and Payload Selection—Is There an Ideal Payload?** P. Howard. Spirogen, London, United Kingdom. Sponsor: M. Hinrichs.

#33 10:10 **Analytical Challenges and Novel Techniques for Exposure Assessment of Antibody-Drug Conjugates.** O. Saad. Genentech, South San Francisco, CA. Sponsor: M. Hinrichs.

Program Schedule (Continued)

Abstract

- #34 10:40 **Nonclinical Safety Assessment of ADCs: Challenges and Opportunities.** *N. Stagg*², and *S. Chivers*¹. ¹ADC Therapeutics, London, United Kingdom; and ²Safety Assessment, Genentech, Inc., South San Francisco, CA.
- #35 11:10 **Regulatory Perspective for Nonclinical Development and Safety Assessment of Antibody-Drug Conjugates.** *S. Ricci*. Division of Hematology Products, Office of Hematology and Oncology Products, US FDA, CDER, Silver Spring, MD. Sponsor: *M. Hinrichs*.

Workshop Session: Linking Early-Life Stages: The First Step toward Lifecourse Risk Assessment

Approaches for Protecting Vulnerable Populations

Chairperson(s): *Sally P. Darney*, ORD, US EPA, Research Triangle Park, NC; and *Harvey J. Clewell*, The Hamner Institutes for Health Sciences, Research Triangle Park, NC.

Endorser(s):

Reproductive and Developmental Toxicology Specialty Section
Risk Assessment Specialty Section
Scientific Liaison Coalition

Adverse health effects associated with chemical exposures are often greatest during periods of growth, differentiation, and development in embryonic, fetal, infant, and/or childhood life stages. Historically, risk assessment has considered the most critical and sensitive developmental window of exposure for each individual contaminant. However, a pregnant woman experiences exposures to a complex array of environmental contaminants and may transfer them to her fetus across the placenta and/or to her newborn through breast milk. Furthermore, mother and child will experience similar environmental exposures and modifying factors in their homes, schools, and communities, all of which may impact subsequent physiology, disease susceptibility, and lifelong health. To begin to address this complexity, we need ways to link exposures as they accrue and health outcomes as they emerge across time and life stages. This workshop will introduce lifecourse theory as applied to early-life stages, specifically to maternal and child health. Then experts in exposure and physiologically-based pharmacokinetic (PBPK) modeling will provide innovative approaches for predicting fetal and neonatal exposures based on the transfer of chemicals from pregnant women to their fetuses across the placenta and to their infants through breast milk, and for predicting biological effects of those exposures across life stages to adulthood. Drawing from a variety of data sources (human biomonitoring, longitudinal children's health studies, exposure modeling, and biomarker discovery) case studies will demonstrate applications of lifecourse PBPK models to selected chemical classes. The workshop will conclude with an integrative panel discussion on how to apply lifecourse models in risk assessment. (DISCLAIMER: The views expressed in this abstract do not necessarily reflect US EPA policy).

Workshop Session: The US Tox21 Collaboration: Advances Made and Lessons Learned

Chairperson(s): *Linda S. Birnbaum*, NIEHS, Research Triangle Park, NC; and *Robert Kavlock*, US EPA/ORD, Washington, DC.

Endorser(s):

In Vitro and Alternative Methods Specialty Section
Molecular and Systems Biology Specialty Section
Regulatory and Safety Evaluation Specialty Section

Launched in 2007, Tox21 is a multiagency collaborative effort among the National Institutes of Health's National Institute of Environmental Health Sciences/National Toxicology Program and the National Center for Advancing Translational Sciences, the US Environmental Protection Agency's National Center for Computational Toxicology, and the US Food and Drug Administration. The objective of this partnership is to shift the assessment of chemical hazards from traditional experimental animal toxicology studies to one based on target-specific, mechanism-based, biological observations largely obtained using *in vitro* assays, with the ultimate aim of improving risk assessment for humans and the environment. More specific goals are to identify patterns of compound-induced biological response to characterize toxicity/disease pathways, prioritize compounds for more extensive toxicological evaluation, and develop models predictive of adverse health effects in humans. By 2014, ~1800 compounds have been screened across ~700 assays in the ToxCast program, while a 10,000-compound library (which includes all ToxCast chemicals) was screened across a smaller, more focused set of nuclear receptor and stress response pathway assays. Tox21 is committed to full public accessibility and transparency and is releasing data through PubChem and other outlets. This workshop will summarize the progress and lessons learned from these studies; present an example prioritization scheme/prediction model; detail ongoing efforts to increase chemical characterization, biological coverage, and public outreach; and present the perspective of an end user of the data generated by Tox21 and similar efforts.

An individual's genetic makeup plays an important role in his or her response to toxicant exposure; however, polymorphisms in genes leading to susceptibility occur at a relatively low frequency. In addition to genetic makeup, epigenetic regulators, such as chromatin modifications, DNA methylation, and noncoding RNAs, function as critical and dynamic mediators of gene expression that shape the way that cells, tissues, and organisms respond to toxicant exposure. Toxicological epigenomics examines the role of these nongenetic mechanisms in the regulation of genes associated with toxicant response across the entire genome. By studying epigenetic mechanisms we will gain a better understanding of the molecular events underlying adverse health effects of toxicant exposure and improve our ability to predict susceptible populations. Further, the pliable nature of the epigenome allows for the use of epigenomics data to identify modifiable risk factors and develop models that will be used to limit the effects of toxicant exposure, thus promoting human health. This workshop will examine epigenomic mechanisms that are associated with exposures and outcomes by bringing experts together to discuss the interplay of epigenomics and toxicant exposure in the context of environmental health. We will explore questions such as: (1) How can animal models be utilized in toxicoepigenomics research?; (2) How can human cross-sectional, longitudinal, and clinical approaches best evaluate

Abstract

- environmental effects on the epigenome and identify susceptible populations?; (3) How can epigenomic data be applied in risk assessment?; (4) How can toxicological epigenomics be applied to predict and mitigate the effects of toxicant exposure? Following this workshop, attendees will have a better understanding of how the epigenome influences the outcomes of toxicant exposure, how epigenomic studies can inform risk modification, and how epigenomics can be integrated into studies across many different aspects of toxicology.
- #48 9:15 **Toxicological Epigenomics: The Interface between the Environment and Human Health.** S. D. McCullough¹, and D. Dolinoy². ¹Clinical Research Branch, US EPA, Chapel Hill, NC; and ²Department of Environmental Health Sciences, University of Michigan, Ann Arbor, MI.

Workshop Session: Transporters As Gatekeepers for Chemical Exposure in Reproductive Tissues

Approaches for Protecting Vulnerable Populations

Chairperson(s): Lauren M. Aleksunes, Pharmacology and Toxicology, Rutgers University, Piscataway, NJ; and Nathan J. Cherrington, University of Arizona, Tucson, AZ.

Endorser(s):

Mechanisms Specialty Section
Molecular and Systems Biology Specialty Section
Reproductive and Developmental Toxicology Specialty Section

The passage of chemicals across the placenta and into the testes and ovaries is regulated by a number of physicochemical properties, as well as interactions with uptake and efflux transporters. In order to assess the risk for reproductive and developmental toxicities, it is critical to understand the mechanisms that restrict or enable entry to sensitive tissues. This workshop highlights the most recent knowledge of the interactions of drugs and

Program Schedule (Continued)

Abstract

chemicals with transport proteins in the placenta, ovaries, and testes. In the placenta, these proteins are found in syncytiotrophoblasts, extraembryonic membranes, and fetal endothelial capillaries. Recent work also demonstrates the basal and inducible expression of drug transporters in the ovaries. In the testes, drug transporters are expressed in Sertoli and germ cells in the seminiferous epithelium. Emerging research from a number of laboratories demonstrates that transporters regulate the disposition of toxicants within the placenta, ovaries, and testes. Moreover, perturbations in the function of these proteins may alter drug responses and susceptibility to adverse events. The purpose of this workshop is to bring together experts in the fields of toxicology and reproduction to highlight the regulatory mechanisms that control chemical disposition in sensitive tissues. The workshop contains presentations and a roundtable discussion that will address the following questions: Which cell types are responsible for chemical transfer or extrusion in reproductive tissues? What physical and chemical properties of small molecules and biologics determine their disposition in the placenta, ovaries, and testes? What role do transporters play in the toxic responses of protected tissues? What are the advantages and disadvantages of preclinical animal models to recapitulate human chemical transfer? Do environmentally relevant concentrations of chemicals alter placental, ovarian, and testes barrier integrity?

MONDAY

Program Schedule (Continued)

Monday Morning, March 23,
9:15 AM to 10:15 AM
CC Room 24C

Exhibitor-Hosted Session: 3D Microtissue Cultures: Use in Long-Term Hepatocyte ADME-Tox Studies

Presented by:

BioreclamationIVT and InSphero Inc.

InSphero and BioreclamationIVT present the latest data on the characterization of 3D human liver microtissues and their application to toxicity testing, drug metabolism studies, and disease modelling. In addition, the attendees will learn about donor-to-donor differences and the use of liver non-parenchymal cells for 3D liver cultures.

Monday Morning, March 23,
9:15 AM to 10:15 AM
CC Room 22

Exhibitor-Hosted Session: Considerations for Nonclinical Safety Testing of Biologics, Biosimilars, and Biobetters

Presented by:

Toxikon Corporation

New biologics are submitted through an IND process similar to small molecules and require a full battery of safety testing. Biosimilars follow a specific pathway, designed based on an innovator, and often have an abbreviated safety testing program. We will use case studies to illustrate the differences between the programs.

Monday Morning, March 23,
9:15 AM to 10:15 AM
CC Room 24B

Exhibitor-Hosted Session: From Candidate Drug to Clinical POC: Managing the Continuum

Presented by:

Covance

Experts in safety, pharmacology, DMPK, regulatory, and clinical strategy discuss approaches to successfully develop a molecule from candidate selection through POC. We'll focus on drug safety strategy as part of the overall drug development plan, and provide insights on the importance of scientific and operational continuity to achieve regulatory milestones.

Monday Morning, March 23,
9:15 AM to 10:15 AM
CC Room 24A

Exhibitor-Hosted Session: Safety Biomarkers in Preclinical Studies: A Clinical Pathology Perspective

Presented by:

MPI Research

This session will provide an overview of the current principles involved in the application of safety biomarkers in preclinical research studies focusing on study design strategies, organ system evaluation, and validation principles. Additionally, integration of biomarker data with other study endpoints (e.g., traditional clinical pathology and pathology) will be discussed.

Abstract

Monday Morning, March 23
9:30 AM to 11:30 AM
CC Room 4

Global Collaboration Coffee

The Society of Toxicology invites all Global Gallery poster presenters and representatives of societies from around the world to the Global Collaboration Coffee. Invitees also include SOT Special Interest Group leaders, IUTOX Executive Committee members, SOT Councilors, 2015 Global Senior Scholars and their hosts, and the 2015 recipients of the SOT/Astra-Zeneca/SOT Endowment Fund/IUTOX Travel Awards. This event offers an opportunity for scientific leaders to meet and make plans for future collaborations. Following the coffee, attendees will adjourn together to the Global Gallery, where presenters will share their posters in "Representative Attended" poster time from 11:45 am to 12:15 pm. See page 165 for more information about the Global Gallery of Toxicology.

Monday Morning, March 23
9:30 AM to 12:30 PM
CC Exhibit Hall

Poster Session: Biotransformation and Cytochrome P450

Chairperson(s): Patrick Iversen, Oregon State University, Corvallis, OR.

Displayed: 9:30 AM–12:30 PM

Author-Attended: 9:30 AM–11:00 AM

- | | |

Vulpe¹. ¹Nutritional Sciences and Toxicology, University of California-Berkeley, Berkeley, CA; ²Human Genetics, University of California - Los Angeles, Los Angeles, CA; and ³Computer Science, University of California - Los Angeles, Los Angeles, CA.

Monday Morning, March 23
 9:30 AM to 12:30 PM
 CC Exhibit Hall

Poster Session: Pharmacogenomics and Genetic Polymorphisms

Chairperson(s): Rui Xiong, University of Colorado Denver, Aurora, CO.

Displayed: 9:30 AM–12:30 PM

Author-Attended: 11:00 AM–12:30 PM

- #90 **Poster Board Number 124**
Interrogating the Mechanism of microRNA HSA-miR-29A-3P-Mediated Inhibition of CYP2C19 in Human Liver Cells. D. Yu, W. H. Tolleson, B. Green, J. C. Fuscoe, I. Pogribny, and B. Ning. National Center for Toxicological Research, Jefferson, AR.
- #91 **Poster Board Number 125**
Activity of the MRP2/ABCC2 Efflux Transporter: Comparison of Wild-Type MRP2 and Polymorphic Variants. X. Wen¹, M. S. Joy², and L. M. Aleksunes¹. ¹Pharmacology and Toxicology, Rutgers University, Piscataway, NJ; and ²Pharmaceutical Sciences, University of Colorado, Aurora, CO.
- #92 **Poster Board Number 126**
RNAi- and Small Molecule-Induced Inhibition of Arylamine N-Acetyltransferase 1 Reduce Anchorage Independent Growth in Breast Cancer Cell Line MDA-MB-231. M. A. Doll, M. W. Stepp, J. C. States, and D. W. Hein. Pharmacology and Toxicology, University of Louisville, Louisville, KY.
- #93 **Poster Board Number 127**
More Frequent Breast Tumors in Rapid Compared to Slow Rat Nat2 Congenic Fischer 344 Rats Administered Methylnitrosourea. M. W. Stepp^{1,2}, M. A. Doll^{1,2}, J. C. States^{1,2}, and D. W. Hein^{1,2}. ¹Pharmacology and Toxicology, University of Louisville, Louisville, KY; and ²James Graham Brown Cancer Center, University of Louisville, Louisville, KY.

Monday Morning, March 23
 9:30 AM to 12:30 PM
 CC Exhibit Hall

Poster Session: Liver

Chairperson(s): Martin J. Ronis, University of Arkansas for Medical Sciences, Little Rock, AR.

Displayed: 9:30 AM–12:30 PM

Author-Attended: 9:30 AM–11:00 AM

- #99 **Poster Board Number 135**
Liver Microarray Analysis by Estrous Cycle Staging after 90-Day Tetrabromobisphenol A (TBBPA) Exposure. B. Merrick, K. R. Shockley, D. L. Morgan, K. Gerrish, S. Elmore, J. P. Stanko, A. R. Pandiri, T. Ton, and J. K. Dunnick. DNTP, NIEHS, Research Triangle Park, NC.

MONDAY

Program Schedule (Continued)

Abstract #	Abstract #
#100	Poster Board Number 136 Whole Genome Transcriptome Profiling of Livers from Rats Treated with the Chemopreventive Agent Oltripraz. M. J. Liguori, T. Sharapova, and E. A. Blomme. Cellular, Molecular, & Exploratory Toxicology, AbbVie, North Chicago, IL.
#101	Poster Board Number 137 Withaferin A Is a Potent Inducer of the Nrf2-Mediated Environmental Stress Response. D. L. Palliyaguru ¹ , D. V. Chartoumpekis ² , N. Wakabayashi ² , S. V. Singh ² , and T. Kensler ^{2,1} . ¹ Environmental and Occupational Health, University of Pittsburgh, Pittsburgh, PA; and ² Pharmacology and Chemical Biology, University of Pittsburgh, Pittsburgh, PA.
#102	Poster Board Number 138 Safety Assessment of Pet Food Ingredients Using Cryopreserved Canine Hepatocytes-Based In Vitro Assays. K. Choi ¹ , B. Jeffery ² , J. E. Riviere ¹ , and N. A. Monteiro-Riviere ¹ . ¹ Anatomy and Physiology College of Veterinary Medicine, Kansas State University, Manhattan, KS; and ² Mars Inc., Global Quality and Food Safety, McLean, VA.
#103	Poster Board Number 139 Exploring Phenobarbital's Mechanism of Action in the Rat. M. Osborne ¹ , R. Currie ² , J. Wright ² , and N. J. Gooderham ¹ . ¹ Imperial College London, London, United Kingdom; and ² Syngenta, Bracknell, United Kingdom.
#104	Poster Board Number 140 Differences of Metabolic Functions and Sensitivity to Chemical Compounds between Human Fetal and Adult Hepatocytes. S. Ishida ¹ , S. Kim ¹ , T. Kubo ¹ , Y. Kuroda ¹ , T. Ishii ³ , A. Miyajima-Tabata ² , T. Matsushita ² , and Y. Sekino ¹ . ¹ Pharmacology, National Institute of Health Sciences, Tokyo, Japan; ² Medical Devices, National Institute of Health Sciences, Tokyo, Japan; and ³ Sojo University, Kumamoto, Japan. Sponsor: A. Nishikawa.
#105	Poster Board Number 141 Cytotoxic Synergy between Cytokines and NSAIDs Associated with Idiosyncratic Hepatotoxicity Is Driven by Mitogen-Activated Protein Kinases. A. Maiuri ^{1,2} , L. Gora ¹ , A. B. Breier ¹ , J. Turkus ¹ , P. E. Ganey ^{1,2} , and R. A. Roth ^{1,2} . ¹ Department of Pharmacology and Toxicology, Michigan State University, East Lansing, MI; and ² Center for Integrative Toxicology, Michigan State University, East Lansing, MI.
#106	Poster Board Number 142 Berberine Alters Bile-Acid Homeostasis in Mouse Liver and Hepatocytes. Y. Le ¹ , P. Bu ¹ , Y. Zhang ² , C. D. Klaassen ² , and X. Cheng ¹ . ¹ Pharmaceutical Sciences, St. John's University, Queens, NY; and ² Pharmacology and Toxicology, University of Kansas Medical Center, Kansas City, KS.
#107	Poster Board Number 143 Fibrin(ogen) Engagement of $\alpha_{\text{M}}\beta_{\text{2}}$-Integrin Limits Chronic Liver Fibrosis Induced by a Bile Duct Toxicant in Mice. N. Joshi ^{1,3} , A. K. Kopec ² , K. L. Towery ² , H. Cline ² , M. J. Flick ⁴ , and J. P. Luyendyk ^{2,3} . ¹ Pharmacology & Toxicology, Michigan State University, East Lansing, MI; ² Pathobiology & Diagnostic Investigation, Michigan State University, East Lansing, MI; ³ Center for Integrative Toxicology, Michigan State University, East Lansing, MI; and ⁴ Div. of Experimental Hematology and Cancer Biology, Cincinnati Children's Hospital Medical Center, Cincinnati, OH.
#108	Poster Board Number 144 Hepatotoxic Effects of Lambda-Cyhalothrin in Rats. O. S. El-Tawil ¹ , Y. Abd-Elhakim ² , A. A. Abou-Hadeed ² , N. El-Sharkawy ² , and O. S. El-Tawil ^{1,2} . ¹ Toxicology Department, Cairo University, Faculty of Veterinary Medicine, Cairo, Egypt; and ² Forensic Medicine and Toxicology, Zagazig University, Faculty of Veterinary Medicine, Zagazig, Egypt.
#109	Poster Board Number 145 Kupffer Cell-Mediated Exacerbation of Methimazole-Induced Acute Liver Injury in Rats. S. Akai ¹ , Y. Uematsu ¹ , K. Tsuneyama ² , A. Nakajima ¹ , S. Oda ¹ , and T. Yokoi ¹ . ¹ Department of Drug Safety Sciences, Nagoya University Graduate School of Medicine, Nagoya, Japan; and ² Department of Diagnostic Pathology, Graduate School of Medicine and Pharmaceutical Science for Research, University of Toyama, Toyama, Japan.
#110	Poster Board Number 146 A 3D HepG2 Spheroid Toxicity Pathway Reporter Platform to Assess DILI Liability. S. Hiemstra ¹ , S. Ramaiahgari ¹ , S. Wink ¹ , L. Price ² , K. van den Nieuwendijk ¹ , and B. van de Water ¹ . ¹ Toxicology, LACDR, Leiden, Netherlands; and ² OcellO B.V., Leiden, Netherlands.
#111	Poster Board Number 147 Alterations of microRNA and Gene Expression in Rats Exposed to the Flame Retardant 1,2-Dibromo-4-(1,2-dibromoethyl)-cyclohexane (TBECH). I. Curran, A. M. Gannon, D. Pinke, V. Liston, D. Caldwell, A. Nunnikhoven, and G. Bondy. Bureau of Chemical Safety, Health Canada, Ottawa, ON, Canada.
#112	Poster Board Number 148 Acetaminophen Increases Hepatocyte Tissue Factor Procoagulant Activity In Vitro. A. Wojcicki ¹ , A. K. Kopec ¹ , N. Joshi ^{1,3} , H. Cline ¹ , and J. P. Luyendyk ^{1,3} . ¹ Pathobiology & Diagnostic Investigation, Michigan State University, East Lansing, MI; ² Pharmacology & Toxicology, Michigan State University, East Lansing, MI; and ³ Center for Integrative Toxicology, Michigan State University, East Lansing, MI.
#113	Poster Board Number 149 Involvement of the Thrombin Receptor Protease-Activated Receptor-1 (PAR-1) in TCDD-Elicited Steatohepatitis. J. P. Luyendyk ¹ , R. Nault ² , A. K. Kopec ² , K. A. Fader ² , and T. R. Zacharewski ² . ¹ Pathobiology and Diagnostic Investigation, Michigan State University, East Lansing, MI; and ² Biochemistry and Molecular Biology, Michigan State University, East Lansing, MI.

MONDAY

Program Schedule (Continued)

Abstract #	Abstract #
<p>#114 Poster Board Number 150 Role of Fibrin(ogen) in Hepatocyte Proliferation after Acetaminophen Overdose. A. K. Kopec¹, N. Joshi^{2,3}, K. L. Towery⁴, H. Cline¹, M. J. Flick¹, and J. P. Luyendyk^{1,3}. ¹Pathobiology & Diagnostic Investigation, Michigan State University, East Lansing, MI; ²Pharmacology & Toxicology, Michigan State University, East Lansing, MI; ³Center for Integrative Toxicology, Michigan State University, East Lansing, MI; and ⁴Division of Experimental Hematology & Cancer Biology, Cincinnati Children's Hospital, Cincinnati, OH.</p> <p>#115 Poster Board Number 151 Integration of Liver Gene Expression and Clinical Pathology Data Provides Insight into Bilirubin Alterations. C. M. Karbowski, S. Taylor, R. Tyler, M. Ameri, M. J. Horner, H. Hamadeh, C. Afshari, and P. Nioi. Comparative Biology & Safety Sciences, Amgen Inc, Thousand Oaks, CA.</p> <p>#116 Poster Board Number 152 Induction of Mitochondrial Biogenesis in Acetaminophen Hepatotoxicity and Possible Role in Liver Regeneration. K. Du¹, M. R. McGill¹, A. Mansouri², Y. Xie¹, and H. Jaeschke¹. ¹Pharmacology, Toxicology & Therapeutics, University of Kansas Medical Center, Kansas City, KS; and ²Centre de Recherche Biomédicale, Bichat Beaujon CRB3, University Paris, Paris, France.</p> <p>#117 Poster Board Number 153 RNA Sequencing Analysis of Primary Human Hepatocytes Exposed to PFOA or PFOS. K. Beggs¹, S. McGreal¹, S. Gunewardena², and U. Apte¹. ¹Pharmacology, Toxicology and Therapeutics, University of Kansas Medical Center, Kansas City, KS; and ²Molecular and Integrative Physiology, University of Kansas Medical Center, Kansas City, KS.</p> <p>#118 Poster Board Number 154 Delayed DNA Repair Induces Cell Cycle Checkpoints and Delays Liver Regeneration after Acetaminophen Overdose. P. Borude, B. Bhushan, M. Manely, and U. Apte. Pharmacology, Toxicology and Therapeutics, KUMC, Kansas City, KS.</p> <p>#119 Poster Board Number 155 Role of Annexin A1 and Calpastatin in Heteroprotection by Thioacetamide against a Lethal Dose of Acetaminophen in Mice. V. P. Dadhania¹, L. Muskhelishvili², J. R. Latendresse², and H. M. Mehendale¹. ¹Toxicology, University of Louisiana at Monroe, Monroe, LA; and ²Toxicologic Pathology Associates, National Center for Toxicological Research, Jefferson, AR.</p> <p>#120 Poster Board Number 156 Mechanistic Basis of Altered Morphine Disposition in Nonalcoholic Steatohepatitis. A. L. Dzierlenga¹, J. Clarke¹, T. L. Hargraves¹, G. R. Ainslie¹, T. Vanderah², M. Paine^{3,4}, and N. J. Cherrington¹. ¹Pharmacology & Toxicology, University of Arizona, Tucson, AZ; ²Pharmacology, University of Arizona, Tucson, AZ; ³Experimental & Systems Pharmacology, Washington State University, Pullman, WA; and ⁴Toxicology, University of North Carolina, Chapel Hill, NC.</p>	<p>#121 Poster Board Number 157 MiR21-Facilitated Cyclin D1 Protein Surge Is Crucial for Leptin-Mediated Fibrogenesis in Disinfection Byproduct (DBP)-Induced Hepatotoxicity. S. Pourhoseini¹, R. K. Seth¹, D. Dattaroy¹, S. Das¹, M. Nagarkatti², S. Chatterjee¹, F. Alhasson¹, G. Michelotti³, and A. Diehl³. ¹Environmental Health Sciences, University of South Carolina, Columbia, SC; ²Dept. of Pathology, Microbiology and Immunology, University of South Carolina, School of Medicine, Columbia, SC; and ³Division of Gastroenterology, Duke University, Durham, NC.</p> <p>#122 Poster Board Number 158 Mechanism of Environmental Toxin-Induced Fibrogenesis in Fatty Liver Disease. D. Dattaroy¹, S. Pourhoseini¹, S. Das¹, F. Alhasson¹, R. K. Seth¹, M. Nagarkatti², G. Michelotti³, A. Diehl³, and S. Chatterjee¹. ¹Environmental Health Sciences, University of South Carolina, Columbia, SC; ²Dept. of Pathology, Microbiology and Immunology, School of Medicine, University of South Carolina, Columbia, SC; and ³Division of Gastroenterology, Duke University, Durham, SC.</p> <p>#123 Poster Board Number 159 Effect of Nonalcoholic Steatohepatitis on Renal Filtration and Secretion of Adefovir. T. Laho², J. Clarke¹, H. Li¹, A. L. Dzierlenga¹, and N. J. Cherrington¹. ¹Department of Pharmacology and Toxicology, University of Arizona, Tucson, AZ; and ²Department of Pharmacology, Charles University, Hradec Kralove, Czech Republic.</p> <p>#124 Poster Board Number 160 Alteration of the Rho-Kinase Pathway Activity Disorganizes Bile Canaliculi Dynamics and Perturbs Bile Acid Clearance in Drug-Induced Cholestasis. A. Sharanek¹, A. Burban¹, M. Burbank¹, R. Le Guevel^{1,2}, C. Chesne³, A. Guillouzo¹, and C. Guguen-Guillouzo^{1,3}. ¹INSERM 991, Rennes University, Rennes, France; ²ImpaCcell, Rennes, France; and ³Biopredic International, Saint-Grégoire, France. Sponsor: M. Pallardy.</p> <p>#125 Poster Board Number 161 Mechanistic Insight into Vinyl Chloride-Induced Liver Injury. A. M. Bushau, L. Anders, A. Lang, L. G. Poole, K. C. Falkner, G. E. Arteel, M. Cave, C. McClain, and J. Beier. University of Louisville, Louisville, KY.</p> <p>#126 Poster Board Number 162 Interpreting Elevations in Serum Cytokeratin 18 and Alanine Aminotransferase with DILISym[®], a Mechanistic Model of DILI. J. L. Woodhead, L. Shoda, D. Longo, P. B. Watkins, S. Q. Siler, and B. A. Howell. The Hamner-UNC Institute for Drug Safety Sciences, Research Triangle Park, NC.</p> <p>#127 Poster Board Number 163 Gene Expression Patterns Associated with Histopathology in Toxic Liver Injury. D. L. Ippolito¹, M. AbdulHameed², G. Tawa³, C. E. Baer³, B. S. Snowden⁴, A. Wallqvist³, and J. D. Stallings¹. ¹Environmental Health, US Army Center for Environmental Health Research, Fort Detrick, MD; ²Department of Defense, Biotechnology High Performance Computing Software Applications Institute, Fort Detrick, MD; ³Excet, Inc., Frederick, MD; and ⁴Maryland Institute for Applied Environmental Health, University of Maryland, College Park, MD. Sponsor: D. Jackson.</p>

MONDAY

Program Schedule (Continued)

Abstract

- #128 **Poster Board Number 164**
Cytotoxicity of 3-(3,5-Dichlorophenyl)-2,4-thiazolidinedione (DCPT) and Its Metabolites in Different Cell Lines. S. Aljbran, R. Tchao, and P. J. Harvison. Dept. of Pharmaceutical Sciences, University of the Sciences in Philadelphia, Philadelphia, PA.
- #129 **Poster Board Number 165**
Exposure to Vinyl Chloride Metabolites Exacerbates Liver Injury Caused by High-Fat Diet in Mice. L. Anders, A. Douglas, A. M. Bushau, A. Lang, K. C. Falkner, G. E. Arteel, M. Cave, C. McClain, and J. Beier. University of Louisville, Louisville, KY.
- #130 **Poster Board Number 166**
Hepatotoxicity and Metabolism of Vinclozolin during Pregnancy. F. G. Garcia-Montes de Oca¹, M. L. Lopez-Gonzalez¹, M. G. Moreno², P. Muriel², S. Galindo-Gomez³, M. Shibayama³, V. Tsutsumi³, and A. Sierra-Santoyo¹. ¹Toxicology, CINVESTAV-IPN, Mexico City, Mexico; ²Pharmacology, CINVESTAV-IPN, Mexico City, Mexico; and ³Infectomics and Molecular Pathogenesis, CINVESTAV-IPN, Mexico City, Mexico.
- #131 **Poster Board Number 167**
Resveratrol Protects against Acetaminophen Hepatotoxicity by Inducing Stress Genes and Inhibiting Release of Apoptosis-Inducing Factor (AIF) from Mitochondria. M. R. McGill, K. Du, Y. Xie, M. Bajt, and H. Jaeschke. Pharmacology, Toxicology, and Therapeutics, University of Kansas Medical Center, Kansas City, KS.
- #132 **Poster Board Number 168**
In Vitro Assessment of Primary Hepatocyte-Derived Exosomes and Their Role in Drug-Induced Liver Injury. N. S. Holman^{1,2}, M. Mosedale², E. LeCluyse^{1,2}, and P. B. Watkins^{1,2}. ¹University of North Carolina at Chapel Hill, Chapel Hill, NC; and ²The Hamner Institutes for Health Sciences, Research Triangle Park, NC.
- #133 **Poster Board Number 169**
Establishment and Characterization of HepaRG Cell Line Over-Expressing Human Flavin-Containing Monooxygenase-3 (FMO3). S. Rudraiah, W. Krueger, T. P. Rasmussen, and J. E. Manautou. Univ. of Connecticut, Storrs, CT.
- #134 **Poster Board Number 170**
Role of Integrin-Linked Kinase (ILK) in Liver Injury and Regeneration after Acetaminophen Overdose. B. Bhushan, G. Edwards, and U. Apte. Department of Pharmacology, Toxicology, and Therapeutics, University of Kansas Medical Center, Kansas City, KS.
- #135 **Poster Board Number 171**
Liver Kupffer Cells Contribute to Early Circulating Chemokine Production after Proinflammatory Antisense Oligonucleotide Administration in Mouse. T. Machemer, J. Hsiao, P. Cauntley, S. Paz, T. Yun, A. Soriano, M. Katz, D. Gao, F. Bennett, S. Henry, and S. Burel. ISIS Pharmaceuticals, Inc., Carlsbad, CA.

Abstract

- #136 **Poster Board Number 172**
HGF Induces a Protective Effect in Rifampicin- and Isoniazid-Induced Liver Injury. O. Bello Monroy¹, B. Ramos Robles², J. Barrios Payan², C. Enriquez Cortina¹, R. U. Miranda¹, L. Bucio¹, V. Souza¹, R. Hernandez Pando², L. Gomez-Quiroz¹, and M. C. Gutierrez Ruiz¹. ¹Health Science, Universidad Autonoma Metropolitana-Iztapalapa, Mexico City, Mexico; and ²Experimental Pathology, Instituto Nacional de Ciencias Medicas y Nutricion Salvador Zubiran, Mexico City, Mexico.

Monday Morning, March 23
9:30 AM to 12:30 PM
CC Exhibit Hall

Poster Session: Inflammation in Disease

Advancing Clinical and Translational Toxicology

Chairperson(s): Andrij Holian, CEHS, University of Montana, Missoula, MT.

Displayed: 9:30 AM–12:30 PM

Author-Attended: 11:00 AM–12:30 PM

- #137 **Poster Board Number 201**
Temporal Dynamics of Classical and Alternative Activation of Cyanobacterium *Oscillatoria* sp. Lipopolysaccharide (LPS)-Treated Rat Brain Microglia. I. Baseer¹, M. E. Luce¹, M. L. Hall¹, P. Williams², and A. M. Mayer¹. ¹Pharmacology, Midwestern University, Downers Grove, IL; and ²Chemistry and Biochemistry, University of Hawaii at Manoa, Honolulu, HI.
- #138 **Poster Board Number 202**
Autophagy Regulates NLRP3 Inflammasome Activity following Silica Exposure. F. Jessop, E. Cole, and A. Holian. Center for Environmental Health Sciences, University of Montana, Missoula, MT.
- #139 **Poster Board Number 203**
Epigenetic Regulation of Proinflammatory Cytokines in Peripheral Blood Mononuclear Cells from Patients with Post-Traumatic Stress Disorder. M. Bam¹, X. Yang¹, J. Zhou^{2,1}, P. S. Nagarkatti³, and M. Nagarkatti¹. ¹PMI, USC SOM, Columbia, SC; and ²WJB Dorn VA Medical Center, Columbia, SC.
- #140 **Poster Board Number 204**
GLP-1 Mimetics/DPP-4 Inhibitors: A New Role in Obesity-Associated Inflammation and Cholesterol Homeostasis. A. M. Mostafa^{1,2}, N. M. Hamdy², H. O. El-Mesallamy², and S. Abdel-Rahman¹. ¹OB/GYN, University of Texas Medical Branch (UTMB), Galveston, TX; and ²Biochemistry, Faculty of Pharmacy, Ain-Shams University, Cairo, Egypt.
- #141 **Poster Board Number 205**
Mice Lacking MALT-1 Protease Activity Exhibit Widespread Multiorgan Pathology and Differential Activation of Adaptive and Innate Immune System. A. Roy¹, G. H. Cantor¹, B. Gemzik¹, J. Dinchuck², J. Burke², J. Carman², and L. D. Lehman-McKeeman¹. ¹Discovery Toxicology, Bristol-Myers Squibb Co., Princeton, NJ; and ²Immunoscience Discovery Biology, Bristol-Myers Squibb Co., Princeton, NJ.

Program Schedule (Continued)

Abstract

- #142 **Poster Board Number206**
Upregulated Interleukin-6 Expression
Contributes to Erlotinib Resistance in Head and
Neck Squamous Cell Carcinoma. A. Stanam^{1,2},
 L. Love-Homan³, T. S. Joseph³, and A. L. Simons^{1,2,4}.
¹Interdisciplinary Human Toxicology Program, The
 University of Iowa, Iowa City, IA; ²Pathology, The
 University of Iowa, Iowa City, IA; ³Lincoln University
 of the Commonwealth of Pennsylvania, Lincoln,
 PA; and ⁴Roy J. and Lucille A. Carver College of
 Medicine, The University of Iowa, Iowa City, IA.
- #143 **Poster Board Number207**
Activating Transcription Factor 3-Mediated
Chemo-Intervention with Proinflammatory
Signals in Colon Cancer Cells under Mucosal
ER Stress. S. Park, and Y. Moon. Laboratory of
 Mucosal Exposome and Biomodulation, Department
 of Biomedical Sciences, Immunoregulatory
 Therapeutics Group in Brain Busan 21 Project, Pusan
 National University School of Medicine and Medical
 Research Institute, Yongsan, Republic of Korea.
- #144 **Poster Board Number208**
Resveratrol Protects Mice from Experimental
Multiple Sclerosis via Regulation of the
miR-124/Sphingosine Kinase 1 (SK1) Axis
in Encephalitogenic T Cells. K. Gandy¹, M.
 Nagarkatti^{1,2}, and P. S. Nagarkatti¹. ¹Path, Micro &
 Immuno, USC School of Med, Columbia, SC; and
²WJB Dorn VA Medical Center, Columbia, SC.
- #145 **Poster Board Number209**
Characterization of AhR+ T Cell Responses
during Experimental Autoimmune
Encephalomyelitis (EAE) Development in the
Absence of Pertussis Toxin. E. Yang, J. Stokes, and
 B. L. Kaplan. Department of Basic Sciences, Center
 for Environmental Health Sciences, Mississippi State
 University, Mississippi State, MS.
- #146 **Poster Board Number210**
Accelerating Inflammation Resolution to
Counteract Chemical Cutaneous and Pulmonary
Injury. S. Achanta¹, S. Balakrishna², N. Chintagari³,
 A. I. Caceres¹, Y. Zhihong⁴, S. Doran⁴, S. Matalon⁴,
 and S. E. Jordt^{1,2}. ¹Anesthesiology, Duke University
 School of Medicine, Durham, NC; ²Yale University,
 New Haven, CT; ³US Food and Drug Administration,
 Bethesda, MD; and ⁴University of Alabama,
 Birmingham, AL.
- #147 **Poster Board Number211**
M1 Polarization Bias and Subsequent Toxicity-
Induced NASH Progression Is Attenuated by
Nitric Oxide Donor DETA NONOate. R. K. Seth¹,
 S. Das¹, S. Pourhoseini¹, D. Dattaroy¹, S. Igwe², J.
 Basu Ray², D. Fan³, G. Michelotti⁴, A. Diehl⁴, and S.
 Chatterjee¹. ¹ENHS, University of South Carolina,
 Columbia, SC; ²STEM, Dillard University, New
 Orleans, LA; ³CBA, University of South Carolina
 School of Medicine, Columbia, SC; and ⁴Division of
 Gastroenterology, Duke University, Durham, NC.
- #148 **Poster Board Number212**
Redox Signaling-Induced TLR4 Activation Is
Crucial for Disinfection Byproduct (DBP)-
Mediated NASH Progression. S. Das¹, R. K.
 Seth¹, S. Pourhoseini¹, D. Dattaroy¹, F. Alhasson¹,
 M. Nagarkatti², G. Michelotti³, A. Diehl³, and S.
 Chatterjee¹. ¹ENHS, USC, Columbia, SC; ²PMI, USC,
 Columbia, SC; and ³Duke University, Durham, NC.

Abstract

- #149 **Poster Board Number213**
The Anti-Inflammatory Activity of Novel
Peptides: Effect on Experimental Autoimmune
Encephalitis. U. Wormser¹, B. Brodsky¹, Y.
 Finkelstein², E. Proscura¹, and E. Shapira¹. ¹The
 Hebrew University, Jerusalem, Israel; and ²Shaare
 Zedek Medical Center, Jerusalem, Israel.
- #150 **Poster Board Number214**
Blocking CB1 Cannabinoid Receptors
Induces Unique microRNA Profile Leading to
Suppression of Inflammation in Adipose Tissue
and Weight Loss in Diet-Induced Obesity. P.
 Mehrpouya¹, P. S. Nagarkatti¹, and M. Nagarkatti^{1,2}.
¹Department of Pathology, Microbiology, and
 Immunology, University of South Carolina School of
 Medicine, Columbia, SC; and ²WJB Dorn VA Medical
 Center, Columbia, SC.

Monday Morning, March 23
9:30 AM to 12:30 PM
CC Exhibit Hall

Poster Session: Inflammation: Methods and Mechanisms

Advancing Clinical and Translational Toxicology

Chairperson(s): Barbara L. Kaplan, Department of Basic Sciences, Center
 for Environmental Health Sciences, Mississippi State University, Mississippi
 State, MS.

Displayed: 9:30 AM–12:30 PM

Author-Attended: 9:30 AM–11:00 AM

- #151 **Poster Board Number215**
LPS Suppresses Spleen Serine Hydrolase Activity
and 2-Arachidonylglycerol (2-AG) Hydrolysis: A
Possible Mechanism to Regulate Inflammation.
 B. L. Kaplan, B. Szafran, S. Borzajani, J. Lee, and M.
 K. Ross. Department of Basic Sciences, Center for
 Environmental Health Sciences, Mississippi State
 University, Mississippi State, MS.
- #152 **Poster Board Number216**
DHA-Mediated Increases in ARE Transcription
Are Not Associated with Nrf-2 Activation in Lung
Epithelial Cells. L. Rogers, K. M. Heyob, C. Hill,
 and N. Jindal. The Research Institute at Nationwide
 Children's Hospital, Columbus, OH.
- #153 **Poster Board Number217**
NF-κB in Airway Epithelia Protects against
Hyperoxia-Induced Inflammatory Lung Injury.
 M. Zur¹, T. Entezarizaher², Y. Janssen-Heininger³,
 M. Javdan^{1,2}, D. M. Morrow³, A. Brown³, M. E.
 Poynter¹, J. F. Alcorn², S. Gangiseti^{1,2}, H. Wang^{1,2},
 and L. Mantell^{1,2}. ¹PHS, St. John's University, Queens,
 NY; ²Feinstein Institute for Medical Research, North
 Shore-LIJ, Manhasset, NY; and ³Dept. of Pathology,
 University of Vermont, Burlington, VT.
- #154 **Poster Board Number218**
Loss of TNF Signaling Confers Neuroprotection
in Knockout Mice following Soman-Induced
Seizure. E. A. Johnson¹, J. F. Irwin¹, M. Guignet¹, K.
 Laitipaya¹, T. M. Ferrara-Bowens¹, M. Wegner², and J.
 H. McDonough¹. ¹Research, USAMRICD, Aberdeen
 Proving Ground, MD; and ²Research Support,
 USAMRICD, Aberdeen Proving Ground, MD.

MONDAY

Program Schedule (Continued)

Abstract #	Abstract #
#155	#164
Poster Board Number219 IL-1 Signaling Exacerbates Brain Injury following Seizurogenic Exposure to the Nerve Agent Soman (GD) in Mice. T. M. Ferrara-Bowens ¹ , M. Guignet ¹ , J. F. Irwin ¹ , K. Laitipaya ¹ , J. Chandler ¹ , E. A. Johnson ¹ , and M. Wegner ² . ¹ Army, USAMRICD Research Division, Gunpowder, MD; and ² Army, USAMRICD Research Support Division, Gunpowder, MD. Sponsor: <i>J. McDonough</i> .	Poster Board Number228 Immunization Study of Keyhole Limpet Hemocyanin or Tetanus Toxoid in Cynomolgus Monkeys for Ex Vivo T-Lymphocyte Stimulation. R. A. Young ¹ , L. A. Iciek ² , S. Scott ² , M. Reed ² , D. E. Wilkins ¹ , J. N. Tichenor ¹ , J. K. Meyer ¹ , and C. M. Satterwhite ¹ . ¹ Laboratory Sciences, Charles River Laboratories, Preclinical Services, Reno, NV; and ² Toxicology, Medimmune, Gaithersburg, MD.
#156	#165
Poster Board Number220 Assessing the Inflammatory Properties As Well As Tolerability and Potency of Gal-NAc Conjugated ASOs in Mice. J. Hsiao, N. Allen, A. Soriano, P. Cauntley, T. Machemer, S. Paz, T. P. Prakash, P. Seth, S. Henry, and S. Burel. ISIS Pharmaceuticals, Inc., Carlsbad, CA.	Poster Board Number229 A Comparison of Capillary Microsampling and Traditional Blood Sampling for the Evaluation of Bioanalysis and Immunogenicity of Humira® in Sprague-Dawley Rats. K. Colletti ¹ , K. Malone ¹ , A. Kuhn ¹ , K. York ¹ , T. Sangster ³ , V. Vexler ² , and C. M. Satterwhite ¹ . ¹ Laboratory Sciences, Charles River Laboratories, Preclinical Services, Reno, NV; ² Coherus Biosciences, Inc., Redwood, CA; and ³ Laboratory Sciences, Charles River Preclinical Services, Tranent, Edinburgh, United Kingdom.
#157	#166
Poster Board Number221 In Vivo and In Vitro Comparison of Mild to Moderate Proinflammatory ASOs:TLR9-Dependent and -Independent Classification of Non-CpG Oligos. S. Paz, J. Hsiao, L. Bai, P. Cauntley, T. Machemer, F. Bennett, S. P. Henry, S. Burel, and T. Yun. Isis Pharmaceuticals, Carlsbad, CA.	Poster Board Number230 Rodent TDAR: Comparison of In Vivo T Cell-Dependent Antibody Responses to KLH between Strains (Mice and Rats). C. Dumont ¹ , T. Arulanandam ² , T. Ragavan ¹ , and M. Christin-Piché ¹ . ¹ Immunology, Charles River Laboratories, Senneville, QC, Canada; and ² Regeneron Pharmaceuticals, Tarrytown, NY. Sponsor: <i>M. Vezina</i> .
#158	#167
Poster Board Number222 Advanced Prediction of Sensitization Potency of Chemicals: THP-1 in Coculture with HaCaT Keratinocytes. J. Hennen, and B. M. Blomeke. Department of Environmental Toxicology, Trier University, Trier, Germany.	Poster Board Number231 Assessment of Keyhole Limpet Hemocyanin-Specific T Cell-Dependent Antibody Responses in Beagle Dogs. B. Wang ¹ , M. P. Bernard ¹ , A. Wei ³ , C. Gleason ² , H. G. Haggerty ¹ , and W. J. Freebern ¹ . ¹ Immunotoxicology, Bristol-Myers Squibb, New Brunswick, NJ; ² Global Biometric Sciences, Bristol-Myers Squibb, Syracuse, NY; and ³ Rutgers University, New Brunswick, NJ.
#159	#168
Poster Board Number223 Optimization of the THP-1 Activation Assay to Detect Pharmaceuticals with Potential to Cause Immune-Mediated Drug Reactions. D. Corti, V. Galbiati, M. Marinovich, C. L. Galli, and E. Corsini. DiSFeB, Università degli Studi di Milano, Milan, Italy.	Poster Board Number232 In Vitro Whole Blood Assay in Preclinical Safety: Correlation with IRR in Clinics. C. Ploix, A. Iglesias, T. Weiser, and T. Singer. Roche Pharma Research and Early Development, Pharmaceutical Sciences, Roche Innovation Center, Basel, Switzerland.
#160	#169
Poster Board Number224 Untargeted Metabolomic Study by LC-QTOF/MS for the Evaluation of Effects of 12-Diindolymethane on RAW 264.7 Murine Macrophages. J. Berkgigler, W. Hanneman, and G. Dooley. Colorado State University, Fort Collins, CO.	Poster Board Number233 Macrophage Fusion into Multinucleated Giant Cells In Vitro. K. L. Trout, C. T. Migliaccio, and A. Holian. Center for Environmental Health Sciences, University of Montana, Missoula, MT.
#161	#170
Poster Board Number225 Regulation of Ozone-Induced Lung Inflammation by Galectin-3, a β-Galactoside-Binding Lectin. V. R. Sunil ¹ , M. Francis ¹ , K. Vayas ¹ , J. A. Cervelli ¹ , H. Choi ¹ , J. D. Laskin ² , and D. L. Laskin ¹ . ¹ Rutgers University, Piscataway, NJ; and ² Robert Wood Johnson Medical School, Piscataway, NJ.	Poster Board Number234 A Comparison of Cell-Counting Methods in Rodent Pulmonary Inhalation Toxicity Studies. P. C. Zeidler-Erdely, A. Erdely, T. G. Meighan, S. Young, T. Hulderman, and J. M. Antonini. HELD, NIOSH, Morgantown, WV.
#162	#171
Poster Board Number226 TNF Receptor 2 Deficiency Disrupts CD4 T Cell Differentiation in an Experimental Adoptive Transfer of CD4+ CD45Rbhigh T Cell Model of Colitis. B. J. Barron, and S. C. McKarns. Center for Cellular and Molecular Immunology, Departments of Surgery and Molecular Microbiology and Immunology, University of Missouri School of Medicine, Columbia, MO.	Poster Board Number235 Development of a Flow Cytometry-Based Method to Measure Neutrophil Activation in the Cynomolgus Monkey. K. Troth, A. Head, C. Cooper, A. Iqbal, and S. A. Kirk. Covance Laboratories Ltd, Harrogate, United Kingdom.
#163	
Poster Board Number227 Membrane-Bound, but Not Soluble, TNF Regulates Interleukin-2 Promoter Activity in a CD4 T Cell Autonomous Manner. Z. L. Durham, and S. C. McKarns. Center for Cellular and Molecular Immunology, Departments of Surgery and Molecular Microbiology and Immunology, University of Missouri School of Medicine, Columbia, MO.	

MONDAY

Program Schedule (Continued)

Abstract #	Abstract #
#172	Poster Board Number236 Comparing the Sensitivity of the T-Dependent Antibody Response (TDAR) to Cyclosporin A (CsA). H. Hu ¹ , G. Ferency ¹ , J. Puchalski ¹ , J. Olsen ¹ , R. Caldwell ² , and M. P. Holsapple ¹ . ¹ Safety Assessment, Covance, Madison, WI; and ² Abbvie, North Chicago, IL.
#173	Poster Board Number237 Optimization of an <i>In Vitro</i> Method for Stimulation of Cynomolgus Monkey T Cells Using Anti-CD3 and Anti-CD28 Antibodies. G. Ferency, J. Puchalski, P. Sims, P. Brewer, and H. Hu. Covance Laboratories Inc., Madison, WI.
#174	Poster Board Number238 Fatty Acid Amide Hydrolase (FAAH) Blockade Ameliorates Experimental Colitis by Mediating microRNAs and Attenuating T Cell Activation. U. P. Singh ^{1,2} , H. Shamran ¹ , N. P. Singh ¹ , R. L. Price ¹ , M. Nagarkatti ¹ , and P. S. Nagarkatti ¹ . ¹ Pathology, Microbiology and Immunology, University of South Carolina, Columbia, SC; and ² Cell Biology and Anatomy, University of South Carolina, Columbia, SC.
<p>Monday Morning, March 23 9:30 AM to 12:30 PM CC Exhibit Hall</p> <div style="text-align: center;">  </div> <p>Poster Session: Nonpharmaceutical Safety Assessment</p> <p>Chairperson(s): John H. Lauterbach, Lauterbach & Associates, LLC, Macon, GA; and Binu K. Philip, Drug Safety Evaluation, Bristol-Myers Squibb, Mt. Vernon, IN.</p> <p>Displayed: 9:30 AM–12:30 PM</p> <p>Author-Attended: 11:00 AM–12:30 PM</p>	
#175	Poster Board Number239 Estimation of Sibutramine and Phenolphthalein in Slimming Products Available in UAE. E. Alabdooli ¹ , A. K. Agarwal ² , V. Chandrasekaran ³ , and P. J. Shetty ⁴ . ¹ Dubai Police Head Quarter Criminal Laboratory, Dubai, United Arab Emirates; ² Pharmacology, Gulf Medical University, Ajman, United Arab Emirates; ³ Toxicology, Gulf Medical University, Ajman, United Arab Emirates; and ⁴ Cytogenetics, Gulf Medical University, Ajman, United Arab Emirates. Sponsor: S. Devi.
#176	Poster Board Number240 Differential Cytotoxicity of Freeze-Dried <i>Thalassia testudinum</i> in Normal and Transformed Human Cells. E. Estrada-Muñiz ¹ , I. Leyva Bahena ¹ , I. Rodeiro ² , and L. Vega ¹ . ¹ Toxicology, CINVESTAV, Mexico City, Mexico; and ² Biomedical Research, Center of Chemical Pharmacy, La Habana, Cuba.
#177	Poster Board Number241 Analytical and Hazard Characterization of a Gasoline-Range Hydrocarbon Fuel Manufactured from Plant-Based Sugars. F. A. Reitman ¹ , C. Eadsforth ¹ , P. Blommel ² , and L. Rice-Jackson ¹ . ¹ Health, Royal Dutch Shell, Houston, TX; and ² Technology Development, Virent, Madison, WI. Sponsor: D. Steup.
#178	Poster Board Number242 Exploring Tissue Distribution of GABAA Receptors to Support Understanding of Safety. S. M. Plummer ¹ , M. Beltran ¹ , M. Millar ² , R. Currie ² , and J. Wright ¹ . ¹ Micromatrices Associates Ltd, Dundee, United Kingdom; ² MRC Centre for Reproductive Health, Edinburgh, United Kingdom; and ³ Syngenta Ltd, Bracknell, United Kingdom.
#179	Poster Board Number243 Repeated Oral Toxicity of Butyl Methoxydibenzoylmethane (Avobenzone), a UV filter for 4 Weeks in Rats. K. Kim, Y. Lee, S. Ryu, J. Choi, and H. Jang. Pharmacy, Inje University, Gimhae, Republic of Korea.
#180	Poster Board Number244 Safety Evaluation of a Whey Protein Fraction Containing a Concentrated Amount of Naturally Occurring TGF-β2. R. Forster ¹ , M. Bourtourault ² , Y. Chung ³ , J. Silvano ¹ , G. Sire ¹ , F. Spezia ¹ , C. Puel ² , J. G. Descotes ⁴ , and T. Mikogami ² . ¹ CiToxLAB, Evreux, France; ² Armor Protéines, Saint-Brice-en-Coglès, France; ³ Nestlé Research Center, Lausanne, Switzerland; and ⁴ Lyon Poison Center, Lyon, France.
#181	Poster Board Number245 A Standardized Approach for <i>In Vivo</i> Photosafety Testing. T. van Huygevoort, J. Latour, K. Scase, and H. Emmen. Toxicology, WIL Research Europe B.V., Den Bosch, Netherlands.
#182	Poster Board Number246 Adaptation versus Adverse Cell Responses in Oxidative Stress: Role of Nrf2 and NF-κB. N. Mandyam ¹ , N. Rajeswara ¹ , K. Subramanian ¹ , G. Jain ² , A. White ³ , and P. L. Carmichael ³ . ¹ Strand Life Sciences, Bangalore, India; ² SEAC, Unilever, Bangalore, India; and ³ SEAC, Unilever, Colworth, United Kingdom.
#183	Poster Board Number247 Provisional Advisory Level (PAL) Development for Fentanyl Derivatives. C. S. Wood ¹ , E. E. McConnell ² , D. C. Dorman ³ , and F. Adeshina ⁴ . ¹ Oak Ridge National Laboratory, Oak Ridge, TN; ² ToxPath, Inc., Raleigh, NC; ³ North Carolina State University, Raleigh, NC; and ⁴ US Environmental Protection Agency, Washington, DC.
#184	Poster Board Number248 Detection of QTc Interval Prolongation Using Jacketed External Telemetry in Cynomolgus Monkeys: Influence of Animal Housing Conditions. J. Lu ¹ , G. Xing ¹ , M. Hu ¹ , M. Skinner ² , H. Yu ¹ , S. Wang ¹ , L. Zhao ¹ , W. Zheng ¹ , L. Gong ¹ , M. Li ¹ , and J. Ren ¹ . ¹ Center for Drug Safety Evaluation and Research, Shanghai Institute of Materia Medica, Chinese Academy of Sciences, Shanghai, China; and ² AstraZeneca R&D Alderley Park, Macclesfield, United Kingdom.
#185	Poster Board Number249 Derivation and Comparison of Occupational Exposure Limits (OELs) for Hydrocarbon Vapor Mixtures Emitted from Bakken and Non-Bakken Crude Oil. J. A. Harrill, S. Wnek, D. R. Cawthon, P. A. Nony, and J. A. Kind. Toxicology and Occupational Medicine, Center for Toxicology and Environmental Health (CTEH), North Little Rock, AR.

MONDAY

Program Schedule (Continued)

Abstract

- #186 **Poster Board Number250**
Estimation and Risk Assessment of Phthalate Esters in Commonly Available Perfumes in UAE. M. M. Atiq¹, R. Kuppusamy², and V. Chandrasekaran¹. ¹Toxicology, College of Graduate Studies, Gulf Medical University, Ajman; and ²College of Pharmacy, Gulf Medical University, Ajman, United Arab Emirates. Sponsor: S. Devi.
- #187 **Poster Board Number251**
Inhibition of Various Human Phosphatases by Different Microcystin Congeners. S. Altaner¹, J. Nitschke¹, G. Giménez-Papio^{1,5}, I. Zemskov², V. Wittmann², M. Fontanillo⁴, M. Köhn¹, and D. R. Dietrich¹. ¹Human & Environmental Toxicology, University of Konstanz, Konstanz, Germany; ²Department of Chemistry, University of Konstanz, Konstanz, Germany; ³Cawthron Institute, Nelson, New Zealand; ⁴European Molecular Biology Laboratory, Heidelberg, Germany; and ⁵Centre de Tecnologia Ambiental Alimentària i Toxicològica, Universitat Rovira i Virgili, Tarragona, Spain.
- #188 **Poster Board Number252**
Generation of Acetaldehyde and Other Carbonyl Compounds during Vaporization of Glycerol and Propylene Glycol during Puffing of a Popular Style of E-Cigarette. J. H. Lauterbach¹, and A. Spencer². ¹Lauterbach & Associates, LLC, Macon, GA; and ²Global Laboratory Services, Inc., Wilson, NC.
- #189 **Poster Board Number253**
Assessing ToxCast Phase II for Mitochondrial Liabilities Using a High-Throughput Spirometric Assay and Cheminformatics. L. P. Wills¹, G. C. Beeson^{1,2}, D. B. Hoover², R. Schnellmann², and C. Beeson^{1,2}. ¹MitoHealth Inc, Charleston, SC; and ²Department of Drug Discovery and Biomedical Sciences, MUSC, Charleston, SC.
- #190 **Poster Board Number254**
Distribution Spectrum of Paraoxonase (PON1) in Plasma and Lipoproteins of Rats Administered Hexane Extract of Marijuana. O. Ademuyiwa¹, R. N. Ugbaja¹, T. F. Akinhanmi², D. O. Babayemi¹, O. A. Dosumu¹, O. B. Onunkwor¹, A. D. Wusu³, O. O. Ogunrinola³, O. K. Afolabi⁴, S. O. Rotimi⁵, and E. O. Abam⁶. ¹Biochemistry, Federal University of Agriculture, Abeokuta, Nigeria; ²Chemistry, Federal University of Agriculture, Abeokuta, Nigeria; ³Biochemistry, Lagos State University, Lagos, Nigeria; ⁴Biochemistry, Ladoke Akintola University of Technology, Ogbomosho, Nigeria; ⁵Biological Sciences, Covenant University, Ota, Nigeria; and ⁶Chemical Sciences, Bells University of Technology, Ota, Nigeria.
- #191 **Poster Board Number255**
E-Cigarette Liquid Flavorings alter Airway Epithelial Cell Structure and Function. C. Sherwood^{1,2,3}, R. Lantz^{2,3,5}, and S. Boitano^{1,3,4}. ¹Arizona Respiratory Center, Arizona Health Sciences Center, Tucson, AZ; ²Southwest Environmental Health Sciences Center, University of Arizona, Tucson, AZ; ³Bio 5 Institute, University of Arizona, Tucson, AZ; ⁴Physiology, Arizona Health Sciences Center, Tucson, AZ; and ⁵Cellular and Molecular Medicine, Arizona Health Sciences Center, Tucson, AZ.

Abstract

- #192 **Poster Board Number256**
Initial Risk Assessment of β -Bromostyrene. A. Ono¹, K. Kobayashi¹, M. Matsumoto¹, M. Ema², T. Nishimura³, M. Hirata-Koizumi¹, and A. Hirose¹. ¹National Institute of Health Sciences, Tokyo, Japan; ²National Institute of Advanced Industrial Science and Technology, Tsukuba, Japan; and ³Teikyo Heisei University, Tokyo, Japan.
- #193 **Poster Board Number257**
Western Diet Accentuates Cellular Damage in Benzo(a)pyrene [B(a)P]-Induced Colon Cancer. K. Harris¹, S. R. Pulliam¹, M. S. Niaz¹, E. Okoro², Z. Guo², M. K. Washington³, S. E. Adunyah¹, and A. Ramesh¹. ¹Biochemistry & Cancer Biology, Meharry Medical College, Nashville, TN; ²Physiology, Meharry Medical College, Nashville, TN; and ³Pathology, Vanderbilt University, Nashville, TN.
- #194 **Poster Board Number258**
In Vitro Interactions of Jet Fuel Components with Red Blood Cells and Hemoglobin. J. Jacobsen¹, R. R. Chappleau², J. Frey², J. M. Gearhart², and C. A. Mauzy³. ¹48 MDSS/SGSL, RAF Lakenheath, United Kingdom; ²Henry M. Jackson Foundation, Wright-Patterson Air Force Base, OH; and ³RHDJ, Air Force Research Laboratory, Wright-Patterson Air Force Base, OH.
- #195 **Poster Board Number259**
Nasal Effects in a 28-Day Gavage Study Likely Attributable to the Gavage Technique. Z. Yin¹, R. Frame², and R. Valentine². ¹Haskell Global Centers, DuPont, Shanghai, China; and ²DuPont Haskell Global Centers, Newark, DE.

Monday Morning, March 23

9:30 AM to 12:30 PM

CC Exhibit Hall

Poster Session: Risk Assessment I

Strategies for Exposure and Risk Assessments

Chairperson(s): Jacqueline Patterson, Toxicology Excellence for Risk Assessment, Cincinnati, OH.

Displayed: 9:30 AM–12:30 PM

Author-Attended: 9:30 AM–11:00 AM

- #196 **Poster Board Number301**
Development of Oregon's Drinking Water Guideline Values for Four Cyanotoxins for Use during Harmful Algae Blooms. D. G. Farrer. Public Health Division, Oregon Health Authority, Portland, OR.
- #197 **Poster Board Number302**
Derivation of a Provisional Tolerable Intake for Intravenous Exposure to Silver Nanoparticles. R. Vinas¹, A. Nagy¹, P. Pradeep², S. J. Merrill¹, R. P. Brown¹, and P. L. Goering¹. ¹Center for Devices and Radiological Health, US FDA, Silver Spring, MD; and ²Dept. of Mathematics, Statistics, and Computer Science, Marquette Univ, Milwaukee, WI.
- #198 **Poster Board Number303**
Uncertainties in Selecting the Critical Effect for Toxicity Assessment of Tungstate. K. Salinas¹, P. McClure¹, K. Zaccaria¹, M. Odin¹, J. Kaiser², J. Zhao², and S. C. Wesselkamper². ¹SRG, Inc., East Syracuse, NY; and ²National Center for Environmental Assessment, US Environmental Protection Agency, Cincinnati, OH.

PS Poster Sessions

RI Regional Interest Session

R Roundtable Sessions

S Symposium Sessions

Thematic Sessions

W Workshop Sessions

Program Schedule (Continued)

Abstract #		Abstract #	
#199	Poster Board Number304 A State of the Science Copper Reference Dose for Soil Remediation. <i>J. D. Urban¹, C. M. Thompson², L. M. Plunkett³, C. S. Perry¹, and L. C. Haws¹.</i> ¹ ToxStrategies, Inc., Austin, TX; ² ToxStrategies, Inc., Houston, TX; and ³ Integrated Biostrategies, LLC, Houston, TX.	#209	Poster Board Number316 REACH Registrants Fail to Use Available Dermal Uptake Data in Their Derivation of Dermal DNELs. <i>L. Schenk^{1,2}, O. Brenner¹, M. Rauma¹, and G. Johanson¹.</i> ¹ Institute of Environmental Medicine, Karolinska Institutet, Stockholm, Sweden; and ² Department of Philosophy and History, KTH - Royal Institute of Technology, Stockholm, Sweden.
#200	Poster Board Number305 Inhalation Cancer Risk Assessment of Titanium Dioxide. <i>D. Proctor¹, M. Suh¹, C. M. Thompson², and G. Hixon³.</i> ¹ ToxStrategies, Inc., Orange County, CA; ² ToxStrategies, Inc, Katy, TX; and ³ ToxStrategies, Inc., Austin, TX.	#210	Poster Board Number317 Examination of Multiple Dose-Response Analysis Methods for Estimating Dermal Cancer Risks for PAH Mixtures. <i>D. B. Mayfield¹, L. R. Rhomberg², and M. A. Nascarella².</i> ¹ Gradient, Seattle, WA; and ² Gradient, Cambridge, MA.
#201	Poster Board Number306 Threshold of Toxicological Concern (TTC) for Anticancer Compounds. <i>B. Stanard^{1,2}, J. P. Bercu³, W. Hanneman¹, and M. E. Legare¹.</i> ¹ Environmental and Radiological Health Sciences, Colorado State University, Ft. Collins, CO; ² MedImmune, Gaithersburg, MD; and ³ Amgen, Inc., Thousand Oaks, CA.	#211	Poster Board Number318 Carcinogenic Risk from Dermal Exposure to Benzo[a]pyrene. <i>K. M. Newhouse, K. Hogan, L. Phillips, J. B. Strong, P. White, and V. J. Cogliano.</i> National Center for Environmental Assessment, Office of Research and Development, US Environmental Protection Agency, Washington, DC.
#202	Poster Board Number307 Use of Categorical Regression Modelling in the Health Assessment of Guanidine Compounds. <i>D. Petersen.</i> DAAP, University of Cincinnati, Cincinnati, OH.	#212	Poster Board Number319 Testing the Validity of US EPA's Proposed Dermal Slope Factor for Benzo[a]pyrene: Genetic Alteration Signatures in Common Skin Cancers. <i>B. H. Magee, and N. Forsberg.</i> Risk Assessment, ARCADIS, Chelmsford, MA.
#203	Poster Board Number310 Provisional Advisory Levels (PALs) for Agent BZ and EA3167. <i>S. Milanez¹, C. Baird², L. D. Koller³, and F. Adeshina⁴.</i> ¹ Environmental Sciences Division, Oak Ridge National Laboratory, Oak Ridge, TN; ² US Army, Aberdeen Proving Ground, MD; ³ Environmental Health and Toxicology, Corvallis, OR; and ⁴ US EPA, Washington, DC.	#213	Poster Board Number320 Oral Risk Assessment and Acceptable Drinking Water Levels for the Commonly Used Polyvinyl Chloride Plasticizer Acetyl Tributyl Citrate. <i>J. C. English, and K. D. Cox.</i> NSF International, Ann Arbor, MI.
#204	Poster Board Number311 Provisional Advisory Level (PAL) Development for Chloroacetone. <i>C. Bast¹, P. McGinnis², M. McClanahan³, and F. Adeshina⁴.</i> ¹ Oak Ridge National Laboratory, Oak Ridge, TN; ² R.G. York & Associates, Syracuse, NY; ³ US Centers for Disease Control & Prevention, retired, Lilburn, GA; and ⁴ US EPA, Washington, DC.	#214	Poster Board Number321 Developmental Immunotoxicity and Oral Risk Assessment of 2,4-Dichlorophenol. <i>K. D. Cox, V. S. Bhat, and J. C. English.</i> NSF International, Ann Arbor, MI.
#205	Poster Board Number312 Reference Exposure Levels for Benzene. <i>J. Collins, D. Dodge, A. Salmon, D. Siegel, and M. A. Marty.</i> OEHHA, CalEPA, Sacramento, CA.	#215	Poster Board Number322 Transcriptomic Dose- and Time-Course Indicators of Early Key Events in a Cytotoxicity-Mediated Mode of Action for Rodent Urinary Bladder Tumorigenesis. <i>V. S. Bhat^{1,2}, S. D. Hester³, C. E. Wood³, M. L. C.S. de Oliveira⁴, J. V. Camargo⁵, and D. A. Eastmond¹.</i> ¹ Graduate Program in Environmental Toxicology, Univ of California, Riverside, CA; ² Toxicology Services, NSF International, Ann Arbor, MI; ³ ISTD/NHEERL, US EPA, Research Triangle Park, NC; and ⁴ TOXICAM, Botucatu Medical School UNESP, Univ Estadual Paulista, Botucatu, Brazil.
#206	Poster Board Number313 Evaluation of the Inhalation Minimal Risk Levels (MRLs) for Toluene. <i>P. McClure¹, K. Zaccaria¹, and R. L. Williams².</i> ¹ SRC, Inc., North Syracuse, NY; and ² Agency for Toxic Substances and Disease Registry, Atlanta, GA.	#216	Poster Board Number323 Molecular Thresholds for Early Key Events in Liver Tumorigenesis: Phthalate Case Study. <i>A. Lake^{1,2}, C. E. Wood³, V. S. Bhat³, G. Carswell², B. N. Chorley², J. Simmons², M. F. Hughes², C. A. McQueen², and S. D. Hester².</i> ¹ Oakridge Institute for Science and Education, US EPA, Research Triangle Park, NC; ² National Health and Environmental Effects Research Laboratory, US EPA, Durham, NC; and ³ NSF International, Ann Arbor, MI.
#207	Poster Board Number314 Oral Risk Assessment of m- and p-Cresols in Drinking Water. <i>B. Wang¹, K. Licko², and M. H. Whittaker¹.</i> ¹ ToxServices, Washington, DC; and ² Water Quality Association, Lisle, IL.		
#208	Poster Board Number315 No Significant Risk Level (NSRL) Derivation for Pulegone. <i>E. Golden¹, B. Wang¹, B. R. Stern², and M. H. Whittaker¹.</i> ¹ ToxServices LLC, Washington, DC; and ² BRStern and Associates, Annandale, VA.		

MONDAY

Program Schedule (Continued)

Abstract #		Abstract #	
#217	Poster Board Number326 Benchmark Dose Modeling for Development of an Oral Cancer Slope Factor for Diisonyl Phthalate (DINP) and Derivation of Oral and Dermal No Significant Risk Levels. N. V. Soucy, and R. Roy. Medical Department, 3M Company, St Paul, MN.	#226	Poster Board Number335 Adequacy of Available Data to Derive a Provisional Inhalation Toxicity Value for Carbonyl Sulfide. K. Zaccaria ¹ , P. McClure ¹ , M. Odin ¹ , J. C. Lipscomb ² , J. Zhao ² , and S. C. Wesselkamper ² . ¹ SRC, Inc., East Syracuse, NY; and ² National Center for Environmental Assessment, US Environmental Protection Agency, Cincinnati, OH.
#218	Poster Board Number327 Health Canada's Estimation of a Provisional Tolerable Daily Intake for Diethyl Phthalate. G. Barrett ¹ , L. Berndt-Weis ² , M. Patel ² , C. Sutton ¹ , P. Pelletier ¹ , V. Bergeron ² , H. Ryan ¹ , and J. D. Field ¹ . ¹ Consumer Product Safety Directorate, Health Canada, Ottawa, ON, Canada; and ² Safe Environments Directorate, Health Canada, Ottawa, ON, Canada. Sponsor: M. Khan.	#227	Poster Board Number336 Derivation of a No-Significant-Risk-Level (NSRL) for N,N-Dimethyl-p-Toluidine (DMPT). S. M. Ciotti ¹ , and M. H. Whittaker ² . ¹ ToxServices, LLC, Ann Arbor, MI; and ² ToxServices, LLC, Washington, DC.
#219	Poster Board Number328 MCHM Spill in the Elk River—Toxicology and Risk Assessment. J. Patterson ¹ , M. L. Dourson ¹ , J. Rosen ² , and A. Whelton ³ . ¹ Toxicology Excellence for Risk Assessment, Cincinnati, OH; ² Corona Environmental Consulting, Boston, MA; and ³ Purdue University, West Lafayette, IN.	#228	Poster Board Number337 Identification of Critical Effects for Derivation of Oral Minimal Risk Levels (MRLs) for Polybrominated Diphenyl Ethers (PBDE). M. Odin ¹ , K. Zaccaria ¹ , and H. Pohl ² . ¹ SRC, Inc., North Syracuse, NY; and ² ATSDR, Atlanta, GA.
#220	Poster Board Number329 Bayesian Evidence Integration of Quantitative High-Throughput Screening Data. I. L. Druwe ¹ , K. L. Painter ¹ , E. E. Yost ¹ , and L. D. Burgoon ² . ¹ Oak Ridge Institute for Science and Education, Research Triangle Park, NC; and ² US Environmental Protection Agency, Research Triangle Park, NC.	#229	Poster Board Number338 An Approach to Deriving Oral Minimal Risk Levels (MRLs) for PFOA and PFOS. L. Ingerman ¹ , G. L. Diamond ¹ , S. Chou ² , D. Jones ² , and P. Ruiz ² . ¹ SRC, Inc., North Syracuse, NY; and ² ATSDR, Atlanta, GA.
#221	Poster Board Number330 A State's Perspective: US EPA's Tetrachloroethylene (PCE) Inhalation Unit Risk (UR). S. J. Baird, C. Smith, and C. Rowan West. Office of Research and Standards, Massachusetts Department of Environmental Protection, Boston, MA.	#230	Poster Board Number339 Impacts of Updated Exposure Factor Handbook Values to Regional Screening Level (RSL) Website and Calculator. F. Dolislager ¹ , L. Galloway ¹ , D. J. Stewart ¹ , K. Tucker ³ , W. McGinn ² , and M. Burgess ⁴ . ¹ The University of Tennessee, Knoxville, TN; ² Oak Ridge National Laboratory, Oak Ridge, TN; ³ Ingenium Professional Services, Inc, Oak Ridge, TN; and ⁴ US Environmental Protection Agency, Washington, DC. Sponsor: C. Wood.
#222	Poster Board Number331 Risk Assessment and Public Health Goal for Trichloroethylene in Drinking Water. P. W. Wong, and E. M. Khan. Office of Environmental Health Hazard Assessment, California Environmental Protection Agency, Sacramento, CA.	#231	Poster Board Number342 Fall 2014 Review and Update of Drinking Water Standards and Health Advisories (DWSHA) Tables. D. J. Stewart ¹ , C. Bast ² , C. S. Wood ² , and S. S. Kueberuwa ³ . ¹ University of Tennessee, Knoxville, TN; ² Oak Ridge National Laboratory, Oak Ridge, TN; and ³ US Environmental Protection Agency, Washington, DC.
#223	Poster Board Number332 Derivation of Draft Noncancer Reference Exposure Levels for Ethylene Glycol Mono-N-Butyl Ether. J. Yang, D. Dodge, M. A. Marty, and D. Siegel. Office of Environmental Health Hazard Assessment, Cal/EPA, Oakland, CA.	#232	Poster Board Number343 Evaluating Epidemiological Data for Quantitative Risk Assessment. K. Mundt ¹ , R. Gentry ¹ , L. D. Dell ¹ , and H. J. Clewell ^{1,2} . ¹ ENVIRON, Amherst, MA; and ² The Hamner Institute for Health Sciences, Research Triangle Park, NC.
#224	Poster Board Number333 Mode of Action of the Effect of Trans Fatty Acids (TFAs) on LDL-Cholesterol and Implication for Dose Response. L. T. Haber ¹ , J. F. Reichard ¹ , M. J. Vincent ¹ , B. C. Allen ² , and M. L. Dourson ¹ . ¹ Toxicology Excellence for Risk Assessment, Cincinnati, OH; and ² BCA Associates, Chapel Hill, NC.	#233	Poster Board Number344 A Hierarchical Framework for the Selection and Development of Toxicity Criteria for the Evaluation of Potential Drinking Water Risks from Hydraulic Fracturing Fluids. A. Lewis, M. Seeley, D. M. Pizzurro, M. Sharma, and S. Flewelling. Gradient, Cambridge, MA.
#225	Poster Board Number334 Derivation of Inhalation Reference Values for Hexamethylenediamine Using an Exposure Model Based on the Dihydrochloride Salt. J. L. Myers, and R. L. Grant. Toxicology Division, Texas Commission on Environmental Quality, Austin, TX.	#234	Poster Board Number345 Concentration-Time Relationships for Short-Term Inhalation Exposures to Hazardous Chemicals. J. S. Snyder ^{1,2} , A. Prussia ¹ , and E. Demchuk ¹ . ¹ Division of Toxicology and Human Health Sciences, Agency for Toxic Substances and Disease Registry, Atlanta, GA; and ² Rollins School of Public Health, Emory University, Atlanta, GA. Sponsor: J. Wheeler.

MONDAY

Program Schedule (Continued)

Abstract #

Monday Morning, March 23
9:30 AM to 12:30 PM
CC Exhibit Hall

Poster Session: Alternatives to Mammalian Models I—Cardio, Neuro, Developmental

Chairperson(s): Xuefei Cao, DGMT, FDA/NCTR, Jefferson, AR; and Tamara L. Tal, Integrated Systems Toxicology Division, US EPA, Research Triangle Park, NC.

Displayed: 9:30 AM–12:30 PM

Author-Attended: 11:00 AM–12:30 PM

- #235 **Poster Board Number 401**
Novel Analysis Approach Based on Quantitative Evaluation for Drug-Induced Disruption of hERG Membrane Trafficking. N. Nishio, J. Deguchi, Y. Honda, and H. Funabashi. Preclinical Research Laboratories, Sumitomo Dainippon Pharma Co., Ltd., Osaka, Japan. Sponsor: *T. Yamada.*
- #236 **Poster Board Number 402**
Identification of Chemical Vascular Disruptors during Development Using an Integrative Predictive Toxicity Model, Zebrafish, and *In Vitro* Functional Angiogenesis Assays. T. L. Tal¹, C. Kilty², N. Kleinstreuer³, T. Toimela³, R. Sarkanen³, T. B. Knudsen⁵, B. Kennedy⁶, and S. Padilla¹. ¹ISTD, US EPA, Research Triangle Park, NC; ²University College Dublin, Dublin, Ireland; ³FICAM, University of Tampere, Tampere, Finland; ⁴ILS, Inc./NICEATM, Research Triangle Park, NC; and ⁵NCCT, US EPA, Research Triangle Park, NC.
- #237 **Poster Board Number 403**
Synthetic Hydrogel Arrays for Screening Vascular Disrupting Compounds. D. Belair¹, M. P. Schwartz¹, E. H. Nguyen¹, W. Daly¹, and W. L. Murphy^{1,2,3}. ¹Biomedical Engineering, University of Wisconsin-Madison, Madison, WI; ²Department of Orthopedics & Rehabilitation, University of Wisconsin-Madison, Madison, WI; and ³Materials Science Program, University of Wisconsin-Madison, Madison, WI. Sponsor: *T. Knudsen.*
- #238 **Poster Board Number 404**
Acute Inhalation Toxicity of Volatile Organic Compounds—Application of an Improved Cell-Based *In Vitro* Procedure. D. Ritter, E. Krakor, and J. Knebel. Fraunhofer ITEM, Hannover, Germany. Sponsor: *C. Dasenbrock.*
- #239 **Poster Board Number 405**
Characterization of Aerosolized Zinc Oxide Exposures to Lung Epithelial-Macrophage Cocultures at the Air-Liquid Interface (ALI) Using the NACIVT System. S. P. Ng, D. B. Warheit, T. A. Kegelman, and J. Yao. DuPont Haskell Global Centers for Health and Environmental Sciences, Newark, DE.
- #240 **Poster Board Number 406**
Targeted ‘Omics Analyses and Metabolic Enzyme Activity Assays Demonstrate Maintenance of Key Mucociliary Characteristics in Mucilair Cells Cultured for 6 Months. A. Baxter¹, S. Thain², L. E. Haswell¹, A. Banerjee¹, and E. F. Minet¹. ¹Bioassessment, British American Tobacco, Southampton, United Kingdom; and ²British American Tobacco, Cambridge, United Kingdom. Sponsor: *M. Clive.*

Abstract #

- #241 **Poster Board Number 407**
Prediction of Chemical Respiratory Sensitizers Using GARD, a Novel *In Vitro* Assay Based on a Genomic Biomarker Signature. A. Forreryd, H. Johansson, A. Albrekt, C. Borrebaeck, and M. Lindstedt. Department of Immunotechnology, Immunotechnology, Lund, Sweden.
- #242 **Poster Board Number 408**
Airway Epithelial Injury, Fibroblast Changes, and Cytokine/Chemokine Profiles Induced by Exposure of Human EpiAirway-FT Tissues to Diacetyl Vapors. W. M. Gwinn¹, G. Flake¹, R. W. Bousquet², and D. L. Morgan¹. ¹NTP Laboratory, NIEHS, Research Triangle Park, NC; and ²Alion Science and Technology Corp, Research Triangle Park, NC.
- #243 **Poster Board Number 409**
Differentiating between the Toxicities Produced by Two Cigarette Whole-Smoke Solutions in a Human Airway Tissue Model. H. Lin¹, L. Muskhelishvili², J. R. Latendresse², P. Richter^{3,4}, R. H. Heflich¹, and X. Cao¹. ¹DGMT, FDA/NCTR, Jefferson, AR; ²TPA, Jefferson, AR; ³CTP, Silver Spring, MD; and ⁴CDC, Atlanta, GA.
- #244 **Poster Board Number 410**
Abamectin Induces Rapid and Reversible Hypoactivity within Early Zebrafish Embryos. T. Raftery, and D. Volz. Environmental Health Sciences, University of South Carolina, Columbia, SC.
- #245 **Poster Board Number 411**
A Novel *In Vitro* Fluorescence-Based Assay for Sensitive Screening of Marine Neurotoxins in Seafood. J. Nicolas^{1,2}, P. Hendriksen², T. Bovee², and I. Rietjens¹. ¹Division of Toxicology, Wageningen UR, Wageningen, Netherlands; and ²RIKILT Institute of Food Safety, Wageningen, Netherlands.
- #246 **Poster Board Number 412**
Cytotoxicity Induced by Fipronil and Its Sulfone Metabolite in SH-SY5Y Cells. M. R. Martínez-Larrañaga, A. Anadon, M. A. Martínez, I. Ares, E. Ramos, V. Castellano, M. Martínez, and A. Romero. Department of Toxicology and Pharmacology, Faculty of Veterinary Medicine, Complutense University, Madrid, Spain.
- #247 **Poster Board Number 413**
Neurobehavioral and Biochemical Alterations in Lobster Cockroach *Nauphoeta cinerea* Exposed to Methylmercury. I. A. Adedara^{1,2,3}, D. B. Rosemberg¹, D. O. Souza², J. P. Kamdem¹, E. O. Farombi³, M. Aschner⁴, and J. B. Rocha¹. ¹Departamento de Bioquímica e Biología Molecular, CCNE, Universidade Federal de Santa Maria, Santa Maria, Brazil; ²Departamento de Bioquímica, Universidade Federal do Rio Grande do Sul, Porto Alegre, Brazil; ³Drug Metabolism and Toxicology Research Laboratories, Department of Biochemistry, University of Ibadan, Ibadan, Nigeria; and ⁴Department of Molecular Pharmacology, Albert Einstein College of Medicine, Bronx, NY.
- #248 **Poster Board Number 414**
Defeating the Animal: Alternative Systems for Neurotoxicity Testing. J. Sismanske¹, V. Hausherr¹, A. K. Krug², D. Fluri³, M. Leist², and C. van Thriel¹. ¹IfADo, Dortmund, Germany; ²University of Konstanz, Konstanz, Germany; and ³InSphero AG, Schlieren, Switzerland.

MONDAY

Program Schedule (Continued)

Abstract #

#249 **Poster Board Number415**
Bisphenol A Effects on *In Vitro* Human Neural Development Was Window of Susceptibility Dependent. X. Wu^{1,2}, A. Majumder³, and S. Stice^{1,2,3}.
¹Interdisciplinary Toxicology Program, University of Georgia, Athens, GA; ²Regenerative Bioscience Center, University of Georgia, Athens, GA; and ³ArunA Biomedical, Inc, Athens, GA.

#250 **Poster Board Number416**
Thirdhand Smoke Stresses Mitochondria in Mouse Neural Stem Cells: An Indicator of Possible Impairment of Brain Development in Response to THS Exposure. V. Bahl¹, K. Johnson¹, J. Hartzell¹, S. Schick², and P. Talbot¹. ¹Cell Biology and Neuroscience, University of California, Riverside, CA; and ²Department of Medicine, University of California, San Francisco, CA.

#251 **Poster Board Number417**
Screening of New Compounds That Alter Sleep-Wake State Alteration in Zebrafish. A. Muriana, A. Alzualde, and O. Holgado. BBD BioPhenix S.L., San Sebastian, Spain.

#252 **Poster Board Number418**
Triphenyl Phosphate-Induced Developmental Toxicity in Zebrafish: Potential Role of the Retinoic Acid Receptor. G. M. Isales, R. Hipszer, T. Raftery, and D. Volz. University of South Carolina, Columbia, SC.

#253 **Poster Board Number419**
The Comparative Study of Zebrafish Embryonic Toxicity Test and Mouse Embryonic Stem Cell Test to Screen Developmental Toxicity of Human Pharmaceutical Drugs. A. Inoue¹, Y. Nishimura², N. Matsumoto¹, N. Umemoto³, Y. Shimada², T. Maruyama¹, K. Kayasuga¹, M. Morihara¹, J. Katagi¹, T. Shiroya¹, Y. Hirota¹, S. Kim¹, and T. Tanaka². ¹ONO Pharmaceutical, Co, LTD., Osaka, Japan; and ²Department of Molecular and Cellular Pharmacology, Pharmacogenomics, and Pharmacoinformatics, Mie University Graduate School of Medicine, Mie, Japan.

#254 **Poster Board Number420**
Organophosphate Flame Retardants Affect Development and Neurotoxicity in Alternative Models. M. Behl¹, J. Hsieh¹, T. J. Shafer², W. Mundy², W. A. Boyd¹, J. H. Freedman¹, S. Hunter², K. A. Jarema², S. Padilla², and R. R. Tice¹. ¹Toxicology, NIH, Research Triangle Park, NC; and ²NHEERL, EPA, Research Triangle Park, NC.

#255 **Poster Board Number421**
Using the *Drosophila melanogaster* Genetic Reference Panel to Identify Toxicity Pathways for Toluene. P. J. Bushnell¹, T. Morozova², R. Judson³, S. D. Hester¹, W. M. Oshiro¹, J. M. McKee¹, M. A. Higuchi¹, K. R. Tatum-Gibbs¹, W. K. Boyes¹, D. M. Reif², and T. F. Mackay². ¹NHEERL/ORD, US EPA, Research Triangle Park, NC; ²Biological Sciences, NC State University, Raleigh, NC; and ³NCCT/ORD, US EPA, Research Triangle Park, NC.

#256 **Poster Board Number422**
Developmental Toxicity of Phase I and II ToxCast™ Chemicals to *Caenorhabditis elegans*. W. A. Boyd¹, M. Smith², C. A. Co², J. Pirone², J. R. Rice¹, and J. H. Freedman¹. ¹NIEHS, Research Triangle Park, NC; and ²Social & Scientific Systems, Durham, NC.

Abstract #

#257 **Poster Board Number423**
Comparative Effects of Brominated and Organophosphate Flame Retardants on *Caenorhabditis elegans* Feeding, Reproduction, and Growth. J. R. Rice¹, M. Behl¹, C. A. Co², M. Smith², J. H. Freedman¹, and W. A. Boyd¹. ¹NIEHS, Research Triangle Park, NC; and ²Social & Scientific Systems, Durham, NC.

#258 **Poster Board Number424**
Planarians As a New Platform for Developmental Neurotoxicology. D. N. Hagstrom¹, O. Cochet-Escartin², and E. S. Collins^{1,2}. ¹Biology, University of California, San Diego, La Jolla, CA; and ²Physics, University of California, San Diego, La Jolla, CA.

#259 **Poster Board Number425**
The Importance of Internal Exposure and Biodistribution for Interpretation of Effects in Zebrafish Embryos and Larvae. A. Wolterbeek, C. Snel, E. Verheij, S. Bosgra, A. Menke, and C. Krul. TNO, Zeist, Netherlands. Sponsor: R. Woutersen.

#260 **Poster Board Number426**
The Cannabinoid Agonist WIN 55,212-2 Inhibits Cephalic Regeneration in *Girardia tigrina*. R. Sneed¹, and E. Chen². ¹Sciences and Mathematics, University of the District of Columbia, Washington, DC; and ²Biological Sciences, University of Maryland, Baltimore County, Baltimore, MD.

#261 **Poster Board Number427**
Identification of Environmental Chemicals That Induce Yolk Malabsorption in Zebrafish Using Automated Image Segmentation. S. Kalasekar¹, E. Zacharia², N. Kessler², N. Ducharme¹, J. Gustafsson^{1,3}, I. A. Kakadiaris², and M. Bondesson¹. ¹Center for Nuclear Receptors and Cell Signaling, Department of Biology and Biochemistry, University of Houston, Houston, TX; ²Department of Computer Science, University of Houston, Houston, TX; and ³Department of Biosciences and Nutrition, Karolinska Institutet, Huddinge, Sweden. Sponsor: D. Zalko.

#262 **Poster Board Number428**
Phenotype Anchoring in Zebrafish Reveals an MMP-Dependent Mechanism for Tamoxifen-Induced Cell Death. S. M. Bugel, L. Wehmas, J. K. Ladu, and R. L. Tanguay. Environmental & Molecular Toxicology, Oregon State University, Corvallis, OR.

Monday Morning, March 23
 9:30 AM to 12:30 PM
 CC Exhibit Hall

Poster Session: Developmental Neurotoxicology—Nonmammalian Models

Chairperson(s): Edward D. Levin, Psychiatry, Duke University Medical Center, Durham, NC.

Displayed: 9:30 AM–12:30 PM

Author-Attended: 9:30 AM–11:00 AM

#263 **Poster Board Number431**
Using the Larval Zebrafish Locomotor Assay in Functional Neurotoxicity Screening: Light Brightness and the Order of Stimulus Presentation Affect the Outcome. K. A. Jarema, D. L. Hunter, and S. Padilla. NHEERL, US EPA, Research Triangle Park, NC. Sponsor: C. Gordon.

MONDAY

- PS** Poster Sessions
- RI** Regional Interest Session
- R** Roundtable Sessions
- S** Symposium Sessions
- T** Thematic Sessions
- W** Workshop Sessions

Program Schedule (Continued)

Abstract #

- #264 **Poster Board Number 432**
The Effects of Developmental Deltamethrin Exposure on Aggression in Adult Zebrafish. T. S. Kung¹, K. R. Cooper¹, J. R. Richardson², and L. A. White¹. ¹Biochemistry and Microbiology, Rutgers University, New Brunswick, NJ; and ²EOHHSI, Piscataway, NJ.
- #265 **Poster Board Number 433**
Development of a Zebrafish Model to Identify Adverse Outcome Pathways Linking Thyroid Hormone Disruption to Developmental Neurotoxicity. K. M. Walter¹, G. W. Miller¹, Y. Chang¹, K. A. Hayakawa¹, B. W. Draper², and P. Lein¹. ¹Molecular Biosciences, University of California-Davis School of Veterinary Medicine, Davis, CA; and ²Molecular and Cellular Biology, University of California-Davis, Davis, CA.
- #266 **Poster Board Number 434**
Effects of Bisphenol A (BPA) Exposure on Dopaminergic Gene Expression and Behavior in Zebrafish (*Danio rerio*). E. Isaac, T. S. Kung, and L. A. White. Biochemistry and Microbiology, Rutgers University, New Brunswick, NJ.
- #267 **Poster Board Number 435**
When Zebrafish “Misbehave”—Learning about Delayed Effects of Low-Level Embryonic Contaminant Exposure from Adult Zebrafish Behavior. L. Glazer^{1,2}, N. Aluru^{1,2}, and M. E. Hahn^{1,2}. ¹Biology, Woods Hole Oceanographic Institution, Woods Hole, MA; and ²Woods Hole Center for Oceans and Human Health, Woods Hole, MA.
- #268 **Poster Board Number 436**
Zebrafish As Biosensors: Advanced Morphological-Behavioral Testing Platform Reveals Neurodevelopmental Defects in Embryos and Larvae Exposed to Comprehensive Suite of Flame Retardant Chemicals. P. D. Noyes, D. E. Haggard, G. D. Gonnerman, and R. L. Tanguay. Environmental & Molecular Toxicology, Oregon State University, Corvallis, OR.
- #269 **Poster Board Number 437**
Characterizing the Neurobehavioral Effects of Exposure to the Flame Retardant Mixture Firemaster® 550 in Zebrafish: Subchronic Developmental and Acute Adult Exposures. J. Bailey, and E. D. Levin. Psychiatry, Duke University, Durham, NC.
- #270 **Poster Board Number 438**
Embryonic Exposure to Organophosphate Flame Retardants Causes Behavioral Effects in Zebrafish: A Comparison with Chlorpyrifos. A. N. Oliveri¹, and E. D. Levin². ¹Pharmacology and Cancer Biology, Duke University School of Medicine, Durham, NC; and ²Psychiatry and Behavioral Sciences, Duke University School of Medicine, Durham, NC.
- #271 **Poster Board Number 439**
Persisting Effects of a Flame Retardant Metabolite, 6-OH-BDE-47, on Larval and Juvenile Zebrafish Swimming Behavior. L. J. Macaulay¹, J. M. Bailey², E. D. Levin², and H. M. Stapleton¹. ¹Nicholas School of the Environment, Duke University, Durham, NC; and ²Department of Psychiatry, Duke University Medical Center, Duke University, Durham, NC.

Abstract #

- #272 **Poster Board Number 440**
The Antirheumatic Drug, Leflunomide, Interferes with the Dopamine Synthesis Pathway. E. Cook, A. Planchart, and C. J. Mattingly. Biological Sciences, NC State University, Raleigh, NC.
- #273 **Poster Board Number 441**
Developmental Neurotoxicity of Polybrominated Diphenyl Ether-47 in *Caenorhabditis elegans*. C. A. Dodd, E. J. Simon, and T. S. Johnson. Biology, Fort Valley State University, Fort Valley, GA.

Monday Morning, March 23
9:30 AM to 12:30 PM
CC Exhibit Hall

Poster Session: Developmental Neurotoxicology—In Vitro Screening

Chairperson(s): Timothy J. Shafer, Integrated Systems Toxicology, US Environmental Protection Agency, Research Triangle Park, NC.

Displayed: 9:30 AM–12:30 PM

Author-Attended: 11:00 AM–12:30 PM

- #274 **Poster Board Number 445**
Expression of Cytochrome P450 Isozymes in Primary Cortical Cultures from Rat Frontal Cortex. T. J. Shafer, E. Winkfield, G. Nelson, S. Simmons, B. N. Chorley, and W. Mundy. Integrated Systems Toxicology, US Environmental Protection Agency, Research Triangle Park, NC.
- #275 **Poster Board Number 446**
Screening for Developmental Neurotoxicants Using In Vitro “Brain on a Chip” Cultures. J. P. Brown, K. A. Wallace, D. Hall, W. Mundy, and T. J. Shafer. Integrated Systems Toxicology Division, US Environmental Protection Agency, Research Triangle Park, NC.
- #276 **Poster Board Number 447**
Novel Quantitative Methods for Characterization of Chemical-Induced Functional Alteration in Developing Neuronal Cultures. D. Hall¹, E. Cotterill², K. A. Wallace¹, J. P. Brown¹, S. Eglens², W. Mundy¹, and T. J. Shafer¹. ¹Integrated Systems Toxicology, US Environmental Protection Agency, Research Triangle Park, NC; and ²Cambridge University, Cambridge, United Kingdom.
- #277 **Poster Board Number 448**
Alteration of Network Activity in Cortical Neurons by Triadimefon. B. S. Lynch², C. M. Mack¹, and T. J. Shafer¹. ¹Integrated Systems Toxicology, US Environmental Protection Agency, Research Triangle Park, NC; and ²North Carolina Central University, Durham, NC.
- #278 **Poster Board Number 449**
A Multiplexed Assay for Determination of Neurotoxicant Effects on Spontaneous Network Activity and Cell Viability from Microelectrode Arrays. J. D. Strickland¹, K. A. Wallace², P. A. Valdivia¹, W. Mundy², and T. J. Shafer². ¹Axion Biosystems, Atlanta, GA; and ²Integrated Systems Toxicology, US Environmental Protection Agency, Research Triangle Park, NC.

MONDAY

Program Schedule (Continued)

Abstract #	Abstract #
<p>#279 Poster Board Number450 Mouse Pluripotent Stem Cell Motor Neurons Generate Robust Neural Network Activity on Microelectrode Arrays. S. Stice^{1,2}, A. Majumder¹, B. Culp¹, A. M. Nicolini³, and C. Arrowood³. ¹ArunA Biomedical, Inc., Athens, GA; ²Regenerative Bioscience Center, University of Georgia, Athens, GA; and ³Axon BioSystems, Atlanta, GA.</p>	<p>#285 Poster Board Number502 Immunomodulating Effects of Polyamidoamine Dendrimers Encapsulated Gold Nanodots in Human Macrophages THP-1. Y. Luo¹, Z. Wu¹, H. Tsai¹, S. Lin², and P. Lin^{1,3}. ¹Division of Environmental Health and Occupational Medicine, National Health Research Institutes, Zhunan, Taiwan; ²Institute of Biomedical Engineering and Nanomedicine, National Health Research Institutes, Zhunan, Taiwan; and ³National Environmental Health Research Center, National Health Research Institutes, Zhunan, Taiwan.</p>
<p>#280 Poster Board Number451 A High-Throughput MEA Assay Utilizing Rat Cortical Neurons Can Detect Both Glycine Receptor and GABAA Receptor Seizure Responses in Brucine. J. Bradley, C. Strack, and H. Luthardt. Cyprotex US, Watertown, MA.</p>	<p>#286 Poster Board Number503 Comparative In Vivo, Ex Vivo, and In Vitro Toxicity Studies of Engineered Nanomaterials. Y. Kim^{6,7}, E. H. Boykin², T. Stevens³, K. Lavrich¹, and I. Gilmour². ¹Curriculum in Toxicology, University of North Carolina, Chapel Hill, NC; ²NHEERL, US Environmental Protection Agency, Research Triangle Park, NC; and ³NCEA, US Environmental Protection Agency, Research Triangle Park, NC.</p>
<p>#281 Poster Board Number452 Acute Insecticide-Induced Changes in Electrical Activity of Primary Cortical Cultures: Multielectrode Array Data Collection and Analysis. M. M. Dingemans, F. Wijnolts, R. van Kleef, A. de Groot, and R. H. Westerink. Utrecht University, Institute for Risk Assessment Sciences, Utrecht, Netherlands.</p>	<p>#287 Poster Board Number504 Inhibition of Multixenobiotic Resistance (MXR) Transporters by Silver Nanoparticles and -ions In Vitro and In Vivo. A. Georgantzopoulou¹, S. Cambier¹, T. Serchi¹, A. Lankoff^{2,3}, M. Kruszewski^{2,3}, Y. L. Balachandran⁴, P. Grysan⁵, J. Audinot⁶, J. Ziebel¹, C. Guignard¹, A. C. Gutleb¹, and A. J. Murk^{6,7}. ¹EVA, Luxembourg Institute for Science and Technology, Belvaux, Luxembourg; ²Institute of Nuclear Chemistry and Technology, Centre for Radiobiology and Biological Dosimetry, Warszawa, Poland; ³Institute of Rural Health, Independent Laboratory of Molecular Biology, Lublin, Poland; ⁴Department of Biotechnology, Bharathiar University, Coimbatore, India; ⁵SAM, Luxembourg Institute for Science and Technology, Belvaux, Luxembourg; ⁶Sub-Department of Environmental Technology, Wageningen University, Wageningen, Netherlands; and ⁷Wageningen Institute for Marine Resources & Ecosystem Studies, IMARES, IJmuiden, Netherlands. Sponsor: B. Bloemeke.</p>
<p>#282 Poster Board Number453 Microengineered Peripheral "Nerve-on-a-Chip" toward Preclinical Testing. J. L. Curley^{1,4}, R. M. Huval¹, O. H. Miller², Y. Fan¹, M. J. Moore^{1,2,4}, and B. J. Hall^{2,3}. ¹Biomedical Engineering, Tulane University, New Orleans, LA; ²Neuroscience, Tulane University, New Orleans, LA; ³Cell and Molecular Biology, Tulane University, New Orleans, LA; and ⁴AxoSim Technologies LLC, New Orleans, LA.</p>	<p>#288 Poster Board Number505 Performance of a Direct Reading Instrument in Characterizing Nanoparticles. B. T. Chen, D. Schwegler-Berry, A. Cumpston, S. Stone, S. Friend, J. Cumpston, W. McKinney, M. J. Keane, and D. G. Frazer. NIOSH, Morgantown, WV. Sponsor: J. Antonini.</p>
<p>#283 Poster Board Number454 High-Throughput Neurite Outgrowth Screening for Developmental Neurotoxic Substances. J. Delp^{1,2}, S. Gutbier^{1,2}, and M. Leist¹. ¹Department of Biology, University of Konstanz, Konstanz, Germany; and ²Research Training Group 1331, University of Konstanz, Konstanz, Germany.</p>	<p>#289 Poster Board Number506 Silver Nanoparticles Toxicity and Effect on Gene Expression in Human Cells. K. Vig¹, P. M. Tiwari¹, E. Eroglu^{1,2}, and S. R. Singh¹. ¹Center for Nanobiotechnology Research, Alabama State University, Montgomery, AL; and ²Bioengineering Dept, Celal Bayar Univ, Muradiye, Manisa, Turkey. Sponsor: N. Singh.</p>
<p>#284 Poster Board Number501 Quantitative Structure-Activity Relationships to Predict Biological Effects of Engineered Nanoparticles on Macrophage Innate Immune Function. B. D. Thrall¹, D. Thomas¹, V. K. Kodali¹, S. J. Skerrett², C. F. Frevert², J. G. Pounds¹, and J. G. Teeguarden¹. ¹Cell Biology & Biochemistry, Pacific Northwest National Lab, Richland, WA; and ²University of Washington, Seattle, WA.</p>	<p>#290 Poster Board Number507 Potentiating Toxicological Interaction of Single-Walled Carbon Nanotubes with Dissolved Metals. M. A. Al-Shaeri^{1,2}, D. Ahmed¹, F. McCluskey¹, G. Turner¹, L. Paterson³, E. Dyrnynda¹, and M. Hartl¹. ¹School of Life Sciences, Heriot-Watt University, Edinburgh; ²Department of Biological Sciences, King Abdulaziz University, Jeddah, Saudi Arabia; and ³School of Engineering and Physical Sciences, Scottish Universities Physics Alliance, Institute of Biological Chemistry, Biophysics and Bioengineering, Heriot-Watt University, Edinburgh, United Kingdom.</p>

Monday Morning, March 23
 9:30 AM to 12:30 PM
 CC Exhibit Hall

Poster Session: Nanotoxicology, General, Environmental, Metals

Chairperson(s): Brian Thrall, Pacific Northwest National Laboratory, Richland, WA; and Andrea Haase, German Federal Institute for Risk Assessment, Berlin, Germany.

Displayed: 9:30 AM–12:30 PM

Author-Attended: 9:30 AM–11:00 AM

- PS** Poster Sessions
- RI** Regional Interest Session
- R** Roundtable Sessions

- S** Symposium Sessions
- T** Thematic Sessions
- W** Workshop Sessions

MONDAY

Program Schedule (Continued)

Abstract #

- #291 **Poster Board Number508**
Protein Carbonylation As a Marker of Oxidative Stress: Analysis of 25 Inorganic Nanoparticles.
 M. D. Driessen¹, R. Ossig², J. Schnekenburger², A. Vennemann³, M. Wiemann³, T. Kuhlbusch⁴, A. Luch¹, and A. Haase¹. ¹German Federal Institute for Risk Assessment, Berlin, Germany; ²Biomedical Technology Center, Westfälische Wilhelms-Universität, Münster, Germany; ³IBE R&D gGmbH, Münster, Germany; and ⁴Institute of Energy and Environmental Technology (IUTA) e.V., Duisburg, Germany.
- #292 **Poster Board Number509**
Nanoparticle-Induced Oxidative Stress Alters Phospho-Tyrosine Signalling Pathways in Mammalian Cells. M. D. Driessen¹, R. Ossig², J. Schnekenburger², A. Vennemann³, M. Wiemann³, A. Luch¹, P. Nollau⁴, and A. Haase¹. ¹German Federal Institute for Risk Assessment, Berlin, Germany; ²Biomedical Technology Center, Westfälische Wilhelms-Universität, Münster, Germany; ³IBE R&D gGmbH, Münster, Germany; and ⁴University Medical Center Hamburg-Eppendorf, Hamburg, Germany.
- #293 **Poster Board Number510**
Oxidation Potential of Nanomaterials Determined by Cytochrome C. M. Irfan^{1,2}, W. Wohlleben^{2,3}, and R. Landsiedel¹. ¹Experimental Toxicology and Ecology, BASF SE, Ludwigshafen am Rhein, Germany; and ²Polymer Physics, BASF SE, Ludwigshafen am Rhein, Germany.
- #294 **Poster Board Number511**
Hemotoxicity and Stability of Luminescent Nanoparticles: In Vitro and In Vivo Evaluation.
 L. Minjares¹, G. Sandra¹, X. C. Fernandez¹, F. C. Arteaga¹, T. D. Palacios-Hernandez², M. A. Mendez¹, S. Hernandez³, G. A. Hirata⁴, and A. Angulo-Molina^{5,6}. ¹Universidad de las Americas Puebla (UDLAP), Puebla, Mexico; ²Universidad Popular Del Edo de Puebla (UPAEP), Puebla, Mexico; ³Universidad Panamericana (UP), Mexico City, Mexico; ⁴Centro de Nanociencias y Nanotecnología (CNYN), Ensenada, BC, Mexico; ⁵Universidad de Sonora (UNISON), Hermosillo, Mexico; and ⁶Centro de Investigacion en Alimentacion y Desarrollo Ciad, Hermosillo, Mexico.
- #295 **Poster Board Number512**
Risk Assessment of Nanomaterials Using Control Banding. A. B. Santamaria¹, F. S. Mowat³, J. B. Hicks⁴, and J. S. Tsuji². ¹Exponent, Houston, TX; ²Exponent, Bellevue, WA; ³Exponent, San Francisco, CA; and ⁴Exponent, Oakland, CA.
- #296 **Poster Board Number513**
Silver Nanoparticles Induce Cardiovascular Toxicity in Endothelial Cells and Zebrafish Embryos. W. Pimtong, T. Wutikhun, and R. Maniratanachote. National Nanotechnology Center, National Science and Technology Development Agency, Pathum Thani, Thailand.
- #297 **Poster Board Number514**
Silver Nanoparticles Induce Autophagy Dysregulation and Activation of NLRP3 Inflammasome in HepG2 Cells. A. Mishra, Q. Zhang, J. Zheng, and P. L. Goering. FDA Center for Devices and Radiological Health, Silver Spring, MD.

Abstract #

- #298 **Poster Board Number515**
Impact and Implications of Gold Nanoparticle Interactions with Human Serum Proteins and Biocorona Formation. A. Sasidharan¹, J. E. Riviere^{1,2}, and N. A. Monteiro-Riviere¹. ¹Nanotoxicology Innovation Center, Kansas State University, Manhattan, KS; and ²Institute of Computational Comparative Medicine, Kansas State University, Manhattan, KS.
- #299 **Poster Board Number516**
Toxicological Profiling of Differently Coated Silver Nanoparticles Using a Suite of Saccharomyces cerevisiae Single-Gene Deletion Mutants. S. Suppi^{1,2}, A. Kahru¹, and K. Kasemets¹. ¹Laboratory of Environmental Toxicology, National Institute of Chemical Physics and Biophysics, Tallinn, Estonia; and ²Faculty of Chemical and Materials Technology, Tallinn University of Technology, Tallinn, Estonia. Sponsor: K. Savolainen.
- #300 **Poster Board Number517**
Nickel Nanoparticles Induce Sustained Activation of the STAT6 Transcription Factor in Lung Fibroblasts to Promote Exacerbation of Asthma. M. Ihrie, K. Duke, K. A. Shipkowski, A. Taylor, and J. C. Bonner. Department of Biological Sciences, North Carolina State University, Raleigh, NC.
- #301 **Poster Board Number518**
Effects of the Physicochemical Properties of Nano-Scaled Cerium Oxide on Fibrogenesis. D. C. Davidson¹, M. Barger¹, R. Derk¹, T. A. Stueckle¹, J. Y. Ma¹, P. Demokritou², and L. Wang¹. ¹NIOSH, Morgantown, WV; and ²Harvard University, Boston, MA.
- #302 **Poster Board Number519**
Alumina Nanoparticles in Cognitive Ability of Mice Model of Alzheimer's Disease-Bearing Susceptible Genes. Q. Zhang^{1,2}, X. Hou¹, T. Moehling¹, B. Zheng¹, R. Kaur¹, Q. Niu², and J. Wang¹. ¹Department of Pathology, University of Mississippi Medical Center, Jackson, MS; and ²Department of Occupational Medicine, Shanxi Medical University, Taiyuan, China.
- #303 **Poster Board Number520**
In Vivo Evaluation of the Pulmonary Toxicity of Cellulose Nanocrystals. N. Yanamala¹, M. Farcas¹, E. R. Kisin¹, C. Geraci², V. E. Kagan⁴, and A. A. Shvedova^{1,2}. ¹PPRB, NIOSH, Morgantown, WV; ²Physiology and Pharmacology, WVU, Morgantown, WV; ³Education and Information Division, NIOSH, Cincinnati, OH; and ⁴Department of Environmental and Occupational Health, University of Pittsburgh, Pittsburgh, PA.
- #304 **Poster Board Number521**
Green Algae Interacting with Single-Walled Carbon Nanotubes Affect the Feeding Behavior of Mussels, Mitigating Nanotube Toxicity. M. A. Al-Shaeri^{1,2}, L. Paterson³, M. Stobie¹, P. Cyphus¹, and M. Hart¹. ¹School of Life Sciences, Heriot-Watt University, Edinburgh, United Kingdom; ²Department of Biological Sciences, King Abdulaziz University, Jeddah, Saudi Arabia; and ³School of Engineering and Physical Sciences, Scottish Universities Physics Alliance, Institute of Biological Chemistry, Biophysics and Bioengineering, Heriot-Watt University, Edinburgh, United Kingdom.

MONDAY

Program Schedule (Continued)

Abstract #

#305 **Poster Board Number522**
Prediction and Comparison of Size-Dependent Biodistribution of Polyethylene Glycol-Coated Gold Nanoparticles in Adult Mice: A Physiologically Based Pharmacokinetic Model. Z. Lin¹, N. A. Monteiro-Riviere², and J. E. Riviere¹.
¹Institute of Computational Comparative Medicine, Department of Anatomy and Physiology, Kansas State University, Manhattan, KS; and ²Nanotechnology Innovation Center of Kansas State, Department of Anatomy and Physiology, Kansas State University, Manhattan, KS.

#306 **Poster Board Number523**
Realistic Model for Ambient Respiratory Exposure to Nanomaterial Aerosols Using a Deployable In Vitro System. T. B. Tilly¹, C. Grabinski¹, D. W. Porter², J. Schlager¹, and S. M. Hussain¹. ¹Human Effectiveness Directorate, US Air Force, Dayton, OH; and ²Health Effects Laboratory Division, National Institute for Occupational Safety and Health, Morgantown, WV.

#307 **Poster Board Number524**
Pulmonary Microdistribution of TiO₂ Nanoparticles in Rats following Single or Multiple Intratracheal Administrations Using XRF Microscopy. G. Zhang¹, N. Shinohara¹, H. Kano², H. Senoh², M. Suzuki², T. Sasaki¹, S. Fukushima², and M. Gamo¹. ¹National Institute of Advanced Industrial Science and Technology (AIST), Tsukuba, Japan; and ²Japan Bioassay Research Center, Hadano, Japan.

#308 **Poster Board Number525**
Nanoparticle Surface Characterization and Clustering through Concentration-Dependent Surface Adsorption Modeling. R. Chen^{1,2}, Y. Zhang^{1,4}, F. D. Sahnneh^{1,3}, C. Scoglio^{1,2,3}, W. Wohlleben⁵, A. Haase⁶, N. A. Monteiro-Riviere^{2,4}, and J. E. Riviere^{1,4}. ¹Institute of Computational Comparative Medicine, Kansas State University, Manhattan, KS; ²Nanotechnology Innovation Center of Kansas State, Kansas State University, Manhattan, KS; ³Department of Electrical and Computer Engineering, Kansas State University, Manhattan, KS; ⁴Department of Anatomy and Physiology, Kansas State University, Manhattan, KS; ⁵Material Physics GMC, BASF, Ludwigshafen, Germany; and ⁶Department Chemicals and Product Safety, German Federal Institute for Risk Assessment (BfR), Berlin, Germany.

#309 **Poster Board Number526**
Silicon Nanowires: Free Radical Production and Related Damage in Cellular Exposures. S. S. Leonard, A. J. Kenyon, D. Schwegler-Berry, N. R. Fix, and J. R. Roberts. NIOSH, Morgantown, WV.

#310 **Poster Board Number527**
Framework to Evaluate Exposure Relevance and Data Needs for Risk Assessment of Nanomaterials Using In Vitro Testing Strategies. M. Sharma¹, J. Shatkin², C. Cairns³, R. Canady⁴, and A. J. Clippinger¹. ¹PETA International Science Consortium, Ltd, London, United Kingdom; ²Vireo Advisors, LLC, Boston, MA; ³Independent Consultant, New York City, NY; and ⁴Center for Risk Science Innovation and Application, ILSI Research Foundation, Washington, DC.

Abstract #

#311 **Poster Board Number528**
Nanoparticle Size, Shape, Coat, and Charge Alter the Bioactivity of Nanosilver. P. R. Hunt¹, Z. Keltner¹, X. Gao¹, S. J. Oldenburg², P. Bushana¹, N. Olejnik¹, and R. Sprando¹. ¹CFSAN/OARSA/DoT, FDA, Laurel, MD; and ²nanoComposix, San Diego, CA.

#312 **Poster Board Number529**
Uterine Intravital Microscopy 24-Hours After Nanosized Titanium Dioxide Exposure. P. G. Stapleton, C. R. McBride, J. Yi, and T. R. Nurkiewicz. Physiology and Pharmacology, West Virginia University, Morgantown, WV.

#313 **Poster Board Number530**
Inhaled Nanosized Titanium Dioxide Alters Peripheral Sympathetic Neurotransmitter Receptor Balance. T. L. Knuckles, J. Yi, and T. R. Nurkiewicz. Center for Cardiovascular and Respiratory Sciences, West Virginia University, Morgantown, WV.

#314 **Poster Board Number531**
Single Intratracheal Instillation of 20 nm Citrate Capped Nanosilver-Elevated Circulating Cytokines and Expanded Cardiac Ischemia/Reperfusion Injury in Male Sprague-Dawley Rats. N. A. Holland¹, D. P. Becak¹, J. Shannahan², J. K. Volkan¹, R. M. Lust¹, J. M. Brown², T. Fennell³, and C. J. Wingard¹. ¹Physiology, East Carolina University, Greenville, NC; ²Department of Pharmaceutical Sciences, University of Colorado - Denver, Aurora, CO; and ³Research Triangle International, Research Triangle Park, NC.

#315 **Poster Board Number532**
 Abstract Withdrawn

#316 **Poster Board Number533**
Effect of Silver Nanoparticles (AgNP) on Surface Marker Expression of Human Bone Marrow Stromal Cells (hBMSCs). G. Kumar¹, M. Shah^{1,2}, B. Casey¹, S. Skoog¹, C. Donahue¹, and P. L. Goering¹. ¹FDA, Silver Spring, MD; and ²School of Medicine, University of Missouri, Kansas City, MO.

Monday Morning, March 23
9:30 AM to 12:30 PM
CC Exhibit Hall

Poster Session: Metals

Chairperson(s): Joshua Edwards, Department of Pharmacology, Midwestern University, Downers Grove, IL; and Mindy F. Reynolds, Washington College, Chestertown, MD.

Displayed: 9:30 AM–12:30 PM

Author-Attended: 11:00 AM–12:30 PM

#317 **Poster Board Number536**
Chronic Exposure to Particulate Hexavalent Chromium Disrupts Sister Chromatid Cohesion in Human Lung Cells. C. Falank¹, and J. P. Wise^{1,2}. ¹Wise Laboratory of Environmental and Genetic Toxicology, University of Southern Maine, Portland, ME; and ²Maine Center for Toxicology and Environmental Health, University of Southern Maine, Portland, ME.

MONDAY

Program Schedule (Continued)

Abstract #	Abstract #
#318	Poster Board Number537 Assessing the Effects of Hexavalent Chromium in Two Reptilian Species: Implications for Metal Impacts of Global Warming. S. Wise ^{1,2,3} , H. Xie ^{1,2,3} , T. Fukuda ⁴ , W. D. Thompson ^{2,3} , L. Guillette ⁵ , and J. P. Wise ^{1,2,3} . ¹ Wise Laboratory of Environmental and Genetic Toxicology, University of Southern Maine, Portland, ME; ² Maine Center for Toxicology and Environmental Health, University of Southern Maine, Portland, ME; ³ Applied Medical Science, University of Southern Maine, Portland, ME; ⁴ Graduate School of Agricultural Science, Tohoku University, Sendai, Japan; and ⁵ Department of Obstetrics and Gynecology, Medical University of South Carolina, Charleston, SC.
#319	Poster Board Number538 Cytomodulation of Potassium Dichromate Hepatotoxicity by Ethanolic Extract of <i>Moringa oleifera</i> in Swiss Albino Rats. K. A. Akinwumi ^{1,2} , O. A. Odunola ² , O. O. Osifeso ³ , O. O. David ¹ , R. D. Akinsola ¹ , D. O. Aralamo ³ , and F. A. Adeniyi ¹ . ¹ Department of Chemical Sciences, Bells University of Technology, Ota, Nigeria; ² Department of Biochemistry, University of Ibadan, Ota, Nigeria; and ³ Department of Science Laboratory Science, Moshood Abiola Polytechnic, Ota, Nigeria.
#320	Poster Board Number539 Modulation of Cytochrome P450 1 (Cyp1) by Chromium in Hepatic Tissue of C57BL/6 Mice. A. Asiri, A. El-Kadi, and G. Abdelhamid. University of Alberta, Edmonton, AB, Canada.
#321	Poster Board Number540 The Inhibition of DNA Repair Protein, RAD51, by Prolonged Exposure to Particulate Chromate. C. L. Browning ^{1,2} , H. Xie ^{1,2} , D. F. Kelly ³ , and J. P. Wise ^{1,2} . ¹ Wise Laboratory of Environmental and Genetic Toxicology, University of Southern Maine, Portland, ME; ² Graduate School of Biomedical Sciences and Engineering, University of Maine, Orono, ME; and ³ Virginia Tech Carilion Research Institute, Roanoke, VA.
#322	Poster Board Number541 Centriole Defects in Chemical Carcinogenesis: Particulate Cr(VI) Causes Premature Centriole Disengagement through Plk1 and Separate Activation. J. Martino ^{1,2} , A. Holmes ^{1,2,3} , H. Xie ^{1,2,3} , and J. P. Wise ^{1,2,3} . ¹ Wise Laboratory of Environmental and Genetic Toxicology, University of Southern Maine, Portland, ME; ² Maine Center for Toxicology and Environmental Health, University of Southern Maine, Portland, ME; and ³ Department of Applied Medical Sciences, University of Southern Maine, Portland, ME.
#323	Poster Board Number542 PI3K/Akt/DAF-16 Activity Is Protective during Excess Iron Exposure in <i>C. elegans</i>. T. K. Tourdot, C. L. Liveringhouse, J. J. Ash, G. W. Goss, and S. J. Fretham. Biology, Luther College, Decorah, IA.
#324	Poster Board Number543 Iron Incorporation to MnSOD Leads to the Formation of a Peroxidase: Possible Implications for Nutrition-Dependent Iron Toxicity. D. Ganini da Silva, R. M. Petrovich, L. L. Edwards, and R. P. Mason. NIEHS, Research Triangle Park, NC.
#325	Poster Board Number544 An Exposure and Health Risk Assessment of Lead (Pb) in Lipstick. A. Monnot ¹ , W. V. Christian ² , M. Abramson ² , and M. H. Follansbee ³ . ¹ Cardno-ChemRisk, San Francisco, CA; ² Cardno-ChemRisk, Pittsburgh, PA; and ³ Syracuse Research Corporation, Scarborough, ME.
#326	Poster Board Number545 Blood Lead and Hypertension in an Adult Population in Southern Brazil. A. B. Almeida Lopes ¹ , E. K. Silbergeld ² , A. Navas-Acien ² , R. D. Zamoiski ² , M. R. Urbano ³ , M. H. Carvalho ⁴ , M. L. Buzzo ⁴ , and M. B. Paoliello ^{1,5} . ¹ Graduate Program in Public Health, State University of Londrina, Londrina, Brazil; ² Department of Environmental Health Sciences, Johns Hopkins University, Baltimore, MD; ³ Department of Statistics, State University of Londrina, Londrina, Brazil; ⁴ Nucleus of Inorganic Contaminants, Adolf Lutz Institute, Sao Paulo, Brazil; and ⁵ Department of Clinical and Toxicological Analysis, State University of Londrina, Londrina, Brazil.
#327	Poster Board Number546 Dose-Dependent Effect of Lead (Pb) on Repetitive and Social Behavior in Male and Female Mice. J. Chang, C. Kueon, and J. Kim. Northeastern University, Boston, MA.
#328	Poster Board Number547 Determinants of Blood Lead Levels among Children in Ulaanbaatar, Mongolia. N. Ganbaatar ¹ , M. Tsogtbaatar ¹ , E. Halmambetova ¹ , E. Malchinkhuu ¹ , G. Ulziibayar ² , C. Ochir ¹ , and P. B. Olkhanud ¹ . ¹ School of Medicine, MNUMS, Ulaanbaatar, Mongolia; and ² NCPH, Ulaanbaatar, Mongolia.
#329	Poster Board Number548 Prior Phosphate Treatment of Ingested Soil Affects Tissue Distribution of Lead in Mice. D. J. Thomas ¹ , P. Alava ² , W. Green ¹ , H. Hayes ¹ , J. Misenerheimer ² , K. Bradham ² , and K. G. Scheckel ³ . ¹ ISTD, NHEERL, US EPA, Research Triangle Park, NC; ² HEASD, NERL, US EPA, Research Triangle Park, NC; and ³ LRPCD, NRMRL, US EPA, Cincinnati, OH.
#330	Poster Board Number549 Intranasal Manganese (Mn) Exposure Leads to a Significant Accumulation of Mn in Bone. A. J. Jones, S. L. O'Neal, and W. Zheng. Purdue University, West Lafayette, IN.
#331	Poster Board Number550 Dietary Exposure Assessment of the Trace Elements Se and Mn in Meat Products Consumed in the United States. J. G. Muniz Ortiz, C. R. Santerre, M. O'Keefe, N. Abdelmajid, A. Domesle, M. Quinn, R. Fields, and P. A. Bennett. Office of Public Health Science, US Department of Agriculture, Food Safety and Inspection Service, Washington, DC.

MONDAY

Program Schedule (Continued)

Abstract #	Abstract #
#332	Poster Board Number551 Polymorphisms in the Solute Carrier SLC30A10 Determine Blood Manganese Concentrations—Evidence from Three Human Populations. K. Wahlberg ¹ , M. E. Vahter ² , K. Engström ¹ , D. Smith ³ , R. Lucchini ⁴ , and K. Broberg ^{2,1} . ¹ Occupational and Environmental Medicine, Lund University, Lund, Sweden; ² Institute of Environmental Medicine, Karolinska Institutet, Stockholm, Sweden; ³ Microbiology and Environmental Toxicology, University of California at Santa Cruz, Santa Cruz, CA; and ⁴ Department of Environmental and Occupational Medicine, Mount Sinai School of Medicine, New York, NY.
#333	Poster Board Number552 Pharmacokinetic Evaluation of the Equivalency of Oral Routes of Manganese Exposure in F344 Rats. M. L. Foster ¹ , T. B. Bartnikas ² , L. C. Johnson ¹ , A. M. Keene ³ , M. Taylor ⁴ , and D. C. Dorman ¹ . ¹ College of Veterinary Medicine, North Carolina State University, Raleigh, NC; ² Dept. of Pathology and Laboratory Medicine, Brown University, Providence, RI; ³ Afton Chemical Corporation, Richmond, VA; and ⁴ Nickel Producers Environmental Research Association (NiPERA), Durham, NC.
#334	Poster Board Number553 Zinc Rescue of DNA Repair Inhibition by Uranium. E. J. Dashner, K. L. Cooper, Y. Cho, and L. G. Hudson. Pharmaceutical Sciences, University of New Mexico, Albuquerque, NM.
#335	Poster Board Number554 Proximity to Uranium Mine Waste on the Navajo Nation Is Associated with Elevated ANA and IL-17. D. MacKenzie, E. Erdei, J. Ong, C. Miller, and J. L. Lewis. Community Environmental Health Program, University of New Mexico College of Pharmacy, Albuquerque, NM.
#336	Poster Board Number555 Depleted Uranium Inhibition of Metal-Induced Metallothionein Expression Profiles. T. A. Thompson, S. Medina, K. L. Cooper, E. Dashner, D. MacKenzie, and L. G. Hudson. Department of Pharmaceutical Sciences, University of New Mexico, Albuquerque, NM.
#337	Poster Board Number556 Early Evidence of Organ Injury after Acute Oral Exposure to Nickel in Rats. M. S. Madejczyk ¹ , M. Permenter ² , D. Kumsher ² , C. E. Baer ² , J. A. Lewis ³ , and J. D. Stallings ³ . ¹ ORISE Postdoctoral Fellow, Fort Detrick, MD; ² Excet, Inc., Fort Detrick, MD; and ³ Environmental Health Program, US Army CEHR, Fort Detrick, MD.
#338	Poster Board Number557 Characterization of Aqueous Formulations of Tetra- and Pentavalent Forms of Vanadium at Various pH to Aid in the Test Article Selection for Toxicology Studies. E. Muthu ¹ , T. Cristy ² , S. Graves ² , M. J. Hooth ¹ , and S. Waidyanatha ¹ . ¹ Division of the National Toxicology Program, National Institute of Environmental Health Sciences, Research Triangle Park, NC; and ² Battelle Memorial Institute, Columbus, OH.
#339	Poster Board Number558 Global Assessment of Copper and Zinc Concentrations in Free-Ranging Sperm Whales (<i>Physeter macrocephalus</i>). L. C. Savery ^{1,6} , J. Wise ¹ , S. Wise ^{1,2,3} , C. Falank ^{1,2,3} , C. Gianios ^{1,2,3} , W. D. Thompson ^{2,3} , C. Perkins ⁴ , T. Zheng ⁵ , C. Zhu ⁵ , and J. P. Wise ^{1,2,3} . ¹ Wise Laboratory of Environmental and Genetic Toxicology, Portland, ME; ² Maine Center for Toxicology and Environmental Health, Portland, ME; ³ Department of Applied Medical Sciences, University of Southern Maine, Portland, ME; ⁴ Center for Environmental Sciences and Engineering, University of Connecticut, Storrs, CT; ⁵ Yale School of Public Health, New Haven, CT; and ⁶ Exponent, Inc., Alexandria, VA.
#340	Poster Board Number559 Health Risk Assessment of Heavy Metals for Population via Consumption of Seafoods from Ogoniland, Rivers State, Nigeria: A Case Study of Kaa, B-Dere and Bodo City. K. W. Nkpa, and K. C. Patrick-Iwuanyanwu. Biochemistry, University of Port Harcourt, Port Harcourt, Nigeria.
#341	Poster Board Number560 Metallothionein Isoform 3 Expression in Human Skin, Related Cancers, and Human Skin-Derived Cell Cultures. A. Slusser, Y. Zheng, X. Zhou, S. Somji, D. A. Sens, M. Sens, and S. H. Garrett. Pathology, University of North Dakota, Grand Forks, ND.
#342	Poster Board Number561 Pollution Loads of Effluents of Various Types of Industry in Lagoos Metropolis, Nigeria. C. T. Onwordi ^{1,2} , and P. C. Onianwa ² . ¹ Chemistry, Lagos State University, Lagos, Nigeria; and ² Chemistry, University of Ibadan, Ibadan, Nigeria.
#343	Poster Board Number562 Heavy Metal Levels in Leachates from Two Electronic Waste Dumpsites in South West Nigeria. J. K. Igbo, and O. L. Chukwu. Biological Oceanography, Nigerian Institute for Oceanography and Marine Research, Lagos, Nigeria. Sponsor: J. Zelikoff.
#344	Poster Board Number563 Toxic Effects of Water-Soluble Fraction of Nail Metal Dust in Rat. E. A. Balogun ¹ , M. Babatunde ¹ , J. O. Adebayo ¹ , and F. A. Adekola ^{1,2} . ¹ Biochem, University of Ilorin, Ilorin, Nigeria; and ² Chem, University of Ilorin, Ilorin, Nigeria.
#345	Poster Board Number564 Mobilization of Metals from Embedded Fragments in a Cohort of US Veterans. J. Gaitens ¹ , K. S. Squibb ¹ , M. Condon ¹ , J. Centeno ² , and M. A. McDiarmid ¹ . ¹ Baltimore VA Medical Center (VAMC) and University of Maryland (UMD) School of Medicine, Baltimore, MD; and ² Joint Pathology Center, Silver Spring, MD.

MONDAY

Program Schedule (Continued)

Abstract #

- #346 **Poster Board Number565**
Association between Ambient Metals and Asthma in Italian Adolescents. M. Rosa¹, C. Benedetti², M. Peli³, F. Donna², M. Nazzaro³, C. Fedrighi², S. Zoni², G. DePalma², A. Marcon³, R. Andreoli⁴, R. Wright¹, and R. Lucchini^{1,2}. ¹Preventive Medicine, Icahn Schol of Medicine at Mount Sinai, New York, NY; ²Department of Medical and Surgical Specialties, Radiological Sciences and Public Health, University of Brescia, Brescia, Italy; ³Public Health and Community Medicine, University of Verona, Verona, Italy; and ⁴Clinical and Experimental Medicine, University of Parma, Parma, Italy.
- #347 **Poster Board Number566**
Human Toenails—A Viable Biomarker for Mixed-Metal Exposure in US Welders. E. J. Ward¹, M. Nour¹, S. Snyder¹, F. Rosenthal¹, and U. Dydak^{1,2}. ¹School of Health Sciences, Purdue, West Lafayette, IN; and ²Radiology and Imaging Sciences, Indiana University School of Medicine, Indianapolis, IN.
- #348 **Poster Board Number567**
Human Exposure Assessment Down-Wind of an Active Open-Pit Copper and Molybdenum Mine in Butte, MT, USA. K. Hailer, M. Calhoun, and S. Miner. Chemistry, Montana Tech, Butte, MT.
- #349 **Poster Board Number568**
Longevity of Dental Amalgam Separators and Associated Acute Toxicity of Dental Wastewater Effluents. Y. Hwang¹, E. Botts¹, S. Johnson-Worrell¹, E. I. Maurer², S. M. Hussain², D. Leal¹, and A. M. Nagy¹. ¹Biomaterials and Environmental Surveillance, Naval Medical Research Unit San Antonio, Fort Sam Houston, TX; and ²711th Human Performance Wing, Wright-Patterson Air Force Base, Dayton, OH.
- #350 **Poster Board Number569**
The Cytotoxicity and Genotoxicity of Particulate and Soluble Cobalt in Human Urothelial Cells. R. M. Speer^{1,2,3}, T. The^{1,2,3}, and J. P. Wise^{1,2,3}. ¹Wise Laboratory of Environmental and Genetic Toxicology, University of Southern Maine, Portland, ME; ²Maine Center for Toxicology and Environmental Health, University of Southern Maine, Portland, ME; and ³Department of Applied Medical Sciences, University of Southern Maine, Portland, ME.
- #351 **Poster Board Number570**
Induction of Glutathione Peroxidase (GPx) in Transformed Cells upon Exposure to Diphenyl Ditelluride and Tellurium Tetrachloride. P. Vij, and D. Hardej. Pharmaceutical Sciences, St. John's University, Queens, NY.
- #352 **Poster Board Number571**
Genetic Variation of Iron Metabolism in Mice. H. Irimagawa¹, Y. He¹, S. McLachlan¹, D. W. Killilea², B. Parks³, S. T. Hui³, E. Eskin^{4,5}, A. J. Lusis^{3,4}, C. Vulpe¹, and K. E. Page¹. ¹Nutritional Sciences and Toxicology, UC Berkeley, Berkeley, CA; ²Children's Hospital Oakland Research Institute, Oakland, CA; ³Department of Medicine/Division of Cardiology, UCLA, Los Angeles, CA; ⁴Department of Human Genetics, UCLA, Los Angeles, CA; and ⁵Department of Computer Science, UCLA, Los Angeles, CA.

Abstract #

- #353 **Poster Board Number572**
Navajo Birth Cohort Study (NBCS) Metal Biomonitoring. J. Ong¹, E. Erdei¹, E. O'Donald¹, B. Pacheco¹, A. Rondon², C. Shuey³, and J. L. Lewis¹. ¹College of Pharmacy-Community and Environmental Health, University of New Mexico, Albuquerque, NM; ²Navajo Division of Health, Window Rock, AZ; and ³Southwest Research and Information Center, Albuquerque, NM.

Monday Morning, March 23

9:30 AM to 12:30 PM

CC Exhibit Hall

Poster Session: Ecotoxicology

Chairperson(s): Evans Afriyie-Gyawu, *Environmental Health Sciences, Georgia Southern University, Statesboro, GA; and Marie M. Bourgeois, Environmental and Occupational Health, University of Southern Florida College of Public Health, Tampa, FL.*

Displayed: 9:30 AM–12:30 PM

Author-Attended: 9:30 AM–11:00 AM

- #354 **Poster Board Number601**
Comparative Effects of Polybrominated Diphenylether (DE-71), Ethylene-Bis-Tetrabromophthalimide (EBTBP), and Tetrabromobisphenol A (TBBPA) on Thyroid Hormone-Mediated Anuran Metamorphosis. D. J. Fort¹, C. Fort¹, M. Mathis¹, P. D. Guiney², and J. A. Weeks². ¹Fort Environmental Laboratories, Stillwater, OK; and ²SC Johnson, Racine, WI.
- #355 **Poster Board Number602**
Reducing Fish Use in Bioconcentration Studies for General Chemicals. N. Burden¹, S. Creton¹, L. Weltje², S. K. Maynard³, and J. R. Wheeler⁴. ¹NC3Rs, London; ²BASF SE, Limburgerhof, Germany; ³Syngenta, Bracknell, United Kingdom; and ⁴Dow AgroSciences, Abingdon, United Kingdom.
- #356 **Poster Board Number603**
Copper Pyrithione Induces Abnormal Muscle and Notochord Architecture in Developing Zebrafish Embryos. K. Almond, and L. D. Trombetta. Pharmaceutical Sciences, St. John's University, Queens, NY.
- #357 **Poster Board Number604**
Tributyltin Chloride Induces Penis and Vas Deferens Development in Females of the Purple Snail (*Plicopurpura pansa*). D. Domínguez¹, A. E. Rojas², B. S. Barrón², M. L. Robledo², J. T. Nieto¹, B. Quintanilla-Vega³, and I. M. Medina². ¹Escuela Nacional de Ingeniería Pesquera, Universidad Autónoma de Nayarit, Tepic, Mexico; ²Secretaría de Investigación y Posgrado, Universidad Autónoma de Nayarit, Tepic, Mexico; and ³Toxicología, CINVESTAV, Mexico City, Mexico.
- #358 **Poster Board Number605**
Chronic Fish Toxicity Data for Identification and Risk Assessment of Endocrine Disruptors. Z. Dang, P. van Vlaarding, and C. Bodar. RIVM, Bilthoven, Netherlands.

MONDAY

Program Schedule (Continued)

Abstract #	Abstract #
#359	Poster Board Number606 Effects of Oxadiazon on Nutrient Utilization and Growth of Catfish (<i>Clarias gariepinus</i>). F. Ajani ¹ , A. O. Ajiboye ² , and O. O. Oyelowo ³ . ¹ Wildlife and Ecotourism Management, University of Ibadan, Ibadan, Nigeria; ² Animal Science and Fisheries Management, Bowen University, Iwo, Nigeria; and ³ Department of Animal Science, University of Ibadan, Ibadan, Nigeria.
#360	Poster Board Number607 Movement of Mercury and Selenium from Soil to Earthworms to Zebrafish. A. C. Nichols, and D. A. Steffy. Physical and Earth Sciences, Jacksonville State Univ, Jacksonville, AL.
#361	Poster Board Number608 Stress Hormone Response in Frogs after Pesticide Exposure. R. Van Meter, and K. V. Washart. Biology & Environmental Science/Studies, Washington College, Chestertown, MD. Sponsor: M. Henderson.
#362	Poster Board Number609 Identification of a Developmental Window of Susceptibility to Selenomethionine and Hypersaline Toxicity in the Japanese Medaka (<i>Oryzias latipes</i>). A. J. Kupsco ¹ , and D. Schlenk ² . ¹ Environmental Toxicology, University of California-Riverside, Riverside, CA; and ² Environmental Sciences, University of California-Riverside, Riverside, CA.
#363	Poster Board Number610 Prostacyclin Inhibits Precardiac Edema in Developing Zebrafish Exposed to 2,3,7,8-Tetrachlorodibenzo-<i>p</i>-dioxin. H. Teraoka, D. Nijoukubo, G. Yin, and T. Kitazawa. Rakuno Gakuen University, Ebetsu, Japan.
#364	Poster Board Number611 Toxicity Evaluation of Industrial Effluents to Zebrafish (<i>Danio rerio</i>) Embryo. J. R. Rana ¹ , D. Patel ¹ , M. V. Patel ¹ , N. Khan ¹ , M. N. Reddy ³ , and V. J. Piccirillo ² . ¹ Department of Toxicology, Jai Research Foundation, Valvada, India; ² VJP Consulting, Ashburn, VA; and ³ Department of Biosciences, VNSGU, Surat, India.
#365	Poster Board Number612 Toxicity of the Natural Dye Erythrostominone on the Embryogenic Development of <i>Danio rerio</i>. F. R. Abe, and D. P. Oliveira. Universidade de São Paulo, Ribeirão Preto, Brazil.
#366	Poster Board Number613 RNA-Seq Analysis of the Mysid Crustacean Transcriptome Treated with Naturally Occurring 1,3,7-Tribromodibenzo-<i>p</i>-dioxin. M. Hirano ¹ , M. Uchida ² , T. Kusano ² , K. Arizono ³ , and H. Iwata ¹ . ¹ CMES, Ehime University, Matsuyama, Japan; ² Mizukibiotech Co., Ltd., Fukuoka, Japan; and ³ Prefectural University of Kumamoto, Kumamoto, Japan.
#367	Poster Board Number614 Oatp1d1, Oatp1f2 and Oatp1f4 Expressed in Liver and Kidney of Zebrafish (<i>Danio rerio</i>) Transport Various Microcystin-Congeners. K. Steiner ¹ , B. Hagenbuch ² , and D. R. Dietrich ¹ . ¹ Human & Environmental Toxicology, University of Konstanz, Konstanz, Germany; and ² University of Kansas Medical Center, Kansas City, KS.
#368	Poster Board Number615 Inhibition of Mitochondrial Electron Transport System Function in Fish from Sites Impacted by Contaminants of Emerging Concern. A. Yeh ¹ , D. J. Marcinek ² , J. P. Meador ³ , and E. P. Gallagher ¹ . ¹ Department of Environmental and Occupational Health Sciences, University of Washington, Seattle, WA; ² Department of Radiology, University of Washington, Seattle, WA; and ³ Environmental and Fisheries Sciences Division, Northwest Fisheries Science Center, NOAA Fisheries, Seattle, WA.
#369	Poster Board Number616 Occurrence of Microbiological Contaminants in a Watershed Impacted by a Wastewater Treatment Facility. B. Odion, S. Benevente, and A. Aslan. Environmental Health Sciences, Georgia Southern University, Statesboro, GA. Sponsor: E. Afriyie-Gyawu.
#370	Poster Board Number617 Screening-Level Ecological Risk Assessment Approach for Quantifying Lead Ammunition Ingestion and Adverse Effects in Upland and Wetland Birds. A. Tsao, M. Zafonte, B. Stanton, R. Donohoe, C. Rech, C. Huang, and M. J. Anderson. California Department of Fish and Wildlife, Sacramento, CA.
#371	Poster Board Number618 Impact of Illegal Mining Activities on Water Quality and Cost of Water Treatment in the Central Region of Ghana. E. Afriyie-Gyawu, T. Awolusi, J. Awuah, and E. B. Winful. Environmental Health Sciences, Georgia Southern University, Statesboro, GA.
#372	Poster Board Number619 Temperature Effects on <i>Lithobates pipiens</i> Chronically Exposed to PCB and PBDE. C. A. Tsai, and W. Karasov. Molecular and Environmental Toxicology Center, University of Wisconsin-Madison, Madison, WI. Sponsor: C. Bradfield.
#373	Poster Board Number620 Early-Life Stage Toxicities of Atlantic Killifish Exposed to Treated "Fracking" Water. A. Lapp ¹ , I. Wirgin ¹ , L. Maceda ¹ , and R. C. Chambers ² . ¹ Environmental Medicine, New York University, New York, NY; and ² Howard Marine Sciences Laboratory, Northeast Fisheries Science Center, NOAA Fisheries Service, Highlands, NJ. Sponsor: I. Wirgin.
#374	Poster Board Number621 Investigating the Influence of Environmental Factors on Pesticide Exposure in Amphibians. D. A. Glinski ¹ , W. M. Henderson ² , R. Van Meter ³ , and S. T. Purucker ² . ¹ Grantee to US EPA via Oak Ridge Institute of Science and Education, Athens, GA; ² ORD/NERL/ERD, US EPA, Athens, GA; and ³ Department of Biology, Washington College, Chestertown, MD.
#375	Poster Board Number622 The Effects of Fluoxetine on the Startle Response of Adult Zebrafish (<i>Danio rerio</i>). K. Fulda, and M. A. Connaughton. Biology, Washington College, Chestertown, MD. Sponsor: M. Reynolds.
#376	Poster Board Number623 Can Coexposure with Ellagic Acid Mitigate the Adverse Effects of Aflatoxin B1 on the Visual System of Developing Zebrafish Larvae? J. Rogers, and M. A. Connaughton. Biology, Washington College, Chestertown, MD. Sponsor: M. Reynolds.

MONDAY

Program Schedule (Continued)

Abstract

- #377 **Poster Board Number624**
Expression and Function of Ryanodine Receptor-Related Pathways in PCB-Tolerant Atlantic Killifish from New Bedford Harbor. E. B. Fritsch¹, J. J. Stegeman², J. V. Goldstone², D. E. Nacci³, D. Champlin³, S. Jayaraman³, R. E. Connon⁴, and I. N. Pessah¹. ¹Molecular Biosciences, University of California Davis, Davis, CA; ²Biology, Woods Hole Oceanographic Institution, Woods Hole, MA; ³Atlantic Ecology Division, US EPA, Narragansett, RI; and ⁴Anatomy Physiology and Cell Biology, UC Davis, Davis, CA.
- #378 **Poster Board Number625**
Bioactivity of Legacy and Emerging Contaminants in Fish via Feeding Study. V. D. Dang¹, K. J. Kroll¹, S. Supowit², R. U. Halden², and N. D. Denslow¹. ¹Physiological Sciences, University of Florida, Gainesville, FL; and ²The Biodesign Institute, Arizona State University, Tempe, AZ.
- #379 **Poster Board Number626**
Oxidative Stress Responses of *Euglena agilis* to Nanoparticles. J. Lee¹, S. Chang¹, and S. Yu². ¹Environmental Energy & Systems Engineering, Kyonggi University, Suwon, Republic of Korea; and ²Korea Atomic Energy Research Institute, Jeongup, Republic of Korea.
- #380 **Poster Board Number627**
Nematodes As Biosensors of Toxicity from Magdalena River Sediments. L. Tejada-Benitez, and J. Olivero-Verbel. Environmental and Computational Chemistry Group, University of Cartagena, Cartagena, Colombia.

Monday Morning, March 23

9:30 AM to 12:30 PM
 CC Exhibit Hall

Poster Session: Persistent Organic Pollutants

Chairperson(s): Angela Slitt, University of Rhode Island, Kingston, RI.

Displayed: 9:30 AM–12:30 PM

Author-Attended: 11:00 AM–12:30 PM

- #381 **Poster Board Number631**
Perfluorooctanoic Acid (PFOA)-Induced DNA Damage in Comet Assay by Two Distinct Mechanisms. S. Tsuda¹, N. Saito¹, N. Shimizu², T. Takahashi³, and Y. F. Sasaki³. ¹Iwate Institute of Environmental Sciences, Morioka, Japan; ²Agilent Technologies Japan Ltd, Application Centre, Tokyo, Japan; and ³Hachinohe National College of Technology, Hachinohe, Japan.
- #382 **Poster Board Number632**
Low-Dose Exposure to the Environmental Chemical, Perfluorooctanesulfonic Acid (PFOS) Thwarts Beneficial Effects of Caloric Restriction and Metformin. D. M. Salter, J. Xu, W. Wei, L. Armstrong, and A. Slitt. BPS, University of Rhode Island, Kingston, RI.
- #383 **Poster Board Number633**
PFOS Induction of Adipogenesis and Glucose in Association with Activation of the Nrf2 Signaling Pathway. J. Xu^{2,3}, L. Armstrong¹, D. M. Salter¹, P. C. Shimp¹, and A. Slitt¹. ¹Biomedical and Pharmaceutical Sciences, University of Rhode Island, Kingston, RI; and ²Northeastern University, Shenyang, China.

Abstract

- #384 **Poster Board Number634**
Thyroid Hormone-Disrupting Potentials of Bisphenol A and Its Analogues: A Comparison Study. S. Lee, C. Kim, and K. Choi. Graduate School of Public Health, Seoul National University, Seoul, Republic of Korea.
- #385 **Poster Board Number635**
A Major Source of Dietary Exposure to Long-Chain Perfluorinated Carboxylic Acids. Y. Fujii¹, T. Sakurada¹, A. Kuga¹, M. Kinoshita¹, K. Harada², A. Koizumi², O. Kimura³, T. Endo³, and K. Haraguchi¹. ¹Daiichi University of Pharmacy, Fukuoka, Japan; ²Kyoto University Graduate School of Medicine, Kyoto, Japan; and ³Health Sciences University of Hokkaido, Ishikari-Tobetsu, Japan.
- #386 **Poster Board Number636**
Human Exposure to Hydroxylated PBDE: Seaweeds As Dietary Source. M. Takagi¹, Y. Koyanagi¹, A. Moriyama¹, T. Kawano¹, Y. Fujii¹, T. Endo², and K. Haraguchi¹. ¹Daiichi College of Pharmaceutical Sciences, Fukuoka, Japan; and ²Health Sciences University of Hokkaido, Hokkaido, Japan.
- #387 **Poster Board Number637**
The Induction of Autophagy by Rapamycin-Protected HepG2 Cells from the Toxicity of BDE-47. G. C. Bolfarini¹, L. C. Pereira², A. O. Souza¹, and D. J. Dorta¹. ¹Departamento de Química, Faculdade de Filosofia, Ciências e Letras de Ribeirão Preto, Universidade de São Paulo, Ribeirão Preto, Brazil; and ²Departamento de Análises Clínicas, Toxicológicas e Bromatológicas, Universidade de São Paulo (USP), Faculdade de Ciências Farmacêuticas de Ribeirão Preto (FCFRP), Ribeirão Preto, Brazil.
- #388 **Poster Board Number638**
Analysis of the Serum Perfluoroalkyl Carboxylic Acids (PFCAs) Levels for Repeated-Dose Toxicity Studies Conducted for Long-Chain PFCAs in Rats. A. Hirose¹, Y. Kosugi², T. Suzuki³, S. Fujii³, M. Ema⁴, T. Nishimura⁵, M. Hirata-Koizumi¹, and A. Ono¹. ¹Division of Risk Assessment, National Institute of Health Sciences, Tokyo, Japan; ²Tokyo Metropolitan Institute of Public Health, Tokyo, Japan; ³Safety Research Institute for Chemical Compounds, Sapporo, Japan; ⁴National Institute of Advanced Industrial Science and Technology, Tsukuba, Japan; and ⁵Teikyo Heisei University, Tokyo, Japan.
- #389 **Poster Board Number639**
Contamination Trends of Hexabromocyclododecanes, Tribromophenol, and Tetrabromobisphenol A in Japanese Breast Milk. K. Haraguchi¹, Y. Fujii¹, and Y. Kato². ¹Daiichi College of Pharmaceutical Sciences, Fukuoka, Japan; and ²Kagawa School of Pharmaceutical Sciences, Tokushima Bunri University, Kagawa, Japan. Sponsor: T. Endo.
- #390 **Poster Board Number640**
Method Development for the Detection of Protein Adducts from 4-Chlorobiphenyl (PCB3). M. Li¹, L. W. Robertson^{1,2}, and G. Ludewig^{1,2}. ¹Human Toxicology Program, The University of Iowa, Iowa City, IA; and ²Department of Occupational and Environmental Health, The University of Iowa, Iowa City, IA.

MONDAY

Program Schedule (Continued)

Abstract #

- #391 **Poster Board Number641**
PCB126-Mediated Disruption of Hepatic Metal Homeostasis in Mice and the Role of Metallothionein. W. D. Klaren^{1,2}, and L. W. Robertson^{1,2}. ¹Interdisciplinary Graduate Program in Human Toxicology, University of Iowa, Iowa City, IA; and ²Occupational and Environmental Health, University of Iowa, Iowa City, IA.
- #392 **Poster Board Number642**
In Vitro Toxicological Assessment of Contaminated Sediment Extracts from the Indiana Harbor and Ship Canal. S. Flor¹, M. Salomon Beltran¹, A. Martinez², K. C. Hornbuckle², and G. Ludewig¹. ¹Occupational and Environmental Health, University of Iowa, Iowa City, IA; and ²Civil and Environmental Engineering, University of Iowa, Iowa City, IA.
- #393 **Poster Board Number643**
Non-Aroclor PCBs in Human Serum from Populations Living in Northwest Indiana and Rural Iowa. W. Koh¹, P. S. Thorne^{1,2}, and K. C. Hornbuckle^{1,3}. ¹Interdisciplinary Graduate Program in Human Toxicology, The University of Iowa, Iowa City, IA; ²Department of Occupational and Environmental Health, The University of Iowa, Iowa City, IA; and ³Department of Civil and Environmental Engineering, The University of Iowa, Iowa City, IA.
- #394 **Poster Board Number644**
Relative Effect Potencies of 2,3,7-Tribromodibenzo-p-dioxin and 1,2,3,4,7-Pentabromodibenzo-p-dioxin in Female Rat after a Single Oral Dose. K. van Ede¹, G. Marsh², M. Linderberg², T. Werner², Å. Bergman², M. Van den Berg¹, and M. van Duursen¹. ¹Toxicology, IRAS, Utrecht University, Utrecht, Netherlands; and ²Environmental Chemistry Unit, Department of Materials and Environmental Chemistry, Stockholm University, Stockholm, Sweden.
- #395 **Poster Board Number645**
Craniofacial Growth Is Altered by Chronic Adult Exposure to 2,3,7,8-Tetrachlorodibenzo-p-dioxin (TCDD) in Han/Wistar and Long-Evans Rats with Different Aryl Hydrocarbon Receptor (AhR) Structures. S. Sholts¹, M. Herlin², J. Esteban³, M. J. Viluksela⁴, and H. Hakansson². ¹Department of Anthropology, National Museum of Natural History, Washington, DC; ²Institute of Environmental Medicine, Karolinska Institute, Stockholm, Sweden; ³Institute of Bioengineering, Miguel Hernández University of Elche, Elche, Spain; and ⁴Department of Environmental Health, National Institute for Health and Welfare, Kuopio, Finland.
- #396 **Poster Board Number646**
Preparation and Evaluation of Fluorescent Molecularly Imprinted Polymers Capable of Detecting Polyaromatic Hydrocarbons. C. J. Ifedili. Molecular Toxicology, Aston University, Benin, Nigeria.

Abstract #

- #397 **Poster Board Number647**
Chronic Exposure to No-Effect Concentration of Diazinon-Induced Histological Lesions in Organs of *Clarias gariepinus*. A. F. Fagbohun^{1,2,3}. ¹Department of Veterinary Public Health and Preventive Medicine, University of Ibadan, Ibadan, Nigeria; ²Department of Veterinary Physiology, Biochemistry and Pharmacology, University of Ibadan, Ibadan, Nigeria; and ³Department of Veterinary Pathology, University of Ibadan, Ibadan, Nigeria.

Monday Morning, March 23
9:30 AM to 12:30 PM
CC Exhibit Hall

Poster Session: Stem Cell Biology in Toxicology Research

Chairperson(s): Weida Tong, US FDA/NCTR, Jefferson, AR.

Displayed: 9:30 AM–12:30 PM

Author-Attended: 9:30 AM–11:00 AM

- #398 **Poster Board Number653**
Using Human-Induced Pluripotent Stem Cells (iPSC) in High-Content Screening (HCS) to Prioritize Chemicals for Developmental Neurotoxicity Testing. R. R. Tice¹, O. Sirenko², F. Parham¹, E. F. Cromwell², J. Hsieh¹, S. DeLaura³, M. Behl¹, and K. Ryan¹. ¹NIH, NIEHS/DNTP, Research Triangle Park, NC; ²Molecular Devices, Sunnyvale, CA; and ³Cellular Dynamics International, Madison, WI.
- #399 **Poster Board Number654**

An Ex Vivo Megakaryocyte Platform to Evaluate the Effects of Compounds on Different Stages of Platelet Development. G. dos Santos, J. Rosser, and E. Clarke. ReachBio LLC, Seattle, WA.

Program Schedule (Continued)

Abstract

- #403 **Poster Board Number658**
Effect of Acetaminophen and Aflatoxin B1 on Human Pluripotent Stem Cell-Induced Hepatic Differentiation. *H. Kang, H. Lee, S. Kang, Y. Park, and B. So.* Vet. Drugs and Biologics, Animal and Plant Quarantine Agency, Anyang, Republic of Korea.
- #404 **Poster Board Number659**
Cadmium Alters Gene Expression Patterns of Stem Cell Transcription Factors Essential for Embryonic Development and Differentiation in Mouse Embryonic Stem Cells. *A. Aliberti, and F. A. Barile.* Department of Pharmaceutical Sciences, St. John's University, Queens, NY.
- #405 **Poster Board Number660**
Cumulative Toxicity of Low-Dose Cadmium Exposure in Mouse Embryonic Stem Cells Is Characterized by Slowed Mitotic Progression. *D. O'Brien, and F. A. Barile.* St. John's University, Queens, NY.
- #406 **Poster Board Number661**
Dose-Dependent Effects from Inorganic Arsenic Exposure on Tumor Microenvironment-Induced TGF- β Signaling. *J. J. Shearer, E. A. Wold, C. L. Nilsson, and M. L. Figueiredo.* Pharmacology & Toxicology, University of Texas Medical Branch, Galveston, TX.
- #407 **Poster Board Number662**
Ah Receptor Expression in Mouse Embryonic Stem Cells Triggers Pluripotency Loss and Promotes Abnormal Differentiation. *C. Ko, Y. Fan, Q. Wang, and A. Puga.* Environmental Health, University of Cincinnati, Cincinnati, OH.
- #408 **Poster Board Number663**
A Genomics Approach for Identifying Gene Networks As Biomarkers of Human Neurodevelopmental Toxicity. *J. F. Robinson, M. J. Gormley, and S. J. Fisher.* Department of Obstetrics, Gynecology, and Reproductive Sciences, University of California, San Francisco, San Francisco, CA.
- #409 **Poster Board Number664**
Using *In Vitro* "Toxicology-in-a-Dish" Stem Cell Model and Video Bioinformatics Tools to Determine the Effects of Cigarette Smoke on Cell Health. *S. C. Lin, R. Phandthong, and P. Talbot.* Cell Biology and Neuroscience, University of California, Riverside, Riverside, CA.

MONDAY

Monday Morning, March 23

10:00 AM to 11:00 AM

CC Room 21

(Ticket Required; SOT Student and Postdoctoral Members Only, Limited Seating)

Trainee Discussion with Plenary Lecturer: Dr. Venter

Chairperson(s): Colleen E. McLoughlin, CDC-NIOSH, Morgantown, WV.

Lecturer: J. Craig Venter, J. Craig Venter Institute, San Diego, CA.

Graduate students and postdoctoral scholars have the special opportunity of meeting for informal discussion with Dr. Venter after his Plenary Opening Lecture (see page 134). The limited tickets for this event could be obtained with your Annual Meeting registration.

Monday Morning, March 23,

10:45 AM to 11:45 AM

CC Room 24A

Exhibitor-Hosted Session: Adapting Cell-Based Assays to 3D Culture Models

Presented by:

Promega Corporation

Complex 3D cell culture models stretch the limits of assays designed for measuring cytotoxicity endpoints from monolayers of cells. We will present factors to consider for designing and validating performance of cell-based assays measuring viability (as an endpoint and in real time) and upstream cell stress events leading to cytotoxicity.

Monday Morning, March 23,

10:45 AM to 11:45 AM

CC Room 22

Exhibitor-Hosted Session: Computational Approach to Managing Mutagenicity Risk for ICH M7 and Beyond

Presented by:

Lhasa Limited

Lhasa Limited, the world leader for knowledge and data sharing in chemistry and the life sciences, will present their views and expertise in utilizing an integrated *in silico* solution to comply with the ICH M7 guidelines. In addition, they will highlight where *in silico* solutions provide further evidence of drug safety.

Monday Morning, March 23,

10:45 AM to 11:45 AM

CC Room 24C

Exhibitor-Hosted Session: The Immunology of Immunogenicity?

Presented by:

Huntingdon Life Sciences/Harlan Laboratories

Immunogenicity is an occasional consequence of treatment with a broad range of biological products. The session will discuss some of the immunological mechanisms that result in immunogenicity and their relevance to clinical use of the therapeutic. The session is aimed at toxicologists keen to learn more about the subject.

Program Schedule (Continued)

Monday Morning, March 23,
10:45 AM to 11:45 AM
CC Room 24B

Exhibitor-Hosted Session: Utilization of *In Vitro* Mechanistic and 3D Models to Improve the Prediction of Hepatotoxicity and Cardiotoxicity

Presented by:
Cypotex

This presentation will cover recent developments in the field of *in vitro* prediction of cardiotoxicity and hepatotoxicity. It will focus on the development of 3D cell-based cardiac and hepatic systems and their applicability in mechanistic mitochondrial assays (Seahorse) and 3D high-content imaging.

Monday Morning, March 23

11:45 AM to 12:15 PM

CC Exhibit Hall (Across from SOT Pavilion, Booth 526)

Global Gallery of Toxicology Poster Session—Representative Attended

Representatives from toxicology-related scientific societies from around the world will be present to display a poster showcasing their history, key accomplishments, strategic initiatives, current and future activities, and more. The goal of SOT and of all these societies is to increase the reliance of international decision-makers on the science of toxicology to advance human health and disease prevention.

2015 Global Gallery of Toxicology Participants (as of February 6, 2015)

- Academy of Toxicological Sciences
- African Society for Toxicological Sciences
- American Academy of Clinical Toxicology
- American Board of Toxicology
- American College of Toxicology
- American Society for Cellular and Computational Toxicology
- ASIATOX
- Association of Government Toxicologists
- Australasian College of Toxicology & Risk Assessment
- Brazilian Society of Toxicology
- British Toxicology Society
- Bulgarian Society of Toxicology
- Chinese Society of Toxicology
- Environmental Mutagenesis and Genomics Society
- Estonian Society of Toxicology
- European Association of Poison Centres and Clinical Toxicologists
- EUROTOX
- Finnish Society of Toxicology
- French Society of Toxicology
- German Society of Toxicology
- International Neurotoxicology Association
- International Society for Regulatory Toxicology and Pharmacology
- International Society for the Study of Xenobiotics
- International Society of Exposure Science
- Israeli Society of Toxicology
- IUTOX
- Japanese Society of Immunotoxicology
- Japanese Society of Toxicology
- Korean Society of Toxicology
- Mexican Society of Toxicology
- Safety Pharmacology Society
- Scientific Liaison Coalition
- Sociedad de Toxicología de Chile
- Society for Risk Analysis
- Society of Toxicological Pathology
- Society of Toxicology
- Society of Toxicology Canada
- Swedish Society of Toxicology
- Swiss Society of Toxicology
- Teratology Society
- The Toxicology Society of South Africa
- The Turkish Society of Toxicology
- Toxicologists Without Borders

Program Schedule (Continued)

MONDAY AFTERNOON

Monday Afternoon, March 23
12:00 Noon to 1:30 PM
CC Room 27

Drug Discovery Toxicology Specialty Section Lunch with an Expert

Monday Afternoon, March 23
12:00 Noon to 1:20 PM
CC Ballroom 20D
(Ticket Required)

In Vitro Toxicology Lecture and Luncheon for Students: Alternative In Vitro Approaches for Predicting the Health Impacts of Nanomaterials

Chairperson(s): Richard Pollenz, University of South Florida, Tampa, FL, Emily G. Notch, Western New England University, Springfield, MA; and Daniel J. Spade, Brown University, Providence, RI.

Lecturer: James C. Bonner, North Carolina State University, Raleigh, NC

Supported by:
An educational grant from
the Colgate-Palmolive Company

Hosted by:
Education Committee

The goal of the *In Vitro* Toxicology Lecture series is to feature important research using *in vitro* and alternative techniques to study basic mechanisms and to illustrate how these test methods benefit animal welfare by refining, reducing, and replacing animal use whenever it is feasible. Undergraduates, graduate students, postdoctoral scholars, and recipients of Colgate-Palmolive awards are among the guests at the *In Vitro* Toxicology Lecture and Luncheon. Students and postdoctoral scholars register for \$10 (nonrefundable) via the Annual Meeting registration. Dr. Bonner will present an introduction to the topic, challenge participants to discuss specific questions at their tables, and then participants will report responses.

The format will include electronic audience polling and activities based on the review of data related to the development and validation of *in vitro* models.

Remember to bring your mobile devices to the event. The presentation information can be found on page 94.

Monday Afternoon, March 23
12:00 Noon to 2:00 PM
Roy's Restaurant Big Island Room

Mid-Atlantic Regional Chapter Luncheon

Abstract

Monday Afternoon, March 23
12:00 Noon to 1:30 PM
CC Room 5B

Research Funding Luncheon: Multiple Perspectives on the Grant Process

Experts from various federal agencies will be on hand for this luncheon meeting to talk about the art of preparing successful grant packages from multiple perspectives. See page 129 for more information.

Monday Afternoon, March 23
12:00 Noon to 1:30 PM
CC Room 14B

Special Interest Group Collaboration Group Meeting

Monday Afternoon, March 23
12:00 Noon to 1:30 PM
CC

See room listing below.

Specialty Section Meeting/Luncheons: Comparative and Veterinary (3); Toxicologic and Exploratory Pathology (2)

Monday Afternoon, March 23
12:10 PM to 1:30 PM
CC Ballroom 6F

Roundtable Session: Addressing Potential Age-Related Sensitivity to Neurotoxicity of Pyrethroids

Approaches for Protecting Vulnerable Populations

Chairperson(s): Thomas G. Osimitz, Science Strategies, Charlottesville, VA; and Anna B. Lowit, Office of Pesticide Programs, US EPA, Washington, DC.

Endorser(s):

Biological Modeling Specialty Section
Neurotoxicology Specialty Section
Risk Assessment Specialty Section

The sensitivity of infants and children to pesticides has historically been evaluated via a combination of developmental toxicity, reproduction, and developmental neurotoxicity studies conducted in accordance with US EPA and OECD test guidelines. For pyrethroid insecticides, the collective results from these studies indicated no additional sensitivity of young rats and rabbits during development, thus obviating the need for an additional safety factor for infants and children (FQPA). The pyrethroid industry is investigating age-related pharmacodynamic (PD) and pharmacokinetic (PK) differences in sensitivity using model pyrethroids. Designed in accordance with the principles in *Toxicity Testing in the 21st Century: A Vision and a Strategy* (NAS, 2007) and with US EPA input, the research is providing age-related pyrethroid-specific PD and PK parameters for PBPK model development. This significantly enhances both neurotoxicity and children's health risk assessment and provides new understanding of how focused research can be developed for the adverse outcome pathway framework for risk assessment.

Roundtable Session: Confronting and Overcoming the Barriers to Sharing Toxicological Research Data for Risk Assessment in the 21st Century

Strategies for Exposure and Risk Assessments

Chairperson(s): George M. Woodall, NCEA, US EPA, Research Triangle Park, NC; and Gary W. Miller, Emory University, Atlanta, GA.

Endorser(s):

Ethical, Legal, and Social Issues Specialty Section
Inhalation and Respiratory Specialty Section
Risk Assessment Specialty Section

The need for better data-sharing opportunities is a highlight of the NAS document *Toxicity Testing in the 21st Century: A Vision and a Strategy*, which included recommendations to develop the data management infrastructure "to enable broad data-sharing across academic, government, industry, and NGO sectors and institutions." This applies equally to high-throughput assay results, *in vivo* animal studies, and human clinical and epidemiological studies. The need is critical in quantitative analysis, where raw data from individual subjects or groups provides greater power in an analysis than will summarized results. Substantial barriers block access to these toxicological research data. An effective strategy to identify and propose remedies to those barriers has yet to be formulated. The issues are multifaceted: the need to protect personally identifiable information versus protection of public health, intellectual property rights versus public access to data developed using public funds, publication of research findings by the originator of the data versus allowing more powerful analysis using data from multiple studies, and many others. The primary intent of this roundtable discussion is to begin a dialogue to define a proper balance between these competing needs and stakeholder perspectives, while at the same time enhance the science of toxicology, protect public health, and ensure scientific credibility. Panelists have been selected to represent one or more stakeholder group. Open dialogue with the audience will be encouraged to include the perspectives of the larger SOT community. The views expressed here are those of the authors and do not necessarily reflect the views or policies of the US Environmental Protection Agency.

- #411 12:10 **Confronting and Overcoming the Barriers to Sharing Toxicological Research Data for Risk Assessment in the 21st Century.** G. M. Woodall¹, G. W. Miller², A. Simeonov³, R. A. Becker⁴, A. Pope⁵, P. J. Hakkinen⁶, P. H. Zigas⁷, and A. A. Rooney⁸. ¹US EPA, Research Triangle Park, NC; ²Emory, Atlanta, GA; ³NIH, Bethesda, MD; ⁴ACC, Washington, DC; ⁵BYU, Provo, UT; ⁶NLM, Bethesda, MD; ⁷ECU, Greenville, NC; and ⁸NIEHS, Research Triangle Park, NC.

Abstract

- 12:10 **Introduction and Overview.** G. M. Woodall. US EPA, Research Triangle Park, NC.
- 12:15 **Using Limited-Access Data in Public Health Research.** A. Pope. Brigham Young University, Provo, UT.
- 12:25 **Perspectives from a Major Collector, Organizer, Preserver, Curator, and Disseminator of Data.** P. J. Hakkinen. NIH, Bethesda, MD.
- 12:35 **Perspectives from a University Attorney on the Issues of Using Research Data.** P. H. Zigas. East Carolina University, Greenville, NC.
- 12:45 **Panel Discussion.** Panel Discussion/Q&A

Monday Afternoon, March 23
12:10 PM to 1:30 PM

Informational Session: Toxicological Application of Studies Funded by California Stem Cell Research and Cures Act (Prop 71)

Chairperson(s): Kyle L. Kolaja, Cellular Dynamics International, Montclair, NJ; and Arezo Campbell, Department of Pharmaceutical Sciences, Western University of Health Sciences, Pomona, CA.

Endorser(s):

Northern California Regional Chapter
Southern California Regional Chapter
Stem Cells Specialty Section

In 2004, Proposition 71 was passed to support stem cell research in California. The California Institute for Regenerative Medicine (CIRM) was created to allocate funds to establish stem cell research in the state. This session highlights research funded through this initiative that is translatable to toxicology. The introduction will provide a brief overview of the goals and implementation of the various California-based stem cell research initiatives funded through CIRM. The ability to create induced pluripotent cells from adult somatic cells has revolutionized cell biology. The first presentation will focus on the quality manufacturing aspects of iPSC and highlight their application in a number of California/CIRM-funded projects that are translatable to toxicological research. The second presentation will feature the function of the Coriell Institute for Medical Research. This institute was funded by CIRM to establish a centralized resource of well-characterized iPSCs. Tissue samples from 3,000 subjects enrolled through seven California-based research groups serve as starting material for deriving iPSCs. Samples are collected from healthy controls and patients with Alzheimer's disease, autism spectrum disorders, liver, cardiovascular, eye, and respiratory diseases. The Coriell-CIRM Biobank, residing at the Buck Institute for Research on Aging, ensures exceptional storage and distribution of high-quality iPSCs, which can provide a useful model for toxicological testing of environmental and pharmaceutical agents. The last presentation will cover the application of stem cells in a toxicology study with emphasis on how live cell imaging in conjunction with video bioinformatics software tools can be used to assess the effects of environmental chemicals on cells that model stages of prenatal development.

- #412 12:10 **Toxicological Application of Studies Funded by California Stem Cell Research and Cures Act (Prop 71).** A. Campbell¹, K. L. Kolaja², S. J. Madore³, J. Panetta⁴, and P. Talbot⁵. ¹Department of Pharmaceutical Sciences, Western University of Health Sciences, Pomona, CA; ²Cellular Dynamics International, Montclair, NJ; ³Coriell Institute for Medical Research, Camden, NJ; ⁴Biocom, San Diego, CA; and ⁵University of California Riverside, Riverside, CA.
- 12:10 **Regional Impact of Research Initiatives Funding by the California Stem Cell Research and Cures Act (Prop 71).** J. Panetta. Biocom, San Diego, CA.

Education-Career Development Session: Adaptive Leadership: Anticipating, Initiating, and Responding to Change

Chairperson(s): Brinda Mahadevan, Abbott Laboratories, Columbus, OH; and Hollie I. Swanson, Molecular and Biomedical Pharmacology, University of Kentucky, Lexington, KY.

Endorser(s):

Career Resource and Development Committee
Education Committee

The magnitude of change in organizations has grown tremendously over the past two decades. A hallmark of successful organizations and individuals is their ability to anticipate and respond to change or even initiate change to meet the demand of the moment. Our current workplace environment must address changes in organizational structure, economic factors, and increase in global competitiveness. As individuals, we encounter changes in family structures, personal expectations, career pathways, and trajectories to dynamically sense and respond with actions that are focused, fast, and flexible. A successful leader, team, or organization will evolve through purposeful strategies that influence and respond effectively to unpredictable and shifting demands and world events. This session will be composed of four presentations that will focus on the changes currently facing the industry, government, contract research organization, and academic sectors. Within each presentation, organizational changes, leadership challenges, and the impact on the individual will be addressed. Each speaker will emphasize their sector-specific changes and unique adaptations to change. The speakers will thus provide practical advice and concrete examples on adaptive leadership that demonstrate a leader's ability at all levels to effectively accomplish the initiatives every day.

- #413 12:10 **Adaptive Leadership: Anticipating, Initiating, and Responding to Change.** B. Mahadevan¹, H. I. Swanson², M. A. Philbert³, L. D. Lehman-McKeeman⁴, W. Slikker⁵, and S. Heidel⁶. ¹Regulatory Affairs, Abbott Nutrition, Abbott Laboratories, Columbus, OH; ²Molecular and Biomedical Pharmacology, University of Kentucky, Lexington, KY; ³Department of Public Health, University of Michigan, Ann Arbor, MI; ⁴Discovery Toxicology, Bristol-Myers Squibb Company, Princeton, NJ; ⁵National Center for Toxicological Research, US FDA, Jefferson, AR; and ⁶Toxicology, Covance Inc, Greenfield, IN.
- 12:10 **Introduction.** B. Mahadevan. Abbott Laboratories, Columbus, OH.
- 12:20 **Undertaking a Range of Activities and Adapting to Changes for the Future in Academia As a Thought Leader, a Communicator, and Teacher.** H. I. Swanson. University of Kentucky, Lexington, KY.
- 12:30 **The Lesson of the Oak Tree and the Reed: Adapting to Change in a Corporate Research Environment.** L. D. Lehman-McKeeman. Bristol-Myers Squibb Company, Princeton, NJ.

Monday Afternoon, March 23,
12:15 PM to 1:15 PM
CC Room 24B

Exhibitor-Hosted Session: Alternative Methods in Inhalation Toxicology

Presented by:

Fraunhofer ITEM

The session will focus on different alternative methods in inhalation toxicology: P.R.I.T. Expo Cube: an innovative *in vitro* exposure system, Precision Cut Lung Slices and Isolated Perfused Lung model as *ex vivo* techniques. Regulatory acceptance of these methods as well as *in silico* approaches will be critically discussed.

Monday Afternoon, March 23,
12:15 PM to 1:15 PM
CC Room 22

Exhibitor-Hosted Session: Impact of Electronic Standards on Drug Development Landscape

Presented by:

PDS Preclinical Lifesciences Inc and
Integrated Nonclinical Development Solutions (INDS) Inc

With issuance of the final US FDA guidance on electronic formats for regulatory submissions, SEND will become mandatory starting in December of 2016. We will present SEND in a scientific context to illustrate how it can improve preclinical drug development.

Monday Afternoon, March 23,
12:15 PM to 1:15 PM
CC Room 24A

Exhibitor-Hosted Session: Overview of Cutaneous Safety and Efficacy Assessment with Reconstructed Human Epidermis (RHE)

Presented by:

EPISKIN Academy

Releasing products to the market is a costly and long process for industry. According to some surveys (Olson 2000, Greaves 2004), classical approaches based on animal studies exhibit weaknesses to predict some human toxicity. Skin shows the poorest concordance (36%) between animal and human.

Exhibitor-Hosted Session: The Göttingen Minipig As Experimental Model for Anti-Neoplastic Drug Toxicity

Presented by:

RTC and Ellegaard Göttingen Minipigs

After a general overview of the comparative biology of minipigs, results of a case study are presented, which highlight the relevance of minipigs as experimental models for toxicity studies with anti-neoplastic drugs. Minipigs showed signs comparable to humans and a greater tolerance for the effects of Doxorubicin compared to dogs.

Monday Afternoon, March 23
12:30 PM to 1:20 PM
CC Ballroom 6B

Merit Award Lecture: Chronicles of Particles: From Micro- to Nano-Particles

Lecturer: Günter Oberdörster, University of Rochester Medical Center, Rochester, NY.

Humans, all along their history, have been exposed to naturally occurring airborne particles from diverse sources and, additionally, to increased levels of anthropogenic airborne particles. The recognition of harmful effects of particles of dusty trades on the respiratory tract emerged in ancient times, substantiated in the Middle Ages by Paracelsus. Awareness of particle size and chemistry as important properties and determinants of toxicity came from more recent epidemiological and toxicological findings of adverse effects, not only in the respiratory tract, but also affecting secondary organs such as the cardiovascular and central nervous systems. Besides larger micro-sized particles which contribute most of the mass, particles up to ~100 nm in diameter, ultrafine particles, became a major research focus, further bolstered by the introduction and rise of nanotechnology and the related introduction of very diverse engineered nanoparticles (< 100 nm), with inhalation as the major route of human exposure. Exponentially increasing numbers of publications have reported about the seemingly unique toxicological properties of nanoparticles, including propensity to cross cell membranes, and enter cells, causing oxidative stress and significant toxicity, suggesting that all nanoparticles are toxic. However, an understanding of appropriate dose-metrics, as well as establishing realistic exposure-dose-response relationships, are necessary for a meaningful interpretation of results.

DeGeorge ¹ . ¹ MB Research Laboratories, Spinnerstown, PA; and ² CellSystems® Biotechnologie Vertrieb GmbH, Troisdorf, Germany.
#422	Poster Board Number 109 <i>In Silico</i> Predictions of Skin Sensitization Using OECD QSAR Toolbox. J. Strickland ¹ , N. Y. Choksi ¹ , D. G. Allen ¹ , and W. Casey ² . ¹ ILSNICEATM, Research Triangle Park, NC; and ² NTP/NICEATM, Research Triangle Park, NC.	#430	Poster Board Number 117 Potency Classifications for Contact Dermal Sensitization As Determined by the h-CLAT Assay. G. L. DeGeorge. MB Research Laboratories, Spinnerstown, PA.
#423	Poster Board Number 110 The GARD Assay for Potency Assessment of Skin Sensitizing Chemicals. K. S. Zeller ¹ , A. Forreryd ¹ , H. Johansson ¹ , J. Kühn ² , A. G. Schepky ² , A. Albrekt ¹ , C. A. Borrebaeck ¹ , and M. Lindstedt ¹ . ¹ Department of Immunotechnology, Lund University, Lund, Sweden; and ² Department of Toxicology, Beiersdorf AG, Hamburg, Germany.	#431	Poster Board Number 118 A Novel Assay for Evaluating Wound Healing in a Full-Thickness <i>In Vitro</i> Human Skin Model. J. Oldach, A. Armento, M. A. Bachelor, G. Stolper, M. Li, P. J. Hayden, and M. Klausner. MatTek Corporation, Ashland, MA.
#424	Poster Board Number 111 Predicting Skin-Sensitizing Potency Based on <i>In Vitro</i> Data from KeratinoSens™ and Kinetic Peptide Binding: Global vs. Domain-Based Assessment. G. Adamson ² , G. Ellis ³ , R. Emter ¹ , T. Haupt ¹ , and A. Natsch ^{1,2,3} . ¹ Givaudan Schweiz AG, Duebendorf, Switzerland; ² Givaudan US, East Hannover, NJ; and ³ Givaudan International SA, Vernier, Switzerland.	#432	Poster Board Number 119 Establishment of a Novel <i>In Vitro</i> Assay Based on Retinal Pigment Epithelial Cells to Assess Safety of Ophthalmic Drugs. S. Kustermann, C. Elsaesser, K. Dernick, T. Heckel, M. Ullah, and A. B. Roth. F. Hoffmann-La Roche Ltd, Basel, Switzerland.
#425	Poster Board Number 112 Evaluation of Two Methods of Skin Integrity Check in an <i>In Vitro</i> Dermal Absorption Study with Benzoic Acid Using Rat Split-Thickness Skin. R. M. Nagane ¹ , S. S. Gaikwad ¹ , N. N. Patel ¹ , K. E. Tendulkar ¹ , R. S. ¹ , M. V. Patel ¹ , and V. J. Piccirillo ² . ¹ Department of Toxicology, Jai Research Foundation, Valvada, India; and ² VJP Consulting, Ashburn, VA.	#433	Poster Board Number 120 C24:1-Ceramide May Be a Novel Lipid Biomarker for Eye Irritation in 3D Human Corneal Epithelial Model, MCTT HCE™ M. Lee ¹ , S. Choi ¹ , K. Joo ³ , Y. Chun ² , and K. Lim ¹ . ¹ Ewha Womans University, Seoul, Republic of Korea; ² Chung-Ang University, Seoul, Republic of Korea; and ³ AmorePacific R&D Center, YongIn, Republic of Korea.
#426	Poster Board Number 113 Functionalized Electrospun Nanofibers for the Development of a Three-Dimensional Skin Model. A. F. Rossi ^{1,2} , J. Groll ³ , and H. Walles ^{1,2} . ¹ Department for Tissue Engineering and Regenerative Medicine, University Hospital Wuerzburg, Wuerzburg; ² Regenerative Technologies in Oncology, Fraunhofer Project Group Wuerzburg, Wuerzburg, Germany; and ³ Department of Functional Materials in Medicine and Dentistry, University Hospital Wuerzburg, Wuerzburg, Germany. Sponsor: <i>B. De Wever</i> .	#434	Poster Board Number 121 Using the Novel NociOcular Assay to Predict the Eye Sting Potential of Shampoos and Sunscreen Products. K. Norman ¹ , L. Krawiec ¹ , E. Sly ¹ , V. Diersen ¹ , and A. Forsby ² . ¹ Institute for In Vitro Sciences, Gaithersburg, MD; and ² Neurochemistry, Arrhenius Laboratories for Natural Science, Stockholm University, Stockholm, Sweden. Sponsor: <i>H. Raabe</i> .
#427	Poster Board Number 114 Investigation of Novel <i>In Vitro</i> Methods for Predicting the Dermal Sensitization Potential of Synthetic Process Intermediates. U. S. Bruen ¹ , K. Norman ² , and B. D. Naumann ¹ . ¹ Product Stewardship and Science, Toxicology, Merck & Co, Whitehouse Station, NJ; and ² Institute for In Vitro Sciences, Gaithersburg, MD.	#435	Poster Board Number 122 An <i>In Vitro</i> Reconstructed Normal Human Corneal Tissue Model for Corneal Drug Delivery Studies of Ophthalmic Formulations. Y. Kaluzhny, M. Kinuthia, L. d'Argembeau-Thornton, V. Karetsky, P. J. Hayden, and M. Klausner. MatTek Corporation, Ashland, MA.
		#436	Poster Board Number 123 Use of Ultrasonic Pachymetry in an Initial In-House Proficiency Assessment of the Isolated Chicken Eye Test. R. L. Guest, G. Henzell, N. Warren, and A. Pooles. Alternative & Genetic Toxicology, Harlan Laboratories LTD., Derby, United Kingdom. Sponsor: <i>C. Auletta</i> .

MONDAY

Program Schedule (Continued)

Abstract #	Abstract #
#437	Poster Board Number 124 Optimization of an Eye Irritation Assay for Hazard Identification and Labelling of Materials to Address the EU Cosmetic Directive and REACH Legislation. Y. Kaluzhny ¹ , H. Kandarova ² , L. d'Argembeau-Thornton ¹ , J. DeLuca ¹ , P. J. Hayden ¹ , A. Hunter ¹ , T. Truong ¹ , and M. Klausner ¹ . ¹ MatTek Corporation, Ashland, MA; and ² MatTek In Vitro Life Science Laboratories, Bratislava, Slovakia.
#438	Poster Board Number 125 Effect of Long-Term Shipping on an Eye Irritation Test for Hazard Identification and Labelling of Materials. Y. Kaluzhny ¹ , Y. Handa ² , H. Kandarova ³ , T. Truong ¹ , A. Hunter ¹ , L. d'Argembeau-Thornton ¹ , and M. Klausner ¹ . ¹ MatTek Corporation, Ashland, MA; ² Bio-Medical Department, Kurabo Industries LTD, Neyagawa City, Japan; and ³ MatTek In Vitro Life Science Laboratories, Bratislava, Slovakia.
#439	Poster Board Number 126 Protocol Considerations for Testing Surfactants and Surfactant-Based Formulations in the Bovine Corneal Opacity and Permeability Assay. H. A. Raabe, V. Diersen, and K. Norman. Institute for In Vitro Sciences, Inc., Gaithersburg, MD.
#440	Poster Board Number 127 Dichloroacetate- and Trichloroacetate-Induced Toxicity and Oxidative Stress in AML 12 Cells. E. Hassoun, and C. Mettling. Pharmacology, University of Toledo, Toledo, OH.
#441	Poster Board Number 128 Role of Chemical Structure in the Genotoxic Potential of Alkoxy-Substituted Allylbenzenes. T. Kobets, J. Duan, K. D. Brunemann, M. J. Iatropoulos, and G. M. Williams. Pathology, New York Medical College, Valhalla, NY.
#442	Poster Board Number 129 Histopathological Changes Induced by 2-Acetylaminofluorene and Diethylnitrosamine in Fetal Chicken Livers. T. Kobets ¹ , M. J. Iatropoulos ¹ , J. Duan ¹ , K. D. Brunemann ¹ , E. H. Vock ² , U. Deschl ² , and G. M. Williams ¹ . ¹ Pathology, New York Medical College, Valhalla, NY; and ² Boehringer Ingelheim Pharma GmbH&Co. KG, Biberach an der Riss, Germany.
#443	Poster Board Number 130 Establishment of a Multi-Celltype Long-Term In Vitro Model of Human Liver Fibrosis and Its Application to Drug Testing. R. M. Kostadinova, C. Ullmer, and A. B. Roth. Hoffmann-La Roche Ltd, Basel, Switzerland.
#444	Poster Board Number 131 Substance Exposure to Organotypic Human Liver and Small Intestine Cocultures in a Multi-Organ-Chip. I. Wagner ¹ , M. Lindner ¹ , P. J. Hayden ² , A. Lorenz ¹ , R. Horland ¹ , A. Jaenicke ¹ , N. Sambo ¹ , S. Ayehunie ² , and U. Marx ¹ . ¹ TissUse, Berlin, Germany; and ² Research & Development, MatTek Corporation, Ashland, MA.
#445	Poster Board Number 132 Analysis of Gene Expression Changes of HepG2, HepaRG, and iCell Hepatocytes Elicited By Chemical Exposure. J. M. Naciff ¹ , Y. Shan ¹ , X. Wang ¹ , K. N. De Abrew ¹ , B. A. Wetmore ² , R. S. Thomas ³ , R. S. Settivari ⁴ , E. W. Carney ⁴ , R. Adams ¹ , J. P. Tiesman ¹ , and G. P. Daston ¹ . ¹ Procter and Gamble, Cincinnati, OH; ² The Hamner Institutes for Health Sciences, Research Triangle Park, NC; ³ US Environmental Protection Agency, Research Triangle Park, NC; and ⁴ Dow Chemical Company, Midland, MI.
#446	Poster Board Number 133 MicroRNA Responses to Human Liver Carcinogens: Development and Evaluation of an In Vitro Screening Model System. A. K. Marrone, F. A. Beland, and I. Pogribny. Biochemical Toxicology, National Center for Toxicological Research, Little Rock, AR.
#447	Poster Board Number 134 3D In Vitro Model of HepG2 Cell Spheroids for Long-Term Exposure Studies and Toxicogenomics-Based Prediction of Drug-Induced Liver Injury. S. Ramaiahgari ^{1,2} , S. Wink ¹ , M. Coonen ³ , J. Kleinjans ³ , L. Price ^{1,4} , and B. van de Water ¹ . ¹ Leiden University, Maastricht, Netherlands; ² NTP/BSB, Research Triangle Park, NC; ³ Maastricht University, Maastricht, Netherlands; and ⁴ OCello, Leiden, Netherlands.
#448	Poster Board Number 135 A Valuable Cellular Model for Biotransformation and Metabolomic Studies: The HepaRG Cell Line. N. Cabaton ^{1,3} , M. Meireles ^{1,3} , C. Canlet ^{2,3} , M. Tremblay-Franco ^{2,3} , E. Jamin ^{2,3} , L. Dolo ^{1,3} , A. Hillenweck ^{1,3} , and D. Zalko ^{1,3} . ¹ TOXALIM-MEX, INRA UMR1331, Toulouse, France; ² TOXALIM-AXIOM, INRA UMR1331, Toulouse, France; and ³ INRA UMR1331, Toulouse University, Toulouse, France.
#449	Poster Board Number 136 Prodrug Activation in a Dynamic Microfluidic Systems Interconnecting Liver and Tumor Microtissues. K. Jinyoung ³ , D. Fluri ¹ , R. Marchan ² , K. Boonen ⁴ , S. K. Hammad ² , B. Landuyt ⁴ , J. G. Hengstler ² , S. Messner ¹ , J. M. Kelm ¹ , A. Hierlemann ³ , and O. Frey ³ . ¹ InSphero AG, Schlieren, Switzerland; ² Ifado, Dortmund, Switzerland; ³ BSSE, ETH Zürich, Basel, Switzerland; and ⁴ KU Leuven, Leuven, Belgium.
#450	Poster Board Number 137 Inhibition of Liver Mitochondrial β-Oxidation: An In Vitro-In Vivo Correlation In Vitro-In Vivo. P. Sagelsdorff ¹ , F. Bernard ² , M. Gassen ² , and J. Schreitmüller ¹ . ¹ Bioanalytics & Mechanistic Toxicology, Harlan Laboratories, Itingen, Switzerland; and ² Animal Metabolism, Harlan Laboratories, Itingen, Switzerland.
#451	Poster Board Number 138 Liver Bioreactor As an In Vitro Metabolism System for Quantitative In Vitro-to-In Vivo Extrapolation. J. M. Pedersen ¹ , J. Shim ¹ , E. LeCluyse ¹ , J. M. Macdonald ^{2,1} , M. E. Andersen ¹ , H. J. Clewell ¹ , and M. Yoon ¹ . ¹ The Hamner Institutes of Health Sciences, Research Triangle Park, NC; and ² University of North Carolina, Chapel Hill, NC.

MONDAY

Program Schedule (Continued)

Abstract #

Monday Afternoon, March 23
1:00 PM to 4:30 PM
CC Exhibit Hall

Poster Session: Ocular Toxicology

🔄 Safety Assessment Approaches for Product Development

Chairperson(s): Neera Tewari-Singh, Pharmaceutical Sciences, University of Colorado Denver, Aurora, CO.

Displayed: 1:00 PM–4:30 PM

Author-Attended: 2:45 PM–4:30 PM

- #452 **Poster Board Number 139**
Retinal Function and Morphology in Monkeys Treated with N-Methyl-N-nitrosourea (MNU). J. Kinoshita, N. Iwata, T. Maejima, T. Kimotsuki, M. Yasuda, and W. Takasaki. Medicinal Safety Research Laboratories, Daiichi Sankyo Co., Ltd., Edogawa-ku, Japan.
- #453 **Poster Board Number 140**
Investigation of the Effect of UVC Radiation on the Toxicity of Benzalkonium Chloride. M. Xu¹, D. J. McCanna², and J. G. Sivak¹. ¹Optometry and Vision Science, University of Waterloo, Waterloo, ON, Canada; and ²Centre for Contact Lens Research, Optometry and Vision Science, University of Waterloo, Waterloo, ON, Canada. Sponsor: V. Bantseev.
- #454 **Poster Board Number 141**
Corneal Wound Healing Is Delayed by Diclofenac in a Human Ex Vivo Front-of-the-Eye Model with a Comparison to Rabbit. A. Vickers¹, J. Herrmann¹, J. Gao¹, and R. Fisher². ¹Allergan Inc, Irvine, CA; and ²Vitron Inc, Tucson, AZ.
- #455 **Poster Board Number 142**
Müller Glial Cell (MGC) Alterations Induced by the Inhalation of Vanadium Pentoxide. S. Cervantes-Yépez, S. L. López-Zepeda, and T. I. Fortoul. Biología Celular y Tisular, UNAM, Mexico City, Mexico.
- #456 **Poster Board Number 143**
Circulating miRNA Biomarker of Retinal Toxicity. Q. Peng¹, W. W. Collette¹, A. Giddabasappa², J. David², D. Kalabat¹, M. Twamley¹, S. Aguirre¹, and W. Huang¹. ¹DSRD, Pfizer, San Diego, CA; and ²Comparative Medicine, Pfizer, San Diego, CA.
- #457 **Poster Board Number 144**
Ocular Toxicity and Efficacy of rAAV2tYF-PR1.7-hCNGB3 Vector following Subretinal Injection in Mouse Model of Achromatopsia. B. Christian¹, E. Budzynski¹, P. J. Sonnentag¹, T. M. Nork^{2,3}, P. E. Miller^{2,3}, J. N. Ver Hoeve^{2,3}, C. B. Kim^{2,3}, J. Pang⁴, G. Ye⁵, and J. D. Chulay⁵. ¹Covance Laboratories Inc, Madison, WI; ²University of Wisconsin, Madison, WI; ³OSOD, LLC, Madison, WI; ⁴University of Florida, Gainesville, FL; and ⁵AGTC, Alachua, WI.
- #458 **Poster Board Number 145**
Clinical Progression of Ocular Injuries from Arsenical Vesicant Lewisite Exposure. N. Tewari-Singh¹, D. G. Goswami¹, A. Nagvekar¹, W. A. Sosna², E. Peters², R. S. Tuttle², T. Cully², C. R. Croutch², R. P. Casillas², and R. Agarwal¹. ¹Pharmaceutical Sciences, University of Colorado Denver, Aurora, CO; and ²MRIGlobal, Kansas City, MO.

Abstract #

#459

Poster Board Number 146
Ocular Tolerability of rAAV2tYF-CB-hRS1 Vector following Intravitreal Administration to Cynomolgus Monkeys. P. J. Sonnentag¹, P. E. Miller^{2,4}, E. Budzynski¹, B. Christian¹, D. Dunn¹, T. M. Nork^{2,4}, J. N. Ver Hoeve^{2,4}, C. B. Kim^{2,4}, G. Ye³, and J. D. Chulay³. ¹Covance Laboratories, Inc., Madison, WI; ²OSOD, LLC., Madison, WI; ³AGTC, Alachua, FL; and ⁴University of Wisconsin, Madison, WI.

#460

Poster Board Number 147
Multicentric Study of Reconstructed Human Corneal SkinEthic HCE Test Method for Serious Eye Damage/Eye Irritation Testing. V. Leblanc¹, E. Adriaens², M. Grandidier¹, K. Hollanders³, A. Jacobs³, M. Meloni⁴, L. Nardelli⁵, C. Roper⁵, E. Santirocco⁴, F. Toner⁵, A. R. Van Rompay³, J. Vinnal⁵, J. Cotovio¹, and N. Alépée¹. ¹LOréal, Aulnay sous Bois, France; ²Adriaens Consulting, Aalter, Belgium; ³VITO, Mol, Belgium; ⁴Vitroscreen, Milano, Italy; and ⁵Charles River, Edinburgh, United Kingdom. Sponsor: E. Dufour.

Monday Afternoon, March 23
1:00 PM to 4:30 PM
CC Exhibit Hall

Poster Session: Natural Products

Chairperson(s): Amy Roe, Procter & Gamble Co., Williamstown, KY.

Displayed: 1:00 PM–4:30 PM

Author-Attended: 1:00 PM–2:45 PM

#461

Poster Board Number 149
Assessing Potential Herb-Drug Interactions: Need for a Common Framework Approach. A. L. Roe¹, J. C. Griffiths², B. Gurley³, R. Kingston⁴, H. Oketch-R⁵, and M. Paine⁶. ¹The Procter & Gamble Company, Cincinnati, OH; ²CRN, Washington, DC; ³UAMS, Little Rock, AR; ⁴SafetyCall International, Bloomington, MN; ⁵USP, Rockville, MD; and ⁶Washington State Univ, Spokane, WA.

#462

Poster Board Number 150
In Vitro Evaluation of Boswellia serrata Extract (BSE) As an Inhibitor of CYP450 Using Cryopreserved and Fresh Human Hepatocytes and Human Liver Microsomes. A. L. Roe¹, C. Black², K. R. Brouwer², and J. Jackson². ¹The Procter & Gamble Company, Cincinnati, OH; and ²Qualyst Transporter Solutions, Durham, NC.

#463

Poster Board Number 151
In Vitro Evaluation of Schisandra Extracts (SE) As Inhibitors of CYP450 and P-glycoprotein (P-gp) Utilizing B-CLEAR® Sandwich-Culture Human Hepatocytes (SCHH). J. Jackson², C. Black², K. R. Brouwer², and A. L. Roe¹. ¹The Procter & Gamble Company, Cincinnati, OH; and ²Qualyst Transporter Solutions, Durham, NC.

#464

Poster Board Number 152
Safety Evaluation of Fractions Derived from Peltophorum africanum, a Medicinal Plant Used to Treat Inflammatory Pain in Southern Africa. S. A. Adebayo^{2,1}, J. L. Shai¹, and K. A. Eloff¹. ¹Biomedical Sciences, Tshwane University of Technology, Pretoria, South Africa; and ²Paraclinical Sciences, University of Pretoria, Pretoria, South Africa.

MONDAY

Program Schedule (Continued)

Abstract #		Abstract #	
#465	Poster Board Number 153 Epigallocatechin-3-Gallate (EGCG) Enhances the Therapeutic Effects of Leptomycin B on Human Lung Cancer Cells. M. Cromie, and W. Gao. Texas Tech University, Lubbock, TX.	#472	Poster Board Number 160 Any Anti-Lipidemic Effects of <i>Acer tegmentosum</i> Maxim Extract Are Mediated by AMPK Activation. B. Lee ¹ , C. Choi ² , H. Kim ¹ , H. Jeong ³ , and Y. Hwang ¹ . ¹ Pharmaceutical Engineering, International University of Korea, Jinju, Republic of Korea; ² Jeollanamdo Institute of Natural Resources Research, Jeollanamdo, Republic of Korea; and ³ Department of Toxicology, College of Pharmacy, Chungnam National University, Daejeon, Republic of Korea.
#466	Poster Board Number 154 Kahweol Suppresses Phorbol 12-Myristate 13-Acetate-Induced MMP-9 Expressions via Akt/MAPK/ NF-κB and AP-1 Signaling Pathway. H. Kim, E. Lee, and H. Jeong. Pharmacy, Chungnam National University, Daejeon, Republic of Korea.	#473	Poster Board Number 161 Safety Evaluations of the Aqueous Extract of the Leaves of <i>Moringa oleifera</i> in Rats. A. A. Adedapo ^{2,1} , O. M. Mogbojuri ^{2,1} , and B. O. Emikpe ^{1,2} . ¹ Veterinary Physiology, Biochemistry and Pharmacology, University of Ibadan, Ibadan, Nigeria; and ² Veterinary Pathology, University of Ibadan, Ibadan, Nigeria.
#467	Poster Board Number 155 Inhibitory Effects of Saponins Isolated from the Root of <i>Platycodon grandiflorum</i> on High-Fat Diet-Induced Nonalcoholic Steatohepatitis via Attenuation of Oxidative Stress, Inflammation, and Fibrosis in Rats. J. Choi ¹ , Y. Chung ² , and H. Jeong ¹ . ¹ Pharmacy, Chungnam National University, Daejeon, Republic of Korea; and ² Department of Food and Medicine, International University of Korea, Jinju, Republic of Korea.	#474	Poster Board Number 162 Use of Innocuous Natural Products to Modulate Membrane-Cytoskeletal-Dependent Ras Signaling. N. R. Fuentes ^{1,2} , R. Barhoumi ² , I. Levental ³ , and R. Chapkin ¹ . ¹ Department of Nutrition and Food Science, Texas A&M, College Station, TX; ² Department of Veterinary Physiology & Pharmacology, Texas A&M, College Station, TX; and ³ Department of Integrative Biology and Pharmacology, University of Texas Medical School at Houston, Houston, TX.
#468	Poster Board Number 156 Inhibitory Effects of Saponins, Especially Platyconic Acid A, from <i>Platycodon grandiflorum</i> on Ovalbumin-Induced Mice and PMA-Exposed A549 Cells. H. Jeong ¹ , J. Choi ¹ , and Y. Chung ² . ¹ Pharmacy, Chungnam National University, Daejeon, Republic of Korea; and ² Food and Medicine, International University of Korea, Jinju, Republic of Korea.	#475	Poster Board Number 163 A Comprehensive Toxicological Safety Assessment of an Aqueous Extract of <i>Polypodium leucotomos</i> (Fernblock®). T. Murbach ¹ , I. Pasic Szakonyine ² , E. Beres ² , A. Vertesi ² , R. Glavitis ² , A. Clewell ¹ , G. Hirka ² , and J. R. Endres ¹ . ¹ AIBMR Life Sciences, Inc., Puyallup, WA; and ² Toxi-Coop, Zrt., Budapest, Hungary.
#469	Poster Board Number 157 Inhibitory Effects of Saponins Isolated from the Root of <i>Platycodon grandiflorum</i> on Ovariectomy-Induced Bone Loss in Mice via Osteoblast Differentiation Stimulation and Osteoclast Suppression. Y. Chung ² , J. Choi ¹ , K. Lee ³ , H. Jeong ³ , and H. Jeong ¹ . ¹ Pharmacy, Chungnam National University, Daejeon, Republic of Korea; ² Food and Medicine, International University of Korea, Jinju, Republic of Korea; and ³ College of Pharmacy, Chonnam National University, Gwangju, Republic of Korea.	#476	Poster Board Number 164 Safety Investigation of Herb Extracts: Protective Effects of Phikud Navakot against Oxidative Stress in HepG2 Cells. R. Maniratanachote ¹ , A. Chiangsom ^{1,2} , K. Kulthong ¹ , R. Luechapudiporn ² , D. Meksuriyen ³ , and S. T. Lawanprasert ¹ . ¹ NANOTEC, National Science and Technology Development Agency (NSTDA), Khlong Luang, Thailand; ² Pharmacology and Physiology, Faculty of Pharmaceutical Sciences, Chulalongkorn University, Pathumwan, Thailand; and ³ Biochemistry and Microbiology, Faculty of Pharmaceutical Sciences, Chulalongkorn University, Pathumwan, Thailand.
#470	Poster Board Number 158 Effect of Impressic Acid Isolated from <i>Acanthopanax koreanum</i> on Endothelial Nitric Oxide Synthase Activation in Endothelial Cells. S. Jin, Y. Kim, and H. Jeong. Pharmacy, Chungnam National University, Daejeon, Republic of Korea.	#477	Poster Board Number 165 Mining Maple for <i>In Vitro</i> Anti-Inflammatory and Antihyperglycemic Properties. P. P. Nahar, L. Li, N. P. Seeram, and A. Slitt. Biomedical and Pharmaceutical Sciences, University of Rhode Island, Kingston, RI.
#471	Poster Board Number 159 Protective Effect of Rutaecarpine on Tert-Butyl Hydroperoxide-Induced Apoptosis by Upregulation of Nrf2-Mediated HO-1 Expression via Akt Pathway in HepG2. S. Won ¹ , J. Choi ¹ , Y. Hwang ² , and H. Jeong ¹ . ¹ Pharmacy, Chungnam National University, Daejeon, Republic of Korea; and ² Pharmaceutical Engineering, International University of Korea, Jinju, Republic of Korea.	#478	Poster Board Number 166 Potential Effects of Dietary Novasil Clay on Selected Tissues of Sprague-Dawley Rats. E. Afriyie-Gyawu ¹ , S. McNeal ¹ , K. Bofo ¹ , T. Hill ¹ , and T. D. Phillips ² . ¹ Environmental Health Sciences, Georgia Southern University, Statesboro, GA; and ² Veterinary Integrative Biosciences, Texas A&M University, College Station, TX.

MONDAY

Program Schedule (Continued)

Abstract

- #479 **Poster Board Number 167**
Studies on the Teratogenicity of Anabasine in a Rat Model. K. Welch, S. T. Lee, K. E. Panter, D. R. Gardner, E. L. Knoppel, B. T. Green, C. K. Hammond, Z. J. Hammond, and J. A. Pfister. Poisonous Plant Research Laboratory, USDA-ARS, Logan, UT.
- #480 **Poster Board Number 168**
In Vitro Filaricidal Activity, Cytotoxicity, and Phytochemical Analysis of Crude Extracts of *Daniellia oliveri* and *Psorospermum febrifugum*. M. Abongwa¹, F. Cho-Ngwa², G. A. Ayimele³, M. Samje², S. B. Babiaka³, R. J. Martin¹, and A. P. Robertson¹. ¹Department of Biomedical Sciences, Iowa State University, Ames, IA; ²Department of Biochemistry and Molecular Biology, University of Buea, Buea, Cameroon; and ³Department of Chemistry, University of Buea, Buea, Cameroon.
- #481 **Poster Board Number 169**
Inhibition of Intestinal Cell Proliferation Activity Induced by *Jatropha* Phorbol Ester May Cause Weight Loss and Death In Vivo. Y. Ishihara, and M. Nakao. Public Health, Kurume University, Kurume, Japan.
- #482 **Poster Board Number 170**
Chronic Toxicity of Phorbol Ester, Crude Oil, and Biodiesel Fuel from *Jatropha curcas*. M. Nakao, S. Kinoshita, and Y. Ishihara. Public Health, Kurume University, Kurume, Japan.
- #483 **Poster Board Number 171**
Modulation of Multidrug Resistance by Phytochemicals in Breast Cancer. S. R. Kondraganti, and B. Moorthy. Baylor College of Medicine, Houston, TX.

Monday Afternoon, March 23
 1:00 PM to 4:30 PM
 CC Exhibit Hall

Poster Session: Biomonitoring and Exposure Assessment

Chairperson(s): Janis Hulla, SPK-ED-EC, USACE, Sacramento, CA.

Displayed: 1:00 PM–4:30 PM

Author-Attended: 2:45 PM–4:30 PM

- #484 **Poster Board Number 201**
Exposure Measurement Error and the Impact of Nutrition in Studies of Inorganic Arsenic and Cardiovascular Endpoints. H. N. Lynch, M. W. Tumpney, and B. D. Beck. Gradient, Cambridge, MA.
- #485 **Poster Board Number 202**
Arsenic Concentration in Nail and Drinking Water Samples from a Brazilian Population Exposed Due to Mining Activity. M. C. Faria^{1,3}, M. S. Santos¹, T. G. Andrade¹, I. Alves¹, R. Cassuci², C. A. Bomfeti¹, F. Barbosa³, and J. L. Rodrigues¹. ¹ICET, Universidade Federal dos Vales do Jequitinhonha e Mucuri, Teófilo Otoni, Brazil; ²Faculdade Tecsona, Paracatu, Brazil; and ³Faculdade de Ciências Farmacêuticas de Ribeirão Preto, Universidade de São Paulo, Ribeirão Preto, Brazil. Sponsor: D. Oliveira.
- #486 **Poster Board Number 203**
Arsenic Relative Bioavailability and Exposure from Diet and Other Media. J. Yager^{1,2}, T. Greene¹, R. Gentry¹, and R. Schoof¹. ¹ENVIRON International Corporation, Monroe, LA; and ²University of New Mexico, Albuquerque, NM.

Abstract

- #487 **Poster Board Number 204**
Estimating Children's Soil and Dust Ingestion Rates Using Blood Lead Biomonitoring at the Bunker Hill Superfund Site in the Silver Valley of Idaho. I. von Lindern³, S. Spalinger³, M. L. Stifelman², and L. W. Stanek¹. ¹National Center for Environmental Assessment, US EPA, Research Triangle Park, NC; ²Region 10, US EPA, Seattle, WA; and ³TerraGraphics Environmental Engineering, Moscow, ID.
- #488 **Poster Board Number 205**
Lead Exposure in São Paulo, Brazil: Blood Levels and Risk Factors Associated. K. P. Olympio¹, F. Barbosa³, A. S. Silva³, and M. A. Cardoso¹. ¹Faculdade de Saúde Pública, São Paulo, Brazil; ²PAHO-WHO, Washington, DC; and ³Faculdade de Ciências Farmacêuticas de Ribeirão Preto - USP, Ribeirão Preto, Brazil.
- #489 **Poster Board Number 206**
Evaluation of Hepatic Function Biomarkers and Bone Alkaline Phosphatase in a Population Chronically Exposed to Fluoride through Drinking Water. C. González-Horta¹, E. E. Villarreal-Vega¹, M. I. Jiménez-Córdova², I. A. Domínguez-Guerrero¹, A. Barrera-Hernández², B. E. Sánchez Ramírez¹, R. Infante-Ramírez¹, and L. M. Del Razo². ¹Ciencias Químicas, Universidad Autónoma de Chihuahua, Chihuahua, Mexico; and ²Toxicología, Cinvestav-IPN, Mexico D.F., Mexico.
- #490 **Poster Board Number 207**
Exposure Factors Interactive Resource for Scenarios Tool (ExpoFIRST): A New Tool for Estimating Exposure Using the 2011 Exposure Factors Handbook. M. Cawley¹, R. Overton¹, P. Hartman¹, A. Turley¹, L. Phillips², and J. Moya². ¹ICF International, Durham, NC; and ²Office of Research and Development, US EPA, Washington, DC. Sponsor: M. Selgrade.
- #491 **Poster Board Number 208**
Formulation Development and Validation of an Analytical Method for a Combination-Dose Formulation of Emtricitabine, Tenofovir Disoproxil Fumarate, and Efavirenz in Support of Rodent Toxicology Studies. J. C. Blake¹, J. Gilliam¹, D. Coleman¹, R. A. Fernando¹, V. G. Robinson², B. McIntyre², and S. Waidyanatha². ¹RTI International, Research Triangle Park, NC; and ²Division of National Toxicology Program, NIEHS, Research Triangle Park, NC.
- #492 **Poster Board Number 209**
Comparative Study of Indoor Air Databases and the Veracity of "Background". R. DeHate^{2,1}, B. Skelly², G. T. Johnson¹, and R. D. Harbison¹. ¹College of Public Health, University of South Florida, Tampa, FL; and ²GEI Consultants, Inc, Valrico, FL.
- #493 **Poster Board Number 210**
An Upper Bound for Population Exposure Variability. W. Setzer¹, R. Pearce³, B. A. Wetmore², and J. F. Wambaugh¹. ¹National Center for Computational Toxicology, US EPA, Research Triangle Park, NC; ²The Hammer Institute, Research Triangle Park, NC; and ³Student Services Contractor, Research Triangle Park, NC.

Program Schedule (Continued)

Abstract #	Abstract #
#494	Poster Board Number211 An Analysis of Varskin 5.0 Radiation Dosimetry Software. L. Pryor ¹ , C. A. Dodd ¹ , and R. Tadesse ² . ¹ Biology, Fort Valley State University, Fort Valley, GA; and ² Division of Systems Analysis, Radiation Protection Branch, Nuclear Regulatory Commission, Rockville, MD.
#495	Poster Board Number212 Temporal Trends in Phthalate Exposures in the US Population: A Quantile Regression Approach. M. Chen, and J. E. Foreman. ExxonMobil Biomedical Sciences, Inc., Annandale, NJ.
#496	Poster Board Number213 High-Throughput Exposure Modeling of Semi-Volatile Chemicals in Articles of Commerce. C. I. Nicolas ^{1,3} , M. R. Goldsmith ² , R. Pearce ¹ , W. Setzer ¹ , and J. F. Wambaugh ¹ . ¹ ORD/NCCT, US EPA, Research Triangle Park, NC; ² ORD/NERL, US EPA, Research Triangle Park, NC; and ³ ORISE, Oak Ridge, TN.
#497	Poster Board Number214 A High-Throughput Exposure Estimation Tool Incorporating ADME Processes. H. Hubbard ¹ , C. Henning ¹ , T. Hong ¹ , D. Vallero ² , and P. Egeghy ² . ¹ ICF International, Durham, NC; and ² Office of Research and Development, US EPA, Durham, NC. Sponsor: J. Wignall.
#498	Poster Board Number215 Development of a Computational Model Describing and Extrapolating Salivary Acinar Cell <i>In Vitro</i> Pesticide Transport. C. Timchalk, T. J. Weber, and J. N. Smith. Pacific Northwest National Laboratory, Richland, WA.
#499	Poster Board Number216 Development of an <i>In Vitro</i> Screening Assay for Noninvasive Biomonitoring. T. J. Weber, J. N. Smith, and C. Timchalk. Health Impacts and Exposure Science, Pacific Northwest National Laboratory, Richland, WA.
#500	Poster Board Number217 8-Isoprostane: A Strategy to Assess the Link between Environmental Stressors and Community Health. J. M. Santos ¹ , J. Labond ² , N. Salvati ² , A. Rilett ² , M. Jurban ³ , and H. Kim ² . ¹ Federal University of Goias, Jatai, Brazil; ² Detroit R&D, Inc, Detroit, MI; and ³ Detroit Water and Sewerage Department, Detroit, MI.
#501	Poster Board Number218 Monitoring <i>Fusarium</i> Mycotoxins by GC-MS/MS in European Beers. Y. Rodríguez-Carrasco, M. Ruiz, G. Font, and H. Berrada. Toxicology, University of Valencia, Burjassot, Spain.
#502	Poster Board Number219 Multi-Mycotoxin Dietary Exposure Monitoring in Cameroon Using Liquid Chromatography Tandem Mass Spectrometry (LC-MS/MS). W. A. Abia ^{1,2,3} , B. Warth ² , M. Sulyok ² , R. Krska ² , P. Turner ⁴ , C. Kouanfack ⁵ , M. Eyongetah ⁶ , A. Tchana ¹ , P. B. Njobeh ³ , M. Dutton ⁷ , and P. F. Moundipa ¹ . ¹ Biochemistry, University of Yaounde I, Yaounde, Cameroon; ² Agrobiotechnology, University of Natural Resources and Life Sciences, Vienna, Austria; ³ Biotechnology and Food Technology, University of Johannesburg, Johannesburg, South Africa; ⁴ School of Public Health, MIAEH, University of Maryland, College Park, MD; ⁵ Day Care Hospital, Central Hospital, Yaounde, Cameroon; ⁶ Day Care Hospital, Regional Hospital Bamenda, Bamenda, Cameroon; and ⁷ Food, Environment and Health Research Group, University of Johannesburg, Johannesburg, South Africa.
#503	Poster Board Number220 Exposure Assessment of Lotion, Stick, and Spray Sunscreen Application. G. L. Anderson ¹ , R. M. Novick ¹ , E. Miller ¹ , D. Allgeier ¹ , and K. Unice ² . ¹ Cardno ChemRisk, San Francisco, CA; and ² Cardno ChemRisk, Pittsburgh, PA.
#504	Poster Board Number221 Risk of Dermal Sensitization to Methylisothiazolinone from Lotion Sunscreen. R. M. Novick ¹ , G. L. Anderson ¹ , E. Miller ¹ , D. Allgeier ¹ , and K. Unice ² . ¹ Cardno ChemRisk, San Francisco, CA; and ² Cardno ChemRisk, Pittsburgh, PA.
#505	Poster Board Number222 Exposure Factor Considerations for Risk Assessment of Modern Disposable Diapers. S. Dey ¹ , M. Purdon ¹ , T. Kirsch ² , K. Kerr ¹ , H. Helbich ² , and S. Zhou ¹ . ¹ The Procter & Gamble Company, Cincinnati, OH; and ² Procter & Gamble Service GmDH, Schwalbach, Germany. Sponsor: S. Felter.
#506	Poster Board Number223 Determination of Polybrominated Diphenyl Ethers and Polychlorinated Biphenyls in Bovine Milk. Y. Lin, X. Chen, K. Dang, and B. Puschner. VM: Molecular Biosciences, University of California, Davis, Davis, CA.
#507	Poster Board Number224 Bisphenol A Metabolites Levels in Pooled Urine Specimens from Pregnant Women in Rio de Janeiro, Brazil. A. P. Ferreira. Sergio Arouca National School of Public Health, Rio de Janeiro, Brazil. Sponsor: H. Castro.
#508	Poster Board Number225 24-Hour Human Urine and Serum Profiles of Bisphenol: Evidence against Significant Sublingual Absorption of BPA following Oral Exposure in Soup. J. G. Teeguarden ^{1,2} , D. R. Doerge ³ , M. I. Churchwell ³ , and N. C. Twaddle ³ . ¹ Health Effects and Exposure Science, Pacific Northwest National Laboratory, Richland, WA; ² Molecular and Environmental Toxicology, Oregon State University, Corvallis, OR; and ³ National Center for Toxicological Research, US FDA, Jefferson, AR.

MONDAY

Program Schedule (Continued)

Abstract

- #509 **Poster Board Number226**
Serum Pesticide and PCB Levels Are Associated with Peripheral Blood Leukocyte Populations in Great Lakes Anglers. *F. D. Stephen¹, L. Georger¹, M. R. Bonner³, P. J. Kostyniak^{2,3}, J. R. Olson^{2,3}, M. S. Bloom⁴, and J. E. Vena⁵.* ¹Department of Math and Natural Sciences, D'Youville College, Buffalo, NY; ²Department of Pharmacology and Toxicology, SUNY, Buffalo, NY; ³Department of Epidemiology and Environmental Health, SUNY, Buffalo, NY; ⁴Department of Environmental Health Sciences, SUNY, Albany, NY; and ⁵Department of Epidemiology and Biostatistics, University of Georgia, Athens, GA.
- #510 **Poster Board Number227**
PAH Bioavailability from Incidentally Ingested Soil: Influence of Thermodynamics and Metal Coexposure. *K. J. James^{1,2}, R. E. Peters^{1,2}, and S. D. Siciliano^{1,2}.* ¹Toxicology, University of Saskatchewan, Saskatoon, SK, Canada; and ²Soil Science, University of Saskatchewan, Saskatoon, SK, Canada.
- #511 **Poster Board Number228**
Non-Hodgkin's Lymphomas in Humans and Dogs in the City of São Paulo, Brazil: Spatial Distribution As a Clue to a Potential Etiologic Role for Environmental Pollution. *K. Kimura, and M. L. Dagli.* Department of Pathology, University of Sao Paulo, Sao Paulo, Brazil.
- #512 **Poster Board Number229**
A Comparison of Ambient Air BTEX Concentrations between Two Counties with Active Petroleum Wells. *A. LeBeau.* CRA, Dallas, TX.
- #513 **Poster Board Number230**
Assessment of Public Health Risks Associated with Petrochemical Emissions Surrounding an Oil Refine. *E. Pulster^{1,2}, G. T. Johnson², J. D. McCluskey², and R. D. Harbison².* ¹Mote Marine Laboratory, Sarasota, FL; and ²College of Public Health, University of South Florida, Tampa, FL.
- #514 **Poster Board Number231**
Benzene Concentrations in Working Environment of Workers at Gasoline Stations. *S. Chaiklieng¹, C. Pimpasaeng², and P. Suggaravetsiri³.* ¹Environmental Health Science, Faculty of Public Health, Khon Kaen University, Khon Kaen, Thailand; ²Faculty of Public Health, Khon Kaen University, Khon Kaen, Thailand; and ³Epidemiology, Faculty of Public Health, Khon Kaen University, Khon Kaen, Thailand.
- #515 **Poster Board Number232**
The Naphthalene Dosimeter—Vanguard Technology for Improved Health Protection. *J. Hulla¹, S. Proctor², and J. E. Snawder³.* ¹SPK-ED-E, US Army Corps of Engineers, Sacramento, CA; ²Military Performance Division, US Army Research Institute of Environmental Medicine, Natick, MA; and ³Biomonitoring Team, National Institute for Occupational Safety and Health, Cincinnati, OH.

Abstract

- #516 **Poster Board Number233**
Volatile Organic Compounds Released from Spreading Ground Coffee during a Simulated Industrial Task. *A. Urban¹, S. H. Gaffney¹, L. McCarthy¹, D. M. Hollins¹, A. Abelmann², K. Unice³, M. Liang¹, B. L. Finley⁴, and J. L. Henshaw⁵.* ¹Cardno ChemRisk, San Francisco, CA; ²Cardno ChemRisk, Chicago, IL; ³Cardno ChemRisk, Pittsburgh, PA; ⁴Cardno ChemRisk, Brooklyn, NY; and ⁵Cardno ChemRisk, Sanibel, FL.
- #517 **Poster Board Number234**
Inverse Correlation of Urinary Phenol with Key Micronutrients of the Haem Pathway in Nigerian Gasoline Dispensers: Potentiation of Myelotoxicity and Myelodysplasia. *J. I. Anetor¹, T. Adigun¹, E. Bolajoko¹, G. O. Anetor², B. Orimadegun¹, K. Ademola-Aremu¹, and G. Igharo¹.* ¹Department of Chemical Pathology, University of Ibadan, Ibadan, Nigeria; and ²Community Health, National Open University, Lagos, Nigeria.
- #518 **Poster Board Number235**
Monitoring Agricultural Workers Exposed to ChE-Inhibiting Pesticides. *O. Laribi, B. Malig, R. Broadwin, W. Wieland, R. Woods, K. Sutherland-Ashley, C. Salocks, D. Ting, and L. Zeise.* Office of Environmental Health Hazard Assessment, Cal EPA, Oakland/Sacramento, CA.
- #519 **Poster Board Number236**
Time Courses and Variability of Biomarkers of Exposure to Pyrethroids in a Group of Agricultural Workers. *M. Ratelle, J. Côté, and M. Bouchard.* Department of Environmental & Occupational Health, University of Montreal, Montreal, QC, Canada.
- #520 **Poster Board Number237**
Detailed Time Profiles of Biomarkers of Exposure in Workers Exposed to Permethrin in a Corn Production Farm in Quebec, Canada. *S. Ferland, J. Côté, and M. Bouchard.* Department of Environmental & Occupational Health, University of Montreal, Montreal, QC, Canada.

Monday Afternoon, March 23

1:00 PM to 4:30 PM
 CC Exhibit Hall

Poster Session: Genetic Toxicology I

Chairperson(s): *Virunya S. Bhat, NSF International, Encinitas, CA; and Barbara Parsons, National Center for Toxicological Research, Jefferson, AR.*

Displayed: 1:00 PM–4:30 PM

Author-Attended: 1:00 PM–2:45 PM

- #521 **Poster Board Number239**
Evaluation of *cII* Mutations in Lungs of Male Big Blue Mice Exposed to Vanadium Pentoxide by Inhalation for Up to 8 Weeks. *M. G. Manjanatha¹, S. D. Shelton¹, L. T. Haber², B. Gollapudi³, and M. M. Moore^{1,4}.* ¹Genetic and Molecular Toxicology, FDA/NCTR, Jefferson, AR; ²Toxicology Excellence for Risk Assessment, Cincinnati, OH; ³Center for Toxicology and Mechanistic Biology, Exponent Inc., Midland, MI; and ⁴ENVIRON International Corporation, Little Rock, AR.

MONDAY

Program Schedule (Continued)

Abstract #	Abstract #
<p>#522 Poster Board Number240 Quantification of <i>Kras</i> Codon 12 Mutations in Lung DNA of B6C3F1 Mice following Inhalation of Aerosolized Particulate Vanadium Pentoxide. <i>M. Banda</i>¹, <i>K. L. McKim</i>¹, <i>L. T. Haber</i>², <i>J. A. MacGregor</i>³, <i>B. Gollapudi</i>⁴, and <i>B. L. Parsons</i>¹. ¹Division of Genetic and Molecular Toxicology, National Center for Toxicological Research, US FDA, Jefferson, AR; ²Toxicology Excellence for Risk Assessment, Cincinnati, OH; ³Toxicology Consulting Services, Arnold, MD; and ⁴Exponent, Chicago, IL.</p> <p>#523 Poster Board Number241 Effect of Age on <i>Kras</i> Codon 12 GAT and GTT Mutant Fractions in Lungs of Mice 4 to 85 Weeks Old. <i>P. B. McKinzie</i>, <i>M. G. Pearce</i>, and <i>K. L. McKim</i>. Division of Genetic and Molecular Toxicology, National Center for Toxicological Research, Jefferson, AR. Sponsor: <i>M. Manjanatha</i>.</p> <p>#524 Poster Board Number242 Optimization of Methods and Proof of Principle for Assessing Mutagenicity in the Oral Cavity of Transgenic Big Blue® Rats. <i>R. R. Young</i>, <i>H. Dinesdurge</i>, and <i>R. Elbekai</i>. BioReliance, Rockville, MD. Sponsor: <i>M. McKeon</i>.</p> <p>#525 Poster Board Number243 Hexavalent Chromium Does Not Induce Mutations in the Oral Mucosa of Transgenic Big Blue® Rats following Drinking Water Exposures at a Carcinogenic Dose. <i>C. M. Thompson</i>¹, <i>R. R. Young</i>², <i>M. Suh</i>³, <i>H. Dinesdurge</i>⁴, <i>R. Elbekai</i>², <i>M. A. Harris</i>¹, <i>A. C. Rohr</i>⁴, and <i>D. Proctor</i>³. ¹ToxStrategies, Katy, TX; ²BioReliance, Rockville, MD; ³ToxStrategies, Mission Viejo, CA; and ⁴Electric Power Research Institute, Palo Alto, CA.</p> <p>#526 Poster Board Number244 Detection of ENU-Induced Mutations in the Germ Cells of the Transgenic Muta™ Mouse. <i>C. Beevers</i>, <i>G. Pearce</i>, <i>T. Downend</i>, <i>L. Foster</i>, and <i>R. Mortimer</i>. Covance Laboratories Ltd, Harrogate, United Kingdom. Sponsor: <i>J. Bhalli</i>.</p> <p>#527 Poster Board Number245 Impact of Dexrazoxane on Epirubicin-Induced DNA Damage and Apoptosis in Nontumor Cells. <i>S. M. Attia</i>¹, <i>S. A. Albakheet</i>¹, <i>S. Ahmad</i>¹, and <i>Q. Saquib</i>². ¹Department of Pharmacology, College of Pharmacy, King Saud University, Riyadh, Saudi Arabia; and ²Department of Zoology, College of Science, King Saud University, Riyadh, Saudi Arabia.</p> <p>#528 Poster Board Number246 Dihydroxyacetone Induces Cytotoxicity and DNA Damage in a Dose- and Time-Dependent Manner in an <i>In Vitro</i> Primary Human Skin Cell Culture Model. <i>A. DePina</i>, <i>R. L. Jones</i>, and <i>J. Yourick</i>. Division of Toxicology (DT), US FDA, Center for Food Safety and Applied Nutrition (CFSAN), Office of Applied Research and Safety Assessment (OARSA), Laurel, MD.</p> <p>#529 Poster Board Number247 Mechanistic Study of <i>Ginkgo biloba</i> Leaf Extract-Induced DNA Damage in Human Hepatic Cells. <i>Z. Zhang</i>¹, <i>S. Chen</i>², <i>J. Xuan</i>², <i>X. Guo</i>¹, <i>L. Couch</i>², <i>L. Guo</i>², and <i>N. Mei</i>¹. ¹Division of Genetic and Molecular Toxicology, National Center for Toxicological Research, Jefferson, AR; and ²Division of Biochemical Toxicology, National Center for Toxicological Research, Jefferson, AR.</p>	<p>#530 Poster Board Number248 DNA Damage Response Analysis of Cyclophosphamide Using DT40 Mutants in the Presence of Rat Liver S9 Fraction. <i>K. Hashimoto</i>^{1,2}, <i>J. A. Swenberg</i>¹, and <i>J. Nakamura</i>¹. ¹Environmental Sciences and Engineering, The University of North Carolina, Chapel Hill, NC; and ²Drug Safety Research Laboratories, Takeda Pharmaceutical, Fujisawa, Japan.</p> <p>#531 Poster Board Number249 Miniaturized Flow Cytometry-Based Homogeneous DNA-Damage Response Assay Discriminates Clastogens, Aneugens, and Cytotoxicants. <i>S. Bryce</i>¹, <i>J. Bemis</i>², <i>R. Spellman</i>², <i>M. Engel</i>², <i>M. Schuler</i>², and <i>S. Dertinger</i>¹. ¹Litron Labs, Rochester, NY; and ²Pfizer Worldwide Research & Development, Genetic Toxicology, Groton, CT.</p> <p>#532 Poster Board Number250 Developmental Mitochondrial DNA Damage Results in Altered Mitochondrial Function Later in Life in <i>C. elegans</i>. <i>J. Rooney</i>, <i>A. Luz</i>, <i>I. T. Ryde</i>, <i>A. S. Bess</i>, and <i>J. N. Meyer</i>. Nicholas School of the Environment, Duke University, Durham, NC.</p> <p>#533 Poster Board Number251 Genotoxic Effect of 1,2-Dichloropropane in ALDH2-Deficient Mice. <i>R. Wang</i>, <i>T. Suzuki</i>, <i>Y. Yanagiba</i>, and <i>M. Suda</i>. Japan National Institute of Occupational Safety and Health, Kawasaki, Japan. Sponsor: <i>N. Mei</i>.</p> <p>#534 Poster Board Number252 Role of Helicases in Removal of Zidovudine (AZT)-Induced Genotoxicity in DNA-Repair Deficient Human Cultured Fibroblasts. <i>D. Momot</i>, <i>M. C. Poirier</i>, and <i>O. Olivero</i>. National Cancer Institute, Bethesda, MD.</p> <p>#535 Poster Board Number253 Cytokinesis-Block Micronucleus following Telomere Centromere Staining. <i>N. Zaguia</i>², <i>F. Finot</i>¹, <i>L. Morat</i>³, <i>O. Cariou</i>¹, <i>F. Paillard</i>¹, <i>L. Heidingfelder</i>⁴, <i>M. Ricoul</i>³, <i>W. Hemple</i>³, <i>J. Clements</i>², <i>L. Sabatier</i>³, and <i>R. Mkacher</i>³. ¹Safety Assessment, Covance, Porcheville, France; ²Safety Assessment, Covance, Harrogate, United Kingdom; ³Radiobiology and Oncology Laboratory, CEA, Fontenay-aux-Roses, France; and ⁴MetaSystems, MetaSystems GmbH, Altussheim, Germany. Sponsor: <i>A. Romeike</i>.</p> <p>#536 Poster Board Number254 Telomere Instability in <i>In Vitro</i> Genotoxicity Assessment of Ethyl 4-Hydroxybenzoate. <i>F. Finot</i>¹, <i>R. Mkacher</i>³, <i>I. Mouche</i>¹, <i>D. Souverville</i>¹, <i>S. Négrault</i>¹, <i>O. Cariou</i>¹, <i>A. Essahli</i>¹, <i>N. Prigent</i>¹, <i>J. Saul</i>², <i>F. Paillard</i>¹, <i>P. Lafouge</i>¹, <i>L. Sabatier</i>³, and <i>J. Clements</i>². ¹Safety Assessment, Covance, Porcheville, France; ²Safety Assessment, Covance, Harrogate, United Kingdom; and ³Radiology and Oncology Laboratory, CEA, Fontenay-aux-Roses, France. Sponsor: <i>A. Romeike</i>.</p> <p>#537 Poster Board Number255 The Food Processing Contaminant 2,5-Dimethylfuran Shows Genotoxic and Tumorigenic Potential in V79-Cells and <i>Apc</i>(Min/+) Mice. <i>A. H. Sæther</i>¹, <i>M. P. Huffman</i>¹, <i>C. Svendsen</i>¹, <i>H. Glatt</i>², <i>G. Brunborg</i>¹, <i>J. Alexander</i>¹, and <i>T. Husøy</i>¹. ¹Norwegian Institute of Public Health, Oslo, Norway; and ²German Institute of Human Nutrition, Potsdam-Rehbrücke, Germany. Sponsor: <i>U. Nygaard</i>.</p>

MONDAY

Program Schedule (Continued)

Abstract

- #538 **Poster Board Number256**
Lack of Genotoxicity/Carcinogenicity of Methylisoeugenol (MIE) Compared to Methyl Eugenol (ME). S. Kercher, M. Gerlach, A. T. Cartus, and D. Schrenk. Food Chemistry and Toxicology, University of Kaiserslautern, Kaiserslautern, Germany.
- #539 **Poster Board Number257**
Dose-Response Relationships for DNA-Adducts Formed by Mono-, Di- and Tri-Chlorobiphenyls: Do Common Indoor and Outdoor PCB Vapor Exposures Pose a Significant Cancer Risk? P. Scott¹, A. J. Bernal², T. Cheng³, E. DeGandiaga², and B. D. Kerger². ¹Cardno ChemRisk, Pittsburgh, PA; and ²Cardno ChemRisk, Aliso Viejo, CA.
- #540 **Poster Board Number258**
Analysis of Duodenal Crypt Health following Exposure to Cr(VI) in Drinking Water. M. A. Harris¹, C. M. Thompson¹, D. Proctor², M. Suh², J. Wolf³, J. Seiter⁴, M. Chappell⁴, and L. C. Haws⁵. ¹ToxStrategies, Katy, TX; ²ToxStrategies, Mission Viejo, CA; ³EPL, Sterling, VA; ⁴US Army ERDC, Vicksburg, MS; and ⁵ToxStrategies, Austin, TX.
- #541 **Poster Board Number259**
Building Models of Bacterial Mutagenicity from Biased Training Data. C. Barber¹, T. Hanser¹, N. L. Kruhlik², L. Stavitskaya², J. Vessey¹, and S. Werner¹. ¹Lhasa Limited, Leeds, United Kingdom; and ²Center for Drug Evaluation and Research (CDER), FDA, Silver Spring, MD.
- #542 **Poster Board Number260**
Using Computational Toxicology and Functional Toxicogenomic Approaches to Elucidate Structural Features of Furan Biofuel Candidate Compounds Contributing to Genotoxicity. D. Faulkner¹, B. Ford¹, C. Hill², J. Hartwig², M. J. Mulvihill², D. E. Johnson¹, M. Fasullo³, and C. Vulpe¹. ¹Nutritional Sciences and Toxicology, University of California, Berkeley, Berkeley, CA; ²Chemistry, University of California, Berkeley, Berkeley, CA; and ³Nanobiosciences, State University of New York, Albany, NY.
- #543 **Poster Board Number261**
Genotoxicity Is Not a Key Event in 1,3-Dichloropropene-Induced Mouse Lung Tumorigenicity. R. Sura¹, S. C. Gehen², Z. Yan², and M. J. LeBaron¹. ¹The Dow Chemical Company, Midland, MI; and ²Dow AgroSciences, Indianapolis, IN.
- #544 **Poster Board Number262**
Investigating the Effect of Hexavalent Chromium on an Error-Prone Repair Pathway, Nonhomologous End Joining. K. N. Thompson, Q. Qin, H. Xie, and J. P. Wise. University of Southern Maine, Portland, ME.
- #545 **Poster Board Number263**
Formation of Endogenous and Exogenous DNA-Protein Crosslinks in Nonhuman Primates and Rats following Inhalation Exposure to [13CD2]-Formaldehyde. Y. Lai, W. Bodnar, H. Hartwell, and J. A. Swenberg. Department of Environmental Sciences and Engineering, University of North Carolina at Chapel Hill, Chapel Hill, NC.

Abstract

- #546 **Poster Board Number264**
Role of Inflammatory Cytokine IL-6 in Regulating the Genotoxicity of BaP and PHiP in the Breast Cancer Cell Lines. D. S. Malik, R. David, and N. J. Gooderham. Surgery and Cancer, Imperial College, London, United Kingdom.
- #547 **Poster Board Number265**
Formation of Pyrrolizidine Alkaloid-Derived DNA Adducts from Rat Liver Microsomal Metabolism of Hepatotumorigenic Pyrrolizidine Alkaloids in the Presence of Calf Thymus DNA. P. Fu¹, Q. Xia¹, X. Jiang^{1,2}, L. Cai³, and X. Sun². ¹Biochemical Toxicology, NCTR, FDA, Jefferson, AR; ²National Institute of Occupational Health and Poison Control, Chinese Center for Disease Control and Prevention, Beijing, China; and ³Biotranex LLC, Monmouth Junction, NJ. Sponsor: G. Lei.
- #548 **Poster Board Number266**
Endogenous Aldehydes Are Ubiquitous Sources of Widespread DNA Damage in Mice with DNA Repair Deficiencies. R. Yu¹, L. B. Pontel², K. J. Patel², and J. A. Swenberg¹. ¹Environmental Sciences and Engineering, University of North Carolina at Chapel Hill, Chapel Hill, NC; and ²MRC Laboratory of Molecular Biology, University of Cambridge, Cambridge, United Kingdom.
- #549 **Poster Board Number267**
Understanding the Molecular Mechanism of Formaldehyde-Induced DNA-Protein Crosslink Repair. S. V. Vulimiri, N. Keshava, J. M. Fritz, and B. R. Sonawane. ORD/NCEA, US EPA, Washington, DC.

Monday Afternoon, March 23
 1:00 PM to 4:30 PM
 CC Exhibit Hall

Poster Session: Cell Death and Apoptosis

Chairperson(s): Sidhartha D. Ray, Pharmaceutical Sciences, Manchester University College Pharmacy, Fort Wayne, IN.

Displayed: 1:00 PM–4:30 PM

Author-Attended: 2:45 PM–4:30 PM

- #550 **Poster Board Number301**
Aryl Hydrocarbon Receptor Activation by Cinnabarinic Acid Is Required for Stanniocalcin-2-Mediated Protection against Alcohol-Induced Hepatic Injury. D. Carter¹, A. D. Joshi¹, T. Harper², and C. Elferink¹. ¹Pharmacology, UTMB, Houston, TX; and ²Linus Pauling Institute, OSU, Corvallis, OR.
- #551 **Poster Board Number302**
Inhibition of Serum-Deprived Autophagy by Chloroquine Increases Nitric Oxide Production and Promotes Endothelium-Dependent Vasorelaxation. C. R. Pestana^{1,2}, J. C. Oishi², H. S. Salistre-Araujo², and G. J. Rodrigues². ¹Instituto Latino-Americano de Ciências da Vida e da Natureza, Universidade Federal da Integração Latino-Americana, Foz do Iguaçu, Brazil; and ²Departamento de Ciências Fisiológicas, Universidade Federal de São Carlos, São Carlos, Brazil. Sponsor: D. Dorta.

Program Schedule (Continued)

Abstract #	Abstract #
#552	Poster Board Number303 Impact of Dosing Volume and Seeding Density on the Cell Death Triggered by Lysosomotropism. T. Sung, B. A. Jessen, and S. Lu. Pfizer Inc, San Diego, CA.
#553	Poster Board Number304 Cytotoxicity Studies and Mechanism of Cell Death Mediated by Phenolic Antioxidants on Cells of Melanocytic Origin. S. Kerr ¹ , M. Alanazi ¹ , and J. DeMasi ² . ¹ Pharmaceutical Sciences, MCPHS University, Boston, MA; and ² Arts & Sciences, MCPHS University, Boston, MA. Sponsor: R. Sarangarajan.
#554	Poster Board Number305 Mechanisms of Tolvaptan-Associated Hepatocellular Toxicity in HepG2 Cells. J. Fang, Y. Wu, S. Chen, F. Liu, and F. A. Beland. DBT, NCTR, Jefferson, AR.
#555	Poster Board Number306 ROS and c-Jun N-terminal Kinases (JNK) Contribute to TEMPO-Induced Apoptosis in L5178Y Cells. X. Guo ¹ , S. Chen ² , V. N. Dobrovolsky ¹ , L. Guo ² , and N. Mei ¹ . ¹ DGMT, NCTR, Jefferson, AR; and ² DBT, NCTR, Jefferson, AR.
#556	Poster Board Number307 Subchronic Coexistence of Aflatoxicosis and Protein Malnutrition Induces Cell Death in the Liver of Weanling Rats. O. A. Rotimi ^{1,2} , S. O. Rotimi ¹ , O. Ademuyiwa ² , F. Oluwafemi ³ , and E. A. Balogun ² . ¹ Biological Sciences, Covenant University, Ota, Nigeria; ² Biochemistry, Federal University of Agriculture, Abeokuta, Nigeria; and ³ Microbiology, Federal University of Agriculture, Abeokuta, Nigeria.
#557	Poster Board Number308 Generation of a Novel Genetically Modified Model for Detecting Apoptosis in Zebrafish Using Fluorescence Resonance Energy Transfer (FRET) System. A. Yamashita ^{1,2} , J. Deguchi ¹ , T. Yamada ¹ , Y. Nishimura ² , H. Funabashi ¹ , and T. Tanaka ² . ¹ Preclinical Research Laboratories, Dainippon Sumitomo Pharma Co., Ltd., Osaka, Japan; and ² Department of Molecular and Cellular Pharmacology, Pharmacogenomics and Pharmacoinformatics, Mie University Graduate School of Medicine, Tsu, Japan.
#558	Poster Board Number309 Lipid-Derived Aldehyde, Acrolein, Is a Critical Mediator of Alcohol-Induced Gut-Liver Injury in Alcoholic Liver Disease. W. Chen ² , J. Zhang ¹ , S. Barve ^{1,2} , C. McClain ^{1,2,3} , and S. Joshi-Barve ^{1,2} . ¹ Medicine, University of Louisville, Louisville, KY; ² Pharmacology & Toxicology, University of Louisville, Louisville, KY; and ³ Robley Rex VAMC, Louisville, KY.
#559	Poster Board Number310 Fumonisin B1 Inhibits Apoptosis in HepG2 Cells by Inducing Birc-8/ILP-2. A. A. Chuturgoon ¹ , A. A. Phulukdaree ^{1,2} , and D. Moodley ^{3,2,1} . ¹ Medical Biochemistry, University of KwaZulu-Natal, Durban, South Africa; ² University of KwaZulu-Natal, Durban, South Africa; and ³ Microbiology and Immunology, Harvard, Boston, MA. Sponsor: G. Shephard.
#560	Poster Board Number311 Expression and Methylation Analysis of Apoptosis-Related Genes Survivin and Bcl2L13 in Mice Subchronic Exposure to Inhaled Benzene. H. Yan, C. Lin, H. Wu, S. Ji, Y. Zhang, and Q. Qin. School of Environmental Science and Public Health, Wenzhou Medical University, Wenzhou, China.
#561	Poster Board Number312 New Therapeutic and Research Tool: Cytoprotective Inhibitors for Apoptotic Endonucleases. D. Jang ¹ , N. Penthala ¹ , T. Fite ¹ , E. O. Apostolov ¹ , P. A. Crooks ¹ , and A. Basnakian ^{1,2} . ¹ University of Arkansas for Medical Sciences, Little Rock, AR; and ² Central Arkansas Veterans Healthcare System, Little Rock, AR.
#562	Poster Board Number313 In Vitro Analysis of the Role of CFTR in the Induction/Response to Oxidative Stress in NRK-52E Cells Exposed to NaF. J. Narváez Morales, O. G. Aztatzi-Aguilar, R. López-Villaseñor, M. S. Ortega-Romero, and O. Barbier. Toxicología, CINVESTAV, Mexico City, Mexico.
#563	Poster Board Number314 Antiproliferative Activity Of Leaf Extract of <i>Spondias mombin</i> L.(Anacardiaceae) on Human Colon Cancer Cell Lines (CaCo2). O. E. Olat Davies ¹ , J. E. Mata ² , O. S. Olawuwo ¹ , and O. A. Odunola ³ . ¹ Department of Veterinary Physiology, Biochemistry and Pharmacology, University of Ibadan, Ibadan, Nigeria; ² Department of Basic Medical Sciences, College of Osteopathic Medicine of the Pacific, Western University of Health Science, Lebanon, OR; and ³ Department of Biochemistry, College of Medicine, Faculty of Basic Medical Sciences, University of Ibadan, Ibadan, Nigeria.
#564	Poster Board Number315 Evaluation of the Cytotoxicity of Electronic Cigarette Refill Fluids by Four In Vitro Assays and Three Cell Lines. Y. Fu, H. Chen, S. Han, T. Liu, C. Ren, H. Hou, and Q. Hu. China National Tobacco Quality Supervision & Test Center, Zhengzhou, China.
#565	Poster Board Number316 Selective Toxicity of Plant-Based Analogues against Resistant Colorectal Cancer. C. Lee ¹ , K. Chandrabose ² , P. Trivedi ² , and A. K. Tiwari ^{1,2} . ¹ Biomedical Sciences, Tuskegee University, Tuskegee, AL; and ² School of Pharmaceutical Sciences, Rajiv Gandhi Proudyogiki Vishwavidyalaya, Bhopal, India. Sponsor: N. Singh.
#566	Poster Board Number317 Mass Spectroscopic In Vitro Assay for Screening Different Types of Cytotoxicity. N. Chiu, R. Diaz, P. Wright, and Z. Jia. University of North Carolina at Greensboro, Greensboro, NC.
#567	Poster Board Number318 Galactosylated Poly(ethyleneglycol)-Lithocholic Acid Selectively Kills Hepatoma Cells, While Sparing Normal Liver Cells. N. Gankhuyag ¹ , B. Singh ² , C. Cho ² , and M. Cho ¹ . ¹ Veterinary Medicine, Seoul National University, Seoul, Republic of Korea; and ² Agricultural Biotechnology and Research Institute for Agriculture and Life Sciences, Seoul National University, Seoul, Republic of Korea.

MONDAY

Program Schedule (Continued)

Abstract

- #568 **Poster Board Number319**
The Role of Autophagy in Usnic Acid-Induced Toxicity in Hepatic Cells. S. Chen, V. N. Dobrovolsky, F. Liu, Y. Wu, Z. Zhang, N. Mei, and L. Guo. National Center for Toxicological Research, Jefferson, AR.
- #569 **Poster Board Number320**
The Role of ER Stress and Store-Operated Calcium Entry in Usnic Acid-Induced Toxicity in Hepatic Cells. L. Guo, Z. Zhang, Y. Wu, and S. Chen. NCTR, Jefferson, AR.
- #570 **Poster Board Number321**
Pro- and Antiapoptotic Gene Expression Patterns Correlate with Histopathological Changes in the Liver and Kidneys of Mice Exposed to High Doses of Aliphatic Alcohols. A. Patel¹, V. Lawana², and S. D. Ray³. ¹Computational Biol. Labs, Cold Spring Harbor Labs, Cold Spring Harbor, NY; ²BioScs & Neurotox Labs, Iowa State Univ., Ames, IA; and ³Pharmaceutical Scs Dept., Manchester University College Pharmacy, Fort Wayne, IN.
- #571 **Poster Board Number322**
Involvement of Regulated Necrosis in the Pathogenesis of Drug-Induced Acute Liver Failure. K. Takemoto^{1,2}, E. Hatano², K. Iwaisako³, K. Toriguchi², K. Tanabe², S. Seo², K. Taura², S. Uemoto², and M. Asagiri¹. ¹Innovation Center for Immunoregulation and Therapeutics, Graduate School of Medicine, Kyoto University, Kyoto, Japan; ²Division of Hepato-Biliary-Pancreatic Surgery and Transplantation, Department of Surgery, Graduate School of Medicine, Kyoto University, Kyoto, Japan; and ³Department of Target Therapy Oncology, Graduate School of Medicine, Kyoto University, Kyoto, Japan. Sponsor: Y. Miyamae.
- #572 **Poster Board Number323**
The Cytochrome P450 Inhibitor Proadifen (SKF-525A) Disrupts Autophagy in Primary Rat Hepatocytes. Q. Shi, Y. Luo, and X. Yang. Division of Systems Biology, US FDA, NCTR, Jefferson, AR.

Monday Afternoon, March 23
 1:00 PM to 4:30 PM
 CC Exhibit Hall

Poster Session: Risk Assessment II

🌀 Strategies for Exposure and Risk Assessments

Chairperson(s): João P. Teixeira, INSA/ISPUP, Porto, Portugal.

Displayed: 1:00 PM–4:30 PM

Author-Attended: 1:00 PM–2:45 PM

- #573 **Poster Board Number326**
Population Modeling of Modified Risk Tobacco Products. B. Poland¹, I. Rubets¹, and K. Lee². ¹Consulting Services, Pharsight, A Certara Company, Sunnyvale, CA; and ²JT International SA, Geneva, Switzerland.
- #574 **Poster Board Number327**
Extension of the Margin of Exposure (MOE) Approach for the Prioritization of Tobacco Smoke Toxicants. F. H. Cunningham, L. Gale, S. A. Fiebelkorn, D. Dillon, and C. Meredith. Group Research and Development, British American Tobacco, Southampton, United Kingdom.

Abstract

- #575 **Poster Board Number328**
Consumer Exposure and Risk Assessment of E-Liquid Ingredients in E-Cigarettes: A Practical Framework for Industry and Regulators. D. T. Szabo¹, A. Loccisano¹, S. C. Gad², D. W. Sullivan², S. E. Gad-McDonald², R. J. Potts¹, and E. H. Theophilus¹. ¹Research and Development/Product Stewardship, RJ Reynolds, Winston-Salem, NC; and ²Gad Consulting Services, Raleigh, NC.
- #576 **Poster Board Number329**
Outdoor Air Pollution and Health Impact Assessment, a Local Approach. S. Costa^{1,2}, J. Ferreira³, C. Costa^{1,2}, C. Silveira³, H. Relvas³, P. Roebeling³, C. Borrego³, A. I. Miranda³, and J. P. Teixeira^{1,2}. ¹Environmental Health Department, National Institute of Health, Porto, Portugal; ²EPIUnit - Institute of Public Health, University of Porto, Porto, Portugal; and ³Centre for Environmental and Marine Studies & Department of Environment and Planning, University of Aveiro, Aveiro, Portugal. Sponsor: A. Karakaya.
- #577 **Poster Board Number330**
Risk from Traffic-Related Air Pollution in Schools: Beyond Distance to Roadway. N. Moore, C. Y. Chan, M. Krause, and B. J. Kelman. Veritox, Inc., Redmond, WA.
- #578 **Poster Board Number331**
Petroleum Coke Calcining Facility Emissions and Human Health Risk Characterization. D. Singh, G. T. Johnson, J. D. McCluskey, and R. D. Harbison. College of Public Health, University of South Florida, Tampa, FL.
- #579 **Poster Board Number332**
Refined Assessment of PAH Exposure and Potential Cancer Risk from Biomass Burning through Internal Dosimetry. D. A. Sarigiannis^{1,2}, D. Zikopoulos², S. Nikolaki^{1,2}, M. Kermenidou¹, and S. P. Karakitsios^{1,2}. ¹Chemical Engineering, Aristotle University of Thessaloniki, Thessaloniki, Greece; and ²Chemical Process and Energy Resources Institute, Centre for Research and Technology Hellas, Thessaloniki, Greece.
- #580 **Poster Board Number333**
Risk-Based Groundwater and Surface Water Investigation to Evaluate Potential Environmental Impact of Coal Ash Management Practices at Coal-Fired Power Plants. L. J. Bradley¹, M. Haddock², and R. Cipriano³. ¹Haley & Aldrich, Northbridge, MA; ²Golder & Associates, St. Louis, MO; and ³Schiff Hardin, Chicago, IL.
- #581 **Poster Board Number334**
A Health Impact Assessment of Petroleum Extraction in Ghana. D. Doko¹, P. K. Nkegbe², and J. M. Gohlke³. ¹Environment and Resource Studies, University for Development Studies, Wa, Ghana; ²Economics and Entrepreneurial Devt, University for Development Studies, Wa, Ghana; and ³Environmental Health Sciences, University of Alabama at Birmingham, Birmingham, AL.

MONDAY

Program Schedule (Continued)

Abstract #

- #582 **Poster Board Number335**
Toxicity, Bioaccumulation, and Human Health Risk Assessment of Lead and Cadmium in a Shrimp—*Palaemonetes africanus*. O. K. Yemitan^{1,2,3}. ¹Department of Pharmacology, Toxicology and Therapeutics, Lagos State University College of Medicine, Ikeja, Nigeria; ²Department of Pharmacology, Toxicology and Therapeutics, College of Medicine of the University of Lagos, Idi-Araba, Nigeria; and ³Key Centre for Toxicology, RMIT-University Bundoora Campus, Victoria, VIC, Australia. Sponsor: *P. Wright*.
- #583 **Poster Board Number336**
Metal and Polyaromatic Hydrocarbons in Some Commonly Used Spices in Nigeria. R. N. Asomugha¹, E. O. Orisakwe², A. L. Asomugha³, C. C. Chukwuogor¹, I. V. Ofoma¹, and C. J. Njoku¹. ¹Pure and Industrial Chemistry, Nnamdi Azikiwe University, Awka, Nigeria; ²Clinical Pharmacy, University of Port-Harcourt, Port-Harcourt, Nigeria; and ³Anatomy, Nnamdi Azikiwe University, Nnewi, Nigeria.
- #584 **Poster Board Number337**
Arsenic and Transplacental Carcinogenesis. A. Lavin Williams¹, M. R. Garry², A. Santamaria³, and J. M. DeSesso¹. ¹Exponent, Alexandria, VA; ²Exponent, Bellevue, WA; and ³Exponent, Houston, TX.
- #585 **Poster Board Number338**
Quantitative Cancer Criteria for Inorganic Arsenic Exposure via Inhalation: A Nonlinear Approach. L. A. Beyer, K. Zu, and A. Lewis. Gradient, Cambridge, MA.
- #586 **Poster Board Number339**
Novel Analytical Method to Measure Formaldehyde Release from Heated Hair Straightening Cosmetic Products: Impact on Risk Assessment. C. L. Galli^{1,2}, M. Marinovich^{1,2}, P. Fidente^{1,2}, F. Bettin^{2,1}, P. Metra^{2,1}, and E. De Dominicis^{2,1}. ¹Dept of Pharmacological Sciences, University of Milan, Milan, Italy; and ²R&D Department Chelab-Silliker, Mérieux NutriSciences Company, Milan, Italy.
- #587 **Poster Board Number340**
Screening-Level Risk Assessment for Biocides in Household Products Using Domestic Exposure Factors. J. Lee, J. Park, and C. Kim. NeoEnBiz Co., Bucheon, Republic of Korea. Sponsor: *K. Park*.
- #588 **Poster Board Number341**
Hypothesis-Based Weight-of-Evidence Evaluation and Risk Assessment for Naphthalene Carcinogenesis. L. A. Bailey, L. E. Kerper, M. A. Nascarella, and L. R. Rhomberg. Gradient, Middlebury, VT.
- #589 **Poster Board Number342**
EFSA's Risk Assessments of Bisphenol A Using the Weight-of-Evidence Approach and an Improved Methodology on Uncertainty. T. Husøy^{1,2}, A. Hart², R. Pirow², W. C. Mennes², D. Wölfle², P. A. Fowler², U. Gundert-Remy², N. Götz², R. A. Woutersen², D. Arcella², A. Theobald², C. Croera², and A. Castoldi². ¹Division of Environmental Medicine, Norwegian Institute of Public Health, Oslo, Norway; and ²European Food Safety Authority, Parma, Italy. Sponsor: *H. Dirven*.

Abstract #

- #590 **Poster Board Number343**
Probabilistic Modeling of Phthalate Risk. K. L. Hentz¹, M. Edwards², R. Reiss¹, and J. Lamb¹. ¹Exponent, Alexandria, VA; and ²Exponent, Bellevue, WA.
- #591 **Poster Board Number344**
Noncancer Toxicity of Carcinogenic Chemicals As a Risk Driver for Toxic Waste Site Cleanup Decisions. K. C. Gettmann, E. Sciallo, L. Nakayama, and M. J. Wade. Department of Toxic Substances Control, Cal EPA, Sacramento, CA.
- #592 **Poster Board Number345**
Launch of Forward Risk Assessment Calculator for Chemical Contaminants following Superfund Guidance. L. Galloway¹, F. Dolislager¹, D. J. Stewart¹, W. McGinn², K. Tucker⁴, and M. Burgess³. ¹Ecology and Evolutionary Biology, University of Tennessee, Knoxville, Knoxville, TN; ²Environmental Sciences Division, Oak Ridge National Laboratory, Oak Ridge, TN; ³Office of Remediation and Technology Innovation, Environmental Protection Agency (EPA), Washington, DC; and ⁴Ingenium Professional Services, Inc, Oak Ridge, TN. Sponsor: *C. Wood*.
- #593 **Poster Board Number346**
SADA: A Free Geospatial Human Health Risk Tool (www.sadaproject.net). R. N. Stewart¹, K. Tucker¹, F. Dolislager², and M. Burgess³. ¹Oak Ridge National Laboratory, Oak Ridge, TN; ²University of Tennessee, Knoxville, TN; and ³US EPA, Washington, DC. Sponsor: *C. Wood*.
- #594 **Poster Board Number347**
The Concept of Human Exposure-Based Toxicity Testing for Agrochemicals. C. Terry, R. Billington, and A. Whyte. Dow AgroSciences, Oxfordshire, United Kingdom.
- #595 **Poster Board Number348**
Assuring Safety without Animal Testing Concept (ASAT): Systems Toxicology Supported Data Infrastructure for Human Risk Assessment. K. Weigand¹, R. Greupink¹, S. Bosgra², J. Ezendam³, D. Jennen⁴, J. Kleijnans⁴, F. Kuper², H. van Loveren³, M. Monshouwer⁵, E. van Someren², S. Notenboom⁶, G. M. Groothuis⁶, F. Russel¹, and R. H. Steriun². ¹Pharmacology & Toxicology, Radboud University Medical Center, Nijmegen, Netherlands; ²The Netherlands Organization for Applied Scientific Research, Zeist, Netherlands; ³National Institute for Public Health and the Environment, Bilthoven, Netherlands; ⁴University of Maastricht, Maastricht, Netherlands; ⁵Janssen Pharmaceutica NV, Beerse, Belgium; and ⁶University of Groningen, Groningen, Netherlands.

MONDAY

Program Schedule (Continued)

Abstract

Monday Afternoon, March 23
1:00 PM to 4:30 PM
CC Exhibit Hall

Poster Session: Pharmaceutical Safety: Large Molecule Case Studies

Safety Assessment Approaches for Product Development

Chairperson(s): Robert W. Veneziale, Toxicology, Halozyme Therapeutics, Inc., San Diego, CA.

Displayed: 1:00 PM–4:30 PM

Author-Attended: 2:45 PM–4:30 PM

- #596 **Poster Board Number 401**
Nonclinical Safety Assessment of a Monoclonal Antibody against CD47. B. Mounho-Zamora¹, I. Weissman², R. Majeti², S. Prohaska², and M. Howard². ¹Biopharmaceutical Practice, ToxStrategies, Bend, OR; and ²Stem Cell Biology and Regenerative Medicine, Stanford University, Palo Alto, CA.
- #597 **Poster Board Number 402**
Safety and Biodistribution Assessment of sc-rAAV2.5IL-1Ra Administered via Intra-Articular Injection in a Mono-Iodoacetate-Induced Osteoarthritis Model in Wistar Rats. G. Wang¹, C. H. Evans², J. Benson¹, J. A. Hutt¹, J. Seagrave¹, J. A. Wilder¹, R. J. Samulski³, and P. S. Terse⁴. ¹Lovelace Respiratory Research Institute, Albuquerque, NM; ²The Mayo Clinic, Rochester, MN; ³University of North Carolina Gene Therapy Center, Chapel Hill, NC; and ⁴National Center for Advancing Translational Sciences/NIH, Bethesda, MD.
- #598 **Poster Board Number 403**
Toxicity and Biodistribution of a Conditionally Replicative Adenovirus Vector, CRAd-S-pk7, Administered Intracerebrally to Hamsters. C. D. Hebert¹, J. F. Mann¹, and M. S. Lesniak². ¹Toxicology and Pathology Services, Southern Research Institute, Birmingham, AL; and ²University of Chicago, Chicago, IL.
- #599 **Poster Board Number 404**
Toxicity and Toxicokinetics of PEGPH20 in the Monkey and Rat. R. W. Veneziale¹, M. A. Printz², B. J. Sugarman², N. Lalayeva³, G. W. Ruppert⁴, K. Polhamus⁴, D. C. Maneval⁵, and P. J. Lapinskas¹. ¹Toxicology, Halozyme Therapeutics, Inc., San Diego, CA; ²Translational Technology, Halozyme Therapeutics, Inc., San Diego, CA; ³SNBL USA Ltd, Everett, WA; ⁴MPI, Mattawan, MI; and ⁵Pharmacology and Safety Assessment, Halozyme Therapeutics, Inc., San Diego, CA.
- #600 **Poster Board Number 405**
Human-Recombinant Bone Morphogenetic Protein 4 (hrBMP4): Safety Profile after 7-Day Continuous Intracerebral (IC) and IV Administration in the Mouse. G. Di Gallo¹, L. Nobili¹, M. Russo¹, E. Binda², C. I. Bernardi¹, and A. L. Vescovi². ¹ACCELER SRL, Nerviano - Milano, Italy; and ²STEMGEN, Milano, Italy.

Abstract

- #601 **Poster Board Number 406**
Pharmacokinetic Profile of RPH-001, a Recombinant Humanized Monoclonal Antibody to Human VEGF following Administration by Intravenous Infusion in the Cynomolgus Monkey. S. Archuadze¹, E. Shipaeva¹, P. Dwivedi^{1,3}, Y. Lavrovsky^{1,2}, M. Samsonov¹, and T. Oshodi¹. ¹R-Pharm, Moscow, Russian Federation; ²R-Pharm Overseas, San Diego, CA; and ³Primetrics, Singapore, Singapore. Sponsor: N. Anyangwe.
- #602 **Poster Board Number 407**
Unexpected Platelet Decreases in Cynomolgus Monkeys Induced by a Therapeutic Monoclonal Antibody. J. Sun¹, Y. Liu¹, H. Jiang², X. Wang¹, Q. Qin¹, Z. Li², L. Gong¹, and J. Ren¹. ¹Center for Drug Safety Evaluation and Research, Shanghai Institute of Materia Medica, Chinese Academy of Sciences, Shanghai, China; and ²State Key Laboratory of Oncogenes and Related Genes, Renji Hospital, Shanghai Jiaotong University School of Medicine, Shanghai Cancer Institute, Shanghai, China.
- #603 **Poster Board Number 408**
Comparative Nonclinical Assessment of the Potential Biosimilar PF-06439535 and Bevacizumab. M. Peraza¹, M. Shiue², S. Phenix¹, K. Rule¹, G. L. Finch³, S. Thibault², and M. W. Leach¹. ¹Pfizer Inc., Andover, MA; ²Pfizer Inc, La Jolla, CA; and ³Pfizer Inc, Groton, CT.
- #604 **Poster Board Number 409**
Safety of Phosphorodiamidate Morpholino Oligomers (PMOs) for Treatment of Duchenne Muscular Dystrophy (DMD). M. P. Carver, J. S. Charleston, J. Zhang, C. Shanks, T. Magee, and P. Sazani. Preclinical Development, Sarepta Therapeutics, Cambridge, MA.
- #605 **Poster Board Number 410**
Hepatotoxicity of LNA Gapper Antisense Oligonucleotides Is Mediated by RNase H1 Dependent but Nonspecific Preferential Downregulation of Very Long Pre-mRNA Transcripts. S. Burel, C. Hart, P. Cauntay, J. Hsiao, T. Macheimer, M. Katz, A. Watt, H. Bui, S. Freier, H. S. Younis, T. P. Prakash, W. Lima, S. T. Crooke, E. E. Swayze, and S. Henry. ISIS Pharmaceuticals, Inc., Carlsbad, CA.
- #606 **Poster Board Number 411**
Pharmacokinetic (PK) Properties of Phosphorodiamidate Morpholino Oligomers (PMOs) for Treatment of Duchenne Muscular Dystrophy (DMD). J. S. Charleston, M. P. Carver, J. Zhang, C. Shanks, T. Magee, and P. Sazani. Preclinical Development, Sarepta Therapeutics, Cambridge, MA.
- #607 **Poster Board Number 412**
Pharmacology and Toxicology Evaluation of a Triantennary N-Acetyl Galactosamine (GalNAc)-Conjugated Antisense Oligonucleotide in Mice and Monkeys. T. Zanard¹, M. Graham¹, E. E. Swayze¹, T. P. Prakash¹, P. Seth¹, S. N. Kim², Y. Kim², and S. Henry¹. ¹ISIS Pharmaceuticals, Inc., Carlsbad, CA; and ²Korea Institute of Toxicology, Daejeon, Republic of Korea.

MONDAY

Program Schedule (Continued)

Abstract #

- #608 **Poster Board Number 413**
Preclinical Safety Evaluation of 3M-052, a Novel TLR7/8 Agonist. E. Hope¹, J. Vasilakos², L. Harrison², and J. Setser². ¹Medical Department, 3M, Saint Paul, MN; ²Drug Delivery Systems Division, 3M, Saint Paul, MN; and ³WIL Research, Ashland, OH.
- #609 **Poster Board Number 414**
Anti-Advanced Glycation Endproduct Antibody (AGE) Has the Potential to Inactivate Senescence in Aged CD-1 Mouse. N. Doyle¹, L. Chouinard¹, O. N. Diallo¹, S. Y. Smith¹, and L. S. Gruber². ¹Musculoskeletal Research, Charles River, Montreal, QC, Canada; and ²SIWA Regenerative Medicine Corporation, Chicago, IL. Sponsor: M. Vezina.

Monday Afternoon, March 23
 1:00 PM to 4:30 PM
 CC Exhibit Hall

Poster Session: Pharmaceutical Safety: Small Molecule Case Studies

🔄 Safety Assessment Approaches for Product Development

Chairperson(s): Eric B. Harstad, Genentech, South San Francisco, CA.

Displayed: 1:00 PM–4:30 PM

Author-Attended: 1:00 PM–2:45 PM

- #610 **Poster Board Number 415**
Bromism and Sodium Bromide-Induced Arterial Lesions in Monkeys. S. Asakura¹, Y. Seki¹, Y. Tanaka¹, T. Yoshida², D. Kakiuchi¹, S. Hosokawa¹, and D. Hutto³. ¹Tsukuba Drug Safety, Eisai Co. Ltd, Tsukuba, Japan; ²Global Drug Safety, Eisai Inc, Andover, MA; and ³Analytical Research, Eisai Co.Ltd, Tsukuba, Japan.
- #611 **Poster Board Number 416**
Immunomodulatory Effect of 6-Pentadecyl Salicylic Acid in an *In Vivo* Model of Tumorigenesis. J. Gnanaprakasam, E. Estrada Muniz, and L. Vega. Toxicology, CINVESTAV-IPN, Mexico City, Mexico.
- #612 **Poster Board Number 417**
Encenicline (EVP-6124), a Selective $\alpha 7$ Nicotinic Acetylcholine Receptor Partial Agonist, Does Not Demonstrate Nonclinical Abuse Potential. A. Hansen, J. S. Moffit, and G. Loewen. FORUM Pharmaceuticals Inc., Watertown, MA.
- #613 **Poster Board Number 418**
Propolis Activity and Toxicity Profile Using Mitochondria Bioenergetics and Behavior. C. Biscarrat, P. Picamal, C. Lefort, and N. A. Compagnone. Predictive Toxicology, ICDD, Gemenos, France. Sponsor: Y. Will.
- #614 **Poster Board Number 419**
Hematocrit (HCT) and Hemoglobin (HGB) Responses to 3-Month Oral Dosing of AKB-6548, an Inhibitor of Hypoxia-Inducible Factor Prolyl-Hydroxylase (HIFPH), in CD-1 Mice. B. L. Soldo¹, B. Walker¹, K. Bonnette², J. Allen³, and R. Shalwitz¹. ¹Akebia Therapeutics, Cambridge, MA; ²Charles River, Spencerville, OH; and ³Jane Allen Consulting, Raleigh, NC.

Abstract #

- #615 **Poster Board Number 420**
Carcinogenicity Assessment of the Pan-caspase Inhibitor, Emricasan, in Tg.rasH2 Mice. R. Elbekai¹, M. G. Paranjpe¹, and P. C. Contreras¹. ¹BioReliance by SAFC, Rockville, MD; and ²Conatus Pharmaceuticals, San Diego, CA. Sponsor: M. Mckeeon.
- #616 **Poster Board Number 421**
Chronic Toxicity Assessment of the RANKL Blocker, RPH-203, following Subcutaneous Administration in the Cynomolgus Monkey. T. Oshodi¹, M. Samsonov¹, S. Archuadze¹, and P. Dwivedi^{1,2}. ¹R-Pharm, Moscow, Russian Federation; and ²Primetrics, Singapore, Singapore. Sponsor: N. Anyangwe.
- #617 **Poster Board Number 422**
Bone Marrow and Lymphoid Toxicity of a Chemokine Receptor-1 (CCR-1) Antagonist Is Associated with Centromeric Disruption during Chromosomal Segregation. M. Bogdanffy, P. A. Escobar, E. Musvasva, M. Evertson, and E. Gaillard. Boehringer Ingelheim Pharmaceuticals, Inc., Ridgefield, CT.
- #618 **Poster Board Number 423**
Characterization of the Renal Toxicity Induced by a Novel Polymyxin Analog. J. Sasaki¹, N. Keirstead¹, K. Maratea¹, N. Johnson¹, M. Blais¹, C. Brown¹, L. Cheatham¹, R. Goodwin¹, T. Grebe¹, M. Hale¹, H. Hatoum-Mokdad¹, G. Kern¹, N. Marley¹, F. McGrath¹, I. Neveras¹, M. Pietras¹, A. Sathe¹, H. Shankaran¹, D. Snow¹, J. Swales¹, K. Thakur¹, M. Wagoner¹, A. Xue¹, and A. Gupta¹. ¹Drug Safety and Metabolism, AstraZeneca, Waltham, MA; ²Drug Safety and Metabolism, AstraZeneca, Macclesfield, United Kingdom; and ³Infection Innovative Medicines Unit, AstraZeneca, Waltham, MA.
- #619 **Poster Board Number 424**
Nonclinical Safety Assessment of the Gamma Secretase Inhibitor Avagacestat. G. D. Pilcher¹, R. W. Lange¹, S. Clark¹, K. Horn¹, R. White¹, F. Simutis¹, R. Bunch¹, M. Peden¹, T. Sanderson¹, and M. J. Graziano². ¹Drug Safety Evaluation, Bristol-Myers Squibb, Mt. Vernon, IN; and ²Drug Safety Evaluation, Bristol-Myers Squibb, Princeton, NJ.
- #620 **Poster Board Number 425**
Experimental Study on Toxicity and Toxicokinetics of dl-PHPB. J. H. Tao¹, L. Jiang², W. Xiaoliang², and W. Aiping¹. ¹New Drug Safety Evaluation Centre, Institute of Materia Medica, Chinese Academy of Medical Science and Peking Union Medical College, Beijing, China; and ²Department of Pharmacology, Institute of Materia Medica, Chinese Academy of Medical Science and Peking Union Medical College, Beijing, China.
- #621 **Poster Board Number 426**
Differential Effects of FIAU, FIRU, and DDC on Functional and DNA Content Endpoints in HepatoPac[™] and Huh7 Cells. J. Lebron¹, L. Liping¹, S. Kulkarni¹, Q. Xu¹, Z. Wang¹, A. G. Aslamkhan¹, A. Moore², O. Ukairo², and F. D. Sistare¹. ¹Merck Research Labs, West Point, PA; and ²Hepregen, Medford, MA.

MONDAY

Program Schedule (Continued)

Abstract #

- #622 **Poster Board Number427**
In Vitro Toxicity Assessment of the Nucleoside Analog Fialuridine Using Micropatterned Primary Hepatocyte Cocultures and Discovery of a Nontoxic Isomer. A. Dankers¹, O. Ukairo², A. Moore², W. Vermeulen³, and J. Snoeys¹.
¹Pharmacokinetics, Dynamics and Metabolism, Janssen Pharmaceutical, Beerse, Belgium; ²Heprogen Corporation, Medford, MA; and ³Pharmaceutical Development and Manufacturing Sciences, Janssen Pharmaceutical, Beerse, Belgium.
- #623 **Poster Board Number428**
Nonclinical Safety Assessment of BMS-902483, a Novel Alpha-7 Nicotinic Acetylcholine Receptor Partial Agonist. K. Horn¹, R. White¹, S. Clark¹, K. J. Trouba¹, R. W. Lange¹, C. Colleton¹, D. Fletcher³, R. Bunch¹, M. Peden¹, M. J. Graziano², and T. Sanderson¹. ¹Drug Safety Evaluation, Bristol-Myers Squibb, Mt. Vernon, IN; ²Drug Safety Evaluation, Bristol-Myers Squibb, Lawrenceville, NJ; and ³Drug Safety Evaluation, Bristol-Myers Squibb, New Brunswick, NJ.
- #624 **Poster Board Number429**
Cardiac and Neuronal Toxicity of G Protein-Coupled Receptor 119 (GPR119) Agonists in Monkeys. R. Peri, C. Hixson, H. Shen, C. Parrula, K. Horn, R. Mangipudy, M. J. Graziano, and T. P. Reilly. Drug Safety Evaluation, R&D, Bristol-Myers Squibb Co, New Brunswick and Princeton, NJ.
- #625 **Poster Board Number430**
Acute Toxicology Assessment of PAC-1, a Novel Anticancer Agent, in Beagle Dogs and in Ames Test. K. K. Kabirov¹, T. Tarasow², M. Lindeblad¹, E. V. Kabirova¹, and A. V. Lyubimov¹. ¹University of Illinois at Chicago, Chicago, IL; and ²Vanquish Oncology, Inc., Champaign, IL.
- #626 **Poster Board Number431**
Mechanism of Platelet Decreases in Monkeys Induced by a Therapeutic Human Monoclonal Antibody. B. K. Philip¹, J. Wheeler², S. Clark¹, C. Thompson², B. Wang², D. A. DeVona², M. P. Bernard², H. G. Haggerty², M. Peden¹, T. Sanderson¹, R. Bunch¹, and W. J. Freebern². ¹Drug Safety Evaluation, Bristol-Myers Squibb, Mt. Vernon, IN; and ²Drug Safety Evaluation, Bristol-Myers Squibb, New Brunswick, NJ.
- #627 **Poster Board Number432**
A Novel Hsp90 Inhibitor Activates Compensatory Heat Shock Protein Responses and Autophagy and Protects against Mutant A53T Alpha-Synuclein Toxicity. R. Xiong¹, D. Siegel¹, W. Zhou², R. Kitson³, C. J. Moody³, and D. Ross¹. ¹Skaggs School of Pharmacy and Pharmaceutical Sciences, University of Colorado Anschutz Medical Campus, Aurora, CO; ²School of Medicine, University of Colorado Anschutz Medical Campus, Aurora, CO; and ³School of Chemistry, University of Nottingham, Nottingham, United Kingdom.
- #628 **Poster Board Number433**
Toxicological Investigation of *Aristolochia ringens*, an *Aristolochia* Species Used Medicinally in Nigeria. F. R. Aigbe, and O. O. Adeyemi. Pharmacology, Therapeutics, and Toxicology, University of Lagos, Idi-Araba, Surulere, Nigeria.

Abstract #

- #629 **Poster Board Number434**
Preliminary Safety Assessment of a Novel IRE1 α -Inhibitor in Rats. S. Greene¹, J. Patterson¹, Q. Zeng¹, C. Schweitzer¹, V. Tam¹, D. Joea¹, L. Pan², and J. Reynolds³. ¹MannKind Corp, Valencia, CA; ²Wuxi AppTec Co., Ltd, Suzhou, China; and ³Pharma Capital Partners, Palo Alto, CA.
- #630 **Poster Board Number435**
Investigating the Mechanism of Action for a Novel Therapeutic to Mitigate Traumatic Brain Injury (TBI) Using Rat Brain Cells. P. Yang, and E. D. Bruce. Environmental Science, Baylor University, Waco, TX.
- #631 **Poster Board Number436**
Preclinical Development of Novel Dual Inhibitors of Rho Kinase and MRCK As Anticancer Agents. V. P. Kale¹, D. Desai¹, T. E. Fox², J. Hengst¹, S. Sung¹, S. Amin¹, and J. Yun¹. ¹Pharmacology, Penn State College of Medicine, Hershey, PA; and ²Pharmacology, University of Virginia, Charlottesville, VA.
- #632 **Poster Board Number437**
Bromodomain and ExtraTerminal Domain Inhibitors Induce a Loss of Intestinal Stem Cells and Villous Atrophy. M. Wagoner, J. Kelsall, J. Harris, D. Heathcote, J. Pederson, K. Hickling, R. Chen, M. Hattersley, and P. Newham. Safety Assessment, AstraZeneca Pharmaceuticals, Waltham, MA.
- #633 **Poster Board Number438**
Safety Study in Mice of an Agent with Potential As an Anti-Infective. M. Ehrlich¹, J. Hinckley¹, B. S. Jortner¹, K. M. Boes¹, G. Karpin², J. O. Falkinham³, and J. Merola². ¹Virginia-Maryland College of Veterinary Medicine, Virginia Tech, Blacksburg, VA; and ²Chemistry & Biological Sciences, Virginia Tech, Blacksburg, VA.
- #634 **Poster Board Number439**
Acute and Repeated-Dose Toxicity Studies of Synthetic Derivatives of Triazole-Incorporated Pyridazinone As New Class of Antihypertensive Agent. R. Mishra^{1,2}, A. A. Siddiqui², A. Husain², M. Rashid², S. Bhardwaj³, and V. Srinivasan⁴. ¹School of Pharmacy and Emerging Sciences, Baddi University of Emerging Sciences and Technology, Baddi, India; ²Department of Pharmaceutical Chemistry, Faculty of Pharmacy, Jamia Hamdard, New Delhi, India; ³ITMMEC, Indian Institute of Technology, New Delhi, India; and ⁴US Safety Evaluation, L'Oréal, Clark, NJ.
- #635 **Poster Board Number440**
Differential Hepatotoxicity of Liver X Receptor Agonist in Male and Female Rat Hepatocytes. M. Tirmenstein, J. Calvano, R. Peri, and R. Mangipudy. DSE, Bristol-Myers Squibb, New Brunswick, NJ.

MONDAY

Program Schedule (Continued)

Abstract

Monday Afternoon, March 23
1:00 PM to 4:30 PM
CC Exhibit Hall

Poster Session: Developmental Neurotoxicology—Stem Cells

Chairperson(s): Fang Liu, National Center for Toxicological Research, Jefferson, AR.

Displayed: 1:00 PM–4:30 PM

Author-Attended: 2:45 PM–4:30 PM

- #636 **Poster Board Number 443**
In Vitro Human Developmental Neurotoxicity Screening Using Multiple Cell Types. A. Majumder¹, X. Wu^{1,2}, J. N. Le¹, S. Wallace¹, and S. Stice^{1,2}. ¹ArunA Biomedical, Inc., Athens, GA; and ²Regenerative Bioscience Center, Interdisciplinary Toxicology Program, University of Georgia, Athens, GA.
- #637 **Poster Board Number 444**
Stem Cell-Derived Human Sensory Neurons for Toxicity Testing of Drugs/Chemicals and for Identifying Countermeasures. M. Leist, and L. Hölting, UKN, Konstanz, Germany.
- #638 **Poster Board Number 445**
Human iPSC Neurons: An In Vitro Model to Predict Clinical Neurotoxicity. C. A. Snyder^{1,2}, T. Ngo^{1,2}, D. L. Misner¹, N. Stagg¹, and K. Stafin¹. ¹Safety Assessment/Investigative Toxicology, Genentech, South San Francisco, CA; and ²Pharmacology and Toxicology, UC-Davis, Davis, CA.
- #639 **Poster Board Number 446**
Human iPSC-Derived Neurons: A Suitable Model for Toxicological Assays. B. Bertram¹, R. Kettenhofen¹, G. Luerman¹, and M. Torvinen². ¹Axiogenesis AG, Cologne; and ²Seahorse Bioscience, North Billerica, MA. Sponsor: E. Clarke.
- #640 **Poster Board Number 447**
NeuroSafe: A Human Integrated In Vitro Neurotoxicity Safety Platform Using hiPSC Neurons (Peri.4U Neurons). D. Hess, and E. Guenther. Pharmaservice, NMI TT GmbH, Reutlingen, Germany. Sponsor: E. Clarke.
- #641 **Poster Board Number 448**
MR Imaging of Human Neural Progenitor Stem Cells: An In Vivo Longitudinal Model. F. T. Goodfellow^{1,3}, S. Stice^{1,3}, E. Jordan³, Q. Zhao³, and Q. Meng². ¹Interdisciplinary Toxicology Program, The University of Georgia, Athens, GA; ²BioImaging Research Center, The University of Georgia, Athens, GA; and ³Regenerative Bioscience Center, The University of Georgia, Athens, GA.
- #642 **Poster Board Number 449**
Predicting Neurotoxicity in Human-Derived iPSC 3D Mini-Brains. D. Pamiès¹, L. Smirnova¹, G. A. Harris¹, J. P. Bressler², P. Marina², K. M. Christian³, C. Zhang³, T. Hartung¹, and H. T. Hogberg¹. ¹Center for Alternatives to Animal Testing, Johns Hopkins University, Bloomberg School of Public Health, Baltimore, MD; ²Hugo Moser Institute at the Kennedy Krieger, Johns Hopkins University, Seattle, WA; and ³Institute for Cell Engineering, Department of Neurology, Johns Hopkins University, Baltimore, MD.

Abstract

- #643 **Poster Board Number 450**
A Functional Phenotypic Screen for Synapse Formation in Human iPS-Derived Neurons. A. Essex, B. Cai, J. Sharp, E. Batchelder, S. Feng, N. Prigozhina, J. Evans, P. McDonough, and J. Price. Vala Sciences Inc, San Diego, CA.
- #644 **Poster Board Number 451**
Developmental Neurotoxicity of Epigallocatechin Gallate (EGCG) Is Triggered by Interference with β 1-Integrin Function in Human Neural Progenitor Cells. M. Barenys¹, K. Gassmann¹, S. Heinz¹, C. Baksmeier¹, I. Reverte², M. Colomina², and E. Fritsche¹. ¹IUF - Leibniz Research Institute for Environmental Medicine, Düsseldorf, Germany; and ²Universitat Rovira i Virgili, Tarragona, Spain.
- #645 **Poster Board Number 452**
Effects of Silver Nanoparticles on Human and Rat Embryonic Neural Stem Cells. F. Liu¹, A. S. Biris², M. Mahmood², Y. Xu², D. K. Hansen¹, A. Inselman¹, D. A. Casciano², T. A. Patterson¹, M. G. Paule¹, W. Slikker¹, and C. Wang¹. ¹National Center for Toxicological Research, Jefferson, AR; and ²University of Arkansas at Little Rock, Little Rock, AR.
- #646 **Poster Board Number 453**
Identification of AOPs Involving Disruption of Thyroid Hormone Signaling in Neurodevelopmental Processes by Using 3D Neurospheres. S. Giersiefer, K. Dach, H. Heuer, and E. Fritsche. IUF - Leibniz Institute for Environmental Medicine, Duesseldorf, Germany.
- #647 **Poster Board Number 454**
Morphine Sulfate Concomitantly Alters Neuronal Differentiation and Opioid Receptor Gene Expression in Mouse Stem Cell. S. L. Dholakiya, and F. A. Barile. Pharmaceutical Sciences, St. John's University College of Pharmacy, Queens, NY.
- #648 **Poster Board Number 455**
Increased Susceptibility of Oligodendrocyte Progenitors to Fractionated Radiation. S. Begolly¹, J. A. Olschowka², J. P. Williams¹, and M. O'Banion². ¹Environmental Medicine, University of Rochester, Rochester, NY; and ²Neurobiology & Anatomy, University of Rochester, Rochester, NY. Sponsor: P. Lawrence.

Monday Afternoon, March 23
1:00 PM to 4:30 PM
CC Exhibit Hall

Poster Session: Autoimmunity/Hypersensitivity

Advancing Clinical and Translational Toxicology

Chairperson(s): Rebecca J. Dearman, Faculty of Life Sciences, Manchester University, Manchester, United Kingdom.

Displayed: 1:00 PM–4:30 PM

Author-Attended: 1:00 PM–2:45 PM

- #649 **Poster Board Number 501**
Generation of a Porcine Rheumatoid Arthritis Model: Collagen-Induced Arthritis Micropig. W. Lee, S. Peng, C. J. Kim, and S. L. Park. GLP Research Center, PWG Genetics Pte Ltd, Singapore, Singapore. Sponsor: W. Koh.

- PS** Poster Sessions
- RI** Regional Interest Session
- R** Roundtable Sessions

- S** Symposium Sessions
- ☞** Thematic Sessions
- W** Workshop Sessions

MONDAY

Program Schedule (Continued)

Abstract #	Abstract #
#650	Poster Board Number502 Limitations in Testing and Risk Assessment for Dermal Sensitization. T. P. Kellner, M. E. Hansen, N. R. Mehta, and P. Leung. Department of Pesticide Regulation, California Environmental Protection Agency, Sacramento, CA.
#651	Poster Board Number503 Risks of Allergic Contact Dermatitis Elicited by Nickel, Chromium, and (Meth)Acrylates: Modeled Comparisons of Published Patch-Test Data on ~6,000 Sensitive Individuals. K. T. Bogen ¹ , M. R. Garry ² , and V. Volberg ¹ . ¹ Exponent Health Sciences, Oakland, CA; and ² Exponent Health Sciences, Bellevue, WA.
#652	Poster Board Number504 Particulate Matter Enhances the Pulmonary Allergic Immune Response to House Dust Mite in a BALB/c Mouse Model. A. R. Castaneda ¹ , K. J. Bein ^{1,2} , C. F. Vogel ^{1,3} , and K. E. Pinkerton ^{1,4,5} . ¹ Center for Health and the Environment, University of California Davis, Davis, CA; ² Air Quality Research Center, University of California Davis, Davis, CA; ³ Department of Environmental Toxicology, University of California Davis, Davis, CA; ⁴ Department of Pediatrics, School of Medicine, University of California Davis, Davis, CA; and ⁵ Department of Anatomy, Physiology and Cell Biology, School of Veterinary Medicine, University of California Davis, Davis, CA.
#653	Poster Board Number505 Inhalation of the Reactive Aldehyde Acrolein Promotes Antigen Sensitization and Enhances Allergic Responses to Ovalbumin. E. O'Brien ¹ , P. Spiess ¹ , A. Habibovic ¹ , M. Hristova ¹ , R. A. Bauer ¹ , M. J. Randall ¹ , M. E. Poynter ² , and A. van der Vliet ¹ . ¹ Pathology, University of Vermont, Burlington, VT; and ² Medicine, University of Vermont, Burlington, VT.
#654	Poster Board Number506 The Myeloid U937 Skin Sensitization Test (MUSST) to Address the Activation of Dendritic Cell Event in the Adverse Outcome Pathway for Skin Sensitization. C. Piroird, J. Ovigne, F. Rousset, S. Martinozzi Teissier, C. Gomes, J. Cotovio, and N. Alépée. L'Oréal, Aulnay sous Bois, France. Sponsor: E. Dufour.
#655	Poster Board Number507 Multicentric Study of Myeloid U937 Skin Sensitization Test (MUSST) for Skin Sensitization Testing. N. Alépée ¹ , C. Piroird ¹ , M. Aujoulat ² , S. Dreyfuss ³ , S. Hoffmann ⁴ , A. Hohenstein ⁵ , M. Meloni ⁶ , L. Nardelli ¹ , N. J. Pearson ⁷ , and J. Cotovio ¹ . ¹ L'Oréal, Aulnay sous Bois, France; ² WIL Research Europe, Saint Germain sur l'Arbresle, France; ³ Episkin, Lyon, France; ⁴ Seh Consulting + Services, Paderborn, Germany; ⁵ Bioassay GmbH, Heidelberg, Germany; ⁶ Vitroscreen, Milano, Italy; and ⁷ CiToxLAB, Evreux, France. Sponsor: E. Dufour.
#656	Poster Board Number508 The Role for TAK1 in the TCE-Induced Contact Hypersensitivity Response. Y. Pan ^{1,2} , H. Chu ^{1,2} , X. Wei ^{1,2} , and W. Hao ^{1,2} . ¹ Department of Toxicology, School of Public Health, Peking University, Beijing, China; and ² Beijing Key Laboratory of Toxicological Research and Risk Assessment for Food Safety, Beijing, China. Sponsor: S. Lu.
#657	Poster Board Number509 Silica-Induced Lymphocyte Infiltration and Proinflammatory Cytokine Responses in Lung Correspond to Accelerated Onset of Glomerulonephritis and Autoimmunity in Lupus-Prone Female NZBWF1 Mice. M. Bates, C. Brandenberger, I. Langohr, K. Kumagai, J. R. Harkema, A. Holian, and J. J. Pestka. Michigan State University, East Lansing, MI.
#658	Poster Board Number510 Cytochrome P450 2E1-Deficient Mice Show Attenuation of Trichloroethene-Mediated Autoimmune Response. G. Wang, M. Wakamiya, J. Wang, G. A. Ansari, and M. Khan. Pathology, University of Texas Medical Branch, Galveston, TX.
#659	Poster Board Number511 Graphene Oxide Augments Airway Remodeling and Hyperresponsiveness in a Murine Model of Asthma. A. A. Shvedova ^{1,2} , N. Yanamala ¹ , M. Shurin ³ , E. R. Kisin ¹ , J. Reynolds ⁴ , D. W. Gutkin ³ , A. Star ⁴ , B. Fadeel ⁶ , K. M. Savolainen ⁷ , and V. E. Kagan ⁵ . ¹ PPRB, NIOSH, Morgantown, WV; ² Physiology and Pharmacology, WVU, Morgantown, WV; ³ Pathology, University of Pittsburgh School of Medicine, Pittsburgh, PA; ⁴ Chemistry, University of Pittsburgh, Pittsburgh, PA; ⁵ Environmental and Occupational Health, University of Pittsburgh, Pittsburgh, PA; ⁶ Institute of Environmental Medicine, Karolinska Institutet, Stockholm, Sweden; and ⁷ Nanosafety Research Center, Finnish Institute of Occupational Health, Helsinki, Finland.
#660	Poster Board Number512 Identification and Frequency of Naïve T Lymphocytes Specific for Penicillin: Implication in Drug-Allergy. M. Azoury ¹ , N. Scornet ² , S. Delluc ³ , S. Delarue-Cochin ² , C. Nhim ¹ , B. Maillere ⁴ , R. Weaver ⁵ , N. Claude ⁵ , D. Joseph ² , and M. Pallardy ¹ . ¹ UniverSud, INSERM UMR 996, Chateau Malabry, France; ² UniverSud, UMR CNRS 8076, Chateau Malabry, France; ³ Platine Pharma Service, Lyon, France; ⁴ SIMOPRO, IbiTecS, CEA, Saclay, France; and ⁵ Institut de Recherches Internationales Servier, Suresnes, France.
#661	Poster Board Number513 Effects of Nickel Sulfate on Interleukin-12 Cytokine Family in Human Monocyte-Derived Dendritic Cells. R. Bechara ¹ , D. Antonios ² , H. Azoury ² , and M. Pallardy ¹ . ¹ UniverSud, INSERM UMR 996, Chateau-Malabry, France; and ² University Saint Joseph, Laboratory of Toxicology, Beirut, Lebanon.
#662	Poster Board Number514 Effect of Protein Aggregates from Therapeutic Proteins on Dendritic Cells Maturation: Implication for Immunogenicity. Y. Gallais ¹ , N. Szely ¹ , F. Legrand ² , A. Leroy ³ , M. Pallardy ¹ , and I. Turbica ¹ . ¹ INSERM UMR-S 996, UniverSud, UFR de Pharmacie, Chateau Malabry, France; ² CNRS UMR 8612, UniverSud, UFR de Pharmacie, Chateau Malabry, France; and ³ CNRS, UMR 8525, Université Lille 2, Institut Pasteur de Lille, Lille Cedex, France.

MONDAY

Program Schedule (Continued)

Abstract #	Abstract #
#663	#671
Poster Board Number515 Impact of Contamination with Bacterial Products and Aggregation on Immunogenicity. K. Ratjani ^{1,2} , J. Derrick ¹ , M. Wadhwa ² , R. Thorpe ² , I. Kimber ¹ , and R. J. Dearman ¹ . ¹ Manchester University, Manchester, United Kingdom; and ² Institute for Biological Standards and Control, Potters Bar, United Kingdom.	Poster Board Number523 Dermal Exposure to the Antimicrobial Chemical Triclosan Augments Allergic Responses by Inducing Expression of Thymic Stromal Lymphopoietin. N. B. Marshall ^{1,2} , E. Lukomska ¹ , C. M. Long ^{1,2} , A. P. Nayak ¹ , B. J. Meade ¹ , and S. E. Anderson ^{1,2} . ¹ CDC/NIOSH, Morgantown, WV; and ² Microbiology, Immunology, and Cell Biology, West Virginia University, Morgantown, WV.
#664	#672
Poster Board Number516 Interleukin (IL)-1β Secretion Is Dependent upon a Calcium-Mediated Interaction with Calmodulin. J. Ainscough ¹ , G. Gerberick ² , I. Kimber ¹ , and R. J. Dearman ¹ . ¹ Faculty of Life Sciences, Manchester University, Manchester, United Kingdom; and ² The Procter & Gamble Company, Cincinnati, OH.	Poster Board Number524 Interrelationship of TDI- and HDI-Induced Respiratory Tract Irritation and Allergy in Rats. J. Pauluhn. Toxicology (retired), Bayer AG, Wuppertal, Germany.
#665	#673
Poster Board Number517 T Helper 17 Cell Activation: <i>In Vitro</i> and <i>In Vivo</i> Comparisons. R. J. Dearman, M. D. Hayes, and I. Kimber. Manchester University, Manchester, United Kingdom.	Poster Board Number525 Differential Analysis of Protein Expression in RNA Binding Protein-Transgenic and Parental Rice Seeds Cultivated under Salt Stress and Allergenicity Test of the Rice Extracts. R. Teshima ¹ , R. Adachi ¹ , T. Shindo ² , A. Yamada ³ , M. Ohsawa ² , and Y. Ozeki ³ . ¹ National Institute of Health Sciences, Setagaya-ku, Tokyo, Japan; ² Food and Drug Safety Center, Hatano Research Institute, Hatano, Kanagawa, Japan; and ³ Department of Biotechnology, Tokyo University of Agriculture and Technology, Koganei, Tokyo, Japan.
#666	#674
Poster Board Number518 Constructing an Adverse Outcome Pathway for Sensitization of the Respiratory Tract: Network Thinking Meets Regulatory Utility. K. Sullivan ¹ , S. Cochrane ² , S. J. Enoch ³ , J. Ezendam ⁴ , G. Patlewicz ² , E. L. Roggen ⁶ , and K. Sewald ⁷ . ¹ Physicians Committee for Responsible Medicine, Washington, DC; ² SEAC, Unilever, London, United Kingdom; ³ Liverpool John Moores University, Liverpool, United Kingdom; ⁴ RIVM, Bilthoven, Netherlands; ⁵ DuPont Haskell Global Centers, Newark, DE; ⁶ Novozymes, Bagsvaerd, Denmark; and ⁷ Fraunhofer ITEM, Hannover, Germany.	Poster Board Number526 Lung Toxicity and Allergy Responses in Mice Exposed to Nanoparticle Silver. C. E. McLoughlin, S. Anderson, J. R. Roberts, B. T. Chen, D. Schwegler-Berry, K. L. Anderson, and K. Roach. NIOSH, Morgantown, WV.
#667	#675
Poster Board Number519 The Impact of Elevated Endocannabinoid 2-AG in Delayed Type Hypersensitivity. J. M. Sido ¹ , P. S. Nagarkatti ¹ , and M. Nagarkatti ^{1,2} . ¹ Path, Micro, & Immuno, University of South Carolina School of Medicine, Columbia, SC; and ² WJB Dorn Veterans Affairs Medical Center, Columbia, SC.	Poster Board Number527 Gene Expression Changes Induced by Skin Sensitizers in THP-1 Cells: Possible Relationship to Protein Binding Domains. C. Ryan ¹ , Y. Shan ¹ , X. Wang ¹ , R. J. Dearman ² , I. Kimber ² , and G. Gerberick ¹ . ¹ The Procter & Gamble Company, Mason, OH; and ² University of Manchester, Manchester, United Kingdom.
#668	#676
Poster Board Number520 Investigation of Potential Antidrug Antibody-Mediated Hypersensitivity Reactions in Mice. W. J. Freebern ¹ , F. G. Burlison ² , V. J. Johnson ² , C. Thompson ¹ , B. Wang ¹ , D. A. DeVona ¹ , S. Clark ³ , M. P. Bernard ¹ , J. Wheeler ¹ , H. G. Haggerty ¹ , R. Bunch ³ , and B. K. Philip ³ . ¹ Immunotoxicology, Bristol-Myers Squibb, New Brunswick, NJ; ² Burlison Research Technologies Inc., Morrisville, NC; and ³ Drug Safety Evaluation, Bristol-Myers Squibb, Mount Vernon, IN.	Poster Board Number528 Increased Expression and Immunoregulatory Potential of microRNA 210 in a Murine Model of TDI Sensitization. C. M. Long ^{1,2} , N. B. Marshall ² , E. Lukomska ² , A. P. Nayak ² , P. D. Siegel ² , B. J. Meade ² , and S. E. Anderson ² . ¹ Immunology and Microbial Pathogenesis Graduate Program, WVU, Morgantown, WV; and ² CDC-NIOSH, Morgantown, WV.
#669	#677
Poster Board Number521 TNFR2 Regulates Commensal Microbiota in Sex-Biased Spontaneous Experimental Autoimmune Encephalomyelitis. P. G. Miller, and S. C. McKarns. Center for Cellular and Molecular Immunology, Departments of Surgery and Molecular Microbiology and Immunology, University of Missouri School of Medicine, Columbia, MO.	Poster Board Number529 A Weight-of-Evidence Investigation of Novel Amino Alcohols for Skin Sensitization Potential Using <i>In Silico</i>, <i>In Vitro</i>, <i>In Vivo</i>, and Genomic Approaches. R. S. Settivari ¹ , N. N. Ball ¹ , N. Visconti ¹ , B. J. Hughes ¹ , D. Wilson ¹ , H. M. Hollnagel ¹ , R. Hunziker ¹ , R. M. Golden ¹ , M. B. Black ² , and D. R. Boverhof ² . ¹ Predictive Toxicology, The Dow Chemical Company, Midland, MI; and ² The Hamner Institute for Health Sciences, Research Triangle Park, NC.
#670	#678
Poster Board Number522 Aryl Hydrocarbon Receptor Regulates CD4 T Cell Differentiation in a Sex-Biased Manner. J. N. Lanctot, and S. C. McKarns. Center for Cellular and Molecular Immunology, Departments of Surgery and Molecular Microbiology and Immunology, University of Missouri School of Medicine, Columbia, MO.	Poster Board Number530 An Integrated <i>In Vivo</i> Approach to Identify and Characterize Respiratory Sensitizers. K. K. Greenwood, N. Quay, K. M. Mahoney, R. Sura, M. R. Woolhiser, and J. A. Hotchkiss. TERC, Dow Chemical Company, Midland, MI.

MONDAY

Program Schedule (Continued)

Abstract #	Abstract #
#679	Poster Board Number531 Asbestos-Induced Pleural Fibrosis Involves Autoantibody-Mediated Protein Tyrosine Phosphorylation Pathway. R. L. Hanson, J. Gilmer, K. Serve, and J. C. Pfau. Department of Biological Sciences, Idaho State University, Pocatello, ID.
#680	Poster Board Number532 Anti-Mesothelial Cell Autoantibodies Upregulate Transcription Factors Involved in Collagen Pathways. J. Gilmer, and J. C. Pfau. Biological Sciences, Idaho State University, Pocatello, ID.
#681	Poster Board Number533 A Retrospective on Drug Allergy in Dogs at a US Veterinary Teaching Hospital. F. T. Fosset, J. Schimansky, and S. N. Lavergne. Comparative Biosciences, University of Illinois, Urbana, IL.
#682	Poster Board Number534 Selective Deletion of Estrogen Receptor α in FoxP3+ CD4+ T Cells Influences Peripheral T Cell Homeostasis. M. Khan, and S. C. McKerns. Center for Cellular and Molecular Immunology, Departments of Surgery and Molecular Microbiology and Immunology, University of Missouri School of Medicine, Columbia, MO.
Monday Afternoon, March 23	
1:00 PM to 4:30 PM	
CC Exhibit Hall	
	
Poster Session: Liver and Models	
<i>Chairperson(s):</i> Angela Slitt, University of Rhode Island, Kingston, RI.	
<i>Displayed:</i> 1:00 PM–4:30 PM	
<i>Author-Attended:</i> 2:45 PM–4:30 PM	
#683	Poster Board Number537 Examining the Role for Off-Target MDR3 Inhibition in the Hepatotoxicity of Therapeutics. Y. Chen, R. E. Morgan, R. T. Dunn, H. McBride, and H. Hamadeh. Comparative Biology & Safety Sciences, Amgen, Thousand Oaks, CA.
#684	Poster Board Number538 Daily Dose and Formation of Reactive Metabolites Are Associated with the DRESS (Drug Reactions/Rash with Eosinophilia and Systemic Symptoms)-Related Drug-Induced Liver Injury. M. Chen ¹ , M. Stone ² , E. Navarro Almario ² , S. Amur ² , V. Crenets ² , T. Burgess ³ , R. He ² , H. Fang ¹ , J. Senior ² , and W. Tong ¹ . ¹ FDA's National Center for Toxicological Research, Jefferson, AR; ² FDA's National Center for Drug Evaluation and Research, Silver Spring, MD; and ³ FDA's Center for Veterinary Medicine, Silver Spring, MD.
#685	Poster Board Number539 A High-Content Analysis Assay to Predict Human Hepatotoxicity in HepaRG and HepG2 Cells. J. Saito, A. Okamura, K. Takeuchi, K. Hanioka, A. Okada, and T. Ohata. Drug Safety Research Labs., Astellas Pharma Inc., Osaka, Japan.
#686	Poster Board Number540 Human Liver Response to Clinical Doses of Compounds That Can Cause Liver Injury. R. Fisher ¹ , A. Perlina ³ , J. Herrmann ² , A. Ulyanov ² , and A. Vickers ² . ¹ Vitron Inc, Tucson, AZ; ² Allergan Inc, Irvine, CA; and ³ Sanford-Burnham Medical Research Institute, La Jolla, CA.
#687	Poster Board Number541 Concordance in RNA-Seq Profiles between Formalin-Fixed Paraffin-Embedded and Frozen Liver Samples. S. D. Hester ¹ , B. N. Chorley ¹ , G. Carswell ¹ , H. Mortensen ¹ , W. Jones ² , and C. E. Wood ¹ . ¹ Systems Biology Branch, US-EPA, Durham, NC; and ² Genomics-Bioinformatics, EA-Quintiles, Durham, NC.
#688	Poster Board Number542 Irinotecan-Induced Steatosis <i>In Vivo</i>: The Possible Role of Fatty Acid <i>De Novo</i> Lipogenesis. P. Mallick Bandi, and R. Ghose. Pharmacology and Pharmaceutics, University of Houston, Houston, TX.
#689	Poster Board Number543 Detecting the Diclofenac-Induced Liver Injury Using TNF-Alpha-Exposure Mouse Model and Candidate for Its Mechanism. S. Moriwaki, J. Deguchi, K. Hoshino, S. Goto, I. Matsumoto, I. Miyawaki, and H. Funabashi. Preclinical Research Laboratories, Sumitomo Dainippon Pharma Co., Ltd., Osaka, Japan. Sponsor: T. Yamada.
#690	Poster Board Number544 MicroRNA Involvement in Drug-Induced Hepatotoxicity: A Multi-Omics Approach. W. Van den Hof, M. Coonen ¹ , A. Van Summeren ¹ , M. van Herwijnen ¹ , K. Brauers ¹ , W. Wodzig ² , and J. Kleinjans ¹ . ¹ Department of Toxicogenomics, Maastricht University, Maastricht, Netherlands; and ² Department of Clinical Chemistry, Maastricht University Medical Center, Maastricht, Netherlands. Sponsor: H. van Loveren.
#691	Poster Board Number545 Exposure of iPSC-Derived Hepatocytes to Physiological Liver Parameters Results in Molecular Phenotypic Differentiation and Maturation Relevant for Drug Metabolism and Toxicity. S. Marukian ¹ , T. K. Baker ² , B. Blackman ¹ , R. Feaver ¹ , L. Mark ¹ , A. Mackey ¹ , D. Manka ¹ , B. Wamhoff ¹ , and A. Dash ¹ . ¹ HemoShear, Charlottesville, VA; and ² Eli Lilly, Indianapolis, IN.
#692	Poster Board Number546 Activation of PGC-1-Related Coactivator during Metabolic and Xenobiotic Stress in the Liver Is Associated with Adaptive and Pathological Responses. M. Buler, and U. Andersson. Drug Safety and Metabolism, AstraZeneca R&D, Mölndal, Sweden. Sponsor: R. Roberts.
#693	Poster Board Number547 The Hepatic "Matrisome" Responds Dynamically to Toxic Stress: Novel Proteomic Characterization of the Hepatic ECM. C. E. Dolin, V. L. Massey, L. G. Poole, D. L. Siow, M. L. Merchant, D. W. Wilkey, and G. E. Arteel. Pharmacology and Toxicology, University of Louisville, Louisville, KY.
#694	Poster Board Number548 Development of an <i>In Vitro</i> High-Content Imaging Assay for Quantitative Assessment of Mouse Hepatocyte Proliferation. V. Soldatow ¹ , R. C. Pepper ² , D. Cowie ² , R. A. Clewell ¹ , M. E. Andersen ¹ , E. LeCluyse ¹ , and C. Deisenroth ¹ . ¹ The Hamner Institutes for Health Sciences, Research Triangle Park, NC; and ² Syngenta Crop Protection, LLC, Greensboro, NC.

MONDAY

Program Schedule (Continued)

Abstract #

- #695 **Poster Board Number549**
Plateable Cryopreserved Human Hepatocytes Pooled from Multiple Donors for *In Vitro* Evaluation of Adverse Drug Properties. A. P. Li, U. Doshi, and Q. Yang. In Vitro ADMET Laboratories, Advanced Pharmaceutical Sciences, Columbia, MD.
- #696 **Poster Board Number550**
Multiple Parameter Assessment of Drug-Induced Liver Toxicity in HepG2 Cells. J. Xuan¹, T. Qing², S. Chen¹, L. Couch¹, L. Shi^{2,1}, W. Tong¹, and L. Guo¹. ¹National Center for Toxicological Research/US Food and Drug Administration, Jefferson, AR; and ²State Key Laboratory of Genetic Engineering and MOE Key Laboratory of Contemporary Anthropology, Schools of Life Sciences and Pharmacy, Shanghai, China.
- #697 **Poster Board Number551**
Analysis of Acetaminophen-Induced Hepatotoxicity in Female C57BL/6J Mice Lacking the ATP-Binding Cassette Subfamily C Member 4 (Abcc4, Mrp4). E. Daniel², A. M. Bataille¹, and J. E. Manautou¹. ¹Pharmaceutical Sciences, University of Connecticut, Storrs, CT; and ²Biology and Chemistry, William Jewell College, Liberty, MO.
- #698 **Poster Board Number552**
Increased Hepatic O-GlcNAcylation Aggravates Acetaminophen-Induced Liver Injury. S. McGreal, B. Bhushan, C. Walesky, M. R. McGill, H. Jaeschke, Z. Zhang, E. Tan, C. Slawson, and U. Apte. KUMC, Kansas City, KS.
- #699 **Poster Board Number553**
L-Phenylalanine-Derived Rhodanine Analog (LPAR)-Induced Diverse Cytoprotective Mechanisms in Cultured Mouse and Human Hepatoma Cells. L. Chen, T. Talele, X. Cheng, and B. A. Patel. Pharmaceutical Science, St. John's University, Queens, NY.
- #700 **Poster Board Number554**
Role of Mitochondrial ATP Binding Cassette Transporter Abcb6 in Acetaminophen Hepatotoxicity. H. D. Chavan, P. Borude, B. Bhushan, R. Tessmann, U. Apte, and P. Krishnamurthy. Department of Pharmacology, Toxicology & Therapeutics, Kansas University Medical Center, Kansas City, KS.
- #701 **Poster Board Number555**
Uric Acid Inhibits Lipid Metabolism through Suppression of Lipophagy. K. Lee¹, Y. Choi¹, S. Oh², and B. Lee¹. ¹College of Pharmacy and Research Institute of Pharmaceutical Sciences, Seoul National University, Seoul, Republic of Korea; and ²The Division of Natural Medical Sciences, College of Health Science, Chosun University, Gwangju, Republic of Korea.
- #702 **Poster Board Number556**
The Role of the Adaptive Immune System in a Mouse Model of Halothane-Induced Liver Injury. A. M. Fullerton, M. Chakraborty, K. Semple, J. D. Berkson, L. S. Chea, X. Zeng, W. R. Proctor, and L. R. Pohl. Section of Molecular and Cellular Toxicology, National Institutes of Health - NHLBI, North Bethesda, MD.

Abstract #

- #703 **Poster Board Number557**
Evaluation of BDE-47 and -99 Lipid Modulating Effects in HepG2 Human Carcinoma Cells. E. Holovac, M. Langton, K. Ciampi, P. Shimpi, P. P. Nahar, and A. Slitt. University of Rhode Island, Kingston, RI.
- #704 **Poster Board Number558**
Progression of Liver Injury Results from Increased Levels of Lipid Peroxidation Products in Male GSTA4-4 Knockout Mice Fed Alcohol Chronically. M. Ronis^{1,2}, K. E. Mercer^{1,2}, C. T. Shearn³, C. F. Pulliam², B. Engi¹, and D. R. Petersen¹. ¹UAMS, Little Rock, AR; ²Arkansas Children's Nutrition Center, Little Rock, AR; and ³University of Colorado Anschutz Medical Center, Denver, CO.
- #705 **Poster Board Number559**
Exposure to TCDD Increases Fibrogenesis during Experimental Liver Fibrosis. C. L. Lamb, W. A. Harvey, and K. A. Mitchell. Biological Sciences, Boise State University, Boise, ID.
- #706 **Poster Board Number560**
TCDD Treatment Modulates Gene Expression during Experimental Liver Fibrosis. D. Perkins, C. L. Lamb, and K. A. Mitchell. Biological Sciences, Boise State University, Boise, ID.
- #707 **Poster Board Number561**
Effect of Gut Microbiota Depletion on the Ontogeny of Drug-Processing Genes in Mouse Liver. F. Selwyn¹, B. Prasad², M. Vrana², J. Cui¹, and C. D. Klaassen¹. ¹Department of Environmental and Occupational Health Sciences, University of Washington, Seattle, WA; and ²Department of Pharmaceutics, University of Washington, Seattle, WA.
- #708 **Poster Board Number562**
A Tissue-Engineered Rat/Human Liver Microphysiological System for Drug and Chemical Testing. S. Chang¹, J. L. Voellinger², C. White¹, E. J. Kelly², and D. L. Eaton¹. ¹Environmental and Occupational Health Science, University of Washington, Seattle, WA; and ²Pharmaceutics, University of Washington, Seattle, WA.
- #709 **Poster Board Number563**
Dynamic Flow Models of Tissue Bioreactors for 3D Hepatocyte Culture. J. Shim¹, J. M. Pedersen¹, J. D. Schroeter², J. M. Macdonald³, M. E. Andersen¹, H. J. Clewell¹, and M. Yoon¹. ¹The Hamner Institutes for Health Sciences, Research Triangle Park, NC; ²Applied Research Associates, Inc., Raleigh, NC; and ³University of North Carolina, Chapel Hill, NC.
- #710 **Poster Board Number564**
Differences in Predicted EC-50 Using Time-Resolved, Nonlinear Toxicant Exposure Compared to Static Exposures *In Vitro*. M. Bunger, and R. E. McClelland. SciKon Innovation, Research Triangle Park, NC.
- #711 **Poster Board Number565**
A Novel *In Vitro* Model to Assess Chemical-Induced Steatosis and Phospholipidosis. K. K. Wolf¹, O. Trask¹, K. Rose¹, O. Ukairo², A. Moore², J. Gaffney², M. E. Andersen¹, and E. LeCluyse¹. ¹The Hamner Institutes for Health Sciences, Research Triangle Park, NC; and ²Hepregen Corporation, Medford, MA.

MONDAY

Program Schedule (Continued)

Abstract

- #712 **Poster Board Number566**
Nuclear Receptor-Mediated Changes in Gene Expression in a Human Hepatic Micropatterned Coculture Model following Treatment with Hepatotoxic Compounds. K. Rose¹, K. K. Wolf¹, O. Ukairo², A. Moore², J. Gaffney², M. E. Andersen¹, and E. LeCluyse¹. ¹The Hamner Institutes for Health Sciences, Research Triangle Park, NC; and ²Hepregen Corporation, Medford, MA.
- #713 **Poster Board Number567**
Multiplexed Method to Screen for Chemical-Induced Hepatotoxicity Using a Novel Micropatterned Human Hepatocyte Coculture Platform. E. LeCluyse¹, K. K. Wolf¹, O. Trask¹, K. Rose¹, O. Ukairo², A. Moore², J. Gaffney², and M. E. Andersen¹. ¹The Hamner Institutes for Health Sciences, Research Triangle Park, NC; and ²Hepregen Corporation, Medford, MA.
- #714 **Poster Board Number568**
In Vitro Modeling of Inflammation-Drug Interactions Using Micropatterned Cocultures of Primary Hepatocytes and Kupffer Macrophages. O. Irrechukwu, M. McVay, and O. Ukairo. Hepregen Corporation, Medford, MA.
- #715 **Poster Board Number569**
Candidate Risk Factors for Tolvaptan-Induced Liver Injury Are Identified Using a Collaborative Cross Approach. M. Mosedale¹, T. Wiltshire², J. S. Eaddy³, W. J. Brock³, S. Roth², D. E. Dodd¹, R. W. Corty², Y. Xie², W. Valdar², and P. B. Watkins^{1,2}. ¹The Hamner Institutes for Health Sciences, Research Triangle Park, NC; ²The University of North Carolina at Chapel Hill, Chapel Hill, NC; and ³Otsuka Pharmaceutical Co., Ltd., Rockville, MD.
- #716 **Poster Board Number570**
Effect of Tolvaptan on the Hepatobiliary Disposition of Bile Acids in Human B-CLEAR[®] Hepatocytes. K. R. Brouwer¹, J. P. Jackson¹, K. M. Freeman¹, C. Hubert¹, R. St Claire¹, M. Pan², and W. J. Brock². ¹Qualyst Transporter Solutions, Durham, NC; and ²Otsuka Pharmaceuticals, Rockville, MD.
- #717 **Poster Board Number571**
Inhibition of BSEP- and NTCP-Mediated Taurocholate Transport by Tolvaptan and Metabolites. Y. Lu¹, J. Slizgi¹, W. J. Brock², M. Pan², and K. L. Brouwer¹. ¹Division of Pharmacotherapy and Experimental Therapeutics UNC Eshelman School of Pharmacy, University of North Carolina at Chapel Hill, Chapel Hill, NC; and ²Otsuka Pharmaceutical Co., Ltd, Rockville, MD.
- #718 **Poster Board Number572**
A Comparative UPLC-MS-Based Metabonomic Study of the Hepatotoxic Agents Tiencilic Acid and Tiencilic Acid Isomer. I. Grant¹, P. M. Rademacher^{2,3}, M. A. Scott⁴, R. A. Roth⁴, S. D. Nelson³, E. J. Want¹, and M. Coen¹. ¹Computational and Systems Medicine, Imperial College London, London, United Kingdom; ²Global Blood Therapeutics, South San Francisco, CA; ³University of Washington, Seattle, WA; and ⁴Michigan State University, East Lansing, MI.

Abstract

Monday Afternoon, March 23
1:00 PM to 4:30 PM
CC Exhibit Hall

Poster Session: Biological Modeling

Chairperson(s): Andy Nong, Health Canada, Ottawa, ON, Canada.

Displayed: 1:00 PM–4:30 PM

Author-Attended: 1:00 PM–2:45 PM

- #719 **Poster Board Number601**
Nonlinearities in Cellular Dose-Response Behaviors Can Be Enhanced by Protein Stabilization. Q. Zhang¹, S. Bhattacharya¹, R. B. Conolly², and M. E. Anderson¹. ¹The Hamner Institutes, Durham, NC; and ²USEPA, Durham, NC.
- #720 **Poster Board Number602**
Applying the Skin Sensitisation AOP to Human Health Risk Assessment. G. Maxwell, R. Cubberley, S. Dhadra, N. Gellatly, R. Pendlington, J. Pickles, J. Reynolds, O. Saib, D. Sheffield, R. Stark, V. Summerfield, D. Tang, and C. MacKay. SEAC, Unilever, Bedford, United Kingdom. Sponsor: P Carmichael.
- #721 **Poster Board Number603**
Semi-Mechanistic Systems Pharmacology Modeling of High-Dose Baclofen for Assessment of Cardiovascular Site of Action. J. Mettetal, H. W. Kamendi, H. Barthlow, M. Beaudoin, and R. A. Bialecki. Drug Safety and Metabolism, AstraZeneca, Waltham, MA.
- #722 **Poster Board Number604**
Mathematical Models Predicting the Effects of Generic Medical Countermeasures on Hematopoiesis following Radiation Exposure. J. Wentz, D. Oldson, and D. L. Stricklin. Health Effects and Risk Assessment, Applied Research Associates, Arlington, VA.
- #723 **Poster Board Number605**
Computational Modeling of the HPG Axis and Toxicity Equivalent Calculations to Predict Effects of Endocrine Disruptors on Estradiol Levels in Fathead Minnows. W. Cheng¹, A. Schroeder², D. L. Villeneuve², G. T. Ankley², and R. B. Conolly¹. ¹ORD/NHEERL/ISTD, US EPA, Research Triangle Park, NC; and ²ORD/NHEERL/MED, US EPA, Duluth, MN.
- #724 **Poster Board Number606**
A Quantitative Adverse Outcome Pathway Linking Aromatase Inhibition in Fathead Minnows with Population Dynamics. R. B. Conolly¹, W. Cheng¹, D. L. Villeneuve², G. T. Ankley², D. H. Miller³, K. Watanabe⁴, M. Mayo³, and E. J. Perkins⁵. ¹ORD/NHEERL/ISTD, US EPA, Research Triangle Park, NC; ²ORD/NHEERL/MED, US EPA, Duluth, MN; ³ORD/NHEERL/MED, US EPA, Grosse Isle, MI; ⁴Oregon Health & Science University, Portland, OR; and ⁵US Army Engineer Research and Development Center, Vicksburg, MS.

MONDAY

Program Schedule (Continued)

Abstract #	Abstract #
#725	#732
Poster Board Number607 Predicting Serum Thyroid Hormones Changes in the Bottle-Fed Infant Ingesting Dietary Iodine and the Environmental Contaminant Perchlorate. <i>J. W. Fisher¹, T. L. Leavens², E. D. McLanahan³, and P. M. Schlosser⁴.</i> ¹ Department of Biochemical Toxicology, FDA/NCTR, Jefferson, AR; ² Consultant, Cary, NC; ³ Division of Community Health Investigations, ATSDR, Atlanta, GA; and ⁴ NCEA, US EPA, Research Triangle Park, NC.	Poster Board Number614 The Use of PBPK Modeling and Bayesian Inference to Characterize the Pharmacokinetics Associated with Acetaminophen Overdose. <i>T. Zurlinden¹, K. Heard², and B. Reisfeld^{1,3}.</i> ¹ Chemical and Biological Engineering, Colorado State University, Fort Collins, CO; ² Emergency Medicine, University of Colorado School of Medicine, Aurora, CO; and ³ School of Biomedical Engineering, Colorado State University, Fort Collins, CO.
#726	#733
Poster Board Number608 A Computational Approach for a Quantitative and Mechanistic Understanding of Thiocyanate Kinetics and Dose Response. <i>P. Smith^{1,2}, J. Fisher¹, and A. Lumen¹.</i> ¹ Biochemical Toxicology, FDA/NCTR, Jefferson, AR; and ² Colorado State University, Fort Collins, CO.	Poster Board Number615 Comprehensive Dosimetry Model for Libby Amphibole Asbestos: Inhalability, Deposition, and Retention in the Respiratory Tract of F344 Rats and Humans. <i>A. M. Jarabek¹, O. Price², S. H. Gavett¹, and B. Asgharian³.</i> ¹ US EPA, Durham, NC; ² Arlington Division, Applied Research Associates, Arlington, VA; and ³ Arlington Division, Applied Research Associates, Raleigh, NC.
#727	#734
Poster Board Number609 Using PBPK Modeling to Evaluate the Concurrent Effects of Perchlorate, Other Goitrogens, and Iodine on Thyroid Status. <i>M. Peterson¹, G. Charnley², and T. Lewandowski¹.</i> ¹ Gradient, Seattle, WA; and ² HealthRisk Strategies LLC, Washington, DC.	Poster Board Number616 Understanding the Kinetics of Amiodarone and Its Metabolite Desethylamiodarone in Rats Using a Physiologically Based Pharmacokinetic Model. <i>J. Lu¹, Y. Cai², and Y. C. Tan¹.</i> ¹ National Exposure Research Laboratory, US EPA, Durham, NC; and ² Michigan State University, East Lansing, MI.
#728	#735
Poster Board Number610 A Multiscale Virtual Tissue Model of the Liver Lobule to Assess Zonal Heterogeneity in AhR Adverse Outcome Pathway-Induced Biological Responses. <i>S. Bhattacharya, P. D. McMullen, S. Pendse, and M. E. Andersen.</i> Institute for Chemical Safety Sciences, The Hamner Institutes for Health Sciences, Research Triangle Park, NC.	Poster Board Number617 Assessment of Nicotine Uptake and Particle Deposition following a Single-Puff Inhalation of Cigarette Smoke. <i>B. Asgharian¹, O. Price², Y. Caner³, and J. McAughy³.</i> ¹ Arlington Division, Applied Research Associates, Raleigh, NC; ² Arlington Division, Applied Research Associates, Arlington, VA; and ³ British American Tobacco, Southampton, United Kingdom.
#729	#736
Poster Board Number611 Agent-Based Computational Modeling of Cell Culture: Variation in Dose with Degree of Confluence. <i>C. R. Eklund¹, R. B. Conolly¹, W. Cheng¹, P. Wages^{2,3}, K. Lavrich^{2,3}, J. Samet⁴, and S. Bhattacharya⁴.</i> ¹ ORD/NHEERL/ISTD, US EPA, Research Triangle Park, NC; ² ORD/NHEERL/EPHD, USEPA, Chapel Hill, NC; ³ Curriculum in Toxicology, UNC, Chapel Hill, NC; and ⁴ The Hamner Institutes for Health Sciences, Research Triangle Park, NC.	Poster Board Number618 Evaluation of Oral, Inhalation, and Dermal Exposure to Tebuthiuron in Rats by the Application of Predictive Pharmacokinetic Modeling Tools. <i>A. T. McCoy¹, M. J. Bartels¹, J. A. Hotchkiss¹, and M. Corvaro².</i> ¹ The Dow Chemical Company, Midland, MI; and ² Dow AgroSciences, Indianapolis, IN.
#730	#737
Poster Board Number612 How Much Are the Cells Exposed to Silver Nanoparticles versus Ions after Exposure to Silver Nanoparticles In Vitro? <i>Y. Zhao¹, M. Yoon¹, J. M. Brown², W. Bai², C. Peeples¹, J. G. Teeguarden³, T. Fennell⁴, and H. J. Clewell¹.</i> ¹ The Hamner Institutes for Health Sciences, Research Triangle Park, NC; ² University of Colorado Anschutz Medical Campus, Aurora, CO; ³ Pacific Northwest National Laboratory, Richland, WA; and ⁴ RTI International, Research Triangle Park, NC.	Poster Board Number619 Tissue Dose-Modeling and Bronchiolar Fibrosis Risk for Inhalation of Highly Water Soluble Irritant Gases: Comparison of Acetaldehyde, Acrolein, and Diacetyl. <i>B. D. Kerger¹, A. J. Bernal¹, and P. Scott².</i> ¹ Cardno ChemRisk, Aliso Viejo, CA; and ² Cardno ChemRisk, Pittsburgh, PA.
#731	#738
Poster Board Number613 Utilizing a Tetrphasic-Logistic Growth Model to Assess Developmental and Reproductive Effects in F344/N Rats Exposed Two Years to Butyl Benzyl Phthalate. <i>T. D. Walker, and J. T. Walker.</i> US Environmental Protection Agency, Washington, DC. Sponsor: X. Arzuaga.	Poster Board Number620 Biomarker Utility Analysis Using an Exposure-PBPK/PD Model: A Carbaryl Case Study. <i>M. B. Phillips¹, M. Yoon², B. Young³, and Y. C. Tan⁴.</i> ¹ NERL ORD, US EPA, Duluth, MN; ² Institute for Chemical Safety Sciences, The Hamner Institutes for Health Sciences, Research Triangle Park, NC; ³ Bayer CropScience, Research Triangle Park, NC; and ⁴ NERL ORD, US EPA, Research Triangle Park, NC.
	#739
	Poster Board Number621 In Vivo Efficiencies of Hexavalent Chromium Reduction in the Gastric Environments of Mice, Rats, and Humans. <i>A. F. Sasso, and P. M. Schlosser.</i> US EPA, Washington, DC.

MONDAY

Program Schedule (Continued)

Abstract #	Abstract #
<p>#740 Poster Board Number622 Evaluating Epidemiological Associations between High Blood Concentrations of Poly Brominated Diphenyl Ether (PBDEs) and Altered Timing of Menarche: Are They Meaningful? <i>H. J. Clewell¹, C. Peeples¹, G. Song¹, M. Yoon¹, H. Wu¹, M. Verner², M. E. Andersen¹, and M. P. Longnecker³.</i> ¹The Hamner Institutes for Health Sciences, Research Triangle Park, NC; ²Université de Montréal, Montréal, QC, Canada; and ³National Institutes of Environmental Health Sciences, Research Triangle Park, NC.</p> <p>#741 Poster Board Number623 Reduction of Hexavalent Chromium by Gastric Fluids from Fed and Fasted Individuals with Applications to Toxicokinetic Modeling. <i>C. R. Kirman¹, D. Proctor², M. Suh², and S. Hays³.</i> ¹Summit Toxicology LLP, Orange, OH; ²ToxStrategies, Rancho Santa Margarita, CA; and ³Summit Toxicology, Lyons, CO.</p> <p>#742 Poster Board Number624 Comparison of Phthalate Biomonitoring and High-Throughput Screening Data Using Pharmacokinetic Modeling. <i>M. Moreau, and A. Nong.</i> Environmental Health Sciences and Research Bureau, Health Canada, Ottawa, ON, Canada.</p> <p>#743 Poster Board Number625 A Mechanism-Based Translational Mathematical Model for Gastrointestinal Toxicity. <i>H. Shankaran¹, P. Jasper², M. Wagoner¹, J. Tolsma², and J. Mettetal¹.</i> ¹Drug Safety and Metabolism, AstraZeneca, Waltham, MA; and ²RES Group Inc, Needham, MA.</p> <p>#744 Poster Board Number626 INTEGRA: Advancing Risk Assessment Using Internal Dosimetry Metrics. <i>D. A. Sarigiannis^{1,2}, S. P. Karakitsios^{1,2}, A. Gotti¹, V. Handakas¹, and K. Papadaki¹.</i> ¹Chemical Engineering, Aristotle University of Thessaloniki, Thessaloniki, Greece; and ²Chemical Process and Energy Resources Institute, Centre for Research and Technology Hellas, Thessaloniki, Greece.</p> <p>#745 Poster Board Number627 Predicting Oral Bioavailability of Parabens Using Biokinetic Modeling Together with a New <i>In Vitro</i> Intestinal Absorption Model of Carboxylesterase-2 Expressing Caco-2 Cells. <i>M. Yoon, Y. Zhao, X. Sun, J. Dong, and H. J. Clewell.</i> The Hamner Institutes for Health Sciences, Research Triangle Park, NC.</p> <p>#746 Poster Board Number628 Development of a Physiologically Based Pharmacokinetic Model for Bisphenol A in Humans to Address the Uncertainties Surrounding the Risk Assessment of BPA. <i>X. Yang¹, J. G. Teeguarden^{2,3}, D. R. Doerge¹, and J. Fisher¹.</i> ¹FDA/NCTR, Jefferson, AR; ²Pacific Northwest National Laboratory, Richland, OR; and ³Oregon State University, Corvallis, OR.</p> <p>#747 Poster Board Number629 Quantitative <i>In Vitro</i> to <i>In Vivo</i> Extrapolation for Environmental Esters: PBPK Model for Methyl-, Propyl-, and Butylparaben in Rat and Human. <i>J. Campbell, M. Yoon, and H. J. Clewell.</i> Institute for Chemical Safety Sciences, The Hamner Institutes, Research Triangle Park, NC.</p>	<p>#748 Poster Board Number630 Development of a Toxicokinetic Model for the Insensitive Munitions (IMX) Component 2,4-Dinitroanisole. <i>L. M. Sweeney¹, M. R. Goodwin², A. D. Hulgán³, and C. P. Gut².</i> ¹NAMRU Dayton, Henry M. Jackson Foundation, Wright-Patterson Air Force Base, OH; ²NAMRU Dayton, CAMRIS, Wright-Patterson Air Force Base, OH; and ³NAMRU Dayton, Oak Ridge Institute for Science and Education, Wright-Patterson Air Force Base, OH.</p> <p>#749 Poster Board Number631 PBPK Modeling Describes Route-Specific Kinetics of Cyclic Volatile Methyl Siloxanes. <i>T. McMullin¹, J. Campbell¹, K. P. Plotzke¹, M. E. Andersen², J. Y. Domoradzki¹, and H. J. Clewell¹.</i> ¹Dow Corning Corporation, Midland, MI; and ²The Hamner Institutes for Health Sciences, Research Triangle Park, NC.</p> <p>#750 Poster Board Number632 Application of Local and Global Sensitivity Analysis to a Human Multiroute PBPK Model for Bromodichloromethane. <i>E. Kenyon¹, T. L. Leavens², C. R. Eklund¹, and R. A. Pegram¹.</i> ¹ORD/NHEERL/ISTD, US EPA, Durham, NC; and ²TLL, Cary, NC.</p> <p>#751 Poster Board Number633 Predicting Pharmacokinetics of Components of Vehicle in a Generic Docetaxel Formulation for Safety Evaluation and Regulatory Approval. <i>H. A. Barton¹, M. Shiue², and R. MacFarland³.</i> ¹Pharmacokinetics, Dynamics, and Metabolism, Pfizer, Inc., Groton, CT; ²Pharmacokinetics, Dynamics, and Metabolism, Pfizer, Inc., La Jolla, CA; and ³Drug Safety Research & Development, Pfizer, Inc., La Jolla, CA.</p> <p>#752 Poster Board Number634 Physiologically Based Pharmacokinetic Modeling for 1-Bromopropane in Rat Using Gas Uptake Inhalation Studies. <i>S. Liang¹, E. Garner², L. Yin¹, and X. Yu¹.</i> ¹Environmental Health Science, University of Georgia, Athens, GA; and ²Lovelace Respiratory Research Institute, Albuquerque, NM.</p> <p>#753 Poster Board Number635 <i>In Silico</i> Modeling Can Predict the Unforeseen Renal Failure Caused by SGX523, a c-MET Kinase Inhibitor. <i>M. Lawless, J. DiBella, and M. Bolger.</i> Simulations Plus, Lancaster, CA. Sponsor: B. Hagenbuch.</p> <p>#754 Poster Board Number636 Application of the All-Ages Lead Model to Improve Evaluation of Variable Exposures. <i>L. Wilder¹, R. R. Worley^{1,2}, E. D. McLanahan¹, D. A. Fowler³, D. Mellard¹, R. DeWoskin³, and G. L. Diamond⁴.</i> ¹CDC/ATSDR, Chamblee, GA; ²UGA, Athens, GA; ³US EPA/ORD/NCEA, Research Triangle Park, NC; and ⁴SRC Inc., Syracuse, NY.</p> <p>#755 Poster Board Number637 A Multiobjective PBPK-PD Approach for Dose Schedule Optimization of Brain Tumor Treatments Using Myelosuppressive Drugs. <i>R. McDougall¹, F. Gibbons², C. Housand³, and P. Poulin⁴.</i> ¹Translational Safety, AstraZeneca, Waltham, MA; ²Oncology DMPK, AstraZeneca, Waltham, MA; ³The Aegis Technologies Group, Orlando, FL; and ⁴Independent Consultant, Quebec City, QC, Canada.</p>

MONDAY

Program Schedule (Continued)

Abstract #	Poster Board Number	Abstract #	Poster Board Number
#756	638	#764	649
	Analysis of Measured Serum-PFOA Data Using a PBPK Model Predicts Drinking-Water Exposure Concentrations in a Contaminated Community. <i>R. R. Worley^{1,2}, and J. Fisher^{3,2}. ¹CDC/ATSDR, Chamblee, GA; ²UGA, Athens, GA; and ³NCTR, FDA, Jefferson, AR.</i>		Elderly Health and Indoor Environment. A. Mendes ^{1,3} , A. Papoila ^{1,3} , L. Aguiar ^{1,3} , C. Pereira ^{1,3} , M. Neves ¹ , S. Silva ^{1,2} , D. Mendes ¹ , T. Palmeiro ² , I. Caires ² , A. Botelho ² , P. Carreiro-Martins ² , N. Neuparth ² , and J. P. Teixeira ^{1,3} . ¹ Environmental Health, National Health Institute, Porto, Portugal; ² CEDOC, NOVA Medical School, Lisbon, Portugal; and ³ EPIUnit - Institute of Public Health, University of Porto, Porto, Portugal. Sponsor: A. Karakaya.
#757	639	#765	650
	Application of Reverse Dosimetry to Compare In Vitro and In Vivo Estrogen Receptor Activity. <i>X. Chang¹, N. Kleinstreuer¹, P. Ceger¹, N. Y. Choksi¹, J. Hsieh², M. DeVito², D. G. Allen¹, and W. Casey³. ¹ILS/NICEATM, Research Triangle Park, NC; ²NIEHS/NTP, Research Triangle Park, NC; and ³NTP/NICEATM, Research Triangle Park, NC.</i>		Does Pharmaceutical Exposure Mediate Risks Associated with Exposure to Heavy Metals? An Epidemiological Investigation of NHANES. N. Basu ^{1,2} , M. A. Bradley ¹ , M. Siedlikowski ¹ , and S. Park ^{3,4} . ¹ School of Dietetics and Human Nutrition, McGill University, Sainte-Anne-de-Bellevue, QC, Canada; ² Department of Natural Resource Sciences, McGill University, Sainte-Anne-de-Bellevue, QC, Canada; ³ Department of Environmental Health Sciences, School of Public Health, University of Michigan, Ann Arbor, MI; and ⁴ Department of Epidemiology, School of Public Health, University of Michigan, Ann Arbor, MI.
#758	640	#766	651
	Evaluation of Physiologically Based Toxicokinetic (PBTK) Modelling for Reverse Dosimetry Approaches. E. Fabian, K. Guth, R. Zbrank, B. van Ravenzwaay, and R. Landsiedel. Experimental Toxicology and Ecology, BASF SE, Ludwigshafen am Rhein, Germany.		Important Covariates of the Cord Blood Transcriptome. S. Remy ^{1,2} , E. Govarts ² , P. De Boever ² , E. Den Hond ² , and G. Schoeters ^{1,2,3} . ¹ University of Antwerp, Wilrijk, Belgium; ² Flemish Institute of Technological Research, Mol, Belgium; and ³ University of Southern Denmark, Odense, Denmark. Sponsor: H. Van Loveren.
#759	641	#767	652
	Advanced QSAR Models for Use in Toxicokinetic Modelling. D. A. Sariaggiannis, K. Papadaki, and S. P. Karakitsios. Chemical Engineering, Aristotle University of Thessaloniki, Thessaloniki, Greece.		Examining the Association between Urinary Concentrations of 2,5-Dichlorophenol and Blood Pressure in US Adults. Y. Wei ¹ , and J. Zhu ² . ¹ Department of Community Medicine, Mercer University School of Medicine, Macon, GA; and ² Department of Mathematics and Computer Science, Fort Valley State University, Fort Valley, GA.

Monday Afternoon, March 23
1:00 PM to 4:30 PM
CC Exhibit Hall

Poster Session: Epidemiology

Chairperson(s): Ge Tao, Gradient, Cambridge, MA; and Yudan Wei, Department of Community Medicine, Mercer University School of Medicine, Macon, GA.

Displayed: 1:00 PM–4:30 PM

Author-Attended: 2:45 PM–4:30 PM

#760	645	#769	654
	PAHs and PM_{2.5} Emissions and Female Breast Cancer Incidence in Metro Atlanta and Rural Georgia. P. Parikh ¹ , and Y. Wei ² . ¹ Mercer University School of Medicine, Macon, GA; and ² Department of Community Medicine, Mercer University School of Medicine, Macon, GA.		Steatohepatitis Associated with Adipocytokine Abnormalities in the Anniston Community Health Survey. H. Clair ¹ , C. Pinkston ¹ , N. Dutton ² , M. Pavuk ² , K. C. Falkner ¹ , B. Wahlang ¹ , R. A. Prough ¹ , and M. Cave ¹ . ¹ University of Louisville, Louisville, KY; and ² Air Toxic Substances Disease Registry, Atlanta, GA.
#761	646	#770	655
	A Systematic Review of the Association between Pleural Plaques and Changes in Lung Function. L. Kopylev, K. Christensen, J. S. Brown, and G. S. Cooper. NCEA, EPA, Washington, DC.		Aflatoxin B1 Exposure Modulates HIV to AIDS Pathogenic Progression. M. Kang ¹ , L. Tang ¹ , R. Muwanika ² , P. M. Nkurunziza ³ , T. L. Guo ⁴ , X. Song ⁵ , K. S. Xue ¹ , J. W. Finger ¹ , T. Lutalo ² , D. Serwadda ² , J. Seeley ³ , and J. Wang ¹ . ¹ Environmental Health Science, University of Georgia, Athens, GA; ² Rakai Health Science Program, Entebbe, Uganda; ³ British MRC/UVRI, Entebbe, Uganda; ⁴ Veterinary Biosciences and Diagnostic Imaging, University of Georgia, Athens, GA; and ⁵ Epidemiology and Biostatistics, University of Georgia, Athens, GA.
#762	647		
	Interactive Effects of N6AMT1 and AS3MT in Arsenic Biomethylation and the Resulting Cytotoxic Outcomes. H. Zhang ¹ , Y. Ge ¹ , P. He ² , Y. Qiu ¹ , D. S. Aga ² , and X. Ren ¹ . ¹ Epidemiology and Environmental Health & Pharmacology and Toxicology, University at Buffalo, Buffalo, NY; and ² Department of Chemistry, University at Buffalo, Buffalo, NY.		
#763	648		
	Forest-Fire Fine Particulate Matter and Daily Mortality in Greater Boston and New York City. G. Tao, K. Zu, C. Long, J. E. Goodman, and P. A. Valberg. Gradient, Cambridge, MA.		

PS Poster Sessions

Abstract

- #771 **Poster Board Number656**
Polychlorinated Biphenyls, Diabetic Status, and Inflammatory Cytokines. M. Pavuk¹, N. Dutton^{2,1}, H. Clair³, B. Wahlang³, C. Pinkston³, and M. Cave³.
¹Agency for Toxic Substances and Disease Registry (ATSDR), Atlanta, GA; ²Oak Ridge Institute of Science and Education - Research Participation Program, Atlanta, GA; and ³University of Louisville, Louisville, KY.
- #772 **Poster Board Number657**
Circulating Oxidized LDL and Conventional Biomarkers of Cardiovascular Health in a Navajo Cohort Exposed to Uranium-Mining Metal Contaminants. M. E. Harmon¹, C. Miller², M. Campen¹, C. Shuey³, M. Cajero², B. Pacheco², E. Erdei¹, G. Stark², S. Ramone³, T. Nez³, and J. L. Lewis^{1,2}. ¹Department of Pharmaceutical Sciences, University of New Mexico, Albuquerque, NM; ²Community Environmental Health Program, University of New Mexico, Albuquerque, NM; and ³Southwest Research and Information Center, Albuquerque, NM.
- #773 **Poster Board Number658**
The Occurrence of Cyanobacterial Toxins in Alberta Recreational Waters. V. Charoensuk¹, D. Huang¹, C. Niu^{1,2}, J. Graydon³, W. Zhang², J. Popadynetz³, S. Gabos^{1,4}, and D. W. Kinniburgh^{1,4}.
¹Physiology & Pharmacology, Alberta Centre for Toxicology, University of Calgary, Calgary, AB, Canada; ²Health Protection Branch, Alberta Health, Edmonton, AB, Canada; ³Population, Public and Aboriginal Health, Alberta Health Services, Edmonton, AB, Canada; and ⁴Laboratory Medicine and Pathology, University of Alberta, Edmonton, AB, Canada.
- #774 **Poster Board Number659**
Lung Cancer Risk in Chromate Production Workers Exposed to Hexavalent Chromium. M. Suh¹, L. Mittal², S. Hirsch³, R. Valdes³, C. Bartlett³, A. C. Rohr⁴, and D. Proctor¹. ¹ToxStrategies, Mission Viejo, CA; ²ToxStrategies, Katy, TX; ³SciMetrika, Durham, NC; and ⁴Electric Power Research Institute, Palo Alto, CA.
- #775 **Poster Board Number660**
Welding and Occupational Exposure to Manganese Fumes and Parkinson's Disease: An Evidence-Based Causation Analysis. J. K. Britt¹, and R. C. James². ¹ToxStrategies, Inc., Tallahassee, FL; and ²ToxStrategies, Inc., Boise, ID.
- #776 **Poster Board Number661**
Aflatoxin Exposure in Mothers and Children in East Timor, Indonesia. L. Tang¹, J. Wang¹, K. S. Xue¹, M. Kang¹, L. Ascolillo², S. Ghosh², S. Gurung², J. K. Griffiths², P. Webb², and S. Musulmatan³.
¹University of Georgia, Athens, GA; ²Tufts University, Boston, MA; and ³University of Jakarta, Jakarta, Indonesia.
- #777 **Poster Board Number662**
Mechanisms of Health Effects from Traffic-Related Air Pollution (TRAP): Real World Studies in Humans. H. Kipen¹, and R. Laumbach. EOHHSI, Rutgers University, Piscataway, NJ.

Abstract

- #778 **Poster Board Number663**
Ozone Exposure and Systemic Biomarkers: Evaluation of Evidence of Adverse Cardiovascular Health Impacts. S. N. Sax¹, D. M. Pizzurro¹, K. Zu¹, H. N. Lynch¹, R. L. Prueitt², and J. E. Goodman¹.
¹Gradient, Cambridge, MA; and ²Gradient, Seattle, WA.

Monday Afternoon, March 23

1:30 PM to 2:30 PM

CC Ballroom 6A

Meet the Directors: A Conversation with Linda Birnbaum and Jim Jones

Chairperson(s): Peter L. Goering, Society of Toxicology Vice President; US FDA-CDRH, Silver Spring, MD.

Lecturer(s): Linda S. Birnbaum, NIEHS, Research Triangle Park, NC; and Jim Jones, US EPA, Washington, DC.

This important session will provide an informal venue for meeting attendees to have a candid and open discussion with two key leaders of federal organizations with missions to protect and improve public and environmental health: Dr. Linda Birnbaum, Director, NIEHS, and Jim Jones, Assistant Administrator, US EPA Office of Chemical Safety and Pollution Prevention. The entire session will be devoted to a question-and-answer format concerning scientific directions and priorities for NIEHS and US EPA-OCSPP, funding priorities and outlooks, and training opportunities. Dr. Birnbaum

has served as the Director of the National Institute of Environmental Health Sciences and the National Toxicology Program since 2009. Jim Jones has served as OCSPP Assistant Administrator since 2013, as Deputy Assistant Administrator from 2007–2011, and as Director, Office of Pesticide Programs, from 2003–2007.

Monday Afternoon, March 23

1:30 PM to 5:00 PM

CC Room 33B

(By Invitation Only)

Undergraduate Education Program

Hosted by:

Committee on Diversity Initiatives

The program for undergraduate students who received travel funding from the Committee on Diversity Initiatives continues. See page 96 for details.

MONDAY

Program Schedule (Continued)

Monday Afternoon, March 23,
1:45 PM to 2:45 PM
CC Room 22

Exhibitor-Hosted Session: Alternative Models Developing in KIT for Predictive Toxicology

Presented by:
Korea Institute of Toxicology

Agenda—1) Tissue engineering for alternative toxicology; 2) Predictive toxicology models based on the multiorgan interaction.

Monday Afternoon, March 23,
1:45 PM to 2:45 PM
CC Room 24C

Exhibitor-Hosted Session: Diabetes and Weaker Bones—Exploring the Connection

Presented by:
Charles River

Osteoporosis and increased fracture risk have been added to the long list of complications of diabetes. This session will explore skeletal function and underlying mechanisms of compromised bones in metabolic diseases and will highlight endpoints to be included in safety studies to monitor for all diabetic complications.

Monday Afternoon, March 23,
1:45 PM to 2:45 PM
CC Room 24B

Exhibitor-Hosted Session: Solutions and Lessons Learned with Inhaled Compounds in the Pharmaceutical and Chemical Industries: Perspective and Insights from Key Opinion Leaders James Swenberg and Chet Leach

Presented by:
Lovelace Respiratory Research Institute

Case studies for the use of inhaled models of industrial chemicals and pharmaceutical development will be provided by keynote speakers James Swenberg, DACVP, DVM, PhD, and Chet Leach, PhD, DABT.

Monday Afternoon, March 23,
1:45 PM to 2:45 PM
CC Room 24A

Exhibitor-Hosted Session: The Gut Microbiota As a Source of Variability in Animal Models

Presented by:
IDEXX Laboratories

Aaron Ericsson, DVM, PhD, will present data regarding differences in the gut microbiota of mice associated with different genotypes, commercial source, and variables related to husbandry; effects of the gut microbiota on host responses to non-specific stimuli; and cost-effective methods of monitoring and manipulating the gut microbiota of mice.

Abstract

Monday Afternoon, March 23
2:00 PM to 4:45 PM
CC Ballroom 6C

Symposium Session: Cardio-Oncology Concerns Encourage Novel Approaches to Pharmaceutical Risk Assessment

Advancing Clinical and Translational Toxicology

Chairperson(s): Myrtle Davis, NIH/NCI, Bethesda, MD; and Brian R. Berridge, Safety Assessment, GlaxoSmithKline, Research Triangle Park, NC.

Endorser(s): Cardiovascular Toxicology Specialty Section

Recent successes in prolonging the life of cancer patients with optimized use of traditional approaches and the addition of novel classes of drugs (e.g., tyrosine kinase inhibitors) has raised the visibility and interest in managing the cardiovascular sequelae of a number of these therapeutic regimens. These concerns have energized the development of the unique and emerging field of cardio-oncology. A number of recent workshops have explored significant gaps and opportunities for improving both clinical and nonclinical approaches. This symposium intends to explore the knowns, unknowns, and opportunities for improvement in nonclinical approaches to cardiovascular risk assessment of anticancer drugs. The ultimate goal of these discussions is to identify opportunities to further enhance translation of nonclinical approaches and enhance relevance to patient outcomes.

Symposium Session: Immunostimulant Cancer Treatments: Toxicology Programs with an Autoimmune “Twist”

Advancing Clinical and Translational Toxicology

Chairperson(s): Lauren Black, Charles River, Laurel, MD; and Helen G. Haggerty, Immunotoxicology, Bristol-Myers Squibb, East Syracuse, NY.

Endorser(s):

Biotechnology Specialty Section
Immunotoxicology Specialty Section

Stimulating cellular immunity is transforming the way cancer is treated. But agonists to “attack” pathways (or antagonists to “brake” pathways) have caused Severe Adverse Events in clinical trials. Drugs in this category include antibodies, novel proteins, or engineered T cells. Since targets may not be in healthy animals, each tox program has unique hurdles, and so experts will delve into pathway, model, and program details that enabled clinical trials despite known clinical hazards. For example, an agonist antibody against the costimulatory receptor 4-1BB (CD137) caused Grade 4 hepatic inflammation in patients. Additional mechanistic toxicology was conducted using mice and an antimurine CD137 mAb to inform patient risks. PD-1/PD-L1 is studied by many firms because cancer cells upregulate this path to evade immunity—but blocking this pathway poses liabilities of autoimmune and infectious diseases. MPDL3280A blocks PD-L1 and was studied mainly in mice and cynomolgus monkeys; however, integrated assessment led to a more conservative first-in-human starting dose than the standard NOAEL or HNSTD approaches. CEA and OX40 offer two other promising targets: preclinical studies employed translational immunopharmacologic (*in vitro* and *in vivo*) models to characterize the safety for a novel BiTE constructs against CEA and an agonist mAb to OX40. Recent oncology clinical trials have also studied T cells that have been genetically modified to express “new” T cell receptors (TCRs) or chimeric antigen receptors (“CARs,” essentially fragments of therapeutic mAbs). These “CAR-T” cells can recognize selected extracellular targets and kill target-expressing cells. Surprisingly, preclinical studies for these biologic immunostimulants have been under-utilized. Together, these talks should paint a detailed landscape of biologic cancer immunotherapies, and challenges facing toxicologists.

Symposium Session: Nrf2 Signaling Pathways in Model Systems: A Master Regulator of Neurotoxicity and a Potential Therapeutic Target

Chairperson(s): Richard M. Nass, Pharmacology and Toxicology, Indiana University School of Medicine, Indianapolis, IN; and Jeffrey A. Johnson, University of Wisconsin, Madison, WI.

Endorser(s):

Neurotoxicology Specialty Section

The nuclear respiratory factor 2 (Nrf2), a bZip transcription factor, plays a critical role in maintaining cellular redox homeostasis in normal physiology, and in initiating environment- or pathophysiology-associated stress response. The high conservation of Nrf2’s structure, target genes, and downstream signal transduction pathways across animal phyla, in concert with the emerging evidence that the transcription factor is a regulator of protein degradation, neurotoxicity, and cell death, suggests that exploring Nrf2-associated molecular pathways in invertebrate and vertebrate genetic models will have significant relevance to human toxicology. In this symposium, we describe novel insights and strengths, as well as limitations, of increasingly complex genetic models including the nematode, fly, fish, and rodents to identify the molecular pathways involved in Nrf2-associated neuronal protection, as well as the utility of Nrf2-mediated therapeutic targets. Dr. Richard Nass will describe his studies utilizing the nematode *C. elegans* to explore the genetic and molecular basis of Nrf2- and sirtuin-associated DA neuronal vulnerability. Dr. Leo Pallanck will discuss his studies using the genetic fruit fly model *D. melanogaster* to identify Nrf2-inducing compounds to inhibit PD-associated neurodegeneration. Dr. Evan Gallagher will describe his research utilizing the genetic zebrafish model *D. rerio* to elucidate the role of Nrf2 in maintaining sensory behaviors following cadmium exposure. Dr. Jeff Johnson will discuss his studies on how astrocytic Nrf2 activation inhibits PD-associated genetic- and chemical-induced neuropathology in rodents. Finally, Dr. Donna Zhang will discuss her studies involving the regulation of Nrf2 by E3 ubiquitin ligases in rodents and humans, and the opportunities this regulation provides for identifying novel therapeutic targets and leads.

Workshop Session: Evaluating and Quantifying Stress for Inclusion in Cumulative Risk Assessment

Approaches for Protecting Vulnerable Populations

Chairperson(s): Cynthia V. Rider, NTP/NIEHS, Research Triangle Park, NC; and Jane Ellen Simmons, US EPA, Research Triangle Park, NC.

Endorser(s):
Mixtures Specialty Section
Risk Assessment Specialty Section

The environmental justice movement has long recognized disproportionate exposure to chemical and nonchemical stressors in vulnerable populations. While chemical stressors are clearly defined, the term nonchemical stressor covers a broad landscape from physical (e.g., radiation, heat) to psychosocial (e.g., fear of violence). Here, we define nonchemical stressors as factors that stimulate a physiological stress response, with a particular focus on stressors that are relevant to people living in vulnerable communities. Both nonchemical and chemical stressors can contribute to multiple diseases (e.g., cardiovascular disease, asthma) that have higher incidence in vulnerable communities. However, there are many challenges to moving forward with quantitative risk assessments that accurately account for chemical and nonchemical stressors. Progress toward this goal requires focused research attention on developing and validating approaches for measuring the physiological effects of nonchemical stressors and interactions between chemical and nonchemical stressors. Additionally, advancement will require developing and evaluating case studies that adapt available approaches from epidemiology, toxicology, and risk assessment to estimate cumulative risk from chemical and nonchemical stressors. This workshop will bring together experts to discuss the latest science aimed at evaluating chemical and nonchemical stressors and incorporating them into cumulative risk assessments. Discussion will encompass a broad range of diseases (cardiovascular disease, neurodevelopmental delay), chemicals (air pollutants, metals), and stress types (maternal stress, chronic stress). Throughout the workshop, speakers will discuss promising approaches, knowledge gaps, and suggested future research. The concerted, multidisciplinary effort embodied in this workshop will help to shed light on the real impact of exposure to chemical and nonchemical stressors on health and disease in our most vulnerable communities. (This abstract does not reflect US EPA policy.)

Workshop Session: Infant Formula Nutrition: Regulatory and Safety Evaluation of Ingredients

Approaches for Protecting Vulnerable Populations

Chairperson(s): A. Wallace Hayes, Department of Environmental Health, Harvard School of Public Health, Andover, MA; and Brinda Mahadevan, Abbott Laboratories, Columbus, OH.

Endorser(s):
Food Safety Specialty Section
Regulatory and Safety Evaluation Specialty Section
Women in Toxicology Special Interest Group

Research continues to increase our understanding of human milk biology and its physiological functions in the newborn. This understanding has led to advancements in the safety and composition of formulas that ensure non-breastfed infants receive the nutrition needed for normal growth and development. Infant formulas marketed in the United States must meet specific federal requirements relative to composition, clinical merit, and quality. The purpose of the Infant Formula Act of 1980 and subsequent amendments is to ensure the safety and nutritional value of infant formulas—including minimum, and in some cases, maximum levels of specified nutrients. To accomplish this purpose, the Act authorizes the US FDA to promulgate appropriate regulations. The ingredient must be shown to be reasonably certain to be safe. The scientific evidence used to document the safety and to complete the risk assessment of these ingredients includes, but may not be limited to, chemical characterization, anticipated exposure level, and data from animal models and clinical studies. The objectives of this workshop are to address: (1) how infant formulas are regulated by the US Food and Drug Administration (US FDA), including composition, product processing conditions, and clinical data, as well as ingredient safety requirements; (2) the need for innovation that spurs development of new approaches that requires US FDA review prior to product commerce; (3) the challenges in a risk assessment that is conducted to evaluate the generally recognized as safe (GRAS) status of an infant formula ingredient to meet the burden of proof that satisfies regulatory standards; (4) discussion of a preclinical approach—the neonatal pig as a research model for infant formula safety assessment. All speakers will take part in a panel/Q&A discussion including postmarket surveillance following the last presentation.

- #803 2:00 **Infant Formula Nutrition: Regulatory and Safety Evaluation of Ingredients.** B. Mahadevan¹, A. Hayes², C. L. Assar³, R. Clemens⁴, C. Kruger⁵, and B. A. Workshop Session: Pulmonary Toxicity of Graphene Nanomaterials: An Emerging Concern in Manufacturing and Applications?

Chairperson(s): Jenny R. Roberts, HELD/PPRB, NIOSH, Morgantown, WV; and Aaron Erdely, NIOSH, Morgantown, WV.

Endorser(s):

Inhalation and Respiratory Specialty Section
Nanotoxicology Specialty Section
Occupational and Public Health Specialty Section

Graphene, a one-atom-thick monolayer of carbon, is an engineered nanomaterial (ENM) with physical and chemical properties that may offer application advantages over other carbonaceous ENMs, such as carbon nanotubes (CNT). As use of graphene nanomaterials (GNMs) in a variety of industries and manufacturing increases, the potential for respiratory exposure, particularly in the workplace, also rises. Unlike CNT, toxicity of GNMs has not been well defined. In addition, GNMs can vary in dimension, surface chemistry, number of layers, and other physico-chemical parameters, which in turn may affect toxicological potency of the material. The goal of this workshop is to present the most recent toxicological research findings in the field of GNMs and gain an understanding of the hazard and risk for exposure. The workshop will cover the physico-chemical characteristics and applications of a variety of GNMs, potential exposure in occupational settings, toxicity related to size and composition following various methods of pulmonary exposure in animal models, and comparative toxicity to well-defined carbonaceous ENMs. The outcome for the session is to establish whether GNM exposure poses a potential health hazard by providing an understanding of GNMs and conveying the most recent material science expertise and toxicological research related to respiratory exposure to various forms of GNMs.

Education-Career Development Session: Challenges in the Life Cycle of a Toxicologist

Chairperson(s): Tina E. Levine, Retired, Arlington, VA; and William J. Brock, Brock Scientific Consulting, Montgomery Village, MD.

Endorser(s):

Career Resource and Development Committee
Education Committee
Women in Toxicology Special Interest Group

Toxicologists face different challenges at different stages of their career life cycle. This session will explore some of these challenges, and offer potential solutions to those challenges. Industry, academia, and government employ 47%, 21%, and 14% of toxicologists, respectively. For students and postdoctoral trainees applying for jobs in these sectors, the initial challenge in getting that first position is presenting oneself on paper and in person. The goal of the first presentation will be to demystify the US federal hiring process with specific emphasis on how to describe oneself on paper as a toxicologist in order to be considered for a government position. The second speaker will address early-career toxicology positions in industry, and how the roles and responsibilities of the entry-level toxicologist contribute to the developing career. For the mid-career toxicologist, the challenge is often how to keep progressing, whether to pursue a technical or managerial track, and whether to consider transitioning to peripheral disciplines. The mid-career toxicologist speaker will provide guidance on how to develop a broad skill-set to enhance career opportunities. The fourth speaker will address how work/life satisfaction can be attained in the context of careers in science, which are very often a way of life and far more than a job. The tools presented will assist attendees in identifying strategies that can have the biggest impact on their work/life satisfaction and in developing their own personal action plan, whatever their career stage. The final challenge for many toxicologists is how to transition to semi- or full retirement; many toxicologists continue to work either full or part-time as consultants. Some choose to pursue interests long deferred due to the demands of full-time work. The last presentation will explore challenges encountered by the toxicologist as "retirement" and the twilight of a career approach. At the end of the session, a panel discussion will convene to address specific issues that arise in the career of the attendees, and discuss strategies for advancing the toxicology career.

Exhibitor-Hosted Session: 3D Microtissues Meet OMICS Technologies and High-Content Imaging

Presented by:
InSphero Inc.

OMICS technologies and high-content imaging have been demonstrated to be valuable tools to unravel biological pathways and phenotypic outcomes. This session aims to introduce the use of confocal imaging techniques, transcriptomics, and proteomics in combination with organotypic 3D model systems to assess toxicological pathways and mechanisms.

Monday Afternoon, March 23,
3:15 PM to 4:15 PM
CC Room 24A

Exhibitor-Hosted Session: Chemical Risk Assessment Best Practices

Presented by:
NSF International

Chemical risk assessments establish compliance with regulation and permit informed decision-making in product development and stewardship. When properly conducted, they are crucial to sustainable commercialization and public health protection. This session will review best practices in developing scientifically credible environmental and human health risk assessments and disseminating peer-reviewed risk values.

Monday Afternoon, March 23,
3:15 PM to 4:15 PM
CC Room 22

Exhibitor-Hosted Session: Further Exploration of Study Design for Tg.rasH2 Mouse Carcinogenicity Studies

Presented by:
BioReliance

BioReliance, the leader in transgenic carcinogenicity testing, will present the latest data from our historical database, the largest for these studies. BioReliance has recently published several papers suggesting changes to the designs of Tg.rasH2 carcinogenicity studies. These suggestions will be discussed with data to support the hypotheses.

Monday Afternoon, March 23,
3:15 PM to 4:15 PM
CC Room 24B

Exhibitor-Hosted Session: *In Silico* Approach to the ICH M7 Challenges

Presented by:
MultiCASE Inc

MultiCASE Inc, the leading provider of *in silico* toxicology solutions for chemical and pharmaceutical industries, will share their experience and expertise in the ICH M7 challenges with comprehensive CASE Ultra solutions. Highlights, interpretation scenarios and case studies will be presented.

Monday Afternoon, March 23
3:30 PM to 4:30 PM
CC Room 32B

Undergraduate Education Program: Host Mentor and Peer Mentor Meeting

Chairperson(s): Jorge Naciff, Procter & Gamble Company, Mason, OH; and Sakina Elzebeir Eltom, Meharry Medical College, Nashville, TN.

Host mentors and peer mentors meet to provide feedback on the Undergraduate Education Program.

Monday Afternoon, March 23

CC Ballroom 6A

SOT/EUROTOX Debate: *In Vitro* Alternatives Are Ready to Be Implemented and Relied Upon for Human Safety Testing

Chairperson(s): John B. Morris, University of Connecticut, Storrs, CT; and Mumtaz Iscan, Ankara University, Ankara, Turkey.

SOT Debater: George P. Daston, Procter & Gamble Company, Cincinnati, OH.

EUROTOX Debater: Maurice P. Whelan, European Commission Joint Research Centre, EURL ECVAM, Ispra, Italy.

Endorser(s):
Society of Toxicology (SOT)
European Societies of Toxicology (EUROTOX)

Each year the SOT Annual Meeting includes a debate that continues a tradition that originated in the early 1990s, in which leading toxicologists advocate opposing sides of an issue of significant toxicological importance. This year, our debaters will address the proposition: *In Vitro* Alternatives Are Ready to Be Implemented and Relied Upon for Human Safety Testing.

In vitro and other nonanimal test methods have been under development for many years as possible replacements for animal testing as the basis for human safety risk assessment. The need for these methods is acute, both because of legislative pressure, such as the European Union's Cosmetics Regulation, which forbids the use of ingredients tested in animals after March 2013, and because of the growing discrepancy between the number of chemicals being introduced into commerce and the ability to thoroughly evaluate their toxicity in animals. Despite these pressures, implementation of alternative methods has been slow, both because of the rigorous validation process required to qualify them as replacements and because of the difficulties in modeling all relevant aspects of pharmacokinetics and pharmacodynamics that are present in the intact organism. Still, scientists and regulators continue to look for applications for alternative methods that will be reliable and withstand criticism. Some of these include the use of read-across to support safety assessment for groups of related chemicals, or high-throughput screening such as the ToxCast program to prioritize large numbers of chemicals for further testing. The debaters will discuss the state of the science of alternative methods and whether they can be relied upon for supporting human safety assessments.

MONDAY

Program Schedule (Continued)

(Cont)

Regardless of framework differences and personal convictions, each scientific debate delegate will present relevant evidence and compelling scientific arguments to persuade and appeal to the response of the audience in order to obtain the approval or refusal of the motion. In addition to being a featured session at the SOT Annual Meeting in San Diego, California, this debate will again take place (with the debaters taking the reverse positions) in Porto, Portugal, during the 51st Congress of the European Societies of Toxicology (2015 Eurotox Annual Congress), September 13–16.

Monday Afternoon, March 23,
4:45 PM to 5:45 PM
CC Room 24C

Exhibitor-Hosted Session: Practical SEND Planning and Implementation: Key Learnings from a Dedicated Community of Experience and Expertise

Presented by:
Instem

This session will review the experiences of twenty-one sponsors and CROs across eleven countries that have completed or are implementing new processes for SEND.

Monday Afternoon, March 23,
4:45 PM to 5:45 PM
CC Room 24A

Exhibitor-Hosted Session: Semi-Automatic Generation of Expert Reports for ICH M7 Regulatory Submissions

Presented by:
Leadscope, Inc.

This session presents a semi-automated framework to rapidly generate an M7 submission report containing an expert opinion that is transparent, complete, consistent, and traceable.

Monday Afternoon, March 23,
4:45 PM to 5:45 PM
CC Room 24B

Exhibitor-Hosted Session: Strategies to Reduce Attrition in Early and Late Stages of Drug Development

Presented by:
APTUIT LLC

Besides being a regulatory requirement, electrophysiology can be used in early stages of drug development to allow the early detection of a potential cardiotoxicity. Abuse liability may represent a risk to the development portfolio, and appropriate abuse liability strategy may mean the difference between failure and success of an asset.

MONDAY EVENING

Monday Evening, March 23
5:00 PM to 6:30 PM
Marriott Marquis Balboa

Allegheny-Erie and Michigan Regional Chapters Joint Reception

Monday Evening, March 23
5:00 PM to 8:00 PM
Marriott Marquis San Diego Ballroom B

American Association of Chinese in Toxicology Special Interest Group Reception and Distinguished Chinese Toxicologist Lectureship Presentation

Monday Evening, March 23
5:00 PM to 6:00 PM
Henry's Pub

Ohio Valley and Midwest Regional Chapters Joint Reception

Program Schedule (Continued)

Monday Evening, March 23

5:30 PM to 7:30 PM

Karl Strauss Brewery

National Capital Area and North Carolina Regional Chapters Joint Reception

Monday Evening, March 23

5:30 PM to 7:30 PM

Harbor House

Pacific Northwest Regional Chapter Reception

Monday Evening, March 23

5:30 PM to 7:30 PM

Rama Thai

Toxicologists of African Origin Special Interest Group Reception

Monday Evening, March 23

6:00 PM to 10:00 PM

Dublin Square Authentic Irish Pub & Grille

Southeastern Regional Chapter Reception

Monday Evening, March 23

6:00 PM to 7:30 PM

CC

See room listing below.

Specialty Section Meeting/Receptions: Carcinogenesis (31C); Inhalation and Respiratory (30A); Mixtures (30E); Molecular and Systems Biology (29A); Regulatory and Safety Evaluation (28A)

Monday Evening, March 23

7:00 PM to 9:00 PM

Marriott Marquis Temecula

Association of Scientists of Indian Origin Special Interest Group Reception

Monday Evening, March 23

7:00 PM to 9:00 PM

Program Schedule (Continued)

TUESDAY MORNING

Tuesday Morning, March 24
7:00 AM
Embarcadero Marina Park

Past Presidents' 5K Fun Run/Walk

Supported by:
IDEXX Laboratories, Inc.

When you pack for SOT 2015, don't forget your running shoes so you can join us for the fifth annual Past Presidents' 5K Fun Run/Walk! Open to anyone interested, this event is a great opportunity to meet old friends and make new acquaintances in a casual environment, joining SOT's Past Presidents in showing support for SOT. Whether you're in it for some friendly competition or would rather take a leisurely stroll, this event's emphasis is on camaraderie and will bring together runners and walkers of all levels and paces. Come join us—we look forward to seeing you!

To register, visit the Special Events section of the SOT Annual Meeting website. Registration is only \$20, and all proceeds will go toward the SOT Endowment Fund.

Tuesday Morning, March 24
7:30 AM to 9:00 AM
CC Room 3

American Association of Chinese in Toxicology/Korean Toxicologists Association in America Special Interest Groups Career Workshop 1: Current US Job Market for Toxicologists

Tuesday Morning, March 24
7:45 AM to 8:45 AM
Marriott Marquis Malibu

Women in Toxicology Special Interest Group Executive Board Meeting

Tuesday Morning, March 24

8:00 AM to 8:50 AM
CC Ballroom 6B

Translational Impact Award Lecture: How to Make a (Translational) Impact

Lecturer: Jefferey Burgess, University of Arizona, Tucson, AZ.

Three exposure scenarios will be presented to demonstrate the importance of translational public health studies: 1) Combustion Product Exposure in Firefighters. Exposures to firefighters, even in the absence of visible smoke or individual chemicals exceeding occupational exposure limits, can cause acute adverse health effects, leading to the need for appropriate respiratory protection. 2) Environmental Arsenic Exposure. Limiting population exposures to arsenic has traditionally been focused on drinking water, yet existing exposure limits are associated with measurable adverse effects and adequately protective concentrations are not known. In addition, diet is a more important source of exposure than water below existing maximum contaminant levels. 3) Exposure to Diesel and Alternative Fuel Emissions in Miners. Alternative fuels, such as biodiesel, are used to reduce exposure to particulate emissions, yet the potential benefits and/or detriments are not known. In each of these cases, lines of inquiry were requested and informed by partners and benefited from collaboration with multidisciplinary teams. The critical steps in all of these lines of study are to work with partners and colleagues, ask questions, and learn from others. For rapid translation, research must address partner needs and be provided in a fashion that can influence changes.

Tuesday Morning, March 24,
8:30 AM to 9:30 AM
CC Room 22

Exhibitor-Hosted Session: Challenges, Conundrums, and the "Catch-22" in Abuse Liability Testing for NDA Approvals: The Bugaboo of Biologics?

Presented by: MPI Research

There is a growing concern from the published literature that some "biologic-products" on the market have the potential to be psychoactive or have the capacity not only to modify ongoing behavior but also to enter into important behavioral processes that serve as markers of abuse in the clinical population.

Tuesday Morning, March 24,
8:30 AM to 9:30 AM
CC Room 24A

Exhibitor-Hosted Session: Considerations and Challenges Associated with Medical Device Risk Assessment

Presented by:
WuXi AppTec

Risk assessments based on chemical characterization data and intended use have recently become an integral component in the overall evaluation of medical device biocompatibility. Using ISO 10993-17 as a framework, the basic principles of risk assessment can be applied to the evaluation of medical device extracts.

Program Schedule (Continued)

Tuesday Morning, March 24,
8:30 AM to 9:30 AM
CC Room 24C

Exhibitor-Hosted Session: Key Factors an End-User Must Consider When Examining a Vendor's Extractable/Leachable Program

Presented by:
Toxikon Corporation

Container closure suitability for a drug product necessitates the quantitative examination of leachable substances, obtained under simulated use conditions. Target leachates are selected by end users from extractable studies that must be adequate to capture and model the critical conditions of concern.

Tuesday Morning, March 24,
8:30 AM to 9:30 AM
CC Room 24B

Exhibitor-Hosted Session: The Use of Human HepatoPac, an *In Vitro* Microliver Platform, for Predictive Toxicology

Presented by:
Hepregen Corporation

Current *in vitro* platforms to assess hepatotoxicity have been poor predictors of *in vivo* performance. HepatoPac is a highly predictive *in vitro* microliver platform demonstrated to improve sensitivity. It remains functional for several weeks, making it an ideal platform for "extended-horizon" scenarios, including chronic toxicity and DDIs.

Tuesday Morning, March 24
9:00 AM to 12:00 Noon
CC Ballroom 6A

Frontiers for Toxicology Session: Bugs to Drugs: The Microbiome in Human Health, Disease, and Therapeutics

Chairperson(s): David Ross, School of Pharmacy, University of Colorado Health Sciences Center, Aurora, CO; and Paul C. Howard, Division of Biochemical Toxicology, US FDA-NCTR, Jefferson, AR.

Endorser(s):
Scientific Program Committee

The human microbiome represents a symbiotic ecosystem that plays a key role in host metabolism and physiology, and is incredibly diverse even between healthy individuals. Dysfunctional microbiomes in various host environments are being increasingly recognized in the pathogenesis of altered metabolic states and diseases, such as metabolic syndrome, obesity, diabetes, certain autoimmune disorders, atherosclerosis, autism, asthma, and allergies. In particular, the gut microbiome plays a role in metabolism and absorption of drugs, toxicants, environmental chemicals and dietary components; these exposures also alter the microbiota species composition and microbiome. Breakthroughs in analytical methods and tools have accelerated the understanding of the roles of the microbiome in human health and disease. Metagenomics represents a powerful approach to define the microbiota species composition in a given ecosystem through detection of their genes and gene products, and the role of altered microbiomes in disease. Vast microbiota diversity exists within and between humans, each population producing a large array of their own metabolites and products, which contributes to regulating the overall host biology within this symbiotic relationship.

Abstract

(Cont')

Metabolic profiling strategies, including new mass spectrometric and bioinformatics techniques, are being developed to analyze the microbial metabolome to generate chemical maps that describe the molecular connections and communications between host cells and microbes. Understanding microbiome-metabolome-host interactions will drive the identification of novel drug targets and development of new therapeutic interventions for many diseases. Rapid advances linking microbiota, the microbiome, and metabolome and their role in health and disease represent an important frontier from a toxicological perspective. The goal of this session is to feature eminent scientists who have made important contributions and advances to current knowledge of the microbiome. Integrated areas that will be explored include metagenomic characterization of microbiomes in human and environmental ecosystems, changes in the microbiome from birth to death and important applications to forensics, the molecular characterization of the microbiome and the challenges of linking large amounts of genome sequencing and mass spectrometric data, and the metabolic crosstalk between the host and the symbiotic microbiome and its influence on disease and therapeutic, personalized medicine interventions.

Symposium Session: Alternative Models to Study Classical Toxicants: A Mechanistic View

🔄 Safety Assessment Approaches for Product Development

Chairperson(s): Kathryn E. Page, *Nutritional Sciences and Toxicology, University of California Berkeley, Berkeley, CA;* and Monica R. Langley, *Biomedical Sciences, Iowa State University, Ames, IA.*

Endorser(s):

Graduate Student Leadership Committee
Mechanisms Specialty Section
Postdoctoral Assembly

Alternatives to *in vivo* toxicity testing are increasingly necessary due to regulatory mandates (e.g., REACH legislation), cost and time constraints, as well as ethical considerations. Models are being used in government, industry, and academia to develop a system for chemical screening and prioritization framework, and to study the mechanistic action of compounds traditionally studied *in vivo*. Graduate and postdoctoral researchers will describe their studies of classical toxicants using cell-based and alternative animal models that demonstrate how *in vitro* systems can be developed to elucidate mechanistic action of classical toxicants. The first presenter will describe the evaluation of ToxCast compounds to characterize multidimensional developmental and neurotoxicological effects using zebrafish. The second speaker will describe his efforts studying the developmental effects of RyR-active PCBs using embryonic zebrafish as a novel *in vivo* model. The third presenter will discuss the use of *C. elegans* in a genetic screen assessing MeHg-associated dopaminergic neuron degeneration, highlighting involvement of SKN-1/Nrf2 and MRP-7. The fourth speaker will present the development of an *in vitro* 'omics approach to identify pathways of developmental neurotoxicity, and discovery of gene expression and metabolite changes relating to pesticides, pharmaceuticals, and metals. The fifth presenter will discuss a novel *in vitro* model for ozone adaptation, analyzing expression of proinflammatory and oxidative stress genes and discovery of the role of histone acetylation in the epigenetic control of ozone adaptation. The final speaker will present a combined functional genomics approach, using *S. cerevisiae* and avian DT40 cells, to determine the genotoxic mechanism of DCVC as a contributor to TCE renal toxicity. Attendees will learn of alternative methods with presenters stressing the strengths of these models in studying mechanisms of toxicity, while providing a retrospective look at classic toxicants and where we are now.

Symposium Session: Immune Responses to Different Classes of Inhaled Particulates: Unique vs. Shared Responses and Mechanisms

Chairperson(s): Andrij Holian, *CEHS, University of Montana, Missoula, MT;* and Seishiro Hirano, *Environmental Nanotoxicology Section RCER, National Institute for Environmental Studies, Tsukuba, Japan.*

Endorser(s):

Inhalation and Respiratory Specialty Section
Immunotoxicology Specialty Section
Nanotoxicology Specialty Section

Inhaled particulates, including silica, asbestos, particulate matter, and nanoparticles, induce pulmonary inflammation, lung fibrosis and, often, systemic disease. As these materials each range in size, shape, durability, composition, and surface properties, they are often evaluated for immunotoxic effects individually rather than collectively. Often they are considered "distinct" classes of toxicants, and information that could be used to advance the overall knowledge about immunotoxicity of inhaled particulates is not frequently exchanged or evaluated in the context of a single toxicant class, viz., particulates. Taking a more unifying approach, some common findings about immunotoxicities (and associated mechanisms) have begun to emerge. For example, with each class of material, an initial pulmonary response is induced that is mediated via the innate immune system and, in turn, drives an early inflammatory response. Similarly, an adaptive immune response is then triggered that appears to be responsible for the onset of systemic diseases/pathologies. Nevertheless, each of these four particulate classes is capable of inducing some unique pathologies; consequently, there are likely some innate/adaptive responses (and associated mechanisms) induced by each type of particulate that somehow also specifically differ. The purpose of this symposium is to bring together experts to discuss, utilizing new cutting-edge information obtained about the immunotoxicity of these materials, the uniqueness of the innate and adaptive immune responses to each of the different particulates. A final presentation will then review areas of commonality and uniqueness. Based on these presentations, the symposium will seek to build a consensus about particle immunotoxicology that will help accelerate research for all particles and improve cross fertilization of research.

Symposium Session: Local and Systemic Toxicity from Cobalt and Chromium-Containing Hip Prostheses

Advancing Clinical and Translational Toxicology

Jointly Provided by: University of Arkansas for Medical Sciences College of Medicine and SOT Approved for AMA PRA Category 1 Credit™—See mobile app for details

Chairperson(s): Allister Vale, School of Biosciences and College of Medical and Dental Sciences, University of Birmingham, Birmingham, United Kingdom; and Jeffrey Brent, University of Colorado Denver, Denver, CO.

Endorser(s):
Clinical and Translational Toxicology Specialty Section
Metals Specialty Section
Occupational and Public Health Specialty Section

Over 500,000 patients in the US have received a metal-on-metal hip prosthesis. Movement of loosened components in a failing prosthesis and friction between bearing surfaces can result in increased local and systemic metal concentrations, principally of cobalt and chromium. Metallic debris affects bone health through direct effects on bone cells and through indirect inflammatory signalling. These effects vary with the metal, its concentration, physical form, and valency. Cobalt and chromium localize at nuclear and perinuclear sites in osteoblasts, suggesting uptake through cell membrane transporters, and is modulated by P2 receptor blockade. Metallic debris induces a range of cellular responses by direct cytotoxicity mediated through activation of redox reactions or the substitution of other bivalent cations in biological pathways, and through cytokine induction that is potentiated by direct and indirect activation of inflammasome signaling. Clinical studies have demonstrated that cobalt causes cardiovascular, visual, auditory, and thyroid dysfunction; malnourished heavy drinkers, for example, develop cardiomyopathy. Eighteen patients with systemic toxicity in association with a metal-containing hip have been reported. The reported systemic features fell into three main categories: neuro-ocular toxicity [14 patients: peripheral

Abstract

neuropathy (six cases), sensori-neural hearing loss (seven), cognitive decline (five), ocular toxicity (six)], cardiotoxicity (11 patients), and thyroid toxicity (nine patients). Currently, there is no evidence that chelation with any anti-dote will exert a beneficial therapeutic impact on clinical outcome in patients with health problems associated with cobalt-containing hip prostheses.

- #846 9:00 **Local and Systemic Toxicity from Cobalt and Chromium-Containing Hip Prostheses.** A. Vale¹, M. Wilkinson², J. Brent³, S. Bradberry⁴, and M. J. Workshop Session: Considering Pharmacokinetics As the Mechanistic Basis to Link Chemical Exposures to Adverse Outcome Pathways

Strategies for Exposure and Risk Assessments

Chairperson(s): Stephen Edwards, US EPA, Research Triangle Park, NC; and Yumei C. Tan, US EPA, Durham, NC.

Endorser(s):
Biological Modeling Specialty Section
Molecular and Systems Biology Specialty Section

The Adverse Outcome Pathway (AOP) framework guides the formal characterization of the series of key events starting with chemical perturbation of a molecular initiating event (MIE) and resulting in an adverse outcome relevant for regulatory decision-making. AOPs should be chemical agnostic to allow general use in interpreting high-throughput assays developed based on the MIE, but practical application of AOPs in risk assessment requires comparison between the concentration expected to result in an adverse outcome based on the extent of MIE stimulation and the biologically effective target tissue dose for a chemical. This requirement in turn speaks to the

Program Schedule (Continued)

Abstract

critical need to consider absorption, distribution, metabolism, and excretion (ADME) of a chemical, which may render an otherwise toxic chemical inaccessible to molecular targets in AOPs. Considerations of ADME not only link biological responses to chemical exposure, but are essential when extrapolating *in vitro* assays to *in vivo* conditions and across species and lifestages. With the maturation of the AOP framework, this workshop seeks to open a dialogue within the Society on how to apply this same rigor to developing a framework that incorporates ADME events connecting environmental chemical exposure and AOP initiation. To provide the broadest array of perspectives on this problem, scientists from around the world have been invited to discuss toxicity pathways, adverse outcome pathways, pharmacokinetic modeling, and chemoinformatic tools. Following the presentations, there will be a discussion period to facilitate open discussion among workshop attendees on the state of the science in connecting ADME to AOP research. Participants should leave with a better appreciation of how ADME and AOPs together can improve toxicity predictions based on *in vitro* measurements. The overarching goal of this workshop is to enhance the use of the AOP framework in chemical-specific risk assessment by better integrating knowledge and data between ADME and AOPs.

Workshop Session: Regulatory Neurodevelopmental Testing: New Guiding Principles for Harmonization of Data Collection and Analysis

Approaches for Protecting Vulnerable Populations

Chairperson(s): Abby Li, Exponent, San Francisco, CA; and Wayne Bowers, Health Canada, Ottawa, ON, Canada.

Endorser(s):

Neurotoxicology Specialty Section
 Regulatory and Safety Evaluation Specialty Section
 Reproductive and Developmental Toxicology Specialty Section

There is increasing concern worldwide about the potential for chemicals to affect neurodevelopment in children. In 2012, OECD published the extended one-generation reproductive toxicity guideline 443, which will generate new auditory startle, motor activity, and morphometric data. Since these endpoints will have increased regulatory significance, their conduct and interpretation requires increased attention. New evaluations of older DNT studies conducted according to US EPA guidelines (including learning and memory) in global regions are also playing a larger role in children's health risk assessment. Yet, data from the same study has resulted in different risk assessments in different countries, leading to potential trade barriers. In addition, data are sometimes incompletely reported or analyzed, adding to inconsistencies in evaluations. These issues also apply to juvenile and pre-postnatal studies conducted for pharmaceuticals. Although various regulatory bodies have different risk management frameworks, this workshop will provide an opportunity to develop more harmonized scientific approaches for evaluating DNT data. One major reason for varying regulatory decisions based on the same data is expectations for variability of DNT data. Speakers from industry, academia, and government with regulatory neurotoxicology expertise will discuss inherent and controllable variability, suggest guiding principles for assessment of DNT data, and selection of benchmark response levels that take into account different variability. Speakers will address shortcomings in study conduct, data reporting, and analysis that are encountered by regulatory authorities, and will propose approaches to harmonize evaluation of data using different DNT endpoints as case studies. The workshop will end with discussion led by two discussants from industry and government. This session is especially timely as laboratories in different world areas are developing new capabilities to conduct the OECD 443 guideline and regulatory bodies place new emphasis on evaluation of DNT data for children's health risk assessments.

Workshop Session: The EDSP Screening Battery: A Work in Progress for Prioritizing Compounds for Quantitative Risk Assessment

Strategies for Exposure and Risk Assessments

Chairperson(s): Bethany R. Hannas, Toxicology & Environmental Research & Consulting, The Dow Chemical Company, Midland, MI; and Cynthia V. Rider, NTP/NIEHS, Research Triangle Park, NC.

Endorser(s):

Regulatory and Safety Evaluation Specialty Section
Reproductive and Developmental Toxicology Specialty Section
Risk Assessment Specialty Section

The US Environmental Protection Agency (US EPA) Endocrine Disruptor Screening Program (EDSP) has been evolving since its inception in 1998. The two-tiered program was initiated in response to a mandate by Congress to investigate the potential for pesticides and drinking water contaminants to have adverse effects on endocrine signaling. The collection of 11 assays included in EDSP Tier 1 were compiled to provide a standardized battery by which compounds could be screened for the potential to interact with estrogen, androgen, or thyroid (EAT) hormone signaling pathways. Compounds showing potential EAT activity in the Tier 1 battery are anticipated to undergo further, more comprehensive testing in EDSP Tier 2, which will provide dose-response data on adverse endpoints for use in quantitative risk assessment. Since 2009, when the US EPA issued the first set of testing orders for Tier 1 screening, 52 compounds have been screened through this battery of assays. Many challenges were encountered during this initial testing, including meeting assay performance criteria, interpreting data, and allocating time and resources for such a large-scale screening battery. One of the most significant and challenging questions that transpired following this first attempt at EDSP Tier 1 testing was, "Where do we go from here?" Addressing this question will be paramount in effectively implementing this program. Issues related to the dynamic process of optimizing the screening portion of the EDSP include challenges associated with Tier 1 screening, proposed approaches for streamlining the screening program, the future of the program as EDSP21, endocrine screening in nonmammalian species, and lingering questions on the aptness of the Tier 1 battery. Discussions focused on these topics are timely, with impending Tier 1 test orders on the horizon for List 2 compounds and upcoming decisions regarding the future for Tier 1 positive compounds as relates to moving into Tier 2 testing.

CC Ballroom 6E

Workshop Session: Understanding and Communicating Uncertainty in Hazard Assessment and Dose Response

Strategies for Exposure and Risk Assessments

Chairperson(s): Nancy B. Beck, Regulatory and Technical Affairs, American Chemistry Council, Washington, DC; and Lynn H. Pottenger, The Dow Chemical Company, Midland, MI.

Endorser(s):

Occupational and Public Health Specialty Section
Regulatory and Safety Evaluation Specialty Section
Risk Assessment Specialty Section

Hazard and risk assessment programs generally provide a single estimate as a final work product. These point estimates of human health hazard/risk associated with environmental exposures are regularly used by risk managers in regulatory decision-making in setting standards, determining emissions controls, setting occupational standards, and mitigating exposures to pollutants both nationally and internationally. Methodologies used to derive these point estimates vary, and many rely on upper bound or worst-case assumptions. Additionally, understanding of the components of these assessments, including the attendant uncertainty surrounding the point estimates and how this uncertainty impacts the estimates, is often limited, particularly in the summary information that is provided. Thus risk assessors, risk managers, and stakeholders are often challenged to understand all of the assumptions and uncertainties embedded in a hazard characterization. An improved approach to communication can help to fully convey the plausible range of risk estimates to risk managers. A better understanding of the uncertainties in these assessments will allow users a better sense of the overall confidence with which a risk value can be used and whether there is a proper balance between being protective and being predictive.

Program Schedule (Continued)

Abstract

This workshop session will explore different approaches and visual tools that have recently been developed to better communicate the uncertainties and confidence within hazard assessments, such as IRIS. With each presented approach, specific examples will be provided so that we can move past discussion of the theoretical implementation and examine exactly what the approach would look like when used. In addition, US EPA will also be providing an update on the changes they have been making to help improve the communication of their findings within the IRIS program.

- #871 9:00 **Understanding and Communicating Uncertainty in Hazard Assessment and Dose Response.** N. B. Beck¹, and L. H. Pottenger². ¹Regulatory and Technical Affairs, American Chemistry Council, Washington, DC; and ²The Dow Chemical Company, Midland, MI.
- 9:00 **Introduction.** N. B. Beck. American Chemistry Council, Washington, DC.
- #872 9:05 **Setting the Stage in Addressing Uncertainty, Variability, and Sensitivity.** B. Meek. University of Ottawa, Ottawa, ON, Canada.
- #873 9:34 **Unpacking Toxicity Assessments to Understand and Improve Confidence.** R. L. Grant², S. L. Santos³, M. L. Dourson⁴, S. Shirley², N. K. Erraguntla², R. J. Lewis⁵, and N. B. Simon⁵. ¹Environmental and Radiological Health Sciences, Colorado State University, Fort Collins, CO; ²Regulatory and Technical Affairs, American Chemistry Council, Washington, DC; ³LaKind Associates, Catonsville, MD; ⁴Toxicology Excellence for Risk Assessment, Cincinnati, OH; and ⁵Ted Simon, LLC, Winston, GA.
- #875 10:32 **Improving Transparency and Prioritization of Data Needs in Hazard Value Development.** C. R. Kirman¹, G. Gray², and B. Meek³. ¹Summit Toxicology LLP, Orange, OH; ²George Washington University, Washington, DC; and ³University of Ottawa, Ottawa, ON, Canada.
- #876 11:01 **Characterizing Uncertainty in Human Health Risk Assessment: An Agency Perspective.** L. Flowers, V. J. Cogliano, W. A. Chiu, K. Hogan, D. Bussard, and N. Birchfield. National Center for Environmental Assessment (NCEA), US Environmental Protection Agency, Crystal City, VA.
- #877 11:30 **Facilitated Discussion on "Understanding and Communicating Uncertainty in Hazard Assessment and Dose Response"** L. H. Pottenger. The Dow Chemical Company, Midland, MI.

Abstract

Tuesday Morning, March 24
9:00 AM to 12:30 PM
CC Exhibit Hall

Poster Session: Pharmaceutical Safety: Models and Methods

☞ Safety Assessment Approaches for Product Development

Chairperson(s): Chidozie J. Amuzie, Pathology, MPI Research, Mattawan, MI.

Displayed: 9:00 AM–12:30 PM

Author-Attended: 9:00 AM–11:00 AM

- #878 **Poster Board Number 101**
A Smart Combination of Screening Assays for Assessing Drug-Induced Liver Injury in Humans. S. Schadt, F. Boess, A. Brink, S. Kustermann, S. Simon, C. McGinnis, M. Ullah, K. Youdim, R. Alvarez-Sanchez, T. Singer, A. B. Roth, F. Schuler, and C. Funk. Roche Innovation Center Basel, pRED, Pharmaceutical Sciences, F. Hoffmann-La Roche Ltd., Basel, Switzerland.
- #879 **Poster Board Number 102**
Characterization of a Resazurin/Resorufin Assay for Reactive Acyl Glucuronides with Dicumarol and Reactive Aldehyde Trapping Agents. M. Mcmillian¹, F. Xu², H. Lim², N. Hari Singh¹, and A. Ananthanarayanan¹. ¹InvitroCue, Singapore, Singapore; and ²Pharmacokinetics, Dynamics & Metabolism, Janssen PRD, Spring House, PA.
- #880 **Poster Board Number 103**
Evaluation of an *In Vitro* Cytotoxicity Assay in FBS-Free Medium to Select Safer Compounds. S. Kakiuchi-Kiyota¹, R. T. Naven¹, D. DeSilver¹, K. Riccardi², and N. Greene¹. ¹Compound Safety Prediction, Pfizer, Groton, CT; and ²Pharmacokinetics, Dynamics and Metabolism, Pfizer, Groton, CT.
- #881 **Poster Board Number 104**
Nrf2 Stress Response, a Suitable Biomarker for Oxidative Stress and Reactive Metabolites Formation? H. Gerets, K. Tilmant, F. Atienzar, and J. Valentin. iTOX, UCB Pharma Sprl, Braine l'Alleud, Belgium.
- #882 **Poster Board Number 105**
An *In Vitro* Assay Panel to Predict Drug-Induced Mitochondrial Toxicity. K. Jambunathan, J. Miller, and J. C. Mirsalis. Biosciences Division, SRI International, Menlo Park, CA.
- #883 **Poster Board Number 106**
A Novel Cell-Based Assay System for Risk Assessment of Drug-Induced Liver Injury Considering Immune- and Inflammation-Related Gene Expression. S. Oda¹, K. Matsuo², M. Nakajima², A. Nakajima¹, and T. Yokoi¹. ¹Drug Safety Sciences, Nagoya University Graduate School of Medicine, Nagoya, Japan; and ²Drug Metabolism and Toxicology, Kanazawa University, Kanazawa, Japan.
- #884 **Poster Board Number 107**
Mitochondrial Deregulation: A Potential Explanation for Drug-Induced Organ Toxicity. K. Tilmant¹, H. Gerets¹, P. De Ron¹, C. Bento-Pereira^{1,2}, F. Atienzar¹, and J. Valentin¹. ¹iTOX - NCD, UCB Pharma Sprl, Braine l'Alleud, Belgium; and ²Pharmacology, University of Bath, Bath, United Kingdom.

Program Schedule (Continued)

Abstract #	Abstract #
#885	Poster Board Number 108 Evaluation of SEAware™ Computational Approach to Predict Toxicological Liabilities of Small Molecules. Y. Zhong, K. Ford, and D. Diaz. Safety Assessment, Genentech, South San Francisco, CA.
#886	Poster Board Number 109 Increased Mitochondrial ROS Formation by Acetaminophen Is Associated with Disrupted Expression of Mitochondrial Electron Transport Chain-Related Genes in Human Hepatic Cells. J. Jiang, J. Briede, D. Jennen, A. Van Summeren, K. Brauers, J. Kleinjans, and T. M. de Kok. Toxicogenomics, Maastricht University, Maastricht, Netherlands. Sponsor: H. van Loveren.
#887	Poster Board Number 110 Are Variable Changes in Acylcarnitine Profiles Diagnostic of Effects on Mitochondrial Functions? J. L. Price ¹ , P. Virdi ² , S. A. Stryker ¹ , and D. Robertson ¹ . ¹ Discovery Toxicology, Bristol-Myers Squibb, Princeton, NJ; and ² Bioanalytical and Discovery Analytical Sciences, Pharmaceutical Clinical Optimization Department, Bristol-Myers Squibb, Princeton, NJ.
#888	Poster Board Number 111 Diversity Outbred Mice Indicate Idiosyncratic Drug-Induced Liver Injury Potential. L. Lyn-Cook ¹ , D. M. Gatti ² , G. A. Churchill ² , and A. Harrill ¹ . ¹ University of Arkansas for Medical Sciences, Little Rock, AR; and ² The Jackson Laboratory, Bar Harbor, ME.
#889	Poster Board Number 112 Test for Learning Ability in Juvenile Cynomolgus Monkeys Toxicity Studies. C. Rose, C. M. Luetjens, S. Grote-Wessels, and B. Niggemann. Covance Laboratories GmbH, Muenster, Germany. Sponsor: G. Weinbauer.
#890	Poster Board Number 113 Cellular Impacts of Lysosomotropism. N. Lin, A. Cheng, B. A. Jessen, R. Abraham, and S. Lu. Pfizer Inc, San Diego, CA.
#891	Poster Board Number 114 Histaminergic Reactions: Lower Susceptibility of Mice vs. Rats and Modification by the Infusion Rate. U. Wirnitzer ¹ , and H. van Wijk ² . ¹ Toxicology, Bayer HealthCare AG, Wuppertal, Germany; and ² Toxicology, Covance, Harrogate, United Kingdom. Sponsor: H. Ellinger-Ziegelbauer.
#892	Poster Board Number 115 Evaluation of Spherical Liver Microtissues for In Vitro Cytotoxicity Assessment of Antibody-Drug Conjugates. J. Vogt, M. Tseng, W. R. Proctor, D. L. Misner, K. Achilles-Poon, and M. Schutten. Safety Assessment, Genentech, Inc., South San Francisco, CA.
#893	Poster Board Number 116 Background Data on Functional Observational Battery in the Common Marmoset. R. Inoue ¹ , A. Fujiwara ² , A. Kazue ² , I. Masahiko ² , C. Nishime ¹ , E. Nishinaka ¹ , H. Tsutsumi ¹ , and S. Shinichi ² . ¹ Testing Department, Central Institute for Experimental Animals, Kawasaki, Japan; and ² Research Administration Department, Ina Research Inc., Ina, Japan.
#894	Poster Board Number 117 The Influence of Body Weight Changes on Organ Weight Variations in GLP Safety Assessment Studies in Rats. C. J. Amuzie, K. Whittington, L. McNally, C. Dykstra, P. Perrin, and S. Denham. Drug Safety, MPI Research, Mattawan, MI.
#895	Poster Board Number 118 Mitigation of Infusion Reactions for Cell-Based Therapies. J. L. Lynch ¹ , R. Bhatia ¹ , K. Brosnan ¹ , K. Lilova ¹ , D. L. Newcomb ² , S. M. Jackman ² , and C. Sachs ¹ . ¹ Biologics Center of Excellence, Janssen R & D, Spring House, PA; and ² Charles River Laboratories, Horsham, PA.
#896	Poster Board Number 119 Microscopic Changes in Various Organs Due to Restricted Feeding in Wistar Rats. V. Goyal, S. Pandey, S. Kakade, U. Bijegaonkar, and R. Nirogi. Discovery Toxicology, Suven Life Science Ltd, Hyderabad, India.
#897	Poster Board Number 120 Use of Instant Glucose Measurements for Detection of Acute Hypoglycaemia in Rats. V. Golozoubova, J. Tovborg Jensen, J. Løgsted, and A. Makin. CiToxLAB, Lille Skensved, Denmark.
#898	Poster Board Number 121 Use of Histopathology, MRI Images, and Plasma Biomarkers to Identify and Monitor Drug-Induced Slow Myofiber Selective Myopathy. H. Zhang ¹ , H. Andersson ¹ , A. W. Bidar ² , C. Johansson ¹ , M. Wigenborg ¹ , L. Brändén ¹ , J. Stende ¹ , C. Karlsson ¹ , S. Bickerton ¹ , E. Bratt ³ , B. Dahl ¹ , and Å. Ström ¹ . ¹ DSM, AstraZeneca, Mölndal, Sweden; ² PHB Imaging, Astrazeneca, Mölndal, Sweden; and ³ Medicinal Chemistry, AstraZeneca, Mölndal, Sweden.
#899	Poster Board Number 122 Developing a Heat Map for CNS Profiling Based on the Irwin Test. P. De Ron, F. Martin, A. Nogueira da Costa, and J. Valentin. UCB BioPharma SPRL, Braine l'Alleud, Belgium.
#900	Poster Board Number 123 Effects of Different Vehicles Used in Preclinical Studies on the Neurobehavioral Profile and General Activity of Sprague-Dawley Rats. P. De Ron, M. Berwaer, W. Brione, A. Delaunois, and J. Valentin. UCB BioPharma SPRL, Braine l'Alleud, Belgium.
#901	Poster Board Number 124 Considerations for the Inclusion of Polysorbates As Surfactants in Pediatric Intravenous Drug Products. H. Fikree, L. A. Haighton, and J. W. Card. Intertek, Mississauga, ON, Canada.
#902	Poster Board Number 125 The Differential Effect of Nembutal and Ketamine/Xylazine Anesthetic on Dofetilide-Induced QT Interval Prolongation. L. Neves, H. Wang, O. Tiniakova, J. Huang, P. B. Senese, and M. R. Gralinski. CorDynamics, Chicago, IL.

TUESDAY

Program Schedule (Continued)

Abstract #

#903 **Poster Board Number 126**
Development of the Methodology for Neurobehavioral, Cardiovascular, and Respiratory (NCR) Assessments Using Oral Administration of Amphetamine and Acpromazine to Conscious Beagle Dogs. C. M. Kelly, A. Lelkes, B. Kalvin, C. Dziak, J. Sentz, J. Sheehan, M. Miyamoto, T. Ziegelhoffer, and R. M. Parker. DART, Huntingdon Life Sciences, East Millstone, NJ.

Tuesday Morning, March 24
9:00 AM to 12:30 PM
CC Exhibit Hall

Poster Session: Systems Biology and Toxicology

Chairperson(s): Nilson A. Assunção, Chemistry, Unifesp, Diadema, Brazil; and Weida Tong, US FDA/NCTR, Jefferson, AR.

Displayed: 9:00 AM–12:30 PM

Author-Attended: 11:00 AM–12:30 PM

#904 **Poster Board Number 129**
RNA-Seq and Microarray Gene Expression Vie for Toxicogenomics Superiority. W. Tong¹, J. Xu¹, P. R. Bushel², S. S. Auerbach³, and C. Wang³. ¹FDA/NCTR, Jefferson, AR; ²NIEHS, Research Triangle Park, NC; and ³Loma Linda University, Loma Linda, CA.

#905 **Poster Board Number 130**
RAGE Null Mice Exposed to Cigarette Smoke Demonstrate Attenuated Oxidative and ER Stress Responses in Lung Alveolar Macrophages. D. Delker¹, T. Huecksteadt¹, Y. Zhang², K. Sanders¹, and J. Hoidal¹. ¹University of Utah, Salt Lake City, UT; and ²University of Kansas, Kansas City, KS.

#906 **Poster Board Number 131**
Integrating Differential Gene Expression with Hepatic, Serum, and Urinary Metabolomes Identifies TCDD-Elicited Interactions between Disrupted Metabolic Pathways. R. Nault^{1,2}, K. A. Fader², D. A. Ammendolia², S. Y. Lunt³, and T. R. Zacharewski^{1,2}. ¹Center for Integrative Toxicology, Michigan State University, East Lansing, MI; ²Biochemistry & Molecular Biology, Michigan State University, East Lansing, MI; and ³Physiology, Michigan State University, East Lansing, MI.

#907 **Poster Board Number 132**
Mathematical Modelling of the Mevalonate Pathway As a Tool in the Development of a Quantitative Adverse Outcome Pathway for Cholesterol Biosynthesis Inhibitors. F. Pool¹, R. Currie², D. Salazar², P. Sweby¹, and M. Tindall¹. ¹Department of Mathematics and Statistics, University of Reading, Reading, United Kingdom; and ²Syngenta Ltd, Jealotts Hill, United Kingdom.

#908 **Poster Board Number 133**
Integrative Data Mining of High-Throughput In Vitro Screens, In Vivo Data, and Disease Information to Identify Adverse Outcome Pathway (AOP) Signatures. N. Oki^{1,2}, and S. Edwards². ¹Oak Ridge Institute for Science and Education, Research Triangle Park, NC; and ²National Health and Environmental Effects Research Laboratory, US EPA, Research Triangle Park, NC.

Abstract #

#909 **Poster Board Number 134**
Formaldehyde-Associated Changes in Gene and Cytokine Expression Profiles within Nonhuman Primate Nose and Circulating Blood. S. K. Miller¹, J. E. Rager¹, B. C. Moeller², D. Kracko², M. Doyle-Eisele³, J. A. Swenberg^{1,2,3}, and R. Fry^{1,3,4}. ¹Environmental Sciences and Engineering, UNC, Chapel Hill, NC; ²Lovelace Respiratory Research Institute, Albuquerque, NM; ³Curriculum in Toxicology, UNC, Chapel Hill, NC; and ⁴Center for Environmental Health and Susceptibility, UNC, Chapel Hill, NC.

#910 **Poster Board Number 135**
Live Cell Imaging-Based Pathway of Toxicity Reporter Allows Identification of Chemical Specific Pathways Activation. S. Wink, S. Hiemstra, S. Huppelschoten, and B. van de Water. Division of Toxicology, LACDR, Leiden, Netherlands.

#911 **Poster Board Number 136**
Validation of a Genomics-Based Hypothetical Adverse Outcome Pathway: 2,4-Dinitrotoluene Perturbs PPAR Signaling Thus Impairing Energy Metabolism and Exercise Endurance. M. S. Wilbanks¹, K. Gust¹, S. Atwa², I. Sunesara³, D. Johnson⁴, C. Y. Ang⁵, S. A. Meyer², and E. J. Perkins¹. ¹Environmental Laboratory, US Army, Engineer Research & Development Center, Vicksburg, MS; ²Toxicology, University of Louisiana at Monroe, Monroe, LA; ³Biostatistics & Bioinformatics, University of Mississippi Medical Center, Jackson, MS; ⁴Conestoga-Rovers & Associates, Dallas, TX; and ⁵Badger Technical Services, San Antonio, TX.

#912 **Poster Board Number 137**
Sex-Dependent Metabolome Changes Depending on Age and Reproductive Cycle in Wistar Rats. G. Montoya¹, V. Strauss¹, H. Kamp¹, E. Fabian¹, M. Herold², G. Krennrich³, R. Looser², W. Mellert¹, E. Peter², T. Walk², and B. van Ravenzwaay¹. ¹Experimental Toxicology and Ecology, BASF SE, Ludwigshafen am Rhein, Germany; ²Scientific Computing, BASF SE, Ludwigshafen am Rhein, Germany; and ³metanomics GmbH, Berlin, Germany.

#913 **Poster Board Number 138**
Strain-Differences in the Proteome of Dioxin-Sensitive and -Resistant Mice Treated with 2,3,7,8-Tetrabromodibenzo-p-dioxin. T. Nguyen¹, M. Lauan¹, J. Yoo¹, M. Iida², T. Agusa¹, E. Kim³, T. Miyazaki⁴, M. Nose⁵, and H. Arsenic Causes Dysregulation of the AAA+ Chaperone p97. J. Tillotson, K. Jung, D. D. Zhang, and E. Chapman. College of Pharmacy, University of Arizona, Tucson, AZ.
- #916 **Poster Board Number 141**
Systems Toxicology Analysis of Cardiovascular and Respiratory Endpoints from ApoE^{-/-} Mice Showed Similar Effects after Switching to a Candidate-Modified Risk Tobacco Product, THS 2.2, or to Smoking Cessation. H. De Leon¹, B. Phillips², M. Cabanski¹, S. Boue¹, G. Vuillaume¹, F. Martin¹, P. Leroy¹, E. Veljkovic¹, A. Hayes³, M. Peitsch¹, and J. Hoeng¹. ¹Biological Systems Research, Philip Morris International, Neuchatel, Switzerland; ²Research Laboratories, Philip Morris International, Singapore, Singapore; and ³Spherix Consulting, Rockville, MD.
- #917 **Poster Board Number 142**
Quantitative Metabolomics Informs a Systems Biological Approach to Characterize Toxicity in Zebrafish Larvae. S. Huang, J. P. Benskin, B. Chandramoulie, and J. R. Cosgrove. Axys Analytical Services Ltd., Sidney, BC, Canada.
- #918 **Poster Board Number 143**
Oral Administration of *Archachatina marginata* Hemolymph Depresses Reactive Oxygen Species Scavenging Potentials in Normotensive Wistar Rat. A. B. Ojekale, U. Agbafor, and A. D. Wusu. Biochemistry, Lagos State University, Lagos, Nigeria.
- #919 **Poster Board Number 144**
Arsenic Exposure Affects Muscle Extracellular Matrix Composition and Inhibits Muscle Regeneration after Injury. C. Zhang¹, R. Ferrari¹, E. Brown¹, K. Stearns¹, A. Barchowsky², and F. Ambrosio¹. ¹Physical Medicine and Rehabilitation, University of Pittsburgh, Pittsburgh, PA; and ²Department of Environmental and Occupational Health, University of Pittsburgh, Pittsburgh, PA.
- #920 **Poster Board Number 145**
Chemoproteomic Profiling of Environmental Electrophiles Reveals Toxicity through Altered Cellular Metabolism. D. Medina-Cleghorn, A. M. Heslin, and D. K. Nomura. Nutritional Science and Toxicology, UC Berkeley, San Francisco, CA. Sponsor: M. Smith.
- #921 **Poster Board Number 146**
What Is Normal in Metabolomics? B. van Ravenzwaay^{1,2}, G. Krennrich¹, E. Peter², H. Kamp¹, T. Ramirez¹, G. Montoya¹, V. Strauss¹, E. Fabian¹, M. Herold², A. Strigun², W. Mellert¹, M. Spitzer², and T. Walk². ¹Toxicology, BASF SE, Ludwigshafen am Rhein, Germany; and ²metanomics GmbH, Berlin, Germany.
- #922 **Poster Board Number 147**
A Unifying Approach to Annotation of Biological Activities by Transcription Factor Profiling. S. S. Makarov¹, M. Moeser¹, L. Medvedeva¹, E. Martsen¹, A. Granick¹, L. Raines¹, M. Zeng¹, K. Houck², and A. Medvedev¹. ¹Attagene Inc, Research Triangle Park, NC; and ²US Environmental Protection Agency, Research Triangle Park, NC.

Abstract #

- #923 **Poster Board Number 148**
Systems Biology Analysis of the Biological Impact of Harmful/Potentially Harmful Constituents of Tobacco Smoke in Endothelial Cells. I. Gonzalez Suarez¹, D. Marescotti¹, S. Acali¹, S. John¹, E. Guedj¹, R. Dulize¹, K. Baumer¹, D. Peric¹, F. Martin¹, N. Ivanov¹, S. Frentzel¹, C. Mathis¹, A. Hayes², J. Hoeng¹, and M. Peitsch¹. ¹Philip Morris International R&D, Neuchatel, Switzerland; and ²Spherix Consulting, Rockville, MD.

Tuesday Morning, March 24
9:00 AM to 12:30 PM
CC Exhibit Hall

Chairperson(s): Monika Maier, Evonki Industries AG, Hanau, Germany.

Displayed: 9:00 AM–12:30 PM

Author-Attended: 9:00 AM–11:00 AM

- #924 **Poster Board Number 151**
Inactivation of *Fusarium* by Neutral Electrolyzed Oxidizing Water in Tomato Seeds. M. Chavez-Bautista¹, C. F. Sandoval-Coronado², J. A. Torres-Castillo³, A. Mendez-Albores⁴, and A. G. Marroquin-Cardona¹. ¹Faculty of Veterinary Medicine, Universidad Autonoma de Nuevo Leon, General Escobedo, Mexico; ²Faculty of Biological Sciences, Universidad Autonoma de Nuevo Leon, San Nicolas de los Garza, Mexico; ³Institute of Applied Ecology, Universidad Autonoma de Tamaulipas, Ciudad Victoria, Mexico; and ⁴Facultad de Estudios Superiores, Universidad Nacional Autonoma de Mexico, Cuautitlan, Mexico.
- #925 **Poster Board Number 152**
Effects of Neutral Electrolyzed Oxidizing Water on *Aspergillus* Inactivation in Tomato Seeds. A. G. Marroquin-Cardona¹, M. Chavez-Bautista¹, C. F. Sandoval-Coronado², J. A. Torres-Castillo³, and A. Mendez-Albores⁴. ¹Faculty of Veterinary Medicine, Universidad Autonoma de Nuevo Leon, General Escobedo, Mexico; ²Faculty of Biological Sciences, Universidad Autonoma de Nuevo Leon, San Nicolas de los Garza, Mexico; ³Institute of Applied Ecology, Universidad Autonoma de Tamaulipas, Ciudad Victoria, Mexico; and ⁴Facultad de Estudios Superiores, Universidad Nacional Autonoma de Mexico, Cuautitlan, Mexico.
- #926 **Poster Board Number 153**
Development of a Zeaxerenone Entersorbent to Mitigate Toxin Exposures from the Diet. C. R. Maki, S. Elmore, A. A. Romoser, and T. D. Phillips. College of Veterinary Medicine and Biomedical Sciences, Texas A&M, College Station, TX.
- #927 **Poster Board Number 154**
Critical Control Point-Based Reduction of Deoxynivalenol and Zeaxerenone in Stored Adlay (*Coix lachryma-jobi* L.) Grains. J. Kim¹, T. An², H. Choi¹, Y. Ahn², and Y. Moon¹. ¹Laboratory of Mucosal Exposome and Biomodulation, Department of Biomedical Sciences, Immunoregulatory Therapeutics Group in Brain Busan 21 Project, Pusan National University School of Medicine, Yangsan, Republic of Korea; and ²Department of Herbal Crop Research, National Institute of Horticultural & Herbal Science, RDA, Eumseong, Republic of Korea.

Abstract #	Abstract #
#928	#935
Poster Board Number 155 Suppression of Arsenite-Induced Cytotoxicity and Activation of Nrf2 by Aliphatic Electrophiles from <i>Coriandrum sativum</i> L. Leaf Extract in HepG2 Cells. Y. Abiko ¹ , M. Mizokawa ² , and Y. Kumagai ^{1,2} . ¹ Faculty of Medicine, University of Tsukuba, Tsukuba, Japan; and ² Graduate School of Environmental Sciences, University of Tsukuba, Tsukuba, Japan.	Poster Board Number 162 HPTLC Analysis of Phthalate Migration from Plastic Containers to Commonly Available Edible Oils in UAE. A. B. Zachariah ² , V. Chandrasekaran ² , and R. Kuppusamy ¹ . ¹ Pharmacy, Gulf Medical University, Ajman, United Arab Emirates; and ² Toxicology, Gulf Medical University, Ajman, United Arab Emirates. Sponsor: S. Devi.
#929	#936
Poster Board Number 156 Prevalence of Enterobacteriaceae in Retailed Poultry Eggs and Their Zoonotic Relationship in South Africa. A. R. Jambalang, F. S. Botha, and E. Buys. Paraclinical Sciences, University of Pretoria, Pretoria, South Africa.	Poster Board Number 163 Genotoxicity and Mutagenicity Evaluation of Carvacrol, a Major Compound of Oregano Essential Oil, by the <i>In Vitro</i> Micronucleus and Mouse Lymphoma Assays. S. O. Maisanaba ¹ , A. I. Prieto ¹ , M. Puerto ¹ , D. O. Gutiérrez-Praena ¹ , A. Jos ¹ , E. Demir ² , R. Marcos ² , and A. M. Cameán ¹ . ¹ Toxicology, University of Sevilla, Sevilla, Spain; and ² Genetic and Microbiology, Autonomous University of Barcelona, Barcelona, Spain. Sponsor: G. Font.
#930	#937
Poster Board Number 157 Inactivation of Pathogens on Contact Surfaces Using Decontaminating Substances Produced by Radiant Catalytic Ionization. J. T. Mannozi ¹ , W. J. Mackay ¹ , C. H. Sommers ² , D. Fulford ¹ , C. Steele ¹ , T. Saunders ¹ , K. Celestin ¹ , K. Parker ¹ , K. Patel ¹ , J. Wallace ¹ , and K. Okasime ¹ . ¹ Biology and Health Services, Edinboro University, Edinboro, PA; and ² Food Safety Intervention Technologies Research Unit, Eastern Regional Research Center USDA, Wyndmoor, PA.	Poster Board Number 164 Occurrence of Ochratoxin A in Red Pepper Powder Commercialized in Turkey. A. Tosun, and S. Ozden. Pharmaceutical Toxicology, Istanbul University, Faculty of Pharmacy, Istanbul, Turkey.
#931	#938
Poster Board Number 158 Does Nanostructured Synthetic Amorphous Silica in Industrially Manufactured Powdered Food Products Disintegrate after Oral Uptake? M. Maier ¹ , P. Albers ² , R. Retamal Marin ³ , F. Babick ³ , and M. Stintz ¹ . ¹ Evonik Industries AG, Hanau, Germany; ² Aqura GmbH, Hanau, Germany; and ³ Technische Universität Dresden, Dresden, Germany. Sponsor: D. Warheit.	Poster Board Number 165 Medicinal Plants As a Source for AI Dietary Intake. M. C. Rubio-Armendáriz ¹ , D. Ramos-Abellán ¹ , D. González-Weller ¹ , Á. J. Gutiérrez ¹ , A. Hardisson ¹ , and A. R. Anadón ² . ¹ Toxicology, University of La Laguna, La Laguna, Spain; and ² Toxicology and Pharmacology, Universidad Complutense de Madrid, Madrid, Spain.
#932	#939
Poster Board Number 159 Autophagy and Senescence, Stress Responses Induced by the DNA-Damaging Mycotoxin Alternariol. A. Solhaug ¹ , M. L. Torgersen ² , J. A. Holme ³ , D. Lagadic-Gossman ⁴ , and G. S. Eriksen ¹ . ¹ Norwegian Veterinary Institute, Oslo, Norway; ² The Norwegian Radium Hospital, Oslo, Norway; ³ Division of Environmental Medicine, Norwegian Institute of Public Health, Oslo, Norway; and ⁴ Inserm U1085, IRSET, Rennes, France. Sponsor: U. Nygaard.	Poster Board Number 166 E171 Effects in Chicken Chorioallantoic Membrane Angiogenesis Model. V. Freyre-Fonseca ^{1,2} , G. Gutierrez Lopez ² , and Y. I. Chirino ¹ . ¹ UNAM, Mexico City, Mexico; and ² ENCB-IPN, Mexico City, Mexico.
#933	#940
Poster Board Number 160 <i>In Vitro</i> Metabolism of Rebaudioside E under Anaerobic Conditions: Comparison with Rebaudioside A. S. Purkayastha ¹ , S. Bhusari ² , G. Pugh ² , X. Teng ³ , D. Kwok ³ , and S. M. Tarka ⁴ . ¹ The PureCircle Ltd, Oak Brook, IL; ² The Coca-Cola Company, Atlanta, GA; ³ BRI Biopharmaceutical Research Inc, Vancouver, BC, Canada; and ⁴ The Tarka Group, Inc., Carlisle, PA.	Poster Board Number 167 <i>Aloe vera</i> Extracts Induce Mutations and Oxidative Stress in Cultured. N. Mei ¹ , X. Guo ¹ , S. L. Dial ¹ , D. D. Levy ² , and M. M. Moore ³ . ¹ FDA/NCTR, Jefferson, AR; ² Center for Food Safety and Applied Nutrition, College Park, MD; and ³ ENVIRON International Corporation, Little Rock, AR.
#934	#941
Poster Board Number 161 <i>In Vitro</i> Toxicity of Clays Potentially Used in Food Packaging. S. O. Maisanaba ¹ , S. O. Pichardo ¹ , M. O. Jordá-Beneyto ² , S. Aucejo ² , A. M. Cameán ¹ , and A. Jos ¹ . ¹ Toxicology, University of Sevilla, Sevilla, Spain; and ² Area of Packaging Materials and Systems, ITENE, Paterna, Spain. Sponsor: G. Font.	Poster Board Number 168 Evaluation of the Food Additive Carrageenan in a Caco-2 Intestinal Absorption Model. J. M. McKim ¹ , and J. A. Willoughby ² . ¹ IONTOX, LLC, Kalamazoo, MI; and ² Cyprotex, Kalamazoo, MI.
	#942
	Poster Board Number 169 Crosstalk between Macrophage Inhibitory Cytokine 1 and Activating Transcription Factor 3 in Carrageenan-Exposed Enterocytes. H. Choi, and Y. Moon. Laboratory of Mucosal Exposure and Biomodulation, Department of Biomedical Sciences, Immunoregulatory Therapeutics Group in Brain Busan 21 Project, Pusan National University School of Medicine, Yangsan, Republic of Korea.
	#943
	Poster Board Number 170 Analysis of Aflatoxin Occurrence in Animal Feeds and Milk from Dairy Farms. R. Ortiz-Martinez, C. De Luna -Lopez, A. G. Valdivia, and T. Quezada-Tristan. Disciplinas Pecuarías, Universidad Autónoma de Aguascalientes, Aguascalientes, Mexico. Sponsor: G. Pallas-Guzman.

TUESDAY

Program Schedule (Continued)

Abstract #

#944 **Poster Board Number 171**
Phytochemical Screening of Various Lots of *Echinacea* for Use in Toxicity Studies. S. Waidyanatha¹, T. Cristy², S. Graves³, E. Mutlu¹, and K. Ryan¹. ¹Division of the National Toxicology Program, National Institute of Environmental Health Sciences, Research Triangle Park, NC; and ²Battelle Memorial Institute, Columbus, OH.

#945 **Poster Board Number 172**
Evaluation of *In Vitro* Macrophage Assay for Predicting Nanoparticle-Induced Inhalation Toxicity. M. Wiemann¹, A. Vennemann¹, L. Ma-Hock², K. Wiench³, and R. Landsiedel². ¹IBE R&D, GmbH Institut für Lung Health, Münster, Germany; ²Experimental Toxicology and Ecology, BASF SE, Ludwigshafen am Rhein, Germany; and ³Product Safety, BASF SE, Ludwigshafen am Rhein, Germany.

Tuesday Morning, March 24
9:00 AM to 12:30 PM
CC Exhibit Hall

Poster Session: Neurotoxicology, Metals—Mercury

Chairperson(s): Richard M. Nass, *Pharmacology and Toxicology, Indiana University School of Medicine, Indianapolis, IN.*

Displayed: 9:00 AM–12:30 PM

Author-Attended: 11:00 AM–12:30 PM

#946 **Poster Board Number 201**
Sex Differences in the Response of Acetylcholinesterase to Subchronic Low-Level Inorganic Mercury Exposure. A. D. Wusu¹, O. O. Ogunrinola¹, O. K. Afolabi², E. O. Abam², D. O. Babayemi², O. B. Onunkwor², O. A. Dosumu², E. A. Balogun², O. O. Odukoya³, and O. Ademuyiwa². ¹Biochemistry, Lagos State University, Lagos, Nigeria; ²Biochemistry, Federal University of Agriculture, Abeokuta, Nigeria; ³Chemistry, Federal University of Agriculture, Abeokuta, Nigeria; ⁴Biochemistry, Ladoke Akintola University of Technology, Ogbomosho, Ogbomosho, Nigeria; ⁵Biochemistry, University of Ilorin, Ilorin, Nigeria; and ⁶Chemical Sciences, Bells University of Technology, Ota, Ota, Nigeria.

#947 **Poster Board Number 202**
Proteomic Analysis of Cerebellum of Common Marmoset Treated with Methylmercury. Y. Shao¹, M. Yamamoto², D. Figeys³, and L. Chan⁴. ¹Natural Resources and Environmental Studies Program, University of Northern British Columbia, Prince George, BC, Canada; ²Department of Basic Medical Science, National Institute for Minamata Disease, Minamata, Japan; ³Ottawa Institute of Systems Biology, University of Ottawa, Ottawa, ON, Canada; and ⁴Department of Biology, University of Ottawa, Ottawa, ON, Canada.

#948 **Poster Board Number 203**
Methylmercury (MeHg) Alters Nuclear Factor Erythroid 2-Related Factor 2 (Nrf2) Gene Expression in Primary Astrocytes. M. Culbreth, and M. Aschner. Molecular Pharmacology, Albert Einstein College of Medicine, Bronx, NY.

Abstract #

#949 **Poster Board Number 204**
Methylmercury-Induced Stress Responses in Astroglia Cells. F. Usuki¹, and M. Fujimura². ¹Clinical Medicine, National Institute for Minamata Disease, Minamata, Japan; and ²Basic Medical Sciences, National Institute for Minamata Disease, Minamata, Japan. Sponsor: A. Naganuma.

#950 **Poster Board Number 205**
Low-Level of Methylmercury Inhibits Cell Proliferation through the Activation of Glycogen Synthase Kinase 3β and Subsequent Degradation of Cyclin E in Cortical Progenitor Cells of Rats. M. Fujimura¹, and F. Usuki². ¹Basic Medical Science, National Institute for Minamata Disease, Minamata, Japan; and ²Clinical Medicine, National Institute for Minamata Disease, Minamata, Japan. Sponsor: A. Naganuma.

#951 **Poster Board Number 206**
***In Vivo* Methylmercury Exposure Alters Glutamate Receptor mRNA Levels in Rat Forebrain.** A. Colon-Rodriguez^{1,2,3}, R. Hajela¹, Y. Yuan¹, and W. D. Atchison^{1,2,3}. ¹Pharm/Tox, Michigan State Univ, East Lansing, MI; ²CMIB, Michigan State Univ, East Lansing, MI; and ³CIT, Michigan State Univ, East Lansing, MI.

#952 **Poster Board Number 207**
Effects of Chronic Methylmercury Exposure on Expression of Voltage-Gated Calcium Channel mRNA in Rat Forebrain. A. Colon-Rodriguez, Z. I. Cordero Badillo, and W. D. Atchison. Pharmacology and Toxicology, Michigan State University, East Lansing, MI.

#953 **Poster Board Number 208**
Role of the Alpha-7 Subtype Specific Nicotinic Acetylcholine Receptor in Mediating Calcium Dysregulation during Acute Methylmercury Exposure in PC12 Cells. M. Rios, and W. D. Atchison. Michigan State University, East Lansing, MI.

#954 **Poster Board Number 209**
Complex Interactions between Methylmercury (MeHg) and Intracellular Ca²⁺ Regulation in Human Embryonic Kidney (HEK293) Cells. H. Hannon, M. Rios, and W. D. Atchison. Dept. Pharmacol/Toxicol, Mich State Univ, E. Lansing, MI.

#955 **Poster Board Number 210**
Effects of Varying Extracellular Calcium Concentration on MeHg-Induced Dopamine Release in Undifferentiated PC12 Cells. Y. Rodriguez¹, M. Khalid^{2,3}, and W. D. Atchison^{2,3}. ¹Biological Sciences Dept, St. Mary's University, San Antonio, TX; ²Pharm/Tox Dept, Michigan State University, East Lansing, MI; and ³Center for Integrative Toxicology, Michigan State University, East Lansing, MI.

#956 **Poster Board Number 211**
Potentiated Dopamine Release from PC12 Cells, with and without Methylmercury Treatment, by Replacing Extracellular Calcium with Barium. M. Khalid^{1,2}, and W. D. Atchison^{1,2}. ¹Pharm/Tox Dept, Michigan State University, East Lansing, MI; and ²Center for Integrative Toxicology, Michigan State University, East Lansing, MI.

TUESDAY

Program Schedule (Continued)

Abstract

- #957 **Poster Board Number**212
Molecular and Cellular Characterization of a Novel Multidrug Resistance Protein That Inhibits Methylmercury-Associated Dopaminergic Neurodegeneration in *Caenorhabditis elegans*. M. Rudgalvyte², B. Arbuckle¹, N. VanDuyn¹, G. Wong², J. Trinidad³, and R. M. Nass¹. ¹Pharmacology and Toxicology, Indiana University School of Medicine, Indianapolis, IN; ²Neurobiology, University of Eastern Finland, Kuopio, Finland; and ³Chemistry, Indiana University, Bloomington, IN.
- #958 **Poster Board Number**213
Distortion of Times Estimations by Methylmercury, Partial Prevention by Isradipine, and Partial Reversal by D-Amphetamine. D. A. Pope, B. A. Hutsell, A. N. Shen, M. A. Arnold, and C. Newland. Auburn University, Auburn, AL.
- #959 **Poster Board Number**214
Behavioral Experience Alters the Profile of Monoaminergic Changes Induced by Developmental Methylmercury Exposure. D. A. Cory-Slechta, H. Weston, D. Weston, and J. L. Allen. Environmental Medicine, University of Rochester Medical School, Rochester, NY.
- #960 **Poster Board Number**215
Developmental Methylmercury Exposure Produces Behavioral Toxicity in Female Mice That Is Only Seen in Combination with Prenatal Stress in Male Mice. D. A. Cory-Slechta, H. Weston, D. Weston, K. Morris-Schaffer, and J. L. Allen. Environmental Medicine, University of Rochester Medical School, Rochester, NY.
- #961 **Poster Board Number**216
Neonatal Exposure to a Mixture of MeHg and Chlorpyrifos Induces Neurotoxic Effects in the Mouse Brain. I. Lee, and H. Viberg. Uppsala University, Uppsala, Sweden.

Tuesday Morning, March 24
 9:00 AM to 12:30 PM
 CC Exhibit Hall

Poster Session: Neurotoxicology, Metals—Manganese

Chairperson(s): Aaron B. Bowman, Neurology, Vanderbilt University, Nashville, TN.

Displayed: 9:00 AM–12:30 PM

Author-Attended: 9:00 AM–11:00 AM

- #962 **Poster Board Number**217
Activated Adult Neurogenesis in the Subventricular Zone following Intranasal Manganese Exposure in Rats. S. L. O'Neal, X. Fu, and W. Zheng. Purdue University, West Lafayette, IN.
- #963 **Poster Board Number**218
Detection of Retinal Changes in Chronic Manganese-Exposed Nonhuman Primates by Optical Coherence Tomography. J. S. Schneider¹, D. W. Anderson¹, C. Williams¹, M. Ault¹, and T. R. Guilarte². ¹Pathology, Anatomy and Cell Biology, Thomas Jefferson Univ., Philadelphia, PA; and ²Environmental Health Sciences, Mailman School of Public Health, Columbia Univ., New York, NY.

Abstract

- #964 **Poster Board Number**219
Egocentric Learning Deficits in Rats Produced by Developmental Manganese Overexposure or Adulthood 6-Hydroxydopamine Toxicity Are Exacerbated by the Combination. M. T. Williams, R. M. Amos-Kroohs, A. A. Braun, A. Gutierrez, and C. V. Vorhees. Neurology, Cincinnati Children's, Cincinnati, OH.
- #965 **Poster Board Number**220
Manganese Activates the NLRP3 Inflammasome in Microglia. R. Gordon¹, D. C. Christie¹, A. B. Robertson², M. A. Cooper², and T. Woodruff¹. ¹Biomedical Sciences, The University of Queensland, Brisbane, QLD, Australia; and ²The Institute for Molecular Bioscience, The University of Queensland, Brisbane, QLD, Australia.
- #966 **Poster Board Number**221
Loss of *pdr-1/parkin* Alters Mn Homeostasis through Modulation of Ferroportin in *C. elegans*. S. Chakraborty¹, P. Chen², J. Bornhorst³, T. Schwerdtle³, A. B. Bowman⁴, and M. Aschner². ¹Neuroscience Graduate Program, Vanderbilt University Medical Center, Nashville, TN; ²Molecular Pharmacology, Albert Einstein College of Medicine, Bronx, NY; ³Institute of Nutritional Science, University of Potsdam, Potsdam, Germany; and ⁴Neurology, Vanderbilt University Medical Center, Nashville, TN.
- #967 **Poster Board Number**222
Parkinsonism Due to a Hereditary Defect in a Manganese Efflux Transporter. D. Levya-Illades¹, P. Chen², C. Zozas¹, S. Hutchens¹, A. B. Bowman³, M. Aschner², and S. Mukhopadhyay¹. ¹Pharmacology & Toxicology, University of Texas at Austin, Austin, TX; ²Molecular Pharmacology, Albert Einstein College of Medicine, New York, NY; and ³Neurology, Vanderbilt University, Nashville, TN.
- #968 **Poster Board Number**223
Intracellular Mn-Modifying Small Molecules Identified in a High-Throughput Screen Reveal Developmental Regulation of Mn Control Mechanisms in Human Dopaminergic Neurons. K. J. Horning¹, K. K. Kumar¹, J. X. Sun¹, M. Odak¹, M. Aschner², and A. B. Bowman¹. ¹Neurology, Vanderbilt University, Nashville, TN; and ²Molecular Pharmacology, Albert Einstein College of Medicine, Bronx, NY.
- #969 **Poster Board Number**224
Manganese Activates ATM-p53 Signaling and Is Selectively Impaired in Huntington's Disease. M. R. Bryan¹, A. Tidball¹, M. A. Uhouse¹, K. K. Kumar¹, M. Neely¹, M. Aschner², and A. B. Bowman¹. ¹Neurology, Vanderbilt University, Nashville, TN; and ²Molecular Pharmacology, Einstein College, Bronx, TN.
- #970 **Poster Board Number**225
Exploring Manganese Supplementation to Ameliorate Cellular Phenotypes in Huntington's Disease. M. A. Uhouse, M. R. Bryan, A. Tidball, T. V. Bichell, M. Wegrzynowicz, and A. B. Bowman. Neurology, Vanderbilt University, Nashville, TN.

PS Poster Sessions

RI Regional Interest Session

R Roundtable Sessions

S Symposium Sessions

T Thematic Sessions

W Workshop Sessions

Program Schedule (Continued)

Abstract #

#971 **Poster Board Number226**
In Vivo Changes in Basal Ganglia GABA Levels Indicate That Manganese Targets the Indirect Pathway. R. Ma^{1,2}, E. Zauber², C. Yeh^{1,2}, Z. Long², S. Snyder¹, and U. Dydak^{1,2}. ¹School of Health Sciences, Purdue University, West Lafayette, IN; ²Indiana University School of Medicine, Indianapolis, IN; and ³Mayo Clinic, Rochester, MN.

Tuesday Morning, March 24
 9:00 AM to 12:30 PM
 CC Exhibit Hall

Poster Session: Neurotoxicology, Metals—Lead and Others

Chairperson(s): Maria E. Gonsebatt, Universidad Nacional Autonoma de Mexico, Mexico City, Mexico.

Displayed: 9:00 AM–12:30 PM

Author-Attended: 11:00 AM–12:30 PM

#972 **Poster Board Number227**
Neurological Effects of Gestational Arsenic Exposure. L. A. Ramos-Chavez¹, C. R. Rendon-López¹, A. Zepeda¹, D. Silva-Adaya², L. M. Del Razo³, and M. E. Gonsebatt¹. ¹Instituto de Investigaciones Biomedicas, Universidad Nacional Autonoma de Mexico, Mexico City, Mexico; ²Laboratorio Experimental de Enfermedades Neurodegenerativas, Instituto Nacional de Neurologia y Neurocirugia, Mexico City, Mexico; and ³Toxicologia Ambiental, CINVESTAV, Mexico City, Mexico.

#973 **Poster Board Number228**
Investigation of Zinc Toxicity in Olfactory Neurons Using In Silico and Molecular Techniques. H. Hsieh, and M. Genter. Environmental Health, University of Cincinnati, Cincinnati, OH.

#974 **Poster Board Number229**
The Impairment of Learning Ability of Male F1 Tokai High Avider Rats Exposed to Tributyltin via the Placenta, Their Dams' Milk, and Their Food. M. Tsunoda¹, K. Kajiwara², T. Hasegawa¹, T. Kido³, M. Hosokawa⁴, C. Sugaya¹, Y. Sugiura¹, H. Horiguchi¹, H. Endo⁵, and T. Watanabe⁵. ¹Hygiene, Kitasato University School of Medicine, Sagami-hara, Japan; ²Kitasato University School of Medicine, Sagami-hara, Japan; ³Public Health and Environmental Medicine, Jikei University School of Medicine, Tokyo, Japan; ⁴Department of Epidemiology and Environmental Health, Faculty of Medicine, Juntendo University, Tokyo, Japan; and ⁵Basic Clinical Science and Public Health, Tokai University School of Medicine, Isehara, Japan.

#975 **Poster Board Number230**
Early-Life Lead Exposure and Sensitization to Cocaine: A Novel Pathway to Addiction. K. H. Stansfield, J. L. McGlothlan, and T. R. Guilarte. Environmental Health Sciences, Columbia University, New York, NY.

#976 **Poster Board Number231**
Lead Significantly Impairs Critical Processes for Adult Hippocampal Neurogenesis in Primary Cultured Adult Neural Stem Cells. A. K. Engstrom, and Z. Xia. DEOHS, University of Washington, Seattle, WA.

Abstract #

#977 **Poster Board Number232**
Low-Level Lead Exposure in Rats Differentially Impairs Attentional Set Shifting Task Performance Depending on Developmental Period of Exposure. L. S. Neuwirth, D. W. Anderson, and J. S. Schneider. Pathology, Anatomy, and Cell Biology, Thomas Jefferson University, Philadelphia, PA.

#978 **Poster Board Number233**
Sex-Dependent Effects of Lead and Prenatal Stress on Adult Glucocorticoid Receptor Expression and Its Epigenetic Control. D. W. Anderson¹, J. S. Schneider¹, M. Sobolewski², and D. A. Cory-Slechta². ¹Pathology, Anatomy, and Cell Biology, Thomas Jefferson University, Philadelphia, PA; and ²Environmental Medicine, University of Rochester School of Medicine, Rochester, NY.

#979 **Poster Board Number234**
Assessment of Ototoxicity Due to Chronic Lead and Cadmium Exposure with and without Noise Exposure in CBA/J Mice. K. M. Carlson¹, R. Neitzel¹, and J. Schacht². ¹EHS, University of Michigan, Ann Arbor, MI; and ²Kresge Hearing Research Institute, University of Michigan, Ann Arbor, MI.

#980 **Poster Board Number235**
Age-Dependent Increase of Brain Cu Levels and Expressions of Cu Regulatory Genes in the Subventricular Zone and Choroid Plexus. X. Fu, W. Jiang, and W. Zheng. School of Health Sciences, Purdue University, West Lafayette, IN.

#981 **Poster Board Number236**
A Gene-Metal Screen Reveals Enhanced Selenium and Cadmium Neurotoxicity in Dopaminergic Cells Expressing Human Alpha-Synuclein. W. Chong, and G. Kwakye. Neuroscience, Oberlin College, Oberlin, OH.

#982 **Poster Board Number237**
Post-Traumatic Stress Disorder (PTSD) among Gulf War 1 Veterans Exposed to Depleted Uranium (DU): 22 Years of Follow-Up. P. Gucer¹, B. Kaup³, P. Langenberg², K. S. Squibb¹, and M. A. McDiarmid¹. ¹Medicine, University of Maryland School of Medicine, Baltimore, MD; ²Preventive Medicine, University of Maryland School of Medicine, Baltimore, MD; and ³Department of Medical Affairs Medical Center, Baltimore, MD.

#983 **Poster Board Number238**
Response of Erythrocyte Acetylcholinesterase Activity in Rats Subchronically Exposed to Low-Level Cadmium. O. O. Ogunrinola¹, A. D. Wusu¹, O. K. Afolabi^{1,2}, E. A. Balogun^{1,3}, E. O. Abam^{1,4}, O. Ademuyiwa^{1,5}, and O. O. Odukoya^{1,6}. ¹Biochemistry, Lagos State University, Ojo-Lagos, Nigeria; ²Biochemistry, Ladoko Akintola University, Ogbomoso, Nigeria; ³Biochemistry, University of Ilorin, Ilorin, Nigeria; ⁴Biochemistry, Bell University of Technology, Ota, Nigeria; ⁵Biochemistry, Federal University of Agriculture, Abeokuta, Nigeria; and ⁶Chemistry, Federal University of Agriculture, Abeokuta, Nigeria.

TUESDAY

Program Schedule (Continued)

Abstract

Tuesday Morning, March 24
9:00 AM to 12:30 PM
CC Exhibit Hall

Poster Session: Carcinogenesis I

Chairperson(s): Suryanarayana V. Vulimiri, ORD/NCEA-W, US EPA, Washington, DC; and J. Craig Rowlands, The Dow Chemical Company, Midland, MI.

Displayed: 9:00 AM–12:30 PM

Author-Attended: 9:00 AM–11:00 AM

- #984 **Poster Board Number239**
Characterization of microRNA Expression Patterns and Their Target Genes in the Liver of Rats Treated with Thioacetamide, a Carcinogen, to Discover Potential Biomarkers for Hhepatocarcinogenesis. Y. Wang¹, C. Castro², B. Gong¹, M. Yuji³, J. Yan¹, T. Chen¹, and W. Tong¹.
¹National Center for Toxicological Research, Jefferson, AR; ²University of North Carolina, Charlotte, NC; and ³Shinonogi & Co., Ltd., Osaka, Japan.
- #985 **Poster Board Number240**
An Epigenetic Role of NR2E3, an Orphan Nuclear Receptor, in BaP-Mediated Gene Regulation. K. Kim, K. Tilak, W. Yang, J. Lee, F. J. Sanchez-Martin, and A. Puga. University of Cincinnati, Cincinnati, OH.
- #986 **Poster Board Number241**
Benzo[a]pyrene in Colon Carcinogenesis. Q. Deng, and Y. Li. University of Louisville, Louisville, KY.
- #987 **Poster Board Number242**
Arsenite Causes Zinc Loss and Inhibits the Activity of Poly(ADP-ribose) Polymerase-1 through ROS/RNS Generation and Peroxynitrite Production. X. Zhou¹, F. Wang², W. Liu¹, X. Sun¹, C. Chen¹, J. Shen³, L. G. Hudson¹, and K. Liu¹.
¹College of Pharmacy, University of New Mexico, Albuquerque, NM; ²Department of Nutrition and Food Hygiene, Fourth Military Medical University, Xi'an, China; and ³School of Chinese Medicine, University of Hong Kong, Hong Kong, China.
- #988 **Poster Board Number243**
Gli2-Mediated Induction of c-Myc Induces Melanoma Tumor Growth. N. M. Fofaria, and S. K. Srivastava. Biomedical Sciences, Texas Tech University Health Sciences Center, Amarillo, TX.
- #989 **Poster Board Number244**
Comparison Study of Anti-Inflammatory Effects of Polyphenolics in Colitis Rat Model Targeting mTOR Signaling Pathway. H. Kim¹, N. Banerjee^{1,2}, I. Ivan³, S. Talcott¹, and S. Talcott^{1,2,3}. ¹Nutrition and Food Science, Texas A&M University, College Station, TX; ²Interdisciplinary Program of Toxicology, Texas A&M University, College Station, TX; and ³Veterinary Physiology and Pharmacology, Texas A&M University, College Station, TX.

Abstract

- #990 **Poster Board Number245**
Mechanistic Studies of Cancer Cell Mitochondria and NQO1-Mediated Redox Activation of Beta-Lapachone, a Potentially Novel Anticancer Agent. Z. Jia¹, J. Li¹, H. Zhu², M. A. Trush³, and Y. Li². ¹University of North Carolina at Greensboro, Greensboro, NC; ²Campbell University School of Osteopathic Medicine, Buies Creek, NC; and ³Johns Hopkins University, Bloomberg School of Public Health, Baltimore, MD.
- #991 **Poster Board Number246**
Silencing KRAS Overexpression in Cadmium-Transformed Prostate Epithelial Cells Mitigates Malignant Phenotype. N. O. Ngalame, E. J. Tokar, and M. P. Waalkes. NTP, NIEHS, Research Triangle Park, NC.
- #992 **Poster Board Number247**
Hematological Alterations and Markers of B Cell Activation in Workers Exposed to Benzene, Formaldehyde, and Trichloroethylene. L. Zhang¹, B. A. Bassig², R. Vermeulen³, X. Tang⁴, G. Li⁵, W. Hu², W. Guo¹, M. P. Purdue², S. Yin⁵, S. Rappaport⁴, M. Shen², Z. Ji¹, C. Qiu⁴, Y. Ge⁴, H. Hosgood², B. Reiss³, L. Li⁴, F. Yue⁴, L. Beane-Freeman², A. Blaire², H. Huang⁴, N. Rothman², R. Hayes³, M. T. Smith¹, and Q. Lan².
¹School of Public Health, University of California, Berkeley, CA; ²Division of Cancer Epidemiology and Genetics, NCI, Bethesda, MD; ³Institute for Risk Assessment Sciences, Utrecht University, Utrecht, Netherlands; ⁴Guangdong Poison Control Center, Guangzhou, China; and ⁵Institute of Occupational Health and Poison Control, China CDC, Beijing, China.
- #993 **Poster Board Number248**
Membrane Progesterone Receptor Alpha Signaling in Breast Cancer Cells. M. Salazar¹, A. Ashley¹, A. Lerma-Ortiz¹, J. P. Houston², and R. L. Ashley¹. ¹Animal and Range Sciences, New Mexico State University, Las Cruces, NM; and ²Chemical Engineering, New Mexico State University, Las Cruces, NM.
- #994 **Poster Board Number249**
Gene Expression Changes in Human Endometrial Cells Exposed to the Tamoxifen Metabolite Endoxifen. E. E. Hernandez Ramon¹, K. Divi¹, E. Asaki², O. Olivero¹, and M. C. Poirier¹. ¹LCBG, National Cancer Institute, National Institutes of Health, Bethesda, MD; and ²Advanced Technology Center, NCI, National Institutes of Health, Bethesda, MD.
- #995 **Poster Board Number250**
Regulation of Gene Expression Profiles in Clear Cell Renal Cell Carcinoma by Cadmium Exposure. S. Brooks, and W. Rathmell. UNC-CH, Chapel Hill, NC.
- #996 **Poster Board Number251**
Zingerone Suppresses the Development of Precancerous Lesions via Regulating the Hyperproliferation, Inflammation and Angiogenesis in the Colon of Wistar Rats. M. U. Rehman^{1,2}, A. Farooq², A. Arif², B. Ahmad¹, F. H. Pottoo², S. A. Bhat¹, R. Razzaq¹, M. H. Masoodi², M. R. Mir¹, and M. Y. Shah². ¹Veterinary Biochemistry, Faculty of Veterinary Science & Animal Husbandry, SKUAST-Kashmir, Srinagar, India; and ²Pharmaceutical Sciences, University of Kashmir, Srinagar, India.

TUESDAY

Program Schedule (Continued)

Abstract #	Abstract #
#997	<p>Poster Board Number252 Analysis of DNA Methyltransferase Expression in a Transplacental Mouse Model with Indole-3-Carbinol Dietary Intervention during Exposure to Dibenzo[def,p]Chrysene. H. Markey¹, T. Harpe^{2,3,4}, L. K. Siddens², W. M. Baird^{2,4}, and D. E. Williams^{2,3,4}. ¹Society of Toxicology Undergraduate Research Program, Oregon State University, Corvallis, OR; ²Department of Environmental and Molecular Toxicology, Oregon State University, Corvallis, OR; ³Linus Pauling Institute, Oregon State University, Corvallis, OR; and ⁴Environmental Health Sciences Center, Oregon State University, Corvallis, OR.</p>
#998	<p>Poster Board Number253 Ligand Activation of PPARβ/δ Inhibits UVB-Induced Skin Cancer. K. C. Pramanik¹, P. Krishnan¹, F. Gonzalez², and J. M. Peters¹. ¹Veterinary and Biomedical Sciences, Penn State University, State College, PA; and ²Laboratory of Metabolism, National Cancer Institute, Bethesda, MD.</p>
#999	<p>Poster Board Number254 Peroxisome Proliferator-Activated Receptor-β/δ (PPARβ/δ) Inhibits Tumorigenesis by Interfering with RARα-Mediated MMP2 Activation and Inducing Cell Differentiation in Human Testicular Embryonal Carcinoma Cells. P. Yao¹, L. Chen¹, D. A. Philips¹, B. Zhu¹, F. Gonzalez², and J. M. Peters¹. ¹The Pennsylvania State University, University Park, PA; and ²National Cancer Institute, Bethesda, MD.</p>
#1000	<p>Poster Board Number255 PPARβ/δ and PPARγ Modulate UV-Induced Apoptosis and Cytokine Secretion in a Human Melanoma Cell Line. A. L. Wagner¹, F. Gonzalez², J. M. Peters³, and M. G. Borland^{1,3}. ¹Chemistry and Biochemistry, Bloomsburg University of Pennsylvania, Bloomsburg, PA; ²Laboratory of Metabolism, NCI, Bethesda, MD; and ³Veterinary and Biomedical Sciences, Penn State University, University Park, PA.</p>
#1001	<p>Poster Board Number256 7-Cysteine-pyrrole Adducts Is a Potential Active Metabolite Leading to Pyrrolizidine Alkaloid-Induced Cytotoxicity and Tumorigenicity. Q. Xia¹, L. Ma¹, L. Cai², and P. Fu¹. ¹NCTR, FDA, Jefferson, AR; and ²Biotranex LLC, Monmouth Junction, NJ. Sponsor: L. Guo.</p>
#1002	<p>Poster Board Number257 Tributylin Chemopreventive Mechanisms Involve Changes in Subcellular Localization of p53 and CRM1 Proteins. J. F. Ortega¹, A. de Conti², V. Tryndyak³, K. S. Furtado¹, M. A. Horst¹, R. Heidor¹, I. Pogribny², and F. S. Moreno¹. ¹Department of Food and Experimental Nutrition - FCF/USP, University of Sao Paulo, Sao Paulo, Brazil; and ²Division of Biochemical Toxicology, National Center for Toxicological Research, Jefferson, AR.</p>
#1003	<p>Poster Board Number258 The AhR Is a Negative Regulator of Keratinocyte Apoptosis and Critically Involved in Skin Carcinogenesis. K. Fraunstein¹, S. Shaik¹, J. Tigges¹, T. Douki², C. Esser¹, J. Krutmann¹, and T. Haarmann-Stemmann¹. ¹Leibniz Research Institute for Environmental Medicine, Duesseldorf, Germany; and ²Laboratoire Lésions des Acides Nucléiques, CEA, Grenoble, France.</p>
#1004	<p>Poster Board Number259 Repeated TCDD Exposure Produces Region-Specific Cellular Effects in Laser Capture Microdissected Centrilobular and Periportal Hepatocytes from the Rat Liver. J. Rowlands¹, B. Parks², M. B. Black², R. Budinsky¹, J. A. Harrill¹, and R. S. Thomas². ¹The Dow Chemical Company, Midland, MI; and ²The Hamner Institutes for Health Sciences, Research Triangle Park, NC.</p>
#1005	<p>Poster Board Number260 Chronic Exposure to Hexavalent Chromium Induces Angiogenesis via Activation of EGFR Signaling. D. Kim, L. Fai, and Z. Zhang. University of Kentucky, Lexington, KY. Sponsor: Y. Son.</p>
#1006	<p>Poster Board Number261 Development of a Cellular Bioluminescence Assay for Assessing the Effects of Chemical Exposures on Circadian Rhythm. M. Fang¹, H. Kang², and H. Zarbl¹. ¹Robert Wood Johnson Medical School, Environmental and Occupational Health Sciences Institute, NIEHS Center for Environmental Exposure and Disease, Rutgers, The State University of New Jersey, Piscataway, NJ; and ²Toxicology and Residue Chemistry Division, Animal, Plant and Fisheries Quarantine and Inspection Agency (QIA), An-Yang, Republic of Korea.</p>
#1007	<p>Poster Board Number262 Deregulation of CARγ-box Binding Factor-A (CBF-A) Contributes to Carcinogenesis. J. T. Barrett¹, X. Zhang¹, M. Fang², K. R. Reuhl¹, and H. Zarbl¹. ¹GSBS, RWJMS, Rutgers University, Piscataway, NJ; ²Environmental and Occupational Health Sciences Institute, Robert Wood Johnson Medical School, Center for Environmental Exposures and Disease, Rutgers University, Piscataway, NJ; and ³University of Washington, Seattle, WA.</p>
#1008	<p>Poster Board Number263 The Role of Lgr5 Stem Cells in the PhIP/DSS-Induced Colon Carcinogenesis in CYP1A-Humanized Mice. J. X. Chen¹, H. Wang², A. Liu³, L. Zhang³, and C. S. Yang². ¹Toxicology, Rutgers University, Piscataway, NJ; ²Chemical Biology, Rutgers University, Piscataway, NJ; and ³Gastrointestinal and Liver Pathology, University Medical Center of Princeton, Plainsboro, NJ.</p>
#1009	<p>Poster Board Number264 TP53 and Xenobiotic Metabolizing Enzyme Polymorphisms and Clinical Outcome in Lung Cancer. M. Iscan¹, V. Karacaoglan¹, A. O. Ada¹, S. Bilgen¹, S. Kunak², and M. Gulhan³. ¹Toxicology, Ankara University, Ankara, Turkey; ²Pharmacology, Ordu University, Ordu, Turkey; and ³Pulmonary Diseases, Ataturk Pulmonary Diseases and Thoracic Surgery Hospital, Ankara, Turkey.</p>
#1010	<p>Poster Board Number265 Reduction in Benzo(a)pyrene [BaP]-Induced Colon Tumors Occurs through Altered BaP Metabolism and Decreased Oxidative Damage in Apc^{Min} Mice. L. D. Banks¹, P. Amoah¹, M. S. Niaz¹, M. K. Washington², S. E. Adunyah¹, and A. Ramesh¹. ¹Biochemistry & Cancer Biology, Meharry Medical College, Nashville, TN; and ²Pathology, Vanderbilt University, Nashville, TN.</p>

TUESDAY

Program Schedule (Continued)

Abstract

- #1011 **Poster Board Number266**
Exposure to the Genotoxic Chemical 1,3-Butadiene Confers Tissue-Specific Alterations in Chromatin Organization and Gene Expression. G. Chappell^{1,2}, J. Simon¹, S. Pott³, K. G. Sexton¹, A. Safi⁴, I. Kotenko⁵, J. Lieb³, G. Crawford⁴, I. Rusyn², and T. Furey¹. ¹UNC Chapel Hill, Chapel Hill, NC; ²Texas A&M University, College Station, TX; ³University of Chicago, Chicago, IL; ⁴Duke University, Durham, NC; and ⁵Princeton University, Princeton, NJ.
- #1012 **Poster Board Number267**
Mouse Lung Genomic Responses in Styrene-Treated Wild-Type, CYP2F2 Knockout, and CYP2F1 Humanized Mice Support the Low Human Relevance of Mouse-Specific Lung Toxicity and Tumorigenicity. G. Cruzan¹, J. Bus², M. I. Banton³, S. S. Sarang⁴, D. E. Dodd⁵, M. B. Black⁵, and M. E. Andersen⁵. ¹ToxWorks, Bridgeton, NJ; ²Exponent, Midland, MI; ³LyondellBasell Company, Houston, TX; ⁴Shell International, Houston, TX; and ⁵The Hamner Institutes for Health Sciences, Research Triangle Park, NC.

Tuesday Morning, March 24

9:00 AM to 12:30 PM
 CC Exhibit Hall

Poster Session: Oxidative Injury and Redox Biology

Chairperson(s): Bhagavatula Moorthy, Pediatrics, Baylor College of Medicine, Houston, TX.

Displayed: 9:00 AM–12:30 PM

Author-Attended: 11:00 AM–12:30 PM

- #1013 **Poster Board Number301**
Ataxia Telangiectasia Mutated (ATM) Activation Is Independent from Hyperoxia-Induced Mitochondrial Dysfunction. E. Resseguie¹, R. Staversky¹, L. Kalifa^{1,2}, P. Brookes³, and M. O'Reilly^{2,1}. ¹Environmental Medicine, University of Rochester, Rochester, NY; ²Pediatrics, University of Rochester, Rochester, NY; and ³Anesthesiology, University of Rochester, Rochester, NY. Sponsor: P. Lawrence.
- #1014 **Poster Board Number302**
Oxidative Responses to Extracted Cookstove Emissions in Lung Epithelial Cells. E. Gibbs-Flournoy¹, J. Jetter², E. H. Boykin³, S. Simmons³, J. K. McGee³, M. A. Higuchi³, and J. A. Dye³. ¹ORISE, Research Triangle Park, NC; ²NRMRL, US EPA, Research Triangle Park, NC; and ³NHEERL, US EPA, Research Triangle Park, NC.
- #1015 **Poster Board Number303**
Protection against Ethanol-Induced Osteopenia in Female Mice by Dietary Antioxidants. A. Alund¹, K. E. Mercer^{1,2}, C. F. Pulliam², T. N. Turner¹, L. J. Suva¹, T. M. Badger¹, and M. Ronis^{1,2}. ¹UAMS, Little Rock, AR; and ²Arkansas Children's Nutrition Center, Little Rock, AR.
- #1016 **Poster Board Number304**
Loss of Mrp1 Potentiates Doxorubicin-Induced Cardiotoxicity in Mice. W. Zhang¹, J. Deng¹, D. Coy¹, C. Wang², and M. Vore^{1,2}. ¹Graduate Center for Toxicology, University of Kentucky, Lexington, KY; and ²Markey Cancer Center, University of Kentucky, Lexington, KY.

Abstract

- #1017 **Poster Board Number305**
Ozone Effects on Protein Carbonyl Content in the Frontal Cortex and Cerebellum of Young Adult, Middle Age, and Senescent Brown Norway Rats. P. S. Kodavanti¹, J. E. Royland², J. Richards³, D. I. Agina-Obu¹, and R. C. MacPhail¹. ¹Toxicity Assessment Division, US EPA, Research Triangle Park, NC; ²Integrated Systems Toxicology Division, US EPA, Research Triangle Park, NC; and ³Environmental Public Health Division, US EPA, Research Triangle Park, NC.
- #1018 **Poster Board Number306**
Determining Adaptive and Adverse Oxidative Stress Responses in Human Bronchial Epithelial Cells Exposed to Zinc. J. M. Currier^{1,2}, W. Cheng¹, R. B. Conolly¹, and B. N. Chorley¹. ¹NHEERL, US Environmental Protection Agency, Research Triangle Park, NC; and ²Oakridge Institute for Science and Education, Research Triangle Park, NC.
- #1019 **Poster Board Number307**
An Imaging-Based RNAi Screen Identifies Novel Regulators of Nrf2 Activation. S. Hiemstra, M. C. Niemeijer, B. Herpers, S. Wink, and B. van de Water. Toxicology, Leiden Academic Centre for Drug Research, Leiden, Netherlands.
- #1020 **Poster Board Number308**
Oxidative Damage to Macromolecules Induced by Polycyclic Aromatic Hydrocarbons and Extractable Organic Matter from Particulate Matter in Human Embryonic Lung Fibroblasts. P. Rossner, B. Novotna, and J. Topinka. Institute of Experimental Medicine, Prague, Czech Republic.
- #1021 **Poster Board Number309**
Aberrant Regulation of G2-M Transition in Aniline-Induced Splenocyte Proliferation. J. Wang, G. Wang, and M. Khan. University of Texas Medical Branch, Galveston, TX.
- #1022 **Poster Board Number310**
Targeting Heme in Cytochrome P450 to Inhibit Mixed Function Oxidase Reactions. J. T. Szilagyi^{1,2}, V. Mishin², D. E. Heck⁴, Y. Jan³, J. R. Richardson³, D. L. Laskin^{1,2}, and J. D. Laskin^{1,3}. ¹Joint Graduate Program in Toxicology, Rutgers University, Piscataway, NJ; ²Pharmacology & Toxicology, Rutgers University, Piscataway, NJ; ³Environmental & Occupational Medicine, Rutgers University Robert Wood Johnson Medical School, Piscataway, NJ; and ⁴Environmental Health Science, New York Medical College, Valhalla, NY.
- #1023 **Poster Board Number311**
Oxidative Stress Alters Global Histone Methylation and Acetylation. T. L. Des Marais¹, Y. Yao¹, Y. Niu^{2,1}, and M. Costa¹. ¹Environmental Medicine, New York University, Tuxedo, NY; and ²Occupational Disease and Toxicology, Chao-Yang Hospital Affiliate of Capital Medical University, Beijing, China.
- #1024 **Poster Board Number312**
Potential Role of NQO1 As a Redox-Sensitive Molecular Switch. D. Siegel, and D. Ross. Skaggs School of Pharmacy, University of Colorado Anschutz Medical Center, Aurora, CO.
- #1025 **Poster Board Number313**
Molecular Mechanisms of All-Trans-Retinoic Acid-Mediated Selective Cytoprotection against Renal Injury. J. Sapiro, T. J. Monks, and S. S. Lau. University of Arizona, Tucson, AZ.

- PS** Poster Sessions
- RI** Regional Interest Session
- R** Roundtable Sessions

- S** Symposium Sessions
- T** Thematic Sessions
- W** Workshop Sessions

Program Schedule (Continued)

Abstract #

- #1026 **Poster Board Number 314**
Plant Extracts from Nordic Fruits and Vegetables Activate a Nuclear Factor-Erythroid 2-Related Factor (Nrf2) Pathway and Exert Protective Effects on Human Cells *In Vitro*. J. Lundqvist¹, M. E. Olsson², and A. Oskarsson¹. ¹Dept of Biomedical Sciences and Veterinary Public Health, Swedish University of Agricultural Sciences, Uppsala, Sweden; and ²Dept of Plant Breeding, Swedish University of Agricultural Sciences, Alnarp, Sweden.
- #1027 **Poster Board Number 315**
Oxidative Stress Response in Samples from Surface Water and a Drinking Water Treatment Plant. A. Oskarsson¹, R. Tröger², J. Kreuger², L. Ahrens², K. Wiberg², and J. Lundqvist¹. ¹Dept of Biomedical Sciences and Veterinary Public Health, Swedish University of Agricultural Sciences, Uppsala, Sweden; and ²Dept of Aquatic Sciences and Assessment, Swedish University of Agricultural Sciences, Uppsala, Sweden.
- #1028 **Poster Board Number 316**
Mn Superoxygen Dismutase (MnSOD) Attenuates Hyperoxia-Induced Cell Death by Altering ERK Activation. X. Yang¹, W. Wu¹, J. Wu¹, J. Melendez², and L. Mantell¹. ¹Pharmaceutical Sciences, St. John's University, Jamaica, NY; and ²Center for Immunology & Microbial Disease, Albany Medical College, Albany, NY.
- #1029 **Poster Board Number 317**
Oxidative Stressors Induce Differential Cellular Responses between Human Primary and HaCaT Keratinocyte Cells. B. Huang¹, P. Xue¹, B. Sun¹, J. Pi¹, A. White², M. E. Andersen¹, and R. A. Clewell¹. ¹Institute for Chemical Sciences, The Hamner Institutes for Health Sciences, Durham, NC; and ²Safety and Environmental Assurance Centre, Unilever, Bedfordshire, United Kingdom.
- #1030 **Poster Board Number 318**
Prolonged Use of Chloramphenicol Induces Aplastic Anemia and Oxidative Stress in Broiler Chicken. O. I. Azeez, O. T. Iji, and A. S. Akinrinde. Department of Veterinary Physiology, Biochemistry and Pharmacology, University of Ibadan, Ibadan, Nigeria.
- #1031 **Poster Board Number 319**
Role of GDF15 (Growth and Differentiation Factor 15) in Pulmonary Oxygen Toxicity. K. Lingappan, K. Tiwari, and B. Moorthy. Baylor College of Medicine, Houston, TX.
- #1032 **Poster Board Number 320**
C66 Ameliorates Diabetic Nephropathy by Upregulating Nrf2 Function via Enhancing miR-200a and Downregulating miR-21 via CBP Inhibiting Activity. H. Wu^{1,2}, L. Miao², and L. Cai¹. ¹University of Louisville, Louisville, KY; and ²2nd Hospital of Jilin University, Changchun, China.
- #1033 **Poster Board Number 321**
Unique Natural Product Compounds Activate Nrf2 and Autophagy. B. Harder, T. Jiang, W. Tian, L. Gunatilaka, E. Chapman, and D. D. Zhang. University of Arizona, Tucson, AZ.
- #1034 **Poster Board Number 322**
ATM-14, a Novel Antioxidant Radio-Mitigator Targeting Mitochondria. A. Goja, A. Banerjee, R. Giri, K. K. Kabirov, and A. V. Lyubimov. TRL/UIC, Chicago, IL.

Abstract #

- #1035 **Poster Board Number 323**
Protective Role of Methionyl Dipeptide against Hypochlorous Acid Toxicity Depends on Sequence. S. Babu, and M. O. Claville. Department of Chemistry, Hampton University, Hampton, VA.
- #1036 **Poster Board Number 324**
Mutated in Colorectal Cancer (MCC) Interacts with Keap1 and Activates Nrf2 Signaling. E. M. Rojo de la Vega Guinea, S. Tao, and D. D. Zhang. College of Pharmacy, University of Arizona, Tucson, AZ.
- #1037 **Poster Board Number 325**
Identification of Poly(ADP-Ribose)-Associated Proteins in Response to ROS Stress. A. Islas-Robles, F. M. Ramirez, F. Zhang, A. Ooi, S. S. Lau, and T. Monks. Pharmacology and Toxicology, The University of Arizona, Tucson, AZ.
- #1038 **Poster Board Number 326**
Vitamin A (VA) Prevents Oxygen-Induced Retinopathy (OIR) in Newborn Rats via Transcriptional Regulation of VEGF-A and HIF-1alpha (HIF-1α). X. Couroucli, P. Maturu, Y. W. Liang, W. Jiang, and B. Moorthy. Pediatrics, Baylor College of Medicine, Houston, TX.
- #1039 **Poster Board Number 327**
Impaired Nrf2 Signaling and Mitochondrial Dysfunction Mediate Hypoglycemia-Induced Oxidative Stress and Toxicity at Blood-Brain Barrier Endothelium. R. K. Sajja, and L. Cucullo. Pharmaceutical Sciences, TTUHSC, Amarillo, TX.
- #1040 **Poster Board Number 328**
PFOA Activates the Unfolded Protein Response in Pancreatic Acinar Cells. S. E. Hocevar, L. M. Kamendulis, and B. A. Hocevar. Environmental Health, Indiana University School of Public Health, Bloomington, IN.
- #1041 **Poster Board Number 329**
Role of Plasma Antioxidants for Assessing the Response to Oxidative Stress by Systemic Inflammation. M. B. Kadiiska. NIEHS/NIH, Research Triangle Park, NC.
- #1042 **Poster Board Number 330**
Cerium Dioxide Nanoparticles: Pro- or Antioxidant Potential *In Vivo*? V. C. Minarchick¹, P. G. Stapleton¹, E. M. Sabolsky², and T. R. Nurkiewicz¹. ¹Center for Cardiovascular and Respiratory Sciences, West Virginia University, Morgantown, WV; and ²Mechanical Engineering, West Virginia University, Morgantown, WV.
- #1043 **Poster Board Number 331**
Exposure to 1,2-Naphthoquinone Induces Protein Sulfenylation in Human Bronchial Epithelial Cells. P. Wages¹, K. Lavrich¹, and J. Samet^{1,2}. ¹Curriculum in Toxicology, University of North Carolina at Chapel Hill, Chapel Hill, NC; and ²EPHD, EPA, Research Triangle Park, NC.
- #1044 **Poster Board Number 332**
Investigating Sulforaphane As a Protective Agent against Benzoquinone Toxicity in Mouse Fetal Liver Cells. N. A. Philbrook¹, and L. M. Winn^{1,2}. ¹Department of Biomedical and Molecular Sciences, Queen's University, Kingston, ON, Canada; and ²Biomedical and Molecular Sciences, Queen's University, Kingston, ON, Canada.

TUESDAY

Program Schedule (Continued)

Abstract

Tuesday Morning, March 24
9:00 AM to 12:30 PM
CC Exhibit Hall

Poster Session: Juvenile Toxicity

Approaches for Protecting Vulnerable Populations

Chairperson(s): Betzabet Quintanilla-Vega, Department of Toxicology, CINVESTAV IPN, Mexico City, Mexico; and Michele La Merrill, Environmental Toxicology, University of California Davis, Davis, CA.

Displayed: 9:00 AM–12:30 PM

Author-Attended: 9:00 AM–11:00 AM

- #1045 **Poster Board Number**337
Persistent Antiretroviral Nucleoside Reverse Transcriptase Inhibitor (NRTI)-Induced Mitochondrial Compromise in Transplacentally Exposed Patas Monkey Offspring. Y. Liu¹, E. Shim¹, A. T. Gibbons¹, E. Shide¹, R. L. Divi², R. A. Woodward³, M. J. Sowers³, and M. C. Poirier¹. ¹Carcinogen-DNA Interactions, CCR Section, National Cancer Institute, Bethesda, MD; ²Methods and Technologies Branch, DCPC, National Cancer Institute, Rockville, MD; and ³Animal Center, Shared Animal Facility, National Institutes of Health, Dickerson, MD.
- #1046 **Poster Board Number**338
Microsampling in Juvenile Rats. M. Wenker, C. Ouwens, M. Blonk, B. Frieling, and H. Emmen. WIL Research Europe B.V., Hertogenbosch, Netherlands.
- #1047 **Poster Board Number**339
The Postnatal Development and Growth of the Cardio-Respiratory System in Sprague-Dawley Rats. A. Apreutese^{1,2}, C. Gordon¹, R. Forster¹, A. Graham¹, R. Tavcar¹, B. Palate¹, J. Haruna¹, and M. Benoit-Biancamano². ¹CiToxLAB North America, Laval, QC, Canada; and ²Faculty of Veterinary Medicine, University of Montreal, St-Hyacinthe, QC, Canada.
- #1048 **Poster Board Number**340
Histomorphologic Features of Neonatal and Juvenile Uro-Genital Development in Sprague-Dawley Rats. A. Apreutese^{1,2}, C. Gordon¹, R. Forster¹, A. Graham¹, R. Tavcar¹, B. Palate¹, J. Haruna¹, and M. Benoit-Biancamano². ¹CiToxLAB North America, Laval, QC, Canada; and ²Faculty of Veterinary Medicine, University of Montreal, St-Hyacinthe, QC, Canada.
- #1049 **Poster Board Number**341
Exposure to Particulate Matter Increases the DNA Methylation of Repair Genes in Urban Children. I. Alvarado-Cruz¹, M. Sanchez-Guerra^{1,2}, L. Hernandez-Cadena³, A. De Vizcaya-Ruiz¹, M. J. Solis-Heredia¹, V. Mugica⁴, H. Byun², A. Baccarelli², and B. Quintanilla-Vega¹. ¹Toxicology, Cinvestav, Mexico City, Mexico; ²Harvard School of Public Health, Boston, MA; ³National Institute of Public Health, Mexico City, Mexico; and ⁴Basic Sciences, Autonomous Metropolitan University, Mexico City, Mexico.

Abstract

- #1050 **Poster Board Number**342
The Impact of Prenatal Parental Tobacco Smoking on Risk of Diabetes Mellitus in Middle-Aged Women. M. La Merrill¹, P. Cirillo³, N. Krigbaum², and B. Cohn². ¹Environmental Toxicology, UC Davis, Davis, CA; and ²Public Health Institute, Berkeley, CA.
- #1051 **Poster Board Number**343
Juvenile Toxicity Testing in Nonhuman Primate Models: Challenges and Experiences. G. Weinbauer^{1,2}, and P. Baldrick². ¹Covance Laboratories GmbH, Muenster, Germany; and ²Covance, Harrogate, United Kingdom.
- #1052 **Poster Board Number**344
Clinical Chemistry Sampling and Assessment in Juvenile Rats—Reduction in and/or Elimination of the Need for Additional Subsets of Pups. S. Clubb, and L. Jardine. Charles River, Edinburgh, United Kingdom. Sponsor: A. Hoberman.
- #1053 **Poster Board Number**345
Microsampling-Coupled Bioanalysis in the Neonatal and Juvenile Göttingen Minipig and Beagle Dog. G. P. Bailey¹, M. De Meulder¹, B. Feyen¹, L. De Zwart¹, E. Marsden², L. Penard², H. Voute², and S. Baudet². ¹Janssen Pharmaceutical, Beerse, Belgium; and ²WIL Research Europe, Lyon, France.
- #1054 **Poster Board Number**346
Sprague-Dawley Rat Juvenile Toxicity Studies: Control Data (Part 1). R. M. Parker, D. Williams, and G. Baxter. DART, Huntingdon Life Sciences, East Millstone, NJ.

Tuesday Morning, March 24
9:00 AM to 12:30 PM
CC Exhibit Hall

Poster Session: Genetic Toxicology II

Chairperson(s): John Wise, University of Southern Maine, Portland, ME.

Displayed: 9:00 AM–12:30 PM

Author-Attended: 11:00 AM–12:30 PM

- #1055 **Poster Board Number**401
Selection of a Positive Control in the Modified Comet Assay for Crosslinking Agents. K. Pant¹, N. Roden², C. Wood², C. Zhang², and K. Pendino². ¹BioReliance by SAFC, Rockville, MD; and ²Purdue Pharma, Cranbury, NJ.
- #1056 **Poster Board Number**402
Testing of 14-Hydroxycodone (14HC) in a Combined Modified and Standard Comet Assay. K. Pendino¹, N. Roden¹, C. Wood¹, C. Zhang¹, and K. Pant². ¹Purdue Pharma, Cranbury, NJ; and ²BioReliance by SAFC, Rockville, MD.
- #1057 **Poster Board Number**403
Approaches of Cytotoxicity and Genotoxicity Assessment of Cadmium, Mercury, and Their Mixture on *Clarias gariepinus*. P. Guedenon¹, C. G. Alimba², J. Segbo², and P. A. Edoth^{1,3}. ¹Laboratory of Environmental Health and Toxicology, University of Abomey-Calavi, Cotonou, Benin; ²Department of Cell Biology and Genetics, University of Ibadan, Ibadan, Nigeria; ³Laboratory of Applied Research in Biology, University of Abomey-Calavi, Cotonou, Benin; and ⁴Biochemistry and Cellular Biology, University of Abomey-Calavi, Cotonou, Benin.

PS Poster Sessions

RI Regional Interest Session

R Roundtable Sessions

S Symposium Sessions

TS Thematic Sessions

W Workshop Sessions

Program Schedule (Continued)

Abstract #		Abstract #	
#1058	Poster Board Number404 An <i>In Vivo</i> Mouse Micronucleus Test with O-Methoxy Cinnamaldehyde. B. A. Wall, V. T. Politano, and A. Api. Research Institute for Fragrance Materials, Woodcliff Lake, NJ.	#1066	Poster Board Number412 Genotoxic Effect of Temephos in Human Liver Carcinoma Cells (HepG2). F. Herrera-Moreno ¹ , F. Verdín-Betancourt ¹ , M. Sordo ² , P. Ostrosky ² , A. M. Salazar ² , I. M. Medina ¹ , B. S. Barrón ¹ , M. Robledo-Marencó ¹ , and A. E. Rojas-García ¹ . ¹ Laboratorio de Contaminación y Toxicología Ambiental, Universidad Autónoma de Nayarit, Tepic, Mexico; and ² Departamento de Medicina Genómica y Toxicología Ambiental, Instituto de Investigaciones Biomédicas, Universidad Nacional Autónoma de México, Mexico City, Mexico. Sponsor: B. Quintanilla.
#1059	Poster Board Number405 Comparison of JAK1 Inhibitors Using Whole Blood and Isolated Human Peripheral Blood Lymphocytes in the <i>In Vitro</i> Micronucleus Test. C. S. Farabaugh ¹ , S. B. Hurtado ¹ , M. L. Moy ¹ , M. M. Wells ¹ , and E. B. Harstad ² . ¹ WIL Research, Skokie, IL; and ² Genentech, Inc., South San Francisco, CA.	#1067	Poster Board Number413 Cytotoxicity, Genotoxicity, and Mutagenicity Tests with HepG2 Cells Showed Negative Results for the Azo Dye “Acid Black 210”. O. P. Rocha, C. A. Cesila, and D. P. Oliveira. Faculdade de Ciências Farmacêuticas de Ribeirão Preto, Universidade de São Paulo, Ribeirão Preto, Brazil.
#1060	Poster Board Number406 Validation of an <i>In Vivo</i> Pig-a Gene Mutation Assay for Use in Regulatory Toxicology Studies. J. Godin-Ethier ¹ , F. Leroux ¹ , N. Wang ¹ , S. Thébaud ¹ , F. Merah ¹ , S. Dertinger ² , and A. Nelson ¹ . ¹ IATR Laboratories Canada, Inc, Montreal, QC, Canada; and ² Litron Laboratories, Rochester, NY.	#1068	Poster Board Number414 Prediction of Mutagenicity and Carcinogenicity Using SAR Softwares for Caffeine and Epinephrine. A. Keshava ¹ , and G. Krishna ² . ¹ Wake Early College of Health and Sciences, Raleigh, NC; and ² Supernus Pharmaceuticals, Research and Development, Rockville, MD.
#1061	Poster Board Number407 Effects of Grape Seed Extract against Aflatoxin B1-Induced DNA Damage in Rats. S. A. Albakheet, and S. M. Attia. Pharmacology and Toxicology, King Saud University, Riyadh, Saudi Arabia.	#1069	Poster Board Number415 Mitochondrial Fission- and Fusion-Deficient <i>C. elegans</i> Display Hypersensitivity to Environmental Mitotoxins. A. Luz, and J. Meyer. Nicholas School of the Environment, Duke University, Durham, NC.
#1062	Poster Board Number408 <i>In Vivo</i> Genotoxicity Studies with Six Different Titanium Dioxide Materials (Three Pigment-Grade and Three Nanostructured) Demonstrate Negative Effects in Orally-Exposed Rats. A. L. Myhre ¹ , R. J. Boatman ² , E. M. Donner ¹ , A. Wessels ³ , and D. B. Warheit ¹ . ¹ DuPont Haskell Lab, Newark, DE; ² Boatman Toxicology Consulting LLC, Rochester, NY; and ³ BSL Bioservice Labs, Munich, Germany.	#1070	Poster Board Number416 <i>In Vivo</i> Genotoxicity Study of NNK in Sprague-Dawley Rats. W. Ding ¹ , R. A. Mittelstaedt ¹ , M. G. Pearce ¹ , M. E. Bishop ¹ , K. J. Davis ² , D. Norton ² , D. Nontiho ² , Y. Tang ³ , H. Rosenfeldt ⁴ , P. C. Howard ³ , P. Yeager ³ , and S. Hu ³ . ¹ Division of Genetic and Molecular Toxicology, FDA/National Center for Toxicological Research, Jefferson, AR; ² Toxicologic Pathology Associates, FDA/National Center for Toxicological Research, Jefferson, AR; ³ Office of Scientific Coordination, FDA/National Center for Toxicological Research, Jefferson, AR; and ⁴ FDA/Center for Tobacco Products, Silver Spring, MD.
#1063	Poster Board Number409 TiO₂ Nanoparticles Are Genotoxic on Lung, Blood, and Liver Cells after Repeated Respiratory Exposure in Rats. C. Relier ¹ , M. Dubreuil ¹ , O. Lozano Garcia ² , S. Lucas ² , G. Lacroix ² , and B. Trouiller ¹ . ¹ Experimental Toxicology Unit, INERIS, Verneuil-en-Halatte, France; and ² Physics Department, University of Namur, Namur, Belgium. Sponsor: A. Haase.	#1071	Poster Board Number417 Genotoxicity Screening of Hospital Wastewaters from University of Port Harcourt Teaching Hospital (UPTH), Nigeria, Using the Allium Cepa Test. B. B. Babatunde, and I. F. Vincent-Akpu. Animal and Environmental Biology, University of Port Harcourt, Port Harcourt, Nigeria.
#1064	Poster Board Number410 Increased Micronucleus Frequency in Peripheral Blood from Post-Weaning Malnourished Rats. M. Pacheco-Martínez ^{1,2} , D. Carrillo ² , E. Cervantes-Ríos ² , C. García-Rodríguez ³ , and R. Ortiz-Muñoz ² . ¹ PhD Student, Universidad Autónoma Metropolitana-Iztapalapa, México D. F., Mexico; ² Ciencias de la Salud. Biología Celular y Citometría de Flujo, Universidad Autónoma Metropolitana-Iztapalapa, México D.F., Mexico; and ³ Unidad de Investigación en Genética y Toxicología Ambiental, Universidad Nacional Autónoma de México, México D. F., Mexico.	#1072	Poster Board Number418 Cyto- and Genotoxic Potentials of Some Carbamate Pesticides in Human Lymphocytes <i>In Vitro</i>. E. Oztas, and G. Ozhan. Faculty of Pharmacy, Istanbul University, Istanbul, Turkey.
#1065	Poster Board Number411 Evaluation of Cytotoxic, Cytostatic, and Genotoxic Effect of Temephos in Human Lymphocytes. A. B. Benitez-Trinidad ¹ , G. Vázquez-Estrada ^{1,2} , M. Sordo ² , P. Ostrosky ² , I. M. Medina ¹ , B. S. Barrón ¹ , M. Robledo-Marencó ¹ , and A. E. Rojas-García ¹ . ¹ Laboratorio de Contaminación y Toxicología Ambiental, Universidad Autónoma de Nayarit, Tepic, Mexico; and ² Departamento de Medicina Genómica y Toxicología Ambiental, Instituto de Investigaciones Biomédicas, Universidad Nacional Autónoma de México, Mexico City, Mexico. Sponsor: B. Quintanilla.	#1073	Poster Board Number419 Use of a Derived Centrosome Primary Cilia Model to Detect Aneuploids. M. C. Poirier, O. Olivero, and K. Divi. National Cancer Institute, Bethesda, MD.

TUESDAY

Program Schedule (Continued)

Abstract #	Abstract #
<p>#1074 Poster Board Number 420 Using Human Cell Panel-Based Real-Time Cell Analysis Method to Detect and Differentiate Genotoxic Chemicals. D. Santa Ana¹, C. Jin¹, W. Zhang², S. Gabos^{3,4}, D. Y. Huang⁴, D. W. Kinniburgh^{4,3}, Y. A. Abassi¹, X. Wang¹, and X. Xu¹. ¹Acea Biosciences, Inc, San Diego, CA; ²Alberta Health, Edmonton, AB, Canada; ³Department of Laboratory Medicine and Pathology, University of Alberta, Edmonton, AB, Canada; and ⁴Alberta Center for Toxicology, University of Calgary, Calgary, AB, Canada.</p> <p>#1075 Poster Board Number 421 Evaluating the Inflammatory and Genotoxic Effects of Smokeless Tobacco Using a Human Organotypic Model of Oral Epithelium. M. A. Bachelor, J. Oldach, B. Breyfogle, M. Klausner, and P. J. Hayden. MatTek Corporation, Ashland, MA.</p> <p>#1076 Poster Board Number 422 Environmental Toxins Found Historically in the Polycythemia Vera Cluster Area and Their Potential for DNA Damage. E. Irvin-Barnwell¹, M. Lu², A. Ragin-Wilson¹, J. Wheeler¹, and R. Hoffman². ¹Agency for Toxic Substances and Disease Registry, Atlanta, GA; and ²Icahn School of Medicine, Mt. Sinai, New York, NY.</p> <p>#1077 Poster Board Number 423 Cytotoxicity and Genotoxicity Assessment of Sandalwood Essential Oil in Human Breast Cell Lines MCF-7 and MCF-10A. C. M. Ortiz-Sanchez¹, L. Morales^{1,2}, A. Castro³, M. Sastre³, W. Haskins⁴, and J. L. Matta¹. ¹Physiology, Pharmacology, and Toxicology, Ponce School of Medicine and Health Sciences, Ponce, Puerto Rico; ²Public Health, Ponce School of Medicine and Health Sciences, Ponce, Puerto Rico; ³Biology, UPR-Humacao, Humacao, Puerto Rico; and ⁴Pediatric Biochemistry Laboratory, University of Texas, San Antonio, TX.</p> <p>#1078 Poster Board Number 424 Genotoxicity Assessment of Glyphosate-Based Formulations in Zebrafish Embryos (<i>Danio rerio</i>) Using Comet Assay. L. B. Brito¹, F. R. Abe², L. B. Rodrigues¹, R. Oliveira³, D. P. Oliveira², C. K. Grisolia³, M. C. Valadares¹, and G. A. Oliveira^{1,2}. ¹Universidade Federal de Goias (FF/UFUG), Goiania, Brazil; ²Universidade de Sao Paulo (FCFRP/USP), Ribeirao Preto, Brazil; and ³Universidade de Brasilia (ICB/UnB), Brasilia, Brazil.</p> <p>#1079 Poster Board Number 425 Mutagenic Activity and Molecular Markers of Inflammation Present in Emissions from On-Road Heavy-Duty Diesel Vehicles with and without Advance Retrofit Devices. N. Y. Kado^{1,2,3}, C. F. Vogel^{1,2}, J. Herner³, R. Kobayashi¹, W. Robertson³, A. Alvarado³, L. Smith³, and P. Wong^{3,2}. ¹Dept. Environmental Toxicology, University of California, Davis, CA; ²Center for Health and the Environment, University of California, Davis, CA; and ³California Environmental Protection Agency, Air Resources Board, Sacramento, CA.</p>	<p>#1080 Poster Board Number 426 Genotoxic Effect of Commercial-Grade Temephos in Human Lymphocytes and Hepatoma Cells. G. Vázquez-Estrada^{1,2}, F. Verdín-Betancourt¹, Y. Y. Bernal Hernández¹, M. Sordo², P. Ostrosky², I. M. Medina¹, M. L. Robledo¹, B. S. Barrón¹, and A. E. Rojas-García¹. ¹Laboratorio de Contaminación y Toxicología Ambiental, Universidad Autónoma de Nayarit, Tepic, Mexico; and ²Departamento de Medicina Genómica y Toxicología Ambiental, Instituto de Investigaciones Biomédicas, Universidad Nacional Autónoma de México, Mexico City, Mexico. Sponsor: B. Quintanilla.</p> <p>#1081 Poster Board Number 427 Ethanol Extract of <i>Eclipta alba</i> Leaf Suppresses Sodium Arsenite-Induced Genotoxicity and Hepatotoxicity in Male Wistar Rats. O. A. Odunola¹, N. O. Fashina², I. M. Iloba¹, M. A. Gbadegesin¹, A. M. Adegoke¹, and J. O. Olugbami¹. ¹Department of Biochemistry, University of Ibadan, Ibadan, Nigeria; and ²African Indigenous Knowledge Production Unit, University of Ibadan, Ibadan, Nigeria.</p> <p>#1082 Poster Board Number 428 Detection of Sulfur Mustard-Induced DNA Adducts in Pig Skin with Fluorescence Microscopy. K. Kehe^{1,2}, S. Müller², H. Thiermann², and D. Steinritz². ¹E-Research and Development, Bundeswehr Medical Academy, München, Germany; and ²Bundeswehr Institute of Pharmacology and Toxicology, München, Germany.</p>
<p>Tuesday Morning, March 24 9:00 AM to 12:30 PM CC Exhibit Hall</p>	
<p>Poster Session: Gene Regulation and Signal Transduction</p>	
<p>Chairperson(s): Saurabh Vispute, St. John's University, Fresh Meadows, NY.</p>	
<p>Displayed: 9:00 AM–12:30 PM</p>	
<p>Author-Attended: 9:00 AM–11:00 AM</p>	
<p>#1083 Poster Board Number 431 PCB126 Regulates hTERT Involving the AhR-ARNT and HIF1α-ARNT Signaling Pathways. X. Xin, S. U. Vorrink, F. E. Domann, J. L. Schnoor, and G. Ludewig. The University of Iowa, Iowa City, IA.</p> <p>#1084 Poster Board Number 432 Carbamoyl Phosphate Synthase 1-Mediated Homocitrullination of Histone H1.2 Constitutes a Novel Epigenetic Mark Associated with Aryl Hydrocarbon Receptor-Driven Gene Expression. A. D. Joshi, G. M. Mustafa, C. F. Lichti, and C. J. Elferink. Pharmacology, UTMB, Galveston, TX.</p> <p>#1085 Poster Board Number 433 Comparative Assessment of Dose-Dependent TCDD-Elicited Hepatic Gene Expression in Mice. T. R. Zacharewski, K. A. Fader, and R. Nault. Biochemistry & Molecular Biology, Center for Integrative Toxicology, Michigan State University, East Lansing, MI.</p>	<p>PS</p>

Program Schedule (Continued)

Abstract #	Abstract #
<p>#1086</p> <p>Poster Board Number 434 Activation of the Aryl Hydrocarbon Receptor by Carcinogenic Aromatic Amines and Modulatory Effects of Their N-Acetylated Metabolites. L. Juricek¹, L. Bui^{2,1}, F. Busi², S. Pierre¹, E. Guyot¹, J. Dupret², A. Lamouri², R. Barouki^{1,4}, F. Rodrigues-Lima², and X. D. Coumoul¹. ¹INSERM UMR-S 1124, Université Paris Descartes, Sorbonne Paris Cité, Paris, France; ²Université Paris Diderot, Sorbonne Paris Cité, CNRS EAC 4413, Biologie Fonctionnelle et Adaptative, Paris, France; ³Université Paris Diderot, Sorbonne Paris Cité, Laboratoire ITODYS, CNRS UMR 7086, Paris, France; and ⁴AP-HP, Hôpital Necker-Enfants Malades, Service de Biochimie Métabolique, Paris, France.</p> <p>#1087</p> <p>Poster Board Number 435 A Novel Role for the Cytosolic Aryl Hydrocarbon Receptor in Pancreatic Cancer. U. Jin, and S. H. Safe. VTPP, Texas A&M University, College Station, TX.</p> <p>#1088</p> <p>Poster Board Number 436 The Aryl Hydrocarbon Receptor Is a Novel Regulator of the Circadian Nuclear Receptor Rev-erb Alpha. M. Sun¹, J. Lin², and S. Tischkau¹. ¹Pharmacology and Neuroscience, SIU School of Medicine, Springfield, IL; and ²Internal Medicine, SIU School of Medicine, Springfield, IL.</p> <p>#1089</p> <p>Poster Board Number 437 Constitutive Androstane Receptor (CAR) Activation Altered microRNA Profiling in Mouse Liver. R. Hao^{1,2}, Y. Wan³, D. Coslo³, F. Chen², T. Chen², I. Albert³, X. Han¹, and C. J. Omiecinski². ¹DuPont Haskell Global Centers for Health and Environmental Sciences, Newark, DE; ²Center for Molecular Toxicology and Carcinogenesis, The Pennsylvania State University, University Park, PA; and ³Department of Bioinformatics and Genomics, The Pennsylvania State University, University Park, PA.</p> <p>#1090</p> <p>Poster Board Number 438 Transcriptional Regulation of SULT1C2 by Vitamin D Receptor in Human Intestinal and Kidney Cells. K. G. Barrett, H. Fang, T. A. Kocarek, and M. A. Runge-Morris. Institute of Environmental Health Sciences, Wayne State University, Detroit, MI.</p> <p>#1091</p> <p>Poster Board Number 439 Regulation of SULT1C3 Transcription by Peroxisome Proliferator Activated-Receptor Gamma in Human Colorectal Adenocarcinoma LS180 Cells. S. T. Dubaisi¹, H. Fang², T. A. Kocarek^{1,2}, and M. A. Runge-Morris². ¹Pharmacology, Wayne State University, Detroit, MI; and ²Institute of Environmental Health Sciences, Wayne State University, Detroit, MI.</p> <p>#1092</p> <p>Poster Board Number 440 Human Cytochrome P450 2C8 (CYP2C8) Is a Novel Target of Peroxisome Proliferator-Activated Receptor α (PPARα) in Human Liver. N. L. Makia, S. Surapureddi, and J. A. Goldstein. Laboratory of Toxicology and Pharmacology, National Institute of Environmental Health Sciences, Research Triangle Park, NC.</p>	<p>#1093</p> <p>Poster Board Number 441 Novel Regulatory Function of Human Glutathione S-transferase P1-1 in Classical Estrogen Receptor α Signaling Pathway. X. Liu¹, B. An^{3,1}, J. Park², and M. Chang¹. ¹Medical & Pharmaceutical Sciences, Sookmyung Women's University, Seoul, Republic of Korea; ²Department of Biological Sciences, Sookmyung Women's University, Seoul, Republic of Korea; and ³Department of Food and Nutrition, Sookmyung Women's University, Seoul, Republic of Korea.</p> <p>#1094</p> <p>Poster Board Number 442 Transcriptional Regulation of Human Paraoxonase 1 by PXR Receptor in Human Hepatoma Cells. N. Ponce-Ruiz¹, I. M. Medina¹, E. Rojas¹, B. S. Barrón¹, M. L. Robledo¹, Y. Y. Bernal Hernández¹, M. I. Girón-Pérez¹, G. Azuela², and B. Quintanilla-Vega⁴. ¹Secretaría de Investigación y Posgrado, Universidad Autónoma de Nayarit, Tepic, Mexico; ²Biología Celular, CINVESTAV, Mexico City, Mexico; ³Posgrado en Ciencias Biológico Agropecuarias, Universidad Autónoma de Nayarit, Tepic, Mexico; and ⁴Toxicología, CINVESTAV, Mexico City, Mexico.</p> <p>#1095</p> <p>Poster Board Number 443 Modulation of CYP3A Enzymes: Role of Cytokines and MAP-Kinases. G. Taneja¹, C. Chu², B. Moorthy², and R. Ghose¹. ¹Department of Pharmacological and Pharmaceutical Sciences, University of Houston, Houston, TX; and ²Department of Pediatrics, Baylor College of Medicine, Houston, TX.</p> <p>#1096</p> <p>Poster Board Number 444 Impact of Obesity on the Expression of Xenobiotic Metabolism Genes in the Mouse Liver. L. Cheng¹, J. Nteeba², A. Keating², and J. Cui¹. ¹University of Washington, Seattle, WA; and ²Iowa State University, Ames, IA.</p> <p>#1097</p> <p>Poster Board Number 445 Induction of the Antioxidant Response in White Adipose Tissue via Calorie Restriction Induction of AMPK and Nrf2. L. Armstrong, and A. Slitt. Biomedical and Pharmaceutical Sciences, University of Rhode Island, Narragansett, RI.</p> <p>#1098</p> <p>Poster Board Number 446 Effect of Metformin on Upregulation of microRNA-34a to Reduce Sirt1 Expression Leading to Enhanced Sensitivity of Cancer Cells by Oxidative Stress. M. Do, H. Kim, and H. Jeong. Pharmacy, Chungnam National University, Daejeon, Republic of Korea.</p> <p>#1099</p> <p>Poster Board Number 447 Reactive Sulfur Species-Mediated Activation of the Keap1-Nrf2 Pathway by 1,2-Naphthoquinone through Sulfenic Acids Formation under Oxidative Stress. Y. Shinkai^{1,2}, T. Miura¹, H. Kakehashi¹, T. Akaike³, and Y. Kumagai^{1,2}. ¹Graduate School of Comprehensive Human Sciences, University of Tsukuba, Tsukuba, Japan; ²Faculty of Medicine, University of Tsukuba, Tsukuba, Japan; and ³School of Medicine, Tohoku University, Sendai, Japan.</p>

TUESDAY

Program Schedule (Continued)

Abstract

- #1100 **Poster Board Number 448**
HGF Confers a Survival Response Against Ethanol and Acetaldehyde-Induced Toxicity in a Pancreatic Cell Line by a Mechanism Dependent on ERK Activation. M. Palestino-Dominguez¹, D. Clavijo-Cornejo¹, M. Hiriar², L. Bucio¹, V. Souza¹, R. U. Miranda¹, J. Marquardt³, M. C. Gutierrez Ruiz¹, and L. Gomez-Quiroz¹. ¹Health Sci, Universidad Autonoma Metropolitana Iztapalapa, Mexico City, Mexico; ²Universidad Nacional Autonoma de Mexico, Mexico City, Mexico; and ³Medicine, Johannes Gutenberg University, Mainz, Germany.
- #1101 **Poster Board Number 449**
Nrf2 Response to Whole Smoke in Three-Dimensional (3D) Airway Cultures. W. Fields, B. Keyser, and B. Bombick. R. J. Reynolds Tobacco Company, Winston-Salem, NC. Sponsor: P. Harp.
- #1102 **Poster Board Number 450**
Dexamethasone Induces Fibroblast Growth Factor (Fgf) 21 Expression via Activation of Glucocorticoid Receptor. S. Vispute, P. Bu, Y. Le, and X. Cheng. Pharmaceutical Sciences, St. John's University, Queens, NY.
- #1103 **Poster Board Number 451**
Effect of Statins on the Regulation of Transport Genes in Human Kidney and Heart. A. Roque Atilano, and M. S. Joy. Skaggs School of Pharmacy & Pharmaceutical Sciences, University of Colorado, Aurora, CO.
- #1104 **Poster Board Number 452**
A Cost-Effective Targeted Sequencing Method for Monitoring Gene Expression. J. M. Yeakley¹, N. Abdo², G. Chappell³, P. Shepard¹, I. Rusyn², and B. Seligmann¹. ¹BioSpyder Technologies, Inc., Rancho Santa Fe, CA; ²Univ. North Carolina, Chapel Hill, NC; and ³Texas A&M Univ., College Station, TX.
- #1105 **Poster Board Number 453**
Regulation of Cyclin D1 by Arsenic and miRNA Inhibits Adipogenesis. K. Beezhold, and A. Barchowsky. EOH, University of Pittsburgh, Pittsburgh, PA.
- #1106 **Poster Board Number 454**
Early Activation of Aryl Hydrocarbon Receptor Disrupted the Expression of Genes in WNT, BMP2/4, and TGFβ Signal Pathways and Inhibits Binding of Key Cardiac Transcription Factors to Target Genes. Q. Wang, J. Chen, C. Ko, Y. Fan, Y. Xia, M. Medvedovic, and A. Puga. University of Cincinnati, Cincinnati, OH.
- #1107 **Poster Board Number 455**
Protein Kinase C Activating Tumor Promoters Induce a Synergistic Gene Signature Associated with Inflammation and Oncogenic Resistance in DNA-Damage Stressed Cells. K. P. Glover¹, Z. Chen², L. K. Markell¹, and X. Han¹. ¹Haskell, DuPont, Newark, DE; and ²Industrial Biotechnology, DuPont, Wilmington, DE.

Abstract

Tuesday Morning, March 24
9:00 AM to 12:30 PM
CC Exhibit Hall

Poster Session: Educational Activities and Outreach

Chairperson(s): Marie M. Bourgeois, Environmental and Occupational Health, University of South Florida, College of Public Health, Tampa, FL; and Christine P. Curran, Biological Sciences, Northern Kentucky University, Highland Heights, KY.

Displayed: 9:00 AM–12:30 PM

Author-Attended: 11:00 AM–12:30 PM

- #1108 **Poster Board Number 501**
Using Authentic Institutional Data to Understand STEM Persistence and Identify Curricular Areas for Targeted Reform. R. S. Pollenz. Cell Biology, University of South Florida, Tampa, FL.
- #1109 **Poster Board Number 502**
"Lotions Are Not Potions" But Are a Good Medium to Bring Together Toxicology Mentors and Students: Results of an SOT K–12 Education Outreach Workshop. A. Slitt¹, V. S. Bhat², D. E. Arrieta³, D. R. Johnson³, T. D. Camenisch³, and B. Eidemiller⁶. ¹Univ of Rhode Island, Kingston, RI; ²NSF International, Ann Arbor, MI; ³Chevron Phillips Chemical Co LP, The Woodlands, TX; ⁴Conestoga-Rovers & Assoc, Dallas, TX; ⁵Univ of Arizona, Tucson, AZ; and ⁶SOT Education Committee, Reston, VA.
- #1110 **Poster Board Number 503**
NorCal SOT K–12 Student Outreach: The Key Is to Have FUN FUN FUN! T. Parman¹, Y. He², and D. Zane³. ¹SRI International, Menlo Park, CA; ²University of California Berkeley, Berkeley, CA; and ³Genentech, Inc., South San Francisco, CA.
- #1111 **Poster Board Number 504**
Development of Environmental Health Animated Tutorials for K–12 Students and Teachers. P. J. Hakkinen, E. Ahmed, A. Keselman, C. Hochstein, S. Jordan, K. Matzkin, J. Kramer, A. Plumer, J. E. Kelly, and G. Dutcher. NLM, Specialized Information Services, NIH, Bethesda, MD.
- #1112 **Poster Board Number 505**
Using the Life Science Teaching Resource Community's Digital Library to Enhance Toxicology Teaching. K. L. Willett. BioMolecular Sciences, Div. of Pharmacology, University of Mississippi, University, MS.
- #1113 **Poster Board Number 506**
Design and Assessment of Classroom and Laboratory Activities during a One-Week Toxicology High School Program. G. L. Guo^{1,2}, J. E. Moscovitz¹, A. Venosa¹, T. Golden¹, L. M. Aleksunes^{1,2}, A. Gow^{1,2}, and D. L. Laskin^{1,2}. ¹Dept. Pharm & Tox and Joint Graduate Program in Toxicology, Rutgers University, Piscataway, NJ; and ²EOHSL, Rutgers University, Piscataway, NJ.
- #1114 **Poster Board Number 507**
The Undergraduate Student's Perspective on Toxicology Education. M. Reynolds¹, and S. Cheng². ¹Biology, Washington College, Chestertown, MD; and ²Sciences, John Jay College of Criminal Justice, New York, NY.

PS Poster Sessions
RI Regional Interest Session
R Roundtable Sessions

S Symposium Sessions
T Thematic Sessions
W Workshop Sessions

Program Schedule (Continued)

Abstract #	
#1115	Poster Board Number508 The Science of Terrorism: A Model Interdisciplinary Undergraduate Capstone Course. <i>J. P. Gray, L. A. Allen, S. M. Bateman, and E. J. Page.</i> Science, US Coast Guard Academy, New London, CT.
#1116	Poster Board Number509 “CREATE” an Ecotox Research Program on a Shoestring. <i>K. Harand, and M. M. Bourgeois.</i> EOH, USF COPH, Tampa, FL.
#1117	Poster Board Number510 A <i>C. elegans</i> Dose-Response Lab Using Avoidance Indices. <i>M. Pomeroy-Black.</i> LaGrange College, LaGrange, GA.
#1118	Poster Board Number511 Risky Business: Incorporating Risk Assessment and Risk Management into an Undergraduate Environmental Toxicology Course. <i>C. P. Curran.</i> Biological Sciences, Northern Kentucky University, Highland Heights, KY.
#1119	Poster Board Number512 Molecular Biology Lab Class As a Vehicle for Teaching Environmental Toxicology. <i>W. H. Powell.</i> Biology, Kenyon College, Gambier, OH.
#1120	Poster Board Number513 Use of Multiple Model Systems to Develop Student-Designed Research Projects in an Undergraduate Toxicology Course. <i>S. J. Fretham.</i> Biology, Luther College, Decorah, IA.
#1121	Poster Board Number514 Student-Centered Learning: From Student, by Student, and for Student. <i>S. Cheng.</i> Sciences, John Jay College, New York, NY.
#1122	Poster Board Number515 Implementing Authentic Science Learning through Multitiered Collaboration. <i>S. Swenson, and Y. He.</i> Sciences, John Jay College, CUNY, New York, NY. Sponsor: <i>S. Cheng.</i>
#1123	Poster Board Number516 SOT Funding and Regional Outreach Activities. <i>A. J. Abrittis¹, M. M. Bourgeois¹, C. Mendez¹, K. Harand¹, D. Hebert², and E. Renaud².</i> ¹ EOH, USF COPH, Tampa, FL; and ² University of South Florida, Tampa, FL.
#1124	Poster Board Number517 Tutorial Video Series: Using Stakeholder Outreach to Increase Usage of ToxCast Data. <i>C. Baghdikian², T. Bahadori¹, R. S. Thomas¹, M. Linnenbrink¹, and K. Crofton¹.</i> ¹ National Center for Computational Toxicology, US EPA, Research Triangle Park, NC; and ² ASPPH Fellow, US EPA/Office of Research and Development, Research Triangle Park, NC.
#1125	Poster Board Number518 Improving 3R Application in Regulatory Testing. <i>P. Lafouge, C. Guichard, O. Gillardeaux, and A. Romeike.</i> Safety Assessment, Covance Laboratory, Porcheville, France.
#1126	Poster Board Number519 Is Open Discussion on Animal Research Beneficial to Science and the Industry? <i>A. Jackson.</i> Covance Laboratories Ltd, Harrogate, United Kingdom.

Abstract #	
#1127	Poster Board Number520 Risk Communication and Perceptions for Highly Beneficial Medical Devices and Pharmaceuticals with Limited Scientific Evidence for Adverse Consequences. <i>A. J. Bernal¹, G. Huntley-Fenner², and B. D. Kerger¹.</i> ¹ Cardno ChemRisk, Aliso Viejo, CA; and ² Huntley-Fenner Advisors, Inc., Irvine, CA.
#1128	Poster Board Number521 Awareness of Regulatory Processes Among Academic Researchers. <i>A. M. Lynch^{1,2},</i> ¹ Roosevelt University College of Pharmacy, Schaumburg, IL; and ² American Chemistry Council, Washington, DC.
#1129	Poster Board Number522 From the Telephone to Twitter: 20 Years of Risk Communication from the National Pesticide Information Center. <i>D. L. Stone.</i> Oregon State University, Corvallis, OR.
#1130	Poster Board Number523 Food Poisoning and Pregnancy: Vigilance and Vulnerability. <i>T. Dodd-Butera.</i> Nursing, CSU San Bernardino, College of Natural Sciences, San Bernardino, CA.
#1131	Poster Board Number524 Multidisciplinary Environmental and Community-Based One Health Education, Infectious Disease, Nutrition Promotion, and Sustainability Innovation in Rural Sierra Leone. <i>L. Vakunta^{1,2}, J. Rashid^{1,2}, W. Vakunta^{1,2}, C. Kalman^{1,2}, T. Jaraczewski^{1,2}, A. Aartsen^{1,2}, A. Begur^{1,2}, A. Mehotra^{1,2}, D. Vakunta^{1,2}, E. Bangura^{3,2}, A. B. Karim^{3,2}, and A. Njai^{1,2,3}.</i> ¹ University of Wisconsin Madison, Madison, WI; ² Project 1808, Inc, Madison, WI; and ³ University of Sierra Leone, Freetown, Sierra Leone.

Tuesday Morning, March 24
9:00 AM to 12:30 PM
CC Exhibit Hall

Poster Session: Immunotoxicity I

Advancing Clinical and Translational Toxicology

Chairperson(s): *Courtney E. Sulentic, Pharmacology and Toxicology, Wright State University, Dayton, OH.*

Displayed: 9:00 AM–12:30 PM

Author-Attended: 9:00 AM–11:00 AM

#1132	Poster Board Number529 TCDD-Mediated Impaired Human B Cell Activation Involves Altered Regulation of Src-Homology Phosphatase (SHP-1) through B Cell Lymphoma Protein (BCL-6). <i>A. Phadnis-Moghe¹, R. Crawford^{1,2}, and N. E. Kaminski^{1,2}.</i> ¹ Center for Integrative Toxicology, Michigan State University, East Lansing, MI; and ² Pharmacology and Toxicology, Michigan State University, East Lansing, MI.
#1133	Poster Board Number530 TCDD-Mediated Alteration of EBF1 and PAX5 in Human Hematopoietic Stem Cells (HSCs) to B Cell Lineage Commitment. <i>J. Li^{1,3}, A. Phadnis-Moghe^{1,3}, R. Crawford^{2,3}, and N. E. Kaminski^{1,2,3}.</i> ¹ Genetics Program, Michigan State University, East Lansing, MI; ² Pharmacology and Toxicology, Michigan State University, East Lansing, MI; and ³ Center for Integrative Toxicology, Michigan State University, East Lansing, MI.

TUESDAY

Program Schedule (Continued)

Abstract #	Abstract #
#1134	#1142
Poster Board Number531 RNA-Sequencing Analysis of TCDD-Induced Responses in Primary Mouse, Rat, and Human B Lymphocytes. N. Kovalova ^{1,3} , R. Crawford ^{1,3} , R. Nault ² , T. R. Zacharewski ^{1,3} , and N. E. Kaminski ^{1,3} . ¹ Pharmacol. and Toxicol., Michigan State Univ., East Lansing, MI; ² Biochemistry & Molecular Biology, Michigan State Univ., East Lansing, MI; and ³ Center for Integrative Toxicol., Michigan State Univ., East Lansing, MI.	Poster Board Number539 Aryl Hydrocarbon Receptor Ligand-Specific Effects on Cytokines in TLR-Activated Dendritic Cells. K. McCulloh ¹ , S. Kado ¹ , W. W. Chang ² , and C. F. Vogel ^{1,3} . ¹ Center for Health and the Environment, University of California, Davis, CA; ² Center for Comparative Medicine, University of California, Davis, CA; and ³ Environmental Toxicology, University of California, Davis, CA.
#1135	#1143
Poster Board Number532 The Effects of Genetic Variability on the Shape of a Dose-Response Curve: 2,3,7,8 Tetrachlorodibenzo-p-dioxin (TCDD)-Induced Suppression of CD40L-Activated Human Primary B Cells. P. W. Dornbos ^{1,3} , R. Crawford ^{2,3} , N. E. Kaminski ^{2,3} , and J. LaPres ^{1,3} . ¹ Department of Biochemistry and Molecular Biology, Michigan State University, East Lansing, MI; ² Department of Pharmacology and Toxicology, Michigan State University, East Lansing, MI; and ³ Center for Integrative Toxicology, Michigan State University, East Lansing, MI.	Poster Board Number540 Low-Level Arsenic Exposure Affects the Innate Immune Response in Embryonic Zebrafish. L. St. Mary, C. J. Mattingly, and A. Planchart. Biology, NC State University, Raleigh, NC.
#1136	#1144
Poster Board Number533 Differential Modulation of the Human 3' Igh Regulatory Region Enhancers by TCDD and B Cell Stimulation in Mouse and Human B Cells. A. Snyder, A. K. Freiwan, and C. E. Sulentic. Pharmacology and Toxicology, Wright State University, Dayton, OH.	Poster Board Number541 Effects of Single Source versus Multisource Copper Indium Disulfide Nanoparticles on Mouse Macrophage Gene Expression. J. C. Pfau ¹ , J. Gilmer ¹ , D. Walker ² , J. Pak ² , L. Yang ¹ , and M. A. Thomas ¹ . ¹ Biological Sciences, Idaho State University, Pocatello, ID; and ² Chemistry, Idaho State University, Pocatello, ID.
#1137	#1145
Poster Board Number534 Effect of TCDD on Immunoglobulin Expression in Human B Cells. N. Burra, B. Johnson, and C. E. Sulentic. Pharmacology & Toxicology, Wright State University, Dayton, OH.	Poster Board Number542 Cadmium-Associated Dysregulation of Proinflammatory Cytokines in Human Placenta. J. J. Sollome ¹ , P. D. Ray ^{1,2} , J. E. Laine ¹ , M. Grace ³ , E. M. Sebastian ¹ , L. Smeester ¹ , P. Cable ¹ , D. Barrow ⁴ , W. Bodnar ⁴ , K. Boggess ³ , and R. Fry ^{1,2} . ¹ Department of Environmental Sciences and Engineering, Gillings School of Global Public Health, University of North Carolina, Chapel Hill, NC; ² Curriculum in Toxicology, School of Medicine, University of North Carolina, Chapel Hill, NC; ³ UNC Hospitals, University of North Carolina, Chapel Hill, NC; and ⁴ UNC Cytokine & Biomarkers Core Facility, School of Dentistry, University of North Carolina, Chapel Hill, NC.
#1138	#1146
Poster Board Number535 Consequences of TCDD Exposure on CD11c+ Splenic Dendritic Cells during an Antigen-Specific Immune Response in Mice. J. Kreitinger ^{2,1} , B. P. Seaver ¹ , C. A. Beamer ¹ , and D. M. Shepherd ^{1,2} . ¹ Department of Biomedical Sciences, University of Montana, Missoula, MT; and ² Department of Biological Science, University of Montana, Missoula, MT.	Poster Board Number543 Inorganic Arsenite Suppresses Phosphorylation of the Kinases Syk and PI3K in Mast Cells. J. Shim ¹ , R. Kennedy-Smith ^{1,2} , L. Weatherly ^{1,2} , A. Velez ¹ , H. Hashmi ¹ , and J. A. Gosse ^{1,2} . ¹ Molecular and Biomedical Sciences, University of Maine, Orono, ME; and ² Graduate School of Biomedical Science and Engineering, Orono, ME.
#1139	#1147
Poster Board Number536 Immunotoxicity of Dioxin: A Long-Term Low-Dose Exposure Study. Y. Feng, J. Tian, and B. Zhao. Research Center for Eco-Environmental Sciences, Chinese Academy of Sciences, Beijing, China.	Poster Board Number544 The Compromise of Macrophage Functions by Hyperoxia Is Attenuated by Ethacrynic Acid via Inhibition of NF-κB-Mediated Release of HMGB1. M. Wang ¹ , S. Gorasiya ¹ , D. Antoine ³ , R. A. Sitapara ¹ , W. Wu ¹ , L. K. Sharma ¹ , H. Yang ⁴ , C. R. Ashby ¹ , D. Vasudevan ⁶ , M. Zur ¹ , D. D. Thomas ⁶ , and L. Mantell ^{1,2,3} . ¹ Pharmaceutical Science, St John's University, Jamaica, NY; ² Center for Inflammation and Immunology, The Feinstein Institute for Medical Research, North Shore-LIJ Health System, Manhasset, NY; ³ Center for Heart and Lung Research, The Feinstein Institute for Medical Research, North Shore-LIJ Health System, Manhasset, NY; ⁴ Laboratory of Biomedical Science, The Feinstein Institute for Medical Research, North Shore-LIJ Health System, Manhasset, NY; ⁵ Department of Molecular and Clinical Pharmacology, University of Liverpool, Liverpool, United Kingdom; and ⁶ Department of Medicinal Chemistry and Pharmacognosy, University of Illinois Chicago, Chicago, IL.
#1140	
Poster Board Number537 Prostaglandin E2 Treatment Can Restore Inducibility of the Immunosuppressive Enzyme IDO in AhR-Negative Dendritic Cells. K. Zado ¹ , I. Bargen ¹ , A. A. Seida ¹ , S. Kadow ¹ , and C. Esser ^{2,1} . ¹ UF, Duesseldorf, Germany; and ² University of Dusseldorf, Dusseldorf, Germany.	
#1141	
Poster Board Number538 Determining the Role of the AhR in Ig Expression and Class Switch Recombination. B. F. Kashgari, A. Snyder, and C. E. Sulentic. Microbiology & Immunology, Wright State University, Dayton, OH.	

TUESDAY

Program Schedule (Continued)

Abstract #

- #1148 **Poster Board Number545**
The Immunomodulatory Effect of an Environmental Estrogen Bisphenol A on Fish Macrophages. M. Yang¹, W. Qiu¹, B. Chen², J. Chen¹, S. Liu¹, and K. Wang². ¹School of Environmental and Chemical Engineering, Shanghai University, Shanghai, China; and ²State Key Laboratory of Marine Environmental Science, Xiamen University, Xiamen, China. Sponsor: H. Wang.
- #1149 **Poster Board Number546**
Disruption of Lipid Raft Membrane Integrity by Benzo(a)pyrene Exposure Increases Macrophage Susceptibility to HIV-1 Infection. R. S. Clark¹, M. Maguire¹, A. Ramesh³, and D. B. Hood^{1,2}. ¹Department of Neuroscience and Pharmacology, Environmental Health Disparities and Medicine, Center for Molecular and Behavioral Neuroscience, Meharry Medical College, Nashville, TN; ²Division of Environmental Health Sciences, College of Public Health and Department of Neuroscience, College of Medicine, The Ohio State University, Columbus, OH; and ³Biochemistry and Cancer Biology, Meharry Medical College, Nashville, TN.
- #1150 **Poster Board Number547**
Inhibition of Acute Phase Response after Bacterial Infection in Zebrafish Developmentally Exposed to Benzo[a]pyrene. S. R. Das^{1,2}, R. Bessire¹, and J. Hansen^{1,2,3}. ¹Western Fisheries Research Center, US Geological Survey, Seattle, WA; ²Department of Epidemiology, University of Washington, Seattle, WA; and ³Department of Global Health & Interdisciplinary Program in Pathobiology, University of Washington, Seattle, WA.
- #1151 **Poster Board Number548**
Influence of ELF-MF on the Juvenile Immune System of CD-1 Mice. M. Mueller, C. Ziemann, T. Tillmann, G. Lewin, and C. Dasenbrock. Fraunhofer ITEM, Hannover, Germany.
- #1152 **Poster Board Number549**
Exposure to Produced Water from “Fracking” Induces Immunotoxicity in Adult Male Mice. S. E. Attreed¹, P. B. Tijerina¹, K. Galdanes¹, C. Hoffman¹, S. P. Doherty-Lyons¹, K. Kaur¹, J. L. Blum¹, A. Nadas¹, M. McCawley², and J. T. Zelikoff¹. ¹Environmental Medicine, NYU, Tuxedo, NY; and ²School of Public Health, WVU, Morgantown, WV.
- #1153 **Poster Board Number550**
Protein Phosphorylation Profiling Identifies Potential Mechanisms for Direct Immunotoxicity. A. Peijnenburg¹, J. Shao^{1,3}, P. Hendriksen¹, H. van Loveren^{2,3}, and O. L. Volger¹. ¹RIKILT, Wageningen University and Research Centre, Wageningen, Netherlands; ²National Institute for Public Health and the Environment (RIVM), Bilthoven, Netherlands; and ³Department of Toxicogenomics, Maastricht University, Maastricht, Netherlands.
- #1154 **Poster Board Number551**
Embryonic Thymocyte Responsiveness to HPTE Is Dependent upon Concurrent TCR Signaling, but Not Estrogen Receptor Signaling. C. Broussard, L. Leung Liu, C. Zambrano, P. Escalante, A. Patel, F. Mourad, and Z. Muscato. Biology, University of La Verne, La Verne, CA.
- #1155 **Poster Board Number552**
Enhanced Histopathology in an Immunotoxicity Tiered Testing Strategy. R. P. Frawley, S. Elmore, D. Malarkey, and D. Germolec. National Toxicology Program, NIEHS, Research Triangle Park, NC.

Abstract #

- #1156 **Poster Board Number553**
Significant Differences in Specific Immune Cell Populations, in Particular CD8+ T Cell Subsets, in Chinese-Origin vs. Mauritius-Origin Cynomolgus Monkeys. C. Riveley¹, R. Capocasale¹, P. Narayanan², and M. Fort². ¹FlowMetric Inc., Doylestown, PA; and ²Amgen Inc., Seattle, WA.
- #1157 **Poster Board Number554**
Arsenic and Innate Immunity: Macrophage Function upon Arsenic Exposure. F. C. Sillé¹, D. Medina-Cleghorn², D. K. Nomura³, C. Steinmaus¹, A. Smith¹, and M. T. Smith¹. ¹School of Public Health, University of California, Berkeley, Berkeley, CA; and ²Department of Nutritional Science & Toxicology, University of California, Berkeley, Berkeley, CA.

Tuesday Morning, March 24
9:00 AM to 12:30 PM
CC Exhibit Hall

Poster Session: In Vitro Cardiovascular Safety

Chairperson(s): Srikanth Nadadur, NIEHS, Research Triangle Park, NC.

Displayed: 9:00 AM–12:30 PM

Author-Attended: 11:00 AM–12:30 PM

- #1158 **Poster Board Number559**
In Vitro Toxicology Testing Using Human Induced Pluripotent Stem Cell-Derived Cardiomyocytes to Predict Tobacco Smoking-Related Cardiovascular Disease. X. Yang¹, Y. Luo¹, and M. Yang². ¹Division of Systems Biology, NCTR/FDA, Jefferson, AR; and ²Office of Science, CTP/FDA, Silver Spring, MD.
- #1159 **Poster Board Number560**
Dietary Supplement Ingredients Alter Beating Parameters of iCell Cardiomyocytes. R. J. Calvert¹, S. Vohra¹, M. Ferguson², and P. Wiesenfeld¹. ¹Division of Toxicology, US Food and Drug Administration, Laurel, MD; and ²Division of Mathematics, US Food and Drug Administration, Laurel, MD.
- #1160 **Poster Board Number561**
Mcl-1 Knockdown Causes a Sub-Lethal Injury in Cultured Human iPSC-Cardiomyocytes. L. Guo¹, J. Mussio¹, M. Furniss¹, J. Hamre¹, S. Eldridge², R. Parchment¹, and M. Davis². ¹Applied/Developmental Research Directorate, Frederick National Laboratory for Cancer Research, Frederick, MD; and ²Division of Cancer Treatment and Diagnosis, National Cancer Institute, Bethesda, MD.
- #1161 **Poster Board Number562**
Elucidating Mechanisms of Cardiovascular Toxicity Using Phenotypic Data from Primary Human Cell Systems. E. Berg, M. A. Polokoff, A. O'Mahony, and X. Li. BioSeek, a division of DiscoverRx, South San Francisco, CA.
- #1162 **Poster Board Number563**
Postrecording Tracking of Cardiac Mixed Populations Allows Selective Assessment of Drug Activity. F. Cerignoli^{1,2}, R. Agustin², R. Ingermanson², P. McDonough², M. Mercola^{1,3}, and J. Price^{2,3}. ¹Jacobs School of Engineering, UC San Diego, La Jolla, CA; ²Vala Sciences Inc., San Diego, CA; and ³Sanford-Burnham Medical Research Institute, La Jolla, CA.

TUESDAY

Program Schedule (Continued)

Abstract

- #1163 **Poster Board Number564**
A Dominant-Negative Sox9b Partially Phenocopies TCDD-Induced Cardiac Toxicity in Larval Zebrafish. J. C. Gawdzik, J. S. Plavicki, K. A. Lanham, M. D. Russell, W. Heideman, and R. E. Peterson. Pharmaceutical Science, University of Wisconsin-Madison, Madison, WI.
- #1164 **Poster Board Number565**
Gefitinib, a Tyrosine Kinase Inhibitor, Induces Cardiotoxicity and Hypertrophy in Rat Cardiomyocyte H9c2 Cells: Role of Oxidative Stress and Apoptosis. H. M. Korashy¹, I. M. Attafi^{2,1}, M. A. Ansari¹, S. A. Ahmad¹, M. A. Assiri¹, M. Almujaheed¹, O. Almuzaini¹, F. A. Aldughaim¹, and F. M. Alotaibi¹. ¹Pharmacology & Toxicology, King Saud University, Riyadh, Saudi Arabia; and ²Poison Control and Medical Forensic Chemistry Center, Jazan Health Affairs, Jazan, Saudi Arabia. Sponsor: A. El-Kadi.
- #1165 **Poster Board Number566**
Analysis of Mitochondrial Function Using Human iPSC-Derived Cardiomyocytes on the Seahorse. B. Bertram^{1,2}, R. Kettenhofen¹, G. Luerman¹, and M. Torvinen². ¹Axiogenesis AG, Cologne, Germany; and ²Seahorse Bioscience, North Billerica, MA. Sponsor: E. Clarke.
- #1166 **Poster Board Number567**
Cholesterol Homeostasis Is Regulated by Carboxylesterase 1 in Macrophage Foam Cells. L. C. Mangum, J. A. Crow, A. Borazjani, and M. K. Ross. Department of Basic Science, Mississippi State University, Mississippi State, MS.
- #1167 **Poster Board Number568**
Nitration of Linoleic Acid Prevents Polychlorinated Biphenyl-Induced Endothelial Cell Dysfunction. M. C. Petriello^{1,2}, A. Morris², and B. Hennig². ¹Graduate Center for Toxicology, University of Kentucky, Lexington, KY; and ²Superfund Research Center, University of Kentucky, Lexington, KY.
- #1168 **Poster Board Number569**
Monomethylarsonous Acid (MMA) Promotes Mitochondrial Pathology in Vascular Smooth Muscle. C. Pace¹, T. Das Banerjee¹, B. Welch², R. Dagda¹, and J. E. Angermann¹. ¹University of Nevada, Reno, Reno, NV; and ²Oregon State University, Corvallis, OR.
- #1169 **Poster Board Number570**
Characterization of the Homocysteine Thiolactonase Activity of Biphenyl Hydrolase-Like Protein/Valacyclovir Hydrolase. J. Marsillach Lopez¹, S. Suzuki¹, R. J. Richter¹, M. McDonald², P. Rademacher², M. J. MacCoss³, E. J. Hsieh³, A. E. Rettie², and C. E. Furlong^{1,3}. ¹Medicine, Division of Medical Genetics, University of Washington, Seattle, WA; ²Medicinal Chemistry, University of Washington, Seattle, WA; and ³Genome Sciences, University of Washington, Seattle, WA.

Abstract

Tuesday Morning, March 24
9:00 AM to 12:30 PM
CC Exhibit Hall

Poster Session: Alternatives to Mammalian Models III

Chairperson(s): Amos O. Abolaji, Biochemistry, University of Ibadan, Ibadan, Nigeria; and James M. McKim, Investigative Toxicology, IONTOX, LLC, Kalamazoo, MI.

Displayed: 9:00 AM–12:30 PM

Author-Attended: 9:00 AM–11:00 AM

- #1170 **Poster Board Number601**
Crude Oil/Dispersion-Induced Spermatogenesis Defects in *Caenorhabditis elegans*: Implications in Reproductive Toxicity. Y. Zhang, and X. Pan. Biology, East Carolina University, Greenville, NC.
- #1171 **Poster Board Number602**
Screening Chemical Effects on Steroidogenesis in H295R Human Adrenocortical Carcinoma Cells. A. Karmaus^{1,2}, D. L. Filer^{1,2}, C. Toole³, K. Lewis⁴, and M. T. Martin¹. ¹US EPA/ORD/NCCT, Research Triangle Park, NC; ²ORISE, Research Triangle Park, NC; ³Cyprotex, Inc., Kalamazoo, MI; and ⁴OpAns, LLC., Durham, NC.
- #1172 **Poster Board Number603**
4-Vinylcyclohexene Diepoxide-Induced Toxicity in *Drosophila melanogaster*: Implications in Occupationally Exposed Women. A. O. Abolaji^{1,2}, T. K. Nascimento³, E. O. Farombi¹, and J. B. Rocha². ¹Biochemistry, University of Ibadan, Ibadan, Nigeria; and ²Biochimica Toxicologica, Universidade Federal de Santa Maria, Santa Maria, Brazil.
- #1173 **Poster Board Number604**
Overlapping and Distinct Effects of Bisphenol A and Its Substitute Bisphenol S on Germ Cells. Y. Chen, P. Allard, and D. Lee. Molecular Toxicology, UCLA, Los Angeles, CA.
- #1174 **Poster Board Number605**
Morphologic Changes in 3D Human Breast Microtissues following Exposure to Endocrine Disruptors. M. M. Vantangoli, S. Madnick, S. Wilson, and K. Boekelheide. Pathology and Laboratory Medicine, Brown University, Providence, RI.
- #1175 **Poster Board Number606**
In Vitro Spermatogenesis Model for Assessing Male Reproductive Toxicity. H. Wei, L. Yin, S. Liang, and X. Yu. Environmental Health Science, University of Georgia, Athens, GA.
- #1176 **Poster Board Number607**
Diet, Thermal Environment, and Early-Life Exposure to Methylmercury: *Daphnia pulex* As a Model Organism for Evaluating Multistressor Interactions across the Lifespan. J. M. Gohlke¹, D. Doke¹, S. L. Hudson¹, J. A. Dawson², and T. S. Schwartz³. ¹Environmental Health Sciences, University of Alabama at Birmingham, Birmingham, AL; ²Biostatistics, University of Alabama at Birmingham, Birmingham, AL; and ³Office of Energetics, University of Alabama at Birmingham, Birmingham, AL.

Program Schedule (Continued)

Abstract #	Abstract #
#1177	Poster Board Number608 Germline Defects in Mitochondrial Cholesterol Transporter <i>C. elegans</i> Mutants following Bisphenol A or Low Cholesterol Exposures. D. W. Ferreira, and P. Allard. Institute for Society and Genetics, University of California, Los Angeles, Los Angeles, CA.
#1178	Poster Board Number609 <i>C. elegans</i>, a Valuable Model for Predicting Chemicals' Acute Toxicity in Rodent. Y. Li, S. Gao, H. Jing, J. Ning, Z. Tan, S. Zheng, C. Zhao, L. Ma, Y. Deng, Y. Lou, Y. Ma, T. Gao, and G. J. Li. Institute for Toxicology, Beijing Centers for Disease Control and Prevention, Beijing Research Center for Preventive Medicine, Beijing, China.
#1179	Poster Board Number610 Correlation of Tox21 and ToxCast <i>In Vitro</i> and Small Model Organism Outcomes to Rat Oral Toxicity. W. W. Polk ¹ , N. Kleinstreuer ¹ , J. Strickland ¹ , M. Paris ¹ , D. G. Allen ¹ , and W. Casey ² . ¹ ILS/NICEATM, Research Triangle Park, NC; and ² NTP/NICEATM, Research Triangle Park, NC.
#1180	Poster Board Number611 Development of a New Reconstituted Human Oral Mucosal Model to Assess the Oral Irritation Testing. S. Lee ¹ , S. Kim ¹ , H. Jung ¹ , S. Yang ² , K. Kim ² , and K. Lim ³ . ¹ MCTT Bio, Seoul, Republic of Korea; ² Yonsei University College of Dentistry, Seoul, Republic of Korea; and ³ Ewha Womans University, Seoul, Republic of Korea.
#1181	Poster Board Number612 Optimization of the Estimation for Oral Mucosa Toxicity Using New 3-D Reconstructed Human Oral Tissue Model. S. Cho. Skin Research Division, AMOREPACIFIC Corporation R&D Center, Yongin-si, Republic of Korea.
#1182	Poster Board Number613 Endocannabinoid Receptor Expressions in Japanese Medaka (<i>Oryzias latipes</i>) Is Organ-Specific. S. K. Singha ² , I. A. Khan ^{1,3} , and A. K. Dasmahapatra ^{1,2} . ¹ National Center for Natural Product Research, University of Mississippi, University, MS; ² Department of Biomolecular Sciences, Division of Pharmacology, University of Mississippi, University, MS; and ³ Department of Biomolecular Sciences, Division of Pharmacognosy, University of Mississippi, University, MS.
#1183	Poster Board Number614 Cytotoxicity, ROS Production, and DNA Damage of ZEA and Its Metabolites vs. Antioxidant Enzyme System of Ovarian and Hepatoma Cells. E. Tatay, G. Font, and M. Ruiz. Toxicology, University of Valencia, Burjassot, Spain.
#1184	Poster Board Number615 Agrochemical Formulations: How to Avoid <i>In Vivo</i> Acute Toxicity Testing Using the GHS Additivity Formula. M. Corvaro, K. Andrew, R. Chatfield, and J. Mehta. European Development Centre, Dow Agrosciences, Milton, United Kingdom. Sponsor: D. Juberg.
#1185	Poster Board Number616 Cytotoxicity Profiling of Chemicals Based on Cellular Growth Kinetics and Mean Graph Method. S. Gabos ^{1,2} , F. Ackah ² , W. Zhang ² , D. Y. Huang ³ , D. W. Kinniburgh ^{3,1} , C. Jin ⁴ , D. Santa Anna ⁴ , Y. A. Abassi ⁴ , and X. Xu ¹ . ¹ University of Alberta, Edmonton, AB, Canada; ² Alberta Health, Edmonton, AB, Canada; ³ Alberta Center for Toxicology, Calgary, AB, Canada; and ⁴ ACEA Biosciences Inc., San Diego, CA.
#1186	Poster Board Number617 Guarana (<i>Paullinia cupana</i> Mart) Extends Lifespan of <i>Caenorhabditis elegans</i>. L. P. Arantes ^{1,2} , M. L. Machado ² , D. C. Zamberlan ² , F. A. Soares ² , and M. Aschner ¹ . ¹ Molecular Pharmacology, Albert Einstein College of Medicine, Bronx, NY; and ² Chemistry, Federal University of Santa Maria, Santa Maria, Brazil.
#1187	Poster Board Number618 Protein and Plastic Binding: Impact on Cytotoxicity of Cationic Surfactants <i>In Vitro</i>. F. Groothuis ¹ , B. J. Blaauboer ¹ , S. Droge ¹ , B. Nicol ² , E. Opsahl ¹ , N. Timmer ¹ , and N. Kramer ¹ . ¹ Institute for Risk Assessment Sciences, Utrecht University, Utrecht, Netherlands; and ² Safety and Environmental Assurance Centre (SEAC), Unilever, Sharnbrook, United Kingdom.
#1188	Poster Board Number619 Assignment of Chemicals to Mode-of-Action Categories (MoA) Using <i>In Vitro</i> Cellular Time-Response Curves. D. Huang ¹ , Z. Xi ² , S. Khare ² , T. Pan ^{2,3} , F. Ibrahim ² , B. Huang ² , S. Gabos ^{1,4} , W. Zhang ⁵ , D. W. Kinniburgh ^{1,4} , C. Jin ⁶ , D. Santa Ana ⁶ , Y. A. Abassi ⁶ , and X. Xu ⁶ . ¹ Alberta Centre for Toxicology, University of Calgary, Calgary, AB, Canada; ² Chemical and Materials Engineering, University of Alberta, Edmonton, AB, Canada; ³ School of Electrical and Information Engineering, Jiangsu University, Zhenjiang, China; ⁴ Laboratory Medicine and Pathology, University of Alberta, Edmonton, AB, Canada; ⁵ Alberta Health, Edmonton, AB, Canada; and ⁶ ACEA Biosciences Inc, San Diego, CA.
#1189	Poster Board Number620 Development and Validation of a Standardized <i>In Vitro</i> Cytotoxicity Assay. A. L. Niles, K. R. Kupcho, M. Bratzh, J. Linderman, and J. Watson. Promega, Madison, WI.
#1190	Poster Board Number621 Synergism of Fumonisin and Aflatoxin Toxicity and the Underlying Mechanism in Nematode <i>Caenorhabditis elegans</i>. K. S. Xue, L. Tang, and J. Wang. University of Georgia, Athens, GA.
#1191	Poster Board Number622 Evaluation of an Integrated Human Multi-Organ Culture Plate for Predicting Systemic Toxicity <i>In Vitro</i>. J. Ipema ¹ , E. LeCluyse ² , H. J. Clewell ² , M. E. Andersen ² , and J. M. McKim ¹ . ¹ IONTOX, LLC, Kalamazoo, MI; and ² The Hamner Institutes, Research Triangle Park, NC.
#1192	Poster Board Number623 Roadmap for Animal-Free Acute Toxicity Assessments of Crop Protection Formulations. S. C. Gehen ¹ , R. S. Settivari ² , R. Acosta Amado ¹ , M. Corvaro ¹ , J. Mehta ¹ , R. J. Rasoulpour ¹ , and E. W. Carney ² . ¹ Dow AgroSciences LLC, Indianapolis, IN; and ² The Dow Chemical Company, Midland, MI.

TUESDAY

Program Schedule (Continued)

Abstract

- #1193 **Poster Board Number 624**
Organelle Imaging Toxicology: Novel Analysis of the Sandwich High-Content Screening Project. W. A. Irwin, and J. Liccione. HED, US EPA, Arlington, VA.
- #1194 **Poster Board Number 625**
Use of Semi-Permeable Membrane for Preliminary Evaluation of Transport of Native and an Enhanced Formulation of Butyrylcholinesterase. J. Hinckley¹, M. Ehrich¹, and Z. Zhou². ¹Virginia-Maryland College of Veterinary Medicine, Virginia Tech, Blacksburg, VA; and ²Luna NanoWorks, Danville, VA.
- #1195 **Poster Board Number 626**
Butafenacil: A Positive Control for Identifying Anemia- and Porphyria-Inducing Chemicals. J. K. Leet, R. Hipszer, and D. Volz. University of South Carolina, Columbia, SC.
- #1196 **Poster Board Number 627**
Microfluidic Culture of NRK52E Enhances Sensitivity to Proximal Tubule Toxicants. H. Jayakar¹, B. Pandian², K. Pant², B. Jessen¹, and G. Yanochko¹. ¹Drug Safety Research & Development, Pfizer, San Diego, CA; and ²CFD Research Corp, Huntsville, AL.
- #1197 **Poster Board Number 628**
Assessment of an *In Vitro* Human Intestinal Epithelial Cell Model for Evaluation of Protein Cytotoxicity. C. S. Zimmermann¹, B. Hurley^{2,3}, W. Pirzai², B. Delaney², M. S. Harper³, G. Ladics⁵, and J. M. Roper⁶. ¹Biotech Affairs and Regulatory, DuPont Pioneer, Ankeny, IA; ²Mucosal Immunology Laboratory, Massachusetts General Hospital, Charlestown, MA; ³Department of Pediatrics, Harvard Medical School, Boston, MA; ⁴Biotech Affairs and Regulatory, DuPont Pioneer, Johnston, IA; ⁵Biotech Affairs and Regulatory, DuPont Pioneer, Wilmington, DE; and ⁶Haskell Global Centers for Health and Environmental Sciences, DuPont, Newark, DE.
- #1198 **Poster Board Number 629**
***In Vitro* Model Development for Safety Assessment of Acutely Ingested Proteins.** L. K. Markell^{1,2,3}, S. M. Waters¹, J. Yao¹, J. Roper³, C. S. Zimmermann², B. Delaney³, and X. Han¹. ¹DuPont Haskell Global Centers for Health and Environmental Sciences, Newark, DE; ²DuPont Pioneer, Ankeny, IA; and ³DuPont Pioneer, Johnston, IA.
- #1199 **Poster Board Number 630**
Establishment of an Intestinal Model for Oral Vaccination Testing. C. Lotz¹, M. Schweinlin¹, H. Walles^{1,2}, and M. Metzger^{1,2}. ¹Tissue Engineering and Regenerative Medicine, University Hospital Würzburg, Würzburg, Germany; and ²Fraunhofer Project Group Oncology, Fraunhofer IGB, Würzburg, Germany. Sponsor: B. De Wever.
- #1200 **Poster Board Number 631**
3D *In Vitro* Human Small Intestinal Tissue Models to Assess Drug Toxicity and Permeation. S. Ayeahunie¹, Z. Stevens¹, T. Landry¹, M. Taimi², A. Armento¹, M. Klausner¹, and P. J. Hayden¹. ¹R&D, MatTek, Ashland, MA; and ²MatTek Corporation, Ashland, MA.

Abstract

- #1201 **Poster Board Number 632**
Standardized Rat and Human Microislets for Diabetes Research and Drug Safety Assessment. S. Messner¹, R. Prazak¹, J. M. Kelm¹, R. Zuellig², R. Lehmann², and W. Moritz¹. ¹InSphero AG, Schlieren, Switzerland; and ²Division of Endocrinology, University Hospital, Zurich, Switzerland.

Tuesday Morning, March 24
 9:00 AM to 12:30 PM
 CC Exhibit Hall

Poster Session: Biomarkers

Chairperson(s): Joshua Chandler, Emory University School of Medicine, Atlanta, GA.

Displayed: 9:00 AM–12:30 PM

Author-Attended: 11:00 AM–12:30 PM

- #1202 **Poster Board Number 633**
A Novel Biomarker Panel to Identify Hepatocellular Carcinoma in Chronic Hepatitis C-Infected (HCV) Patients. G. M. Mustafa¹, J. R. Petersen², H. Spratt³, L. Denner⁴, and C. Elferink¹. ¹Pharmacology, University of Texas Medical Branch, Galveston, TX; ²Pathology, University of Texas Medical Branch, Galveston, TX; ³PMCH-Admin, University of Texas Medical Branch, Galveston, TX; and ⁴Internal Medicine, University of Texas Medical Branch, Galveston, TX.
- #1203 **Poster Board Number 634**
Assessment of Individual Bile Acid Profiles after Single Oral Dose of Itraconazole in Rats and Dogs. A. Lynn, S. Chowdury, S. Yu, M. Gallacher, M. Johnson, R. Peters, C. D. Fisher, and P. Kirby. Takeda Pharmaceuticals, Cambridge, MA.
- #1204 **Poster Board Number 635**
Biomarkers of Immune-Mediated Concanavalin A Hepatotoxicity. M. De Vera Mudry, and F. Christen. Pharma Research and Early Development, F. Hoffmann-La Roche Ltd., Basel, Switzerland. Sponsor: T. Weiser.
- #1205 **Poster Board Number 636**
Profiling Individual Bile Acids in Human Populations Using a UPLC/MS/MS Method. L. Luo¹, J. Kenny², R. Warner³, K. Johnson³, and J. L. Colangelo¹. ¹Drug Safety R&D, Pfizer Inc, Groton, CT; ²Pre-Veterinary Medicine, University of Prince Edward Island, Charlottetown, PE, Canada; and ³Medical School, University of Michigan, Ann Arbor, MI.
- #1206 **Poster Board Number 637**
Plasma HMGB1 As a Biomarker for Severe Hepatotoxicity after Exposure to Toxic Industrial Chemicals. B. C. Donald¹, J. D. Stallings², and D. L. Ippolito². ¹ORISE, Fort Detrick, MD; and ²US Army Center for Environmental Health Research, Fort Detrick, MD. Sponsor: D. Jackson.
- #1207 **Poster Board Number 638**
Proteomic Biomarker Identification of Preclinical Liver Injury in Rats. L. Yu¹, Y. Gao¹, Z. Cao¹, X. Yang¹, J. Sun¹, S. Chen¹, R. D. Beger¹, K. J. Davis², W. F. Salminen³, and D. L. Mendrick¹. ¹National Center for Toxicological Research, FDA, Jefferson, AR; ²Toxicologic Pathology Associates, Inc., Jefferson, AR; and ³PAREXEL, Sarasota, FL.

- PS** Poster Sessions
RI Regional Interest Session
R Roundtable Sessions

- S** Symposium Sessions
T Thematic Sessions
W Workshop Sessions

Program Schedule (Continued)

Abstract #	Abstract #
#1208	Poster Board Number 639 Acetaminophen Metabolites and Protein Adducts in Human Plasma after Overdose and Relation to the Time of Clinical Presentation. Y. Xie ¹ , M. R. McGill ¹ , S. F. Cook ² , M. R. Sharpe ³ , D. G. Wilkins ² , D. E. Rollins ² , and H. Jaeschke ¹ . ¹ Pharmacology, Toxicology & Therapeutics, University of Kansas Medical Center, Kansas City, KS; ² Pharmacology and Toxicology, University of Utah, Salt Lake City, UT; and ³ Internal Medicine, University of Kansas Medical Center, Kansas City, KS.
#1209	Poster Board Number 640 Assessment of Urinary AFM₁ in a Population at High Risk for Liver Disease. S. Elmore ¹ , P. Jolly ² , C. Jolly ³ , A. A. Romoser ¹ , and T. D. Phillips ¹ . ¹ Veterinary Integrative Biosciences, Texas A&M University, College Station, TX; ² Epidemiology, University of Alabama at Birmingham, Birmingham, AL; and ³ Agricultural Economics and Rural Sociology, Auburn University, Auburn, AL.
#1210	Poster Board Number 641 PSTC and SAFE-T Collaboration: Evaluation of Normal Reference Ranges for 12 Novel Liver Safety Biomarkers in Healthy Volunteers. P. Kirby ¹ , S. J. Schomaker ² , N. King ² , J. Sauer ² , M. Cisneroz ² , F. Gao ¹ , J. Marcinak ¹ , D. Robinson-Gravatt ³ , G. Kullak-Ublick ⁴ , T. Joos ⁵ , T. Knorpp ⁵ , and J. Goepfert ⁵ . ¹ Takeda, Cambridge, MA; ² C-Path, Tucson, AZ; ³ Pfizer, Groton, CT; ⁴ Novartis, Basel, Switzerland; and ⁵ Natural and Medical Sciences Institute, Reutlingen, Germany.
#1211	Poster Board Number 642 In Vitro Study of Potential Nephrotoxicity Biomarkers through Gene Expression. S. C. Silva ¹ , S. Soares ¹ , M. F. Grossi ¹ , L. A. Almeida ² , A. M. Valente ³ , and C. A. Tagliati ¹ . ¹ Universidade Federal de Minas Gerais, Belo Horizonte, Brazil; ² Universidade Federal de Alfenas, Alfenas, Brazil; and ³ Universidade Federal de Juiz de Fora, Juiz de Fora, Brazil. Sponsor: S. Barros.
#1212	Poster Board Number 643 TCDD Alters Keratin Expression in the Urogenital Sinus during Initiation of Prostatic Budding in Mice. A. J. Schneider, T. Lin, and R. E. Peterson. School of Pharmacy, University of Wisconsin - Madison, Madison, WI.
#1213	Poster Board Number 644 Fit-for-Purpose Validation of Urinary C5b-9 As a Glomerular Injury Biomarker in Rats. M. Ko, E. E. Nagiec, D. Burt, S. Berasi, H. Lin, J. Syed, A. Vitsky, and B. L. Homer. Drug Safety, Research & Development, Pfizer, San Diego, CA.
#1214	Poster Board Number 645 Assessment of Biomarkers for the Detection of Renal Toxicity following Intravenous Tobramycin Administration in Male and Female Cynomolgus Macaques. H. Stock, N. Chini, Y. Li, and J. C. Mirsalis. Bioscience, SRI International, Menlo Park, CA.
#1215	Poster Board Number 646 Urinary Biomarkers for Drug-Induced Renal Toxicities in Cynomolgus Monkeys. H. Uchino, J. Fujishima, K. Fukuoka, T. Iwakiri, H. Maeda, A. Kamikuri, K. Yunomae, F. Chatani, H. Sameshima, and R. Nagata. Shin Nippon Biomedical Laboratories (SNBL), Ltd., Kagoshima, Japan.
#1216	Poster Board Number 647 Performance of Urinary Kidney Translational Safety Biomarkers in Tenofovir-Treated Cynomolgus Monkeys and Beagle Dogs. Y. Gu ¹ , K. Vlasakova ² , W. E. Glaab ² , S. P. Troth ² , R. L. Peiffer ² , H. Tournade ³ , F. R. Pasello dos Santos ³ , and F. D. Sistare ² . ¹ Safety Assessment, Merck, Kenilworth, NJ; ² Safety Assessment, Merck, West Point, PA; and ³ Safety Assessment, Merck, Riom, France.
#1217	Poster Board Number 648 Comparison of Urinary Liver-Type Fatty Acid-Binding Protein (L-FABP) and Other Urinary Nephrotoxicity Biomarkers in Gentamicin-Induced Nephrotoxicity in SD Rats. T. Kadota ¹ , Y. Suzuki ¹ , H. Komatsu ¹ , and T. Sugaya ² . ¹ CMIC Bioresearch Center Co., Ltd., Yamanashi, Japan; and ² CMIC Holdings Co., Ltd., Tokyo, Japan.
#1218	Poster Board Number 649 Developing a Translatable Molecular Signature for Drug-Induced Kidney Injury. S. Dremier, P. De Ron, C. Berteau, S. Snelling, B. Massant, G. Toussaint, K. Tilmant, J. Valentin, and A. Nogueira da Costa. UCB BioPharma SPRL, Braine l'Alleud, Belgium.
#1219	Poster Board Number 650 Urinary KIM-1 Detection of Subclinical Nephrotoxicity in Oncology Patients Treated with Cisplatin. B. George ^{1,2} , X. Wen ³ , L. Ellison ³ , M. S. Joy ³ , and L. M. Aleksunes ² . ¹ Joint Graduate Program in Toxicology, Rutgers University, Piscataway, NJ; ² Department of Pharmacology & Toxicology, Rutgers University, Piscataway, NJ; and ³ Department of Pharmaceutical Sciences, University of Colorado, Aurora, CO.
#1220	Poster Board Number 651 Technical Best Practices for Urinary Biomarker Evaluation. Y. Yang ¹ , B. Riefke ² , L. T. Rosini-Marthaler ³ , R. Khan-Malek ⁴ , E. Harpur ⁵ , and R. O'Lone ⁶ . ¹ R45M, AbbVie Inc., North Chicago, IL; ² Bayer HealthCare, Berlin, Germany; ³ Bristol-Myers Squibb, Princeton, NJ; ⁴ Sanofi, Paris, France; ⁵ Newcastle University, Newcastle upon Tyne, United Kingdom; and ⁶ ILSI Health and Environmental Sciences Institute (HESI), Washington, DC.
#1221	Poster Board Number 652 The Human FRY Gene Is a Novel Biomarker for Breast Cancer Progression and Prognosis. N. Takizawa ^{1,2} , J. C. Graham ³ , M. Fang ^{3,4} , Z. Gong ⁵ , B. Estrella ² , X. Ren ⁶ , and H. Zarbl ^{1,2,4} . ¹ GeneAssess, Inc., North Brunswick, NJ; ² Toxicology, EOHHSI-Rutgers, Piscataway, NJ; ³ Environmental and Occupational Medicine, RWJMS-Rutgers, Piscataway, NJ; ⁴ NIHES CEED, Piscataway, NJ; ⁵ Cancer Prevention and Control, Roswell Park Cancer Institute, Buffalo, NY; and ⁶ Social and Preventive Medicine, University of New York, Buffalo, NY.
#1222	Poster Board Number 653 Identification and Quantification of MTH1 in Human Tissues As a Cancer Biomarker. E. Coskun ^{1,2} , A. Jemth ³ , O. Loseva ³ , P. Jaruga ¹ , L. D. Scanlan ¹ , T. Helleday ³ , and M. Dizdaroglu ¹ . ¹ Biomolecular Measurement Division, National Institute of Standards and Technology, Gaithersburg, MD; ² Department of Toxicology, Gazi University, Ankara, Turkey; and ³ Department of Medical Biochemistry and Biophysics, Karolinska Institutet, Stockholm, Sweden.

TUESDAY

Program Schedule (Continued)

Abstract #	Abstract #
<p>#1223 Poster Board Number 654 Quantification of Biomarkers of Cardiac Toxicity across Four Animal Species. M. Lindeblad, R. Tiniakov, A. V. Lyubimov, A. Banerjee, and Y. Chen. Toxicology Research Laboratory, University of Illinois, Chicago, IL.</p> <p>#1224 Poster Board Number 655 Biomarkers of Pathologic Cardiac Hypertrophy: Investigation of NTproANP and NTproBNP in Rats. S. K. Engle¹, M. E. Dunn², T. G. Manfredi³, K. Agostinucci³, J. Powe⁴, N. King⁵, L. A. Rodriguez⁶, K. E. Gropp⁷, M. Gallacher⁸, F. J. Vetter³, and H. M. Colton⁶. ¹Toxicology, Eli Lilly and Company, Indianapolis, IN; ²Cardiovascular Research, Regeneron Pharmaceuticals, Tarrytown, NY; ³University of Rhode Island, Kingston, RI; ⁴Millennium: The Takeda Oncology Company, Cambridge, MA; ⁵Predictive Safety Testing Consortium, Critical Path Institute, Tucson, AZ; ⁶GlaxoSmithKline, Research Triangle Park, NC; and ⁷Pfizer, Groton, CT.</p> <p>#1225 Poster Board Number 656 Evaluation of Calcineurin Activity As a Biomarker of the State of Immunosuppression in Heart Transplantation. S. Sanquer^{1,2}, S. Varnous², C. Lena¹, E. Vermes², L. Herry¹, R. Niarra², R. Guillemin², R. Barouki^{1,2}, and C. Amrein². ¹INSERM UMR-S 1124, Paris Descartes University, Paris, France; and ²AP-HP, Paris, France.</p> <p>#1226 Poster Board Number 657 Clinical Protein Array Screening to Discover Preclinical Biomarkers of Drug-Induced Vascular Injury. R. J. Gonzalez¹, K. Vlasakova¹, R. Warner², K. Johnson², F. D. Sistare¹, and W. E. Glaab¹. ¹Merck & Co., West Point, PA; and ²Department of Pathology, University of Michigan, Ann Arbor, MI.</p> <p>#1227 Poster Board Number 658 Shotgun Proteomics of Human Sputum and Plasma Identifies Biomarkers of Acute Exposures to Diesel and Biodiesel Emissions. A. Mehus, S. Littau, E. Lutz, and J. Burgess. College of Public Health, University of Arizona, Tucson, AZ.</p> <p>#1228 Poster Board Number 659 Comparative Analyses of Methods Used to Prepare Diisocyanate Conjugates; Implications in Clinical Assay Development. L. M. Wagner¹, T. A. Bledsoe¹, B. F. Law¹, M. L. Kashon², A. R. Lemons¹, J. M. Hettick¹, A. V. Wisniewski³, and P. D. M. S. Perpetua¹, G. Bannish², M. Castellana¹, L. A. Coney^{3,2}, S. Chilakala¹, Y. Xiao¹, and J. Dougherty¹. ¹Biomarkers, Bioanalysis and Clinical Sciences, Huntingdon Life Sciences, East Millstone, NJ; ²Biologics, Huntingdon Life Sciences, East Millstone, NJ; and ³Biologics, Huntingdon Life Sciences, Huntingdon, United Kingdom.</p>	<p>#1230 Poster Board Number 661 Impairment of Skin Function—Defining Biomarkers from Gene Expression Datasets. D. Mitic Potkrajac¹, V. Veljovic¹, G. Apic¹, and R. B. Russell². ¹Cambridge Cell Networks Ltd, Cambridge, United Kingdom; and ²Cell Networks, University of Heidelberg, Heidelberg, Germany.</p> <p>#1231 Poster Board Number 662 Arsenic (+3) Methyltransferase (AS3MT) and Glutathione S-Transferase Omega (GSTO1) Genetic Variants Associated with Arsenic Susceptibility: Influences on As Metabolism and Skin Lesions. E. Kadioglu¹, N. Hisarli², E. Asik³, G. Cakmak Demircigil¹, U. Alshana⁴, N. Ertas⁴, C. R. Celebi⁵, E. Atabey⁶, O. Ataman⁷, H. Serce⁸, N. Bilir⁹, A. Tuncer¹⁰, and S. Burgaz¹. ¹Toxicology, Gazi University, Ankara, Turkey; ²Biochemistry, Middle East Technical University, Ankara, Turkey; ³Biotechnology, Middle East Technical University, Ankara, Turkey; ⁴Analytic Chemistry, Gazi University, Ankara, Turkey; ⁵Akropol, Medical Centre, Ankara, Turkey; ⁶General Directorate of Mineral Research and Exploration, Ankara, Turkey; ⁷Chemistry, Middle East Technical University, Ankara, Turkey; ⁸Turkish Ministry of Health, Urgup Hospital, Nevsehir, Turkey; ⁹Public Health, Hacettepe University, Ankara, Turkey; and ¹⁰Cancer Control, Turkish Ministry of Health, Ankara, Turkey.</p> <p>#1232 Poster Board Number 663 Cytokines and Chemokines As Biomarkers of Intestinal Toxicity, Damage, and Repair. A. V. Lyubimov, Y. Chen, K. K. Kabirov, and A. Banerjee. TRL/UIC, Chicago, IL.</p> <p>#1233 Poster Board Number 664 ELISA for Bioactive Cholecystokinin—A Novel Biomarker for Enteroendocrine Cell Disruption. S. Nguyen, H. Zhou, and J. J. Pestka. Food Science, Michigan State University, East Lansing, MI.</p>

Program Schedule (Continued)

Tuesday Morning, March 24
9:30 AM to 4:30 PM
CC Room 11A

Research Funding Information Room

Hosted by:
Career Resource and Development Committee

SOT places a strong emphasis on the development of opportunities for research support and funding. As a service to its members and new investigators, SOT offers the Research Funding Information Room so that members and attendees may network and learn more about the various opportunities available to them. Program and review agency staff from federal agencies that fund research, including NIH, US FDA, NIEHS, CDC, and US EPA will be available in the Research Funding Information Room (Room 11A) for individual conversations. Attendees may check the posted schedule for specific times staff members will be available during the week to answer questions about the scientific review process and various grant opportunities. The schedule will be available in the Registration area and the Research Funding Information Room.

Tuesday Morning, March 24,
10:00 AM to 11:00 AM
CC Room 24B

Exhibitor-Hosted Session: Application of Color Calibration in Photomicrography for Toxicologic Pathology

Presented by:
Datacolor Inc.

In toxicologic pathology, it is critical that color in photomicrographs accurately represent those seen in the specimen. Consistency between images and image color rendering on computer monitors is essential for viewing and evaluating images. Several case studies will illustrate the importance of color calibration to assessments by toxicologic pathology.

Tuesday Morning, March 24,
10:00 AM to 11:00 AM
CC Room 24C

Exhibitor-Hosted Session: *In Vitro* Hepatotoxicity Evaluation with Cryopreserved Human, Animal, and Transgenic Animal Hepatocytes

Presented by:
In Vitro ADMET Laboratories, LLC

Application of plateable cryopreserved single donor and pooled human hepatocytes, hepatocytes from multiple preclinical animal species, and transgenic knock-out and humanized mouse hepatocytes in hepatotoxicity evaluation will be discussed, with emphasis on early hepatotoxicity screening in drug development and the elucidation of species difference, individual difference, and toxicological pathways.

Tuesday Morning, March 24,
10:00 AM to 11:00 AM
CC Room 22

Exhibitor-Hosted Session: Less Compound, Less Cost—How to Succeed in Early-Phase Inhalation Programs

Presented by:
Huntingdon Life Sciences/Harlan Laboratories

As the cost of drug development increases, companies have prioritized early readout of efficacy and toxicity to limit the cost of late-stage failure. This session will discuss and demonstrate approaches to test article conservation that can significantly reduce test article consumption while still providing high-quality data.

Tuesday Morning, March 24,
10:00 AM to 11:00 AM
CC Room 24A

Exhibitor-Hosted Session: Overcoming Challenges during Preclinical Sample Collection to Minimize the Impact on Toxicological Data

Presented by:
Algorithme Pharma

When conducting preclinical studies, maintaining sample integrity following collection is critical. Due to the complexity of pharmaceutical compounds, challenges that can impact data reliability may occur during and following sample collection. Potential issues include whole blood stability, anticoagulants, acid and preservatives, hemolyzed plasma, and co-administered medications.

Tuesday Morning and Afternoon, March 24
10:30 AM to 12:30 PM
CC Exhibit Hall (Across from SOT Pavilion, Booth 526)

High School Poster Exposition

Chairperson(s): Marie Meagher Bourgeois, University of Southern Florida, Tampa, FL.

Endorser(s):
Education Committee
K-12 Subcommittee

High school student research related to toxicology is featured in an area across from the SOT Pavilion. This display recognizes student effort and provides the high school students who have engaged in research with scientific meeting experience. Meeting attendees are invited to drop by to visit with these outstanding potential future toxicologists. More information is available on the SOT Annual Meeting website.

Tuesday Morning, March 24,
11:30 AM to 12:30 PM
CC Room 24C

Exhibitor-Hosted Session: Fully Automated and Easy-to-Use Solution for Your Cytochrome p450 Gene Expression Testing

Presented by:
HTG Molecular Diagnostics

Drug-metabolizing enzymes and transporter induction can result in clinically meaningful drug interactions. Measuring gene expression has traditionally relied upon RNA extraction from treated hepatocytes followed by RT-qPCR. An alternative, potentially more efficient method for measuring gene induction is the multiplex HTG Edge quantitative nuclease protection assay (HTG Edge chemistry).

TUESDAY

Follow @SOToxicology and @ToxExpo on Twitter
Tweet using #2015SOT and #toxexpo

Program Schedule (Continued)

Tuesday Morning, March 24,
11:30 AM to 12:30 PM
CC Room 24B

Exhibitor-Hosted Session: Making Cardiotoxicity Prediction Simple and Relevant: Human Ipsc-Cardiomyocytes and Integrated Impedance and Field Potential-Based Assays Enable Highly Predictive Cardiotoxicity Assessments across Multiple Mechanisms

Presented by:

Cellular Dynamics International and ACEA Biosciences

Cardiotoxicity manifests through several distinct mechanisms. This workshop will present (1) novel and peer-reviewed data using human cardiomyocytes with impedance and electrophysiological testing that validates a simplified and highly predictive workflow for electrical, biochemical, and contractile-based cardiotoxicity detection and (2) integration with the US FDA's Comprehensive *in vitro* Proarrhythmia Assay (CIPA).

Tuesday Morning, March 24,
11:30 AM to 12:30 PM
CC Room 24A

Exhibitor-Hosted Session: Models of Chemical, Biological, Radiological, Nuclear, and Explosive (CBRNE) Threats: Considerations for Drug Development under the Animal Rule

Presented by:

Lovelace Respiratory Research Institute

CBRNE requires the integration of multidisciplinary teams to do strategic studies for developing new drugs to protect the public and soldier. The animal models are complex and heavily integrated with pharmacology and toxicokinetics to enable translation.

Tuesday Morning, March 24,
11:30 AM to 12:30 PM
CC Room 22

Exhibitor-Hosted Session: Structural and Functional Endpoints in Repeat-Dose Toxicity Cardiovascular Risk Assessments and the Use of *In Vivo* Physiological Monitoring

Presented by:

Data Sciences International

Cardiovascular liabilities are an important source of drug development attrition. Risk assessment requires thorough understanding of the pathogenesis, structural, and functional changes. This presentation discusses the rationale for including structural and functional endpoints in repeat-dose toxicity studies and the efficacy of gathering these endpoints via implantable versus jacketed external telemetry.

TUESDAY AFTERNOON

Tuesday Afternoon, March 24
12:00 Noon to 1:30 PM
CC Room 3

American Association of Chinese in Toxicology Special Interest Group Career Workshop 2: Opportunities for Toxicologists in China

Tuesday Afternoon, March 24
12:00 Noon to 2:00 PM
Marriott Marquis La Costa

Association of Scientists of Indian Origin Special Interest Group Lunch and Learn

Tuesday Afternoon, March 24
12:00 Noon to 1:30 PM

Networking Time

You are encouraged to connect and engage with your colleagues today between sessions as only networking events and Exhibit Hall activities are scheduled during this time.

Tuesday Evening, March 24
12:00 Noon to 2:00 PM
CC Room 4

Northeast Regional Chapter Student Luncheon

Tuesday Afternoon, March 24
12:00 Noon to 1:15 PM
CC Ballroom 5
(Ticket Required)

Postdoctoral Assembly Luncheon

Chairperson(s): Colleen E. McLoughlin, National Institute for Occupational Safety and Health, Morgantown, WV.

Hosted by:

Postdoctoral Assembly

To encourage increased participation and networking among post-doctoral scholars, this year the Postdoctoral Assembly (PDA) Board has planned the PDA Luncheon to be more casual than a seated lunch. Finishing up a discussion from your morning poster session? Leaving early to set up a poster or attend another meeting? That's no problem; come stop in when you can! You can enjoy a buffet lunch and move around the room to mingle with others, including PDA officers, Postdoctoral Representatives, and SOT Councilors. This is the time for postdocs to relax, celebrate achievements, and have fun. At 12:30 pm there will be a short program, including recognition of the Best Postdoctoral Publication Award recipients and postdocs who receive awards from SOT Regional Chapters, Special Interest Groups, and Specialty Sections. PDA officers for 2015–2016 will share their vision for the future. Door prizes are always a big hit and add to the fun of the event. Postdocs should reserve a ticket for \$10 when they register for the Annual Meeting.

Program Schedule (Continued)

Abstract #

Tuesday Afternoon, March 24
12:00 Noon to 2:00 PM
CC Room 2
Regulatory and Safety Evaluation Specialty Section Brown Bag Luncheon: Global Regulatory Toxicology: First Stop EU

Tuesday Afternoon, March 24
12:00 Noon to 1:30 PM
CC Room 28A
Risk Assessment Specialty Section Mentoring Luncheon

Tuesday Afternoon, March 24
12:00 Noon to 1:30 PM
CC
See room listing below.
Specialty Section Meeting/Luncheons: Cardiovascular Toxicology (29A); Occupational and Public Health (25A)

Tuesday Afternoon, March 24
1:00 PM to 4:30 PM
CC Exhibit Hall

Poster Session: Nanotoxicology, Carbon-Based Nanomaterials
Chairperson(s): David Warheit, DuPont Haskell Laboratories, Newark, DE.
Displayed: 1:00 PM–4:30 PM
Author-Attended: 1:00 PM–2:45 PM

- #1234 **Poster Board Number 101 Allergen-Inducible Th2 Cytokines Inhibit Inflammation Activation by Carbon Nanotubes via Suppression of Caspase-1 in Macrophages *In Vitro* and in the Lungs of Mice *In Vivo*.** K. A. Shipkowski¹, A. Taylor¹, E. Thompson¹, E. Glista-Baker¹, B. C. Sayers¹, R. N. Bauer², I. Jaspers², and J. C. Bonner¹. ¹Biological Sciences, North Carolina State University, Raleigh, NC; and ²University of North Carolina, Chapel Hill, NC.
- #1235 **Poster Board Number 102 Pulmonary Expression and Activation of p53 Tumor Suppressor by Multiwalled Carbon Nanotubes in Mice *In Vivo* and in Lung Fibroblasts *In Vitro* Is Regulated by STAT1.** K. Duke, E. Thompson, K. A. Shipkowski, M. Ihrle, A. Taylor, and J. C. Bonner. Department of Biological Sciences, North Carolina State University, Raleigh, NC.
- #1236 **Poster Board Number 103 Carbon Nanotubes Functionalized by Atomic Layer Deposition Coating with Metal Oxides Alter Proinflammatory and Pro-Fibrogenic Cytokine Production in a Macrophage-Mesothelial Cell Coculture System *In Vitro*.** A. Taylor¹, K. Duke¹, M. Ihrle¹, E. C. Dandley², C. McClure², G. Parsons², and J. C. Bonner¹. ¹Department of Biological Sciences, North Carolina State University, Raleigh, NC; and ²Department of Chemical and Biomolecular Engineering, North Carolina State University, Raleigh, NC.

Abstract #

- #1237 **Poster Board Number 104 Zinc Oxide Functionalization of Carbon Nanotubes by Atomic Layer Deposition Modifies the Fibrogenic Response of Human Lung Fibroblasts *In Vitro*.** E. C. Dandley², A. Taylor¹, G. Parsons², and J. C. Bonner^{1,2}. ¹Department of Biological Sciences, North Carolina State University, Raleigh, NC; and ²Department of Chemical and Biomolecular Engineering, North Carolina State University, Raleigh, NC.
- #1238 **Poster Board Number 105 Long-Term Effects of Single-Wall Carbon Nanotubes following Intratracheal Instillation in Rat Lung Tissue.** K. Fujita^{1,2}, M. Fukuda², H. Fukui¹, M. Horie^{1,2}, S. Endoh², K. Uchida¹, M. Shichiri¹, Y. Morimoto³, A. Ogami³, and H. Iwahashi⁴. ¹National Institute of Advanced Industrial Science and Technology (AIST), Tsukuba, Japan; ²Technology Research Association for Single Wall Carbon Nanotubes, Tsukuba, Japan; ³University of Occupational and Environmental Health, Kitakyushu, Japan; and ⁴Gifu University, Gifu, Japan.
- #1239 **Poster Board Number 106 Pulmonary Inflammatory Effects Observed in a 90-Day Inhalation Study with a Multiwalled Carbon Nanotube (MWCNT): When Is Inflammation Adverse?** M. P. DeLorme, K. L. Reed, and D. B. Warheit. DuPont Haskell Lab, Newark, DE.
- #1240 **Poster Board Number 107 *In Vivo* Evidence of Free Radical Formation in the Mouse Lung and Distant Organs after Exposure to Single-Walled Carbon Nanotubes.** E. R. Kisin¹, A. R. Murray^{1,2}, M. B. Kadiiska³, and A. A. Shvedova^{1,2}. ¹PPRB, NIOSH, Morgantown, WV; ²Physiology/Pharmacology, WVU, Morgantown, WV; and ³NIEHS/NIH, Research Triangle Park, NC.
- #1241 **Poster Board Number 108 Comparative Inhalation Toxicities of Graphene and Other Carbonaceous Nanomaterials.** L. Ma-Hock¹, T. Hoffmann¹, S. Gröters¹, K. Wiench², B. van Ravenzwaay¹, and R. Landsiedel¹. ¹Experimental Toxicology and Ecology, BASF SE, Ludwigshafen am Rhein, Germany; and ²Product Safety, BASF SE, Ludwigshafen am Rhein, Germany.
- #1242 **Poster Board Number 109 Inhalation Toxicity of Carbon Black Depends on Surface Coating with Polycyclic Aromatic Hydrocarbons.** T. Hansen¹, P. König², O. H. Creutzenberg¹, K. Weinhold², S. Schlick³, T. Tillmann¹, G. Pohlmann¹, A. Kolling¹, C. Ziemann¹, J. Kopf¹, M. Stroebele⁴, H. Bockhorn⁴, O. Danov¹, K. Sewald¹, B. Müller⁵, and H. Fehrenbach³. ¹Fraunhofer Institute for Toxicology and Experimental Medicine, Hannover, Germany; ²Universität zu Lübeck, Lübeck, Germany; ³Research Center Borstel, Borstel, Germany; ⁴Karlsruhe Institute of Technology (KIT), Karlsruhe, Germany; and ⁵Division of Pneumology, Faculty of Medicine, Philipps University, Marburg, Germany. Sponsor: C. Dasenbrock.

TUESDAY

Program Schedule (Continued)

Abstract #	Abstract #
<p>#1243 Poster Board Number 110 Single-Wall or Double-Wall Carbon Nanotubes Induce Atherosclerosis Progression in Animal and Culture Models of Atherosclerosis. Y. Suzuki¹, G. Ichihara², C. Zong^{2,3}, S. Tada-Oikawa¹, K. Izuoka¹, and S. Ichihara¹. ¹Graduate School of Regional Innovation Studies, Mie University, Tsu, Japan; ²Faculty of Pharmaceutical Sciences, Tokyo University of Science, Noda, Japan; and ³Department of Occupational and Environmental Health, Nagoya University Graduate School of Medicine, Nagoya, Japan.</p>	<p>#1249 Poster Board Number 116 Cross-Species Approach Reveals ER-Stress As a Conserved Mechanism of MWCNT-Mediated Biological Interactions. N. Chatterjee¹, Q. Choudhry¹, J. Yang¹, Y. Kim², and J. Choi¹. ¹Faculty of Environmental Engineering, College of Urban Science, University of Seoul, Seoul, Republic of Korea; and ²Department of Chemical Engineering, Kwangju University, Seoul, Republic of Korea.</p>
<p>#1244 Poster Board Number 111 Dose- and Time-Dependent Assessment of Human Mesothelial Cell Neoplastic Transformation Potential after Functionalized MWCNT Exposure. T. A. Stueckle¹, D. C. Davidson¹, R. Derk¹, P. Gracheck², N. Wu², Y. Rojanasakul², and L. Wang¹. ¹NIOSH, Morgantown, WV; and ²West Virginia University, Morgantown, WV.</p>	<p>#1250 Poster Board Number 117 MRNAs and miRNAs in Whole Blood Associated with MWCNT-Induced Lung Hyperplasia, Fibrosis, and Bronchiolo-Alveolar Adenoma and Adenocarcinoma following Inhalation Exposure in Mice. B. Talkington¹, C. Dong², L. M. Sargent¹, D. W. Porter¹, R. Raese², W. McKinney¹, B. T. Chen¹, L. A. Battelli¹, D. T. Lowry¹, S. H. Reynolds¹, V. Castranova¹, N. L. Guo², and Y. Qian¹. ¹NIOSH, Morgantown, WV; and ²West Virginia University, Morgantown, WV.</p>
<p>#1245 Poster Board Number 112 Lessening Genotoxicity Using Nitrogen-Doping of Multiwalled Carbon Nanotubes. K. Siegrist^{1,2}, S. H. Reynolds¹, R. R. Mercer³, D. W. Porter¹, D. T. Lowry¹, M. L. Kashon¹, J. L. Salisbury², J. Mastovich³, K. Bunker⁴, M. Sparrow⁴, S. Tsuruoka⁵, M. Endo⁵, M. McCawley², and L. M. Sargent¹. ¹Health Effects Laboratory Division, CDC/NIOSH, Morgantown, WV; ²Occupational and Environmental Health Sciences, West Virginia University, Morgantown, WV; ³Mayo Clinic, Rochester, MN; ⁴RJ Lee Group, Monroeville, PA; and ⁵Shinshu University, Nagano, Japan.</p>	<p>#1251 Poster Board Number 118 Systematic Evaluation of Carbon Nanotube Toxicity Using the Embryonic Zebrafish to Inform Health and Safety. L. Wehmas¹, L. M. Gilbertson², F. Melnikov³, P. Anastas³, J. B. Zimmerman^{2,3}, and R. L. Tanguay¹. ¹Environmental and Molecular Toxicology, Oregon State University, Corvallis, OR; ²Chemical and Environmental Engineering, Yale University, New Haven, CT; and ³Forestry and Environmental Studies, Yale University, New Haven, CT.</p>
<p>#1246 Poster Board Number 113 Carbon Nanotubes Promote Lung Tumor Progression through the Induction of Cancer-Associated Fibroblasts and Cancer Stem-Like Cells. S. Luanpitpong^{1,2}, L. Wang³, T. A. Stueckle³, S. Issaragrisil², and Y. Rojanasakul¹. ¹Department of Pharmaceutical Sciences and Mary Babb Randolph Cancer Center, West Virginia University, Morgantown, WV; ²Faculty of Medicine Siriraj Hospital, Mahidol University, Bangkok, Thailand; and ³Pathology and Physiology Research Branch, National Institute for Occupational Safety and Health, Morgantown, WV.</p>	<p>#1252 Poster Board Number 119 Uptake, Translocation, and Stress Effects of Carbon Nanotubes in Drought-Induced Corn. A. S. Deleon¹, A. Parra¹, F. Irin², P. Paxton³, M. Saed⁴, M. Green², and J. Canas¹. ¹Environmental Toxicology, Texas Tech University, Lubbock, TX; ²Chemical Engineering, Texas A&M University, College Station, TX; ³Agriculture, US Department of Agriculture, Lubbock, TX; and ⁴Electrical and Computer Engineering, Texas Tech University, Lubbock, TX. Sponsor: K. Singh.</p>
<p>#1247 Poster Board Number 114 Differential Sensitivity of Healthy and Asthmatic Human Bronchial Epithelia to Multiwalled Carbon Nanotubes. S. Hussain¹, P. R. Bushel², K. Gerrish³, and S. Garantzotis¹. ¹Clinical Research Unit, NIEHS, Research Triangle Park, NC; ²Biostatistics Branch, NIEHS, Research Triangle Park, NC; and ³Molecular Genomics Core, NIEHS, Research Triangle Park, NC.</p>	<p>#1253 Poster Board Number 120 Enhanced Influenza Virus Infectivity through Suppression of Toll-Like Receptor Activity by Single-Walled Carbon Nanotubes. X. Zheng¹, J. Loeb¹, J. Lednicky¹, N. B. Saleh², and T. Sabo-Attwood¹. ¹University of Florida, Gainesville, FL; and ²University of Texas at Austin, Austin, TX.</p>
<p>#1248 Poster Board Number 115 Effects of Pristine and Nitrogen-Doped Multiwalled Carbon Nanotubes (ND-MWCNT) on Reactive Oxygen Species (ROS) and Cell Cycle Progression. A. Mihalchik^{1,2}, W. Ding¹, C. E. McLoughlin², D. Schwegler-Berry², A. Stefaniak², B. Talkington², S. Tsuruoka³, M. Endo³, V. Castranova¹, D. W. Porter², and Y. Qian². ¹West Virginia University, Morgantown, WV; ²National Institute for Occupational Safety and Health, Morgantown, WV; and ³Research Center for Exotic Nanocarbons, Shinshu University, Nagano, Japan.</p>	<p>#1254 Poster Board Number 121 Intratracheal Exposure of Multiwalled Carbon Nanotubes Induces a Nonalcoholic Steatohepatitis in C57BL/6J Mice. J. Kim¹, Y. Jang¹, and M. Cho^{1,2,3}. ¹Laboratory of Toxicology, BK21 PLUS Program for Creative Veterinary Science Research, Research Institute for Veterinary Science and College of Veterinary Medicine, Seoul National University, Seoul, Republic of Korea; ²Graduate School of Convergence Science and Technology, Seoul National University, Suwon, Republic of Korea; and ³Graduate Group of Tumor Biology, Seoul National University, Seoul, Republic of Korea.</p>
	<p>#1255 Poster Board Number 122 Single-Walled Carbon Nanotubes (SWCNT) Mediate Cytotoxicity via Apoptosis and Initiate Collagen Production in Rat Pleural Mesothelial Cells. S. B. Kallakuri, and J. M. Cerreta. PHS, St. John's University, Queens, NY.</p>

Program Schedule (Continued)

Abstract #	Abstract #
#1256	Poster Board Number 123 Pathology-Directed Mass Spectrometry Determines Proteomic Differences Associated with Carbon Nanotube Exposure in the Lung. E. H. Seeley ¹ , G. Boyce ¹ , L. Bishop ² , R. Salmen ² , L. A. Battelli ² , P. C. Zeidler-Erdely ² , J. M. Antonini ² , G. W. Kilby ¹ , and A. Erdely ² . ¹ Protea Biosciences Inc, Morgantown, WV; and ² NIOSH, Morgantown, WV.
#1257	Poster Board Number 124 Exposures to Carbon Nanotubes and Asbestos Induce Related but Distinct Profiles of Toxicologic Lung Pathology. E. Frank ¹ , V. S. Carreira ¹ , E. M. Birch ² , and J. Yadav ¹ . ¹ Department of Environmental Health, University of Cincinnati College of Medicine, Cincinnati, OH; and ² CDC/NIOSH, Cincinnati, OH.
#1258	Poster Board Number 125 Single-Walled Carbon Nanotubes (SWCNTs) Induce Vasodilation in Isolated Rat Aortic Rings. M. Ramirez ² , J. M. Gutierrez-Hernandez ¹ , H. Rosas-Hernandez ² , S. Salazar-Garcia ² , D. A. Maldonado-Ortega ² , F. J. Gonzalez ² , S. F. Ali ² , and C. Gonzalez ² . ¹ Coordinacion para la Innovacion y la Aplicacion de la Ciencia y la Tecnologia, Universidad Autonoma de San Luis Potosi, San Luis Potosi, Mexico; ² Facultad de Ciencias Quimicas, Universidad Autonoma de San Luis Potosi, San Luis Potosi, Mexico; and ³ Division of Neurotoxicology, NCTR, Jefferson, AR.
#1259	Poster Board Number 126 Role of Stem-Like Cells in Carbon Nanotube-Induced Pulmonary Fibrosis. A. Manke ¹ , S. Luanpitpong ^{1,2} , L. Wang ³ , Y. Yang ⁴ , and Y. Rojanasakul ¹ . ¹ Pharmaceutical Sciences, West Virginia University, Morgantown, WV; ² Siriraj Center of Excellence for Stem Cell Research, Mahidol University, Bangkok, Thailand; ³ Pathology & Physiology Research Branch, National Institute for Occupational Safety and Health, Morgantown, WV; and ⁴ Chemical Engineering, West Virginia University, Morgantown, WV.
<p>Tuesday Afternoon, March 24 1:00 PM to 4:30 PM CC Exhibit Hall</p> <div style="text-align: center;">  </div> <p>Poster Session: Skin</p> <p>Chairperson(s): Carol S. Auletta, Program Management, Huntingdon Life Sciences, East Millstone, NJ; and Gabriel A. Knudsen, Toxicology and Toxicokinetics, NCI at NIEHS, Research Triangle Park, NC.</p> <p>Displayed: 1:00 PM–4:30 PM</p> <p>Author-Attended: 2:45 PM–4:30 PM</p>	
#1260	Poster Board Number 128 Phototoxicity of Ethyl Maltol in Hairless Mice. G. Ritacco, V. T. Politano, J. F. Lalko, and A. Api. Research Institute for Fragrance Materials, Woodcliff Lake, NJ.
#1261	Poster Board Number 129 Photosafety Screening on Benzophenones Using Photochemical and Dermal Cassette-Dosing Pharmacokinetic Data. Y. Seto, H. Ohtake, M. Kato, and S. Onoue. School of Pharmaceutical Sciences, University of Shizuoka, Shizuoka, Japan. Sponsor: T. Yoshida.
#1262	Poster Board Number 130 Differential Effects of Some Natural Compounds on the Transdermal Penetration of Caffeine and Salicylic Acid. F. Muhammad, and J. E. Riviere. Kansas State University, Manhattan, KS.
#1263	Poster Board Number 131 Stratum Corneum Proposed Water Domain Role in Percutaneous Absorption and Decontamination. H. Zhu, E. Jung, X. Hui, and H. I. Maibach. Dermatology, University of California San Francisco, San Francisco, CA.
#1264	Poster Board Number 132 Chemical Skin Contamination: Effects of Vehicles on Penetration and Stratum Corneum Binding. A. Zhang ² , E. Jung ² , H. Zhu ¹ , X. Hui ¹ , and H. I. Maibach ¹ . ¹ Dermatology, University of California San Francisco, San Francisco, CA; and ² Harvard University, Cambridge, MA.
#1265	Poster Board Number 133 The Development of a Simple In Vitro Human Skin Model for Dermal Absorption Investigations. T. Patel ¹ , D. Salazar ³ , G. Bell ² , B. Parr-Dobranski ³ , A. Ghaemmaghami ² , P. Williams ¹ , C. J. Roberts ¹ , and F. R. Rose ¹ . ¹ School of Pharmacy, University of Nottingham, Nottingham, United Kingdom; ² School of Life Sciences, University of Nottingham, Nottingham, United Kingdom; and ³ Jealott's Hill International Research Centre, Syngenta Ltd, Berkshire, United Kingdom. Sponsor: P. Botham.
#1266	Poster Board Number 134 Dermal Exposure and Skin Notation—Important to Account for Evaporation. G. Johanson, M. N. Fransson, and M. Rauma. Work Environment Toxicology, IMM, Karolinska Institutet, Stockholm, Sweden.
#1267	Poster Board Number 135 Dermal Uptake of Tetrabromobisphenol A (TBBPA) by Female Wistar Han Rat or Human Skin. G. A. Knudsen ¹ , K. L. McIntosh ¹ , J. M. Sanders ¹ , M. F. Hughes ² , and L. S. Birnbaum ¹ . ¹ Toxicology and Toxicokinetics, NCI at NIEHS, Research Triangle Park, NC; and ² NHEERL, US EPA-ORD, Research Triangle Park, NC.
#1268	Poster Board Number 136 Skin Permeability of Ortho-Phenylphenol in Metalworking Formulations. J. Kochenburger, T. Haegele, J. Brooks, and R. E. Baynes. NCSU-CVM, Raleigh, NC.
#1269	Poster Board Number 137 A Multicompartment Mathematical Model of the In Vitro Percutaneous Absorption of Nerve Agent VX. J. Jenner, C. Dalton, and S. Graham. Biomedical Sciences Department, Dstl, Salisbury, United Kingdom.
#1270	Poster Board Number 138 Nrf2 Controls Skin Inflammation Provoked by Chemical Allergens Regardless of the Chemical Reactivity of Contact Sensitizers. Z. El Ali ¹ , C. Gerbeix ² , N. J. Pearson ² , R. Forster ² , M. Pallardy ¹ , and S. Kerdine-Römer ¹ . ¹ Toxicologie, INSERM-UNI Paris Sud, Châtenay-Malabry, France; and ² CiToxLab, Evreux, France.

TUESDAY

Program Schedule (Continued)

Abstract

- #1271 **Poster Board Number 139**
The Glycolytic Byproduct and Glycation Intermediate Methylglyoxal Is a Potent UVA-Photosensitizer in Human Skin Cells and Reconstructed Skin. R. Justiniano, S. Qiao, J. D. Williams, and G. T. Wondrak. Pharmacology and Toxicology, College of Pharmacy and Arizona Cancer Center, University of Arizona, Tucson, AZ.
- #1272 **Poster Board Number 140**
Combination of *In Silico* and *In Vitro* Tools for the Evaluation of Skin Sensitization: Application to Cosmetic Industrial Needs. S. Martinozzi Teissier¹, T. Pauloin², A. Del Bufalo¹, C. Piroird¹, C. Gomes¹, A. Detroyer¹, J. Eilstein¹, F. Rousset¹, N. Alépée¹, and J. Clouzeau². ¹L'Oréal, Aulnay sous Bois, France; and ²L'Oréal, Asnières, France. Sponsor: E. Dufour.
- #1273 **Poster Board Number 141**
The Dermal Sensitization Threshold (DST) for Chemicals Classified As Protein Reactive. J. F. Lalko¹, R. J. Safford², D. Roberts³, and A. Api¹. ¹Research Institute for Fragrance Materials Inc., Woodcliff Lake, NJ; ²B-Safe Toxicology Consulting, Rushden, United Kingdom; and ³Liverpool John Moores University, Liverpool, United Kingdom.
- #1274 **Poster Board Number 142**
Peptide Reactivity Associated with Skin Sensitization—A Comparison of the DPRA and the OECD QSAR Toolbox. D. Urbisch¹, W. Teubner², N. Honarvar¹, A. Mehling², K. Guth¹, S. Kolle¹, and R. Landsiedel¹. ¹Experimental Toxicology and Ecology, BASF SE, Ludwigshafen am Rhein, Germany; ²BASF Personal Care and Nutrition GmbH, Düsseldorf, Germany; and ³BASF Schweiz AG, Basel, Switzerland.
- #1275 **Poster Board Number 143**
A Snapshot of Nonanimal Test Data on Skin Sensitization. D. Urbisch¹, A. Mehling^{2,1}, N. Honarvar¹, S. Kolle¹, T. Ramirez¹, K. Guth¹, and R. Landsiedel¹. ¹Experimental Toxicology and Ecology, BASF SE, Ludwigshafen am Rhein, Germany; and ²BASF Personal Care and Nutrition, Düsseldorf, Germany.
- #1276 **Poster Board Number 144**
Examining the Role of *In Silico* Assessment in Skin Sensitisation-Integrated Testing Strategies. D. Macmillan, S. Stalford, S. Canipa, and R. V. Williams. Lhasa Limited, Leeds, United Kingdom. Sponsor: C. Barber.
- #1277 **Poster Board Number 145**
Vascularized Skin Models and Impedance Spectroscopy for the Assessment of Skin Toxicity. F. Groeber¹, H. Walles^{1,2}, and J. Hansmann^{2,1}. ¹Fraunhofer Unit “Regenerative Therapies”, Fraunhofer IGB, Würzburg, Germany; and ²Department Tissue Engineering and Regenerative Medicine, University Hospital Würzburg, Würzburg, Germany. Sponsor: B. De Wever.
- #1278 **Poster Board Number 146**
***In Vitro* Skin Metabolism of Cosmetic Ingredients: Experimental Influencing Factors, Comparison with *In Silico* Generated Data.** P. Quantin, S. Catoire, A. Thelu, and H. Fichoux. Toxicology, THOR Personal Care, Compiègne, France.

Abstract

- #1279 **Poster Board Number 147**
VEGF Expression on 3D Skin Equivalent Plays an Active Role in Maintaining Epithelial Integrity by Inducing Capillary-Like Structure and Keratinocyte Proliferation. D. M. Leme^{1,2}, F. R. Abe², C. V. Costa¹, E. S. Trindade¹, D. F. Buchi¹, and D. P. Oliveira². ¹Universidade Federal do Paraná (UFPR), Curitiba, Brazil; and ²FCFRP/USP, Ribeirão Preto, Brazil.
- #1280 **Poster Board Number 148**
Toxicity Study of a Three-Dimensional (3D) Organotypic Skin Model Using Keratinocytes and Mesenchymal Stem Cells Immortalized by hTERT. A. Briley, and C. Zhang. ACS, ATCC, Gaithersburg, MD. Sponsor: K. Donato.
- #1281 **Poster Board Number 149**
Metabolic Oxidation of Rhododendrol and Enhanced Cytotoxicity in Melanocytes. T. Akiyama¹, K. Shimizu¹, H. Fujimaki^{1,2}, T. Uchino¹, T. Nishimaki-Mogami¹, and Y. Ikarashi¹. ¹National Institute of Health Sciences, Tokyo, Japan; and ²Public Welfare Institute of Scientific Research, Tokyo, Japan. Sponsor: A. Hirose.
- #1282 **Poster Board Number 150**
Activation of T Cell Protein Tyrosine Phosphatase Suppresses Keratinocyte Survival and Proliferation following UVB Irradiation. H. Lee^{1,2}, L. D. Morales¹, T. J. Slaga², and D. J. Kim^{1,2}. ¹Medical Research Division, University of Texas Health Science Center at San Antonio, Edinburg, TX; and ²Pharmacology, University of Texas Health Science Center at San Antonio, San Antonio, TX.
- #1283 **Poster Board Number 151**
Transepidermal Water Loss and Tape Stripping in Minipig Skin. A. Makin, N. Grand, G. Jeppesen, T. Starostka, and J. Logsted. CiToxLAB, Lille Skensved, Denmark.
- #1284 **Poster Board Number 152**
Decon. Gel for Skin Decontamination *In Vitro* Human Skin Model. H. Zhu, E. Jung, X. Hui, and H. I. Maibach. Dermatology, University of California San Francisco, San Francisco, CA.

Tuesday Afternoon, March 24
 1:00 PM to 4:30 PM
 CC Exhibit Hall

Poster Session: Clinical and Translational Toxicology Advancing Clinical and Translational Toxicology

Chairperson(s): Mohamed Arifulla, Pharmacology, Gulf Medical University, Ajman, United Arab Emirates; and Teresa Dodd-Butera, Nursing, California State University San Bernardino, College of Natural Sciences, San Bernardino, CA.

Displayed: 1:00 PM–4:30 PM

Author-Attended: 1:00 PM–2:45 PM

- #1285 **Poster Board Number 153**
Safe Use of Antimicrobial and Analgesic Drugs in Surgical Patients in a Tertiary Care Hospital in UAE. M. Arifulla¹, Y. M. Taher², S. S. Ilyas¹, and A. K. Agarwal¹. ¹Pharmacology, Gulf Medical University, Ajman, United Arab Emirates; and ²Surgery, GMC Hospital, Ajman, United Arab Emirates. Sponsor: S. Devi.

- PS** Poster Sessions
RI Regional Interest Session
R Roundtable Sessions

- S** Symposium Sessions
TS Thematic Sessions
W Workshop Sessions

Program Schedule (Continued)

Abstract #		Abstract #	
#1286	Poster Board Number 154 Antitoxic Effect of <i>Veratilla baillonii</i> Franch on Acute Toxicity of Mice Induced by <i>Aconitum brachypodium</i> Diel, One of the Genus <i>Aconitum</i>. Y. Jiang, H. Zhou, M. Zheng, and X. Huang. South-Central University for Nationalities, Wuhan, China.	#1294	Poster Board Number 162 Identification of a Metformin-Methylglyoxal Imidazonlinone Product in Metformin-Treated Type 2 Diabetic Patient Urine. O. R. Kinsky ¹ , T. L. Hargreaves ¹ , T. Anumol ² , N. Jacobsen ³ , J. Dai ³ , S. A. Snyder ² , T. J. Monks ¹ , and S. S. Lau ¹ . ¹ Southwest Environmental Health Sciences Center, Department of Pharm/Tox, College of Pharmacy, University of Arizona, Tucson, AZ; ² Chemical and Environmental Engineering, University of Arizona, Tucson, AZ; and ³ Chemistry and Biochemistry, University of Arizona, Tucson, AZ.
#1287	Poster Board Number 155 The Impact of Nonrodent Safety Data on Decision-Making for Small Molecule Anticancer Drugs. R. J. Knight, D. Deavall, and R. Roberts. AstraZeneca, Macclesfield, United Kingdom.	#1295	Poster Board Number 163 Fenofibrate Prevents Diabetic Cardiomyopathy Probably via Activation of the FGF21-SIRT1-Dependent Recovery of the Impaired Autophagic Function. J. Zhang ^{1,2} , Y. Cheng ^{1,3} , Z. Li ² , and L. Cai ¹ . ¹ Pediatrics, University of Louisville, Louisville, KY; ² Cardiology, The People's Hospital of Liaoning Province, Shenyang, China; and ³ University of Louisville, Louisville, KY.
#1288	Poster Board Number 156 An Integrated Characterisation of Serological, Pathological, and Functional Events in Doxorubicin-Induced Cardiotoxicity. R. Roberts ¹ , L. Cove-Smith ² , N. Woodhouse ¹ , A. Hargreaves ¹ , J. Kirk ¹ , S. Smith ¹ , S. Price ¹ , M. Marsden ¹ , C. J. Betts ¹ , S. Brocklehurst ¹ , A. Backen ² , J. Radford ³ , K. Linton ³ , M. Schmitt ⁴ , C. Dive ² , J. Tugwood ² , P. Hockings ¹ , and H. R. Mellor ¹ . ¹ AstraZeneca, Macclesfield, United Kingdom; ² CRUK Manchester Institute, Manchester, United Kingdom; ³ Christie Hospital NHS Trust, Manchester, United Kingdom; and ⁴ University Hospital of South Manchester, Manchester, United Kingdom.	#1296	Poster Board Number 164 Mechanistic Role of PDE4/cAMP in Regulating HIV Drugs-Induced Fas/FasL Expression and Hepatotoxicity. H. Donde ¹ , S. Ghare ¹ , D. Barker ² , S. Joshi-Barve ^{1,2} , C. McClain ^{1,2,3} , and S. Barve ^{1,2} . ¹ Pharmacology & Toxicology, University of Louisville, Louisville, KY; ² Internal Medicine, University of Louisville, Louisville, KY; and ³ Robley Rex Louisville, VA Medical Center, Louisville, KY.
#1289	Poster Board Number 157 Toward Translational Toxicology: Integrated Analysis of Nonclinical and Clinical Toxicity. W. B. Mattes. Division of Systems Biology, FDA NCTR, Jefferson, AR.	#1297	Poster Board Number 165 Zinc Reduces the Detection of THC by ELISA Urine Testing, While Copper May Cause a False-Positive Result. A. Lerer, and N. H. Lents. John Jay College, New York, NY. Sponsor: S. Cheng.
#1290	Poster Board Number 158 Effects of Vitamin C on Tobacco Smoking-Related Gene Expression. M. Yang. Sookmyung Women's Univ., Seoul, Republic of Korea.	#1298	Poster Board Number 166 Early Metabolomic Biomarkers of Doxorubicin-Induced Cardiac Injury in B6C3F1 Mice. R. D. Beger, L. Pence, L. K. Schnackenberg, V. Vijay, J. C. Fuscoe, and V. Desai. NCTR, Jefferson, AR.
#1291	Poster Board Number 159 Assessment of Ethanol Effects on Pulmonary Antimicrobial Peptide (Cathelicidin/LL-37) Levels and Vitamin D Metabolism. O. A. Ogunsakin, T. K. Hottor, and M. L. McCaskill. Global Environmental Health Sciences, Tulane University, New Orleans, LA.	#1299	Poster Board Number 167 Solid-Phase Microextraction As Rapid Direct Postmortem Sampling Tool. H. Peltenburg ¹ , I. J. Bosman ² , and J. Hermens ¹ . ¹ Institute for Risk Assessment Sciences, Utrecht University, Utrecht, Netherlands; and ² Netherlands Forensic Institute, The Hague, Netherlands. Sponsor: M. van den Berg.
#1292	Poster Board Number 160 Acrolein Exacerbates HAART-Induced Apoptotic Death in Hepatocytes by Enhancing Transcriptionally Permissive Epigenetic Modifications at the FasL Promoter. S. Ghare ^{1,2} , H. Donde ² , S. Joshi-Barve ^{1,2} , C. McClain ^{1,2} , and S. Barve ^{1,2} . ¹ Medicine, University of Louisville, Louisville, KY; and ² Pharmacology and Toxicology, University of Louisville, Louisville, KY.	#1300	Poster Board Number 168 Arsenic Methylation Is Associated with Body Mass Index among US Adults. Y. Lin, A. M. Kadyr, R. Sams, J. Cowden, and B. R. Sonawane. Office of Research and Development, National Center for Environmental Assessment, US Environmental Protection Agency, Washington, DC.
#1293	Poster Board Number 161 <i>P. gingivalis</i> Modulates the Antiviral Immune Response in Oral Epithelial Cells. S. M. Ramos-Diaz ^{1,2} . ¹ North Carolina Central University, Durham, NC; and ² University of North Carolina, Chapel Hill, NC. Sponsor: J. Webster-Cyriaque.	#1301	Poster Board Number 169 Marketed Drugs with Nonclinical Testicular Toxicity and Concordance with Clinical Semenology Findings: A Survey in Pharmapendium™ S. A. Lerman, S. J. Newsholme, R. F. Smith, and P. J. Wier. Safety Assessment, GlaxoSmithKline, King of Prussia, PA.

TUESDAY

Program Schedule (Continued)

Abstract

- #1302 **Poster Board Number** 170
The Effect of Crinkle Paper Nesting Material on Basic Toxicology Parameters. S. Garipey¹, C. Brochu¹, B. N. Gaskill², and C. L. Winnicker³.
¹General Toxicology, Charles River, Sherbrooke, QC, Canada; ²Purdue University College of Veterinary Medicine, West Lafayette, IN; and ³Charles River, Wilmington, MA. Sponsor: *N. Hebert.*
- #1303 **Poster Board Number** 171
Successful Combination of Scheduled Plasma Exchange with Continuous Venovenous Hemofiltration in Treatment of Fulminant Hepatic Failure Due to Ochratoxin A. D. Pham¹, T. Q. Le¹, T. H. Be¹, S. K. Nguyen¹, X. T. Dang¹, H. T. Ha¹, D. T. Nguyen¹, N. T. Nguyen¹, T. A. Nguyen¹, M. C. Hoang², and A. Q. Nguyen¹. ¹Poison Control Center, Bach Mai Hospital, Hanoi, Vietnam; and ²Poison Control Center, Vietnam Military Medical University, Hanoi, Vietnam. Sponsor: *T. Le.*

Tuesday Afternoon, March 24

1:00 PM to 4:30 PM
 CC Exhibit Hall

Poster Session: Computational Toxicology and Data Integration I

Chairperson(s): Amy Clippinger, PETA International Science Consortium, Ltd., Norfolk, VA.

Displayed: 1:00 PM–4:30 PM

Author-Attended: 2:45 PM–4:30 PM

- #1304 **Poster Board Number** 201
Confidently Predicting Cardiac Liabilities in Drug Discovery, Applications of Conformal Prediction and Teaching Schedules. E. Ahlberg¹, L. Carlsson¹, J. Stålring¹, C. Pollard², and P. Newham².
¹Drug Safety Metabolism, AstraZeneca, Mölndal, Sweden; and ²Drug Safety Metabolism, AstraZeneca, Alderly Park, United Kingdom.
- #1305 **Poster Board Number** 202
Implementation of New Cardiac Proarrhythmic Safety Paradigms in the eTOX Prediction System. M. Pastor¹, J. Saiz², J. Gomis-Tena², L. Romero², and F. Sanz¹. ¹Health and Experimental Sciences, Universitat Pompeu Fabra, Barcelona, Spain; and ²Grupo Bioelectronica I3BH, Universitat Politècnica de Valencia, Valencia, Spain. Sponsor: *F. Pognan.*
- #1306 **Poster Board Number** 203
In Silico Prediction of Off-Target Related Adverse Drug Effects: Cardiotoxicity, Hepatotoxicity, and Reproductive Toxicity. F. Schmidt¹, A. Amberg¹, D. Mulliner¹, M. Stolte¹, R. Brennan³, D. A. Keller³, H. Matter³, G. Hessler², A. Dietrich², A. Czich¹, R. Garcia⁴, and J. Mestres⁴. ¹R&D DSAR Preclinical Safety, Sanofi, Frankfurt, Germany; ²R&D LGCR, Sanofi, Frankfurt, Germany; ³R&D DSAR Standards & Innovation, Sanofi, Bridgewater, NJ; and ⁴Chemotargets SL, Barcelona, Spain.
- #1307 **Poster Board Number** 204
Computational Comparison of the Anti-Inflammatory Targets of the Traditional Chinese Medicine Sargentodoxa Cuneata (Hong Teng) and Western Therapeutics for the Treatment of Osteoarthritis. G. Liang, X. Huang, R. Trimble, C. Park, and *D. Johnson.* Nutri Sci & Toxicology, UC Berkeley, Berkeley, CA.

Abstract

- #1308 **Poster Board Number** 205
Computational Analysis of Coffee Constituents and Their Potential Neuroprotection Action in Alzheimer's Disease. T. Bradford, V. Man, M. Garg, N. Wong, and *D. Johnson.* Nutri Sci & Toxicology, UC Berkeley, Berkeley, CA.
- #1309 **Poster Board Number** 206
Computational Analysis of Active Phytochemicals and Potential Synergism with Western Therapeutics in the Treatment of Parkinson's Disease. V. Ho, Y. Han, Y. Aldaher, and *D. Johnson.* Nutri Sci & Toxicology, UC Berkeley, Berkeley, CA.
- #1310 **Poster Board Number** 207
A Computational Analysis of Ethnicity-Specific Polycystic Ovarian Syndrome Treatments Using Western and Traditional Medications. S. Ng, E. Qiu, A. Chang, L. Phan, and *D. Johnson.* Nutri Sci & Toxicology, UC Berkeley, Berkeley, CA.
- #1311 **Poster Board Number** 208
A Computational Analysis of the Potential Environmental and Lifestyle Risk Factors Associated with Breast Cancer Incidence in South Napa, California. A. Goldbaum, R. Sood, R. Sail, and *D. Johnson.* Nutri Sci & Toxicology, UC Berkeley, Berkeley, CA.
- #1312 **Poster Board Number** 209
Computational Investigation of the Combination of Traditional Chinese Medicine (TCM) and Western Therapeutics for the Treatment of Non-Small Cell Lung Cancer (NSCLC). J. Dovedy, A. Chen, A. Ly, M. Lucia, and *D. Johnson.* Nutri Sci & Toxicology, UC Berkeley, Berkeley, CA.
- #1313 **Poster Board Number** 210
Integrated Panel of QSAR Models Representing Key Events in Skin Sensitization. A. Sedykh, S. Chakravarti, and R. D. Saikhov. MultiCASE Inc, Beachwood, OH. Sponsor: *R. Benz.*
- #1314 **Poster Board Number** 211
Updates to an Integrated Testing Strategy for Skin Sensitization Potency. J. Jaworska¹, J. Pirone², J. Strickland³, N. Kleinstreuer³, D. G. Allen³, and W. Casey⁴. ¹P&G NV, Bever, Belgium; ²SSS, Inc., Durham, NC; ³ILS/NICEATM, Research Triangle Park, NC; and ⁴NTP/NICEATM, Research Triangle Park, NC.
- #1315 **Poster Board Number** 212
Impact of Local Lymph Node Assay Uncertainty on Predictions of a Bayesian Network Integrated Testing Strategy for Skin Sensitization Potency. J. Pirone¹, M. Smith¹, J. Strickland², W. Casey³, and J. Jaworska⁴. ¹SSS, Inc., Durham, NC; ²ILS/NICEATM, Research Triangle Park, NC; ³NTP/NICEATM, Research Triangle Park, NC; and ⁴P&G NV, Bever, Belgium.
- #1316 **Poster Board Number** 213
Assessing Skin Sensitization Potential by Combining Multiple Information Types (Chemotype Alerts, QSAR, Chemical Reactivity and Metabolite Generation, and Biological Assay Data) in a Quantitative Weight-of-Evidence Approach. J. Rathman^{1,2}, R. Landsiedel³, K. Schleifer³, E. Wollenhaupt³, D. Urbisch³, C. Schwab⁴, and C. Yang^{1,4}. ¹Altamira LLC, Columbus, OH; ²Chemical and Biomolecular Engineering, Ohio State University, Columbus, OH; ³BASF SE, Ludwigshafen, Germany; and ⁴Molecular Networks GmbH, Erlangen, Germany.

- PS** Poster Sessions
- RI** Regional Interest Session
- R** Roundtable Sessions

- S** Symposium Sessions
- T** Thematic Sessions
- W** Workshop Sessions

Program Schedule (Continued)

Abstract

- #1317 **Poster Board Number214**
Verification of a Skin Sensitization Assessment Neural Network Model by Fragrance Materials. T. Atobe¹, M. Hirota¹, T. Ashikaga¹, A. Api², and J. F. Lalko². ¹Shiseido Research Center, Yokohama, Japan; and ²Research Institute for Fragrance Materials, Inc., Woodcliff Lake, NJ. Sponsor: J. Kanno.
- #1318 **Poster Board Number215**
Cheminformatics Approaches to Tailor *In Silico* Profilers for Refined Category Formation to Support Chemical Safety Assessment. A. N. Richarz¹, B. Bienfait², S. J. Enoch¹, C. Schwab², M. T. Cronin¹, and C. Yang^{3,2}. ¹School of Pharmacy and Chemistry, Liverpool John Moores University, Liverpool, United Kingdom; ²Molecular Networks GmbH, Erlangen, Germany; and ³Altamira LLC, Columbus, OH.
- #1319 **Poster Board Number216**
From Individual Datasets to Big Data: Developing Mechanism-Driven Predictive Liver Toxicity Models. M. T. Kim^{1,2}, W. Wang¹, A. Sedykh¹, R. Huang³, M. Xia³, and H. Zhu^{1,2}. ¹Center for Computational and Integrative Biology, Rutgers, The State University of New Jersey, Camden, NJ; ²Chemistry, Rutgers, The State University of New Jersey, Camden, NJ; and ³Department of Health and Human Services, NIH National Center for Advancing Translational Sciences, Rockville, MD.
- #1320 **Poster Board Number217**
Predicting Hepatotoxicity Using ToxCast *In Vitro* Bioactivity and Chemical Structure. J. Liu^{1,2,3}, K. Mansouri^{1,3}, R. Judson¹, M. T. Martin¹, H. Hong³, M. Chen⁴, X. Xu^{2,4}, R. S. Thomas¹, and I. Shah¹. ¹NCCT/EPA, Durham, NC; ²UALR, Little Rock, AR; ³ORISE, Oak Ridge, TN; and ⁴NCTR/FDA, Jefferson, AR.
- #1321 **Poster Board Number218**
Analysis of Human and *In Vivo* Data for Hepatotoxicity Modelling. M. L. Patel, and K. Briggs. Lhasa Limited, Leeds, United Kingdom. Sponsor: C. Barber.
- #1322 **Poster Board Number219**
A Comparison of *In Silico* Computational Programs for Predicting Drug-Induced Liver Injury. M. Masuda¹, S. Schadt², A. Brigo², and K. Ford¹. ¹Product Quality and Occupational Toxicology, Genentech, South San Francisco, CA; and ²F. Hoffmann-La Roche Ltd., Basel, Switzerland.
- #1323 **Poster Board Number220**
Statistical Modeling of DILI Prediction for a Multiplexed HCS Toxicity Assay. H. Luithardt, S. Qin, J. Bradley, J. Gilbert, and C. Strock. Cyprotex US, Watertown, MA.
- #1324 **Poster Board Number221**
Consideration of Plasma Exposure for Better Predictions of Drug-Induced Liver Injury: Merits and Challenges. F. Shah¹, M. D. Aleo², L. Louis³, H. A. Barton³, Y. Will², A. Rodrigues³, and N. Greene¹. ¹Computational Science CoE, Pfizer, Groton, CT; ²Drug Safety R&D, Pfizer, Groton, CT; and ³Pharmacokinetics, Dynamics & Metabolism, Pfizer, Groton, CT.
- #1325 **Poster Board Number222**
Quantitative and Qualitative Predictive Models for Systemic and Target Organ Toxicity. L. Truong^{1,2}, G. Ouédraogo³, S. Loisel-Joubert³, H. Noçairi³, and M. T. Martin². ¹ORISE, Oak Ridge, TN; ²EPA - NCCT, Durham, NC; and ³L'Oréal, Paris, France.

Abstract

- #1326 **Poster Board Number223**
Adverse Outcome Pathways for the Nephrotoxicity of Nonsteroidal Anti-Inflammatory Drugs. W. C. Drewe, and B. Surfarz. Lhasa Limited, Leeds, United Kingdom. Sponsor: C. Barber.
- #1327 **Poster Board Number224**
Understanding Oxidative Stress Responses via Nrf2-Related Pathways and ToxCast Data. F. Melnikov¹, L. Shen¹, E. Beach¹, J. B. Zimmerman¹, K. Mellor¹, J. Corrales², L. A. Kristofco³, M. Mullins², B. Yates², E. Williams², J. Kostal³, C. M. Schaupp⁴, M. Mills⁴, T. J. Kavanagh⁴, N. Simcox⁴, A. Voutchkova-Kostal³, E. P. Gallagher⁴, B. W. Brooks², and P. Anastas¹. ¹Center for Green Chemistry & Green Engineering, Yale University, New Haven, CT; ²Department of Environmental Science, Baylor University, Waco, TX; ³Department of Chemistry, The George Washington University, Washington, DC; and ⁴Department of Environmental and Occupational Health Sciences, University of Washington, Seattle, WA.
- #1328 **Poster Board Number225**
Association between Health Effects and Chemical Structure of Environmental Pollutants. N. M. Khalil, A. Prussia, and E. Demchuk. Division of Toxicology and Human Health Sciences, Agency for Toxic Substances and Disease Registry, Atlanta, GA. Sponsor: J. Wheeler.
- #1329 **Poster Board Number226**
Acute Oral Toxicity Modeling Accounting for Mechanism and Toxicological Mode of Action. D. Nedelcheva², N. Dimitrova², S. Stoeva², K. Kirilov², A. Detroyer¹, S. Ringeissen¹, R. R. Note¹, D. Blanchet¹, S. Dimitrov², and O. Mekenyan². ¹L'Oréal, Aulnay-sous-Bois, France; and ²Laboratory of Mathematical Chemistry, University Prof. As. Zlatarov, Bourgas, Bulgaria. Sponsor: E. Dufour.
- #1330 **Poster Board Number227**
High-Content Screening of ToxCast Compounds Using Vala Sciences' Complex Cell Culturing Systems. K. A. Connors^{1,2}, D. L. Filer^{1,2}, N. S. Sipes^{1,2}, R. Judson², K. Houck², and M. T. Martin². ¹ORISE Fellow, Research Triangle Park, NC; and ²US EPA/ORD/NCCT, Research Triangle Park, NC.
- #1331 **Poster Board Number228**
Computational Modeling of Thyroid Hormone Regulated Neurodevelopment for Chemical Prioritization. E. D. Watt^{1,2}, D. F. Kapraun^{1,2}, T. B. Knudsen², K. Crofton², and R. Judson². ¹Oak Ridge Institute for Science Education, Oak Ridge, TN; and ²National Center for Computational Toxicology, US EPA, Research Triangle Park, NC.
- #1332 **Poster Board Number229**
Causal Inferences from Mining ToxCast Data and the Biomedical Literature for Molecular Pathways and Cellular Processes in Cleft Palate. N. C. Baker¹, N. S. Sipes², C. Grulke¹, R. Judson², and T. B. Knudsen². ¹NCCT, Lockheed Martin/EPA, Research Triangle Park, NC; and ²National Center for Computational Toxicology, ORD, EPA, Research Triangle Park, NC.

TUESDAY

Program Schedule (Continued)

Abstract

- #1333 **Poster Board Number230**
Integrated, Multiscale Analysis of Behavioral and Morphological Data from High-Throughput Screening of Environmental Chemicals in Developing Zebrafish. G. Zhang¹, L. Truong², R. L. Tanguay², and D. Reif¹. ¹Bioinformatics Research Center, North Carolina State University, Raleigh, NC; and ²Environmental and Molecular Toxicology, Oregon State University, Corvallis, OR.
- #1334 **Poster Board Number231**
Hazard Evaluation Support System (HESS): Development of a Category Approach to Predict the Testicular Toxicity of Chemical Substances Structurally Related to Ethylene Glycol Methyl Ether. T. Yamada¹, Y. Tanka¹, R. Hasegawa¹, Y. Sakuratani¹, Y. Yamazoe², A. Ono³, A. Hirose³, and M. Hayashi⁴. ¹National Institute of Technology and Evaluation, Tokyo, Japan; ²Food Safety Commission of Japan, Tokyo, Japan; ³National Institute of Health Sciences, Tokyo, Japan; and ⁴BioSafety Research Center, Iwata, Japan.
- #1335 **Poster Board Number232**
Using ToxCast/Tox21 Assays and QSAR Modeling to Predict Androgen Receptor Pathway Activity. N. Kleinstreuer¹, Q. Zang¹, D. L. Filer², M. T. Martin², K. Houck², D. G. Allen¹, W. Casey³, and R. Judson². ¹ILS/NICEATM, Research Triangle Park, NC; ²EPA/ORD/NCCT, Research Triangle Park, NC; and ³NTP/NICEATM, Research Triangle Park, NC.
- #1336 **Poster Board Number233**
In Vitro/In Silico Approach to Address Safety Concerns of Zearalenone Metabolites. E. Lo Piparo¹, V. Ehrlich¹, L. Dellafiora², J. Mollergues¹, C. Dall'Asta², P. Serrant¹, M. Marin-Kuan¹, P. Cozzini², and B. Schilter¹. ¹Nestlé Research Center, Lausanne, Switzerland; and ²University of Parma, Parma, Italy.
- #1337 **Poster Board Number234**
EDSP Prioritization: Collaborative Estrogen Receptor Activity Prediction Project (CERAPP). K. Mansouri¹, J. Kancherla¹, A. M. Richard², and R. Judson². ¹ORD/NCCT (ORISE), US EPA, Durham, NC; and ²ORD/NCCT, US EPA, Durham, NC.
- #1338 **Poster Board Number235**
Computational Alternative Analysis: Network Relationship of Structural Motifs for Chemicals of Concern Correlated with Health, Ecological, and Lifecycle Impacts. Y. He, B. Ford, N. Winje, and D. Johnson. Nutri Sci & Toxicology, UC Berkeley, Berkeley, CA.
- #1339 **Poster Board Number236**
Effectopedia: An Open Collaborative Platform for AOP Development and Application. H. Aladjov³, A. Clippinger¹, K. M. Sullivan², and G. Veith⁴. ¹PETA International Science Consortium, Ltd., London, United Kingdom; ²Physicians Committee for Responsible Medicine, Washington, DC; ³Organisation for Economic Cooperation and Development, Paris, France; and ⁴International QSAR Foundation, Duluth, MN.

Abstract

- #1340 **Poster Board Number237**
Using Mode-of-Action (MOA) Data to Guide the Development of Local Quantitative Structure-Activity Relationship (QSAR) Models for Molecular and Early Cellular Events in an Adverse Outcome Pathway (AOP). J. Melia, K. Salinas, L. Morlacci, J. Rhoades, M. Kawa, C. Rudisill, H. Carlson-Lynch, and J. Tunkel. SRC, Inc., East Syracuse, NY.

Tuesday Afternoon, March 24
 1:00 PM to 4:30 PM
 CC Exhibit Hall

Poster Session: Immunotoxicity II

Advancing Clinical and Translational Toxicology

Chairperson(s): Wendy J. Freebern, Immunotoxicology, Bristol-Myers Squibb, North Brunswick, NJ.

Displayed: 1:00 PM–4:30 PM

Author-Attended: 1:00 PM–2:45 PM

- #1341 **Poster Board Number239**
Prenatal and Postnatal Exposure to Concentrated Ambient Particulate Matter Alters the Developing Immune System of Mice. P. B. Tijerina, J. L. Blum, C. Hoffman, S. Park, G. Grunig, L. Chen, and J. T. Zelikoff. Environmental Medicine, NYUMC, Tuxedo, NY.
- #1342 **Poster Board Number240**
Regulation of Macrophage Activity by Histone Deacetylases during Nitrogen Mustard-Induced Lung Injury. A. Venosa, J. Gow, I. Berman, R. Malaviya, H. Yaren, H. Yaman, A. Gow, J. D. Laskin, and D. L. Laskin. Rutgers University, Piscataway, NJ.
- #1343 **Poster Board Number241**
Tracking Inflammatory Macrophage Accumulation in the Lung during Ozone-Induced Lung Injury in Mice. M. Francis, M. Mandal, J. D. Laskin, and D. L. Laskin. Rutgers University, Piscataway, NJ.
- #1344 **Poster Board Number242**
Alterations of Immune Parameters in HPBMC following Hardwood Smoke Exposures in Human Volunteers. F. T. Lauer¹, D. MacKenzie¹, K. S. Harrod², J. D. McDonald², and S. W. Burchiel¹. ¹Pharmaceutical Sciences, University of New Mexico, Albuquerque, NM; and ²Lovelace Respiratory Research Institute, Albuquerque, NM.
- #1345 **Poster Board Number243**
The $\alpha 7$ Nicotinic Acetylcholine Receptor Agonist GTS-21 Improves Hyperoxia-Compromised Bacterial Clearance from the Lung by Decreasing Hyperacetylation and the Release of Nuclear HMGB1. R. A. Sitapara¹, D. Antoine², L. K. Sharma¹, V. Patel¹, C. R. Ashby¹, S. Gorasiya¹, H. Yang³, M. Zur¹, and L. Mantell^{1,3}. ¹St. John's University, Queens, NY; ²University of Liverpool, Liverpool, United Kingdom; and ³Feinstein Institute for Medical Research, Manhasset, NY.

Program Schedule (Continued)

Abstract #	Abstract #
#1346	Poster Board Number244 Ascorbic Acid Improves Hyperoxia-Compromised Host Defense against <i>Pseudomonas aeruginosa</i> Infection. V. S. Patel ¹ , V. Sampat ¹ , L. K. Sharma ¹ , R. A. Sitapara ¹ , W. Wu ¹ , H. Wang ² , M. Espey ³ , and L. Mantell ^{1,2} . ¹ Pharmaceutical Sciences, St. John's University College of Pharmacy and Health Sciences, Jamaica, NY; ² Center for Inflammation and Immunology, The Feinstein Institute for Medical Research, North Shore-LIJ Health Science, Manhasset, NY; and ³ National Institutes of Health, Bethesda, MD.
#1347	Poster Board Number245 Activation of Nrf2 by tBHQ Upregulates IgM Production by LPS-Activated Mouse Splenocytes. J. Bursley ¹ , T. Dunivin ¹ , S. Umthong ¹ , J. W. Zagorski ^{1,2} , A. E. Turley ^{1,3} , H. E. Dover ¹ , and C. E. Rockwell ^{1,2,3} . ¹ Department of Pharmacology & Toxicology, Michigan State University, East Lansing, MI; ² Cellular and Molecular Biology Program, Michigan State University, East Lansing, MI; and ³ Center for Integrated Toxicology, Michigan State University, East Lansing, MI.
#1348	Poster Board Number246 The Food Additive tBHQ Inhibits Activation of Primary Human CD4 T Cells. A. E. Turley ^{1,2} , J. W. Zagorski ^{2,3} , and C. E. Rockwell ^{1,2,3} . ¹ Pharmacology and Toxicology, Michigan State University, East Lansing, MI; ² Center for Integrative Toxicology, Michigan State University, East Lansing, MI; and ³ Cellular and Molecular Biology Program, Michigan State University, East Lansing, MI.
#1349	Poster Board Number247 The Food Additive, tBHQ, Exacerbates Anaphylactic Response to Food Allergen. C. E. Rockwell ^{1,2,4} , V. Gangur ³ , J. J. Pestka ³ , R. Para ³ , A. E. Turley ^{1,2} , J. W. Zagorski ^{2,4} , J. K. Bursley ¹ , and H. E. Dover ¹ . ¹ Pharmacology & Toxicology, Michigan State University, East Lansing, MI; ² Center for Integrative Toxicology, Michigan State University, East Lansing, MI; ³ Food Science & Human Nutrition, Michigan State University, East Lansing, MI; and ⁴ Cell & Molecular Biology Program, Michigan State University, East Lansing, MI.
#1350	Poster Board Number248 Renal Dendritic Cells Dependent on Flt3 but Not Csf1 Attenuate Cisplatin Nephrotoxicity. R. K. Tadagavadi, and W. Reeves. Medicine, Pennsylvania State University College of Medicine, Hershey, PA.
#1351	Poster Board Number249 Calpain Inhibition Protects HepG2 Cells from Cytotoxicity Induced by Treatment with NSAIDs in Combination with Inflammatory Cytokines: Implications for Idiosyncratic Hepatotoxicity. A. B. Breier ¹ , A. Maiuri ^{1,2} , R. A. Roth ^{1,2} , and P. E. Ganey ^{1,2} . ¹ Department of Pharmacology and Toxicology, Michigan State University, East Lansing, MI; and ² Center for Integrative Toxicology, Michigan State University, East Lansing, MI.
#1352	Poster Board Number250 Isoflavones Enhance Interleukin-17 Gene Expression via Retinoic Acid Receptor-Related Orphan Receptors α and γ H. Kojima ¹ , Y. Takeda ² , R. Muromoto ³ , M. Takahashi ³ , S. Takeuchi ¹ , A. M. Jetten ² , and T. Matsuda ³ . ¹ Hokkaido Institute of Public Health, Sapporo, Japan; ² National Institute of Environmental Health Sciences, Research Triangle Park, NC; and ³ Graduate School of Pharmaceutical Sciences, Hokkaido University, Sapporo, Japan. Sponsor: T. Yoshida.
#1353	Poster Board Number251 Pp²-DDE Alters Macrophage Reactivity <i>In Vitro</i> and Induces Monocyte/Macrophage Recruitment to the Stromal Vascular Fraction (SVF) of Adipose Tissue in C57Bl/6 Male Mice. L. Mangum ¹ , J. Stokes ² , G. E. Howell ¹ , M. K. Ross ¹ , S. B. Pruett ¹ , and J. E. Chambers ¹ . ¹ Center for Environmental Health Sciences College of Veterinary Medicine, Mississippi State University, Mississippi State, MS; and ² Basic Sciences College of Veterinary Medicine, Mississippi State University, Mississippi State, MS.
#1354	Poster Board Number252 Effect of Carbamate Pesticides on Perforin, Granzymes A-B-3/K, and Granulysin in Human Natural Killer Cells. Q. Li, M. Kobayashi, and T. Kawada. Hygiene and Public Health, Nippon Medical School, Tokyo, Japan.
#1355	Poster Board Number253 Metabolites of Organophosphorous Pesticides (Diethyldithiophosphate) Induce Changes in Macrophages Polarization in a Breast Cancer Model. L. Vega, D. M. Medina-Buevas, and E. Estrada-Muñiz. Toxicology, Centre for Research and Advanced Studies of the National Polytechnic Institute, Distrito Federal, Mexico.
#1356	Poster Board Number254 Antimicrobial Agent Triclosan Is a Mitochondrial Uncoupler in Rat and Human Mast Cells. L. Weatherly ^{1,2} , J. Shim ² , R. Kennedy-Smith ^{1,2} , H. Hashmi ² , K. Blais ² , S. McGillicuddy ² , and J. A. Gosse ^{1,2} . ¹ Graduate School of Biomedical Sciences and Engineering, University of Maine, Orono, ME; and ² Molecular and Biomedical Sciences, University of Maine, Orono, ME.
#1357	Poster Board Number255 Suppression of IFN-α Secretion by Plasmacytoid Dendritic Cells and IL-7Ra Expression in CD4 T Cells by Δ^9-Tetrahydrocannabinol. J. E. Henriquez ^{1,2} , R. Crawford ² , and N. E. Kaminski ^{1,2} . ¹ Pharmacology and Toxicology, Michigan State University, East Lansing, MI; and ² Centers for Integrative Toxicology, Michigan State University, East Lansing, MI.
#1358	Poster Board Number256 Exacerbation of House Dust Mite Antigen-Induced Asthmatic Symptoms in Adult B6C3F1 Mice following Developmental Exposure to Genistein. T. L. Guo ¹ , R. D. Brown ² , and A. H. Meng ² . ¹ University of Georgia, Athens, GA; and ² Virginia Commonwealth University, Richmond, VA.

TUESDAY

Program Schedule (Continued)

Abstract #

- #1359 **Poster Board Number257**
Amodiaquine-Induced Liver Injury in PD1-/- Mice Cotreated with Anti-CTLA-4 Is Characterized by an Increase in Th17 and CD8 T Cells. A. Mak, and J. Uetrecht. Pharmaceutical Sciences, University of Toronto, Toronto, ON, Canada.
- #1360 **Poster Board Number258**
Investigation of Immune Response to OVA Challenge in PD-1 Deficient Mice. W. J. Freebern¹, V. J. Johnson², J. Woicke³, F. G. Burlison², M. P. Bernard¹, L. T. Rosini-Marthaler⁴, H. G. Haggerty¹, and R. Bunch³. ¹Immunotoxicology, Bristol-Myers Squibb, New Brunswick, NJ; ²Burlison Research Technologies Inc., Morrisville, NC; ³Drug Safety Evaluation, Bristol-Myers Squibb, Mount Vernon, IN; and ⁴Operations, Bristol-Myers Squibb, Pennington, NJ.
- #1361 **Poster Board Number259**
Effects of Di-(n)-Butyl Phthalate (DBP) on Immune Cells In Vitro. R. Becher¹, B. P. Olderbø¹, J. A. Holme¹, U. C. Nygaard¹, P. E. Schwarze¹, and A. K. Bølling^{1,2}. ¹Department of Air Pollution and Noise, Norwegian Institute of Public Health, Oslo, Norway; and ²Department of Medicine, University of British Columbia, Vancouver, BC, Canada.
- #1362 **Poster Board Number260**
Role of POLD3 in Base Excision Repair Pathway in Burkett's Lymphoma Cells. I. Ban, and V. Poltoratsky. Pharmacy, St. John's University, Queens, NY.
- #1363 **Poster Board Number261**
Investigating the Role of B Cells in the Pathogenesis of Hydrocarbon Oil-Induced Lung Hemorrhage. P. Prasad, I. Valera, M. C. Fishbein, and R. Singh. Medicine-Division of Rheumatology, University of California, Los Angeles (UCLA), Los Angeles, CA.
- #1364 **Poster Board Number262**
Investigating the Role of Inflammasome Activation in the Proinflammatory Response Induced by Clozapine. A. Lobach^{1,2}, J. K. Weston¹, and J. Uetrecht¹. ¹Pharmaceutical Sciences, University of Toronto, Toronto, ON, Canada; and ²Food & Nutrition, Intertek Scientific & Regulatory Consulting, Mississauga, ON, Canada.
- #1365 **Poster Board Number263**
Activation of the NLRP3 Inflammasome As a Potential Biomarker of Idiosyncratic Drug Reactions. J. K. Weston, and J. Uetrecht. Pharmaceutical Science, University of Toronto, Toronto, ON, Canada.
- #1366 **Poster Board Number264**
AhR-Mediated Activation of Respiratory Innate Lymphoid Cells. D. M. Shepherd, B. P. Seaver, and C. A. Beamer. Biomedical and Pharmaceutical Sciences, University of Montana, Missoula, MT.
- #1367 **Poster Board Number265**
Shifts in Community of Mouse Gut Microbiome Exposed to TCDD. R. D. Stedtfeld¹, P. Bhaduri¹, T. M. Stedtfeld¹, K. Fader³, T. R. Zacharewski³, J. Tiedje², and S. A. Hashsham^{1,2}. ¹Civil and Environmental Engineering, Michigan State University, East Lansing, MI; ²Center for Microbial Ecology, Michigan State University, East Lansing, MI; and ³Biochemistry and Molecular Biology, Michigan State University, East Lansing, MI.

Abstract #

Tuesday Afternoon, March 24
1:00 PM to 4:30 PM
CC Exhibit Hall

Poster Session: Toxicity of Chemical Mixtures

Chairperson(s): Mansi Krishan, University of Cincinnati, Cincinnati, OH; and David R. Mattie, Air Force Research Laboratory, US Air Force, Wright-Patterson AFB, OH.

Displayed: 1:00 PM–4:30 PM

Author-Attended: 2:45 PM–4:30 PM

- #1368 **Poster Board Number301**
Growth and Oxidative Stress Effects in Adult Male Wistar Rats Coexposed to Atrazine and Arsenic. J. Adeyemi^{1,2}, A. Martins Jr², E. Paula², D. P. Oliveira², and F. Barbosa Jr². ¹Biological Sciences, Osun State University, Osogbo, Nigeria; and ²Clinical Analyses, Toxicology and Food Sciences, University of Sao Paulo, Ribeirao Preto, Brazil.
- #1369 **Poster Board Number302**
Tissue-Specific Effects of Chronic Coexposure of Cr (VI) + B[a]P in C57Bl/6J Mice. F. J. Sanchez-Martin, Y. Fan, V. S. Carreira, J. Ovesen, A. Vonhandorf, and A. Puga. Department of Environmental Health, University of Cincinnati, Cincinnati, OH.
- #1370 **Poster Board Number303**
Toxicity Evaluation of Binary Mixture of Benzo[a]pyrene and Cadmium in Human Hepatocellular Carcinoma Cell Line. S. Muthusamy^{1,2}, C. Peng^{1,2}, and J. Ng^{1,2}. ¹National Research Centre for Environmental Toxicology (Entox), University of Queensland, Brisbane, QLD, Australia; and ²CRC for Contamination Assessment and Remediation of the Environment, (CRC-CARE), Adelaide, QLD, Australia.
- #1371 **Poster Board Number304**
Influence of Binary Mixtures of Aromatic Amines and Benzo[a]pyrene on CYP1A1/1B1 Activities in RT4 Cells. S. Plöttner, H. U. Käfferlein, and T. Brüning. Institute for Prevention and Occupational Medicine of the German Social Accident Insurance - Institute of the Ruhr-Universität Bochum (IPA), Bochum, Germany.
- #1372 **Poster Board Number305**
Transcriptional and Biochemical Effects of Chlorpyrifos and Malathion and Their Mixtures on Neurobehavioral Function in Coho Salmon. L. Wang, H. M. Espinoza, J. W. MacDonald, T. K. Bammler, C. R. Williams, A. Yeh, K. W. Louie, and E. P. Gallagher. Department of Environmental and Occupational Health Sciences, University of Washington, Seattle, WA.
- #1373 **Poster Board Number306**
Assessment of Blood Lead and Polychlorinated Biphenyl (PCB) Levels and Toxicity in Construction Workers in Iowa. S. H. Enayah, F. Laurence, S. M. Flor, H. Lehmler, and G. Ludewig. Human Toxicology, University of Iowa, Iowa City, IA.

TUESDAY

Program Schedule (Continued)

Abstract #		Abstract #	
#1374	Poster Board Number307 Effects of Taurine on Motor Activity and Anxiety in Wistar Rats Co-Exposed to Chlorpyrifos and Lead. M. G. Akande ¹ , and S. F. Ambali ² . ¹ Veterinary Pharmacology and Toxicology, University of Abuja, Gwagwalada, Nigeria; and ² Veterinary Physiology and Pharmacology, University of Ilorin, Ilorin, Nigeria. Sponsor: <i>D. Wallace</i> .	#1382	Poster Board Number315 <i>In Vitro</i> Exposures to Isoprene-Derived Secondary Organic Aerosol: Assessing the Effects of SOA on Inflammation-Associated Gene Expression of BEAS-2B Using a Direct Deposition Approach. M. Arashiro, Y. Lin, K. G. Sexton, I. Jaspers, R. Fry, A. Gold, and J. Surratt. Environmental Sciences and Engineering, University of North Carolina at Chapel Hill, Chapel Hill, NC.
#1375	Poster Board Number308 Single Exposures to Lead, Inorganic Mercury, and Methylmercury Do Not Correctly Predict Their Mixture Effects on the Cardiovascular System. S. D. Siciliano ^{1,2} , L. P. Weber ^{2,3} , and T. Wildemann ^{1,2} . ¹ Soil Science, University of Saskatchewan, Saskatoon, SK, Canada; ² Toxicology Graduate Program, University of Saskatchewan, Saskatoon, SK, Canada; and ³ Veterinary Biomedical Sciences, University of Saskatchewan, Saskatoon, SK, Canada.	#1383	Poster Board Number316 Study of Bisphenol A and Naproxen Metabolic Interactions in Isolated Perfused Rat Liver. S. Bounakta, and S. Haddad. Environmental and Occupational Health, University of Montreal, Montréal, QC, Canada.
#1376	Poster Board Number309 Evaluation and Modeling of the Impact of Coexposures to VOC Mixtures on Urinary Biomarkers. A. Marchand ¹ , R. Aranda-Rodriguez ² , A. Nong ² , R. Tardif ² , and S. Haddad ¹ . ¹ Environmental and Occupational Health, Université de Montréal, Montréal, QC, Canada; and ² Exposure and Biomonitoring Division, Health Canada, Ottawa, ON, Canada.	#1384	Poster Board Number317 A Weight-of-Evidence (WOE) Approach to Include Nonchemical Factors in Chemical Mixtures Risk Assessment. M. Mumtaz ¹ , P. Ruiz ¹ , C. V. Smith ¹ , and L. Teuschler ² . ¹ Division of Toxicology and Environmental Medicine, CDC ATSDR, Atlanta, GA; and ² L. K. Teuschler and Associates, St. Petersburg, FL.
#1377	Poster Board Number310 Chemical Mixtures: Application of a Tiered Approach. M. Krishan ¹ , and G. Rice ² . ¹ ILSI North America, Washington, DC; and ² National Center for Environmental Assessment, US EPA, Cincinnati, OH.	#1385	Poster Board Number318 Predicting Joint Effects of PPARgamma Ligands Using Generalized Concentration Addition. J. Watt, T. Webster, and J. J. Schlezinger. Environmental Health, Boston University School of Public Health, Boston, MA.
#1378	Poster Board Number311 Mixtures of Full and Partial Agonists: Comparison of a Pharmacologic Model with the Toxic Unit Extrapolation Method and Generalized Concentration Addition. T. Webster. Department of Environmental Health, Boston University School of Public Health, Boston, MA.	#1386	Poster Board Number319 Enhancing the Chemical Mixture Methodology: New Approaches Using Target Organ System Effects, Mode of Action, and Specific Target Organ Effects. J. Yao, X. Yu, and C. Glantz. Fundamental & Computational Sciences Directorate, Pacific Northwest National Laboratory, Richland, WA. Sponsor: <i>A. Felsot</i> .
#1379	Poster Board Number312 The Silicoat Project: <i>In Vitro</i> and <i>In Vivo</i> Toxicity Screening of Quartz Varieties from Ceramics Industry and Approaches for an Effective Quartz Surface Coating. O. H. Creutzenberg ¹ , S. Reamon-Buettner ¹ , T. Tillmann ¹ , T. Hansen ¹ , M. J. Garcia ² , E. Monfort ² , G. Bonvicini ³ , A. Escrig ³ , and C. Ziemann ¹ . ¹ Inhalation Toxicology, Fraunhofer Institute of Toxicology and Experimental Medicine, Hannover, Germany; ² Instituto de Tecnologia Ceramica-AICE, Castellon, Spain; and ³ Centro Ceramico di Bologna, Bologna, Italy. Sponsor: <i>C. Dasenbrock</i> .	#1387	Poster Board Number320 Health Hazard Assessment Summary of Alcohol-to-Jet (ATJ) Alternative Jet Fuels. D. R. Mattie ¹ , K. L. Mumy ² , L. M. Sweeney ^{2,3} , G. Reddy ⁴ , W. C. McCain ¹ , and T. R. Sterner ^{1,3} . ¹ 711 HPW/RHDJ, Wright-Patterson Air Force Base, OH; ² NAMRU-D, Wright-Patterson Air Force Base, OH; ³ HJF, Wright-Patterson Air Force Base, OH; and ⁴ USAPHC, Aberdeen Proving Ground, MD.
#1380	Poster Board Number313 Histological Pathological Changes in the Kidney of Mouse, <i>Mus norvegicus albinus</i>, on Exposure to Fluoride, Aluminum, and Mixtures. A. Vijaya Bhaskara Rao. Ecology and Environmental Sciences, Pondicherry University, Puducherry, India.	#1388	Poster Board Number321 An <i>In Vitro</i> Approach to Predict Chemical Mixtures Cytotoxicity Using Post-Translational Phosphorylation Responses of Individual Chemicals. J. A. Vrana, A. A. Han, and J. W. Boyd. Chemistry, West Virginia University, Morgantown, WV.
#1381	Poster Board Number314 An Assessment of the Impact of Concomitant Exposure and Human Variability on the Calculation of LEQ for Three Drinking Water Contaminants. H. Tohon ¹ , S. Haddad ¹ , and M. Valcke ² . ¹ Environmental and Occupational Health, IRSPUM, Université de Montréal, Montréal, QC, Canada; and ² INSPQ, Montréal, QC, Canada.	#1389	Poster Board Number322 Using Signal Transduction to Forecast Cell Death in Response to Chemical Mixtures. J. W. Boyd, J. A. Vrana, and A. A. Han. Chemistry, West Virginia University, Morgantown, WV.
		#1390	Poster Board Number323 Toxicity of Disinfection Byproducts in Normal Human Colon Cell Cultures. V. M. Richardson ¹ , J. Simmons ¹ , and M. Moyer ² . ¹ US EPA, Research Triangle Park, NC; and ² INCELL Corporation, San Antonio, TX.

TUESDAY

Program Schedule (Continued)

Abstract #

#1391 **Poster Board Number324**
Combined Toxic Effects of Cadmium Ions and Dioxins on Zebrafish. *Y. Chen, and K. Chan.*
 Biochemistry, School of Life Science, The Chinese University of Hong Kong, Hong Kong, China.

Tuesday Afternoon, March 24
1:00 PM to 4:30 PM
CC Exhibit Hall

Poster Session: Food Safety, In Vivo

Chairperson(s): *Ronald Riley, USDA, Athens, GA.*

Displayed: 1:00 PM–4:30 PM

Author-Attended: 1:00 PM–2:45 PM

#1392 **Poster Board Number325**
Detecting Fumonisin-Induced Changes in Putative Sphingolipid Biomarkers in LM/Bc Mice and Humans Using Blood Spots. *R. T. Riley¹, J. L. Showker¹, C. M. Lee¹, T. R. Mitchell¹, K. A. Voss¹, N. C. Zitomer¹, O. Torres^{2,3}, J. Matute³, S. G. Gregory⁴, A. E. Ashley-Koch⁴, J. R. Maddox³, and J. B. Gelineau-van Waes⁵.* ¹USDA-ARS-RRC-TMRU, Athens, GA; ²Laboratorio Diagnostico Molecular S.A., Guatemala City, Guatemala; ³Centro de Investigaciones en Nutrición y Salud, Guatemala City, Guatemala; ⁴Duke University Medical Center, Durham, NC; and ⁵Creighton University School of Medicine, Omaha, NE.

#1393 **Poster Board Number326**
Coexposure to Fumonisin and Aflatoxins in Maize-Based Foods in Central America: Guatemala As a Case Study. *K. A. Voss¹, O. Torres², J. Matute², J. B. Gelineau-van Waes³, J. R. Maddox³, S. G. Gregory⁴, A. E. Ashley-Koch⁴, J. L. Showker¹, and R. T. Riley¹.* ¹USDA Agricultural Res. Service, Athens, GA; ²Centro de Investigaciones en Nutrición y Salud, Guatemala City, Guatemala; ³Creighton University School of Medicine, Omaha, NE; and ⁴Duke University Medical Center, Durham, NC.

#1394 **Poster Board Number327**
Sex and Age Are Critical Factors That Impact Deoxynivalenol Clearance in Mice. *E. S. Clark¹, C. J. Doan¹, P. Fruhmant², and J. J. Pestka¹.* ¹Michigan State University, East Lansing, MI; and ²Vienna University of Technology, Vienna, Austria.

#1395 **Poster Board Number328**
Safety Evaluation of the Dietary Ingredient Melatonin. *A. W. Wong.* Council for Responsible Nutrition, Washington, DC.

#1396 **Poster Board Number329**
Safety and Toxicological Evaluation of a Novel *Prunus domestica* (CR002) Extract. *D. Bagchi^{1,2}, M. Bagchi², A. Swaroop², and P. Kumar³.* ¹Pharmacological & Pharmaceutical Sciences, University of Houston College of Pharmacy, Houston, TX; ²R&D, Cepham Research Center, Piscataway, NJ; and ³R&D, Chemical Resources, Panchkula, India.

Abstract #

#1397 **Poster Board Number330**
Locust Bean Gum Safety in Neonates and Young Infants—Integrated Review of the Toxicological Database and Clinical Evidence. *L. Meunier¹, J. Garthoff¹, A. Schaafsma², L. Krul³, J. Schrijver⁴, J. B. van Goudoever^{5,6}, G. Speijers⁷, and Y. Vandenplas⁸.* ¹Food Safety Center, Danone Nutricia, Utrecht, Netherlands; ²FrieslandCampina, Amersfoort, Netherlands; ³TNO, Zeist, Netherlands; ⁴Danone Nutricia Early Life Nutrition, Schiphol Airport, Netherlands; ⁵Academic Medical Center, Emma Children's Hospital, Amsterdam, Netherlands; ⁶Department of Pediatrics, VU University Medical Center, Amsterdam, Netherlands; ⁷General Health Effects Toxicology Safety Food (GETS), Nieuwegein, Netherlands; and ⁸Department of Pediatrics, UZ Brussel, Vrije Universiteit Brussel, Brussels, Belgium.

#1398 **Poster Board Number331**
Six-Month Dosed-Feed Toxicity of Chitosan in Harlan Sprague-Dawley Rats. *B. C. Sayers, M. Cora, S. Elmore, G. E. Kissling, M. Vallant, and C. R. Blystone.* Division of the National Toxicology Program, National Institute of Environmental Health Sciences, Research Triangle Park, NC.

#1399 **Poster Board Number332**
Shaping Health Perceptions: Effectively Communicating about Chemicals in Food. *E. Petrun², A. O. Flood¹, T. Sellnow³, and M. Smith Edge¹.* ¹Food Safety, IFIC, Washington, DC; ²UMD, College Park, MD; and ³UKY, Lexington, KY. Sponsor: *A. Cuevas.*

#1400 **Poster Board Number333**
Modulation of the Spleen Transcriptome by Aflatoxin B1 in the Turkey. *M. S. Monson², R. E. Settlage³, S. Rawal¹, H. El-Nezami⁴, K. M. Reed², and R. A. Coulombe¹.* ¹Toxicology Graduate Program, Utah State University, Logan, UT; ²Department of Veterinary and Biomedical Sciences, University of Minnesota, St. Paul, MN; ³Virginia Bioinformatics Institute, Virginia Polytechnic Institute and State University, Blacksburg, VA; and ⁴School of Biological Sciences, University of Hong Kong, Hong Kong, Hong Kong.

#1401 **Poster Board Number334**
Pathological Changes in Acute Experimental Aflatoxicosis in Holstein Calves: Preliminary Results. *C. De Luna-Lopez¹, A. G. Valdivia⁴, F. Jaramillo Juarez², J. Reyes-Sanchez², R. Ortiz-Martinez¹, and T. Quezada-Tristan⁴.* ¹Disciplinas Pecuarias, Universidad Autonoma de Aguascalientes, Aguascalientes, Mexico; ²Fisiología y Farmacología, Universidad Autonoma de Aguascalientes, Aguascalientes, Mexico; ³Fisiología, Biofísica y Neurociencias, CINVESTAV, Mexico City, Mexico; and ⁴Clinica Veterinaria, Universidad Autonoma de Aguascalientes, Aguascalientes, Mexico. Sponsor: *G. Pallas-Guzman.*

#1402 **Poster Board Number335**
Health Hazard Assessment for Dicyanamide and an Evaluation of Exposure via Dairy Products. *S. Assimon, and J. Sheehan.* CFSAN, USFDA, College Park, MD.

#1403 **Poster Board Number336**
Caffeine Intake: A Comparison of Consumption Data and Marketing Data. *C. Llewellyn, and C. Rodriguez.* Global Scientific and Regulatory Affairs, The Coca-Cola Company, Atlanta, GA.

Program Schedule (Continued)

Abstract

- #1404 **Poster Board Number337**
Benzoate Preservatives: An Evaluation of the Safety Database. C. Rodriguez, and C. Llewellyn. Global Scientific and Regulatory Affairs, The Coca-Cola Company, Atlanta, GA.
- #1405 **Poster Board Number338**
Risk Assessment of Dietary Intake of Aluminum-Containing Food Additives in China in 2009 and 2014. A. Lau, and L. A. Haighton. Intertek, Mississauga, ON, Canada.
- #1406 **Poster Board Number339**
Accumulation of Lolitrem B Residues in the Fat of Cattle Fed Perennial Ryegrass Straw. J. M. Durringer¹, A. Moon¹, and A. M. Craig². ¹Environmental and Molecular Toxicology, Oregon State University, Corvallis, OR; and ²Biomedical Sciences, Oregon State University, Corvallis, OR.
- #1407 **Poster Board Number340**
Acute Renal Toxicity Induced by Oral Exposure to Diglycolic Acid. Z. Keltner¹, N. Olejnik¹, C. Stine², E. Evans², M. Mossoba¹, S. Vohra³, H. Toomer³, J. Sprando³, V. Topping¹, K. Belgrave¹, A. S. DePina¹, T. Black¹, and R. Sprando¹. ¹Division of Toxicology/Office of Applied Research and Safety Assessment/Center for Food Safety and Applied Nutrition, US Food and Drug Administration, Laurel, MD; ²Center For Veterinary Medicine, US Food and Drug Administration, Laurel, MD; and ³Office of Applied Research and Safety Assessment, ORISE, Laurel, MD. Sponsor: J. Yourick.
- #1408 **Poster Board Number341**
Dietary Glycotoxins Increase Advanced Glycation End Products, but Do Not Accelerate Atherosclerotic Plaque Formation in Diabetic Apolipoprotein E-Deficient Mice. C. Svendsen¹, J. Serrano², M. Martin-Gari², M. Mateu-Dolcet², M. Santacana², T. Husøy¹, J. Alexander¹, and M. Portero-Otin². ¹Norwegian Institute of Public Health, Oslo, Norway; and ²University of Lleida, Lleida, Spain. Sponsor: B. Granum.
- #1409 **Poster Board Number342**
Lack of Toxicity of the Omega-3 Fatty Acids, EPA and DHA. H. B. Rice¹, and J. C. Griffiths². ¹Global Organization for EPA and DHA Omega-3s (GOED), Salt Lake City, UT; and ²Council for Responsible Nutrition, Washington, DC.
- #1410 **Poster Board Number343**
Toxicity Studies of *Icacina trichantha* Tuber Extract and Fractions. M. M. Onakpa^{1,2,3}, M. Zhao³, I. U. Asuzu², and C. Che³. ¹Veterinary Pharmacology and Toxicology, University of Abuja, Abuja, Nigeria; ²Department of Veterinary Physiology and Pharmacology, University of Nigeria, Nsukka, Nigeria; and ³Medicinal Chemistry and Pharmacognosy, University of Illinois at Chicago, Chicago, IL.
- #1411 **Poster Board Number344**
Polyphenolics from Mango (*Mangifera indica* L.) Suppress Breast Cancer Ductal Carcinoma by Targeting the mTOR Pathway *In Vivo*. M. Nemeček^{1,2}, H. Kim², A. Marcianti³, R. Barnes², S. Talcott², and S. Talcott^{1,2}. ¹Interdisciplinary Program of Toxicology, Texas A&M University, College Station, TX; ²Department of Nutrition and Food Science, Texas A&M University, College Station, TX; and ³Department of Biology, Texas A&M University, College Station, TX.

Abstract

- #1412 **Poster Board Number345**
Aflatoxin B1-Induced Gut Microbiome Changes in Male F344 Rats. J. Wang, L. Tang, T. C. Glenn, and J. Wang. Environmental Health Science, The University of Georgia, Athens, GA.
- #1413 **Poster Board Number346**
“Substantially Equivalent”: The Intersection of Toxicology and Policy in Characterizing Genetically Modified Foods (GMFs). M. Lovrich-Kerr¹, and T. Dodd-Butera². ¹Union Institute & University, Cincinnati, OH; and ²Nursing, CSU San Bernardino, College of Natural Sciences, San Bernardino, CA.
- #1414 **Poster Board Number347**
Effect of Exposure of Diacetyl in Proteomics and Metabolomics Approach in Mice Model. N. A. Assunção, and L. D. Jedlicka. Hard Sciences and Earth Sciences, UNIFESP, Sao Paulo, Brazil. Sponsor: E. Bechara.

Tuesday Afternoon, March 24
1:00 PM to 4:30 PM
CC Exhibit Hall

Poster Session: Reproductive Toxicology I

Chairperson(s): Jeffrey S. Moffit, FORUM Pharmaceuticals Inc, Boston, MA; and Vicki Sutherland, Toxicology Branch, National Toxicology Program, Research Triangle Park, NC.

Displayed: 1:00 PM–4:30 PM

Author-Attended: 2:45 PM–4:30 PM

- #1415 **Poster Board Number401**
Avian Reproductive Toxicology Studies: Historical Data—*Coturnix coturnix japonica*. D. J. Esdaile, K. Sipos, and S. Gaty. CiToxLAB Hungary, Veszprem, Hungary. Sponsor: R. Forster.
- #1416 **Poster Board Number402**
The Effects of Long-Lasting Hypoglycemia on Male Reproductive Organs in Rats. T. Kobayashi, J. Namekawa, T. Shimomoto, M. Yasui, T. Iijima, Y. Itano, and D. Miura. Pharmaceutical Development Research Laboratories, Teijin Pharma Limited, Tokyo, Japan.
- #1417 **Poster Board Number403**
Nonhuman Primate Pre/Postnatal Studies: Does Measurement of Monoclonal Antibodies in Breast Milk Provide Useful Information? S. Karanth, J. K. Meyer, D. L. Newcomb, and G. J. Chellman. Toxicology, Charles River, Safety Assessment, Reno, NV.
- #1418 **Poster Board Number404**
Absence of Adverse Effects on Developmental Toxicity in an F1 Extended Two-Generation Reproductive Toxicity Study with Carbendazim. B. Neal¹, A. Hunerdosse², K. Hill², R. Read², R. Gilmore², and D. Dandekar². ¹Exponent Inc, Alexandria, VA; and ²Xenometrics LLC, Stilwell, KS.
- #1419 **Poster Board Number405**
Extended One-Generation Reproductive Toxicity Test in Rats Exposed to 3-Nitro-1,2,4-Triazol-5-One (NTO). E. M. Lent, L. Crouse, A. M. Jackovitz, and M. S. Johnson. Toxicology Portfolio, Army Institute of Public Health, Aberdeen Proving Ground, MD.

TUESDAY

Program Schedule (Continued)

Abstract #		Abstract #	
#1420	Poster Board Number406 Ethylenthiourea (ETU): An Extended One-Generation Reproductive Toxicity Study (EOGRTS) in Rats. <i>M. Aggarwal</i> ¹ , <i>C. Zablodny</i> ² , <i>A. K. Andrus</i> ² , <i>S. Marty</i> ² , and <i>A. Chukwudebe</i> ³ . ¹ Dow AgroSciences, Abingdon, United Kingdom; ² Dow Chemical Company, Midland, MI; and ³ BASF Corporation, Durham, NC.	#1428	Poster Board Number414 Enhanced Reproductive and Behavioral Deficits Induced by Maternal Exposure to a Mixture of Low-Dose Endocrine-Disrupting Chemicals. <i>M. Sobolewski</i> , <i>K. Conrad</i> , <i>J. L. Allen</i> , and <i>D. A. Cory-Slechta</i> . University of Rochester, Rochester, NY.
#1421	Poster Board Number407 Current Use of the National Toxicology Program (NTP) Modified One-Generation Reproduction (MOG) Study. <i>P. M. Foster</i> , <i>M. Behl</i> , <i>B. McIntyre</i> , and <i>V. Sutherland</i> . National Toxicology Program, NIEHS, Research Triangle Park, NC.	#1429	Poster Board Number415 Reproductive Safety Evaluation of L-Ergothioneine. <i>P. Singh</i> ¹ , <i>F. Spezia</i> ¹ , <i>D. Papineau</i> ¹ , <i>C. Sabadie</i> ¹ , <i>R. Forster</i> ¹ , <i>M. Moutet</i> ² , and <i>J. Yadan</i> ² . ¹ CiToxLAB, Evreux, France; and ² Tetrahedron, Vincennes, France.
#1422	Poster Board Number408 Endocrine Activity of Bisphenol AF As Assessed by a Modified One-Generation Reproduction (MOG) Study in Harlan Sprague-Dawley Rats. <i>V. Sutherland</i> ¹ , <i>B. McIntyre</i> ¹ , <i>K. Turner</i> ² , <i>H. C. Cunny</i> ¹ , <i>L. E. Gray</i> ³ , <i>M. Mercado</i> ¹ , and <i>P. M. Foster</i> ¹ . ¹ NTP, NIEHS, Research Triangle Park, NC; ² DST, RTI, Research Triangle Park, NC; and ³ TAD/NHEERL/ORD, USEPA, Research Triangle Park, NC.	#1430	Poster Board Number416 Reproductive Organ Toxicity of <i>Catharanthus roseus</i> in Male Albino Rats. <i>S. Chauhan</i> ¹ , and <i>S. Agrawal</i> ² . ¹ Indian Council of Medical Research, New Delhi, India; and ² Bhilai Mahila Mahavidyalaya, Bhilai, India.
#1423	Poster Board Number409 NTP Modified One-Generation Assessment (MOG) of 2-Ethylhexyl p-Methoxycinnamate (EHMC) in Hsd:Sprague-Dawley SD Rats. <i>B. McIntyre</i> ¹ , <i>K. Turner</i> ² , <i>S. Waidyanatha</i> ¹ , <i>H. C. Cunny</i> ¹ , and <i>P. M. Foster</i> ¹ . ¹ NIEHS/NTP, Research Triangle Park, NC; and ² RTI International, Research Triangle Park, NC.	#1431	Poster Board Number417 Reproductive Toxicity of the Methanol Root Extract of <i>Cnestis ferruginea</i> (de Candolle) in Male Rats. <i>F. O. Olayemi</i> . Veterinary Physiology, Biochemistry and Pharmacology, University of Ibadan, Ibadan, Nigeria.
#1424	Poster Board Number410 Effect of Orally Administered Encenicline (EVP-6124), a Selective $\alpha 7$ Nicotinic Acetylcholine Receptor Partial Agonist, on Pre- and Postnatal Development of Rats. <i>J. S. Moffit</i> , <i>A. Hansen</i> , and <i>G. Loewen</i> . FORUM Pharmaceuticals Inc, Watertown, MA.	#1432	Poster Board Number418 Reproductive and Toxic Effects of Methanol Extract of <i>Alchornea cordifolia</i> Leaf in Male Rats. <i>T. Ajibade</i> , and <i>F. O. Olayemi</i> . University of Ibadan, Ibadan, Nigeria.
#1425	Poster Board Number411 Intramuscular Administration of CpG7909 in Rats and Rabbits to Assess Fertility, Embryo-Fetal Development, and Postnatal Potential Toxicity. <i>C. Planty</i> ¹ , <i>G. Giordano</i> ¹ , <i>F. Delannois</i> ³ , <i>L. Segal</i> ² , <i>K. Thacker</i> ⁴ , <i>L. Reynaud</i> ⁵ , <i>E. Destexhe</i> ¹ , and <i>N. Garçon</i> ¹ . ¹ R&D, GSK, Rixensart, Belgium; ² RA, GSK, Wavre, Belgium; ³ Safety, GSK, Wavre, Belgium; ⁴ Tox, Huntington Life Science, Ltd, United Kingdom; and ⁵ Tox, WIL Research-Europe, Lyon, France.	#1433	Poster Board Number419 Enhanced Reproductive Toxicological Testing of Prochloraz at Environmentally Relevant Concentrations. <i>S. Melching-Kollmuss</i> ¹ , <i>S. Schneider</i> ² , <i>I. Fegert</i> ¹ , and <i>B. van Ravenzwaay</i> ² . ¹ Regulatory Toxicology Crop Protection, BASF SE, Ludwigshafen, Germany; and ² Experimental Toxicology and Ecology, BASF SE, Ludwigshafen, Germany.
#1426	Poster Board Number412 Prenatal Exposure to Di-(2-Ethylhexyl) Phthalate May Have Two-Generational Effects on Female Reproductive Outcomes. <i>S. Rattan</i> , <i>S. Steinmann</i> , and <i>J. A. Flaws</i> . Comparative Biosciences, University of Illinois at Urbana Champaign, Urbana, IL.	#1434	Poster Board Number420 Reproductive Toxicity and Meiotic Dysfunction following Exposure to the Pesticides Maneb, Diazinon, and Fenarimol. <i>D. A. Parodi</i> , <i>J. Sjarif</i> , <i>Y. Chen</i> , and <i>P. Allard</i> . UCLA, Los Angeles, CA.
#1427	Poster Board Number413 Comparative Assessment of the Effects of Prenatal Exposures to Bisphenol A (BPA) and Di (2-Ethylhexyl) Phthalate on Testicular Development in Male Rats. <i>J. O. Olukunle</i> ^{2,1} , <i>F. M. Abdel-Maksoud</i> ¹ , and <i>B. T. Akingbemi</i> ¹ . ¹ Department of Anatomy, Physiology and Pharmacology, Auburn University, Auburn, AL; and ² Veterinary Physiology and Pharmacology, University of Agriculture, Abeokuta, Abeokuta, Nigeria.	#1435	Poster Board Number421 Validation of an ELISA for Analysis of Inhibin B in Rat Serum. <i>T. Nett</i> , <i>M. Allen</i> , <i>K. Moreng</i> , and <i>E. Weber</i> . Endolytics, LLC, Fort Collins, CO. Sponsor: <i>M. Legare</i> .
		#1436	Poster Board Number422 Ethylene Glycol Monomethyl Ether-Induced Testicular Toxicity in <i>Cynomolgus</i> Monkeys. <i>K. Sakurai</i> , <i>K. Mikamoto</i> , <i>M. Shirai</i> , <i>K. Ito</i> , <i>K. Mori</i> , and <i>W. Takasaki</i> . Medicinal Safety Research Laboratories, Daiichi Sankyo, Tokyo, Japan.
		#1437	Poster Board Number423 Comparative Mammary Gland Development in Male and Female Harlan Sprague-Dawley Rats: From Bud Development to Adulthood. <i>A. J. Filgo</i> ^{1,2} , <i>J. Foley</i> ³ , <i>C. Reed</i> ¹ , <i>V. Chappell</i> ¹ , and <i>S. E. Fenton</i> ¹ . ¹ NTP Laboratory, NIEHS, Research Triangle Park, NC; ² Curriculum of Toxicology, UNC, Chapel Hill, NC; and ³ CMPB, NIEHS, Research Triangle Park, NC.

Program Schedule (Continued)

Abstract #

- #1438 **Poster Board Number 424**
Derivation of a Maximum Allowable Dose Level for Methyl Chloride. J. Fleischer, and M. H. Whittaker. ToxServices LLC, Washington, DC.
- #1439 **Poster Board Number 425**
A Data-Based Proposal for Derivation and Validation of a Specific Concentration Limit (SCL) Threshold for the Reproductive Toxicity of Tetrapropenyl Phenol (TPP). D. Roesh, T. Patterson, L. Roberts, Z. Naufal, T. Wegesser, and S. Kinsler. Chevron, San Ramon, CA.

Tuesday Afternoon, March 24
 1:00 PM to 4:30 PM
 CC Exhibit Hall

Poster Session: Reproductive Toxicology II

Chairperson(s): Caitlin Murphy, University of Texas at Austin, Austin, TX; and Brandiese Beverly, US EPA, Durham, NC.

Displayed: 1:00 PM–4:30 PM

Author-Attended: 1:00 PM–2:45 PM

- #1440 **Poster Board Number 428**
Mono-(2-ethylhexyl) Phthalate-Induced Sertoli Cell Injury Stimulates Macrophage Infiltration and the Production of Proinflammatory Cytokines in Peripubertal Male Fischer Rats. C. Murphy, A. Stermer, and J. H. Richburg. Pharmacology and Toxicology, University of Texas at Austin, Austin, TX.
- #1441 **Poster Board Number 429**
Simvastatin Reduces Fetal Testosterone Production and Permanently Alters Reproductive Tract Development in the Male Crl:CD(SD) Rat. B. Beverly^{1,2}, J. R. Furr², C. Lambright², B. McIntyre³, P. M. Foster², G. Travlos³, V. S. Wilson², and L. E. Gray². ¹ORISE, Oak Ridge, TN; ²US EPA, Durham, NC; and ³NIH, Research Triangle Park, NC.
- #1442 **Poster Board Number 430**
A 10-Day Exposure to Di-n-butyl Phthalate (DBP) Disrupts Ovarian Function in CD-1 Mice. N. Sen, X. Liu, and Z. R. Craig. Animal and Comparative Biomedical Sciences, University of Arizona, Tucson, AZ.
- #1443 **Poster Board Number 431**
Acute Mono-2-ethylhexyl Phthalate Exposure Causes Time-Dependent Alteration in Macrophage Functionality in the Peripubertal Fischer Rat Testis. A. Stermer, C. Murphy, and J. H. Richburg. Pharmacology and Toxicology, University of Texas at Austin, Austin, TX.
- #1444 **Poster Board Number 432**
Di(2-Ethylhexyl) Phthalate Inhibits Estradiol Biosynthesis in Cultured Mouse Antral Follicles. P. R. Hannon, and J. A. Flaws. Department of Comparative Biosciences, University of Illinois, Urbana, IL.
- #1445 **Poster Board Number 433**
Phthalate Mixture Exposure Affects Folliculogenesis and Induces Oxidative Stress in Neonatal Mouse Ovaries. C. Zhou¹, Z. Li², and J. A. Flaws¹. ¹Comparative Biosciences, University of Illinois at Urbana-Champaign, Urbana, IL; and ²Roy J. Carver Biotechnology Center, University of Illinois at Urbana-Champaign, Urbana, IL.

Abstract #

- #1446 **Poster Board Number 434**
Outcome in Zygote Development after *In Vivo* Exposure to Di(2-ethylhexyl) Phthalate May Depend on the Fertilization System. A. Veloz-Contreras¹, S. Vargas-Marin¹, M. Sánchez-Gutiérrez², D. G. Acuña-Hernández³, J. R. Herrick³, and I. Hernández-Ochoa¹. ¹Department of Toxicology, Cinvestav-IPN, Mexico City, Mexico; ²Instituto de Ciencias de la Salud, UAEH, Pachuca, Mexico; and ³National Foundation for Fertility Research, Center for Reproductive Medicine, Lone Tree, CO.
- #1447 **Poster Board Number 435**
Effects of Tamoxifen on the Signaling Pathway of Ovary Maintenance and Activation of Sex Reversal in Adult Female Mice. W. Liu¹, M. Yu¹, J. Wang², J. Qin³, Y. Wang¹, and Y. Wang¹. ¹School of Environmental Science and Technology, Dalian University of Technology, Dalian, China; ²School of Life Science and Biotechnology, Dalian University of Technology, Dalian, China; and ³Department of Developmental and Regenerative Biology, Jinan University, Guangzhou, China.
- #1448 **Poster Board Number 436**
Genistein May Alter Steroidogenesis by Decreasing Steroidogenic Enzyme Expression in Mouse Ovaries. S. Patel, J. Peretz, and J. A. Flaws. Comparative Biosciences, University of Illinois at Urbana-Champaign, Urbana, IL.
- #1449 **Poster Board Number 437**
Equol Inhibits Growth and Estradiol Production in Mouse Antral Follicles *In Vitro*. S. Mahalingam, L. Gao, and J. A. Flaws. Comparative Biosciences, University of Illinois at Urbana-Champaign, Urbana, IL.
- #1450 **Poster Board Number 438**
Quercetin Attenuates Oxidative Testicular Damage in STZ-Induced Diabetic Rats. S. Alreja¹, and O. Alkhamies². ¹Pharmacology & Toxicology, KSU, Riyadh, Saudi Arabia; and ²Imam University, Riyadh, Saudi Arabia. Sponsor: N. Zawia.
- #1451 **Poster Board Number 439**
Prior Attenuation of KiSS1 mRNA Expression in LH-Surge Center Is a Trigger for the Delayed Effect Induced by Neonatal Exposure to Estrogens in Rats. R. Ichimura^{1,2,3}, M. Takahashi¹, T. Morikawa¹, K. Inoue¹, J. Maeda¹, K. Usuda², M. Yokosuka⁴, G. Watanabe², and M. Yoshida¹. ¹Division of Pathology, National Institute of Health Science, Tokyo, Japan; ²Department of Veterinary Medicine, Tokyo University of Agriculture and Technology, Tokyo, Japan; ³Pharmaceutical Research Center, Mochida Pharmaceutical Co., Ltd., Shizuoka, Japan; and ⁴Graduate School of Veterinary Medicine, Nippon Veterinary and Life Science University, Tokyo, Japan.
- #1452 **Poster Board Number 440**
Individual and Mixture Endocrine Activity of BPS and BPC Using *In Vitro* Estrogenic/Antiandrogenic Transcriptional Activation Assays and the *In Vivo* Uterotrophic Assay. J. M. Conley^{1,2}, M. Cardon², N. Evans², L. E. Gray², P. M. Foster², J. R. Furr², B. R. Hannas², P. Hartig², V. Sutherland³, and V. S. Wilson². ¹ORISE Postdoctoral Fellow, USEPA, Research Triangle Park, NC; ²TAD/NHEERL/ORD, USEPA, Research Triangle Park, NC; and ³NTP/NIEHS, NIH, Research Triangle Park, NC.

TUESDAY

Program Schedule (Continued)

Abstract #	Abstract #
<p>#1453 Poster Board Number 441 Perinatal Exposures to Bisphenol (BP) Analogs and Their Effects on Early and Pubertal Development in CD-1 Mice. D. K. Tucker^{1,2}, S. Ye³, A. Calafat³, G. E. Kissling⁴, and S. E. Fenton². ¹Curriculum in Toxicology, UNC Chapel Hill, Chapel Hill, NC; ²NTPL, DNTP, NIEHS, Research Triangle Park, NC; ³DLS, NCEH, CDC, Atlanta, GA; and ⁴DIR, NIEHS, Research Triangle Park, NC.</p>	<p>#1461 Poster Board Number 449 Mechanism of the Toxic Effect of the Cocktail Carbendazim-Iprodione on the Pubertal Seminiferous Epithelium: An Ex Vivo Study. M. Perrard¹, A. Blondet², D. Carette³, G. Martin³, E. Christin³, G. Pointis³, and P. H. Durand². ¹U 846, INSERM, Lyon, France; ²Toxicology, Kallistem, Lyon, France; and ³U 1065, INSERM, Nice, France. Sponsor: R. Witorsch.</p>
<p>#1454 Poster Board Number 442 The Effect of Bisphenol A on Cumulus Cells Expansion and Oocyte Viability in an In Vitro System. D. G. Acuña-Hernández, and I. Hernández-Ochoa. Department of Toxicology, Cinvestav-IPN, Mexico City, Mexico.</p>	<p>#1462 Poster Board Number 450 Administration of 1-Aminobenzotriazole Reduces Adverse Effects of 1-Bromopropane on Epididymal Sperm. C. Huang¹, E. Garner², C. Zong^{3,1}, X. Zhang^{3,1}, L. Zhang³, S. Ichihara⁴, and G. Ichihara³. ¹Nagoya University, Nagoya, Japan; ²Lovelace Respiratory Research Institute, Albuquerque, NM; ³Occupational and Environmental Health, Tokyo University of Science, Noda, Japan; and ⁴Mie University, Tsu, Japan.</p>
<p>#1455 Poster Board Number 443 Chronic Low Levels of Bisphenol A Exposure Impairs Uterine Functions during Early Pregnancy by Disrupting Progesterone Receptor-Mediated Signaling. Q. Li^{1,2}, J. Davila¹, M. K. Bagchi², and I. C. Bagchi¹. ¹Comparative Biosciences, University of Illinois at Urbana-Champaign, Urbana, IL; and ²Molecular & Integrative Physiology, University of Illinois at Urbana-Champaign, Urbana, IL.</p>	<p>#1463 Poster Board Number 451 SO2 and Fluoride Changed the miRNAs Expression Profiling in Mice Testis. J. Zhang¹, S. Wang², C. Liang¹, R. Niu¹, Z. Sun¹, and J. Wang¹. ¹Shanxi Key Laboratory of Ecological Animal Science and Environmental Veterinary Medicine, Shanxi Agricultural University, Taigu, China; and ²Physiology and Neurobiology, University of Virginia, Charlottesville, VA.</p>
<p>#1456 Poster Board Number 444 Benzo[a]pyrene Increases Germ Cell Apoptosis and Reduces Germ Cell Number in the Mouse Fetal Ovary. J. Lim, W. Kong, and U. Luderer. Medicine, University of California, Irvine, CA.</p>	<p>#1464 Poster Board Number 452 Mechanisms Underlying the Testicular Toxicity of Atrazine in Rats and Sertoli-Germ Cell Coculture. E. O. Farombi. Biochemistry, University of Ibadan, Ibadan, Nigeria.</p>
<p>#1457 Poster Board Number 445 Cigarette Smoke Exposure Triggers the Autophagic Cascade via Activation of the AMPK Pathway. H. Furlong¹, M. Stampfli², A. M. Gannon¹, and W. G. Foster¹. ¹Obstetrics and Gynecology, McMaster University, Hamilton, ON, Canada; and ²Pathology and Molecular Medicine, McMaster University, Hamilton, ON, Canada.</p>	<p>#1465 Poster Board Number 453 A New Oxidative Mechanism of Methyl Parathion Reproductive Toxicity: Disruption of the Blood-Testis Barrier. P. Tello-Mora¹, M. J. Solís-Heredia¹, M. Ortega-Olvera², J. Luna-Muñoz³, and B. Quintanilla-Vega¹. ¹Toxicology, CINVESTAV, México City, Mexico; ²Physiology and Neurosciences, CINVESTAV, México City, Mexico; and ³LaNSE, CINVESTAV, México City, Mexico.</p>
<p>#1458 Poster Board Number 446 The Sperm Parameters in Aroclor 1254-Exposed Rats at Different Selenium Status. P. Erkekoglu¹, N. Zeybek², S. Aydin¹, A. Asci¹, A. Balci¹, U. Yaman¹, N. Basaran¹, E. Asan², and B. Kocer-Gumusel¹. ¹Toxicology, Hacettepe University Faculty of Pharmacy, Ankara, Turkey; and ²Histology and Embryology, Hacettepe University Faculty of Medicine, Ankara, Turkey. Sponsor: P. Erkekoglu.</p>	<p>#1466 Poster Board Number 454 Modulation of Nrf2 and OGG1 Expression in Germ Testicular Cells by Methyl Parathion Exposure: An Epigenetic Mechanism. D. Hernández-Cortés, I. Alvarado-Cruz, M. J. Solís-Heredia, and B. Quintanilla-Vega. Toxicology, CINVESTAV, Mexico City, Mexico.</p>
<p>#1459 Poster Board Number 447 Role of Breast Cancer Resistance Protein (Bcrp/ Abcg2) in Triptolide-Induced Testis Toxicity. J. Ren, C. Li, and X. Qi. Center for Drug Safety Evaluation and Research, Shanghai Institute of Materia Medica, Shanghai, China.</p>	
<p>#1460 Poster Board Number 448 Investigating Toxicity of Diverse Compounds in an Organotypic Model of Testes Development: Impacts on Cytotoxicity, Cytokines, and Testosterone Production. S. Harris¹, S. Wegner¹, J. Park¹, S. E. Pacheco², S. Hong^{2,3}, and E. M. Faustman^{1,2}. ¹Department of Environmental and Occupational Health Sciences, University of Washington, Seattle, WA; and ²Institute for Risk Analysis and Risk Communication, University of Washington, Seattle, WA.</p>	

TUESDAY

Program Schedule (Continued)

Abstract

Tuesday Afternoon, March 24
1:00 PM to 4:30 PM
CC Exhibit Hall

Poster Session: Endocrine Toxicology

Chairperson(s): Christopher Thompson, Scripps Research Institute, San Diego, CA; and Katie B. Paul, Human Safety Regulatory Toxicology, Bayer CropScience, Durham, NC.

Displayed: 1:00 PM–4:30 PM

Author-Attended: 2:45 PM–4:30 PM

- #1467 **Poster Board Number501**
Assessing the Potential Endocrine Disruptors within the ToxCast Compound Library by Profiling Their Impacts on Activities of Multiple Nuclear Receptors. A. Medvedev¹, M. Moeser¹, L. Medvedeva¹, A. Granick¹, E. Martsen¹, M. Zeng¹, K. Houck², and S. S. Makarov¹. ¹R&D, ATTAGENE, Inc., Research Triangle Park, NC; and ²NCCT, US EPA, Research Triangle Park, NC.
- #1468 **Poster Board Number502**
Evaluation of Tetrabromobisphenol A (TBBPA)-Induced Endocrine-Related Target Gene Activity Using High-Throughput Screening Data from ToxCast. D. Wikoff¹, M. C. White¹, S. Borghoff², and L. C. Haws¹. ¹ToxStrategies, Inc., Austin, TX; and ²ToxStrategies, Inc., Cary, NC.
- #1469 **Poster Board Number503**
Isoflavone Exposure Has No Effect on Breast Cell Proliferation or Apoptosis in Healthy Women or Breast Cancer Patients. M. Messina², A. Shao³, and J. C. Griffiths¹. ¹Council for Responsible Nutrition, Washington, DC; ²Nutrition Matters, Inc., Port Townsend, WA; and ³Herbalife, Torrance, CA.
- #1470 **Poster Board Number504**
Urinary Bisphenol A Levels in Obese Children: Preliminary Results. D. Bulus², A. Balci¹, A. Asci^{1,3}, U. Yaman^{1,3}, P. Erkekoglu¹, N. Andiran², and B. Kocer-Gumusel¹. ¹Toxicology, Hacettepe University Faculty of Pharmacy, Ankara, Turkey; ²Pediatric Endocrinology Unit, Keçiören Training and Research Hospital, Pediatrics Clinic, Ankara, Turkey; and ³Toxicology, Ataturk University, Faculty of Pharmacy, Ankara, Turkey. Sponsor: P. Erkekoglu.
- #1471 **Poster Board Number505**
Systematic Review of Bisphenol A (BPA) Analogues and Analysis of High-Throughput Screening Data. K. E. Pelch¹, V. R. Walker¹, J. Hsieh¹, S. S. Auerbach¹, D. L. Svoboda¹, M. DeVito¹, S. Holmgren², R. R. Tice¹, and K. Thayer¹. ¹NTP, NIEHS, Morrisville, NC; and ²OSIM, NIEHS, Morrisville, NC.
- #1472 **Poster Board Number506**
Estrogen Receptor Isoforms ER Alpha 66, 46, and 36 Exhibit Distinct Signaling Interactions during Estrogen-Mediated Proliferative Events. M. M. Miller, R. Alyea, J. Dong, M. E. Anderson, and R. A. Clewell. ICSS, The Hamner Institutes for Health Sciences, Research Triangle Park, NC.

Abstract

- #1473 **Poster Board Number507**
Direct Measurement of Estrogenic and Androgenic Compounds in Human Plasma Using Cell-Based Reporter Gene Assays. S. S. Sanchez¹, P. Tachachartvanich¹, R. Thomas¹, E. M. John^{3,4}, M. T. Smith¹, and L. Fejerman². ¹School of Public Health, University of California, Berkeley, Berkeley, CA; ²Division of General Internal Medicine and Institute of Human Genetics, Department of Medicine, University of California, San Francisco, San Francisco, CA; ³Cancer Prevention Institute of California, Fremont, CA; and ⁴Division of Epidemiology, Stanford University School of Medicine, Palo Alto, CA.
- #1474 **Poster Board Number508**
Enabling a More Predictive Assessment of Effects on Steroidogenesis (OECD TG 456) by Applying an Improved LC-MS/MS Method. M. Dostler¹, T. Ramirez², M. Woll¹, R. Demin¹, V. Strauss², T. Walk¹, R. Fuchs¹, R. Looser¹, and B. van Ravenzwaay². ¹metanomics GmbH, Berlin, Germany; and ²Experimental Toxicology and Ecology, BASF SE, Ludwigshafen am Rhein, Germany.
- #1475 **Poster Board Number509**
Determination of Steroidal Compounds in Plasma from Individual Zebrafish Using 5-Minute Capillary Electrophoresis Separations. L. A. Holland¹, J. Ripley-Stueckle², V. Nyakubaya¹, M. Ellington¹, and B. C. Durney¹. ¹Chemistry, West Virginia University, Morgantown, WV; and ²Biology, West Virginia University, Morgantown, WV. Sponsor: J. Boyd.
- #1476 **Poster Board Number510**
Biomarkers of Endocrine Disruption in Tilapia Species from a Municipal Water Reservoir in Southwest Nigeria. R. A. Omiwole¹, O. R. Ibor¹, A. V. Chukwuka¹, A. O. Adeogun¹, and A. Arukwe². ¹Department of Zoology, University of Ibadan, Ibadan, Nigeria; and ²Department of Biology, Norwegian University of Science and Technology, Trondheim, Norway.
- #1477 **Poster Board Number511**
Detection of High Levels of Endocrine Activity in Selected Environmental Surface Water Samples Using ER, AR, and GR-Mediated *In Vitro* Bioassays. V. S. Wilson¹, N. Evans¹, M. Cardon¹, P. Hartig¹, K. Schenck², L. Rosenblum³, and T. J. Reilly⁴. ¹Reproductive Toxicology Branch, USEPA, ORD, NHEERL, TAD, Research Triangle Park, NC; ²USEPA, NRMRL, Cincinnati, OH; ³CB&I Federal Services, Cincinnati, OH; and ⁴USGS, Lawrenceville, NJ.
- #1478 **Poster Board Number512**
Using an *In Vitro* Cell Line to Assess Source and Treated Drinking Water Extracts for Estrogenic Activity. N. Evans¹, K. Schenck², H. Mash², L. Rosenblum³, S. Glassmeyer⁴, E. Furlong³, D. Kolpin⁶, and V. S. Wilson¹. ¹EPA, NHEERL, Research Triangle Park, NC; ²EPA, NRMRL, Cincinnati, OH; ³CB&I Federal Services, Cincinnati, OH; ⁴EPA, NERL, Cincinnati, OH; ⁵USGS, Denver, CO; and ⁶USGS, Iowa City, IA.

TUESDAY

Program Schedule (Continued)

Abstract #	Abstract #
#1479	#1488
Poster Board Number513 Neonicotinoids and Atrazine Alter Promoter-Specific Expression and Catalytic Activity of Aromatase (CYP19). E. Caron-Beaudoin ¹ , M. Denison ² , and T. Sanderson ¹ . ¹ INRS-Institut Armand-Frappier, Laval, QC, Canada; and ² Department of Environmental Toxicology, University of California, Davis, CA.	Poster Board Number522 PCB126-Induced Activation of Aryl Hydrocarbon Receptor Inhibits Adipogenesis. G. S. Gadupudi ^{1,2} , F. Gourronc ³ , A. J. Klingelutz ³ , and L. W. Robertson ^{1,2} . ¹ Human Toxicology, University of Iowa, Iowa City, IA; ² Occupational and Environmental Health, University of Iowa, Iowa City, IA; and ³ Microbiology, University of Iowa, Iowa City, IA.
#1480	#1489
Poster Board Number514 Recombinant Cell Bioassays for Detection of Aromatase Gene Activators. J. Zhao, and M. Denison. Environmental Toxicology, UC Davis, Davis, CA.	Poster Board Number523 Mechanisms of Doxorubicin Toxicity in Pancreatic Beta Cells. E. M. Bobczynski ¹ , M. E. Balke ¹ , P. A. Beringer ¹ , E. Heart ² , and J. P. Gray ^{1,2} . ¹ Science, US Coast Guard Academy, New London, CT; and ² Cellular Dynamics, Marine Biological Laboratory, Woods Hole, MA.
#1481	#1490
Poster Board Number515 The Impact of Estrogens on Epithelial to Mesenchymal Transition in Lung Cells. L. C. Smith ¹ , and T. Sabo-Attwood ² . ¹ Physiological Sciences, University of Florida, Gainesville, FL; and ² Environmental and Global Health, University of Florida, Gainesville, FL.	Poster Board Number524 Effect of In Vitro DDE Exposure on Pancreatic Beta Cell Markers Related to Beta Cell Dysfunction and Type 2 Diabetes Mellitus. A. B. Ward, and J. E. Chambers. Center for Environmental Health Sciences, College of Veterinary Medicine, Mississippi State University, Mississippi State, MS.
#1482	#1491
Poster Board Number516 Androgen Receptor Binding Affinity Prediction of Chemicals Using Pharmacophore and 3D-QSAR Models. R. Rozot, A. Clary, A. Detroyer, N. Flamand, S. Imbert, R. R. Note, and S. Ringeissen. Recherche & Innovation, L'Oréal, Aulnay-sous-Bois, France. Sponsor: E. Dufour.	Poster Board Number525 Comparison of Responses of Primary Adrenocortical Cells from Rat and Dog to Staurosporine and the Adrenal Toxicant Lysodren. K. Kubek ¹ , M. Magnifico ¹ , A. Erickson ¹ , S. Chibout ² , F. Pognan ² , J. Marlowe ¹ , and P. J. Devine ¹ . ¹ Preclinical Safety, Novartis Institutes for BioMedical Research, Inc, Cambridge, MA; and ² Preclinical Safety, Novartis Pharma, Basel, Switzerland.
#1483	#1492
Poster Board Number517 Establishment of Sensitive, Quantitative, and Real-Time Cellular Assays for Assessment of Modulators for Human Androgen Receptor Signaling Pathways. C. Jin, Y. A. Abassi, X. Xu, and X. Wang. Acea Biosciences, Inc, San Diego, CA.	Poster Board Number526 Calcium Signaling Disruption As a Mechanism for Altered Hormone Secretion. E. B. Fritsch, K. M. Walter, C. Y. Fu, and I. N. Pessah. Molecular Biosciences, UC Davis, Davis, CA.
#1484	#1493
Poster Board Number518 Cadmium Upregulates Transcription of the Steroidogenic Acute Regulatory Protein (StAR) Gene through Phosphorylated CREB Rather Than SF-1 in K28 Cells. J. Soh, S. Park, and S. Oh. School of Biological Sciences and Technology, Chonnam National University, Gwangju, Republic of Korea. Sponsor: T. Jeong.	Poster Board Number527 Development of a Tiered Screening Strategy for a Molecular-Initiating Event: Thyroperoxidase Inhibition. K. B. Paul ^{1,2} , E. D. Watt ^{1,4} , J. M. Hedge ² , K. M. Crofton ⁴ , M. W. Hornung ³ , and S. O. Simmons ¹ . ¹ Oak Ridge Institute for Science Education, Research Triangle Park, NC; ² Integrated Systems Toxicology Division, NHEERL, ORD, US EPA, Research Triangle Park, NC; ³ Mid-Continent Ecology Division, NHEERL, ORD, US EPA, Duluth, MN; and ⁴ National Center for Computational Toxicology, ORD, US EPA, Research Triangle Park, NC.
#1485	#1494
Poster Board Number519 Vitamin E and Quercetin Attenuate Nigerian Bonny-Light Crude Oil-Induced Neuronal and Testicular Toxicity in Wistar Rats. E. A. Peter ^{1,2} . ¹ Biochemistry and Molecular Biology, Federal University Ndufu Alike-Ikwo, Abakaliki, Nigeria; and ² Biochemistry, University of Ibadan, Ibadan, Nigeria.	Poster Board Number528 The Tadpole Visual System As a Model for Assessing the Effects of Thyroid Hormone Disruption on Brain Development. C. K. Thompson ¹ , K. D. Medgyesy ² , and H. T. Cline ¹ . ¹ Department of Molecular and Cellular Neuroscience, The Scripps Research Institute, San Diego, CA; and ² Division of Biological Sciences, University of California San Diego, San Diego, CA.
#1486	#1495
Poster Board Number520 Evaluation of the Androgen Antagonist Potential of Quinoline (CAS: 91-22-5) in Surgically Castrated Peripubertal Male Rats. M. V. Patel ¹ , M. P. Poshiya ¹ , D. Ujawane ¹ , K. Hadiya ¹ , and V. J. Piccirillo ² . ¹ Department of Toxicology, Jai Research Foundation, Valvada, India; and ² VJP Consulting, Ashburn, VA.	Poster Board Number529 Xenopus laevis Müllerian Ducts Are Sensitive Indicators of Estrogenic or Androgenic Chemical Exposure In Vivo. J. T. Haselman ¹ , P. Kosian ¹ , J. Korte ¹ , A. Ohmstead ² , R. Johnson ¹ , and S. Degitz ¹ . ¹ ORD/NHEERL/MED, US EPA, Duluth, MN; and ² Bayer Crop Science, Research Triangle Park, NC. Sponsor: M. Hornung.
#1487	
Poster Board Number521 Obesogenic Effects of Endocrine Disrupting Chemicals in Tilapia Species from Ogun River, Nigeria. O. R. Ibor ¹ , A. O. Adeogun ¹ , O. A. Fagbohun ² , and A. Arukwe ³ . ¹ Department of Zoology, University of Ibadan, Ibadan, Nigeria; ² Department of Veterinary Microbiology and Parasitology, University of Ibadan, Ibadan, Nigeria; and ³ Department of Biology, Norwegian University of Science and Technology, Trondheim, Norway.	

TUESDAY

Program Schedule (Continued)

Abstract #

Tuesday Afternoon, March 24
1:00 PM to 4:30 PM
CC Exhibit Hall

Poster Session: Neurotoxicology, Neurodegenerative Disease—Alzheimer’s Disease and Others

Chairperson(s): Syed F. Ali, Division of Neurotoxicology, NCTR, Jefferson, AR.

Displayed: 1:00 PM–4:30 PM

Author-Attended: 1:00 PM–2:45 PM

- #1496 **Poster Board Number531**
Inhibitory Effects of Metallothionein-III on Production of Amyloid-Beta and Induced Cytotoxicity in Neuronal Cells. B. Park, H. Kim, and H. Jeong. Pharmacy, Chungnam National University, Daejeon, Republic of Korea.
- #1497 **Poster Board Number532**
Sulforaphane Alleviates Scopolamine-Induced Memory Impairment in Mice. S. Lee¹, J. Kim¹, S. Seo¹, B. Choi², J. Han², K. Lee^{1,3}, and J. Kim^{3,4}. ¹WCU Biomodulation Major, Department of Agricultural Biotechnology, Seoul National University, Seoul, Republic of Korea; ²Department of Biological Sciences, Konkuk University, Seoul, Republic of Korea; ³Center for Food and Bioconvergence, Seoul National University, Seoul, Republic of Korea; and ⁴Laboratory of Toxicology, Research Institute for Veterinary Science, College of Veterinary Medicine, Seoul National University, Seoul, Republic of Korea.
- #1498 **Poster Board Number533**
Hyperphosphorylation of Tau in Brain of DAB-Treated Mice Is Associated with the Decreased Hippocampal Neurogenesis. M. Kim, K. Baek, and S. Kang. Pharmacy, Sunchon National University, Sunchon, Republic of Korea. Sponsor: M. Cho.
- #1499 **Poster Board Number534**
Mass Spectrometry Imaging: Linking Neurodegeneration with Environmental Exposure. J. Laskin, and C. Timchalk. Pacific Northwest National Laboratory, Richland, WA.
- #1500 **Poster Board Number535**
Tacrine Neurotoxicology and Proteome Pathway Analysis in Neuro-2a Cell Culture Model. R. E. Mahle^{1,2}, A. Hoffmann^{3,4}, M. L. Meade^{3,4}, J. Schlager⁴, and J. M. Gearhart^{3,4}. ¹University of Notre Dame, South Bend, IN; ²ORISE, Belcamp, MD; ³Henry M. Jackson Foundation, Dayton, OH; and ⁴Molecular Bioeffects Branch, Bioeffects Division, 711th Human Performance Wing, Air Force Research Laboratory, Dayton, OH.
- #1501 **Poster Board Number536**
Characterization of the Alzheimer’s Disease Risk Gene SORL1 in the Zebrafish: Assessment of Expression Differences by Sex, Age, and Influences of an Embryonic Lead (Pb) Exposure. J. Lee, S. Peterson, and J. L. Freeman. Purdue University, West Lafayette, IN.

Abstract #

- #1502 **Poster Board Number537**
Effect of APOE on DDT-Induced Amyloid Precursor Protein Levels and Aβ Secretion in Isogenic Neuro-2a Cells. A. K. Tiethof¹, R. P. Hart^{2,3}, and J. R. Richardson¹. ¹Environmental and Occupational Health Sciences Institute and Department of Environmental and Occupational Medicine, Rutgers-Robert Wood Johnson Medical School, Piscataway, NJ; ²Department of Cell Biology and Neuroscience, Rutgers University, Piscataway, NJ; and ³The Human Genetics Institute of New Jersey, Rutgers University, Piscataway, NJ.
- #1503 **Poster Board Number538**
Novel Functions of PPARγ during Paroxon Exposure in Neuronal Cell Culture: Neurotoxicology and Proteome Pathway Analysis. M. K. Makley, A. Hoffmann, M. L. Meade, J. J. Schlager, and J. M. Gearhart. 711 HPW/RHDJ, Henry M. Jackson Foundation, Wright-Patterson Air Force Base, OH.
- #1504 **Poster Board Number539**
Diesel Exhaust Exposure Suppresses Adult Neurogenesis in Mice in a Sex- and Brain Region-Dependent Manner. J. L. Coburn¹, T. B. Cole^{1,2}, and L. G. Costa¹. ¹Department of Environmental and Occupational Health Sciences, University of Washington, Seattle, WA; and ²Center on Human Development and Disabilities, University of Washington, Seattle, WA.
- #1505 **Poster Board Number540**
Neurotoxic Effects of Ultrafine Particulate Matter Found in Ambient Air Pollution on Alzheimer’s Disease Model Cells. P. Solaimani, and A. Campbell. Department of Pharmaceutical Sciences, Western University of Health Sciences, Pomona, CA.
- #1506 **Poster Board Number541**
Dual Actions of 3-Hydroxykynurenine in the Rat Striatum. A. Colin-Gonzalez¹, M. Maya-Lopez¹, S. F. Ali², and A. Santamaria¹. ¹Laboratorio de Aminoacidos Excitadores, INNN, Mexico City, Mexico; and ²Division of Neurotoxicology, NCTR, Jefferson, AR.
- #1507 **Poster Board Number542**
Developing a Mouse Model of Hydrogen Sulfide-Induced Neurotoxicity. P. V. Anantharam¹, M. R. Langley³, E. Whitley², V. Anantharam³, A. Kanthasamy³, A. Kanthasamy³, and W. K. Rumble¹. ¹Veterinary Diagnostic and Production Animal Medicine, Iowa State University, Ames, IA; ²Veterinary Pathology, Iowa State University, Ames, IA; and ³Dept. of Biomedical Sciences, Iowa State University, Ames, IA.
- #1508 **Poster Board Number543**
Investigating the Neurotoxic Effect of Agrochemicals (Dieldrin and Lindane) in Huntington’s Disease Neuropathology. A. W. Chege. Oberlin College, Oberlin, OH. Sponsor: G. Kwakye.
- #1509 **Poster Board Number544**
The Commonly Used Agrochemical Chlorpyrifos Enhances Huntington’s Disease Neuropathology via Oxidative Stress and Mitochondrial Dysfunction. G. A. Dominah, R. McMinimy, and G. F. Kwakye. Neuroscience, Oberlin College, Oberlin, OH.

TUESDAY

Program Schedule (Continued)

Abstract #

Tuesday Afternoon, March 24
1:00 PM to 4:30 PM
CC Exhibit Hall

**Poster Session: Neurotoxicology, Neurodegenerative Disease—
Parkinson's Disease**

Chairperson(s): Lena Smirnova, Environmental Health Sciences, Johns Hopkins Bloomberg School of Public Health, Baltimore, MD.

Displayed: 1:00 PM–4:30 PM

Author-Attended: 2:45 PM–4:30 PM

Abstract #

- #1510 **Poster Board Number545**
Assessment of Neuroprotective Effect of Probiotic Bacteria in Rotenone Model of Parkinson's Disease in Sprague-Dawley Rats. M. Elgama^{1,2}, M. M. Salama^{1,2}, A. Sakr², H. Elgama², H. Sheashaa^{2,3}, M. Sobh^{2,3}, and R. Hegazi⁴. ¹Toxicology Department, Mansoura Medical School, Mansoura, Egypt; ²Medical Experimental Research Center (MERC), Mansoura Medical School, Mansoura, Egypt; ³Urology and Nephrology Center, Mansoura Medical School, Mansoura, Egypt; and ⁴Abbott Nutrition, Columbus, OH.
- #1511 **Poster Board Number546**
Lysosomal Dysfunction Regulates the Release of α-Synuclein Protein Aggregates from Exosomes during Manganese-Induced Neurotoxic Insult. D. Harischandra, V. Lawana, D. Rokad, H. Jin, V. Anantharam, A. Kanthasamy, and A. Kanthasamy. Biomedical Science, Iowa State University, Ames, IA.
- #1512 **Poster Board Number547**
Drp1 Inhibition Attenuates Neurotoxicity and Dopamine Release Deficits In Vivo. K. Tieu. Clinical Neurobiology, Plymouth University, Plymouth, United Kingdom.
- #1513 **Poster Board Number548**
Novel Mitochondria-Targeted Drug Induces PKD1 Activation and Its Downstream Prosurvival Signaling to Promote Mitochondrial Biogenesis against Dopaminergic Neurotoxicity. M. Ay¹, A. Charli¹, A. Kanthasamy¹, V. Anantharam¹, H. Jin¹, B. Kalyanaraman², and A. Kanthasamy¹. ¹Biomedical Sciences, Iowa State University, Ames, IA; and ²Biophysics, Medical College of Wisconsin, Milwaukee, WI.
- #1514 **Poster Board Number549**
Effects of Fzo-1 and Drp-1 Mutations on Dopaminergic Neurodegeneration in Caenorhabditis elegans. S. M. Hall, C. P. Gonzalez, and J. Meyer. Nicholas School of the Environment, Duke University, Durham, NC.
- #1515 **Poster Board Number550**
Preclinical Efficacy Testing of the Mitochondria-Targeted Antioxidant Mito-Apocynin in the Transgenic MitoPark Mouse Model of Chronic Dopaminergic Neurodegeneration. M. R. Langley¹, A. Ghosh¹, M. Ay¹, B. Dranka², H. Jin¹, V. Anantharam¹, B. Kalyanaraman², A. Kanthasamy¹, and A. Kanthasamy¹. ¹Biomedical Sciences, Iowa State University, Ames, IA; and ²Biophysics, Medical College of Wisconsin, Milwaukee, WI.

#1516

Poster Board Number551
Dopamine Metabolism, Oxidative Stress, and Reactive Oxygen Species As Key Contributors to Neurotoxicity. J. H. Schamp, V. Florang, and J. A. Doorn. Pharmaceutical Sciences and Experimental Therapeutics, University of Iowa, Iowa City, IA.

#1517

Poster Board Number552
Diphenylethylidonium at Low Dose Rescues Disease Phenotype in Models of Parkinson's Disease. Q. Wang, L. Qian, B. Wilson, and J. Hong. Laboratory of Neurobiology, NIEHS, Research Triangle Park, NC. Sponsor: S. Hussain.

#1518

Poster Board Number553
Activation of the Nuclear Receptor Nur77 by a Novel Diindolylmethane Analog Suppresses Inflammatory Gene Expression in Primary Astrocytes. K. A. Popichak¹, R. B. Tjalkens¹, and S. H. Safe². ¹Center for Environmental Medicine, Colorado State University, Fort Collins, CO; and ²Veterinary Physiology and Pharmacology, Texas A&M, Houston, TX.

#1519

Poster Board Number554
A Novel Small Molecule Activator of the Nuclear Receptor Nurr1 (NR4A2) Promotes a Dopaminergic Phenotype and Protects against 6-Hydroxydopamine Neurotoxicity in Cultured Neurons. S. Hammond¹, R. B. Tjalkens¹, and S. H. Safe². ¹Center for Environmental Medicine, Colorado State University, Fort Collins, CO; and ²Veterinarian Pharmacology and Physiology, Texas A&M, Houston, TX.

#1520

Poster Board Number555
A Novel, Para-Substituted Diindolylmethane Inhibits Inflammatory Activation of Microglia through a Nurr1-Dependent Mechanism. B. R. De Miranda^{1,2}, K. A. Popichak¹, S. H. Safe³, and R. B. Tjalkens¹. ¹Environmental and Radiological Health Sciences, Colorado State University, Fort Collins, CO; ²Pittsburgh Institute of Neurodegenerative Diseases, Department of Neurology, University of Pittsburgh, Pittsburgh, PA; and ³Center for Environmental and Genetic Medicine, Texas A&M Health Science Center, Houston, TX.

#1521

Poster Board Number556
Protein Incorporation of β-N-methylamino-L-alanine (L-BMAA) in the Primate Brain. C. Garner¹, G. Kisby², and P. S. Spencer³. ¹Oso Corredor Scientific Consulting, Placitas, NM; ²Western University of Health Sciences, Lebanon, OR; and ³Oregon Health & Science University, Portland, OR.

#1522

Poster Board Number557
2-Amino-1-methyl-6-phenylimidazo(4,5-B)pyridine (PhIP) Dopaminergic Neurotoxicity in Primary Midbrain Cultures and In Vivo. Z. S. Agim¹, J. Lee¹, J. Rochet², and J. R. Cannon¹. ¹School of Health Sciences, Purdue University, West Lafayette, IN; and ²Medicinal Chemistry and Molecular Pharmacology, Purdue University, West Lafayette, IN.

#1523

Poster Board Number558
TIMP1 mRNA Expression Is a Biomarker of Astrogliosis: Evidence from Multiple Neurotoxins and BAC-TRAP Technology. J. P. O'Callaghan, K. A. Kelly, A. R. Revitsky, and D. B. Miller. CDC-NIOSH, Morgantown, WV.

Program Schedule (Continued)

- Abstract #**
- #1524 **Poster Board Number559**
In Vitro 3D Dopaminergic Model to Study (Developmental) Neurotoxicity and Parkinsonism. L. Smirnova, G. A. Harris, J. Delp, D. Pamies, H. T. Hogberg, and T. Hartung. Johns Hopkins Bloomberg School of Public Health, Baltimore, MD.
- #1525 **Poster Board Number560**
Altered Optineurin Expression in Cellular and Rodent Models of Parkinson's Disease. J. Wise¹, Z. S. Agim¹, M. A. Tambe², V. Mishra², J. Rochet², and J. R. Cannon¹. ¹Health Sciences, Purdue University, West Lafayette, IN; and ²Medicinal Chemistry and Molecular Pharmacology, Purdue University, West Lafayette, IN.
- #1526 **Poster Board Number561**
Transcriptional Regulation of the Compensatory Signaling Molecule Prokineticin-2 during Neurotoxic Stress in Dopaminergic Neuronal Cells. J. Luo, H. Jin, M. Neal, V. Anantharam, A. Kanthasamy, and A. Kanthasamy. Biomedical Sciences, Iowa State University, Ames, IA.
- #1527 **Poster Board Number562**
Farnesoid X Receptor Deficiency in Mice Enhances MPTP-Induced Neuroinflammatory Response. E. E. Beier¹, M. M. Hossain¹, B. Kong², G. Guo², and J. R. Richardson¹. ¹Department of Environmental and Occupational Medicine, Rutgers University, Piscataway, NJ; and ²Department of Pharmacology and Toxicology, Rutgers Ernest Mario School of Pharmacy, Piscataway, NJ.
- #1528 **Poster Board Number563**
Systems Genetics Analysis of MPTP Neurotoxicity. G. Alam³, D. B. Miller², J. P. O'Callaghan², L. Lu¹, R. W. Williams¹, and B. C. Jones^{1,3}. ¹Genetics, Genomics and Informatics, University of Tennessee Health Science Center, Memphis, TN; ²CDC-NIOSH, Morgantown, WV; and ³Biobehavioral Health, The Pennsylvania State University, University Park, PA.
- #1529 **Poster Board Number564**
Molecular Mechanisms of Rotenone and MPP+ Damage to Dopaminergic Neurons in a Human Neuronal 3D Model. G. A. Harris, J. Delp, J. Smith, D. Pamies, H. T. Hogberg, T. Hartung, and L. Smirnova. Center for Alternatives to Animal Testing, Johns Hopkins Bloomberg School of Public Health, Baltimore, MD.
- #1530 **Poster Board Number565**
Biochemical and Gene Expression Changes in Mice Exposed to Polychlorinated Biphenyls during Early Brain Development. S. Hampton¹, M. Kromme^{1,2}, M. Stegman^{1,2}, C. Bates¹, A. Lopez², and C. P. Curran¹. ¹Biological Sciences, Northern Kentucky University, Highland Heights, KY; and ²Cincinnati Children's Medical Center, Cincinnati, OH.
- #1531 **Poster Board Number566**
Polychlorinated Biphenyl Sulfates Are Toxic to Rat Neuronal N27 Cells. E. A. Rodriguez¹, H. Lehmler², L. W. Robertson², and M. W. Duffel¹. ¹Department of Pharmaceutical Sciences and Experimental Therapeutics, College of Pharmacy, The University of Iowa, Iowa City, IA; and ²Department of Occupational and Environmental Health, College of Public Health, The University of Iowa, Iowa City, IA.

- Abstract #**
- #1532 **Poster Board Number567**
Mitochondrial Dynamics in Environmental Pesticide-Induced Dopaminergic Neurotoxicity in Cell Culture Models of Parkinson's Disease. A. Charli¹, H. Jin¹, A. Kanthasamy¹, V. Anantharam¹, B. Kalyanaraman², and A. Kanthasamy¹. ¹Toxicology, Iowa State University, Ames, IA; and ²Biophysics, Medical College of Wisconsin, Milwaukee, WI.
- #1533 **Poster Board Number568**
Analysis of Cardiolipins in Substantia Nigra and Plasma of Rotenone-Treated Rats: Implication for Mitochondrial Dysfunction in Parkinson's Disease. Y. Tyurina¹, A. Polimova¹, E. Maciel⁴, V. A. Tyurin¹, V. Kapralova¹, D. Winnica¹, A. Vikulina¹, R. Domingues⁴, L. Sanders², H. Bayir³, T. Greenamyre², and V. E. Kagan¹. ¹EOH, University of Pittsburgh, Pittsburgh, PA; ²Neurology, University of Pittsburgh, Pittsburgh, PA; ³Critical Care Medicine, University of Pittsburgh, Pittsburgh, PA; and ⁴Chemistry, University of Aveiro, Aveiro, Portugal.
- #1534 **Poster Board Number569**
C-Abl Tyrosine Kinase Is a Critical Mediator of Dichlorvos (DCV)-Induced Cell Death in Dopaminergic Neuronal Cells. V. Lawana, M. Neal, V. Anantharam, H. Jin, A. Kanthasamy, and A. Kanthasamy. Biomed Sci, Iowa State Univ, Ames, IA.
- #1535 **Poster Board Number570**
Aberrant Lipid Metabolism in Rotenone-Induced Mitochondrial Dysfunction. V. A. Tyurin¹, A. Polimova¹, L. Sanders², T. Greenamyre², Y. Tyurina¹, and V. E. Kagan¹. ¹Environmental and Occupational Health, University of Pittsburgh, Pittsburgh, PA; and ²Neurology, University of Pittsburgh, Pittsburgh, PA.
- #1536 **Poster Board Number571**
Differential Effects of Hapten-Induced Experimental Colitis on G2019S LRRK2 Transgenic and Wild-Type Rats. J. Lee¹, J. Park², C. H. Kim², and J. R. Cannon¹. ¹Health Sciences, Purdue University, West Lafayette, IN; and ²Comparative Pathobiology, Purdue University, West Lafayette, IN.

Tuesday Afternoon, March 24
1:00 PM to 4:30 PM
CC Exhibit Hall

Poster Session: Cigarettes, E-Cigarettes, and Hookah

Chairperson(s): Ilona Jaspers, University of North Carolina at Chapel Hill, Chapel Hill, NC.

Displayed: 1:00 PM–4:30 PM

Author-Attended: 1:00 PM–2:45 PM

- #1537 **Poster Board Number601**
Evaluation of Chromatographic Profiling Methods for E-Cigarette Aerosols. K. Kilby, C. G. Culbert, E. H. Theophilus, and D. T. Szabo. Research and Development, RJ Reynolds, Winston-Salem, NC.
- #1538 **Poster Board Number602**
Heated Tobacco Generates a Simplified Aerosol with Fewer Toxicants Than Smoke from Cigarettes. J. Collard, C. Budd, J. K. Scott, C. Rawlinson, and C. Meredith. Group Research and Development, British American Tobacco, Southampton, United Kingdom.

TUESDAY

Program Schedule (Continued)

Abstract

- #1539 **Poster Board Number 603**
Disposable Electronic Cigarettes and Electronic Hookahs: Evaluation of Design, Performance, and Metal Emissions. *M. T. Williams¹, S. Ghai¹, K. Bozhilov², and P. Talbot¹.* ¹Cell Biology and Neuroscience, University of California, Riverside, Riverside, CA; and ²Central Facility for Advanced Microscopy, University of California, Riverside, Riverside, CA.
- #1540 **Poster Board Number 604**
Characterization of Inhalation Exposure Atmosphere Generated from E-Cigarettes. *A. Gupta, B. K. Hayden, M. K. Atkinson, S. Behringer, and B. Westerberg.* Life Sciences Research, Battelle, West Jefferson, OH.
- #1541 **Poster Board Number 605**
E-Cigarette Nicotine Pharmacokinetics and on Impact on Urge-to-Smoke Symptoms. *C. D. D'Ruiz, and X. Yan.* Scientific Affairs, Lorillard Tobacco Company, Inc., Greensboro, NC.
- #1542 **Poster Board Number 606**
Effects on Nicotine Delivery and Cardiovascular Function and Assessment of Short-Term Tolerability of Using Electronic Cigarettes in Comparison with Regular Cigarettes. *X. Yan, and C. D. D'Ruiz.* Scientific Affairs, Lorillard Tobacco Company, Greensboro, NC.
- #1543 **Poster Board Number 607**
Molecular Impact of Electronic Cigarette Exposure on *In Vitro* Human Airway Epithelium. *E. Moses¹, T. Wang¹, E. Drizik¹, C. Perdomo¹, S. J. Park², T. C. Walser², D. Brooks¹, G. T. O'Connor¹, S. M. Dubinett², M. E. Lenburg¹, A. Spira¹, G. Jackson³, J. DeBay³, and P. J. Hayden³.* ¹Boston University, Boston, MA; ²UCLA, Los Angeles, CA; and ³MatTek Corp., Ashland, MA.
- #1544 **Poster Board Number 608**
Cytotoxicity of Electronic Cigarette Refill Fluid and Humectant Aerosols. *R. Z. Behar, and P. Talbot.* Cell Biology and Neuroscience, University of California, Riverside, Riverside, CA.
- #1545 **Poster Board Number 609**
Effect of Cigarette Design Parameters on *In Vitro* Toxicity Profile. *M. Misra, R. D. Leverette, M. B. Bennett, B. T. Cooper, and S. E. Brown.* Lorillard Company, Greensboro, NC.
- #1546 **Poster Board Number 610**
An Impact Assessment of Cigarette Smoke on Organotypic Models of Bronchial Epithelial Monoculture and Bronchial Epithelial/Fibroblast Coculture. *S. Frentzel¹, A. Iskandar¹, Y. Xiang¹, C. Mathis¹, P. Leroy¹, D. Kuehn¹, S. Majeed¹, C. Merg¹, A. Elamin¹, E. Guedj¹, R. Dulize¹, F. Martin¹, M. Talikka¹, M. Peitsch¹, A. Hayes², and J. Hoeng¹.* ¹Research & Development, Philip Morris International, Neuchatel, Switzerland; and ²Spherix Consulting, Rockville, MD.

Abstract

- #1547 **Poster Board Number 611**
Systems Toxicological-Based Assessment of Sex-Related Differences in Response to Cigarette Smoke Within an OECD Rat Inhalation Study. *U. Kogel¹, S. Boue¹, M. Talikka¹, E. Wong², G. Vuillaume¹, P. Leroy¹, E. Guedj¹, A. Hayes³, P. Vanscheeuwijck¹, J. Hoeng¹, and M. Peitsch¹.* ¹Philip Morris International R&D, Neuchatel, Switzerland; ²Philip Morris International Research Laboratories Pte. Ltd., Singapore, Singapore; and ³Spherix Consulting and Scientific Advisory Board PMI R&D, Rockville, MD.
- #1548 **Poster Board Number 612**
Electronic Cigarette- and Hookah-Induced Changes on Nasal Epithelial Cell Gene Expression Profiles. *E. Glista-Baker¹, E. Martin², J. J. Sollome², H. Wells¹, N. Alexis^{1,3}, R. Fry^{2,4}, and I. Jaspers^{1,3,4}.* ¹Center for Environmental Medicine, Asthma and Lung Biology, University of North Carolina, Chapel Hill, NC; ²Department of Environmental Sciences and Engineering, Gillings School of Global Public Health, University of North Carolina, Chapel Hill, NC; ³Department of Pediatrics, University of North Carolina, Chapel Hill, NC; and ⁴Curriculum in Toxicology, University of North Carolina, Chapel Hill, NC.
- #1549 **Poster Board Number 613**
The Adverse Health Effects of Mainstream and Secondhand Hookah Smoke in NYC Hookah Bars. *G. Pan¹, M. Weitzman², S. Zhou³, L. Behrooz⁴, J. Chilana⁵, S. AlFalla⁵, A. Rule³, J. Mirowsky⁵, I. Jaspers⁵, M. Zhong¹, and T. Gordon¹.* ¹Environmental Medicine, NYU School of Medicine, New York, NY; ²NYU School of Medicine, New York, NY; ³Bloomberg School of Public Health, Johns Hopkins, Baltimore, MD; ⁴NYU SPH, New York, NY; and ⁵UNC, Chapel Hill, NC.

Tuesday Afternoon, March 24
 1:00 PM to 4:30 PM
 CC Exhibit Hall

Poster Session: Inhalants and Cardiopulmonary

Advancing Clinical and Translational Toxicology

Chairperson(s): Urmila Kodavanti, US EPA, Research Triangle Park, NC.

Displayed: 1:00 PM–4:30 PM

Author-Attended: 2:45 PM–4:30 PM

- #1550 **Poster Board Number 616**
Acute Ozone Exposure Accelerates Diet-Induced Pulmonary Injury and Metabolic Alterations in a Rat Model of Type 2 Diabetes. *S. J. Snow^{1,3}, D. B. Miller², V. L. Bass², M. C. Schladweiler³, A. Ledbetter³, J. Richards³, D. Andrews³, C. J. Gordon³, and U. P. Kodavanti^{2,3}.* ¹ORISE, Research Triangle Park, NC; ²UNC, Chapel Hill, NC; and ³EPA, Research Triangle Park, NC.

Program Schedule (Continued)

Abstract #

- #1551 **Poster Board Number 617**
An Animal Model of Active (ACT) versus Sedentary (SED) Lifestyle and Susceptibility to Air Pollution: Response to Ozone (O3) in Female Sprague-Dawley Rats Allowed to Train Chronically on Running Wheels. C. J. Gordon¹, P. Phillips¹, A. F. Johnstone¹, K. A. Jarema¹, A. Ledbetter², C. Aydin³, M. C. Schladweiler², and U. P. Kodavanti². ¹TAD, US EPA, Research Triangle Park, NC; ²EPHD, US EPA, Research Triangle Park, NC; and ³University of Uludag, Bursa, Turkey.
- #1552 **Poster Board Number 618**
Impact of Diet on Ozone-Induced Pulmonary and Systemic Effects in Female Brown Norway (BN) Rats. V. L. Bass^{1,5}, M. C. Schladweiler², S. J. Snow⁵, C. J. Gordon³, K. A. Jarema⁴, P. M. Phillips⁴, A. Ledbetter², D. B. Miller³, J. Richards², and U. P. Kodavanti². ¹ESE, SPH, UNC, Chapel Hill, NC; ²EPHD, NHEERL, USEPA, Research Triangle Park, NC; ³CIT, UNC, Chapel Hill, NC; ⁴TAD, NHEERL, USEPA, Research Triangle Park, NC; and ⁵ORISE, Research Triangle Park, NC.
- #1553 **Poster Board Number 619**
Morning NO2 Exposure Sensitizes Hypertensive Rats to the Cardiovascular Effects of O3 Exposure in the Afternoon. A. K. Farrar¹, F. Malik¹, N. Haykal-Coates¹, L. Walsh¹, D. Winsett¹, D. Terrell¹, L. Thompson^{1,2}, and M. S. Hazari¹. ¹Environmental Public Health Division, NHEERL, US Environmental Protection Agency, Research Triangle Park, NC; and ²Oak Ridge Institute for Science and Education, Oak Ridge, TN.
- #1554 **Poster Board Number 620**
Effect of Same-Day Sequential Exposure to Nitrogen Dioxide and Ozone on Cardiac and Ventilatory Function in Mice. K. Stratford¹, K. Chessnutt², N. Kurhanewicz¹, N. Coates², L. Walsh², D. Terrell², A. K. Farrar², and M. S. Hazari². ¹University of North Carolina-Chapel Hill, Chapel Hill, NC; and ²Environmental Public Health Division, USEPA, Research Triangle Park, NC.
- #1555 **Poster Board Number 621**
Exposure to Ozone Prior to Acrolein Primes Markers of Oxidative, but Not Proinflammatory, Stress in a GSTM1-Dependent Manner. S. D. McCullough¹, E. C. Bowers², D. S. Morgan¹, L. A. Dailey¹, D. Diaz-Sanchez², and R. Devlin¹. ¹US Environmental Protection Agency, Chapel Hill, NC; and ²University of North Carolina, Chapel Hill, NC.
- #1556 **Poster Board Number 622**
Human Ozone (O3) Exposure Alters Serum Profile of Lipid Metabolites. D. B. Miller¹, U. P. Kodavanti², E. D. Karoly³, W. Cascio², and A. J. Ghio². ¹Curriculum in Toxicology, University of North Carolina-Chapel Hill, Chapel Hill, NC; ²NHEERL, US EPA, Research Triangle Park, NC; and ³METABOLON INC, Durham, NC.
- #1557 **Poster Board Number 623**
Expression of Proinflammatory and Oxidative Stress Mediators Induced by Nitrogen Dioxide and Ozone in Primary Human Bronchial Epithelial Cells. J. Mirowsky^{1,2}, K. E. Duncan², S. D. McCullough², L. A. Dailey³, D. S. Morgan³, and R. Devlin³. ¹Curriculum in Toxicology, University of North Carolina, Chapel Hill, NC; ²Center for Environmental Medicine, Asthma, and Lung Biology, University of North Carolina, Chapel Hill, NC; and ³National Health and Environmental Effects Laboratory, US EPA, Chapel Hill, NC.

Abstract #

- #1558 **Poster Board Number 624**
Ozone-Induced Eosinophilic Rhinitis and Nasal Epithelial Remodeling Are Dependent on Innate Lymphoid Cells in Mice. K. Kumagai, C. Ong, D. Jackson-Humbles, R. Lewandowski, J. G. Wagner, and J. R. Harkema. Great Lakes Air Center for Integrated Environmental Research, Michigan State University, East Lansing, MI.
- #1559 **Poster Board Number 625**
Susceptibility of Diabetic Rats to Pulmonary and Systemic Effects of Inhaled Photochemically Aged Atmosphere and Ozone (O3). M. C. Schladweiler¹, S. J. Snow², T. Krantz¹, C. King¹, J. Krug², N. Modak², A. Henriquez³, V. L. Bass⁴, D. B. Miller⁵, J. Richards¹, E. H. Boykin¹, R. Jaskot¹, I. Gilmour¹, and U. P. Kodavanti¹. ¹EPHD, US EPA, Durham, NC; ²ORISE, Oak Ridge, TN; ³CIT, Chapel Hill, NC; and ⁴SPH, Chapel Hill, NC.
- #1560 **Poster Board Number 626**
Gender Differences in Ozone-Induced Pulmonary and Metabolic Health Effects. U. P. Kodavanti¹, V. L. Bass², M. C. Schladweiler¹, C. J. Gordon³, K. A. Jarema³, P. M. Phillips³, A. Ledbetter¹, D. B. Miller⁴, S. J. Snow⁵, D. Andrews⁶, and J. Richards¹. ¹EPHD/NHEERL, US EPA, Research Triangle Park, NC; ²SPH, UNC, Chapel Hill, NC; ³TAD/NHEERL, USEPA, Research Triangle Park, NC; ⁴CIT, UNC, Chapel Hill, NC; ⁵ORISE, Oak Ridge, TN; and ⁶RCU/NHEERL, US EPA, Research Triangle Park, NC.
- #1561 **Poster Board Number 627**
Effect of PEEP on Phosgene-Induced Lung Edema: Pilot Study on Dogs Using Protective Ventilation Strategies. L. Wenli², C. Hai³, and J. Pauluhn¹. ¹Toxicology (retired), Bayer AG, Wuppertal, Germany; and ²Toxicology, 4th Military Medical University, Xi'an, China.
- #1562 **Poster Board Number 628**
Transient Receptor Potential Cation Channel A1 (TRPA1) Mediates Changes in Heart Rate Variability following a Single Exposure to Acrolein in Mice. N. Kurhanewicz¹, R. McIntosh-Kastrinsky¹, A. Ledbetter², L. Walsh², A. K. Farrar², and M. S. Hazari². ¹University of North Carolina at Chapel Hill, Chapel Hill, NC; and ²Environmental Public Health Division, USEPA, Research Triangle Park, NC.
- #1563 **Poster Board Number 629**
TRPV4 Inhibition Counteracts Edema and Inflammation and Improves Pulmonary Function and Oxygen Saturation in Chemically Induced Acute Lung Injury. S. Balakrishna², W. Song³, S. Achanta¹, S. Doran³, B. Liu¹, M. M. Kaelberer¹, Y. Zhihong², A. Sui², M. Cheung⁴, E. Leishman⁵, H. S. Eidam⁴, G. Ye⁴, R. N. Willette⁴, K. S. Thorne⁴, H. B. Bradshaw⁵, S. Matalon³, and S. E. Jordt¹. ¹Anesthesiology, Duke University School of Medicine, Durham, NC; ²Psychiatry, Yale School of Medicine, New Haven, CT; ³Anesthesiology, University of Alabama at Birmingham, Birmingham, AL; ⁴Heart Failure Discovery Performance Unit-Metabolic Pathways and Cardiovascular Therapy Unit, GlaxoSmithKline Pharmaceuticals, King of Prussia, PA; and ⁵Psychological and Brain Sciences, Indiana University, Bloomington, IN.

TUESDAY

Program Schedule (Continued)

Abstract #		Abstract #	
#1564	Poster Board Number 630 Acrolein Inhalation Causes Myocardial Strain Delay and Decreases Cardiac Performance As Detected by High-Frequency Echocardiography in Mice. L. C. Thompson ^{1,2} , A. Ledbetter ¹ , N. Coates ¹ , W. Cascio ¹ , M. S. Hazari ¹ , and A. K. Farraj ¹ . ¹ Environmental Public Health Division, US EPA, Research Triangle Park, NC; and ² Oak Ridge Institute for Science and Education, Oak Ridge, TN.	#1571	Poster Board Number 637 Development of an Inhalation Exposure System for Resistance Spot Welding Using an Anti-Spatter Spray. A. Afshari, B. T. Chen, M. Jackson, W. McKinney, D. Schwegler-Berry, J. Cumpston, A. Cumpston, H. D. Leonard, P. C. Zeidler-Erdely, D. G. Frazer, and J. M. Antonini. NIOSH, Morgantown, WV.
#1565	Poster Board Number 631 Strain Differences in Ethylene-Induced Nasal Lesions in Rats. S. M. Krieger ¹ , J. R. Harkema ² , M. I. Banton ³ , K. Wise ⁴ , L. H. Pottenger ¹ , and J. A. Hotchkiss ¹ . ¹ The Dow Chemical Company, Midland, MI; ² Michigan State University, East Lansing, MI; ³ LyondellBasell, Houston, TX; and ⁴ American Chemistry Council Olefins Panel, Washington, DC.	#1572	Poster Board Number 638 Acetaminophen Potentiates Acute Respiratory Responses to Oxidants and Environmental Tobacco Smoke. G. J. Smith, and J. B. Morris. Department of Pharmaceutical Sciences, University of Connecticut, Storrs, CT.
#1566	Poster Board Number 632 In Vitro Dissolution of Libby Amphibole, Amosite Asbestos, and MMVF Using Acid and Synthetic Lung Fluid Media. S. H. Gavett ¹ , J. K. McGee ¹ , R. S. Pescador ² , D. J. Hoff ³ , T. D. Dawson ⁴ , M. A. McGee ^{5,1} , and A. M. Jarabek ¹ . ¹ ORD, US EPA, Research Triangle Park, NC; ² EMSL Analytical, Libby, MT; ³ ORD, US EPA, Duluth, MN; ⁴ Badger Technical Services, Duluth, MN; and ⁵ ORISE, Research Triangle Park, NC.	#1573	Poster Board Number 639 Preclinical Nebuliser Comparisons to Allow More Effective Decision-Making on Device Selection. S. A. Moore, J. Richardson, C. Gutteridge, and D. J. Mitchell. Inhalation, Huntingdon Life Sciences, Huntingdon, United Kingdom.
#1567	Poster Board Number 633 Effect of Metal Composition and the Use of Adhesive and Anti-Spatter Chemicals on Lung Responses in Rats after Inhalation during Spot Welding. J. M. Antonini, A. Afshari, W. McKinney, T. G. Meighan, M. Jackson, B. T. Chen, D. Schwegler-Berry, J. Thompson, J. Fedan, and P. C. Zeidler-Erdely. NIOSH, Morgantown, WV.	#1574	Poster Board Number 640 A Controlled Human Exposure System for Di-(n)-Butyl Phthalate (DBP) in the Vapor Phase. A. K. Bølling ^{1,2} , Y. Wu ³ , S. Cox ³ , Q. Gu ² , J. Mankoo ² , J. Little ³ , U. C. Nygaard ¹ , and C. Carlsen ² . ¹ Department of Air Pollution and Noise, Norwegian Institute of Public Health, Oslo, Norway; ² Department of Medicine, University of British Columbia, Vancouver, BC, Canada; and ³ Environmental Engineering, Virginia Tech, Blacksburg, VA.
#1568	Poster Board Number 634 Comparison of Inhaled Dose vs. Postexposure Time Period in Silica-Induced Pulmonary Toxicity in the Rats. P. Joseph, R. Sellamuthu, J. R. Roberts, S. Young, D. Richardson, W. McKinney, B. T. Chen, D. G. Frazer, J. Gu, M. L. Kashon, and C. Umbright. Toxicology and Molecular Biology Branch, NIOSH, Morgantown, WV.	#1575	Poster Board Number 641 Precision-Cut Lung Slices As an Alternative Model for Repeated-Dose Inhalation Toxicity. V. Neuhaus, O. Danov, J. Witte, S. Romberg, S. Escher, A. Braun, and K. Sewald. Fraunhofer Institute for Toxicology and Experimental Medicine, Biomedical Research in Endstage and Obstructive Lung Disease Hannover (BREATH), Member of the German Centre for Lung Research (DZL), Hannover, Germany. Sponsor: C. Dassenbrock.
#1569	Poster Board Number 635 A Single Exposure to Photochemical Smog Causes Airway Irritation and Cardiac Dysrhythmia in Mice. M. S. Hazari ¹ , K. Chessnutt ¹ , K. Stratford ² , N. Haykal-Coates ¹ , T. Krantz ¹ , C. King ¹ , A. K. Farraj ¹ , and M. I. Gilmour ¹ . ¹ Environmental Public Health Division, NHEERL, US Environmental Protection Agency, Research Triangle Park, NC; and ² University of North Carolina, Chapel Hill, NC.	#1576	Poster Board Number 642 PCB-Mediated Estrogen Receptor-α-Dependent Histone Modifications: Possible Regulatory Link between PCB Exposure and Induction of Vascular Inflammation. D. Liu, and B. Hennig. Department of Animal and Food Sciences, University of Kentucky, Lexington, KY.
#1570	Poster Board Number 636 The Role of Oxidized Low-Density Lipoprotein Receptors in Matrix Metalloproteinase Activity and Tight Junction Protein Expression in the Cerebral Microvasculature of Mice Exposed to Traffic-Generated Air Pollutants. A. K. Lund ¹ , J. Lucero ¹ , U. Suwannasual ¹ , and J. D. McDonald ² . ¹ Biological Sciences, University of North Texas, Denton, TX; and ² Lovelace Respiratory Research Institute, Albuquerque, NM.	#1577	Poster Board Number 643 Real-Time Cell Analysis for Cytotoxicity Assessment of Coal Fly Ash for Air Quality Monitoring Applications. B. Moe ¹ , J. Li ¹ , C. Yuan ² , S. Gabos ¹ , and X. Li ¹ . ¹ Laboratory Medicine and Pathology, University of Alberta, Edmonton, AB, Canada; and ² School of Environmental Sciences and Engineering, North China Electric Power University, Baoding, China. Sponsor: D. Huang.
		#1578	Poster Board Number 644 Detection of Airway Microbiota by Next-Generation Sequencing following Burn and Inhalation Injury. D. M. Walsh ¹ , S. Yourstone ¹ , S. D. McCullough ² , J. J. Kahle ² , S. W. Jones ¹ , C. Jones ¹ , I. Jaspers ¹ , and D. Diaz-Sanchez ² . ¹ University of North Carolina Chapel Hill, Chapel Hill, NC; and ² US Environmental Protection Agency, Chapel Hill, NC.

TUESDAY

Program Schedule (Continued)

Abstract #

Tuesday Afternoon, March 24
1:00 PM to 4:30 PM
CC Exhibit Hall

Poster Session: Particulate Matter

Chairperson(s): Jared Brown, University of Colorado Denver, Aurora, CO.

Displayed: 1:00 PM–4:30 PM

Author-Attended: 1:00 PM–2:45 PM

- #1579 **Poster Board Number647**
Air Pollution (PM 2.5) in Fresno County Leading to Shorter Life Spans. V. Avalos. Center for Advanced Research and Technology, Fresno, CA. Sponsor: J. Avalos.
- #1580 **Poster Board Number648**
Effects of Photochemically Aged Atmospheres on Allergic Responses in Mice. M. A. McGee¹, E. H. Boykin², T. Krantz², C. King², J. Krug², N. Modak¹, C. E. Wood², I. Gilmour², and S. H. Gavett². ¹Oak Ridge Institute for Science and Education, Research Triangle Park, NC; and ²Office of Research & Development, US EPA, Research Triangle Park, NC.
- #1581 **Poster Board Number649**
Distinct Cardiovascular Responses to Traffic and Urban Industrial Sources of Ambient Fine Particulate Matter in Rats on a High-Fructose Diet. J. G. Wagner¹, R. Das², M. Morishita², B. Nan², B. Mukherjee², and J. R. Harkema¹. ¹Michigan State Univ., East Lansing, MI; and ²Univ. Michigan, Ann Arbor, MI.
- #1582 **Poster Board Number650**
Exposure Levels and Characterization of PM2.5 and Black Carbon in New York City's Subway Stations. M. Vilcassim, G. D. Thurston, and T. Gordon. Environmental Medicine, New York University, Tuxedo, NY.
- #1583 **Poster Board Number651**
A Simplified and Rapid Screening Assay Using Zebrafish to Assess Cardiac Effects of Air Pollution-Derived Particulate Matter. J. S. Stevens¹, S. Padilla², A. Tennant², R. B. Conolly², D. Demarini², M. I. Gilmour¹, W. LeFevre², N. Haykal-Coates¹, W. Linak³, D. Winsett¹, W. Cascio¹, M. S. Hazari¹, and A. K. Farraj¹. ¹Environmental Public Health Division, US EPA, Durham, NC; ²Integrated Systems Toxicology Division, US EPA, Duham, NC; and ³Air Pollution Prevention and Control Division, US EPA, Durham, NC.
- #1584 **Poster Board Number652**
Temporal Evaluation of Multicompartment Molecular Signaling following an Inhalation Exposure to Metal-Rich Particulate Matter. A. Erdelyi^{1,3}, J. M. Antonini^{1,3}, S. Tugendreich², S. Shah², C. E. Nichols³, J. M. Hollander³, R. Salmen¹, A. Liston¹, T. Eye¹, P. P. Simeonova¹, M. L. Kashon¹, S. Li¹, S. Stone¹, B. T. Chen¹, D. G. Frazer¹, and P. C. Zeidler-Erdelyi^{1,3}. ¹NIOSH, Morgantown, WV; ²QIAGEN, Redwood City, CA; and ³West Virginia University, Morgantown, WV.

Abstract #

- #1585 **Poster Board Number653**
Toxicity of Mineral Dusts and a Proposed Mechanism for the Pathogenesis of Particle-Induced Lung Diseases. C. Lam^{1,4}, P. C. Zeidler-Erdelyi³, R. R. Scully¹, V. E. Meyers², R. Hunter⁴, R. A. Renne⁶, R. McCluskey⁵, V. Castranova³, M. Barger³, T. G. Meighan³, W. Wallace¹, and J. T. James². ¹NASA Toxicology Lab and Wyle, Houston, TX; ²Toxicology, NASA, Houston, TX; ³HELD, NIOSH, Morgantown, WV; ⁴Pathology, U. Texas, Houston, TX; ⁵Naval Hospital, Pensacola, FL; and ⁶Roger Renne ToxPath Consulting, Summer, WA.
- #1586 **Poster Board Number654**
Fine Particles of Mexico City As a Potential Adjuvant in an Allergic Asthma Model. C. I. Falcon-Rodriguez^{1,2}, A. De Vizcaya-Ruiz³, L. A. Jimenez-Alvarez⁴, A. R. Osornio-Vargas⁵, I. A. Rosas-Perez⁶, and P. Segura-Medina². ¹Posgrado en Ciencias Biológicas, UNAM, Distrito Federal, Mexico; ²Dept Hiperreactividad Bronquial, INER, Distrito Federal, Mexico; ³Dept de Toxicología, CINVESTAV, Distrito Federal, Mexico; ⁴Dept Immunobiología y Genética, INER, Distrito Federal, Mexico; ⁵Dept of Pediatrics, University of Alberta, Edmonton, AB, Canada; and ⁶Dept Aerobiología, UNAM, Distrito Federal, Mexico.
- #1587 **Poster Board Number655**
Effects of Chemical Composition on the Activation of TRPA1 by Diesel Exhaust Particulate Materials. C. Deering-Rice, V. K. Mitchell, E. Romero, and C. A. Reilly. Pharmacology and Toxicology, University of Utah, Salt Lake City, UT.
- #1588 **Poster Board Number656**
TRPM8 Is Activated by Coal Fly Ash in a Mechanical and Temperature Dependent Manner. E. Romero, C. D. Rice, and C. A. Reilly. Pharmacology and Toxicology, University of Utah, Salt Lake City, UT.
- #1589 **Poster Board Number657**
Exposure to Combustion-Derived Particulate Matter Suppresses Pulmonary Host Defense. S. Jalgama, G. Lee, J. Saravia, N. Yadav, and S. Cormier. Pediatrics, University of Tennessee Health Sciences Center, Memphis, TN.
- #1590 **Poster Board Number658**
Particle Size Distributions of ENDS Aerosol at Various Voltages Utilizing 90 Degree White Light Spectroscopy. K. Corbett, and T. Gordon. Environmental Medicine, NYU School of Medicine, Tuxedo, NY.
- #1591 **Poster Board Number659**
Early Kidney Damage Induced by Continuous Exposure to Concentrated PM2.5. O. Aztatzí-Aguilar, V. Escamilla, M. Uribe-Ramirez, J. Narváez-Morales, O. Barbier, and A. De Vizcaya Ruiz. Toxicology, CINVESTAV-IPN, Mexico City, Mexico.
- #1592 **Poster Board Number660**
Vanadium Inhalation Effect on Lung Mast Cells in a Murine Model. T. I. Fortoul¹, S. L. López-Zepeda¹, S. Antuna-Bizarro¹, L. Colin-Barenque², P. Bizarro-Nevarés¹, and R. Guerrero-Alquicira¹. ¹Biología Celular y Tisular, UNAM, Mexico City; and ²Neuromorfología, FES Iztacala, Edo. Mexico, Mexico.

TUESDAY

Program Schedule (Continued)

Abstract

#1593 **Poster Board Number661**
Characterization and Acute Toxicity of Airborne Particles in an Electronic Waste Recycling Facility. *I. Gilmour¹, Y. Kim², A. Touati³, T. Krantz¹, J. A. Dye¹, W. Linak⁴, and B. Gullett⁴.* ¹NHEERL, US Environmental Protection Agency, Research Triangle Park, NC; ²Curriculum in Toxicology, University of North Carolina, Chapel Hill, NC; ³ARCADIS, Durham, NC; and ⁴NRMRL, US Environmental Protection Agency, Research Triangle Park, NC.

#1594 **Poster Board Number662**
PM2.5 Exposure Results in Endothelial Damage and Altered Immune Cell Populations. *T. O'Toole¹, W. T. Abplanalp¹, D. J. Conklin¹, A. Pope², and A. Bhatnagar¹.* ¹University of Louisville, Louisville, KY; and ²Economics, Brigham Young University, Provo, UT.

#1595 **Poster Board Number663**
Sepiapterin Supplementation Fails to Ameliorate Diesel Exhaust Particle Exposure-Related Erectile and Coronary Artery Dysfunction in Young Lewis Rats. *D. P. Becak, E. D. Jones, R. M. Lust, and C. J. Wingard.* Physiology, East Carolina University, Greenville, NC.

#1596 **Poster Board Number664**
Mitochondrial microRNA Dysregulation Contributes to Acute Cardiac Dysfunction following Pulmonary Mountaintop Mining Particulate Matter Exposure. *C. E. Nichols¹, D. Thapa¹, D. L. Shepherd¹, T. L. Knuckles³, A. Erdely^{4,5}, P. C. Zeidler-Erdely^{4,5}, T. R. Nurkiewicz², and J. M. Hollander¹.* ¹Exercise Physiology, West Virginia University, Morgantown, WV; ²Physiology and Pharmacology, West Virginia University, Morgantown, WV; ³School of Public Health, West Virginia University, Morgantown, WV; and ⁴National Institutes for Occupational Safety and Health, Morgantown, WV.

**Tuesday Afternoon, March 24,
 1:00 PM to 2:00 PM
 CC Room 24A**

Exhibitor-Hosted Session: Improved Methods for *In Vivo* and *In Vitro* Thrombogenicity Testing for Medical Devices

Presented by:

American Preclinical Services

Thrombogenicity testing is a critical component of the ISO 10993-4 testing required for medical devices. Refined methods for *in vivo* thrombogenicity assessment using fluoroscopic guidance and contrast-mediated flow visualization have been identified and will be discussed along with novel *in vitro* blood-loop methods that allow assessment of new materials.

**Tuesday Afternoon, March 24,
 1:00 PM to 2:00 PM
 CC Room 22**

Exhibitor-Hosted Session: Revised OECD Test Guidelines for Genetic Toxicology

Presented by:

BioReliance

On September 26, 2014, four revised and one new OECD Test Guidelines for Genetic Toxicology were officially adopted. This educational session will review each of these guidelines, showing the improved sensitivity of new assay requirements, and present how BioReliance has implemented these in a GLP setting.

**Tuesday Afternoon, March 24,
 1:00 PM to 2:00 PM
 CC Room 24C**

Exhibitor-Hosted Session: Usefulness of Biomarkers in Support of Preclinical Studies

Presented by:

Charles River

A host of new biomarker methods and platforms are being routinely developed and validated, increasing the reliance on biomarkers to evaluate the toxicity and/or efficacy of new drugs. This session will provide an overview of therapeutic area biomarkers and considerations for biomarker assay development in support of preclinical toxicology programs.

**Tuesday Afternoon, March 24,
 1:00 PM to 2:00 PM
 CC Room 24B**

Exhibitor-Hosted Session: Using DRAGON to Implement Systematic Review: Lessons Learned

Presented by:

ICF International

Implementing systematic review for broad environmental health assessments is challenging. With the right tools, scientists can effectively integrate data streams to manage the process including problem formation, literature screening, and risk of bias evaluation according to systematic review principles. ICF scientists will share lessons learned implementing these principles using DRAGON.

Program Schedule (Continued)

Abstract

Tuesday Afternoon, March 24
1:30 PM to 4:15 PM
CC Ballroom 6D

Symposium Session: New Developments in the Management of Nerve Agent Poisoning

Advancing Clinical and Translational Toxicology

Jointly Provided by: University of Arkansas for Medical Sciences College of Medicine and SOT Approved for AMA PRA Category 1 Credit™—See mobile app for details

Chairperson(s): Allister Vale, School of Biosciences and College of Medical and Dental Sciences, University of Birmingham, Birmingham, United Kingdom; and Horst Thiermann, Bundeswehr Institute of Pharmacology and Toxicology, Munich, Germany.

Endorser(s):

Clinical and Translational Toxicology Specialty Section
Neurotoxicology Specialty Section
Occupational and Public Health Specialty Section

Nerve agents have been employed by Iraq and Syria and were released by terrorists in Japan on 11 occasions in 1994–1995. These releases indicate that countries must be prepared to treat civilian as well as military casualties. This requires an understanding of the mechanisms of toxicity of these agents, the factors that influence their clinical impact and knowledge of potential treatments. Much research is underway to improve the current treatment regimens, which include an anticholinergic drug (e.g., atropine) to antagonize the effects of excess acetylcholine (ACh) at muscarinic effector sites, the use of an oxime to reactivate nerve agent-inhibited acetylcholinesterase (AChE), and an anticonvulsant benzodiazepine to prevent or stop nerve agent-induced seizures. A series of novel phenoxyalkyl pyridinium oximes that show efficacy in the brain have been tested and found to reduce brain AChE inhibition and attenuate seizures. The in-service (military) medical countermeasure provision is based on carbamate pretreatment; such an approach is not possible in the case of a civilian population who are also not likely to be wearing personal protective equipment (PPE). The concept of employing physostigmine, hyoscine, and HI-6 in a single autoinjector in the absence of any form of pretreatment may reduce incapacitation significantly. In addition, the potential of human recombinant butyrylcholinesterase alone, and in combination with standard therapy, as a postexposure treatment, and the use of antinicotinic drugs to reduce the effects of accumulated ACh, could offer additional benefits. Finally, a beta-cyclodextrin with an attached oxime function may offer an alternative approach by enhancing detoxification of nerve agents.

Symposium Session: Incorporating In Vitro Pharmacokinetic Data and Tools into Toxicity Testing and Risk Assessments: State of the Science

Strategies for Exposure and Risk Assessments

Chairperson(s): Barbara A. Wetmore, The Hamner Institutes for Health Sciences, Research Triangle Park, NC; and Warren Casey, NIEHS, Durham, NC.

Endorser(s):

Biological Modeling Specialty Section
In Vitro and Alternative Methods Specialty Section
Risk Assessment Specialty Section

New technologies and *in vitro* testing approaches can be valuable additions to risk assessments that have historically relied on *in vivo* test results. Compared to animal testing, *in vitro* high-throughput screening (HTS) assays are efficient, less expensive, and provide insights into chemical mode of action. However, the relationship between the *in vitro* chemical concentration in the well to the chemical concentration in the target tissue or blood *in vivo* is dependent upon pharmacokinetic (PK) and other variables not captured in HTS assays. Incorporation of *in vitro* to *in vivo* extrapolation (IVIVE) modeling with HTS data provides a bridge to link *in vitro* concentrations eliciting activity out to external *in vivo* exposures required to achieve target tissue concentrations similar to those at which activity is observed. Since its introduction five years ago, several efforts have ensued to assess, utilize, and refine this strategy. A series of talks have been assembled that update on progress made and consider principles to guide data evaluation for reliability and utility in a risk assessment context. Correlation of *in vitro* estrogen receptor activity to *in vivo* exposures has provided promising risk predictions. Efforts to streamline clearance and PK predictions using *in silico*- and *in vitro*-derived parameter estimates have laid the groundwork for HT PK modeling. Incorporation of isozyme-specific clearance data with enzyme abundance data for sensitive populations during IVIVE has quantitated PK variability. Moreover, the European Union is taking steps to harmonize standards for *in vitro* human hepatic metabolic clearance measurement. While the progress made is promising, the ultimate challenge will be in its acceptance as an appropriate tool to inform chemical risk assessment.

Symposium Session: Where the Metal Meets the Bone...

Advancing Clinical and Translational Toxicology

Chairperson(s): *Koren K. Mann, Oncology, Lady Davis Institute for Medical Research, McGill University, Montreal, QC, Canada; and Linda H. Nie, School of Health Sciences, Purdue University, West Lafayette, IN.*

Endorser(s): Metals Specialty Section

Bone is well known for its function as a structural support; however, new evidence suggests that bone is important as the site for hematopoiesis, in regulating mineral metabolism, in controlling glucose levels, and as an internal source of toxic metal exposure. Furthermore, bone is a complex, multicellular tissue that evolves depending on age and gender. As we age, particularly among women, we are more prone to osteoporosis and bone fracture. Many metals accumulate within the bone. Such an accumulation can directly alter the structural architecture of the bone itself, while it also renders the bone a primary depot of toxic metals that can result in pathological effects in a variety of tissues. This symposium invites the researchers working on metals in bone to discuss the nonoverlapping mechanisms by which diverse metals accumulate and alter the bone, the local and systemic consequences of metals in bone, and how we can better assess bone metals in humans. After a brief introduction, the first speaker will discuss tributyltin-mediated activation of nuclear receptors and ensuing effects on osteogenesis. The second speaker will discuss how tungsten accumulation in the bone enhances adipogenesis at the expense of bone formation. The third speaker will address manganese accumulation in bone serving as an internal source that may contribute to manganese-induced Parkinsonian disorders. The fourth speaker will address the utility of bone lead as a reliable dosimeter for lead toxicity. Finally, the last speaker will discuss novel noninvasive technologies to define bone metal concentrations. The session will be of interest to a broader audience and, in particular, to those engaged in toxicological research related to bone diseases, osteoporosis, metal toxicities, neurotoxicology, and systems biology.

- #1609 1:30 **Where the Metal Meets the Bone...** *K. K. Mann¹, and L. H. Nie².* ¹Oncology, Lady Davis Institute for Medical Research, McGill University, Montreal, QC, Canada; and ²Purdue University, West Lafayette, IN.

Workshop Session: An Ounce of Prevention Is Worth a Pound of Cure: How 21st Century Toxicology Can Transform Product Safety Assessments and Design of Lower Toxicity Products

Safety Assessment Approaches for Product Development

Chairperson(s): *Pamela J. Spencer, Toxicology & Environmental Research and Consulting, The Dow Chemical Company, Midland, MI; and Martin L. Stephens, Center for Alternatives to Animal Testing, Johns Hopkins University, Baltimore, MD.*

Endorser(s): *In Vitro* and Alternative Methods Specialty Section Regulatory and Safety Evaluation Specialty Section Risk Assessment Specialty Section

Historically, early identification and characterization of adverse effects of industrial chemicals was difficult because conventional toxicological test methods did not meet R&D needs (e.g., methods that are rapid, relatively inexpensive, and amenable to small amounts of test material). Consequently, undesirable toxicological effects were identified closer to commercialization, when few options for design changes existed and after significant investment of time, resources, and money. For example a two-generation reproduction study costs more than \$500,000, uses more than 3,000 rats, and takes 15 months to complete. Further time, money, and resources are consumed in efforts to "defend and save" products identified to have adverse effects. Today, rapidly evolving, next-generation safety assessment methodologies have the potential to transform how companies develop and commercialize new products and chemicals. New 21st century tools now make it feasible to incorporate toxicological assessments as early as the ideology stage of product development and to build in rules and criteria to guide the design of high-efficacy/low-toxicity compounds. Toxicology as a tool for innovation affords benefits for the company developing new products as well as for society. For companies, the earlier candidates with undesirable effects are identified and eliminated, the sooner finite resources can be redirected to those candidates with the highest likelihood of being a successful, sustainable alternative. The input of toxicologists early can inform test strategies and limit complex, costly, and lengthy studies to those few promising candidates, reducing postmarket defense of products targeted for future deselection. For society, safer, healthier alternatives are commercialized and the risk of

Abstract

unknown health and environmental effects surfacing after product launch are reduced. Using 21st century toxicology methods as a preventive strategy to design out undesired human health and environmental effects offers benefits to companies and society over the current paradigm. This session will provide a forum for collaboration among scientists working in complementary fields to discover common ground in the quest for safer chemicals by adopting an innovative, prevention-based framework to product safety assessment through strategic application of new 21st century methodologies. Case studies will be used to illustrate how to build successful strategies into product development.

- #1615 1:30 **An Ounce of Prevention Is Worth a Pound of Cure: How 21st Century Toxicology Can Transform Product Safety Assessments and Design of Lower Toxicity Products.** *P. J. Spencer¹, and M. L. Stephens².* ¹The Dow Chemical Company, Midland, MI; and ²Johns Hopkins University, Baltimore, MD.
- 1:30 **Introduction.** P. J. Spencer. The Dow Chemical Company, Midland, MI.
- #1616 1:40 **A Framework for Designing Safer Chemicals.** N. Anastas. US EPA, Boston, MA. Sponsor: *P. Spencer.*
- #1617 2:08 **Chemical Design Principles and Screening Methodologies in Predicting Toxicity Liability to Guide Drug Discovery Candidate Selection.** *N. Greene.* Pfizer Inc., Groton, CT.
- #1618 2:36 **On the Design of Safer Commercial Chemicals: Moving Forward.** *S. DeVito.* Office of Environmental Information, US Environmental Protection Agency, Washington, DC.
- #1619 3:04 **21st Century Toxicology: Tools for Innovation and Safer Chemical Design.** *T. Hartung.* CAAT, Johns Hopkins University Bloomberg School of Public Health, Baltimore, MD.

Workshop Session: Current Understanding of Immune-Mediated Adverse Drug Reactions

Advancing Clinical and Translational Toxicology

Chairperson(s): Arno Siraki, University of Alberta, Edmonton, AB, Canada; and Alison Harrill, Environmental and Occupational Health, University of Arkansas for Medical Sciences, Little Rock, AR.

Endorser(s):

Immunotoxicology Specialty Section

Immune-mediated adverse drug reactions (IM-ADRs) represent a significant incidence of patient morbidity and mortality, and they significantly add to the cost of drug development. The most affected organs include the skin, liver, and blood, and such organs are known to initiate and shape immune responses. Despite major recent attempts to investigate the mechanism behind IM-ADRs, our understanding of such reactions remains superficial. The role of drugs and how they are able to cause organ damage, whether by inducing or altering an immune response, is not well understood. At this workshop, research highlighting different mechanisms or how drugs initiate an immune response that leads to an IM-ADR will be discussed. This includes the formation of covalent adducts, the induction of danger signals to overcome immune tolerance, the "altered repertoire" hypothesis

Abstract

based on which drugs change the repertoire of self-peptides presented by HLA molecules, and the heterologous immunity model, which provides an explanation for the low positive predictive value of most HLA associations of drug hypersensitivity. The presentations will highlight new advancements in the technology for early detection of IM-ADRs, *in vitro* assays, and the use of valid animal models.

- #1621 1:30 **Current Understanding of Immune-Mediated Adverse Drug Reactions.** *A. Siraki², A. Harrill³, and I. G. Metushi¹.* ¹La Jolla Institute for Allergy and Immunology, San Diego, CA; ²Pharmaceutical Sciences, University of Alberta, Edmonton, AB, Canada; and ³Department of Environmental and Occupational Health, University of Arkansas, Fayetteville, AR.

Cheng³.* ¹Department of Medicine, University of Colorado, Aurora, CO; ²Department of Biotherapy, University of Colorado, Aurora, CO; and ³Nanjing Medical University, Jiangsu, China.
- #1625 3:02 **Drug Hypersensitivity Caused by Alteration of the MHC-Presented Self-Peptide Repertoire.** *B. Peters.* La Jolla Institute for Allergy and Immunology, San Diego, CA. Sponsor: *I. Metushi.*
- #1626 3:31 **Current Science and Translational Opportunities in the Prediction and Prevention of Immunologically Mediated Adverse Drug Reactions.** *E. Phillips.* Department of Medicine, Vanderbilt University Medical Center, Nashville, TN. Sponsor: *I. Metushi.*
- 4:00 **Panel Discussion/Q&A.**

Tuesday Afternoon, March 24

1:30 PM to 4:15 PM
CC Ballroom 6C

Workshop Session: *In Vitro* Microphysiological Systems—Developing Confidence in Predictive Ability

Chairperson(s): Suzanne C. Fitzpatrick, Center for Food Safety & Applied Nutrition, US Food and Drug Administration, College Park, MD; and Anthony Bahinski, Wyss Institute for Biologically Inspired Engineering at Harvard University, Boston, MA.

Endorser(s):

In Vitro and Alternative Methods Specialty Section
Regulatory and Safety Evaluation Specialty Section

Mechanically active "organ-on-a-chip" microdevices that reconstitute tissue-tissue interfaces critical to organ function can expand the capabilities of cell culture models and provide low-cost and more informative alternatives to animal toxicology studies. With simplified designs and careful choice of biocompatible device materials, they can be useful for high-content analysis and screening of cellular responses to drugs, chemicals, particulates, toxins, pathogens, or other environment stimuli relevant to pharmaceutical, cosmetic, and environmental applications. In 2011, President Obama

Program Schedule (Continued)

Abstract

announced that the National Institutes of Health will collaborate with the Defense Advanced Research Projects Agency (DARPA), and the US Food and Drug Administration to develop a chip to screen for safe and effective drugs far more swiftly and efficiently than current methods, and before they are tested in humans. It was clear to both US FDA and NIH that these models have the potential for more accurate modeling of physiological situations to answer fundamental basic science questions. As the science of *in vitro* microphysiological systems develops, it is also imperative that regulators communicate what they need to demonstrate confidence in the predictive capacity of these new and promising models. This workshop presents a pathway to full acceptance and use by first developing confidence in each of the different integral parts of the model and then combining them for a “context-of-use” evaluation of overall predictive ability to answer critical regulatory questions.

Program Schedule (Continued)

Abstract

Tuesday Afternoon, March 24
1:30 PM to 4:15 PM
CC Room 1

Platform Session: Prudent Animal Usage in Pharmaceutical Safety Testing

Safety Assessment Approaches for Product Development

Chairperson(s): Qihong Huang, Toxicology and Safety Assessment, Boehringer Ingelheim, Ridgefield, CT; and Timothy Reilly, Bristol-Myers Squibb, Princeton, NJ.

- #1640 1:30 **For a More Prudent Use of Animals in General Toxicity Studies.** G. Schmitt, M. Festag, and M. De Vera Mudry. Toxicology, F. Hoffmann-La Roche, Basel, Switzerland. Sponsor: T. Singer.
- #1641 1:53 **Quantifying the Pharmaceutical Industry's Contribution to Published 3Rs Research 2002-2012.** S. Cunningham², N. Partridge², and R. Roberts¹. ¹AstraZeneca, Macclesfield, United Kingdom; and ²The Association of the British Pharmaceutical Industry (ABPI), London, United Kingdom.
- #1642 2:16 **Where Microsampling Meets the 3Rs: Implementation and Best Practices for Small Molecule Toxicokinetic Assessments in Rats to Fulfill GLP Regulatory Requirements.** E. B. Harstad, J. A. Couch, X. Ding, X. Liang, B. M. Liederer, K. Messick, T. Nyugen, J. Tarrant, M. Schweiger, and B. J. Dean. Genentech, South San Francisco, CA.
- #1643 2:39 **Reducing Animal Numbers on Regulatory Toxicology Studies Using Microsampling and Sample-Sparing Techniques.** D. J. Mitchell¹, L. Ramaiah³, D. Coleman², and R. Lawrence². ¹Dept of Toxicology, Huntingdon Life Sciences, Eye, United Kingdom; ²Dept of Toxicology, Huntingdon Life Sciences, Huntingdon, United Kingdom; and ³Veterinary Clinical Pathology, Huntingdon Life Sciences, Princeton, NJ.
- #1644 3:02 **What Constitutes Scientific Justification for Inclusion of Recovery Assessment in Preclinical Studies Supporting First Time in Man (FTIM)?** S. Robinson, and R. Roberts. AstraZeneca, Macclesfield, United Kingdom.
- #1645 3:25 **Considerations for In Vitro Systems to Reflect In Vivo Toxicities to Facilitate Drug Development.** T. Zabka¹, A. H. Kim¹, H. Uppal¹, M. A. Kauss¹, P. Dhawan¹, B. Liederer², T. Lin¹, B. McCray¹, T. Nyugen¹, and C. Chou¹. ¹Safety Assessment, Genentech, South San Francisco, CA; and ²DMPK, Genentech, South San Francisco, CA.
- #1646 3:48 **Overcoming Barriers to Human Tissue Use for Safety Assessment.** A. Holmes¹, D. R. Jones², D. Bunton³, J. Louttit⁴, H. M. Vargas⁵, and J. Valentin⁶. ¹National Centre for the Replacement, Refinement and Reduction of Animals in Research, London, United Kingdom; ²Medicines and Healthcare Products Regulatory Agency, London, United Kingdom; ³Biopta Ltd, Glasgow, United Kingdom; ⁴GlaxoSmithKline, Stevenage, United Kingdom; ⁵Amgen, Thousand Oaks, CA; and ⁶UCB Pharma, Brussels, Belgium.

Tuesday Afternoon, March 24
2:15 PM to 3:30 PM
CC Room 14A

Undergraduate Educator Network Meeting

Chairperson(s): Mindy F. Reynolds, Washington College, Chestertown, MD.

Hosted by:
Education Committee
Undergraduate Education Subcommittee

The Education Committee and the Undergraduate Education Subcommittee are hosting the Undergraduate Educator Network Meeting for all faculty involved in the teaching of toxicology to undergraduates, as well as those interested in including toxicology at the undergraduate level. Hear an update on initiatives for undergraduate faculty, provide your input, and network.

Tuesday Afternoon, March 24,
2:30 PM to 3:30 PM
CC Room 24C

Exhibitor-Hosted Session: 3D Liver Models and Beyond: 3D Hepatic, Cardiac, Pancreatic, and Neural Microtissue Models for Toxicity Testing

Presented by:
InSphero Inc.

3D liver microtissue models have demonstrated significant value as more organotypic systems for assessment of toxicity. This session aims to cover the latest studies characterizing 3D InSight™ liver microtissues, and introduce novel 3D models for assessment of toxicity in non-liver organs, focusing on the heart, pancreas, and brain.

Tuesday Afternoon, March 24,
2:30 PM to 3:30 PM
CC Room 24A

Exhibitor-Hosted Session: Application Study: Human-Induced Pluripotent Stem (iPS) Cell Assay As a Tool for Compound Ranking Based on Human Developmental Toxicity Potential

Presented by:
Stemina Biomarker Discovery, Inc.

A human stem cell-based predictive model of human developmental toxicity can be applied to rank compounds by their relative teratogenic potency. Testing in a series of retinoids will provide an example. This approach can be applied to compound series in the discovery phase, or as a bridging study to enable read-across assessment.

Tuesday Afternoon, March 24,
2:30 PM to 3:30 PM
CC Room 24B

Exhibitor-Hosted Session: Reproductive and Juvenile Studies in Minipigs

Presented by:
CiToxLAB and Ellegaard Göttingen Minipigs

In this joint CiToxLAB/Ellegaard session we will present the basic reproductive biology of Göttingen minipigs, theory, and practice of embryofetal toxicology studies in minipigs, and theory and practice of juvenile toxicity studies in minipigs. The session, illustrated with case histories, should interest both specialists and generalists!

Program Schedule (Continued)

Tuesday Afternoon, March 24,
2:30 PM to 3:30 PM
CC Room 22

Exhibitor-Hosted Session: The Path to Licensure: Ebola Vaccines

Presented by:
Battelle

The recent Ebola outbreak has highlighted the seriousness of emerging infectious diseases. As these diseases have garnered greater attention, it has also become apparent that there are challenges associated with the regulatory pathways required to ensure safe and efficacious treatments in order to meet the time-sensitive demands.

Tuesday Afternoon, March 24
4:00 PM to 5:00 PM
CC Room 14A

Undergraduate Student Meeting

Chairperson(s): Mindy F. Reynolds, Washington College, Chestertown, MD.

Hosted by:
Education Committee
Undergraduate Education Subcommittee

All Undergraduate students attending the meeting are encouraged to participate in an informal meeting to talk about shared interests related to career paths in toxicology, discuss undergraduate tox-related activities, clubs, and majors on their campuses, and to provide feedback to the Undergraduate Education Subcommittee.

Tuesday Afternoon, March 24,
4:00 PM to 5:00 PM
CC Room 22

Exhibitor-Hosted Session: Efficiently Integrating CMC and Preclinical Safety/DMPK to Streamline the Access to Phase I: Is the Balance between Speed, Cost, and Risk Management Possible?

Presented by:
APTUIT LLC

Integrated drug development is a complex endeavor and requires a combination of multiple scientific and strategic competencies. Scientific, technical, and regulatory elements supported by the right strategy drive the design of an optimal development plan, finding the right tailored balance between streamlining, risk, and potential investments.

Tuesday Afternoon, March 24,
4:00 PM to 5:00 PM
CC Room 24B

Exhibitor-Hosted Session: SEND Compliance with US FDA Guidance

Presented by:
PointCross LifeSciences, Inc

A readiness plan to comply with the US FDA's binding guidance for standardized SEND submissions will be presented. Impacts on study design, data collection and preparation, submission, and review will be discussed. Lessons learned from the US FDA's NIMS review tool and JumpStart Nonclinical Service and from sponsor implementations will be presented.

Tuesday Afternoon, March 24,
4:00 PM to 5:00 PM
CC Room 24C

Exhibitor-Hosted Session: Stem Cell-Derived Hepatocytes with Enhanced Drug Metabolizing Functions

Presented by:
Takara Bio Europe AB (formerly Cellartis)

Cellartis® Enhanced hiPS-HEP is a highly homogenous population of human iPSC-derived hepatocytes with significant activity levels of relevant CYPs. These cells are ideal for use in toxicology-related applications and drug metabolism studies that demand substantial expression of drug metabolism enzymes, a highly reproducible platform, and continuous supply of material from the same genetic background.

Tuesday Afternoon, March 24,
4:00 PM to 5:00 PM
CC Room 24A

Exhibitor-Hosted Session: Utilization of the Impedance-Based xCELLigence Real-Time Cell Analysis (RTCA) Technology for In Vitro Health Risk Assessment

Presented by:
Alberta Centre for Toxicology and The Hamner Institutes

There is an unmet need for *in vitro* toxicity bioassay with higher sensitivity, lower interference, and better predictive value. In this workshop, two institutions will share their experience with the impedance-based xCELLigence RTCA technology for the *in vitro* assessment of water and food safety.

Tuesday Afternoon, March 24
4:30 PM to 6:00 PM
CC Ballroom 6A
(All SOT Members Invited)

SOT Annual Business Meeting

Members are invited and encouraged to attend the 54th SOT Annual Business Meeting. The agenda includes discussion of plans for 2015–2016, a financial summary, a review of the 2014–2015 activities, and an introduction of the 2015–2018 Strategic Plan.

(All Attendees Welcome)

Tox ShowDown

Chairperson(s): Sue M. Ford, St. John's University, Jamaica, NY; and Phil Wexler, NIH-NLM, Bethesda, MD.

Hosted by:
Graduate Student Leadership Committee

Join the Graduate Student Leadership Committee (GSLC) and your peers Tuesday night for the *Tox ShowDown*, an engaging quiz game patterned off of the popular long-running show *It's Academic*. Teams of three contestants will compete at answering questions concerning toxicology not only in its historical and scientific context, but as it relates to arts and culture. Supported by GSLC, this event is sure to be both informative and entertaining and a perfect way to celebrate the halfway point of the SOT Annual Meeting. The game will provide attendees with a break, albeit still toxicologically-oriented, from the more technical business of the meeting.

TUESDAY

Program Schedule (Continued)

WEDNESDAY MORNING

Wednesday Morning, March 25
7:00 AM to 8:00 AM
CC Room 2

Global Hot Topics Event: Global Drug Development and Natural Products: End of an Era or an Endless Frontier?

Hosted by:
Special Interest Group Collaboration Group

For more information, see page 88.

Wednesday Morning, March 25
7:00 AM to 7:45 AM
CC Room 8

Toxic Substances Control Act Task Force Update: Strategy, Issues, and Outreach

SOT Toxic Substances Control Act (TSCA) Task Force members will take the lead during this special sunrise session to detail the Task Force's efforts this past year and plans for 2015 in the House of Representatives and the Senate to make SOT an important stakeholder in this ongoing legislative issue.

Wednesday Morning, March 25
8:00 AM to 9:00 AM
CC Ballroom 6A

Keynote Medical Research Council (MRC) Lecture: Environmental Influences on the Immune System via the Aryl Hydrocarbon Receptor

Lecturer: Brigitta Stockinger, MRC National Institute for Medical Research, London, United Kingdom.

The aryl hydrocarbon receptor (AhR), well known in the pharmacology/toxicology field for its role in mediating the toxicity of xenobiotics, has more recently attracted the attention of immunologists. The evolutionary conservation of this transcription factor and its widespread expression in the immune system point to important physiological functions that are slowly being unravelled. In particular, the emphasis is now shifting from the role of AhR in the xenobiotic pathway toward its mode of action in response to physiological ligands. The current focus in the field is on understanding the molecular interactions and functions of AhR in the immune system in steady state and in presence of infection and inflammation, particularly in barrier organs such as the skin, the gut, and the lung.

Abstract

Symposium Session: Role of the Gut Microbiome in the Host Response to Xenobiotics

Chairperson(s): Andrew Patterson, Veterinary and Biomedical Sciences, Pennsylvania State University, University Park, PA; and Gary H. Perdew, Veterinary and Biomedical Sciences, Center for Molecular Toxicology and Carcinogenesis, Pennsylvania State University, University Park, PA.

Endorser(s):

Mechanisms Specialty Section
Mixtures Specialty Section
Molecular and Systems Biology Specialty Section

A population of nearly 100 trillion dynamic and diverse microbiota inhabits the human gut. Unlike the genome of a single organism, the combined genomic content of the gut microbiome, known as the metagenome, can rapidly vary as a function of diet, location, host genetics, and a variety of other factors, including exposure to chemical toxicants. The gut microbiota is essential for normal immune system development, displacement of pathogens, extraction of additional energy, and can contribute significantly to metabolism of drugs, xenobiotics, and dietary bioactive chemicals. With these critical functions in mind, the gut microbiota might themselves be considered an additional, metabolically vital organ of the human body. Experts who are at the forefront of microbiome research will present their timely and innovative research that utilizes cutting-edge technology and systems approaches (e.g., high-throughput sequencing, mouse models, metabolomics) to explore topics ranging from inflammation and cancer to drug metabolism.

Workshop Session: An Experiment in Collective Wisdom Utilizing Real-Time Audience Input: Weight-of-Evidence Assessment for Chemical-Specific Modes of Action Utilizing Two Case Studies

Chairperson(s): Sean Hays, Summit Toxicology LLP, Lyons, CO; and Bette Meek, McLaughlin Centre for Population Health Risk Asses, University of Ottawa, Ottawa, ON, Canada.

Endorser(s):

**Regulatory and Safety Evaluation Specialty Section
Risk Assessment Specialty Section**

This session is an exercise in using collective wisdom/audience participation to help inform the weight-of-evidence assessment for the mode of action (MOA) for two specific chemicals: 1,2,3-trichloropropane and tetrachloroethylene. The degree of confidence required for acceptance of a proposed MOA for a specific chemical will vary from individual to individual. As a result, chemical risk assessments that are published by regulatory agencies or individuals and MOA discussions are subject to criticism from individuals with a different viewpoint. Understanding this variation amongst individuals in the toxicology and risk assessment communities is an important factor for risk managers to understand and appreciate. This session will provide a forum to explore the degree of this variation in the level of confidence in chemical-specific MOA arguments. Using proven technology for audience participation during scientific sessions and real-time analyses of results, the audience and speakers will explore how collective wisdom can inform the process of how MOA decisions are made, and how differing expertise impacts decisions. The presenters will discuss the technology used in this session, how individuals can provide insights on their expertise and experience, and the extent of weight of evidence in support of and against proposed MOA for 1,2,3-trichloropropane and tetrachloroethylene. Finally, the results of the collective wisdom exercise will be presented and findings from the exercise will be discussed by a panel of experts. Audience members should bring wifi-enabled devices to participate in real-time interaction with the presentation.

- #1653 9:00 **An Experiment in Collective Wisdom Utilizing Real-Time Audience Input: Weight-of-Evidence Assessment for Chemical-Specific Modes of Action Utilizing Two Case Studies.** S. Hays¹, and B. Meek². ¹Summit Toxicology LLP, Lyons, CO; and ²McLaughlin Centre for Population Health Risk Assessment, University of Ottawa, Ottawa, ON, Canada.
- 9:00 **Introduction.** S. Hays. Summit Toxicology LLP, Lyons, CO.
- #1654 9:05 **Introduction to Collective Wisdom Technology.** C. R. Kirman. Summit Toxicology LLP, Orange, OH. Sponsor: S. Hays.
- #1655 9:15 **Weight of Evidence in MOA/AOP Analysis.** B. Meek. McLaughlin Centre for Population Health Risk Assessment, University of Ottawa, Ottawa, ON, Canada.

Workshop Session: Application of High-Throughput In Vitro Assays in Assessing Small Molecule Safety

🌐 Safety Assessment Approaches for Product Development

Chairperson(s): Nigel Greene, Pfizer Inc., Groton, CT; and Russell S. Thomas, National Center for Computational Toxicology, US Environmental Protection Agency, Research Triangle Park, NC.

Endorser(s):

**Drug Discovery Toxicology Specialty Section
In Vitro and Alternative Methods Specialty Section**

Social demands to ensure both public health and environmental safety from either planned or accidental exposure to existing or new molecular entities whilst still maintaining a flow of new and more effective medicines or the necessary commercial advances in personal products, requires both industry and regulatory authorities to identify and manage the risks presented by an increasingly large number of novel compounds. Often these hazard and risk assessments are made in the absence of high-quality toxicology data, and generating this data would take many years and millions of dollars for each compound under review. As a result, the scientific community has been seeking ways to prioritize these new and existing chemical entities according to their potential for adverse effects to either humans or the environment. The use and application of high-throughput *in vitro* assays offers significant advantages for both industry and regulator alike, but their application is not without its drawbacks. On the positive side, these types of approaches to hazard assessment are often fast and relatively cheap to run once they have been successfully implemented. In addition, these approaches offer a highly attractive public relations solution in view of the increasing demands to refine, reduce, or replace animals in laboratory experiments. However, questions still exist about their ability to adequately distinguish between toxic and nontoxic molecules and their effectiveness in ensuring public safety. This workshop will highlight recent experiences and learnings in the practical application of high-throughput *in vitro* assays across a broad scope of industry and regulatory agencies. The presentations will illustrate how *in vitro* assays are being applied to gain an understanding of which chemicals have the highest level of concern and can lead to a greater understanding of the mechanisms of action that can ultimately result in toxicity.

- #1660 9:00 **Application of High-Throughput In Vitro Assays in Assessing Small Molecule Safety.** N. Greene¹, and R. S. Thomas². ¹Pfizer Inc., Groton, CT; and ²US Environmental Protection Agency, Raleigh, NC.
- 9:00 **Introduction.** N. Greene. Pfizer, Inc., Groton, CT.
- #1661 9:05 **Genetic Mapping of In Vitro Susceptibility to Cytotoxic Compounds—The 1000 Genomes High-Throughput Screening Study.** I. Rusyn. Texas A&M University, College Station, TX.

Workshop Session: Deciphering Clinical and Experimental Retinal Toxicology: An Eye on the Present and Future

Advancing Clinical and Translational Toxicology

Chairperson(s): Edward Chow, Allergan, Irvine, CA; and Donald A. Fox, University of Houston, Houston, TX.

Endorser(s):

Neurotoxicology Specialty Section
Ocular Toxicology Specialty Section
Toxicologic and Exploratory Pathology Specialty Section

The World Health Organization estimates that 285 million people worldwide are visually impaired or blind due to age-related macular degeneration (AMD), diabetic retinopathy, glaucoma, retinitis pigmentosa, or drug- and chemical-induced retinal degeneration. These retinopathies are characterized by progressive and regional/cell selective loss of anatomically or physiologically related neuronal function. Retinotoxicity is also an important issue during drug development as a result of both on- and off-target effects. New advances in noninvasive electrophysiological and imaging techniques at the cellular and micron level of resolution have enabled efficient time-course studies in man and animals and contributed to earlier detection/evaluation and increased understanding of retinal toxicology in them. Basic and clinical science studies, utilizing advanced electrophysiological and imaging techniques, in developing and adult organisms, have elucidated interspecies similarities and differences in retinal anatomy, cell/molecular biology, cell signaling, pharmacology, physiology, pharmacokinetics, and metabolism that enable a more precise translation of animal retinotoxicity to man. The first four speakers in this symposium will present the latest information about these areas while the final speaker will address recent developments in retinal pigmented epithelium stem cell basic and clinical/translational research, including the toxicology evaluation that is required before initiating human trials for this latest technological advancement. Together, these speakers will provide the latest comprehensive information about retinotoxicology and describe a framework for predictive retinotoxicity of new drugs and environmental/industrial chemicals.

- #1666 9:00 **Deciphering Clinical and Experimental Retinal Toxicology: An Eye on the Present and Future.** E. Chow¹, and D. A. Fox². ¹Toxicology, Allergan, Irvine, CA; and ²Pharmacology and Pharmaceutical Sciences, University of Houston, Houston, TX.
- 9:00 **Introduction.** E. Chow. Allergan, Irvine, CA.

Abstract

- #1667 9:05 **New Insights in Retinal Structure and Function to Evaluate Toxicity of Ocular Drugs.** B. G. Short. Pathology, Allergan, Irvine, CA.
- #1668 9:34 **The Role of Blood-Retina Barrier Transporters in Retinal Toxicity.** J. Chastain. Ocular Pharmacokinetics and Disposition, Alcon Research Ltd, Fort Worth, TX. Sponsor: E. Chow.
- #1669 10:03 **Toxicant-Induced and Off-Target Drug-Induced Retinotoxicity: Selective Cellular and Compartmental Sites and Mechanisms of Action.** D. A. Fox. Pharmacology and Pharmaceutical Sciences, The University of Houston, Houston, TX.
- #1670 10:32 **Retinal Pigment Epithelium: Disease and Drug-Induced Dysfunction.** C. Crosson. Ophthalmology, Medical University of South Carolina, Charleston, SC.
- #1671 11:01 **Stem Cells in Retinal Repair and Regeneration.** D. Clegg. Molecular, Cellular, and Developmental Biology, University of California Santa Barbara, Santa Barbara, CA. Sponsor: E. Chow.
- 11:30 **Panel Discussion/Q&A.**

Wednesday Morning, March 25

9:00 AM to 11:45 AM
CC Ballroom 6C

Workshop Session: Evaluating Similarity across Related Complex Mixtures: The Challenge of Herbal Supplements

Chairperson(s): Cynthia V. Rider, NTP/NIEHS, Research Triangle Park, NC; and Joseph M. Betz, Office of Dietary Supplements, NIH, Bethesda, MD.

Endorser(s):

Food Safety Specialty Section
Mixtures Specialty Section

Complex mixtures represent a significant public health concern and challenge to the risk assessment community. Whole mixture approaches are recommended by risk assessors because evaluating the "mixture-of-concern" necessarily accounts for the unidentified fraction and precludes the need to introduce the assumption of additivity among identified constituents (or define all interactions), as opposed to component-based approaches. However, assessing the safety or risk associated with every permutation of a complex mixture is an intractable problem. Therefore, methods for determining sufficient similarity of the mixture-of-interest to a well-characterized reference mixture are necessary. Herbal supplements provide a unique opportunity to make progress in this arena while addressing the important public health concern of herbal supplement safety. Herbal products on the marketplace often display a wide range of constituent concentrations that frequently differ from label claims. Significant research has been dedicated to characterizing the chemistry of these complex mixtures and comparing across related formulations using marker compounds and fingerprinting techniques in order to confirm appropriate source material and identify adulterated products. Progress has also been made in comparing similarity of biological responses across multiple herbal products and developing statistical methods for evaluating sufficient similarity. However, the whole picture—recommended approaches for evaluating chemical and biological sufficient similarity—has yet to emerge. In this session, speakers will discuss the latest science for evaluating chemical and biological similarity of related products with a focus on herbal supplements. Developing recommended methods for comparing across herbal products will help in the evaluation of herbal supplements in the marketplace and could be readily extrapolated to other complex mixture scenarios (e.g., commercial formulations, environmental contaminant mixtures).

- #1672 9:00 **Evaluating Similarity across Related Complex Mixtures: The Challenge of Herbal Supplements.** C. V. Rider¹, and J. M. Betz². ¹NTP/NIEHS, Research Triangle Park, NC; and ²ODS/NIH, Bethesda, MD.

Regional Interest Session: Some Like It Hot: Impacts of Wildfires on Human Health

Approaches for Protecting Vulnerable Populations

Chairperson(s): Michael C. Madden, ORD/NHEERL/HSD, Clinical Research Branch, US EPA, Chapel Hill, NC; and Shelley DuTeaux, Emergency Preparedness Office, California Department of Public Health, Sacramento, CA.

Endorser(s):

Occupational and Public Health Specialty Section
Southern California Regional Chapter

Wildfires have health impacts derived from combustion emissions and contribute 20%–30% of ambient particulate matter (PM). One recent report predicted longer wildfire seasons, smokier fires, and burning a larger area in the Western US. Elevated PM levels have been linked to increased deaths and hospitalizations for several morbidity outcomes. Different types of wildfire vary by the type of wood being burned (i.e., crown, brush, below ground); the fire type may induce different types of health effects. Using a primate model, monkeys exposed to Northern California wildfire had persistent changes in blood cell cytokine production. Additionally, gender-dependent changes in airway hyper-responsiveness and compliance were observed. Alterations in health effects observed in both Northern and Southern California communities from wildfires in the last ten years will be compared and contrasted to an Eastern US peat-fueled wildfire. These studies examined susceptibility factors (e.g., socioeconomic, pre-existing cardiopulmonary disease) that modulated the observed health effects. Native tribes in Northern California were particularly susceptible to exposure due to the geography of tribal lands. The effectiveness regarding mitigation strategies (e.g., filters, face masks) within the affected communities will be described. The guidance for mitigating adverse health effects, developed by an international working group, will be presented and addresses the highly sensitive/susceptible populations. The identification of potentially susceptible individuals and effectiveness of intervention strategies have implications for preventing adverse outcomes and decline in public health. The observations from these studies will be integrated into the current knowledge of ambient PM-associated health effects as to the uniqueness of the findings. This session will be of great interest to public health specialists, inhalation and cardiovascular toxicologists, and those in the California area. [This abstract may not reflect official US EPA policy.]

Poster Board Number 129 Evaluation of the Morris Water Maze Using ANY-maze™ Software Increases Consistency and Throughput of Learning and Memory Testing. C. E. Grace, and M. O'Hara. Early Development, Developmental and Reproductive Toxicology, Covance Laboratories, Inc., Greenfield, IN.
#1720	#1727
Poster Board Number 123 Developmental Toxicity Studies (OECD 414) with 6 Different Titanium Dioxide Materials (3 Pigment-Grade & 3 Nanostructured) Demonstrate Negative Effects in Orally-Exposed Rats. S. M. Munley ¹ , R. J. Boatman ² , P. Takawale ³ , S. R. Holalagoudar ³ , and D. B. Warheit ¹ . ¹ DuPont Haskell Lab, Newark, DE; ² Boatman Toxicology Consulting LLC, Rochester, NY; and ³ BSL Bioservice, Munich, Germany.	Poster Board Number 130 Temporal Sensitivity of the Developing Cardiovascular System to Nanoparticle-Derived Nitric Oxide and Nitrosylating Species. J. A. Bonventre ¹ , L. M. Denluck ¹ , A. Friedman ² , and S. L. Harper ^{1,3} . ¹ Envir & Mol Tox, Oregon State University, Corvallis, OR; ² Montefiore-Einstein College of Medicine, Bronx, NY; and ³ Chem, Bio, & Envir Engineering, Oregon State University, Corvallis, OR.
#1721	#1728
Poster Board Number 124 Maternal Inhalation of PM_{2.5} Alters Fetal Cardiac Function, Fetal Size, and Postnatal Body Weight in Mice. K. Kaur ¹ , C. Phoon ² , J. L. Blum ¹ , S. P. Doherty-Lyons ¹ , C. Hoffman ¹ , P. B. Tijerina ¹ , S. E. Attreed ¹ , A. Nadas ¹ , L. Chen ¹ , and J. T. Zelikoff ¹ . ¹ Environmental Medicine, NYUSOM, Tuxedo, NY; and ² Pediatrics (Cardiology), NYULMC, New York, NY.	Poster Board Number 131 Epigenetic Modifications of Histone H3 in Brains and Livers of Fetal DNA Repair-Deficient Oxoguanine Glycosylase 1 (OGG1) Knockout Mice Exposed In Utero to Ethanol. S. Bhatia ¹ , and P. G. Wells ^{1,2} . ¹ Pharmaceutical Sciences, University of Toronto, Toronto, ON, Canada; and ² Pharmacology and Toxicology, University of Toronto, Toronto, ON, Canada.
#1722	#1729
Poster Board Number 125 Effects of Maternal Hypoglycemia on Fetal Eye Development in Rats. C. Suzuki, T. Maejima, Y. Kato, S. Sato, T. Matsuoka, K. Shimomura, Y. Tsuchiya, and W. Takasaki. Medicinal Safety Research Laboratories, Daiichi Sankyo Co., Ltd., Edogawa-ku, Japan.	Poster Board Number 132 Transcriptional Alterations of Cholinergic and Dopaminergic Genes in the CNS of Mice Neonatally Exposed to PFOS and PBDE 99. S. Hallgren, A. Fredriksson, and H. Viberg. Environmental Toxicology, Uppsala University, Uppsala, Sweden.
	#1730
	Poster Board Number 133 Hepatic Mitochondrial Alteration in CD1 Mice Associated with Prenatal Exposures to Low Doses of Perfluorooctanoic Acid (PFOA). E. Quist ^{1,2} , A. J. Filgo ^{1,3} , C. A. Cummings ⁶ , G. E. Kissling ⁴ , M. J. Hoenerhoff ⁵ , and S. E. Fenton ¹ . ¹ NTP, NIEHS, Research Triangle Park, NC; ² Comparative Biomedical Sciences, CVM, NCSU, Raleigh, NC; ³ Curriculum in Toxicology, UNC, Chapel Hill, NC; ⁴ DIR, NIEHS, Research Triangle Park, NC; ⁵ Unit for Laboratory Animal Medicine, University of Michigan, Ann Arbor, MI; and ⁶ Ultrapath Imaging, Durham, NC.

Program Schedule (Continued)

Abstract

- #1731 **Poster Board Number 134**
Brominated Diphenyl Ether-47 Stimulated Cell Migration with Differential Expression of Matrix Metalloproteinases in a Human First Trimester Trophoblast Cell Line. *H. Park, and R. Loch-Caruso.* Environmental Health Sciences, University of Michigan, Ann Arbor, MI.
- #1732 **Poster Board Number 135**
PCBs Decrease the Placental Syncytiotrophoblast Volume and Increase Placental Growth Factor in the Placenta of Normal Pregnancy. *M. Tsuji², E. Shibata³, Y. Aiko³, T. Tsuchiya², and T. Kawamoto¹.* ¹University of Occupational and Environmental Health, Kitakyusyu, Japan; ²Environmental Health, University of Occupational and Environmental Health, Kitakyusyu, Japan; and ³Obstetrics and Gynecology, University of Occupational and Environmental Health, Kitakyusyu, Japan.
- #1733 **Poster Board Number 136**
Impact of Placental Mdr1 on Fetal Drug Exposure in Sprague-Dawley Rats. *S. N. Campion¹, M. Varma¹, C. J. Bowman¹, G. D. Cappon¹, and A. El-Kattan².* ¹Pfizer, Groton, CT; and ²Pfizer, Cambridge, MA.
- #1734 **Poster Board Number 137**
Genistein Impairs Human Placental BCRP/ABCG2 Transporter Function: Potential Risk for Fetal Exposure to Chemicals. *K. M. Bircsak^{1,2}, Y. Lin¹, and L. M. Aleksunes¹.* ¹Pharmacology and Toxicology, Rutgers University, Piscataway, NJ; and ²Joint Graduate Program in Toxicology, Rutgers University, Piscataway, NJ.
- #1735 **Poster Board Number 138**
A Feto-Placental Coculture Model Shows the Complex Disruptive Effect of Antidepressant Fluoxetine and Metabolite Norfluoxetine on Estrogen Biosynthesis. *A. Hudon Thibeault^{1,2}, C. Vaillancourt^{1,2}, and T. Sanderson^{1,2}.* ¹INRS-Institut Armand-Frappier, Laval, QC, Canada; and ²BioMed Research Center, Laval, QC, Canada.
- #1736 **Poster Board Number 139**
Dose-Dependent Effects of PBDE-47 on Human Primary Cytotrophoblasts. *J. F. Robinson, M. Kapidzic, M. J. Gormley, T. Dent, M. McMaster, and S. J. Fisher.* Department of Obstetrics, Gynecology, and Reproductive Sciences, University of California, San Francisco, San Francisco, CA.
- #1737 **Poster Board Number 140**
Neonatal Exposure to Lower Dose Decabromodiphenyl Ether Decreases Serum Testosterone Levels in Mouse. *H. Miyaso^{1,3}, N. Nakamura², Y. Matsuno^{1,3}, and C. Mori^{1,3}.* ¹Center for Preventive Medical Science, Chiba University, Chiba, Japan; ²Department of Pharmacology, Physiology and Toxicology, Marshall University, Huntington, WV; and ³Department of Bioenvironmental Medicine, Graduate School of Medicine, Chiba University, Chiba, Japan.

Abstract

Wednesday Morning, March 25
9:00 AM to 12:30 PM
CC Exhibit Hall

Poster Session: Developmental Toxicology II

Chairperson(s): *Mary Alice Smith, University of Georgia, Athens, GA.*

Displayed: 9:00 AM–12:30 PM

Author-Attended: 9:00 AM–11:00 AM

- #1738 **Poster Board Number 143**
Approach to the Reproduction/Developmental Toxicity Assessment for Cosmetic Ingredients Using *In Silico* Method. *T. Hisaki, M. Aiba, T. Ashikaga, and H. Kouzuki.* Shiseido Research Center, Yokohama, Japan. Sponsor: *J. Kanno.*
- #1739 **Poster Board Number 144**
Arsenic Exposure Inhibits Gli2 Levels and Signaling during P19 Cell Differentiation. *J. Liu, and L. J. Bain.* Biological Sciences, Clemson University, Clemson, SC.
- #1740 **Poster Board Number 145**
Characterization of Estrogenic Responses in Human Endometrial Primary Epithelial and Carcinoma Cell Lines. *P. Balbuena, R. Alyea, S. Ross, S. Rowley, M. E. Andersen, and R. A. Clewell.* The Hamner Institutes for Health Sciences, Research Triangle Park, NC.
- #1741 **Poster Board Number 146**
Effects of Bisphenol A on Cytotoxicity Induction and DNA Methylation in a Bovine Endometrial Cell Line. *S. Lee¹, Y. Lee¹, Y. Kim², and H. Chung¹.* ¹School of Public Health and Institute of Health and Environment, Seoul National University, Seoul, Republic of Korea; and ²Da Vinci College of General Education, Chung-Ang University, Seoul, Republic of Korea. Sponsor: *J. Chung.*
- #1742 **Poster Board Number 147**
Effect of Arsenic Compounds on the Mouse Embryonic Stem Cells Differentiation into Cardiomyocytes *In Vitro*. *Q. Wang, Y. Fu, and H. Narenmandula.* Toxicology, Zhejiang University, Hangzhou, China.
- #1743 **Poster Board Number 148**
Complementary Detection of Embryotoxicity in the Osteogenic and Cardiac Embryonic Stem Cell Tests. *X. Chen¹, D. K. Hansen¹, C. DeJarnette², G. Nolen¹, J. Fisher², W. A. Harrouk³, M. Tassinari³, and A. Inselman¹.* ¹Division of System Biology, NCTR/FDA, Jefferson, AR; ²Lee University, Cleveland, TN; and ³CDER/FDA, Silver Spring, MD.
- #1744 **Poster Board Number 149**
The Use of Murine Embryonic Mesenchymal Stem Cells and Fetal Liver Homogenate for Correction of Toxic Lesions of Embryonic Vasculogenesis and Hematopoiesis in Rodents. *I. Strekalovskiy, L. Shabasheva, T. Krylova, Y. Golubentseva, V. Popov, and A. S. Radilov.* Department of Toxicology, Research Institute of Hygiene, Occupational Pathology and Human Ecology, St. Petersburg, Russian Federation. Sponsor: *K. Khamidulina.*

Program Schedule (Continued)

Abstract #		Abstract #	
#1745	Poster Board Number 150 Thalidomide-Induced Early Gene Expression Perturbations Indicative of Human Embryopathy in Mouse Embryonic Stem Cells. X. Gao, J. Yourick, and R. Sprando. Division of Toxicology, Office of Applied Research and Safety Assessment, Center for Food Safety and Applied Nutrition, US Food and Drug Administration, Laurel, MD.	#1753	Poster Board Number 158 Exposure to the Mycotoxin Zearalenone Impairs Embryo Development in Zebrafish. N. Sidebotham ¹ , J. M. Durringer ² , M. T. Simonich ² , R. L. Tanguay ² , and A. M. Craig ³ . ¹ Biochemistry and Biophysics, Oregon State University, Corvallis, OR; ² Environmental & Molecular Toxicology, Oregon State University, Corvallis, OR; and ³ Biomedical Sciences, Oregon State University, Corvallis, OR.
#1746	Poster Board Number 151 A Biomarker-Based Human Stem Cell Assay Applied for Ranking a Retinoid Series Based on Relative Developmental Toxicity Potential. L. A. Egnash, J. A. Palmer, A. Smith, K. R. Conard, R. E. Burrier, E. Donley, and F. R. Kirchner. Stemina Biomarker Discovery, Inc., Madison, WI. Sponsor: T. Knudsen.	#1754	Poster Board Number 159 Effects of Bisphenol A (BPA) and Bisphenol S (BPS) on Glucose Metabolism in Zebrafish Embryos (<i>Danio rerio</i>). L. Romano, M. Ciesla, T. S. Kung, and L. A. White. Biochemistry and Microbiology, Rutgers Univ, New Brunswick, NJ.
#1747	Poster Board Number 152 Using Human-Derived Neural Cells As an In Vitro Model for Developmental Neurotoxicity following Exposure to Pesticides. M. A. Smith ^{1,2} , W. M. Henderson ³ , S. Wallace ⁴ , A. Majumder ⁴ , M. Amosu ¹ , X. Bian ¹ , K. Lu ¹ , and S. Stice ^{2,4} . ¹ Department of Environmental Health Science, University of Georgia, Athens, GA; ² Regenerative Bioscience Center, University of Georgia, Athens, GA; ³ ORD/NERL/ERD, US EPA, Athens, GA; and ⁴ ArunA Biomedical, Inc., Athens, GA.	#1755	Poster Board Number 160 Effects of Estrogenic Compounds on Cardiac Development in Zebrafish. G. Diamante, and D. Schlenk. University of California, Riverside, Riverside, CA.
#1748	Poster Board Number 153 Valproic Acid-Induced Alterations and CBP/P300 Activity in P19 Embryonal Carcinoma Cells. C. Lamparter ¹ , and L. M. Winn ^{1,2} . ¹ Pharmacology and Toxicology, Queen's University, Kingston, ON, Canada; and ² School of Environmental Studies, Queen's University, Kingston, ON, Canada.	#1756	Poster Board Number 161 Zebrafish PXR Inhibition In Vivo by Human PXR Agonists. J. J. Stegeman ¹ , B. Lemaire ¹ , A. Kubota ^{1,2} , R. Harbeitner ¹ , and J. V. Goldstone ¹ . ¹ Biology, Woods Hole Oceanographic Institution, Woods Hole, MA; and ² Obihiro University of Agriculture and Veterinary Medicine, Obihiro, Japan.
#1749	Poster Board Number 154 Adriamycin Induces Growth Inhibition of Cells by Reduction of Intracellular Levels of HMG-CoA Synthase. J. Zhu, T. Takahashi, G. Hwang, and N. Akira. Laboratory of Molecular and Biochemical Toxicology, Graduate School of Pharmaceutical Sciences, Tohoku University, Sendai, Japan.	#1757	Poster Board Number 162 The Role of Nrf2a in the Transcriptional Response to PCB-126 in Zebrafish Embryos. M. E. Rousseau ¹ , M. E. Hahn ² , and A. R. Timme-Laragy ^{3,2} . ¹ Commonwealth Honors College, University of Massachusetts, Amherst, MA; ² Biology, Woods Hole Oceanographic Institution, Woods Hole, MA; and ³ Environmental Health Sciences, University of Massachusetts, Amherst, MA.
#1750	Poster Board Number 155 MRNAs As Tools for In Vitro Assessment of Developmental Toxicity of Chlorpyrifos. E. Vilanova, C. Estevan, E. Fuster, E. del Rio, J. Estévez, and M. A. Sogorb. Unit of Toxicology, Institute of Bioengineering, University Miguel Hernández, Elche, Spain.	#1758	Poster Board Number 163 Developmental Exposure to Polycyclic Aromatic Hydrocarbons (PAHs) Affects Behavior and Energetics in Larval and Adult Zebrafish. A. L. Knecht ^{1,2} , and R. L. Tanguay ^{1,2} . ¹ Department of Environmental and Molecular Toxicology, Oregon State University, Corvallis, OR; and ² Oregon State University Superfund Research Center, Oregon State University, Corvallis, OR.
#1751	Poster Board Number 156 Seleno-L-Methionine Affects Cartilage/Bone and Tooth Development in Embryos of Medaka. W. Dong ^{1,2} , M. C. Arnolda ¹ , M. Chernick ¹ , N. Zheng ¹ , and D. E. Hinton ¹ . ¹ Nicholas School of the Environment, Duke University, Durham, NC; and ² School of Animal Science and Technology, Inner Mongolia University for the Nationalities, Tongliao, China.	#1759	Poster Board Number 164 Transcriptomic Changes in Zebrafish Embryos and Larvae following Benzo[a]pyrene Exposure. T. Dhawan ¹ , X. Fang ² , J. Corrales ¹ , C. Thornton ¹ , B. E. Scheffler ³ , and K. L. Willett ¹ . ¹ BioMolecular Sciences, University of Mississippi, University, MS; ² Department of Pediatrics, University of Florida, Gainesville, FL; and ³ Genomics Bioinformatics, USDA ARS, Stoneville, MS.
#1752	Poster Board Number 157 Considering Dechlorination for Accurate Toxicity Evaluation in the Embryonic Zebrafish Assay. K. Kim ¹ , and R. L. Tanguay ² . ¹ Environmental Engineering, Seoul National University of Science and Technology, Seoul, Republic of Korea; and ² Environmental and Molecular Toxicology, Oregon State University, Corvallis, OR.	#1760	Poster Board Number 165 Morphological and Physiological Alterations during Early Zebrafish Development by Benzo[a]pyrene and CYP19B Knockdown. K. M. Alharthy, J. Corrales, C. Thornton, and K. L. Willett. Department of Biomolecular Sciences, University of Mississippi, University, MS.

Program Schedule (Continued)

Abstract

- #1761 **Poster Board Number 166**
Impacts of Total Particulate Matter from Cigarette Smoke on Early Development of Zebrafish (*Danio rerio*). A. Massarsky¹, N. Jayasundara¹, J. M. Bailey², E. D. Levin², G. L. Prasad³, and R. T. Di Giulio¹. ¹Nicholas School of the Environment, Duke University, Durham, NC; ²Department of Psychiatry and Behavioral Sciences, Duke University Medical Center, Durham, NC; and ³R&D Department, R.J. Reynolds Tobacco Company, Winston-Salem, NC.
- #1762 **Poster Board Number 167**
Toxicity of 3,4-Dichloroaniline on Zebrafish Embryo and Sac-Fry Stages. J. R. Rana¹, D. Patel¹, H. Parmar¹, M. V. Patel¹, N. Khan¹, V. J. Piccirillo², and C. Carles Callol¹. ¹Department of Toxicology, Jai Research Foundation, Valvada, India; and ²VJP Consulting, Ashburn, VA.
- #1763 **Poster Board Number 168**
Effect of Chloraminated Drinking Water, X-Ray Contrast Media, or Their Combination on Zebrafish Embryo Development. J. M. Hedge¹, C. Postigo², S. Mosher³, M. D. Armstrong⁴, A. McDonald¹, Y. M. Sey¹, S. D. Richardson⁵, J. Simmons¹, and S. Padilla¹. ¹ISTD, NHEERL, US EPA, Research Triangle Park, NC; ²IDAEEA-CSIC, Barcelona, Spain; ³Orise Fellow, NCCT, US EPA, Research Triangle Park, NC; ⁴SCC, Cary, NC; and ⁵Univ of South Carolina, Columbia, SC.
- #1764 **Poster Board Number 169**
Comparative Survival of Zebrafish Whole Embryos to Embryonic Fibroblasts Exposed to PFOA and Its Derivatives. K. M. Thompson¹, Y. Gao², C. T. Mahapatra², M. M. Sepulveda², and J. L. Freeman¹. ¹School of Health Sciences, Purdue University, Lafayette, IN; and ²Department of Forestry and Natural Resources, Purdue University, West Lafayette, IN.
- #1765 **Poster Board Number 170**
Zebrafish As a Model for Adult-Onset and Transgenerational Male Infertility Due to TCDD Exposure. T. Baker¹, D. Yang¹, C. A. Bradfield², and R. E. Peterson¹. ¹Pharmacy School, University of Wisconsin-Madison, Madison, WI; and ²Medical School Oncology, University of Wisconsin-Madison, Madison, WI.
- #1766 **Poster Board Number 171**
Applying the Benchmark Dose Approach with High-Throughput Embryonic Zebrafish Screening Assays for Toxicity Hazard Identification and Ranking of Chemicals. D. Thomas¹, F. Tilton², H. Shankaran³, R. L. Tanguay², and K. M. Waters¹. ¹Pacific Northwest National Laboratory, Richland, WA; ²Oregon State University, Corvallis, OR; and ³AstraZeneca, Boston, MA.

Abstract

Wednesday Morning, March 25
 9:00 AM to 12:30 PM
 CC Exhibit Hall

Poster Session: Developmental Neurotoxicology

Chairperson(s): Mary E. Gilbert, Toxicity Assessment Division, US EPA, Research Triangle Park, NC.

Displayed: 9:00 AM–12:30 PM

Author-Attended: 11:00 AM–12:30 PM

- #1767 **Poster Board Number 201**
Corpus Callosum Damage Induced by Early-Life Exposure to Ultrafine Particulate Matter: Echoes of Autism Spectrum Disorders. J. L. Allen¹, K. Morris-Schaffer¹, M. Sobolewski¹, D. Weston¹, G. Oberdorster¹, and D. A. Cory-Slechta^{1,2}. ¹Environmental Medicine, University of Rochester, Rochester, NY; and ²Department of Pediatrics, University of Rochester School of Medicine, Rochester, NY.
- #1768 **Poster Board Number 202**
Association of Neuroantibodies (NAB) with Glutathione-S-Transferase (GST) Isozyme Polymorphisms (SNP) in African-American Children with Metal Exposures. A. Cichewicz¹, D. Mason¹, E. E. Hudgens², J. E. Gallagher², and H. A. El-Fawal¹. ¹Neurotoxicology Laboratory, Albany College of Pharmacy and Health Sciences, Albany, NY; and ²NHEERL, EPA, Research Triangle Park, NC.
- #1769 **Poster Board Number 203**
Neuroantibodies (NAB) in African-American (AA) Children with Metal Exposures Associate with Cytokine and Human Leukocyte Antigen (HLA) Polymorphisms (SNP). K. Dougherty¹, A. Cichewicz¹, E. E. Hudgens², J. E. Gallagher², and H. A. El-Fawal¹. ¹Neurotoxicology Laboratory, Albany College of Pharmacy and Health Sciences, Albany, NY; and ²NHEERL, EPA, Research Triangle Park, NC.
- #1770 **Poster Board Number 204**
Early-Life TCDD Exposure Results in Persistent and Sex-Dependent Neurotoxicity in Mice. C. R. Klocke, M. Sobolewski, K. Conrad, L. A. Opanashuk, and D. A. Cory-Slechta. Environmental Medicine, University of Rochester Medical Center, Rochester, NY.
- #1771 **Poster Board Number 205**
Perinatal TCDD Exposure Impairs Dendritic Growth of Granule Cells in the Mouse Olfactory Bulb during the Brain Development. E. Kimura¹, Y. Ding¹, M. Kakeyama^{1,2}, and C. Tohyama¹. ¹Lab. Environ. Hlth. Sci., CDBIM, Grad. Sch. of Med., The Univ. of Tokyo, Tokyo, Japan; and ²Grad. Sch. of Biomed. Sci., Nagasaki Univ., Kumamoto, Japan.
- #1772 **Poster Board Number 206**
Exposure to 2,3,7,8-Tetrachlorodibenzo-p-dioxin (TCDD) in the Developing Anteroventral Periventricular Nucleus (AVPV) Induces Long-Term Expression of Spinophilin (SPN) and NMDA NR1 Genes at Postnatal Day 25. J. Del Pino Sans^{1,2}, and S. Petersen². ¹Toxicology and Pharmacology, University Complutense of Madrid, Madrid, Spain; and ²Veterinary and Sciences, University of Massachusetts, Amherst, MA.

Program Schedule (Continued)

Abstract #	Abstract #		
#1773	Poster Board Number207 Gene Expression of Thyroid Hormone Signaling Pathways during Neurodevelopment. <i>K. A. Hayakawa, K. M. Walter, G. W. Miller, and P. J. Lein.</i> Molecular Biosciences, University of California Davis, School of Veterinary Medicine, Davis, CA.	#1780	Poster Board Number222 Ketamine Modulates DISC1 Expression in a Rat Model of Anesthetic-Induced Developmental Neuroapoptosis. <i>J. Liu, K. Yuki, X. Han, and S. D. Soriano.</i> Anaesthesia, Harvard Medical School, Boston, MA.
#1774	Poster Board Number208 Mild Developmental Thyroid Hormone Insufficiency Results in a Persistent and Dose-Dependent Reduction in Expression of Plasticity-Related Genes Induced by Long-Term Potentiation (LTP). <i>M. E. Gilbert¹, K. Sánchez-Huerta², and C. Wood¹.</i> ¹ Toxicity Assessment Division, US EPA, Research Triangle Park, NC; and ² Escuela Nacional de Ciencias Biológicas, Mexico City, Mexico.	#1781	Poster Board Number223 General Anesthesia Induced with Isoflurane Plus Nitrous Oxide during the First Week of Life Can Cause Long-Lasting Cognitive Deficits in Rhesus Monkeys: Comparison with Ketamine. <i>M. G. Paule¹, M. Li¹, X. Zhang¹, S. Liu¹, J. P. Hanig^{2,3}, W. Slikker¹, and C. Wang¹.</i> ¹ Div Neurotox, Nat'l Ctr Toxicol Rsrch FDA, Jefferson, AR; and ² Off Testing & Rsrch, Ctr Drug Eval & Rsrch FDA, Silver Spring, MD.
#1775	Poster Board Number209 Postnatal Day 15 Rats Display Greater Sensitivity to the Neurotoxic Rodenticide, Tetramethylenedisulfotetramine (TMDT), As Compared to Adults. <i>M. P. Shakarjian¹, S. Y. Ferdows², J. Veliskova³, and L. Velisek³.</i> ¹ Environmental Health Science, New York Medical College, Valhalla, NY; ² Epidemiology & Community Health, New York Medical College, Valhalla, NY; and ³ Cell Biology & Anatomy, New York Medical College, Valhalla, NY. Sponsor: <i>D. Heck.</i>	#1782	Poster Board Number224 Serial Block Face-Scanning Electron Microscopy of the Developing Rat Brain Exposed to Ketamine Reveals Changes in Mitochondrial Ultrastructure. <i>A. M. Paredes, T. Eustaquio, C. Dugard, N. George, C. Wang, W. Slikker, P. C. Howard, and F. Liu.</i> Nanocore, NCTR/US FDA, Jefferson, AR.
#1776	Poster Board Number210 Neurotoxicology and Repeated Measures Statistical Analysis Model Selection. <i>W. Miner, T. Vidmar, R. Collins, and L. L. Freshwater.</i> BioSTAT Consultants, Portage, MI.	#1783	Poster Board Number225 MicroPET Imaging of Sevoflurane-Induced Neurotoxicity in Nonhuman Primate. <i>C. Wang¹, G. Newport¹, M. G. Paule¹, R. Callicott¹, X. Zhang¹, S. Liu¹, M. Berridge², S. Apana², and W. Slikker¹.</i> ¹ Division of Neurotoxicology, NCTR/FDA, Jefferson, AR; and ² 3D Imaging, LLC, Little Rock, AR.
Wednesday Morning, March 25 9:00 AM to 12:30 PM CC Exhibit Hall		#1784	Poster Board Number226 Evaluation of Proconvulsant Risk Using Tests Evaluating Spontaneous and Provoked Convulsions. <i>E. Esneault, G. Peyon, C. Froger-Colleaux, V. Castagné, and G. Proget.</i> Porsolt SAS, Le Genest St Isle, France.
Poster Session: General and Developmental Neurotoxicology of Therapeutic Agents and Drugs of Abuse		#1785	Poster Board Number227 Substances with Analgesic Properties, Tetrahydrocannabinol (THC) and Ibuprofen, Affect Behavior and Cognitive Function Differently after Developmental Exposure. <i>H. Viberg, G. Philippot, and A. Fredriksson.</i> Environmental Toxicology, Uppsala University, Uppsala, Sweden.
Chairperson(s): <i>Merle G. Paule, Division of Neurotoxicology, National Center for Toxicological Research, US FDA, Jefferson, AR.</i>		#1786	Poster Board Number228 Neonatal Paracetamol (Acetaminophen) Exposure, during a Defined and Critical Period of Brain Development, Causes Altered Spontaneous Behavior in Both Male and Female Adult Mice. <i>G. Philippot, A. Fredriksson, and H. Viberg.</i> Environmental Toxicology, Uppsala University, Uppsala, Sweden.
Displayed: 9:00 AM–12:30 PM		#1787	Poster Board Number229 Inhibition of Prolactin with Bromocriptine Increases Blood-Brain Barrier Permeability <i>In Vivo</i>. <i>C. Gonzalez^{1,2}, H. Rosas-Hernandez^{1,2}, M. Ramirez¹, and S. F. Alf².</i> ¹ Facultad de Ciencias Químicas, Universidad Autónoma de San Luis Potosí, San Luis Potosí, Mexico; and ² Division of Neurotoxicology, NCTR, Jefferson, AR.
Author-Attended: 9:00 AM–11:00 AM		#1788	Poster Board Number230 Role of p21 in Cocaine-Induced Response <i>In Vivo</i>. <i>N. E. Scholpa, S. Hammond, J. J. Wagner, and B. S. Cummings.</i> University of Georgia, Athens, GA.
#1777	Poster Board Number219 Fluoroscopy-Guided Minimally Invasive Epidural or Intrathecal Injections for Repeat Dosing Toxicology Studies: Comparison of Beagle Dogs and Göttingen Minipigs. <i>S. Authier^{1,2}, E. Troncy², A. S. Aslam¹, and R. Forster¹.</i> ¹ CIToxLAB North America, Laval, QC, Canada; and ² University of Montreal, St-Hyacinthe, QC, Canada.		
#1778	Poster Board Number220 Cognitive Effects of Simvastatin in the Rat. <i>D. L. Miller, and M. Genter.</i> Environmental Health, University of Cincinnati College of Medicine, Cincinnati, OH.		
#1779	Poster Board Number221 Relation of Neuron Counts in the Superior Cervical Ganglia and Urinary MHPG in Rats following Guanethidine Treatment. <i>C. Somps, C. V. Okerberg, C. Liu, M. Boucher, I. Pardo, J. Aubrecht, C. Northcott, and M. Zahner.</i> Drug Safety R&D, Pfizer Global R&D, Groton, CT.		

Program Schedule (Continued)

Abstract #

- #1789 **Poster Board Number231**
Developmental Ethanol Exposure Alters Synaptic Plasticity and Dendritic Spine Turnover in the Absence of Microglial Activation in Adolescent Mice. E. L. Wong¹, G. O. Sipe², C. E. Lamantia², and A. K. Majewska². ¹Environmental Medicine, University of Rochester Medical Center, Rochester, NY; and ²Neurobiology and Anatomy, University of Rochester Medical Center, Rochester, NY.
- #1790 **Poster Board Number232**
Evaluation of Purkinje Neurons As Potential Target of Alcoholism Using Japanese Medaka (*Oryzias latipes*) As Animal Model. J. F. Franklin^{2,1}, I. A. Khan^{1,4}, and A. K. Dasmahapatra^{1,3}. ¹National Center for Natural Product Research, University of Mississippi, University, MS; ²Sally McDonnell-Barksdale Honors College, University of Mississippi, University, MS; ³Department of BioMolecular Sciences, Division of Pharmacology, University of Mississippi, University, MS; and ⁴Department of BioMolecular Sciences, Division of Pharmacognosy, University of Mississippi, University, MS.
- #1791 **Poster Board Number233**
Effects of Adolescent Treatment with Nicotine, Harmane, or Norharmane in Male Sprague-Dawley Rats. S. F. Ali, A. K. Goodwin, S. Lantz-McPeak, B. Robinson, C. Law, and S. A. Ferguson. Division of Neurotoxicology, NCTR, Jefferson, AR.
- #1792 **Poster Board Number234**
E-Cigarettes—A Global Challenge: Imprinting the Central Nervous System of the Next Generation. D. E. Lauterstein, K. Corbett, C. Klein, and J. T. Zelikoff. Environmental Medicine, New York University, Tuxedo, NY.
- #1793 **Poster Board Number235**
Early Developmental Exposure of Rats to Low-Dose Tobacco Smoke Extract or Nicotine Modeling Secondhand Smoke Produce Long-Term Behavioral Dysfunction. B. J. Hall, M. Cauley, D. Burke, A. Kiany, and E. D. Levin. Psychiatry and Behavioral Sciences, Duke University, Durham, NC.
- #1794 **Poster Board Number236**
GABAergic Involvement in the Hippocampal Development of the Basic Excitability and Feedback Inhibition in Juvenile Rats Prenatally Exposed to Valproic Acid. Y. Fueta¹, Y. Sekino², S. Yoshida³, and S. Ueno¹. ¹University of Occupational and Environmental Health, Kitakyushu, Japan; ²National Institute of Health Sciences, Tokyo, Japan; and ³Department of Environment and Life Science, Toyohashi University of Technology, Toyohashi, Japan.

Abstract #

Wednesday Morning, March 25
9:00 AM to 12:30 PM
CC Exhibit Hall

Poster Session: Cardiovascular Toxicity and Hemodynamics

Chairperson(s): Xi Yang, National Center for Toxicological Research, US FDA, Jefferson, AR.

Displayed: 9:00 AM–12:30 PM

Author-Attended: 11:00 AM–12:30 PM

- #1795 **Poster Board Number239**
Lengthening of the Electro-Mechanical Window (EMw) in Dogs with Induced Left-Ventricular Diastolic Dysfunction. C. L. del Rio¹, B. L. Youngblood¹, K. Render¹, S. Sutayatram^{1,2}, Y. Ueyama¹, and R. Hamlin^{1,2}. ¹QTest Labs, Columbus, OH; and ²The Ohio State University, Columbus, OH.
- #1796 **Poster Board Number240**
Cardiac Safety of Lacosamide (Vimpat): The Nonclinical Perspective. M. Cornet, A. Delaunoy, A. Colomar, and B. O. Depelchin. Non-Clinical Safety Evaluation, UCB Biopharma SPRL, Braine-l'Alleud, Belgium.
- #1797 **Poster Board Number241**
Combining Invasive Cardiovascular Telemetry Assessment with Continuous Intravenous Infusion in Cynomolgus Monkey. M. Niehoff¹, M. Foley², T. Bartko², K. Ashcroft-Hawley³, F. Ludwig¹, F. Runge¹, M. Holbrook³, S. H. Korte¹, and B. Niggemann¹. ¹Covance Laboratories GmbH, Muenster, Germany; ²Covance Laboratories Inc, Madison, WI; and ³Covance Laboratories Ltd., Harrogate, United Kingdom. Sponsor: G. Weinbauer.
- #1798 **Poster Board Number242**
Cardiovascular Consequences of Benzene Exposure. W. T. Abplanalp¹, X. Li², J. McCracken², P. Haberzettl², D. J. Conklin², S. Srivastava², A. Bhatnagar^{1,2}, and T. O'Toole². ¹Physiology & Biophysics, University of Louisville, Louisville, KY; and ²Diabetes and Obesity Center, University of Louisville, Louisville, KY.
- #1799 **Poster Board Number243**
Early Changes in Cytochrome P450 and Their Associated Arachidonic Acid Metabolites Play a Crucial Role in the Initiation of Cardiac Hypertrophy Induced by Isoproterenol. H. N. Althurwi, O. H. Elshenawy, and A. O. El-Kadi. Pharmacy and Pharmaceutical Science, University of Alberta, Edmonton, AB, Canada.
- #1800 **Poster Board Number244**
Cardiovascular Effects Induced by Higenamine Using Telemetry. M. D. Furtado, K. Bailey, Z. Keltner, V. Topping, K. Belgrave, M. Kraeling, N. Olejnik, T. Black, C. Tinaza, J. Yourick, and R. Sprando. CFSAN/OARSA/DT, FDA, Laurel, MD.
- #1801 **Poster Board Number245**
Characterization of the Methemoglobin-Forming Metabolites of Benzocaine and Lidocaine. N. R. Hartman¹, H. Zhou¹, J. Mao¹, M. Boyne², D. Mans², V. Patel¹, and T. Colatsky¹. ¹CDER/OTS/OCP/DARS, Food and Drug Administration, Silver Spring, MD; and ²CDER/OPS/OTR/DPA, Food and Drug Administration, Silver Spring, MD. Sponsor: R. Rouse.

Program Schedule (Continued)

Abstract #		Abstract #	
#1802	Poster Board Number246 Orotic Acid Induces Insulin Resistance and Hypertension Associated with Impaired Endothelial Nitric Oxide Synthesis. Y. Choi, Y. Yoon, S. Kwon, K. Kang, S. Lee, and B. Lee. Seoul National University, Seoul, Republic of Korea.	#1811	Poster Board Number255 Kolaviron and <i>Garcinia kola</i> Attenuate Doxorubicin-Induced Cardiotoxicity in Wistar Rats. A. A. Oyagbemi ¹ , T. O. Omobowale ^{1,2} , J. O. Olopade ^{1,3} , and E. O. Farombi ^{1,4} . ¹ Department of Veterinary Physiology, Biochemistry and Pharmacology, University of Ibadan, Ibadan, Nigeria; ² Veterinary Medicine, University of Ibadan, Ibadan, Nigeria; ³ Biochemistry, College of Medicine, University of Ibadan, Ibadan, Nigeria; and ⁴ Veterinary Anatomy, University of Ibadan, Ibadan, Nigeria.
#1803	Poster Board Number247 Left Ventricular Pressure (LVP) Assessment Screening Models: Comparison of High-Definition Telemetry in Free-Moving with Anesthetized Rats. S. Authier ^{1,2} , A. Ascah ¹ , M. Pouliot ¹ , S. Abtout ¹ , E. Troncy ² , R. Kubaszkyl ¹ , and R. Forster ¹ . ¹ CIToxLAB North America, Laval, QC, Canada; and ² University of Montreal, St-Hyacinthe, QC, Canada.	#1812	Poster Board Number256 Sex-Related Differential Susceptibility to Doxorubicin-Induced Cardiotoxicity in B6C3F1 Mice. V. Desai ¹ , C. Moland ¹ , V. Vijay ¹ , E. Herman ² , S. Lewis ³ , K. J. Davis ⁴ , S. Kerr ⁵ , and J. C. Fuscoe ¹ . ¹ Personalized Medicine Branch, Division of Systems Biology, NCTR/US FDA, Jefferson, AR; ² Toxicology and Pharmacology Branch, Developmental Therapeutic Program, Division of Cancer Treatment and Diagnosis, NCI, Rockville, MD; ³ Office of Scientific Coordination, NCTR/US FDA, Jefferson, AR; ⁴ Toxicologic Pathology Associates, NCTR/US FDA, Jefferson, AR; and ⁵ Arkansas Heart Hospital, Little Rock, AR.
#1804	Poster Board Number248 Cardiotoxic Effects of 1,1-Difluoroethane Due to Oxidative Stress and Electrolyte Changes. K. P. Joshi, M. C. Parikh, C. A. Lau-Cam, M. Barletta, and J. Wurpel. Toxicology, St. John's University, Queens, NY.	#1813	Poster Board Number257 Gene Expression Changes in the Hearts of Mice Chronically Exposed to Doxorubicin. J. C. Fuscoe, V. Vijay, T. Han, and V. Desai. Division of Systems Biology, FDA-NCTR, Jefferson, AR.
#1805	Poster Board Number249 JET-BP in Socially Housed Nonhuman Primates: Comparison of Covance Sites and Study Considerations. L. Kreckler ¹ , J. Grosh ¹ , M. Niehoff ¹ , M. Foley ¹ , and M. Osinski ¹ . ¹ Covance Laboratories, Inc., Madison, WI; and ² Covance Laboratories GmbH, Muenster, Germany.	#1814	Poster Board Number258 Early Transcriptional Changes in Genes Associated with Calcium Homeostasis in Hearts of Mice Treated with Doxorubicin. V. Vijay, T. Han, C. Moland, J. C. Fuscoe, and V. G. Desai. Division of Systems Biology, National Center for Toxicological Research, FDA, Jefferson, AR.
#1806	Poster Board Number250 Potent Inhibition of Cholesteryl Ester Transfer Protein (CEP) Activity in Monkeys following 2-MOE Antisense Oligonucleotide Administration. T. Kim ¹ , A. T. Bell ¹ , S. N. Kim ² , S. Han ² , S. Park ² , M. Graham ¹ , R. M. Crooke ¹ , and S. Henry ¹ . ¹ Isis Pharmaceuticals, Carlsbad, CA; and ² Korea Institute of Toxicology, Jeongeup-si, Republic of Korea.	#1815	Poster Board Number259 Early Molecular Changes Related to Cardiac Hypertrophy in the Hearts of Doxorubicin-Treated Mice. J. C. Kwekel ¹ , V. Vijay ¹ , T. Han ¹ , Z. Cao ² , L. Yu ² , C. Moland ¹ , J. C. Fuscoe ¹ , and V. G. Desai ¹ . ¹ Systems Biology/Personalized Medicine Branch, FDA/National Center for Toxicological Research, Jefferson, AR; and ² Systems Biology/Biomarkers and Alternative Models Branch, FDA/National Center for Toxicological Research, Jefferson, AR.
#1807	Poster Board Number251 Effect of Moxifloxacin Hydrochloride on Cardiovascular Parameters Assessed via Jacketed External Telemetry (JET) in the Male Beagle Dog Co-Housed in European Caging. N. Sadekova, and K. Norton. Safety Pharmacology, Charles River, Montreal, QC, Canada. Sponsor: M. Vezina.	#1816	Poster Board Number260 Identification of Novel Biomarkers for Doxorubicin-Induced Toxicity in Human Pluripotent Stem Cell-Derived Cardiomyocytes. G. Holmgren ^{2,3} , J. Synnergren ² , Y. Bogestal ² , C. Améen ¹ , K. Akesson ¹ , S. Holmgren ¹ , A. Lindahl ³ , and P. Sartipy ^{1,4} . ¹ Cellartis, Takara Bio Europe AB, Gothenburg, Sweden; ² Systems Biology Research Center, School of Bioscience, University of Skovde, Skovde, Sweden; ³ Department of Clinical Chemistry and Transfusion Medicine, Institute of Biomedicine, The Sahlgrenska Academy at University of Gothenburg, Gothenburg, Sweden; and ⁴ GMD CVMD GMed, AstraZeneca R&D, Molndal, Sweden. Sponsor: J. Edsbacke.
#1808	Poster Board Number252 Cardiac Preclinical Safety Profile Review of Cetirizine and Levocetirizine. M. Rosseels, A. Delaunois, A. Colomar, and J. Valentin. Non-Clinical Safety Evaluation, UCB Biopharma Sprl, Court-Saint-Etienne, Belgium.		
#1809	Poster Board Number253 Zinc Rescues Arsenic-Mediated Impairment in Cardiac EMT during Coronary Vessel Development. T. Huang, and T. D. Camenisch. Department of Pharmacology & Toxicology, University of Arizona, Tucson, AZ.		
#1810	Poster Board Number254 A Comparison of Dynamic Beat-to-Beat and ECG Restitution Analyses vs. QTc Assessment of Proarrhythmic Potential. M. Brockway ¹ , A. Fossa ² , B. Brockway ¹ , C. L. del Rio ³ , A. Martinez ³ , and R. Hamlin ^{3,4} . ¹ VivaQuant, St. Paul, MN; ² Fossa Consulting, Mystic, CT; ³ QTest Labs, Columbus, OH; and ⁴ Ohio State University, Columbus, OH.		

Program Schedule (Continued)

- Abstract #**
- #1817 **Poster Board Number261**
Vascular Changes following Secondhand Cigarette Smoke Exposure: Mechanistic Study in a Male Mouse Model. M. A. El-Mahdy¹, R. Ismail¹, T. Abdelghany², A. Mansour², and J. L. Zweier¹.
¹Center for Environmental & Smoking Induced Disease, The Ohio State University, Columbus, OH; and ²Pharmacology & Toxicology, College of Pharmacy, Al-Azher University, Cairo, Egypt. Sponsor: F. Lowe.
- #1818 **Poster Board Number262**
Role of the Ubiquitin Proteasome System in Endothelial Nitric Oxide Synthase Dysfunction: Potential Biomarkers of Cigarette Smoking-Induced Vascular Endothelial Damage. R. Ismail¹, M. A. El-Mahdy^{1,2}, T. Abdelghany^{1,2}, D. Breheny³, F. J. Lowe^{1,2}, and J. L. Zweier^{1,2}. ¹The Ohio State University, Columbus, OH; ²Ohio Smoking Research Center, Columbus, OH; and ³British American Tobacco, Southampton, United Kingdom. Sponsor: F. Cunningham.
- #1819 **Poster Board Number263**
Smoking-Induced Atherosclerosis via Impairment of Endothelial Progenitor Cell Function. S. Ichihara¹, Y. Suzuki¹, S. Tada-Oikawa¹, C. Zong^{2,3}, and G. Ichihara³. ¹Mie University, Tsu, Japan; ²Nagoya University Graduate School of Medicine, Nagoya, Japan; and ³Tokyo University of Science, Nada, Japan.
- #1820 **Poster Board Number264**
A Novel *In Vitro* Assay for Assessing the Effects of Cigarette Smoke on Endothelial Cell Migration. H. Chen, S. Han, T. Liu, Y. Fu, C. Ren, H. Hou, and Q. Hu. China National Tobacco Quality Supervision and Test Center, Zhengzhou, China.
- #1821 **Poster Board Number265**
Environmentally Persistent Free Radicals (EPFRs) Degrade Left Ventricular Function during Ischemia/Reperfusion Injury. B. R. Burn, and K. J. Varner. LSU HSC, New Orleans, LA.

Wednesday Morning, March 25
 9:00 AM to 12:30 PM
 CC Exhibit Hall

Poster Session: Animal Models of Disease

Chairperson(s): William J. Brock, Brock Scientific Consulting, Montgomery Village, MD; and Sven H. Korte, Covance Laboratories GmbH, Muenster, Germany.

Displayed: 9:00 AM–12:30 PM

Author-Attended: 9:00 AM–11:00 AM

- #1822 **Poster Board Number301**
Prevalence and Incidence of Cataracts in a Population of Yucatan Miniswines after Induction of Type 1 Diabetes. B. C. Hanks¹, A. Stricker-Krongrad¹, A. Ingerson¹, M. Freeman¹, S. Schlink¹, L. Delaney¹, S. Renna¹, C. Horton¹, J. Liu¹, A. T. Cruz², S. Rousselle², J. Wicks², and G. Bouchard¹.
¹Sinclair Research, Auxvasse, MO; and ²Alizee Pathology, Thurmont, MD.
- #1823 **Poster Board Number302**
Induction and Long-Term Management of Type 1 Diabetes in Göttingen Minipigs. T. N. Merriman, J. A. Cornicelli, J. W. Smedley, and L. Lucke. Toxicology, Charles River, Spencerville, OH.

- #1824 **Poster Board Number303**
Generation of a Mammalian Achondroplasia Model in Micropigs. S. Peng¹, E. Rom², M. Malka², F. Ang¹, T. P. Wu², A. Goh¹, J. Lee¹, S. L. Park¹, and A. Yayon². ¹GLP Center, PWG Genetics, Singapore; and ²ProCore Ltd, Nes-Ziona, Israel.
- #1825 **Poster Board Number304**
Noninvasive Vascular Imaging of Atherosclerotic Lesions in Peripheral and Coronary Arteries in ExeGen LDLr Miniswine after Arterial Injury: Correlation with Histopathological Assessment. J. Swart², M. E. Smith¹, T. Arends², C. Rogers², and E. Steinmetz¹. ¹American Preclinical Services, Minneapolis, MN; and ²Exemplar Genetics, Sioux City, IA. Sponsor: K. Grove.
- #1826 **Poster Board Number305**
A Mass Casualty Swine Model for Therapeutic Efficacy Studies for Cyanide. M. K. Brittain¹, M. C. Babin¹, V. S. Beberta², G. R. Boss³, D. Jett⁴, G. Platoff⁵, and D. T. Yeung⁴. ¹Biomedical Research Center, Battelle Memorial Institute, Columbus, OH; ²San Antonio Military Medical Center, San Antonio, TX; ³University of California San Diego, San Diego, CA; ⁴National Institute of Neurological Disorders and Stroke, National Institutes of Health, Bethesda, MD; and ⁵National Institute of Allergy and Infectious Diseases, National Institutes of Health, Bethesda, MD.
- #1827 **Poster Board Number306**
Characterization of Monkeypox Infection in Cynomolgus Macaques Using Four Routes of Exposure. L. Lanning¹, M. Challberg², J. Hewitt², and B. Osborn¹. ¹Office of Regulatory Affairs, NIH/NIAID/DMID, Bethesda, MD; ²OBRTR, NIH/NIAID/DMID, Bethesda, MD; and ³Virology Branch, NIH/NIAID/DMID, Bethesda, MD.
- #1828 **Poster Board Number307**
Pathological and Clinical Pathological Detection of Age-Related Liver and Kidney Malfunction in the Polycystic Kidney (PCK) Rat: An Animal Model of Polycystic Kidney Disease. Y. Shimomura¹, Y. Ito¹, J. Kino¹, R. Kawata¹, K. Morishita¹, and W. J. Brock². ¹Otsuka Pharmaceutical Co., Ltd., Tokushima Research Institute, Tokushima, Japan; and ²Otsuka Pharmaceuticals, Rockville, MD.
- #1829 **Poster Board Number308**
Role of Myeloid-Derived Suppressor Cells in a Murine Model of Drug-Induced Liver Injury Mediated by the Adaptive Immune System. M. Chakraborty¹, K. Semple¹, A. M. Fullerton¹, J. Berkson¹, L. S. Chea¹, W. R. Proctor^{2,1}, and L. R. Pohl¹. ¹NHLBI/NIH, Bethesda, MD; and ²Safety Assessment, Genentech, South San Francisco, CA.
- #1830 **Poster Board Number309**
Two Alleles of Med31 Provide a Model to Study Delayed Fetal Growth Endochondral Ossification and Placental Development. K. Wolton¹, J. Wright², E. Barnes², S. Lovell¹, and K. Hentges¹. ¹University of Manchester, Manchester, United Kingdom; and ²Syngenta UK, Jealotts Hill, United Kingdom.
- #1831 **Poster Board Number310**
Mitigation of Colitis with NovaSil Clay Therapy. A. A. Romoser, K. Zychowski, S. Elmore, H. J. Ly, F. Pierezan, A. Isaijah, J. S. Suchodolski, A. Rodrigues Hoffmann, and T. D. Phillips. College of Veterinary Medicine and Biomedical Sciences, Texas A&M University, College Station, TX.

WEDNESDAY

Program Schedule (Continued)

Abstract #	Abstract #
<p>#1832 Poster Board Number311 Characterization of a Model of Murine Gammaherpesvirus for Immunotoxicological Evaluations Reveals No Horizontal Transmission. J. Aligo¹, K. Brosnan¹, M. R. Walker¹, E. Emmell¹, R. Mikkelsen², G. Bursleson², F. G. Bursleson², A. Volk¹, and D. Weinstock¹. ¹Biologics Toxicology, Janssen Research and Development, Spring House, PA; and ²Bursleson Research Technologies, Inc., Morrisville, NC.</p> <p>#1833 Poster Board Number312 Animal Models for Cholangiocarcinoma Induced by Chemicals Associated with the Offset Printing. L. Zhang¹, S. Kumagai², S. Toyokuni³, H. Naito³, S. Ichihara³, and G. Ichihara^{1,2,3}. ¹Occupational and Environmental Health, Tokyo University of Science, Noda, Japan; ²University of Occupational and Environmental Health, Kitakyushu, Japan; ³Nagoya University, Nagoya, Japan; and ⁴Mie University, Tsu, Japan.</p> <p>#1834 Poster Board Number313 Combination of Mitomycin C and Low Dose Suramin Increases Survival in an Optimized Orthotopic Model of Urinary Bladder Carcinoma in Mice. J. Tremblay, C. Glover, L. Kolodzieyski, D. Lacroix, S. Thébaud, J. Godin-Ethier, A. Nelson, and V. Dimitriadou. ITR Laboratories Canada Inc., Montreal, QC, Canada. Sponsor: W. Lee.</p> <p>#1835 Poster Board Number314 PPARγ Stops Her2+ Breast Tumor Metastasis. E. D. Lightbody¹, R. E. Rubino², A. J. Apostoli^{1,2}, M. M. Schneider¹, S. K. SenGupta¹, and C. J. Nicol^{1,2,3}. ¹Pathology and Molecular Medicine, Queen's University, Kingston, ON, Canada; ²Cancer Biology and Genetics, Queen's University Cancer Research Institute, Kingston, ON, Canada; and ³Biomedical and Molecular Sciences, Queen's University, Kingston, ON, Canada.</p>	<p>#1837 Poster Board Number320 Characterization of Epithelial Proliferation in the Small Intestine of Treatment-Naïve 8-Month-Old CByB6F1-Tg(HRAS)2Jic Transgenic Mice. S. Fossey¹, M. Klaczynski¹, M. Brey², A. Krempel², T. Turner³, B. Bird³, J. O'Connor², and R. Yeager³. ¹Cellular, Molecular, & Exploratory Toxicology, Preclinical Safety, AbbVie, Inc, North Chicago, IL; ²Pathology, Preclinical Safety, AbbVie, Inc, North Chicago, IL; and ³Toxicology, Preclinical Safety, AbbVie, Inc, North Chicago, IL.</p> <p>#1838 Poster Board Number321 The Predictive Value of the Rodent Neurofunctional Assessment for Central Nervous System Events in Phase I Clinical Trials. K. Chapman¹, H. R. Amouzadeh², L. Ewart³, A. Giarola⁴, S. J. Jackson¹, P. Jarvis⁵, P. Jordaan⁵, W. S. Redfern⁶, M. Traebert⁷, J. Valentin⁷, H. M. Vargas², and A. Mead⁸. ¹NC3Rs, London, United Kingdom; ²Amgen Inc., Thousand Oaks, CA; ³AstraZeneca, Mölndal, Sweden; ⁴Glaxosmithkline, Ware, United Kingdom; ⁵Novartis, Basel, Switzerland; ⁶AstraZeneca, Macclesfield, United Kingdom; ⁷UCB Biopharma, Braine l'Alleud, Belgium; and ⁸Pfizer Inc., Groton, CT.</p> <p>#1839 Poster Board Number322 Comparison of Physiologic and Pharmacologic Parameters in Asian and Mauritian Cynomolgus Macaques. J. C. Kozlosky¹, J. Mysore¹, S. Clark², H. N. Burr¹, W. J. Freebern¹, N. Aranibar³, R. Vuppugalla⁴, R. C. West⁵, R. Mangipudy¹, and M. J. Graziano⁶. ¹Drug Safety Evaluation, Bristol-Myers Squibb Company, New Brunswick, NJ; ²Drug Safety Evaluation, Bristol-Myers Squibb Company, Mount Vernon, IN; ³Discovery Toxicology, Bristol-Myers Squibb Company, Princeton, NJ; ⁴Metabolism and Pharmacokinetics, Bristol-Myers Squibb Company, Princeton, NJ; and ⁵Drug Safety Evaluation, Bristol-Myers Squibb Company, Princeton, NJ.</p> <p>#1840 Poster Board Number323 Diagnostic Magnetic Resonance Imaging in the Scope of Biologics Safety Assessment in Nonhuman Primates—A Case of Spontaneous Pyloric Stenosis in a Cynomolgus Monkey. S. H. Korte¹, M. Wozniak², F. Runge¹, J. Kaspareit¹, and L. Mecklenburg¹. ¹Covance Laboratories GmbH, Muenster, Germany; and ²Department of Pediatric Radiology, Medical University of Lublin, Lublin, Poland.</p> <p>#1841 Poster Board Number324 Comparison of Routine Clinical Pathology Parameters in the Göttingen and Chinese Bama Minipig. S. McPherson¹, M. Chen², and C. Zheng¹. ¹Toxicology, WuXi AppTec, Suzhou, China; and ²Analytical Chemistry, WuXi AppTec, Suzhou, China.</p> <p>#1842 Poster Board Number325 Comparative Photomicrographic Examination of Integument in Eight Species of Mammals Including Two Lineages of Research Miniswine. C. Horton¹, D. Y. Kim², B. C. Hanks¹, S. Schnapp¹, D. Brocksmitz², D. White¹, J. Liu¹, A. Stricker-Krongrad², and G. Bouchard¹. ¹Sinclair Research, Auxvasse, MO; ²Sinclair BioResources, Auxvasse, MO; and ³Veterinary Medical Diagnostic Laboratory, University of Missouri, Columbia, MO.</p>

Wednesday Morning, March 25

9:00 AM to 12:30 PM
 CC Exhibit Hall

Poster Session: Animal Models: Measurements, Validations, and Historical Data

Chairperson(s): Matthew K. Brittain, Biomedical Research Center, Battelle Memorial Institute, Columbus, OH.

Displayed: 9:00 AM–12:30 PM

Author-Attended: 11:00 AM–12:30 PM

#1836 **Poster Board Number319**
Survey Results on Clinical Pathology Volume Requirements in Preclinical Toxicological Studies. A. Aulbach¹, L. Ramaiah², N. Tripathi³, and F. Poitout⁴. ¹MPI Research, Mattawan, MI; ²Huntingdon Life Sciences, Princeton, NJ; ³Covance Laboratories Inc, Madison, WI; and ⁴Charles River Laboratories, Montreal, QC, Canada.

PS Poster Sessions

RI Regional Interest Session

R Roundtable Sessions

S Symposium Sessions

T Thematic Sessions

W Workshop Sessions

Program Schedule (Continued)

Abstract #	Poster Board Number	Abstract #	Poster Board Number
#1843	326	#1851	338
	Comparison of Routine Clinical Pathology Parameters in 8-Month-Old Beagle Dogs from Different Geographical Regions. Y. Zhang, C. Zheng, and S. McPherson. Toxicology, WuXi AppTec, Suzhou, China.		Establishment of a Saline Lavage Model in the Isolated Perfused Rat Lung. D. Walter ¹ , M. Fischer ¹ , G. Pohlmann ¹ , J. Kemkowski ² , C. De Mueyck ² , and C. Dasenbrock ¹ . ¹ Fraunhofer Institute for Toxicology and Experimental Medicine ITEM, Hannover, Germany; and ² Takeda Pharmaceuticals, Singen, Germany.
#1844	327	#1852	339
	Background Data of Two Sub-Strains of Wistar Hannover Rats for Long-Term Toxicity Study; Comparison with SD and Fisher Rats. T. Aoshima ¹ , K. Ohishi ¹ , M. Tsuboi ¹ , Y. Ohta ¹ , K. Nanami ¹ , H. Takehara ¹ , R. Tanaka ¹ , M. Tsuchiya ¹ , M. Naya ¹ , M. Hayashi ¹ , and J. Yamate ² . ¹ Public Interest Incorporated Foundation BioSafety Research Center, Iwata, Japan; and ² Osaka Prefecture University, Osaka, Japan.		The Inhibition of the Intestinal Absorption of Vitamin K by a Medium-Chain Chlorinated Paraffin (MCCP) in an <i>In Vitro</i> Everted Rat Intestinal Sac Model. R. H. Powrie ² , C. R. Elcombe ² , and D. G. Farrar ¹ . ¹ CCERT Ltd, Congleton, United Kingdom; and ² CXR Biosciences Ltd, Dundee, United Kingdom.
#1845	328	#1853	340
	Spontaneous Pathology of the Athymic Rowett Nude Rat. A. Rowles, D. Bell, K. Liu, and V. Mowat. Department of Pathology, Huntingdon Life Sciences, Alconbury, United Kingdom.		Intra-Articular Injections into Stifle Joint of Sprague-Dawley Rats and Beagle Dogs: Feasibility, Tolerated Volumes, and Synovial Fluid Sampling. J. Douville, C. Massicotte, F. Emond, C. Foucault, R. St-Jacques, and C. Copeman. Toxicology, Charles River, Montreal, QC, Canada. Sponsor: M. Vezina.
#1846	329	#1854	341
	Survey of Spontaneous Clinical Observations in the Sprague-Dawley Rat (<i>Rattus norvegicus</i>). C. Zheng, and S. McPherson. Toxicology, WuXi AppTech, Suzhou, China.		Development of a Chronic Pulmonary Arterial Pressure Model in the Beagle Dog. J. Sheehan, A. Lelkes, and A. Curran. Huntingdon Life Sciences, East Millstone, NJ. Sponsor: C. Auletta.
#1847	330	#1855	342
	Historical Control Data Including Spontaneous Tumors in CB6F1-Tg rasH2 Mice. K. Okazaki, Y. Masubuchi, Y. Yamaguchi, Y. Kuroiwa, S. Yamamoto, K. Tamura, and S. Okazaki. Gotemba Laboratory, BoZo Research Center Inc, Shizuoka, Japan. Sponsor: W. Lee.		A Novel Approach for Assessing Drug-Induced QT Interval Prolongation in Beagle Dogs. H. Hori ¹ , E. Suganuma ¹ , K. Sugimoto ¹ , T. Komatsu ¹ , K. Shiota ¹ , D. Watanabe ¹ , and M. Kuwahara ² . ¹ Kannami Laboratory, BoZo Research Center Inc., Kannami-cho, Japan; and ² Graduate School of Agricultural and Life Sciences, The University of Tokyo, Tokyo, Japan. Sponsor: W. Lee.

Wednesday Morning, March 25
9:00 AM to 12:30 PM
CC Exhibit Hall

Poster Session: Animal Models: Methods

Chairperson(s): Sue McPherson, WuXi App Tech, Suzhou, China.

Displayed: 9:00 AM–12:30 PM

Author-Attended: 9:00 AM–11:00 AM

#1848	335
	Dermal Dose Administration: Points to Consider. C. S. Auletta, T. Ramani, J. Lin, C. Savidge, and T. Jones. Huntingdon Life Sciences, East Millstone, NJ.
#1849	336
	Anesthesia-Free, Repeated Blood Sampling Every 30 Minutes in Freely Moving Catheter-Implanted Rats. U. Wirnitzer. Toxicology, Bayer HealthCare AG, Wuppertal, Germany. Sponsor: H. Ellinger-Ziegelbauer.
#1850	337
	Development of an Epaxial Intramuscular Injection Technique in Juvenile Rats. L. Croft, J. Callahan, G. Baxter, and R. M. Parker. DART, Huntingdon Life Sciences, East Millstone, NJ.

#1851	338
	Establishment of a Saline Lavage Model in the Isolated Perfused Rat Lung. D. Walter ¹ , M. Fischer ¹ , G. Pohlmann ¹ , J. Kemkowski ² , C. De Mueyck ² , and C. Dasenbrock ¹ . ¹ Fraunhofer Institute for Toxicology and Experimental Medicine ITEM, Hannover, Germany; and ² Takeda Pharmaceuticals, Singen, Germany.
#1852	339
	The Inhibition of the Intestinal Absorption of Vitamin K by a Medium-Chain Chlorinated Paraffin (MCCP) in an <i>In Vitro</i> Everted Rat Intestinal Sac Model. R. H. Powrie ² , C. R. Elcombe ² , and D. G. Farrar ¹ . ¹ CCERT Ltd, Congleton, United Kingdom; and ² CXR Biosciences Ltd, Dundee, United Kingdom.
#1853	340
	Intra-Articular Injections into Stifle Joint of Sprague-Dawley Rats and Beagle Dogs: Feasibility, Tolerated Volumes, and Synovial Fluid Sampling. J. Douville, C. Massicotte, F. Emond, C. Foucault, R. St-Jacques, and C. Copeman. Toxicology, Charles River, Montreal, QC, Canada. Sponsor: M. Vezina.
#1854	341
	Development of a Chronic Pulmonary Arterial Pressure Model in the Beagle Dog. J. Sheehan, A. Lelkes, and A. Curran. Huntingdon Life Sciences, East Millstone, NJ. Sponsor: C. Auletta.
#1855	342
	A Novel Approach for Assessing Drug-Induced QT Interval Prolongation in Beagle Dogs. H. Hori ¹ , E. Suganuma ¹ , K. Sugimoto ¹ , T. Komatsu ¹ , K. Shiota ¹ , D. Watanabe ¹ , and M. Kuwahara ² . ¹ Kannami Laboratory, BoZo Research Center Inc., Kannami-cho, Japan; and ² Graduate School of Agricultural and Life Sciences, The University of Tokyo, Tokyo, Japan. Sponsor: W. Lee.
#1856	343
	Pupillary Light Response in Guinea Pigs and Swine Exposed to Organophosphate Agents. E. D. Clarkson ¹ , J. E. Schwartz ¹ , K. H. Smith ¹ , S. M. Schulz ¹ , C. L. Rousayne ¹ , and C. Kolanko ² . ¹ Analytical Toxicology Division, US Army Medical Research Institute of Chemical Defense, Aberdeen Proving Grounds, MD; and ² EyeMarker Systems, Inc, Morgantown, WV.
#1857	344
	Development of a Guinea Pig Model for Cardiopulmonary Function Assessment. M. Horsmon, N. M. Vincelli, and R. Kristovich. US Army ECBC, Gunpowder, MD. Sponsor: H. Salem.
#1858	345
	Surgical and Nonsurgical Drug Delivery Methods in Miniswine Models. K. Buckman ¹ , C. Horton ^{1,2} , B. C. Hanks ¹ , M. Sword ¹ , T. Madsen ¹ , C. Lawson ¹ , D. Brocksmith ² , J. Liu ¹ , A. Stricker-Krongrad ¹ , and G. Bouchard ^{1,2} . ¹ Sinclair Research, Auxvasse, MO; and ² Sinclair BioResources, Auxvasse, MO.

Program Schedule (Continued)

Abstract #

#1859 **Poster Board Number346**
Methods for the Implantation and Maintenance of Separate Intrathecal Catheters for Dose Administration and CSF Sampling in Cynomolgus Monkeys. N. Lalayeva, N. Bailey, G. DeLosSantos, K. Crowder, S. M. Glaza, J. B. Morris, and R. Nagata. Safety Assessment, SNBL USA, Ltd., Everett, WA.

Wednesday Morning, March 25
 9:00 AM to 12:30 PM
 CC Exhibit Hall

Poster Session: Risk Assessment III

Strategies for Exposure and Risk Assessments

Chairperson(s): Judith A. MacGregor, Toxicology Consulting Services, Bonita Springs, FL.

Displayed: 9:00 AM–12:30 PM

Author-Attended: 11:00 AM–12:30 PM

#1860 **Poster Board Number401**
Toxicological Abstracts Classification Using Natural Language Processing and Supervised Machine Learning Algorithms. A. Varghese, and M. Cawley. ICF International, Durham, NC. Sponsor: M. Selgrade.

#1861 **Poster Board Number402**
Tools to Identify and Manage Mechanistic Data to Support Human Health Risk Assessment. A. Turley¹, M. Cawley¹, and P. Bradley². ¹ICF International, Durham, NC; and ²InStem Scientific, Cambridge, United Kingdom. Sponsor: J. Wignall.

#1862 **Poster Board Number403**
Using DRAGON to Organize Data and Decisions for AOP Development: An Example with Inorganic Arsenic. J. Wignall, W. M. Mendez, P. Ross, and A. Turley. ICF International, Fairfax, VA.

#1863 **Poster Board Number404**
Problem Formulation of Complex Environmental Health Questions: Utilizing Text Mining to Address Challenges of a Literature-Based Evaluation of Transgenerational Health Effects. V. R. Walker¹, S. Holmgren², K. E. Pelch¹, B. Howard³, R. Shah^{3,4}, K. Thayer¹, and A. A. Rooney¹. ¹DNTP, NIEHS, Research Triangle Park, NC; ²NIEHS, Research Triangle Park, NC; ³Sciome LLC, Research Triangle Park, NC; and ⁴SSS, Durham, NC.

#1864 **Poster Board Number405**
Incorporating Transgenerational Testing and Epigenetic Mechanisms into Chemical Testing and Risk Assessment: A Survey of Transgenerational Responses in Environmental Chemical Studies. S. L. Makris, and S. Y. Euling. ORD, NCEA, US EPA, Washington, DC.

#1865 **Poster Board Number406**
Evaluation of Study Quality Criteria Frameworks. R. L. Prueitt¹, H. N. Lynch², J. A. Tabony³, N. B. Beck³, J. E. Goodman², and L. R. Rhomberg². ¹Gradient, Seattle, WA; ²Gradient, Cambridge, MA; and ³American Chemistry Council, Washington, DC.

Abstract #

#1866 **Poster Board Number407**
Potential Risk of Unidentified Mixture Toxicities in Natural Source Waters. N. H. Orak, and M. J. Small. Civil and Environmental Engineering, Carnegie Mellon University, Pittsburgh, PA. Sponsor: J. Lipscomb.

#1867 **Poster Board Number410**
Categorization of Petroleum Substances through High-Content Screening of Induced Pluripotent Stem Cell (iPSC)-Derived Cardiomyocytes and Hepatocytes. F. A. Grimm¹, Y. Iwata¹, O. Sirenko², C. Crittenden², T. A. Roy³, P. J. Boogaard⁴, H. Ketelslegers⁵, A. M. Rohde⁶, and I. Rusyn¹. ¹Texas A&M University, College Station, TX; ²Molecular Devices, LLC., Sunnyvale, CA; ³University of South Carolina, Beaufort, SC; ⁴Shell International BV, The Hague, Netherlands; ⁵ExxonMobil Petroleum and Chemicals, Machelen, Belgium; and ⁶CONCAWE, Brussels, Belgium.

#1868 **Poster Board Number411**
Risk Assessment of Inhalable Read-Across Chemicals with Different Mode of Action Showed Great Differences in Cytotoxicity in Rat and Human Precision-Cut Lung Slices. O. Danov¹, K. Schroeder¹, P. Braubach², D. Jonigk², G. Warnecke², A. Braun¹, S. Escher¹, and K. Sewald¹. ¹Fraunhofer Institute for Toxicology and Experimental Medicine, Biomedical Research in Endstage and Obstructive Lung Disease Hannover (BREATHE), Member of the German Centre for Lung Research (DZL), Hannover, Germany; and ²Hannover Medical School, Hannover, Germany. Sponsor: C. Dasenbrock.

#1869 **Poster Board Number412**
A Systematic Review of Asbestos-Induced Pleural Plaques and Lung Function. L. E. Kerper¹, H. N. Lynch¹, K. Zu¹, G. Tao¹, M. J. Utell², and J. E. Goodman¹. ¹Gradient, Cambridge, MA; and ²University of Rochester School of Medicine, Rochester, NY.

#1870 **Poster Board Number413**
Evaluation of Cancer and Noncancer Effects of Cumene. N. Keshava, and B. R. Sonawane. National Center for Environmental Assessment, US-EPA, Research Triangle Park, NC. Sponsor: C. Keshava.

#1871 **Poster Board Number414**
Feasibility of Conducting a Human Health Risk Assessment for 3-MCPD Esters and Glycidyl Esters in Food. D. C. Smegal, G. Kim, J. Spungen, S. MacMahon, C. D. Carrington, and B. Flannery. CFSAN, FDA, College Park, MD.

#1872 **Poster Board Number415**
Utility of Short-Term Assays for Assessing Carcinogenic Potency of PAHs. B. H. Magee, N. Forsberg, and C. Hamadji. ARCADIS, Chelmsford, MA.

#1873 **Poster Board Number418**
Application of QSAR Models to Support the Carcinogenicity and Mutagenicity of Dibenzanthracenes. G. Osborne, C. Hsieh, F. C. Tsai, and M. S. Sandy. Cal/EPA, Sacramento, CA.

Program Schedule (Continued)

Abstract #		Abstract #	
#1874	Poster Board Number419 Evaluation of the Experimental Support for Assessment Factors to Protect Asthmatic Subjects during Short-Term Exposure to Airborne Chemicals. <i>M. Johansson¹, G. Johanson¹, and M. Öberg^{1,2}.</i> ¹ Work Environment Toxicology, Institute of Environmental Medicine, Karolinska Institutet, Stockholm, Sweden; and ² Swedish Toxicology Sciences Research Center, Södertälje, Sweden.	#1883	Poster Board Number430 Nanoparticles from Municipal Waste Incinerators: Real Risk or a Sheep in Wolf's Clothing? <i>D. R. Johnson¹, A. Pawlisz², and S. Harris².</i> ¹ Conestoga-Rovers and Associates, Dallas, TX; and ² Conestoga-Rovers and Associates, Waterloo, ON, Canada.
#1875	Poster Board Number420 The Carcinogenicity of Dibenzanthracenes. <i>F. C. Tsai, C. Hsieh, G. Osborne, R. Cendak, J. D. Budroe, and M. S. Sandy.</i> Cal/EPA, Sacramento, CA.	#1884	Poster Board Number431 Increased Susceptibility to Chemical Toxicity Associated with Pre-Existing Diseases: Framework and Case Studies. <i>B. R. Sonawane¹, Y. Lin¹, R. R. Dietert², and G. L. Ginsberg³.</i> ¹ NCEA/ORD, US EPA, Washington, DC; ² College of Veterinary Medicine, Cornell University, Ithaca, NY; and ³ Connecticut Dept. of Public Health, Hartford, CT.
#1876	Poster Board Number421 In Vitro Toxicological Assessment of Industrial Chemicals Spilled into the Elk River in Charleston, West Virginia. <i>A. A. Han, J. A. Vrana, and J. W. Boyd.</i> Chemistry, West Virginia University, Morgantown, WV.	#1885	Poster Board Number434 An Approach to Standardize the Concepts of "Low-Dose" and Nonmonotonic Dose Response in Toxicological Research and Regulatory Science. <i>J. M. Vaughan^{1,2}, and A. Kretser².</i> ¹ Environmental Health Science, New York University, New York, NY; and ² Food and Chemical Safety, International Life Sciences Institute of North America, Washington, DC.
#1877	Poster Board Number422 A Global Animal-Free Approach Integrating Studies in Cosmetic Industry: A Practical Example of the Safety Assessment of a Baby Shampoo. <i>H. Ficheux², F. Lopez¹, and S. Catoire².</i> ¹ Thor Quimicos de Mexico SA de CV, Queretaro, Mexico; and ² Thor Personal Care, Compiègne, France.	#1886	Poster Board Number435 A Rules Engine Approach to Supporting Adverse Outcome Pathway-Based Rapid Toxicological Assessment. <i>K. L. Painter¹, I. L. Druwe¹, E. E. Yost¹, and L. D. Burgoon².</i> ¹ Oak Ridge Institute for Science and Education/Environmental Protection Agency, Research Triangle Park, NC; and ² NCEA, US Environmental Protection Agency, Research Triangle Park, NC.
#1878	Poster Board Number423 A Framework for Assessing Chemical/Nonchemical Interactions: A Case Study of Lead and Psychosocial Stress. <i>D. Segal¹, Y. Lin¹, G. Ginsberg², and B. R. Sonawane¹.</i> ¹ US EPA, Washington, DC; and ² Connecticut Department of Public Health, Hartford, CT.	#1887	Poster Board Number436 New In Vitro Gastrointestinal Model Accurately Predicts Arsenic Bioavailability in Soils. <i>V. L. Mitchell¹, S. Whitacre², S. W. Casteel², P. A. Myers¹, and N. T. Basta².</i> ¹ Department of Toxic Substances Control, Cal EPA, Sacramento, CA; ² Ohio State University, Columbus, OH; and ³ University of Missouri, Columbia, MO.
#1879	Poster Board Number426 Assignment of Hazard Specific Notations for Occupational Health Purposes in the Pharmaceutical Industry. <i>M. Glogovac¹, G. Winkler², and E. Lovsin Barle¹.</i> ¹ Novartis Pharma AG, Basel, Switzerland; and ² Novartis Institutes for BioMedical Research, Basel, Switzerland. Sponsor: <i>E. Faustman.</i>	#1888	Poster Board Number437 A Proposed Adverse Outcome Pathway for Uranium-Induced Osteotoxicity. <i>X. Arzuaga, M. Gehlhaus, J. B. Strong, J. S. Lee, and J. M. Fritz.</i> National Center for Environmental Assessment, US Environmental Protection Agency, Washington, DC.
#1880	Poster Board Number427 The Use of Glial Changes in Neurotoxicity Risk Assessments. <i>A. D. Kraft.</i> National Center for Environmental Assessment, US EPA, Washington, DC.	#1889	Poster Board Number438 Bioavailability of Polycyclic Aromatic Hydrocarbons from Different Soils in Swine: Does Soil Concentration Matter? <i>R. E. Peters^{1,2}, K. James^{1,2}, M. Wickstrom³, and S. D. Siciliano^{1,2}.</i> ¹ Soil Science, University of Saskatchewan, Saskatoon, SK, Canada; and ² Toxicology Centre, University of Saskatchewan, Saskatoon, SK, Canada.
#1881	Poster Board Number428 Evaluating the Evidence for Developing Categorical Occupational Exposure Limits for Nanomaterials. <i>E. Kuempel¹, G. Oberdorster², and V. Castranova³.</i> ¹ National Institute for Occupational Safety and Health, Cincinnati, OH; ² University of Rochester, Rochester, NY; and ³ West Virginia University, Morgantown, WV.	#1890	Poster Board Number439 Adverse Outcome Pathway (AOP) for a Mutagenic Mode of Action for Cancer: AFB1 and Hepatocellular Carcinoma (HCC). <i>L. H. Pottenger¹, M. M. Moore², T. Simon³, R. A. Becker⁴, K. Wise⁴, and R. Schoeny⁵.</i> ¹ The Dow Chemical Company, Midland, MI; ² ENVIRON International Corp, Little Rock, AR; ³ Ted Simon LLC, Winston, GA; ⁴ American Chemistry Council, Washington, DC; and ⁵ USEPA, Washington, DC.
#1882	Poster Board Number429 Characterizing Factors That Modify Chemical Exposure or Response: Application of a Susceptibility Framework to Inorganic Arsenic Hazard Identification. <i>J. S. Lee, C. Powers, L. Joca, J. Cowden, and R. Sams.</i> US EPA, Research Triangle Park, NC.		

Program Schedule (Continued)

- Abstract #**
- #1891 **Poster Board Number 442**
Developing a Framework for Integrating Toxicokinetics into Human Health Risk Assessment for Chemicals. L. G. McFadden³, A. T. McCoy³, S. Hays², M. Aggarwal¹, M. J. Bartels³, R. Billington¹, and C. Terry¹. ¹Human Health Assessment, Dow AgroSciences, Oxfordshire, United Kingdom; ²Summit Toxicology, Superior, CO; and ³TERC, Midland, MI.
- #1892 **Poster Board Number 443**
Identification of the Molecular Initiating Event (MIE) for TBBPA-Induced Uterine Tumors in the Framework of an Adverse Outcome Pathway (AOP). S. Borghoff¹, D. Wikoff², M. C. White², C. M. Thompson³, and L. C. Haws². ¹ToxStrategies, Inc., Cary, NC; ²ToxStrategies, Inc., Austin, TX; and ³ToxStrategies, Inc., Katy, TX.
- #1893 **Poster Board Number 444**
Data-Derived Extrapolation Factors: Improving the Quantitative Basis for Health Risk Assessment. J. C. Lipscomb¹, A. B. Lowit², E. M. Kenyon², V. C. Moser², B. P. Foos², A. Galizia², M. Broder², and R. Schoeny². ¹US EPA, Cincinnati, OH; ²US EPA, Washington, DC; and ³US EPA, Research Triangle Park, NC.
- #1894 **Poster Board Number 445**
Health Impact Due to the Use of Agrochemicals in the Periurban Area Gran Buenos Aires (Argentina). D. J. Mara¹, G. Sternik², and S. O. Demichelis¹. ¹Productive Development and Technology, National University of Lanús, Lanús, Argentina; and ²Scientia Biolabs, San Diego, CA. Sponsor: G. Castro.
- #1895 **Poster Board Number 446**
Evaluating and Expressing Uncertainty in Dose-Response Assessment: A New WHO/IPCS Guidance Incorporating Probabilistic Approaches. W. A. Chiu. US Environmental Protection Agency, Washington, DC. Sponsor: K. Guyton.
- #1896 **Poster Board Number 447**
Artifactual Positive Urine Reagent Test-Strip Reactions Caused by Common Contaminants in Laboratory-Housed Nonhuman Primates, Beagle Dogs, and Sprague-Dawley Rats. W. Siska¹, D. J. Meyer¹, A. E. Schultze², C. Brandoff¹, J. West¹, and S. Wirth¹. ¹Charles River Laboratories, Reno, NV; and ²Department of Pathology, Lilly Research Laboratories, A Division of Eli Lilly and Company, Indianapolis, IN.
- #1897 **Poster Board Number 450**
Potential Mode of Action for Noncancer Effects following Exposure to Libby Amphibole Asbestos. M. R. Gwinm, and A. M. Jarabek. Office of Research & Development, US Environmental Protection Agency, Washington, DC.
- #1898 **Poster Board Number 451**
Reference Intervals and Comparison of Clinical Pathology Parameters in Cynomolgus Monkeys of Chinese, Mauritian, and Cambodian Origin. A. Wilcox, D. E. Wilkins, S. J. Bulera, B. Russell, and G. Elliott. Charles River Laboratories, Reno, NV.

- Abstract #**
- #1899 **Poster Board Number 452**
The Occurrence of Chemically Induced Lung Tumors in Rodents As an Outcome in NTP Chronic Bioassays and the Impact on Cancer Classifications. J. A. MacGregor¹, A. Santamaria², J. Plunkett³, and L. M. Plunkett³. ¹Toxicology Consulting Services, Bonita Springs, FL; ²Exponent, Houston, TX; and ³Integrative Biostrategies, Houston, TX.
- #1900 **Poster Board Number 453**
Multicolor, Multiparameter High-Throughput Flow Cytometry for Candidate Compound Screening. T. V. Shankey¹, A. Bieberich¹, A. Irvine¹, R. Fatg¹, and B. Rajwa². ¹R&D, AsedaSciences, West Lafayette, IN; and ²Purdue University, West Lafayette, IN.

Wednesday Morning, March 25
9:00 AM to 12:30 PM
CC Exhibit Hall

Poster Session: Regulation/Policy

Strategies for Exposure and Risk Assessments

Chairperson(s): Katy O. Goyak, ExxonMobil Biomedical Sciences, Inc., Annandale, NJ.

Displayed: 9:00 AM–12:30 PM

Author-Attended: 9:00 AM–11:00 AM

- #1901 **Poster Board Number 501**
Assessment of the Potential Human Health Risks from Exposure to Complex Substances in Accordance with REACH Requirements: “White Spirit” As a Case Study. R. H. McKee¹, R. Tibaldi¹, M. D. Adenuga¹, and J. Carrillo². ¹Toxicology and Environmental Sciences, ExxonMobil Biomedical Sciences Inc., Annandale, NJ; and ²Shell Health, Shell International B.V., The Hague, Netherlands.
- #1902 **Poster Board Number 502**
What Is an Acceptable Risk of Cancer Due to Occupational Exposure to a Carcinogen? D. A. Dankovic, and C. Whittaker. Risk Evaluation Branch, CDC/NIOSH, Cincinnati, OH.
- #1903 **Poster Board Number 503**
Comparison of Inhalation Occupational Exposure Limits (OELs) and European Worker’s Inhalation-Derived No-Effect Levels (DNELs) for Volatile Organic Compounds. M. Jackson¹, R. Lemus², and L. Fell¹. ¹Haley & Aldrich, Ann Arbor, MI; and ²ATL, Cincinnati, OH.
- #1904 **Poster Board Number 504**
Characterizing Risks from Exposure to Hazardous Air Pollutants: Consideration of Health Risks from Acute Exposure. I. Pagan¹, and G. M. Woodall². ¹OAQPS, US EPA, Research Triangle Park, NC; and ²NCEA, US EPA, Research Triangle Park, NC.
- #1905 **Poster Board Number 505**
Reanalysis of Angina Study Cited by US Environmental Protection Agency As Primary Basis for National Ambient Air Quality Standards on Carbon Monoxide. A. Donnay. Consultant, Hyattsville, MD.

PS Poster Sessions

RI Regional Interest Session

R Roundtable Sessions

S Symposium Sessions

TS Thematic Sessions

W Workshop Sessions

Program Schedule (Continued)

Abstract #		Abstract #	
#1906	Poster Board Number506 Assessing Acute Exposures to Hazardous Air Pollutants to Inform Regulatory Decisions under Section 112 of the Clean Air Act: Challenges and Potential Improvements. M. J. Stewart, J. Hirtz, and I. Pagan. OAQPS, US EPA, Research Triangle Park, NC. Sponsor: <i>D. Murphy.</i>	#1914	Poster Board Number514 Toxicology Databases: Aggregating Human Food Safety Toxicology Information for Veterinary Drugs in Food-Producing Animals. M. Cecco ¹ , and T. Zhou ² . ¹ University of South Carolina, Columbia, SC; and ² Center for Veterinary Medicine, US FDA, Rockville, MD.
#1907	Poster Board Number507 Design of Experiments Aligned with Benchmark Dose Analyses Reveals Significant Reduction and Refinement in the Use Laboratory Animals. M. Öberg ^{1,2} , J. Ringblom ¹ , F. Kalantari ¹ , and G. Johanson ¹ . ¹ Institute of Environmental Medicine, Karolinska Institutet, Stockholm, Sweden; and ² Swedish Toxicology Sciences Research Center, Södertälje, Sweden.	#1915	Poster Board Number515 Effectiveness of Toxicology-Based Webinars in Promoting Nonstandard Methods Using REACH As a Case Study. J. Brown ¹ , J. Barroso ³ , H. Penrose ⁴ , G. Patlewicz ² , J. Baines ¹ , A. Clippinger ¹ , and G. Stoddart ¹ . ¹ PETA International Science Consortium, Ltd., Oakland, CA; ² DuPont Haskell Global Centers, Newark, DE; ³ Systems Toxicology Unit, EURL ECVAM, Ispra, Italy; and ⁴ Chemical Watch, Shrewsbury, United Kingdom.
#1908	Poster Board Number508 Use and Development of 24-Hour, Health-Protective Ambient Air Comparison Values in Texas. R. L. Grant, and J. T. Haney. Toxicology Division, Texas Commission on Environmental Quality, Austin, TX.	#1916	Poster Board Number516 The Role of the Toxicologist in Required Food Safety Plans: A Case Study of Ochratoxin A (OTA) in Coffee. C. L. Doepker ¹ , and G. Brorby ² . ¹ ToxStrategies, Inc., Fort Thomas, KY; and ² ToxStrategies, Inc., Richmond, CA.
#1909	Poster Board Number509 Adjustment of the US EPA Draft Oral Slope Factor for Hexavalent Chromium to Be More Predictive of Risk at Lower Exposure Levels Based upon Dose-Dependent Differences in the Fraction of Dose Absorbed into Target Tissues. J. T. Haney. Toxicology Division, Texas Commission on Environmental Quality, Austin, TX.	#1917	Poster Board Number517 EU Cosmetics Regulation Driving Acceptance of In Vitro Alternatives. C. Cordon, and P. Aikens. Huntingdon Life Sciences, Huntingdon, Cambridgeshire, United Kingdom. Sponsor: C. Auletta.
#1910	Poster Board Number510 Assessing NTP's Effectiveness: A Case Study on Hexavalent Chromium. Y. Xie ¹ , S. Holmgren ² , D. Andrews ¹ , and M. S. Wolfe ¹ . ¹ DNTP, NIEHS, Research Triangle Park, NC; and ² OD, NIEHS, Research Triangle Park, NC. Sponsor: <i>J. Bucher.</i>	#1918	Poster Board Number518 Cosmetic Safety Testing Roadmap to Regulatory Approval in North America, Europe, and Japan. B. J. Varsho ¹ , E. L. Roggen ² , B. De Wever ³ , and G. L. DeGeorge ¹ . ¹ MB Research Laboratories, Spinnerstown, PA; ² 3RsMC, Copenhagen, Denmark; and ³ ALTEXA Development, Monte Carlo, Monaco.
#1911	Poster Board Number511 Using Acute Oral Toxicity Data to Estimate Acute Dermal Hazard Classification and Labeling of Pesticides. M. Paris ¹ , J. Strickland ¹ , D. G. Allen ¹ , and W. Casey ² . ¹ ILS/NICEATM, Research Triangle Park, NC; and ² NTP/NICEATM, Research Triangle Park, NC.	#1919	Poster Board Number519 Interaction between GHS and Chemical Registrations in the EU. S. Warren ¹ , and E. Freeman ² . ¹ Centre for Chemical Regulation and Food Safety, Exponent International, Harrogate, United Kingdom; and ² Center for Chemical Regulation and Food Safety, Exponent Inc, Washington, DC.
#1912	Poster Board Number512 A Global Initiative to Refine Acute Inhalation Studies through the Use of "Evident Toxicity" As an Endpoint: Toward Adoption of the Fixed Concentration Procedure. F. Sewell ¹ , T. Marczylo ² , and G. Horgan ³ . ¹ National Centre for the Replacement, Refinement & Reduction of Animals in Research (NC3Rs), London, United Kingdom; ² Public Health England, Didcot, United Kingdom; and ³ Biomathematics and Statistics Scotland (BioSS), Aberdeen, United Kingdom.	#1920	Poster Board Number520 The Harmony and Dissonance of Harmonization: A Comparison of Four Globally Harmonized System (GHS) Carcinogen Categorizations with NTP, US EPA, and IARC Classifications. C. Whittaker. National Institute for Occupational Safety and Health, Cincinnati, OH. Sponsor: <i>D. Dankovic.</i>
#1913	Poster Board Number513 Read-Across of Existing Hazard Data Fulfills HPV Chemical Program Requirements and Avoids Unnecessary Chemical Testing. F. H. Kruszewski, K. Stanton, P. DeLeo, and R. Sedlak. Technical and Regulatory Affairs, American Cleaning Institute, Washington, DC.	#1921	Poster Board Number521 Impact of Different Criteria for Identifying Endocrine-Disrupting Substances under the EU Biocidal Products Regulation. V. Mostert ¹ , R. Bruyndonckx ² , and A. Adams ^{2,3} . ¹ extera, Langenfeld, Germany; ² European Biocidal Products Forum, CEFIC, Brussels, Belgium; and ³ Bayer S.A.S., Lyon, France.
		#1922	Poster Board Number522 Threshold of Toxicological Concern and Its Use in Agrochemical and Chemical Risk Assessment. G. Dean, and P. Aikens. Huntingdon Life Sciences, Huntingdon, Cambridgeshire, United Kingdom. Sponsor: C. Auletta.

Program Schedule (Continued)

Abstract #	Poster Board Number
#1923	523
	Evaluating and Providing Risk Context for Water Contaminants with Minimal or No Toxicity Data. <i>H. M. Goeden</i> ¹ , <i>A. Suchomel</i> ¹ , <i>N. Gavrelis</i> ² , and <i>W. J. Heiger Bernays</i> ³ . ¹ Minnesota Department of Health, Saint Paul, MN; ² Eastern Research Group, Lexington, MA; and ³ Boston University, Boston, MA.
#1924	524
	Mode of Action and Adverse Outcome Pathways: Distinguishing a Difference via Case Study Analysis. <i>K. Goyak</i> , and <i>C. Palermo</i> . ExxonMobil Biomedical Sciences Inc., Annandale, NJ.
#1925	525
	A Systematic Review of the Toxicological Hazards of the Waterpipe. <i>M. E. Kushman</i> . CTP, US FDA, Silver Spring, MD.
#1926	526
	A Pilot Project Reveals Prominent Hazard Screening Tools Fall Short on Performance Expectations. <i>A. M. Mason</i> ¹ , <i>P. J. Spencer</i> ² , and <i>J. M. Panko</i> ³ . ¹ American Chemistry Council, Washington, DC; ² Toxicology & Environmental Research and Consulting, The Dow Chemical Company, Midland, MI; and ³ Cardno Chemrisk, Pittsburgh, PA.
#1927	527
	US EPA Environmental Justice Research Roadmap: Cross-Agency Research Priority. <i>M. K. Manibusan</i> ¹ , <i>A. M. Jarabek</i> ² , <i>M. R. Gwinn</i> ¹ , <i>S. P. Darney</i> ² , <i>J. Quackenboss</i> ³ , and <i>F. Hauchman</i> ¹ . ¹ Office of Research and Development, US-EPA, Washington, DC; ² Office of Research and Development, US-EPA, Research Triangle Park, NC; and ³ Office of Research and Development, US-EPA, Las Vegas, NV.

Wednesday Morning, March 25
9:00 AM to 12:30 PM
CC Exhibit Hall

Poster Session: Nanotoxicology, In Vitro

Chairperson(s): *Girish Kumar*, US FDA, Silver Spring, MD; and *Kevin Dreher*, US EPA, Research Triangle Park, NC.

Displayed: 9:00 AM–12:30 PM

Author-Attended: 11:00 AM–12:30 PM

#1928	535
	Manufactured Metal Oxide Nanoparticles In Vitro Vascular Toxicity: Role of Size Profile and Cellular Specificity on Delivered Dose and Cytotoxicity. <i>W. W. Polk</i> ¹ , <i>M. Odegaard</i> ² , <i>K. Cleveland</i> ⁴ , <i>N. Coates</i> ³ , and <i>K. Dreher</i> ³ . ¹ Curriculum in Toxicology, University of North Carolina, Chapel Hill, NC; ² Monsanto, St. Louis, MO; ³ National Health and Environmental Effects Research Laboratory, US Environmental Protection Agency, Research Triangle Park, NC; and ⁴ Contractor, National Health and Environmental Effects Research Laboratory, US Environmental Protection Agency, Research Triangle Park, NC.
#1929	536
	Potential Toxicity of Titanium Dioxide Nanoparticles in Cultured Rat Pleural Mesothelial Cells. <i>Y. Chen</i> , and <i>J. M. Cerreta</i> . PHS, St. John's University, Queens, NY.

#1930	537
	Tungsten (IV) Oxide Nanoparticles Induce Apoptosis in Rat Pleural Mesothelial Cells. <i>S. P. Kondapalli</i> , and <i>J. M. Cerreta</i> . PHS, St. John's University, Queens, NY.
#1931	538
	Investigation of the Endocytosis of Gold Nanoparticles into the Human Bronchial Epithelial Cell Line BEAS-2B. <i>M. Vetten</i> ^{1,2} , and <i>M. Gulumian</i> ^{1,2} . ¹ Toxicology and Biochemistry Section, National Institute for Occupational Health, Johannesburg, South Africa; and ² School of Pathology, University of the Witwatersrand, Johannesburg, South Africa.
#1932	539
	Ligand-Dependent Uptake of 14 nm Gold Nanoparticles in BEAS-2B Cells. <i>M. Gulumian</i> ^{1,2} , and <i>M. Vetten</i> ^{1,2} . ¹ Toxicology and Biochemistry Section, National Institute for Occupational Health, Johannesburg, South Africa; and ² School of Pathology, University of the Witwatersrand, Johannesburg, South Africa.
#1933	540
	In Vitro Assessment of Vascular Nanoparticle-Induced Toxicity: Implications for a Susceptible Human Subpopulation. <i>J. Shannahan</i> , and <i>J. M. Brown</i> . Pharmaceutical Sciences, University of Colorado, Aurora, CO.
#1934	541
	Small Airway Epithelial Cells Exposure to Printer-Emitted Engineered Nanoparticles Induces Cellular Effects on Human Microvascular Endothelial Cells in an Alveolar-Capillary Coculture Model. <i>Y. Qian</i> ¹ , <i>J. Sisler</i> ¹ , <i>A. A. Shvedova</i> ¹ , <i>S. Friend</i> ¹ , <i>D. Schwegler-Berry</i> ¹ , <i>M. Farcas</i> ¹ , <i>P. Demokritou</i> ² , <i>V. Castranova</i> ³ , and <i>S. V. Pirela</i> ² . ¹ PPRB, NIOSH, Morgantown, WV; ² Center for Nanotechnology and Nanotoxicology, Harvard School of Public Health, Boston, MA; and ³ School of Pharmacy, West Virginia University, Morgantown, WV.
#1935	542
	Nanoparticle Ingestion Alters Nutrient Absorption in a Physiologically Based In Vitro Model of the Gastrointestinal Tract. <i>Z. Guo</i> ¹ , <i>E. Tako</i> ² , and <i>G. Mahler</i> ¹ . ¹ Department of Bioengineering, Binghamton University, Binghamton, NY; and ² Plant, Soil and Nutrition Laboratory, Agricultural Research Services, US Department of Agriculture, Ithaca, NY. Sponsor: <i>J. Bonner</i> .
#1936	543
	Evaluation of an In Vitro Assay for Nanoparticle-Induced Complement Activation. <i>J. E. Leakey</i> , <i>M. E. Collins</i> , <i>A. Patri</i> , and <i>P. C. Howard</i> . Office of Scientific Coordination, NCTR, Jefferson, AR.
#1937	544
	Effect of Nanoscale Surface Features of TiO2 Implant Coatings on Biological Activity of Human Bone Marrow-Derived Stromal Cells. <i>S. Skoog</i> ^{1,2} , <i>G. Kumar</i> ³ , <i>C. Donahue</i> ² , <i>M. Shah</i> ² , <i>J. Zheng</i> ² , <i>P. L. Goering</i> ² , and <i>R. Narayan</i> ² . ¹ Joint Dept. of Biomedical Engineering, Univ. of North Carolina and NC State Univ., Raleigh, NC; and ² CDRH, USFDA, Silver Spring, MD.

Program Schedule (Continued)

Abstract #	Abstract #
#1938	#1945
Poster Board Number545 Cytotoxicity of Titanium and Cerium Dioxide Nanoparticles in HaCaT Cells. <i>M. F. Hughes¹</i> , and <i>V. Miyani²</i> . ¹ ORD/NHEERL, US EPA, Research Triangle Park, NC; and ² Student Services Contractor, Morrisville, NC.	Poster Board Number552 Preliminary Validation Study of a 3D <i>In Vitro</i> Inhalation Model, Using Cytokine and Gene Expression Responses of Copper Oxide Nanoparticles. <i>I. M. Kooter¹</i> , <i>M. Grollers-Mulderij¹</i> , <i>E. Duistermaat²</i> , <i>Y. Staal²</i> , <i>F. Kuper¹</i> , <i>E. van Someren¹</i> , and <i>E. Schoen¹</i> . ¹ TNO, Utrecht, Netherlands; and ² TNO Triskelion BV, Zeist, Netherlands. Sponsor: <i>R. Wouters</i> .
#1939	#1946
Poster Board Number546 <i>In Vitro</i> Cardiotoxicity Screening of Silver and Metal Oxide Nanoparticles Using Human-Induced Pluripotent Stem Cell-Derived Cardiomyocytes. <i>K. Dreher¹</i> , <i>J. D. Strickland²</i> , <i>W. W. Polk³</i> , and <i>T. J. Shafer¹</i> . ¹ National Health and Environmental Effects Research Laboratory, US EPA, Research Triangle Park, NC; ² Contractor, US EPA, Research Triangle Park, NC; and ³ University of North Carolina at Chapel Hill, Chapel Hill, NC.	Poster Board Number553 The Role of Valence State in Cerium Oxide Nanoparticle Toxicity. <i>K. M. Dunnick^{1,2}</i> , <i>E. M. Sabolsky³</i> , and <i>S. S. Leonard^{1,2}</i> . ¹ Health Effects Laboratory Division, NIOSH, Morgantown, WV; ² Department of Pharmaceutical and Pharmacological Sciences, West Virginia University, Morgantown, WV; and ³ Benjamin M. Statler College of Engineering and Mineral Resources, West Virginia University, Morgantown, WV.
#1940	#1947
Poster Board Number547 Tracking Translocation of Industrially Relevant Engineered Nanomaterials across Alveolar Epithelial Monolayers <i>In Vitro</i>. <i>J. Cohen^{1,2}</i> , <i>R. Derk³</i> , <i>L. Wang³</i> , <i>J. J. Godleski¹</i> , <i>J. Brain¹</i> , and <i>P. Demokritou¹</i> . ¹ Department of Environmental Health, Harvard School of Public Health, Boston, MA; ² Gradient, Seattle, WA; and ³ Health Effects Laboratory Division, National Institute of Occupational Safety and Health, Morgantown, WV.	Poster Board Number554 Proinflammatory Potential of Silica- and Silver-Nanoparticles in Different Epithelial Lung Cell Cultures. <i>M. Låg</i> , <i>T. Skuland</i> , <i>T. H. Nguyen</i> , <i>H. Pham</i> , and <i>M. Refsnes</i> . Department of Air Pollution and Noise, Norwegian Institute of Public Health, Oslo, Norway. Sponsor: <i>B. Granum</i> .
#1941	#1948
Poster Board Number548 Effects of Metal Oxide Nanomaterials on Cytotoxicity and Immune Response in THP-1 Cells. <i>A. Miyajima-Tabata</i> , <i>T. Kawakami</i> , <i>K. Komoriya</i> , <i>R. Kato</i> , <i>S. Niimi</i> , and <i>K. Isama</i> . National Institute of Health Sciences, Tokyo, Japan. Sponsor: <i>A. Hirose</i> .	Poster Board Number555 Physicochemical Properties of Gold Nanomaterial Affect Content Binding and Adherence Dynamics of their Serum Plasma Protein Corona. <i>N. M. Schaeublin</i> , <i>M. L. Meade</i> , <i>R. L. Pitsch</i> , <i>P. Shiyonov</i> , <i>C. A. Mauzy</i> , <i>J. Schlager</i> , and <i>S. M. Hussain</i> . 711 HPW; RHDJ, Air Force Research Labs, Wright-Patterson, OH.
#1942	#1949
Poster Board Number549 Nanoparticles Exacerbate Drug-Induced Phospholipidosis. <i>L. Zhang^{1,2}</i> , <i>N. A. Monteiro-Riviere³</i> , <i>J. Li¹</i> , and <i>L. Yang¹</i> . ¹ School of Radiation Medicine and Protection, Suzhou, China; ² Collaborative Innovation Center of Radiation Medicine of Jiangsu Higher Education Institutions, Suzhou, China; and ³ Nanotechnology Innovation Center of Kansas State University, Manhattan, KS.	Poster Board Number556 Impact of Silver Nanoparticle—Ovalbumin Protein Corona on Antigen Presentation. <i>W. Bai</i> , <i>J. Shannahan</i> , and <i>J. M. Brown</i> . Department of Pharmaceutical Sciences, University of Colorado-Anschutz Medical Campus, Aurora, CO.
#1943	#1950
Poster Board Number550 Proteome Alteration and Toxicity Induced by Ag Nanoparticles in an Intestinal Coculture Model. <i>T. Serchi¹</i> , <i>A. Georgantzopoulou¹</i> , <i>C. C. Leclercq¹</i> , <i>J. Renaut¹</i> , <i>M. Kruszewski²</i> , <i>A. Lankoff²</i> , <i>E. Lentzen¹</i> , <i>J. Audinot¹</i> , <i>J. Ziebel¹</i> , <i>C. Guignard¹</i> , <i>L. Hoffmann¹</i> , and <i>A. C. Gutleb¹</i> . ¹ Environment and Agrobiotechnologies, Luxembourg Institute for Science and Technology, Belvaux, Luxembourg; and ² Institute of Nuclear Chemistry and Technology, Centre for Radiobiology and Biological Dosimetry, Warszawa, Poland. Sponsor: <i>B. Brunhilde</i> .	Poster Board Number557 Extended and Repeat-Dose Percutaneous Penetration of Dendrimers into Pig and Human Skin. <i>M. Kraeling¹</i> , <i>K. Belgrave¹</i> , <i>V. Topping¹</i> , <i>K. Bailey¹</i> , <i>X. Gao¹</i> , <i>K. Schlick²</i> , <i>E. Simanek²</i> , <i>S. Man³</i> , <i>A. K. Patri³</i> , <i>R. Sprando¹</i> , and <i>J. Yourick¹</i> . ¹ Office of Applied Research and Safety Assessment, USFDA, Laurel, MD; ² Department of Chemistry, Texas Christian University, Fort Worth, TX; and ³ Nanotechnology Characterization Laboratory, Leidos Biomedical Research, Inc., Frederick, MD.
#1944	#1951
Poster Board Number551 Silica Nanoparticle-Induction of CXCL8 and IL-6 in BEAS-2B Cells via Activation of NF-κB and a p38/TACE/TGF-α/EGFR-Pathway: Role of ROS. <i>M. Refsnes</i> , <i>T. Skuland</i> , and <i>M. Låg</i> . Department of Air Pollution and Noise, Norwegian Institute of Public Health, Oslo, Norway. Sponsor: <i>B. Granum</i> .	Poster Board Number558 Cellular Uptake and Clearance of TiO₂ Nanoparticles. <i>J. N. Ortenzio²</i> , <i>L. L. Degn¹</i> , <i>D. Abdulhadi²</i> , <i>R. Zucker¹</i> , and <i>W. K. Boyes¹</i> . ¹ USEPA, Research Triangle Park, NC; and ² Student Contractor to EPA, Research Triangle Park, NC.
	#1952
	Poster Board Number559 Inflammatory Potential of Iron Oxide Nanoparticles. <i>S. Grosse¹</i> , <i>R. Vik^{1,2}</i> , <i>S. F. Ali³</i> , <i>J. Stenvik^{1,2}</i> , and <i>A. M. Nilsen¹</i> . ¹ Department of Cancer Research and Molecular Medicine, Norwegian University of Science and Technology (NTNU), Trondheim, Norway; ² CEMIR, NTNU, Trondheim, Norway; and ³ Neurochemistry Laboratory, Division of Neurotoxicology, NCTR, Jefferson, AR.

Program Schedule (Continued)

Abstract #		Abstract #	
#1953	Poster Board Number560 The “Spot Test”: A Novel Assay for the Analysis of Biocidal Properties of Nanomaterials. K. Kasemets, S. Suppi, and A. Kahru. Laboratory of Environmental Toxicology, National Institute of Chemical Physics and Biophysics, Tallinn, Estonia. Sponsor: <i>K. Savolinen</i> .	#1960	Poster Board Number567 The ToxTracker Reporter System Enables Rapid Screening with Mechanistic Insight into the Genotoxicity of Metal Oxide Nanoparticles. A. R. Gliga ¹ , H. L. Karlsson ¹ , F. Calléja ² , C. Goncalves ² , I. Odnevall Wallinder ³ , H. Vrieling ² , B. Fadeel ¹ , and G. Hendriks ² . ¹ Division of Molecular Toxicology, Institute of Environmental Medicine, Karolinska Institutet, Stockholm, Sweden; ² Department of Toxicogenetics, Leiden University Medical Center, Leiden, Netherlands; and ³ Division of Surface and Corrosion Science, School of Chemical Science and Engineering, Royal Institute of Technology, Stockholm, Sweden.
#1954	Poster Board Number561 Synthesis, Characterization, and Antimicrobial Activity of Drug-Loaded Calcium Alginate Nanocapsules: Perspectives on Their Potential Biomedical Use. A. Anaya-Sanchez ¹ , A. Aburto-Platas ¹ , M. A. Mendez ¹ , M. C. Miranda ² , R. E. Cachau ² , J. F. Delgado-Jimenez ¹ , and T. D. Palacios-Hernandez ^{1,3} . ¹ Universidad de las Americas Puebla, Cholula, Mexico; ² Frederick National Laboratory for Cancer Research, Frederick, MD; and ³ Biological Sciences, Universidad Popular Autonoma del Estado de Puebla, Puebla, Mexico.	#1961	Poster Board Number568 Toxicity Evaluation of Raw and Thermally Degraded Nanoclays on Human Lung Cells. A. Wagner, R. Eldawud, S. Agarwal, R. Gupta, and C. A. Dimu. West Virginia University, Morgantown, WV.
#1955	Poster Board Number562 Effects of Dose, Dissolution, and Ion Aging on Silver Nanotoxicity <i>In Vitro</i>. H. D. Jolley, V. K. Kodali, J. G. Teegarden, B. D. Thrall, J. G. Pounds, and J. N. Smith. Center for Nanotoxicology, Pacific Northwest National Laboratory, Richland, WA.	#1962	Poster Board Number569 Surface Manipulation of Gold Nanorods: Toxicity Analysis of Chemical Modifications to Provide High Biocompatibility, Enhanced Uptake, and Unique Intracellular Distribution Pattern. A. B. Polito, E. I. Maurer, and S. M. Hussain. 711 HPW; RHDJ, Air Force Research Labs, Wright-Patterson, OH.
#1956	Poster Board Number563 Distinct Patterns of Apoptosis and Necrosis in A549 Cells by Fourth-Period Transition Metal Oxide Nanoparticles. L. M. Tolliver ¹ , F. S. Hou ² , H. Lee ³ , R. S. Aronstam ¹ , and Y. Huang ¹ . ¹ Biological Sciences, Missouri University of Science and Technology, Rolla, MO; ² Department of Clinical Laboratory Science, Marquette University, Milwaukee, WI; and ³ Department of Natural Resources and Environmental Studies, National Dong Hwa University, Taipei, Taiwan.	#1963	Poster Board Number570 Identifying Novel Gene Expression Targets following Metallic Nanomaterial Exposures Using Next-Generation Sequencing: A Comparison of Mouse and Human <i>In Vitro</i> Neuronal Models. M. Grogg ¹ , K. R. Naik ¹ , M. P. Kadakia ² , L. K. Braydich-Stolle ¹ , and S. M. Hussain ¹ . ¹ 711 HPW; RHDJ, Air Force Research Labs, Wright-Patterson, OH; and ² Biochemistry and Molecular Biology, Boonshoft School of Medicine, Dayton, OH.
#1957	Poster Board Number564 Effects of Cu Nanoparticles to <i>E. coli</i> and <i>L. brevis</i> Compared to Their Micron-Sized and Ionic Analog. C. Kaweeteerawat ^{1,2} , C. Chang ² , and H. Godwin ^{1,2} . ¹ Molecular Toxicology, UCLA, Los Angeles, CA; and ² UC Center for Environmental Implications of Nanotechnology, Los Angeles, CA.		
#1958	Poster Board Number565 Toxicogenomics Evaluation of Fumed Silica Nanoparticles in Human Lung Cells Reveals a Hierarchical Stress Response. O. Prat, C. Pisani, J. Gaillard, V. Nouvel, M. Odorico, and J. Armengaud. DSV, CEA, Bagnols sur Cèze, France. Sponsor: <i>K. Krishnan</i> .		
#1959	Poster Board Number566 <i>In Vitro</i> Penetration of Branched Polyethyleneimine (bPEI)-Coated Silver Nanoparticles into Human Skin. V. Topping ^{1,2} , K. Belgrave ^{1,2} , Z. Keltner ¹ , R. Sprando ¹ , J. Yourick ¹ , and M. Kraeling ¹ . ¹ Division of Toxicology, Office of Applied Research and Safety Assessment, US FDA, Laurel, MD; and ² ORISE, Oak Ridge, TN.		

Program Schedule (Continued)

Abstract

Wednesday Morning, March 25
9:00 AM to 12:30 PM
CC Exhibit Hall

Poster Session: Metals—As, Cd, Hg

Chairperson(s): Karin Broberg, Karolinska Institutet, Stockholm, Sweden; and Amber M. Nagy, Biomaterials and Environmental Surveillance, Naval Medical Research Unit San Antonio, Fort Sam Houston, TX.

Displayed: 9:00 AM–12:30 PM

Author-Attended: 9:00 AM–11:00 AM

- #1964 **Poster Board Number 601**
Identification of Novel Gene Targets and Putative Regulators of Arsenic-Associated DNA Methylation in Human Urothelial Cells and Bladder Cancer. J. E. Rager¹, S. K. Miller¹, L. Smeester¹, J. Currier², M. Ishida³, M. del Carmen González-Horta³, B. E. Sánchez Ramírez³, L. Ballinas-Casarrubias³, D. S. Gutiérrez-Torres³, Z. Drobna⁴, L. M. Del Razo⁵, G. G. García-Vargas⁶, W. Y. Kim⁷, M. Styblo^{2,4}, and R. Fry^{1,2}. ¹Environmental Sciences and Engineering, University of North Carolina, Chapel Hill, NC; ²Curriculum in Toxicology, University of North Carolina, Chapel Hill, NC; ³Facultad de Ciencias Químicas, Universidad Autónoma de Chihuahua, Chihuahua, Mexico; ⁴Department of Nutrition, University of North Carolina, Chapel Hill, NC; ⁵Departamento de Toxicología, Centro de Investigación, Mexico City, Mexico; ⁶Facultad de Medicina, Universidad Juárez del Estado de Durango, Gómez Palacio, Mexico; and ⁷Lineberger Comprehensive Cancer, University of North Carolina, Chapel Hill, NC.
- #1965 **Poster Board Number 602**
Modulation of AhR-Regulated Genes by Trimethyl Arsenic Oxide in the Lung, Kidney, and Heart of C57BL/6 Mice. O. H. Elshenawy, and A. O. El-Kadi. Faculty of Pharmacy and Pharmaceutical Sciences, University of Alberta, Edmonton, AB, Canada.
- #1966 **Poster Board Number 603**
Arsenite- and Cadmium-Transformed Human Bladder Cancer Cells and Tumor Transplants Contain Elevated Levels of Gap Junctional Protein Connexin 43. J. R. Dunlevy¹, R. Zhang², S. Somji², S. H. Garrett², X. Zhou², S. Cyr², and D. A. Sens². ¹Basic Sciences, University of North Dakota, Grand Forks, ND; and ²Pathology, University of North Dakota, Grand Forks, ND.
- #1967 **Poster Board Number 604**
Gestational Arsenic Exposure Affects Gene Expression in the Kidney and Lung in the F1 and F2 Mice. S. Takumi¹, K. Okamura³, T. Suzuki², H. Hano¹, K. Nohara², and H. Yanagisawa¹. ¹Department of Public Health and Environmental Medicine, The Jikei University School of Medicine, Tokyo, Japan; and ²National Institute for Environmental Studies, Tsukuba, Japan.
- #1968 **Poster Board Number 605**
Arsenic Methylation Is Required for Arsenic-Induced Atherosclerosis. L. Negro Silva¹, M. Lemaire¹, M. Flores Molina¹, D. Plourde¹, V. N. Slavkovich², J. H. Graziano³, C. A. Lemarié¹, S. Lehoux¹, and K. K. Mann¹. ¹Lady Davis Institute for Medical Research, McGill University, Montreal, QC, Canada; and ²Mailman School of Public Health, Columbia University, New York, NY.

Abstract

- #1969 **Poster Board Number 606**
Activity of the Zinc Finger Transcription Factor HNF-4a Is Inhibited by Arsenic in the Livers of Mice with Diet-Induced Nonalcoholic Fatty Liver Disease. W. H. Watson^{1,2}, T. J. Burke¹, V. L. Massey², G. E. Artee², and M. L. Merchant^{1,2}. ¹Medicine, University of Louisville, Louisville, KY; and ²Pharmacology and Toxicology, University of Louisville, Louisville, KY.
- #1970 **Poster Board Number 607**
Metabolomic Signature Associated with Knockout of Arsenic (+3 Oxidation State) Methyltransferase in C57B6 Mice. M. Huang¹, C. Douillet², M. Su³, K. Zhou³, T. Wu³, W. Chen³, W. Jia³, and M. Styblo². ¹Curriculum in Toxicology, University of North Carolina Chapel Hill, Chapel Hill, NC; ²Nutrition, University of North Carolina Chapel Hill, Chapel Hill, NC; and ³Cancer Center, University of Hawaii at Mānoa, Honolulu, HI.
- #1971 **Poster Board Number 608**
Metabolism and Disposition of Arsenic in Acute Promyelocytic Leukemia Patients Treated with Arsenic Trioxide (ATO). M. Styblo¹, A. R. Calabro², R. S. Saunders¹, Z. Drobna¹, D. R. Budman², C. Devoe², S. Allen², and C. M. Ghiuzeli². ¹Nutrition, University of North Carolina Chapel Hill, Chapel Hill, NC; and ²Monter Cancer Center of North Shore, LIJ Health Systems, Lake Success, NY.
- #1972 **Poster Board Number 609**
Maternal Genotype for Arsenic (+3 Oxidation State)-Methyltransferase Influences Inorganic Arsenic Metabolism and Newborn Birth Outcomes in a Pregnancy Cohort in Mexico. Z. Drobna², E. Martin¹, M. Rubio-Andrade⁴, G. G. Garcia-Vargas⁴, M. Styblo², K. Kim³, F. Zou³, and R. Fry¹. ¹ESE, UNC-Chapel Hill, Chapel Hill, NC; ²Nutrition, UNC-Chapel Hill, Chapel Hill, NC; ³Biostatistics, UNC-Chapel Hill, Chapel Hill, NC; and ⁴Facultad de Medicina, Universidad Juárez del Estado de Durango, Gómez Palacio, Mexico.
- #1973 **Poster Board Number 610**
MicroRNA Profile Changes in Immortalized Human Keratinocytes after Low Arsenic Exposure. L. Al-Eryani¹, J. Pan², S. N. Rai^{2,3}, and J. C. States¹. ¹Pharmacology & Toxicology, Univ Louisville, Louisville, KY; ²Biostatistics Shared Facility, Brown Cancer Center, Univ Louisville, Louisville, KY; and ³Bioinformatics & Biostatistics, Univ Louisville, Louisville, KY.
- #1974 **Poster Board Number 611**
Relationship between mRNA Expression Level and SNPs of As3MT in Residents from Arsenic-Contaminated Areas in Vietnam. T. Agusa¹, T. Kunito², N. M. Tue¹, V. T. Lan³, T. B. Minh⁴, P. T. Trang³, J. Fujihara⁵, H. Takeshita⁵, S. Takahashi⁶, P. H. Viet³, S. Tanabe¹, and H. Iwata¹. ¹Ehime University, Center for Marine Environmental Studies (CMES), Matsuyama, Japan; ²Faculty of Science, Shinshu University, Matsumoto, Japan; ³Center for Environmental Technology and Sustainable Development (CETASD), Vietnam National University, Hanoi, Vietnam; ⁴Faculty of Chemistry, Vietnam National University, Hanoi, Vietnam; ⁵Department of Legal Medicine, Shimane University Faculty of Medicine, Izumo, Japan; and ⁶Faculty of Agriculture, Ehime University, Matsuyama, Japan.

Program Schedule (Continued)

Abstract #		Abstract #	
#1975	Poster Board Number612 Yes-Associated Protein Expression in Neoplastic and Non-Neoplastic Breast Tissue of Women Living in an Area with Hydroarsenicism. G. Michel-Ramírez ¹ , G. Ocampo-Gomez ¹ , R. Recio-Vega ¹ , E. Palacios-Sánchez ¹ , M. Delgado-Macias ¹ , M. Delgado-Gaona ¹ , and A. J. Gandolfi ² . ¹ Environmental Health, University of Coahuila, Torreon, Mexico; and ² College of Pharmacy, University of Arizona, Tucson, AZ.	#1982	Poster Board Number619 Coexposure to Fluoride and Inorganic Arsenic in Drinking Water May Decrease the Capacity to Methylate and Detoxify Arsenic. L. M. Del Razo ¹ , C. González-Horta ² , R. Saunders ³ , B. E. Sánchez Ramírez ² , L. Ballinas-Casarrubias ² , M. C. Ishida ² , D. S. Gutiérrez-Torres ² , A. Barrera-Hernández ¹ , Z. Drobná ³ , G. G. Garcia-Vargas ⁴ , M. Mendez ³ , and M. Stýblo ³ . ¹ Toxicología, Cinvestav-IPN, Mexico City, Mexico; ² Ciencias Químicas, Universidad Autónoma de Chihuahua, Chihuahua, Mexico; ³ University of North Carolina, Chapel Hill, NC; and ⁴ Universidad Juárez del Estado de Durango, Gómez Palacio, Mexico.
#1976	Poster Board Number613 Remodeling of Mitochondrial Network Topology Defines Myogenesis Progression: Insights from Low-Dose Arsenite Exposure. A. Cheikh ¹ , F. Ambrosio ³ , and A. Barchowsky ^{1,2} . ¹ Environmental and Occupational Health, University of Pittsburgh, Pittsburgh, PA; ² Pharmacology and Chemical Biology, University of Pittsburgh, Pittsburgh, PA; and ³ Physical Medicine & Rehabilitation, University of Pittsburgh, Pittsburgh, PA.	#1983	Poster Board Number620 N-Cadherin Upregulation and EMT Progression in As³⁺- and Cd²⁺-Transformed Urothelial Cells. E. Sandquist, S. Somji, D. A. Sens, and S. H. Garrett. Pathology, University of North Dakota, Grand Forks, ND.
#1977	Poster Board Number614 Activating Transcription Factor 4 (ATF4) Regulates Arsenic Trioxide-Mediated Impairment of Macrophage Innate Immune Functions. R. K. Srivastava, C. Li, Y. Wang, C. Elmet, J. Deshane, and M. Athar. University of Alabama at Birmingham, Birmingham, AL.	#1984	Poster Board Number621 Anterior Gradient 2 Expression in MCF-10A and UROtsa Cells Exposed to Arsenite and Cadmium. J. Van Gieson, S. H. Garrett, D. A. Sens, and S. Somji. Pathology, University of North Dakota, Grand Forks, ND.
#1978	Poster Board Number615 Mechanism of Arsenic Synergistic Effect on Hexavalent Chromium-Induced Metaphase Damage in Human Lung Cells. H. Xie, J. P. Wise, J. Stewart, L. Yang, and N. Nutter. University of Southern Maine, Portland, ME.	#1985	Poster Board Number622 Potential Involvement of Cadmium in the Induction of the Polyol Pathway of Hyperglycemic Glucose Metabolism in Human Proximal Tubule Cells. B. Davis, S. H. Garrett, D. A. Sens, and S. Somji. Pathology, University of North Dakota, Grand Forks, ND.
#1979	Poster Board Number616 Low-Dose Arsenite during Fetal Development Alters Energy Metabolism and Increases Susceptibility to Cardiovascular and Fatty Liver Disease. E. J. Ditzel ¹ , H. Nyugen ¹ , P. Parker ¹ , and T. D. Camenisch ^{1,2,3} . ¹ Pharmacology and Toxicology, University of Arizona, Tucson, AZ; ² Steele Children's Research Center, Tucson, AZ; and ³ Southwest Environmental Health Sciences Center, Tucson, AZ.	#1986	Poster Board Number623 Exposure of V79 Cells to Cadmium Chloride Results in the Production of Single-Strand Breaks, Double-Strand Breaks, and Cell Cycle Changes. J. Gobrecht, P. Kube, and M. Reynolds. Washington College, Chestertown, MD.
#1980	Poster Board Number617 Identifying N-6 Adenine-Specific DNA Methyltransferase 1 (N6AMT1) Polymorphisms Associated with Arsenic Methylation in Two Population Studies. R. M. de la Rosa ¹ , N. K. Akers ¹ , L. Conde ² , C. Steinmaus ¹ , D. Kalman ¹ , A. Smith ¹ , L. Zhang ¹ , C. F. Skibola ² , and M. T. Smith ¹ . ¹ Superfund Research Program, School of Public Health, University of California, Berkeley, Berkeley, CA; ² Department of Epidemiology, Comprehensive Cancer Center, University of Alabama, Birmingham, AL; and ³ School of Public Health, University of Washington, Seattle, WA.	#1987	Poster Board Number624 Changes of Gene Expression in Human Proximal Tubular Cells Treated with Cadmium. M. Satoh ¹ , J. Lee ¹ , M. Tokumoto ¹ , and Y. Fujiwara ^{1,2} . ¹ School of Pharmacy, Aichi Gakuin University, Nagoya, Japan; and ² Tokyo University of Pharmacy and Life Sciences, Hachioji, Tokyo, Japan.
#1981	Poster Board Number618 Inorganic and Organic Arsenic Inhibit CFTR Cl Secretion by Human Bronchial Epithelial Cells. B. C. Goodale, R. Barnaby, and B. Stanton. Microbiology and Immunology, Geisel School of Medicine at Dartmouth, Hanover, NH.	#1988	Poster Board Number625 Involvement of FOXF1 Transcription Factor in Cadmium-Induced Suppression of UBE2D4 Gene Expression. J. Lee ¹ , M. Tokumoto ¹ , Y. Fujiwara ^{1,2} , and M. Satoh ¹ . ¹ School of Pharmacy, Aichi Gakuin University, Nagoya, Japan; and ² School of Pharmacy, Tokyo University of Pharmacy and Life Sciences, Tokyo, Japan.
		#1989	Poster Board Number626 Pleiotropic Roles of Calmodulin-Dependent Pathways Regulating Cadmium Toxicity in Human Osteoblast-Like Cell Lines. M. L. Goodwin, T. T. Ha, S. T. Burwell, and S. J. Heggland. Biology, The College of Idaho, Caldwell, ID.

Program Schedule (Continued)

- Abstract #**
- #1990 **Poster Board Number627**
Comprehensive Analysis of Transcription Factors Involved in Rat Proximal Tubular Cells Exposed to Cadmium. *M. Tokumoto¹, J. Lee¹, Y. Fujiwara^{1,2}, and M. Satoh¹.* ¹School of Pharmacy, Aichi Gakuin University, Nagoya, Japan; and ²School of Pharmacy, Tokyo University of Pharmacy and Life Sciences, Hachioji, Japan.
- #1991 **Poster Board Number628**
Effect of Injection Timing of Cadmium on Severity of Testicular Toxicity. *N. Miura,* and K. Ohtani. National Institute of Occupational Safety and Health (NIOSH), Kawasaki, Japan.
- #1992 **Poster Board Number629**
Exposure to Cadmium Causes Changes in Gene Expression in *In Vivo* and *In Vitro* Rat Liver and Kidney Models. *M. Permenter¹, M. S. Madejczyk², D. Kumsher¹, C. E. Baer¹, J. Lewis³, and J. D. Stallings³.* ¹Excet, Inc, Fort Detrick, MD; ²ORISE, Fort Detrick, MD; and ³USACEHR, Fort Detrick, MD.
- #1993 **Poster Board Number630**
Role of Metallothionein in Modifying the Toxicological Response to Cadmium in Humans. *G. F. Nordberg¹, T. Jin^{1,2}, and M. M. Nordberg³.* ¹Public Health and Clinical Medicine, Umea University, Umea, Sweden; ²Occupational Health and Toxicology, School of Public Health, Fudan University, Shanghai, China; and ³Institute of Environmental Medicine, Karolinska Institutet, Stockholm, Sweden.
- #1994 **Poster Board Number631**
Cadmium Effect on Lipids Accumulation in Mouse Primary Culture. *M. C. Gutierrez Ruiz,* M. Dominguez Perez, D. P. Rosales Cruz, E. Reyes Zarate, L. Gomez-Quiroz, R. U. Miranda, L. Bucio, and V. Souza. Health Science, Universidad Autonoma Metropolitana-Iztapalapa, Mexico City, Mexico.
- #1995 **Poster Board Number632**
Environmental Metabolomics of Low-Dose Cadmium (Cd) in Nonalcoholic Fatty Liver Disease. *Y. Go, J. D. Chandler, M. Orr, and D. P. Jones.* Medicine, Emory University, Atlanta, GA.
- #1996 **Poster Board Number633**
The Human Exposome: Environmental Metabolomics of Low-Dose Cadmium (Cd). *D. P. Jones¹, K. Uppal¹, J. D. Chandler¹, D. Walker^{1,3}, K. D. Pennell², R. Bostick², V. Fedirko², and Y. Go¹.* ¹Medicine, Emory University, Atlanta, GA; ²Epidemiology, Emory University, Atlanta, GA; and ³Environmental Engineering, Tufts University, Boston, MA.
- #1997 **Poster Board Number634**
Cadmium Accumulates within Pancreatic Islets at Levels Similar to the Renal Cortex in an Experimental Model of Long-Term Exposure. *J. Edwards¹,* and M. El Muayed². ¹Pharmacology, Midwestern University, Downers Grove, IL; and ²Endocrinology, Metabolism, and Molecular Medicine, Northwestern University, Chicago, IL.
- #1998 **Poster Board Number635**
Environmental Low-Dose Cadmium Exposure Inhibits Pulmonary Expression of Gene Pathways Including Mitochondrial Energetics, Muscle Function, Cell Cycle Regulation and Wnt Signaling. *J. D. Chandler, S. Banton, S. Li, M. Orr, B. Kang, C. Wongtrakool, Y. Go, and D. P. Jones.* Medicine, Division of Pulmonary, Allergy and Critical Care, Emory University, Atlanta, GA.

- Abstract #**
- #1999 **Poster Board Number636**
Lead and Mercury Species Cause Adverse Cardiovascular Effects via Different Mechanisms Depending on Metal and Mixture Ratio. *L. P. Weber^{1,2}, S. D. Siciliano^{1,3}, and T. Wildemann^{1,3}.* ¹Toxicology Graduate Program, University of Saskatchewan, Saskatoon, SK, Canada; ²Veterinary Biomedical Sciences, University of Saskatchewan, Saskatoon, SK, Canada; and ³Soil Science, University of Saskatchewan, Saskatoon, SK, Canada.
- #2000 **Poster Board Number637**
Renal Accumulation of Mercury in Male Sprague-Dawley Rats Resulting from Oral Gavage with Ras Sindoor. *N. Sadekar,* and L. D. Trombetta. Pharmaceutical Sciences, St. John's University, Queens, NY.
- #2001 **Poster Board Number638**
Methylmercury Induces Abnormal Vacuolar Morphology through the Dissociation of EGO Complex in Yeast. *G. Hwang, Z. Zhang, and A. Naganuma.* Graduate School of Pharmaceutical Sciences, Tohoku University, Sendai, Japan.
- #2002 **Poster Board Number639**
Activation of IL-6 and IL-8 Expression by Methylmercury through NF-κB in Human U937 Macrophages. *M. Yamamoto¹, M. Muniroh², N. Khan², E. Motomura¹, R. Yanagisawa³, T. Matsuyama⁴, and C. F. Vogel¹.* ¹Department of Basic Medical Science, National Institute for Minamata Disease, Minamata, Japan; ²Graduate School of Medical and Dental Sciences, Kagoshima University, Kagoshima, Japan; ³Center for Environmental Health Sciences, National Institute for Environmental Studies, Tsukuba, Japan; and ⁴Department of Environmental Toxicology, University of California, Davis, CA.
- #2003 **Poster Board Number640**
***In Vitro* Studies to Characterize the Bioaccessibility and Bioavailability of Methylmercury from Seafood.** *M. A. Bradley¹, M. Siedlikowski¹, and N. Basu^{1,2}.* ¹School of Dietetics and Human Nutrition, McGill University, Sainte-Anne-de-Bellevue, QC, Canada; and ²Department of Natural Resource Sciences, McGill University, Sainte-Anne-de-Bellevue, QC, Canada.

Wednesday Morning, March 25

9:00 AM to 12:30 PM

CC Exhibit Hall

Poster Session: Medical Devices: Risk Assessment and Test Methods

Safety Assessment Approaches for Product Development

Chairperson(s): Ron P. Brown, US FDA, Silver Spring, MD; and Lori H. Moilanen, Corporate Toxicology and Regulatory Services, 3M, Saint Paul, MN.

Displayed: 9:00 AM–12:30 PM

Author-Attended: 11:00 AM–12:30 PM

- #2004 **Poster Board Number645**
Conversion Factors to Estimate Oral NOAEL Values from LD50 Values: Implications for Medical Device Toxicology. *N. Young, S. Pollock, and R. P. Brown.* US FDA, Silver Spring, MD.

Program Schedule (Continued)

Abstract #	Abstract #
#2005	Poster Board Number 646 Computational Toxicology Evaluation of DESMA: Challenges in Evaluating a Complex Reaction Product Mixture Used in Dental Devices. B. D. Bagley, C. P. Owens, L. M. Milchak, and L. H. Moilanen. Medical Department, 3M Company, St. Paul, MN.
#2006	Poster Board Number 647 Toxicology-Based Cancer Causation Analysis of CoCr-Containing Hip Implants: A Quantitative Assessment of Genotoxicity and Tumorigenicity Studies. W. V. Christian ¹ , L. D. Oliver ² , M. Kreider ¹ , D. J. Paustenbach ³ , and B. L. Finley ⁴ . ¹ Cardno ChemRisk, Pittsburgh, PA; ² Cardno ChemRisk, Boulder, CO; ³ Cardno ChemRisk, San Francisco, CA; and ⁴ Cardno ChemRisk, Brooklyn, NY.
#2007	Poster Board Number 648 Risk Assessment of Cyclic Siloxanes (D3 to D19) As Extractables from Polymeric Components in Biopharmaceutical Manufacturing. K. L. Li ¹ , D. Dolan ¹ , and L. Nagao ² . ¹ Environment, Health, Safety and Sustainability, Amgen Inc, Thousand Oaks, CA; and ² Drinker Biddle & Reath LLP, Washington, DC.
#2008	Poster Board Number 649 Safety Assessment of a Cadmium-Containing Pigment in a Limited, Mucosal Membrane-Contacting Surface Device. F. K. Hsia, E. E. Reverdy, and R. J. Simas. Global Toxicology and Biocompatibility Services, Boston Scientific, Marlborough, MA.
#2009	Poster Board Number 650 Assessment of the Safety of Coexposure to Dental Device Extractables Using the Maximum Cumulative Ratio Approach. L. H. Moilanen, and B. D. Bagley. Medical Department, 3M Company, St. Paul, MN.
#2010	Poster Board Number 651 An Alternative Method to the Canine NAVI Model to Evaluate the Thrombogenicity of Medical Devices. E. E. Reverdy ¹ , R. R. Tunstall ² , F. K. Hsia ¹ , and E. A. Stejskal ² . ¹ Global Toxicology and Biocompatibility, Boston Scientific Corporation, Marlborough, MA; and ² Preclinical Division, Boston Scientific Corporation, Marlborough, MA.
#2011	Poster Board Number 652 Utilization of Fluoroscopy and Contrast-Assisted Blood Flow Assessment in Evaluating the Acute <i>In Vivo</i> Thrombogenicity of Blood-Contacting Medical Devices. K. Grove, M. Jorgenson, M. Frie, M. E. Smith, and M. Conforti. American Preclinical Services, Minneapolis, MN.
#2012	Poster Board Number 653 Development of a Minimally Heparinized Circulating Ovine Blood-Loop Model for <i>In Vitro</i> Thrombogenicity Testing of Medical Devices. M. E. Smith, S. Deline, S. Howard, and K. Grove. American Preclinical Services, Minneapolis, MN.
#2013	Poster Board Number 654 Minimizing Systemic Toxicity via Catheter-Directed Thrombolytic Drug Delivery in a Porcine Model of Deep Vein Thrombosis. R. Rajoria, S. E. Montgomery, A. Barcenas, D. Gutierrez, and V. Naageshwaran. Medical Device, Absorption Systems, San Diego, CA. Sponsor: R. Bawa.
#2014	Poster Board Number 655 Development of a Standard Test Method and Positive Control Materials for the Platelet Leukocyte Count: An <i>In Vitro</i> Assay for Hemocompatibility Assessment of Blood Contacting Medical Devices. J. Pomonis, M. E. Smith, S. Deline, K. Grove, and S. Howard. American Preclinical Services, Minneapolis, MN.
#2015	Poster Board Number 656 Evaluation of an <i>In Vitro</i> Human Dermal Sensitization Test for Use with Medical Device Extracts. K. P. Coleman ¹ , L. R. McNamara ¹ , T. P. Grailer ¹ , J. A. Willoughby ² , D. Keller ² , and C. Dilworth ³ . ¹ Medtronic, Inc., Minneapolis, MN; ² Cyprotex, US LLC, Kalamazoo, MI; and ³ Cyprotex PLC, Macclesfield, United Kingdom.
#2016	Poster Board Number 657 Extractable Positive Control for <i>In Vitro</i> Skin Irritation Testing of Medical Devices. D. S. Olsen ¹ , M. Lee ¹ , A. Turley ¹ , S. Sasaki ² , K. Yamasaki ² , C. Fukui ³ , Y. Nomura ³ , R. Kato ³ , S. Niimi ³ , T. Yuba ⁴ , K. Sakaguchi ⁵ , and Y. Haishima ³ . ¹ Nelson Laboratories, Inc., Salt Lake City, UT; ² Public Welfare Institute of Scientific Research Foundation, Tokyo, Japan; ³ National Institute of Health Sciences, Tokyo, Japan; ⁴ Kawasumi Laboratories, Inc., Tokyo, Japan; and ⁵ Terumo Corporation, Kanagawa, Japan. Sponsor: K. Coleman.
#2017	Poster Board Number 658 Development, Optimization, and Standardization of an <i>In Vitro</i> Skin Irritation Test for Medical Devices Using the Reconstructed Human Tissue Model EpiDerm. H. Wednesday Morning, March 25,
 9:15 AM to 10:15 AM
 CC Room 24A

Exhibitor-Hosted Session: Application of Molecular Imaging and Radiochemistry in Drug Development

Presented by:
 MPI Research

Contemporary drug development is a lengthy process. Molecular imaging (MI) has become a solution to decrease development time via assessment of specific molecular targets. MI is a multidisciplinary field evaluating biological processes at the molecular and cellular levels *in vivo*. This session focuses on application of molecular imaging drug development.

Wednesday Morning, March 25,
 9:15 AM to 10:15 AM
 CC Room 24C

Exhibitor-Hosted Session: Consequences of Immunogenicity in Nonclinical Safety Studies

Presented by:
 Charles River

In nonclinical safety testing, biotherapeutics have the potential to induce an immune response. This session will cover the effects of immunogenicity responses to biotherapeutics, including the approach taken to determine immunogenicity involvement and the methods for predicting clinical immunogenicity. Nonclinical case studies on adverse immunogenicity events will be presented.

Wednesday Morning, March 25,
 9:15 AM to 10:15 AM
 CC Room 24B

Exhibitor-Hosted Session: Metabolites in Safety Testing—A Novel Key to Turn for Your 3Rs Initiatives

Presented by:
 Covance

The changing pharmaceutical environment is delaying definitive non-clinical and clinical testing to after Phase IIB. Yet increasing regulatory requirements force organizations to look for alternative development plans. Utilizing connections between toxicology and metabolism can help to de-risk programs and help to blaze a path forward.

Wednesday Morning, March 25
 9:30 AM to 4:30 PM
 CC Room 11A

Research Funding Information Room

Hosted by:
 Career Resource and Development Committee

SOT places a strong emphasis on the development of opportunities for research support and funding. As a service to its members and new investigators, SOT offers the Research Funding Information Room so that members and attendees may network and learn more about the various opportunities available to them. Program and review agency staff from federal agencies that fund research, including NIH, US FDA, NIEHS, CDC, and US EPA will be available in the Research Funding Information Room (Room 11A) for individual conversations. Attendees may check the posted schedule for specific times staff members will be available during the week to answer questions about the scientific review process or various grant opportunities. The schedule will be available in the Registration area and the Research Funding Information Room.

Wednesday Morning, March 25
 9:30 AM to 10:30 AM
 CC Room 5B

(Ticket Required; SOT Student and Postdoctoral Members Only, Limited Seating)

Trainee Discussion with Medical Research Council (MRC) Lecturer: Dr. Stockinger

Chairperson(s): Kathryn E. Page, University of California Berkeley, Berkeley, CA.

Lecturer: Brigitta Stockinger, MRC National Institute for Medical Research, London, United Kingdom.

Graduate students and postdoctoral scholars have the special opportunity of meeting for informal discussion with Dr. Stockinger after her Keynote MRC Lecture (see page 269). The limited tickets for this event could be obtained with your Annual Meeting registration.

Wednesday Morning, March 25,
 10:45 AM to 11:45 AM
 CC Room 24C

Exhibitor-Hosted Session: Blending Biocompatibility and Pharmaceutical Testing Processes to Obtain Sub-Acute, Sub-Chronic, and Chronic Toxicity Evaluations of Medical Devices

Presented by:
 Toxikon Corporation

Certain medical devices require systemic toxicity tests. Addressing the requirements of ISO 10993-11 and regulators abroad requires an understanding of the requirements as well as the limitations of the animal models. Utilizing requirements required of pharmaceuticals and adjusting them to the application of ISO 10993-11 provides for a robust study.

Program Schedule (Continued)

Wednesday Morning, March 25,
10:45 AM to 11:45 AM
CC Room 24B

Exhibitor-Hosted Session: H_uREL: “Plug-and-Play” Primary Hepatic Models for a Variety of Definitive Hepatotoxicity Applications

Presented by:
Hürel Corporation

Hürel’s primary hepatic co-cultures maintain hepatic functions over time, making Hürel’s co-culture models ideal for extended *in vitro* hepatotoxicity monitoring. Our symposium will demonstrate Hürel’s co-culture system for a variety of *in vitro* toxicity applications, including high content analysis, “real-time” hepatotoxicity monitoring (ACEA Biosciences), and Hürel’s microfluidic Hürelflow™.

Wednesday Morning, March 25,
10:45 AM to 11:45 AM
CC Room 24A

Exhibitor-Hosted Session: Unraveling the Gordian Knot of Predictive Toxicology: Can Next-Gen Culture Systems Solve the Puzzle?

Presented by:
Organovo

How well do your preclinical models translate to the clinic? Better prediction of human outcomes will require new strategies that accurately model human tissue complexity. Join us for a thought-provoking panel discussion on the opportunities and challenges created in the application of next-gen culture systems to the drug development process.

Wednesday Morning, March 25
11:00 AM to 2:30 PM
Balboa Park, Downtown San Diego

San Diego Regional Science Fair Judging

Chairperson(s): Virunya Bhat, NSF International, San Diego, CA.

Hosted by:
Southern California Regional Chapter

Endorser(s):
Education Committee
K-12 Subcommittee

Meet at the San Diego Convention Center to travel to the nearby Greater San Diego Science and Engineering Fair to assist the Southern California Regional Chapter in their annual tradition of selecting awards for students with outstanding projects related to toxicology.

Abstract #

WEDNESDAY AFTERNOON

Wednesday Afternoon, March 25
12:00 Noon to 1:20 PM
CC Ballroom 6E

Roundtable Session: Should Respiratory Sensitizers Be Listed As Substances of Very High Concern (SVHC) under REACH?

Chairperson(s): Jon A. Hotchkiss, Toxicology and Environmental Research and Consulting, The Dow Chemical Company, Midland, MI; and David Basketter, DABMEB Consultancy Ltd, Sharnbrook, United Kingdom.

Endorser(s):
Immunotoxicology Specialty Section
Inhalation and Respiratory Specialty Section
Regulatory and Safety Evaluation Specialty Section

There is increasing regulatory pressure in Europe to list respiratory sensitizers as substances of very high concern (SVHC) based on “equivalent level of concern” criteria set out in REACH Article 57(f). This approach assumes that in certain cases, the negative impacts caused by sensitizers on the health and quality of life of affected individuals and on society as a whole are comparable to those elicited by carcinogens, mutagens, and reproductive toxicants (CMRs). Potential factors for comparison include seriousness of the effect, delayed onset and/or irreversibility of effects, potency, mode of action, impairment of life quality, or uncertainty about the dose-response relationships. As there are currently no applicable guidelines or generally accepted assays that can accurately identify respiratory sensitizers nor distinguish between respiratory and dermal sensitizers, all materials with sensitizing potential may be considered for inclusion as SVHC. While all respiratory sensitizers may test positive in animal-based dermal sensitization assays, skin sensitizing agents do not elicit respiratory effects under normal circumstances and respiratory sensitizers are generally considered to pose a greater health concern. Current guidance recommends a weight-of-evidence approach based on human and animal data to identify a potential respiratory sensitizer; however, some regulatory authorities may accept any positive indication of sensitizing potential as evidence for inclusion as a SVHC. A SVHC is subject to authorization within the EU and may not be used unless an authorization is granted for their specific use. These proposed regulatory actions will likely have a profound impact on the sale and use of materials due to regulatory authorization and/or deselection of products containing a SVHC. The goal of this roundtable is to promote a free and open discussion of the rationale and scientific basis for handling chemical sensitizers as SVHC under REACH.

Roundtable Session: Will Generally Recognized As Safe (GRAS) Become an Endangered Species?

Safety Assessment Approaches for Product Development

Chairperson(s): Ray A. Matulka, Burdock Group, Orlando, FL; and Emilia Lonardo, Grocery Manufacturers Association, Washington, DC.

Endorser(s):

- Ethical, Legal, and Social Issues Specialty Section
- Food Safety Specialty Section
- Regulatory and Safety Evaluation Specialty Section

The current legislative and regulatory framework provides for self-determination of Generally Recognized As Safe (GRAS) ingredients in food products, with voluntary notification of the GRAS determination to the US FDA. Recent reports by the federal General Accountability Office, the Pew Institute, and the Natural Resources Defense Council have been critical of the Generally Recognized As Safe (GRAS) process for use of food ingredients. Specifically, GRAS has come under fire as not having adequate safeguards in place to protect the public from inadequate safety behind a decision of GRAS, specifically as being susceptible to conflicts of interest and generally, too far outside of regulatory oversight, which might otherwise provide a higher degree of assurance of public safety. More recently, the GRAS status of partially hydrogenated oils (aka trans fats) has been revoked. Does this mark the start of a new era where the US FDA will have more oversight of the GRAS process? Will GRAS notification be required? Would this requirement increase the safety of food ingredients? This roundtable will provide an in-depth look at the history and future of GRAS determinations, where the GRAS process has worked, why the GRAS status of a few ingredients has been revoked, and how the process can be improved. Principles followed in the self-determination and notification processes of GRAS ingredients, safeguards that are in place to ensure the safety of GRAS ingredients, and proposed steps to increase transparency and rigor of the assessments will be discussed.

- #2024 12:00 **Will Generally Recognized As Safe (GRAS) Become an Endangered Species?** A. Mattia², E. Lonardo³, D. B. McColl⁴, and R. A. Informational Session: Risk Communication and Management in the Era of Social Media and the Internet: Serving Society's Needs with Accurate Information

Chairperson(s): Steven J. Hermansky, ConAgra Foods, Omaha, NE; and Suzanne C. Fitzpatrick, Center for Food Safety & Applied Nutrition, US Food and Drug Administration, College Park, MD.

Endorser(s):

- Food Safety Specialty Section
- Regulatory and Safety Evaluation Specialty Section
- Risk Assessment Specialty Section

Ample evidence exists that the source of chemical safety information for people today has shifted, at least in part, from traditional sources of textbooks, academia, and government authorities to bloggers, websites, and email. This has multiple implications for society as well as our science. Adapting to this new world of communication is critical. Unfortunately, communicating and engaging with the lay public is not addressed as part of graduate training, and, therefore, even accomplished toxicologists who are effective scientific communicators find themselves underprepared. The good news is that tools and guidance to help communicate in this new world are rapidly evolving. Expanding the use of these tools and developing new methods requires effort by the risk assessment and risk communication communities. This begins by understanding the tools, learning the methods, and, occasionally, taking a risk by trying out these new communication techniques. Sharing experiences cross functionally will enable communication across the risk management community. Four individuals with varying risk management roles across society come together in this informational session to share their experience and insight into the new world of risk communication. A discussion panel will follow the completion of the formal presentations.

- #2025 12:00 **Risk Communication and Management in the Era of Social Media and the Internet: Serving Society's Needs with Accurate Information.** S. J. Hermansky¹, S. C. Fitzpatrick², R. Canady³, and U. Rangan⁴. ¹ConAgra Foods, Omaha, NE; ²US FDA, Washington, DC; ³International Life Sciences Institute, Washington, DC; and ⁴Consumer Reports, Yonkers, NY.

Education-Career Development Session: What Toxicologist Do You Wanna Be? The Role of Toxicologists across Diverse Organizations

Chairperson(s): Sudheer Beedanagari, Bristol-Myers Squibb, East Brunswick, NJ; and Erica D. Bruce, Baylor University, Waco, TX.

Endorser(s):

Association of Scientists of Indian Origin Special Interest Group
Career Resource and Development Committee
Graduate Student Leadership Committee

Participants across SOT, namely students and postdocs, who are geared up to transition into their full-time career paths of choice as toxicologists do not have a good understanding of what toxicologists do on a day-to-day basis while working in diverse industries/organizations. Although academic toxicology training programs across the globe are training the students well in the principles and concepts of toxicology, they come short in educating the students/postdocs on the role they play as toxicologists in real-world job scenarios across diverse industries/organizations. Based on these needs and to better equip our young toxicologists, an informational session/education-career development session that highlights or summarizes the different roles toxicologists play in the real-world job settings would be of immense value to students/postdocs in evaluating whether their training/personality suits them better in a specific industry/organization over the others. Although it is impossible to cover all the organizations where toxicologists play an important role in one CRAD/informational session, we attempted to represent the major organizations where toxicologists are hired predominantly in the recent years. Each of the five speakers will be covering the following general topics as part of their 15-minute presentations: (1) How and why the speaker ended up with their respective current affiliated organizations; (2) How they went about securing their first job; (3) The kinds of training/soft skills/interpersonal skills needed to find a job in their respective organizations; (4) The kind of career-growth opportunities an entry-level toxicologist will have with the organization or respective industry; (5) The ONE thing the speaker most likes about their job; (6) The ONE thing the speaker most hates about their job.

- #2026 12:00 **What Toxicologist Do You Wanna Be? The Role of Toxicologists across Diverse Organizations.** S. Beedanagari¹, B. Mahadevan², T. A. Re³, R. Mangipudy⁴, C. Ghosh⁴, and E. D. Bruce². ¹Bristol-Myers Squibb, New Brunswick, NJ; ²Baylor University, Waco, TX; ³L'Oreal, Clark, NJ; ⁴US FDA, Silver Spring, MD; and ⁵Abbott Nutrition, Columbus, OH.
- 12:00 **The Role of Toxicologists in the Pharmaceutical/Biotechnology Industry.** R. Mangipudy. Bristol-Myers Squibb Company, New Brunswick, NJ.
- 12:16 **The Role of Toxicologists in an Academic and/or Research Institute.** E. D. Bruce. Baylor University, Waco, TX.
- 12:32 **The Role of Toxicologists in the Cosmetic Industry.** T. A. Re. L'Oreal USA, Clark, NJ.
- 12:48 **The Role of Toxicologists in a Federal Organization.** C. Ghosh. US FDA, Silver Spring, MD.
- 1:04 **The Role of Toxicologists in the Nutrition Industry.** B. Mahadevan. Abbott Nutrition, Columbus, OH.

Wednesday Afternoon, March 25
12:00 Noon to 1:30 PM
CC

See room listing below.

Specialty Section Meeting/Luncheons: Ethical, Legal, and Social Issues (31A); *In Vitro* and Alternative Methods (28A)

Wednesday Afternoon, March 25,
12:15 PM to 1:15 PM
CC Room 24C

Exhibitor-Hosted Session: Advances in *In Vitro* and *In Silico* Techniques: Regulatory Acceptance Worldwide

Presented by:

Huntingdon Life Sciences/Harlan Laboratories

Advances in *in vitro* and *in silico* estimation of toxicological endpoints have challenged traditional approaches to safety assessment. The acceptability of these new methodologies has been acknowledged by regulatory authorities worldwide. We discuss our experiences in using these techniques to achieve regulatory success in a range of product types.

Wednesday Afternoon, March 25,
12:15 PM to 1:15 PM
CC Room 24A

Exhibitor-Hosted Session: Kidney Toxicity Biomarker Analysis Tips from the Experts: Why Just Multiplex When You Can MILLIPLEX?

Presented by:

EMD Millipore

In collaboration with Pfizer, EMD Millipore's assay developers designed a bead-based multiplex assay to simultaneously measure multiple PSTC-qualified kidney injury biomarkers in dog urine. Join us to participate in an interactive demonstration of MILLIPLEX® MAP Canine Kidney Toxicity assays to simultaneously detect low-level biomarkers using the Luminex MAGPIX® instrument.

Distinguished Toxicology Scholar Award Lecture: Allergic Sensitization: Defining Molecular Mechanisms and Characterizing Hazard and Risk

Lecturer: Ian Kimber, University of Manchester, Manchester, Cheshire, United Kingdom.

Allergic sensitization and allergic disease induced by both chemical and proteins is an important health issue, and has posed—and continues to pose—toxicologists with some intriguing challenges. The most common form of chemical allergy, and the most common manifestation of immunotoxicity in humans, is allergic contact dermatitis resulting from skin sensitization. There has been considerable progress in defining the cellular and molecular mechanisms that drive the acquisition of skin sensitization, and this has translated into the development of new paradigms for hazard identification and characterization. Nevertheless, important challenges remain, not least of which is addressing the objective of defining alternative approaches to safety assessment that obviate the need for experimental animals.

Other forms of allergy, and specifically allergic sensitization of the respiratory tract to chemicals resulting in occupational asthma, and sensitization induced by effect proteins and food proteins associated with local or systemic allergic reactions, have continued to test the ingenuity of toxicologists. In both cases there remains a need to unravel the events and processes that lead to the development of sensitization, and to exploit an understanding of the relevant molecular mechanisms to inform the design of workable methods for improved hazard identification and risk assessment.

Progress in these areas will be discussed, highlighting some achievements and considering the hurdles that still have to be negotiated.

Wednesday Afternoon, March 25

1:00 PM to 4:30 PM
CC Exhibit Hall

Poster Session: RNA-Based Biomarkers

Epigenomic Influences in Toxicological Responses

Chairperson(s): Jamie Mirowsky, University of North Carolina at Chapel Hill, Chapel Hill, NC.

Displayed: 1:00 PM–4:30 PM

Author-Attended: 1:00 PM–2:45 PM

Jain^{1,2}, K. Mulam^{1,2}, N. Roomi¹, and M. Roomi¹. ¹Dr. Rath Research Institute, Santa Clara, CA; and ²The Harker School, San Jose, CA.
- #2047 **Poster Board Number 123**
Encapsulation of Raloxifene in Styrene Co-Maleic Acid Micelles Suppresses the Growth of Castrate Resistant Prostate Cancer In Vivo. T. Pritchard, S. Taurin, K. Greish, and R. J. Rosengren. Pharmacology & Toxicology, University of Otago, Dunedin, New Zealand.
- #2048 **Poster Board Number 124**
Encapsulation of Raloxifene in a Nanocarrier Increases the Drug's Cytotoxicity toward Triple-Negative Breast Cancer Cells. S. Taurin, T. Pritchard, H. Nehoff, K. Greish, and R. J. Rosengren. Pharmacology & Toxicology, University of Otago, Dunedin, New Zealand.
- #2049 **Poster Board Number 125**
Investigating the Effects of the Dietary Carcinogens Benzo(a)pyrene and PhIP in LNCaP Prostate Cancer Cells. O. Graham, R. David, and N. J. Gooderham. Surgery and Cancer, Imperial College London, London, United Kingdom.
- #2050 **Poster Board Number 126**
Diindolylmethane and Its Halogenated Derivatives Induce ER Stress and Autophagy in Human Prostate Cancer Cells. H. Draz¹, A. Goldberg¹, S. H. Safe², and T. Sanderson¹. ¹INRS Institut Armand Frappier, Laval, QC, Canada; and ²Texas A&M University, College Station, TX.

Program Schedule (Continued)

Abstract #	Abstract #
#2051	#2059
Poster Board Number 127 Antiproliferative and Antioxidant Activities of Fruit Methanol Extract from <i>Xylopia aethiopica</i> on Prostate Cancer Cells. O. A. Adaramoye ^{1,2} , B. Erguen ² , B. Nitzsche ³ , M. Höpfner ³ , S. E. Owumi ¹ , K. Jung ² , and A. Rabien ² . ¹ Biochemistry, University of Ibadan, Ibadan, Nigeria; ² Urology, University Hospital Charite, Berlin, Germany; and ³ Institut für Physiologie, Charité-Universitätsmedizin, Berlin, Germany.	Poster Board Number 135 Impact of Long-Term Cigarette and Shisha (Water Pipe) Smoking on the Expression of Oxidative Stress and DNA Repair Genes in Healthy Subjects. M. N. Al-Arifi ² , Z. H. Maayah ¹ , I. M. Attafi ¹ , and H. M. Korashy ¹ . ¹ Department of Pharmacology & Toxicology, King Saud University, Riyadh, Saudi Arabia; and ² Department of Clinical Pharmacy, King Saud University, Riyadh, Saudi Arabia. Sponsor: A. El-Kadi.
#2052	#2060
Poster Board Number 128 Apocynin, an NADPH Oxidase Inhibitor, Suppresses Rat Prostate Carcinogenesis. S. Suzuki ^{1,2} , S. Sato ¹ , A. Naiki-Ito ¹ , H. Kato ¹ , T. Kuno ¹ , and S. Takahashi ¹ . ¹ Experimental Pathology and Tumor Biology, Nagoya City University Graduate School of Medical Sciences, Nagoya, Japan; and ² Pathology Division, Nagoya City East Medical Center, Nagoya, Japan.	Poster Board Number 136 Exposure to Low-Dose Cadmium Enhances FL83B Cells Proliferation through Down-Regulation of Caspase-8 by DNA Hypermethylation. J. L. Gu. Pediatrics, University of Louisville, Louisville, KY.
#2053	#2061
Poster Board Number 129 Penfluridol, an Antipsychotic Drug: A Treatment Option for Pancreatic Cancer. A. Ranjan, and S. K. Srivastava. Texas Tech University Health Science Center, Amarillo, TX.	Poster Board Number 137 Penfluridol, an Antipsychotic Drug-Mediated Suppression of Triple-Negative Breast Cancer Metastasis to Brain through Inhibition of Integrinα6β4. A. Ranjan, P. Gupta, and S. K. Srivastava. Texas Tech University Health Science Center, Amarillo, TX.
#2054	#2062
Poster Board Number 130 Chronic Oxidative Stress Induces Malignant Transformation of Human Kidney Epithelial Cells with Acquisition of Stem Cell Characteristics and EMT. P. S. Mahalingaiah, L. Ponnusamy, and K. P. Singh. The Institute of Environmental and Human Health (TIEHH), Texas Tech University, Lubbock, TX.	Poster Board Number 138 Effects of Crocetin and Safranal, Constituents of Saffron, Using <i>In Vitro</i> and <i>In Vivo</i> Models of Human Prostate Cancer. F. F. Albaqami ¹ , M. A. Ibrahim ² , I. Muhammad ² , and K. L. Willett ¹ . ¹ BioMolecular Sciences, Division of Environmental Toxicology and Research Program, University of Mississippi, University, MS; and ² The National Center for Natural Products Research, University of Mississippi, University, MS.
#2055	#2063
Poster Board Number 131 Exploration of Type I Interferon As a Novel Therapeutic Agent for Alveolar Rhabdomyosarcoma. K. M. Nieves, I. Henrich, R. Young, L. Quick, K. Bledsoe, and M. Chou. University of Pennsylvania, Philadelphia, PA.	Poster Board Number 139 Modulating Growth Signaling Pathways in Prostate Cancer: Improving Diagnostics via 2+2 Fixation and Pentoxifylline As an Adjunct Therapy. R. D. Canatsey ¹ , G. Le ¹ , N. Mastrandrea ¹ , D. Chafin ² , R. Nagle ³ , T. Monks ¹ , and S. S. Lau ¹ . ¹ Southwest Environmental Health Sciences Center, Dept. of Pharmacology and Toxicology, Univ. of Arizona, Tucson, AZ; ² Ventana Medical Systems, Inc., Tucson, AZ; and ³ College of Med., Univ. of Arizona, Tucson, AZ.
#2056	#2064
Poster Board Number 132 Diet Supplementation with Soy, but Not the Isoflavone Genistein, Protects against Alcohol-Induced Tumor Progression in DEN-Treated Male Mice. K. E. Mercer ^{1,3} , C. F. Pulliam ³ , L. Hennings ¹ , K. Lai ¹ , M. Cleves ^{1,3} , E. E. Jones ² , R. R. Drake ² , and M. J. Ronis ^{1,3} . ¹ Pediatrics, UAMS, Little Rock, AR; ² Proteomic Center, Medical University, Charleston, SC; and ³ Arkansas Children's Nutrition Center, Little Rock, AR.	Poster Board Number 140 Novel Phosphodiesterase 10 Inhibitor with Antitumor Activity in an Orthotopic Mouse Model of Lung Cancer. V. Ramirez-Alcantara ¹ , M. Schuler ² , B. Zhu ¹ , N. Li ³ , E. Gurpinar ³ , J. Canzoneri ¹ , A. Keeton ¹ , B. Gary ¹ , S. Russo ¹ , L. Coward ⁴ , G. Gorman ⁴ , W. Grizzle ³ , X. Chen ¹ , and G. Piazza ¹ . ¹ Drug Discovery Research Center, University of South Alabama Mitchell Cancer Institute, Mobile, AL; ² Department of Comparative Medicine, University of South Alabama, Mobile, AL; ³ Department of Pathology, University of Alabama at Birmingham, Birmingham, AL; and ⁴ McWhorter School of Pharmacy, Samford University, Pharmaceutical Sciences Research Institute, Birmingham, AL.
#2057	#2065
Poster Board Number 133 Sunitinib Induces Growth Inhibition, Cell Cycle Arrest, Apoptosis, and Oxidative Stress in Human Breast Cancer MCF7 Cells. H. M. Korashy ¹ , M. A. Ansari ¹ , Z. H. Maayah ¹ , S. A. Ahmad ¹ , M. A. Assiri ¹ , and A. Al-Shamasan ² . ¹ Department of Pharmacology & Toxicology, King Saud University, Riyadh, Saudi Arabia; and ² Department of Pharmaceutics, King Saud University, Riyadh, Saudi Arabia. Sponsor: A. El-Kadi.	Poster Board Number 141 Evidence on the Carcinogenicity of N-Nitrosomethyl-n-alkylamines. K. E. Ricker, K. Li, G. Osborne, M. Sun, R. Cendak, R. Tomar, M. S. Sandy, and L. Zeise. OEHHHA, Cal/EPA, Oakland, CA.
#2058	
Poster Board Number 134 Diindolylmethane Analogs Are NR4A2 Antagonists in Colon Cancer Cells. X. Li ¹ , and S. H. Safe ^{1,2} . ¹ Veterinary Physiology & Pharmacology, Texas A&M University, College Station, TX; and ² Institute of Biosciences & Technology, Texas A&M University Health Science Center, Houston, TX.	

Program Schedule (Continued)

Abstract #

Wednesday Afternoon, March 25
1:00 PM to 4:30 PM
CC Exhibit Hall

Poster Session: Chemical and Biological Weapons

Chairperson(s): Ernest H. Braue, *Analytical Toxicology, USAMRICD, Whiteford, MD.*

Displayed: 1:00 PM–4:30 PM

Author-Attended: 1:00 PM–2:45 PM

Abstract #

- #2066 **Poster Board Number 145**
Thioredoxin Cross-Linking by the Sulfur Mustard Analog Mechlorethamine (Methylbis(2-chloroethyl)amine) in Lung Epithelial Cells. Y. Jan¹, D. E. Heck², R. P. Casillas³, D. L. Laskin⁴, and J. D. Laskin¹. ¹Environmental & Occupational Medicine, Rutgers Robert Wood Johnson Medical School, Piscataway, NJ; ²Environmental Health Science, New York Medical College, Valhalla, NY; ³MRI Global, Kansas City, MO; and ⁴Pharmacology & Toxicology, Rutgers University, Piscataway, NJ.
- #2067 **Poster Board Number 146**
Inhibition of Efflux Transporters Suppresses Nrf2-Mediated Protection of Mouse Keratinocytes from Vesicant-Induced Growth Inhibition. R. G. Udasin^{1,2}, K. M. Bircsak^{1,2}, L. M. Aleksunes^{1,2}, M. P. Shkarjian³, V. Mishin², D. E. Heck³, D. L. Laskin^{1,2}, and J. D. Laskin^{1,4}. ¹Joint Graduate Program in Toxicology, Rutgers University, Piscataway, NJ; ²Pharmacology & Toxicology, Rutgers University, Piscataway, NJ; ³Environmental Health Science, New York Medical College, Valhalla, NY; and ⁴Environmental & Occupational Medicine, Rutgers University Robert Wood Johnson Medical School, Piscataway, NJ.
- #2068 **Poster Board Number 147**
Assessment of Oxime Therapies Against Percutaneous Pesticide and Nerve Agent Challenges in the Hartley Guinea Pig. T. H. Snider¹, C. Wilhelm¹, M. C. Babin¹, D. Jett², G. Platoff³, and D. T. Yeung². ¹Biomedical Research Center, Battelle, Columbus, OH; ²National Institute of Neurological Disorders and Stroke, National Institutes of Health, Bethesda, MD; and ³National Institute of Allergy and Infectious Diseases, National Institutes of Health, Bethesda, MD.
- #2069 **Poster Board Number 148**
Brain Lesions Detected by 7T Magnetic Resonance Imaging (MRI) Are Highly Correlated with Histological Indices of Neuronal Necrosis in a Rat Model of Acute Organophosphate Intoxication. B. A. Hobson¹, S. Siso², D. Rowland³, D. Bruun¹, D. Tancredi⁴, S. Cherry³, J. Garbow⁵, and P. Lein¹. ¹Molecular Biosciences, University of California Davis, Davis, CA; ²Pathology, Microbiology & Immunology, University of California Davis, Davis, CA; ³Center for Molecular and Genomic Imaging, University of California Davis, Davis, CA; ⁴Pediatrics, University of California Davis, Davis, CA; and ⁵Radiology, Washington University, St. Louis, MO.

#2070

Poster Board Number 149
In Vivo Efficacy of Novel Oxime Acetylcholinesterase Reactivators Is Not Completely Explained by P-glycoprotein Affinity. M. Dail¹, E. C. Meek¹, H. W. Chambers², and J. E. Chambers¹. ¹Center for Environmental Health Sciences, College of Veterinary Medicine, Mississippi State University, Mississippi State, MS; and ²Biochemistry, Molecular Biology, Entomology, and Plant Pathology, Mississippi State University, Mississippi State, MS.

#2071

Poster Board Number 150
Novel Nucleophiles As Enhancers of Detoxication of Nerve Agent Surrogates by Serum Paraoxonase 1 (PON1). E. C. Meek¹, R. Pringle¹, H. W. Chambers^{2,1}, and J. E. Chambers¹. ¹Center for Environmental Health Sciences, College of Veterinary Medicine, Mississippi State University, Mississippi State, MS; and ²Biochemistry, Molecular Biology, Entomology, and Plant Pathology, Mississippi State University, Mississippi State, MS.

#2072

Poster Board Number 151
Novel Pyridinium Oxime Reactivators of Organophosphate-Inhibited Acetylcholinesterase Afford Neural Protection in the Central Nervous System. R. Pringle¹, E. C. Meek¹, H. W. Chambers², and J. E. Chambers¹. ¹CEHS, College of Veterinary Medicine, Mississippi State University, Mississippi State, MS; and ²CEHS, Department of Biochemistry, Molecular Biology, Entomology and Plant Pathology, Mississippi State University, Mississippi State, MS.

#2073

Poster Board Number 152
Mechanisms Related to Efficacy of AEOL 10150 in Reversing Skin Toxicity from Topical Nitrogen Mustard Exposure. A. K. Jain¹, N. Tewari-Singh¹, D. Kumar¹, R. Kant¹, D. G. Goswami¹, C. Agarwal¹, D. Orlicky², C. White³, B. J. Day⁴, and R. Agarwal¹. ¹Skaggs School of Pharmacy and Pharmaceutical Sciences, University of Colorado Denver, Aurora, CO; ²Pathology, University of Colorado Denver, Aurora, CO; ³Pediatrics, University of Colorado Denver, Aurora, CO; and ⁴Medicine, National Jewish Health, Denver, CO.

#2074

Poster Board Number 153
Lewisite Exposure Causes Histopathological Changes Related to Inflammation, Cell Death, and Neovascularization in the Rabbit Ocular Model. D. G. Goswami¹, N. Tewari-Singh¹, R. Kant¹, A. Nagvekar¹, C. Agarwal¹, C. R. Croutch², R. P. Casillas², D. A. Ammar³, J. Petrash³, and R. Agarwal¹. ¹Department of Pharmaceutical Sciences, University of Colorado Denver, Aurora, CO; ²MRI Global, Kansas, MO; and ³Department of Ophthalmology, University of Colorado Denver, Aurora, CO.

#2075

Poster Board Number 154
Stability of Chloroethyl Ethyl Sulfide (CEES) and Mechlorethamine Hydrochloride (HN2) in DMSO, DMSO/Water Mixtures, and Complete Media. B. C. Gismervik, Z. D. Wells, T. V. Withers, T. E. Zaccano, and J. P. Gray. Science, US Coast Guard Academy, New London, CT.

Program Schedule (Continued)

Abstract #	Abstract #
#2076	#2084
Poster Board Number 155 Potential Therapeutic Targets of Silibinin in Attenuating Nitrogen Mustard-Induced Skin Injury. <i>D. Kumar¹, N. Tewari-Singh¹, A. K. Jain¹, R. Kant¹, D. G. Goswami¹, C. Agarwal¹, D. Orlicky², C. White³, and R. Agarwal¹. ¹Pharmaceutical Sciences, University of Colorado Anschutz Medical Campus, Aurora, CO; ²Pathology, University of Colorado Anschutz Medical Campus, Aurora, CO; and ³Pediatrics, University of Colorado Anschutz Medical Campus, Aurora, CO.</i>	Poster Board Number 163 Guinea Pig Cortex Proteome Pathway Analysis after Atropine and Pralidoxime Use Can Counteract Effects to Acute Sarin Exposure. <i>M. L. Meade^{1,2}, A. Hoffmann^{1,2}, M. K. Makley^{1,2}, J. J. Schlager², T. H. Snider³, and J. M. Gearhart^{1,2}.</i> ¹ Henry M Jackson Foundation, Wright-Patterson Air Force Base, OH; ² Molecular Bioeffects Branch, Bioeffects Division, 711th Human Performance Wing, Air Force Research Laboratory, USAF, Wright-Patterson Air Force Base, OH; and ³ Battelle Biomedical Research Center, West Jefferson, OH.
#2077	#2085
Poster Board Number 156 Connexin 43 Antisense Therapy Using a Nitrogen Mustard Hairless Mouse Skin Model. <i>Y. Chang¹, H. Chang¹, R. A. Hahn¹, E. E. Lee¹, R. P. Casillas², M. K. Gordon¹, and D. R. Gerecke¹.</i> ¹ Dept of Pharm and Tox, Rutgers University, Piscataway, NJ; and ² MRIGlobal, Kansas City, MO.	Poster Board Number 164 Inflammatory Cell Accumulation in Mouse Skin following Exposure to Sulfur Mustard. <i>L. B. Joseph¹, G. M. Composto¹, S. Kim¹, C. R. Crouch², R. P. Casillas², D. R. Gerecke¹, P. J. Sinko¹, D. L. Laskin¹, J. D. Laskin³, and D. E. Heck⁴.</i> ¹ Rutgers Univ, Piscataway, NJ; ² MRIGlobal, Kansas City, MO; ³ Rutgers Univ-RW Johnson Med School, Piscataway, NJ; and ⁴ New York Medical College, Valhalla, NY.
#2078	#2086
Poster Board Number 157 ROS-Mediated Induction of UPR Signaling Underlies Pathogenesis of Lewisite-Induced Skin Lesions. <i>C. Li, R. K. Srivastava, Z. Weng, S. C. Chaudhary, F. Afaq, and M. Athar.</i> University of Alabama at Birmingham, Birmingham, AL.	Poster Board Number 165 Attenuation of Nitrogen Mustard (NM)-Induced Pulmonary Injury, Inflammation, and Fibrosis by Anti-Tumor Necrosis Factor (TNF) Alpha Antibody. <i>R. Malaviya¹, A. Venosa¹, V. R. Sunil¹, K. Vayas¹, L. Hall², J. D. Laskin¹, and D. Laskin¹.</i> ¹ Pharmacology and Toxicology, Rutgers University, Piscataway, NJ; and ² Janssen Research and Development, Spring House, PA.
#2079	#2087
Poster Board Number 158 Efficacy and Pharmacokinetic Studies of New Potential Cyanide Countermeasures in a Mouse Model. <i>I. Petrikovics¹, D. E. Thompson¹, S. A. Lee¹, C. Chou¹, D. De Silva¹, E. A. Stephens¹, J. T. Ross¹, B. Logue², G. R. Boss³, and G. A. Rockwood⁴.</i> ¹ Chemistry, Sam Houston State University, Huntsville, TX; ² Chemistry, South Dakota State University, Brookings, SD; ³ Medicine, University of California at San Diego, Huntsville, CA; and ⁴ US Army Medical Research Institute of Chemical Defense, Aberdeen Proving Ground, MD.	Poster Board Number 166 Confocal Raman Microspectroscopy: The Measurement of VX Depth Profiles in Hairless Guinea Pig Skin and the Evaluation of RSDL. <i>E. H. Braue, B. F. Doxzon, H. L. Lumpkin, J. D. Boecker, R. E. Sweeney, and J. I. Azeke.</i> Analytical Toxicology, USAMRICD, Aberdeen Proving Ground, MD.
#2080	#2088
Poster Board Number 159 Hazard Assessment of VX Contaminated Remains. <i>J. Harvilchuck¹, P. DeArmond¹, L. Wanamaker¹, J. Majocha¹, T. Homan¹, and A. E. Director-Myska².</i> ¹ Battelle, Columbus, OH; and ² Defense Threat Reduction Agency, Fort Belvoir, VA.	Poster Board Number 167 Evaluation of the Catalytic Antioxidant AEOL10150 As a Medical Countermeasure Against Lethal Sulfur Mustard Inhalation. <i>C. McElroy^{1,2}, E. Min², J. Huang², J. Loader¹, T. Hendry-Hofer¹, R. Garlick¹, J. Rioux¹, L. Veress¹, R. Smith¹, C. Osborne¹, D. Anderson³, W. Holmes³, D. Paradiso³, C. White¹, and B. J. Day^{1,2}.</i> ¹ University of Colorado, Aurora, CO; ² Medicine, National Jewish Health, Denver, CO; and ³ USAMRICD, Aberdeen, MD.
#2081	#2089
Poster Board Number 160 Improved Methodology of Determination of Protein Adducts of Nerve Agents in Blood Plasma. <i>N. Koryagina, E. Savelieva, V. Babakov, Y. Dubrovskiy, G. V. Karakashev, E. Murashko, E. S. Ukolova, V. Kopeykin, V. Koneva, N. S. Khlebnikova, and A. S. Radilov.</i> Department of International Projects, Research Institute of Hygiene, Occupational Pathology and Human Ecology, St. Petersburg, Russian Federation. Sponsor: <i>K. Khamidulina.</i>	Poster Board Number 168 Lethal Oral Cyanide Poisoning Reversed by Intramuscular Cobinamide in a Rabbit Model. <i>Y. David¹, S. Mahon¹, J. Lee¹, T. Burney¹, I. Petrikovics², A. Chan³, G. R. Boss³, and M. Brenner¹.</i> ¹ Beckman Laser Institute, University of California, Irvine, Irvine, CA; ² Chemistry, Sam Houston State University, Huntsville, TX; and ³ Medicine, University of California, San Diego, La Jolla, CA.
#2082	
Poster Board Number 161 Clinical Manifestations of Soman (GD) Poisoning following Dermal Exposure in the Large White Pig. <i>C. Dalton¹, J. Jenner¹, J. K. Chipman², and R. P. Chilcott³.</i> ¹ Biomedical Sciences, Dstl, Salisbury, United Kingdom; ² School of Biosciences, University of Birmingham, Birmingham, United Kingdom; and ³ Department of Pharmacy, University of Hertfordshire, Hatfield, United Kingdom.	
#2083	
Poster Board Number 162 Reversing Acute Cyanide Lethality by Intranasal Delivery of Stabilized Isoamyl Nitrite. <i>N. Cantu, G. E. Gutierrez, L. Cabell, A. P. Clark, and J. McDonough.</i> Microencapsulation and Nanomaterials, Southwest Research Institute, San Antonio, TX. Sponsor: <i>J. Blank.</i>	

Program Schedule (Continued)

Abstract #

#2090 **Poster Board Number 169**
Phosphoproteomic Analysis Reveals Compensatory Effects in the Piriform Cortex of VX Nerve Agent-Exposed Rats. J. W. Sekowski¹, R. Nirujogi^{2,3}, J. D. Wright¹, J. Meyerhoff⁴, K. Willis^{1,5}, B. Benton¹, R. E. Jabbour¹, A. Pandey^{2,3}, S. Manda², J. Zhong², C. Na², and M. Kim². ¹Biosciences Division, US Army ECBC, Gunpowder, MD; ²Department of Neuroscience, JHU School of Medicine, Baltimore, MD; ³Departments of Biological Chemistry, Pathology and Oncology, JHU School of Medicine, Baltimore, MD; ⁴Oak Ridge Institute for Science and Engineering, Oak Ridge, TN; and ⁵Defense Threat Reduction Agency, Ft Belvoir, VA. Sponsor: *H. Salem.*

Wednesday Afternoon, March 25
1:00 PM to 4:30 PM
CC Exhibit Hall

Poster Session: Disposition and Pharmacokinetics: Drugs, Chemicals, and Transporters

Chairperson(s): Timothy Fennell, RTI International, Research Triangle Park, NC; and Abdel M. Kadry, Office of Research and Development, National Center for Environmental Assessment, US EPA, Washington, DC.

Displayed: 1:00 PM–4:30 PM

Author-Attended: 2:45 PM–4:30 PM

#2091 **Poster Board Number 201**
In Silico Modeling to Assess Impact of Different Dissolution Profiles in Doxycycline Tablets (Ronaxan®) and the Justification for a Bioequivalence Study. J. A. Yanez, J. Fischer, L. Letendre, and J. M. Gerhart. Drug Safety and Disposition (DS&D)/Pharmacokinetics and Drug Metabolism (PKDM), Meril, a Sanofi Company, North Brunswick, NJ.

#2092 **Poster Board Number 202**
Pharmacokinetics of 7-O-Succinyl Macrolactin A in Mice, Rats, and Dogs. W. Kang², K. Noh¹, K. Jeong¹, M. R. Nepal¹, D. Kim³, E. Kim³, S. Song², J. Ryu², H. Lee², and T. Jeong^{1,2}. ¹College of Pharmacy, Yeungnam University, Gyeongsan; ²College of Pharmacy, Chung-Ang University, Seoul, Republic of Korea; and ³R&D Center, Daewoo Pharm. Co., Busan, Republic of Korea.

#2093 **Poster Board Number 203**
Pharmacokinetics and Pharmacodynamics of Capecitabine in Preclinical Mouse Model of Brain Metastases of Breast Cancer. R. Balyan, H. R. Thorsheim, R. Samala, and Q. R. Smith. Texas Tech University Health Science Center, Amarillo, TX.

#2094 **Poster Board Number 204**
Pharmacokinetics of Metformin and R,S-Verapamil in Four Lineages of Miniswine. A. Stricker-Krongrad¹, N. Patel², S. Renna¹, H. Huang², N. Yumibe², K. Ruterbories², J. Tan², D. White¹, C. Horton¹, J. Liu¹, and G. Bouchard¹. ¹Sinclair Research, Auxvasse, MO; and ²Eli Lilly and Company, Indianapolis, IN.

#2095 **Poster Board Number 205**
Biological Fate of the Emerging Brominated Flame Retardant, Decabromodiphenyl Ethane, in Female Sprague-Dawley Rats. E. P. Hull, G. A. Knudsen, J. M. Sanders, and L. S. Birnbaum. NCI/ NIEHS, Research Triangle Park, NC.

Abstract #

#2096 **Poster Board Number 206**
Dose-Dependent Disposition of ¹⁴C-Decamethylcyclopentasiloxane (D₅) following Oral Gavage to Fischer 344 Rats. J. Y. Domoradzki¹, J. Sushynski¹, M. Jovanovic¹, D. McNett¹, and C. Van Landingham². ¹Dow Corning Corporation, Auburn, MI; and ²ENVIRON International Corp., Monroe, LA.

#2097 **Poster Board Number 207**
Pharmacokinetic Comparison of 2 Titanium Dioxide (1 Pigment & 1 Nanostructured) Materials Demonstrate Absence of Systemic Exposure in Orally Exposed Rats. M. W. Himmelstein¹, J. B. Ramsey², R. J. Boatman³, and D. B. Warheit⁴. ¹DuPont Haskell, Newark, DE; ²DuPont Corporate Center for Analytical Sciences, Wilmington, DE; ³Boatman Toxicology Consultant LLC, Rochester, NY; and ⁴DuPont Haskell, Newark, DE.

#2098 **Poster Board Number 208**
Administration and Elimination of Perfluorobutanesulfonamide (FBSA) in Sprague-Dawley Rats. J. A. Hart¹, A. Eveland², D. J. Ehresman¹, J. Bonk¹, K. Andres¹, J. L. Butenhoff¹, and S. Chang¹. ¹Medical Department, 3M, Saint Paul, MN; and ²Pace Analytical, Minneapolis, MN.

#2099 **Poster Board Number 209**
An Approach for Investigating the Toxicity of 2,2'-Dimorpholinodiethyl Ether (DMDEE) in Mice and Rats. G. K. Hinkley¹, J. D. McDonald², M. Doyle-Eisele², M. DeVito¹, P. M. Foster¹, and S. Waidyanatha¹. ¹Division of the National Toxicology Program, National Institutes of Environmental Health Sciences, Research Triangle Park, NC; and ²Lovelace Respiratory Research Institute, Albuquerque, NM.

#2100 **Poster Board Number 210**
The Disposition of 2-Ethylhexyl Tetrabromobenzoate (TBB) in Female Sprague-Dawley Rats after Administration of Single or Repeated Doses by Gavage. J. M. Sanders, G. A. Knudsen, and L. S. Birnbaum. NCI, Research Triangle Park, NC.

#2101 **Poster Board Number 211**
Interspecies Pharmacokinetics for Atrazine and Its Chlorotriazine Metabolites. P. M. Hinderliter¹, J. Campbell², M. E. Andersen², H. J. Clewell², K. D. Yi¹, T. Pastoor¹, and C. B. Breckenridge¹. ¹Toxicology & Health Sciences, Syngenta, Greensboro, NC; and ²Center for Human Health Assessment, The Hamner Institutes for Health Sciences, Research Triangle Park, NC.

#2102 **Poster Board Number 212**
Using Toxicokinetic Data to Set Dose Levels for Regulatory Testing. S. Papineni¹, A. T. McCoy², L. A. Murphy², R. Billington¹, and R. J. Rasoulpour¹. ¹Dow AgroSciences LLC, Indianapolis, IN; and ²The Dow Chemical Company, Midland, MI.

#2103 **Poster Board Number 213**
Relative Oral Bioavailability of Radiolabeled Benzo(a)pyrene from Constructed Soils: Effect of PAH Source, Concentration, and Soil Characteristics. J. W. Munson¹, Y. W. Lowney², M. Ruby³, and S. M. Roberts¹. ¹University of Florida, Gainesville, FL; ²Exponent, Boulder, CO; and ³Integral Consulting, Louisville, CO.

Program Schedule (Continued)

- Abstract #**
- #2104 **Poster Board Number214**
Experimental Nonalcoholic Steatohepatitis Increases Exposure to Simvastatin Hydroxy Acid by Decreasing Hepatic Organic Anion Transporting Polypeptide Expression. J. Clarke, R. N. Hardwick, A. D. Lake, M. Canet, and N. J. Cherrington. Pharm/Tox, University of Arizona, Tucson, AZ.
- #2105 **Poster Board Number215**
Impact of Major Efflux Transporters on the Disposition of Irinotecan in Rats in Different Metabolic Organs: An *In Vivo* Study. S. Basu, and M. Hu. PPS, University of Houston, Houston, TX. Sponsor: M. Hu.

Wednesday Afternoon, March 25
 1:00 PM to 4:30 PM
 CC Exhibit Hall

Poster Session: Neurotoxicology, General

Chairperson(s): Vijay R. More, Laboratory of Toxicology and Pharmacology, National Institute of Environmental Health Sciences, Durham, NC.

Displayed: 1:00 PM–4:30 PM

Author-Attended: 1:00 PM–2:45 PM

- #2106 **Poster Board Number219**
Electroencephalography (EEG) in Sprague-Dawley Rats and Cynomolgus Monkeys: Super-Intervals to Increase Model Sensitivity. S. Authier^{1,2}, M. Pouliot¹, E. Troncy², R. Mikaelian¹, and R. Forster¹. ¹CIToXLAB North America, Laval, QC, Canada; and ²University of Montreal, St-Hyacinthe, QC, Canada.
- #2107 **Poster Board Number220**
Jacketed External Electroencephalographic (EEG) Telemetry Monitoring in Conscious Beagle Dogs and Cynomolgus Monkeys: Qualification of a Central Nervous System Safety Testing Model. S. Authier^{1,2}, M. Pouliot¹, E. Troncy², and R. Forster¹. ¹CIToXLAB North America, Laval, QC, Canada; and ²University of Montreal, St-Hyacinthe, QC, Canada.
- #2108 **Poster Board Number221**
An *In Vitro* Model for Probing Species-Dependent Microglial Activation and Toxicity. N. M. Claudio¹, S. Voytek¹, K. Kubek¹, P. J. Devine¹, J. Marlowe¹, and F. Pognan². ¹Novartis Institutes for Biomedical Research, Cambridge, MA; and ²Novartis Institutes for Biomedical Research, Basel, Switzerland.
- #2109 **Poster Board Number222**
Microglia Mediate Diesel Exhaust Particle-Induced Cerebellar Neuronal Death. P. J. Roque¹, P. Bommarito^{2,1}, and L. G. Costa^{1,3}. ¹DEOHS, University of Washington, Seattle, WA; ²University of Michigan, Ann Arbor, MI; and ³University of Parma, Parma, Italy.
- #2110 **Poster Board Number223**
Gender-Specific Multidrug-Resistance Transporter Expression in Choroid Plexus. K. M. Flores, and J. Renfro. Physiology and Neurobiology, University of Connecticut, Storrs, CT. Sponsor: J. Manautou.

- Abstract #**
- #2111 **Poster Board Number224**
Differential Impact of Tobacco Smoke Exposure at the Blood-Brain Barrier Endothelium: A Special Focus on the Nrf2-Dependent Antioxidant Mechanisms. P. Naik, and L. Cucullo. Pharmaceutical Sciences, Texas Tech University Health Sciences Center, Amarillo, TX.
- #2112 **Poster Board Number225**
Lipid-Sensing Transcription Factor Peroxisome Proliferator-Activated Receptor Alpha (PPAR-α) Regulates Blood-Brain Barrier Efflux Transporter Expression. V. R. More, C. Campos, and D. Miller. Laboratory of Toxicology and Pharmacology, National Institute of Environmental Health Sciences, Durham, NC.
- #2113 **Poster Board Number226**
Why Does Blockade of Ancillary Transporters of Serotonin in SERT Knockout Mice Promote Sociability Instead of 5-HT Syndrome? C. Moten¹, C. Smolik³, W. Q. Zhang^{2,3}, T. Pham³, M. Vitela³, L. C. Daws³, and G. G. Gould³. ¹Voelcker Biomedical Academy, Univ. of Texas Health Science Center at San Antonio, San Antonio, TX; ²Lovett RC, Rice University, Houston, TX; and ³Center for Biomedical Neuroscience, Univ. of Texas Health Science Center at San Antonio, San Antonio, TX.
- #2114 **Poster Board Number227**
Effects of Immersion Fixation on the Post-Mortem Rat Brain. M. Acciani¹, C. Kopp², J. Palmer², T. Davis², and C. A. Picut¹. ¹Pathology, WIL Research, LLC, Hillsborough, NC; and ²Pathology, WIL Research, LLC, Ashland, OH.
- #2115 **Poster Board Number228**
Toluene Dose-Response and Proteomics Study of Neuronal Cell Lines. K. O. Yu, M. L. Meade, A. Hoffmann, L. K. Braydich-Stolle, D. A. Dixon, M. K. Makley, N. M. Schaeublin, C. Hack, J. Schlager, and D. R. Mattie. Air Force Research Laboratory, US Air Force, Wright-Patterson AFB, OH.
- #2116 **Poster Board Number229**
Establishment of Mouse Model for Neurotoxicity of 1-Bromopropane, an Alternative to Ozone-Depleting Solvents. C. Zong^{1,3}, E. Garner², C. Huang³, L. Zhang¹, X. Zhang^{1,3}, S. Toyokuni³, S. Ichihara⁴, and G. Ichihara⁴. ¹Occupational and Environmental Health, Tokyo University of Science, Noda, Japan; ²Lovelace Respiratory Research Institute, Albuquerque, NM; ³Nagoya University, Nagoya, Japan; and ⁴Mie University, Tsu, Japan.
- #2117 **Poster Board Number230**
Comparative Evaluation of Motor Activity, Grip Strength, and Foot Splay following 90-Day Oral Gavage Studies with Various Vehicles in Wistar Rats. D. Gohel¹, M. V. Patel¹, P. Mehta¹, S. Jadhav¹, K. Shah¹, M. Pandya¹, and V. J. Piccirillo². ¹Department of Toxicology, Jai Research Foundation, Valvada, India; and ²VJP Consulting, Ashburn, VA.
- #2118 **Poster Board Number231**
Comparative Assessment of Growth and Feed-Consumption Pattern of Wistar Rats following Gavage Administration of Different Vehicles in 90-Day Studies. P. Mehta¹, D. Gohel¹, M. V. Patel¹, S. Jadhav¹, M. Pandya¹, K. Shah¹, and V. J. Piccirillo². ¹Department of Toxicology, Jai Research Foundation, Valvada, India; and ²VJP Consulting, Ashburn, VA.

Program Schedule (Continued)

Abstract #	Abstract #
#2119	Poster Board Number232 Assessing the Effects of Adolescent Taurine Consumption on Adult Brain Function in a Mouse Model. J. Brown, J. Weimer, C. Ludwig, B. Hays, and C. P. Curran. Biological Sciences, Northern Kentucky University, Highland Heights, KY.
#2120	Poster Board Number233 Persistent Neuroinflammation in a Mouse Model of Tetramethylenedisulfotetramine (TETS)-Induced Status Epilepticus. D. Bruun ¹ , D. Zolkowska ² , C. Boosalis ¹ , M. Rogawski ² , and P. Lein ¹ . ¹ VM Molecular Bioscience, UC-Davis, Davis, CA; and ² Neurology, School of Medicine, UC-Davis, Sacramento, CA.
#2121	Poster Board Number234 An Experimental Study on the Effects of Low-Level Fluoride Exposure on Memory and Learning Ability of Rats. M. Hosokawa ¹ , H. Akita ² , M. Tsunoda ³ , and K. Yokoyama ¹ . ¹ Epidemiology and Environmental Health, Juntendo University, Tokyo, Japan; ² Physiology, Kitasato University School of Allied Health Sciences, Sagami-hara, Japan; and ³ Hygiene, Kitasato University School of Medicine, Sagami-hara, Japan.
#2122	Poster Board Number235 Exposure to Fine Particulate Matter Reduces Glutamate Uptake in Cerebellar Bergmann Glia Cells through a src/MAPK Pathway. A. De Vizcaya Ruiz, N. Alamillo, M. Uribe-Ramirez, and A. Ortega. Toxicology, CINVESTAV-IPN, Mexico City, Mexico.
#2123	Poster Board Number236 In Vitro and Ex Vivo Neurotoxicity Assessment of Brominated- and Halogen-Free Flame Retardants. H. S. Hendriks ¹ , R. van Kleef ¹ , M. M. Dingemans ¹ , M. Meijer ¹ , M. Muilwijk ¹ , M. Van den Berg ¹ , G. M. Ramakers ² , L. A. Koolen ² , P. Leonard ³ , H. Viberg ⁴ , I. Lee ⁴ , and R. H. Westerink ¹ . ¹ Neurotoxicology Research Group, Institute for Risk Assessment Sciences (IRAS) - Utrecht University, Utrecht, Netherlands; ² Brain Center Rudolf Magnus, University Medical Center Utrecht, Utrecht, Netherlands; ³ Institute for Environmental Studies, VU University Amsterdam, Amsterdam, Netherlands; and ⁴ Department of Environmental Toxicology, Uppsala University, Uppsala, Sweden.
	Abstract #
	#2125
	Poster Board Number240 Pyridostigmine Bromide Suppresses Neuroinflammation Induced by DFP. A. R. Revitsky ¹ , K. A. Kelly ¹ , D. B. Miller ¹ , S. M. Lasley ² , and J. P. O'Callaghan ¹ . ¹ CDC-NIOSH, Morgantown, WV; and ² U Ill Coll of Med, Peoria, IL.
	#2126
	Poster Board Number241 Altered Emotional Reactivity and Dopamine Turnover in Juvenile Rats Exposed Developmentally to Chlorpyrifos. A. N. Mohammed, N. H. Armstrong, A. T. Buchanan, J. B. Eells, M. K. Ross, C. A. Nail, and R. L. Carr. Center for Environmental Health Sciences, Mississippi State University, Mississippi State, MS.
	#2127
	Poster Board Number242 Neurotoxic Effects of Tri-Cresyl Phosphates (TCPs) and Cresyl Saligenin Phosphate (CBDP) In Vitro. C. van Thriel, J. Sinaisike, and V. Hausherr. Neurotoxicology and Chemosensation, IfAdo - Leibniz Research Centre for Working Environment and Human Factors, Dortmund, Germany.
	#2128
	Poster Board Number243 Characterization of a Rat Model of Acute Diisopropylfluorophosphate (DFP) Intoxication. K. Dhakal, B. Flannery, B. A. Hobson, D. Bruun, and P. Lein. Department of Molecular Biosciences, University of California, Davis, Davis, CA.
	#2129
	Poster Board Number244 In Vitro Study of the Neuropathic Potential of the Organophosphorus Compounds Fenamiphos and Profenofos: Comparison with Mipafox and Paraoxon. G. L. Emerick ^{1,2} , L. S. Fernandes ² , E. S. de Paula ² , F. Barbosa Jr ² , N. G. dos Santos ² , and A. C. dos Santos ² . ¹ Instituto de Ciências da Saúde, Universidade Federal de Mato Grosso, Sinop, Brazil; and ² DACTB, FCFRP-USP, Ribeirão Preto, Brazil.
	#2130
	Poster Board Number245 Chlorpyrifos Oxon (CPFO) and 2,2',3,5'-6-Pentachlorobiphenyl (PCB 95) Modulate Fc-Gamma Receptor Expression in Developing Neurons. M. Stamou, and P. Lein. Molecular Biosciences, University of California, Davis, Davis, CA.
	#2131
	Poster Board Number246 A Fraction of the Organophosphorus-Sensitive Phenylvalerate Esterase Activity Shows Acetylcholine Hydrolyzing Activity in Soluble Fraction of Chicken Brain. J. Estévez, E. Vilanova, M. Benabent, I. Mangas, and M. A. Sogorb. Unit of Toxicology, Institute of Bioengineering, University Miguel Hernández, Elche, Spain.
	#2132
	Poster Board Number247 LC-MS/MS Proteomics Analysis Identifies Butyrylcholinesterase As a Protein with Phenylvalerate Esterase Activity. I. Mangas ^{1,2} , P. Taylor ² , Z. Radic ² , E. Vilanova ¹ , and J. Estévez ¹ . ¹ Unit of Toxicology, Institute of Bioengineering, University Miguel Hernández, Elche, Spain; and ² Skaggs School of Pharmacy and Pharmaceutical Science, University of California-San Diego, San Diego, CA.

Wednesday Afternoon, March 25

1:00 PM to 4:30 PM
CC Exhibit Hall

Poster Session: Neurotoxicology, Pesticides

Chairperson(s): Arturo Anadon, Universidad Complutense de Madrid, Madrid, Spain.

Displayed: 1:00 PM–4:30 PM

Author-Attended: 2:45 PM–4:30 PM

#2124	Poster Board Number239 Chronic Glucocorticoid and Nerve Agent DFP Exposures Produce a Neuroinflammatory Model of Gulf War Illness without Neurodegeneration. K. A. Kelly ¹ , A. R. Revitsky ¹ , D. B. Miller ¹ , S. M. Lasley ² , and J. P. O'Callaghan ¹ . ¹ CDC-NIOSH, Morgantown, WV; and ² U Ill Coll of Med, Peoria, IL.
-------	---

- PS** Poster Sessions
- RI** Regional Interest Session
- R** Roundtable Sessions

- S** Symposium Sessions
- T** Thematic Sessions
- W** Workshop Sessions

Program Schedule (Continued)

Abstract #		Abstract #	
#2133	Poster Board Number248 Novel Functions of Klotho during Paraoxon Exposure in Neuronal Cell Culture: Neurotoxicology and Proteome Pathway Analysis. A. Hoffmann ^{1,2} , M. L. Meade ^{1,2} , M. K. Makley ^{1,2} , J. Schlager ² , and J. M. Gearhart ^{1,2} . ¹ Henry M. Jackson Foundation, Dayton, OH; and ² Molecular Bioeffects Branch, Bioeffects Division, 711th Human Performance Wing, Air Force Research Laboratory, Dayton, OH.	#2140	Poster Board Number255 Responses of Invertebrate Crayfish to Systemic Insecticide Fipronil. J. A. Jenkins, and R. A. Draugelis-Dale. National Wetlands Research Center, US Geological Survey, Lafayette, LA. Sponsor: A. Bowman.
#2134	Poster Board Number249 Characterization and Inhibition of Guinea Pig Acetylcholinesterase. C. D. Ruark ^{1,2} , R. R. Chapleau ¹ , D. A. Mahle ³ , and J. M. Gearhart ^{1,2} . ¹ Henry M. Jackson Foundation for the Advancement of Military Medicine, Wright-Patterson Air Force Base, OH; ² Department of Biomedical Sciences, Wright State University, Dayton, OH; and ³ 711 HPW/RHDJ, Air Force Research Laboratory, Wright-Patterson Air Force Base, OH.	#2141	Poster Board Number256 Dysregulated Glucose Homeostasis and Impaired Locomotor Activity of Male C57BL/6 Mice Caused by Acute Oral Atrazine Treatment. N. M. Filipov ^{1,2} , and S. Krishna ¹ . ¹ Physiology and Pharmacology, University of Georgia, Athens, GA; and ² Interdisciplinary Toxicology Program, University of Georgia, Athens, GA.
#2135	Poster Board Number250 Neuroprotective Effect of Calcium Channel Blockers on Organophosphorus-Induced Delayed Neuropathy (OPIDN) in SH-SY5Y Cells. L. S. Fernandes ¹ , G. L. Emerick ² , A. C. dos Santos ¹ , and N. A. Santos ¹ . ¹ DACTB, Universidade de São Paulo, Ribeirão Preto, Brazil; and ² Instituto de Ciências da Saúde, Universidade Federal do Mato Grosso – UFMT, Sinop, Brazil.	#2142	Poster Board Number257 Mancozeb-Induced Cell Cycle Arrest and Senescence via RTP801. J. Seo, C. Ta, and S. Cheng. Sciences, John Jay College, New York, NY.
#2136	Poster Board Number251 Subchronic and Repeated Exposure to Insecticides Inhibits the Depolarization-Evoked Increase in Intracellular Calcium Concentration in PC12 Cells. M. Meijer, M. M. Dingemans, and R. H. Westerink. Neurotoxicology Research Group, Institute for Risk Assessment Sciences (IRAS) - Utrecht University, Utrecht, Netherlands.	#2143	Poster Board Number258 Manganese-Containing Dithiocarbamates Increase the Expression of Amyloid Precursor Protein and the Level of Phosphorylated PKR. Y. Lopez, J. Montes, and S. Cheng. Sciences, John Jay College, New York, NY.
#2137	Poster Board Number252 Actions of a Type II Pyrethroid Mixture on Oxidative Stress Could Be Predicted by a Dose-Additive Using an In Vitro Model. A. Anadon, M. A. Martínez, I. Ares, E. Ramos, V. Castellano, M. Martínez, M. R. Martínez-Larrañaga, and A. Romero. Department of Toxicology and Pharmacology, Faculty of Veterinary Medicine, Complutense University, Madrid, Spain.	#2144	Poster Board Number259 Developmental Coexposure to γ-Radiation and Paraquat Can Exacerbate Cognitive Dysfunction in Adult Mice. S. Buratovic ¹ , B. Stenerlöw ² , S. Sundell-Bergman ³ , and P. Eriksson ¹ . ¹ Environmental Toxicology, Uppsala University, Uppsala, Sweden; ² Radiology, Oncology and Radiation Science, Uppsala University, Uppsala, Sweden; and ³ Soil and Environment, Swedish University of Agricultural Sciences, Uppsala, Sweden.
#2138	Poster Board Number253 Nerve Growth Factor Protects against Deltamethrin-Induced Apoptosis in Primary Hippocampal Neurons. M. M. Hossain, and J. R. Richardson. Department of Environmental and Occupational Medicine, Rutgers-Robert Wood Johnson Medical School, Piscataway, NJ.	#2145	Poster Board Number260 Assessment of Cross-Chemical Predictability for Changes in Blood Clinical Bioindicators and EEG Produced by Pesticides with Different Modes of Action. D. F. Freeborn, K. L. McDaniel, V. C. Moser, and D. W. Herr. TAD/NB, US EPA, Durham, NC.
#2139	Poster Board Number254 Influence of Stressors in Lambda-Cyhalothrin-Induced Brain Dopaminergic Dysfunctions in Rats. R. K. Shukla ¹ , L. P. Chandravanshi ¹ , Y. Dhuriya ¹ , R. Gupta ¹ , P. Srivastava ¹ , A. B. Pant ² , and V. K. Khanna ¹ . ¹ Developmental Toxicology Division, CSIR - Indian Institute of Toxicology Research, Lucknow, India; and ² In Vitro Toxicology Division, CSIR - Indian Institute of Toxicology Research, Lucknow, India.	#2146	Poster Board Number261 Neuroprotective Effect of Acetyl-L-Carnitine in Peripheral Nervous System (PNS) following a Prolonged Exposure to Rotenone. Z. Binienda ¹ , B. Gough ¹ , S. F. Ali ¹ , and M. A. Beaudoin ² . ¹ Neurotoxicology, NCTR/FDA, Jefferson, AR; and ² NCTR/FDA, Jefferson, AR.

Program Schedule (Continued)

Abstract #

Wednesday Afternoon, March 25
1:00 PM to 4:30 PM
CC Exhibit Hall

Poster Session: Pesticides

Chairperson(s): Raja S. Settivari, Predictive Toxicology, The Dow Chemical Company, Midland, MI; and Karyn L. Hentz, Exponent, Alexandria, VA.

Displayed: 1:00 PM–4:30 PM

Author-Attended: 1:00 PM–2:45 PM

Abstract #

#2155

Poster Board Number311
Chlorpyrifos Promotes the Growth of Colorectal Adenocarcinoma H508 Cells through the Activation of EGFR/ERK1/2 Signaling Pathway. T. Suriyo^{1,3}, P. Tachachartvanich^{1,2}, P. Watcharasit^{1,2,3}, and J. Satayavivad^{1,2,3}. ¹Laboratory of Pharmacology, Chulabhorn Research Institute, Bangkok, Thailand; ²Environmental Toxicology Program, Chulabhorn Graduate Institute, Bangkok, Thailand; and ³Center of Excellence on Environmental Health and Toxicology, Office of Higher Education, Ministry of Education, Bangkok, Thailand. Sponsor: *H. Atrup.*

#2147 **Poster Board Number**301
Toxicity and Safety Assessment of Fipronil, S-Methoprene, and Amitraz in Dogs following Topical Certifect® Application. R. C. Gupta¹, H. Nichols¹, R. B. Doss¹, S. D. Bland¹, T. D. Canerdy¹, and J. Zieren². ¹Toxicology, Murray State University, Hopkinsville, KY; and ²Carmi Veterinary Clinic, Carmi, IL.

#2156

Poster Board Number312
Short-Time Exposure to Thiram Induces Developmental Toxicity and Affects Deiodinase3 Gene Expression in Zebrafish Embryos. X. Chen¹, M. Fang², F. Wang¹, J. Yang¹, Y. Yu¹, N. Zheng², D. E. Hinton², and W. Dong^{1,2}. ¹School of Animal Science and Technology, Inner Mongolia University for the Nationalities, Tongliao, China; and ²Nicholas School of the Environment, Duke University, Durham, NC.

#2148 **Poster Board Number**302
Abstract Withdrawn.

#2157

Poster Board Number313
The Toxicity of Mancozeb in Human Colon Cells May Be Related to an Alteration of Metal Homeostasis. L. M. Hoffman, L. D. Trombetta, and D. Hardej. Pharmaceutical Sciences, St. John's University, Queens, NY.

#2149 **Poster Board Number**303
Safety Evaluation of Permethrin and Indoxacarb in Dogs Treated with Activyl® Tick Plus. H. Litchfield, R. C. Gupta, R. B. Doss, and T. D. Canerdy. Toxicology, Murray State University, Hopkinsville, KY.

#2158

Poster Board Number314
Assessment of Oxidative Stress and Genotoxic Potential of Triazophos in *Lamellidens marginalis*. S. V. Pandit, and A. Y. Mundhe. Zoology, Savitribai Phule Pune University, Pune, India. Sponsor: *R. Agarwal.*

#2150 **Poster Board Number**304
Chemoproteomic and Metabolomics Platforms Reveal Organophosphorus Flame Retardants Inhibit Liver Carboxylesterases and Cause Metabolic Alterations. D. Medina-Cleghorn, A. M. Heslin, and D. K. Nomura. Nutritional Science and Toxicology, UC Berkeley, Berkeley, CA. Sponsor: *C. Vulpe.*

#2159

Poster Board Number315
Health Evaluation of the Consumption of Citrus Fruit, Leaves, and Flowers from Trees Treated with Imidacloprid for Asian Citrus Psyllid Control at Residential Sites in California. A. Arcus-Arth, and D. Ting. Office of Environmental Health Hazard Assessment, Cal/EPA, Oakland, CA. Sponsor: *L. Lim.*

#2151 **Poster Board Number**305
Birth Defect Rates in High and Low Atrazine-Use States. M. Seeley¹, S. Thakali², and J. E. Goodman¹. ¹Gradient, Cambridge, MA; and ²URS Corporation, Fort Washington, PA.

#2160

Poster Board Number316
Microarray Analysis of Gene Expression in Mouse Midbrain following Developmental Deltamethrin Exposure Reveals Sex-Specific Changes Associated with Behavior, Cognition, and Movement Disorders. D. You^{1,3}, and J. R. Richardson^{2,3}. ¹Joint Graduate Program of Toxicology, Rutgers University, Piscataway, NJ; ²Environmental and Occupational Medicine, Robert Wood Johnson Medical School, Piscataway, NJ; and ³Environmental and Occupational Health Sciences Institute, Rutgers University, Piscataway, NJ.

#2152 **Poster Board Number**306
Mammalian Immunotoxicity of Imidacloprid: Review and Weight-of-Evidence Evaluation. H. M. Bolstad, and A. Arcus-Arth. Office of Environmental Health Hazard Assessment, California Environmental Protection Agency, Oakland, CA.

#2153 **Poster Board Number**307
Pesticide Residues in Strawberries of Nepal 2014. D. Dhakal. Chemistry, Patan Multiple Campus, Institute of Science & Technology, Tribhuvan University, Lalitpur, Nepal. Sponsor: *A. Barchowsky.*

#2161

Poster Board Number317
Urinary Metabolite 3,5,6-Trichloro-2-pyridinol (TCPy) and Child Neurodevelopment at Two Years of Age in an Agricultural Population in China. Z. Zhou, P. Liu, C. Wu, and X. Chang. School of Public Health, Fudan University, Shanghai, China.

#2154 **Poster Board Number**310
Exposure to Permethrin Alters Glucose Metabolism in Response to High-Fat Diet in Female C57BL/6J Mice. X. Xiao¹, Y. Kim¹, D. Kim², K. Yoon³, J. M. Clark⁴, and Y. Park¹. ¹Department of Food Science, University of Massachusetts, Amherst, MA; ²Department of Mathematics and Statistics, University of Massachusetts, Amherst, MA; ³Department of Biological Sciences and Environmental Sciences Program, Southern Illinois University, Edwardsville, IL; and ⁴Department of Veterinary and Animal Sciences, University of Massachusetts, Amherst, MA.

#2162

Poster Board Number318
Simultaneous Determination of Pesticides in Tobacco Using Liquid Chromatography—Tandem Mass Spectrometry and Multiwalled Carbon Nanotubes As a Reversed-Dispersive Solid Phase Extraction Sorbent. L. Chen, F. Yu, B. Hu, L. Pan, and H. Liu. Zhengzhou Tobacco Research Institute of CNTC, Zhengzhou, China. Sponsor: *R. Krieger.*

- PS** Poster Sessions
- RI** Regional Interest Session
- R** Roundtable Sessions

- S** Symposium Sessions
- T** Thematic Sessions
- W** Workshop Sessions

Program Schedule (Continued)

Abstract #		Abstract #	
#2163	Poster Board Number 319 Multiresidue Analysis of Pesticides in Urine of Healthy Adult Companion Dogs. G. M. Forster ² , D. Brown ¹ , G. P. Dooley ¹ , R. L. Page ² , and E. P. Ryan ^{1,2} . ¹ ERHS, Colorado State University, Fort Collins, CO; and ² Clinical Sciences, Colorado State University, Fort Collins, CO.	#2170	Poster Board Number 328 Inhibition of Alpha-Cypermethrin Metabolism by Chlorpyrifos-Oxon and Profenofos in Human Liver Microsomes. S. T. Singleton, J. B. Knaak, and J. R. Olson. Pharmacology and Toxicology, University at Buffalo, Buffalo, NY.
#2164	Poster Board Number 320 Differential Protein Expression of CaMKinase (CaMK) II α and β Subunits As Well As Tau mRNA Expression Contribute to the Development of OPIDN. T. V. Damodaran ^{1,2} , A. MK ² , and M. B. Abou-Donia ² . ¹ Biology, North Carolina Central University, Durham, NC; and ² Pharmacology and Cancer Biology, Duke University, Durham, NC.	#2171	Poster Board Number 329 Biomarker Analysis of American Toad (<i>Anaxyrus americanus</i>) and Grey Tree Frog (<i>Hyla versicolor</i>) Tadpoles following Exposure to Atrazine. M. Snyder ¹ , W. M. Henderson ² , D. A. Glinski ¹ , and S. T. Purucker ² . ¹ Ecosystems Research Division, ORISE/EPA, Athens, GA; and ² Ecosystems Research Division, EPA, Athens, GA.
#2165	Poster Board Number 321 Application of an <i>In Vitro</i> Tiered Testing Approach for Predicting Eye Irritation Potential of Agrochemical Formulations. E. W. Carney ¹ , R. S. Settivari ¹ , S. C. Gehen ² , R. Acosta Amado ² , N. Visconti ¹ , M. Corvaro ² , and L. Kan ¹ . ¹ Predictive Toxicology, The Dow Chemical Company, Midland, MI; and ² Dow AgroSciences LLC, Indianapolis, IN.	#2172	Poster Board Number 330 Longitudinal Assessment of Exposures to Chlorpyrifos and Profenofos in Adolescent Egyptian Agriculture Workers. J. R. Olson ¹ , G. A. Rasoul ² , A. A. Ismail ² , O. Hendy ² , L. Hamad ¹ , S. T. Singleton ¹ , M. R. Bonner ¹ , K. Khan ³ , and D. Rohlman ^{3,4} . ¹ University at Buffalo, Buffalo, NY; ² Menoufia University, Shebin El-Kom, Egypt; ³ University of Iowa, Iowa City, IA; and ⁴ OHSU, Portland, OR.
#2166	Poster Board Number 322 Endosulfan Exposure Is Associated with Prostate Cancer in Mexico. E. A. Villeda-Gutierrez ² , R. A. Vazquez-Salas ³ , L. E. Torres-Sánchez ³ , L. T. Lopez-Carrillo ³ , and M. E. Cebrian ¹ . ¹ Department of Toxicology, CINVESTAV IPN, Mexico City, Mexico; ² Universidad Tecnológica de Tecama, Tecama, Mexico; and ³ Instituto Nacional de Salud Pública, Cuernavaca, Mexico.	#2173	Poster Board Number 331 Weight-of-Evidence Evaluation of 1,3-Dichloropropene Tumorigenesis Supports Application of a Threshold-Based Risk Assessment. Z. Yan ¹ , S. C. Gehen ¹ , and R. Sura ² . ¹ Dow AgroSciences, Indianapolis, IN; and ² The Dow Chemical Company, Midland, MI.
#2167	Poster Board Number 323 Determination of Blood-Brain-Barrier (BBB) Permeability and Uptake of Deltamethrin (DLM) in Adult Male Sprague-Dawley Rats Using an <i>In Situ</i> Brain Perfusion Technique. M. Amaraneni ¹ , S. Muralidhara ¹ , J. Zastre ¹ , T. G. Osimitz ² , S. Anand ³ , D. W. Gammon ⁴ , C. White ¹ , J. V. Bruckner ¹ , and B. S. Cummings ¹ . ¹ University of Georgia, Athens, GA; ² Science Strategies, Charlottesville, VA; ³ DuPont Haskell, Newark, DE; and ⁴ FMC, Ewing, NJ.	#2174	Poster Board Number 332 Formulations of Seeds from Cannabaceae Inhibit Feeding, Reproduction, and Normal Development of Tenebrio Beetles. N. Grant, C. Baldwin, and S. Chao. Fayetteville State University, Fayetteville, NC.
#2168	Poster Board Number 326 Toxicokinetics (TK) of Cis-Permethrin (CIS) in Adult and Weanling Sprague-Dawley (SD) Rats. T. Mortuza ¹ , J. Pang ¹ , S. Muralidhara ¹ , C. Chen ¹ , M. Amaraneni ¹ , T. G. Osimitz ² , D. W. Gammon ³ , S. Anand ⁴ , B. S. Cummings ¹ , J. V. Bruckner ¹ , and C. White ¹ . ¹ University of Georgia, Athens, GA; ² Science Strategies LLC, Charlottesville, VA; ³ FMC Co., Ewing, NY; and ⁴ DuPont Haskell Labs, Newark, DE.	#2175	Poster Board Number 333 Genotoxicity and Mutagenicity Study of the Herbicides Trifluralin and Tebuthiuron. M. F. Franco Bernardes, L. C. Pereira, M. J. Tasso, and D. J. Dorta. Departamento de Química, Universidade de São Paulo (USP), Faculdade de Filosofia, Ciências e Letras de Ribeirão Preto (FFCLRP), Ribeirão Preto, Brazil.
#2169	Poster Board Number 327 Age-Dependence of Toxicokinetics of Deltamethrin in Sprague-Dawley Rats. C. Chen ¹ , S. Muralidhara ¹ , D. Gullick ¹ , M. Amaraneni ¹ , T. Mortuza ¹ , T. G. Osimitz ² , D. Minnema ³ , D. W. Gammon ³ , S. Anand ⁴ , B. S. Cummings ¹ , J. V. Bruckner ¹ , and C. White ¹ . ¹ PBS, University of Georgia, Athens, GA; ² Science Strategies, LLC, Charlottesville, VA; ³ FMC Co., Ewing, NJ; ⁴ DuPont Haskell Labs, Newark, DE; and ⁵ Syngenta Crop Protection Inc., Greensboro, NC.	#2176	Poster Board Number 334 Predictive MOAs of Uterine Adenocarcinoma Development Induced by Pesticides in Rats. M. Yoshida, K. Inoue, and M. Takahashi. Department of Pathology, National Institute of Health Sciences, Tokyo, Japan.
		#2177	Poster Board Number 335 Extraction of Highly Lipophilic Pyrethroid Insecticides from Adipose Tissue for Analysis by GC-MS. H. Young ¹ , D. Gullick ¹ , J. V. Bruckner ¹ , B. S. Cummings ¹ , C. White ¹ , M. Krolski ² , and M. Bartlett ¹ . ¹ Pharmaceutical and Biomedical Sciences, University of Georgia, Athens, GA; and ² Bayer CropScience LP, Research Triangle Park, NC.
		#2178	Poster Board Number 336 Using California Pesticide Information Portal (Cal/PIP) to Assess Use Patterns: Four Applications, with Caveats. C. N. Aldous, and P. Leung. Pesticide Regul., Cal-EPA, Sacramento, CA.

Program Schedule (Continued)

Abstract

- #2179 **Poster Board Number** 337
Effects of Organophosphorus Pesticides (OPs) on Airway Physiology. *F. Shaffo*¹, *A. C. Grodzki*¹, *W. Walby*², *E. Schelegle*², and *P. Lein*¹. ¹Molecular Biosciences, University of California, Davis, Davis, CA; and ²Anatomy, Physiology & Cell Biology, University of California, Davis, Davis, CA.
- #2180 **Poster Board Number** 338
Analysis of Acetonitrile/Hexane-Extracted Biological Samples for Multiple Pesticides by HPLC Uv-Vis. *J. Tran*¹, *N. Naidu*², and *M. A. Yakubu*¹. ¹Environmental Science & Technology, Texas Southern University, Houston, TX; and ²Environmental Services, Expertox Laboratory, Houston, TX.
- #2181 **Poster Board Number** 339
Bacterial Biodegradation of Organophosphorus Plaguicides in Agricultural Soils Contaminated. *B. E. Jaramillo*¹, *L. Marin-Lopez*¹, and *E. Duarte-Restrepo*^{1,2}. ¹Agrochemical Research Group, Chemistry Program, University of Cartagena, Cartagena, Colombia; and ²Doctoral Student in Environmental Toxicology PhD, University of Cartagena, Cartagena, Colombia. Sponsor: *B. Jaramillo*.
- #2182 **Poster Board Number** 342
Some Toxicological Studies on Two Commercial Herbicides from the Egyptian Market on Catfish (*Clarias gariepinus*). *A. A. Abou-Hadeed*, *F. E. Shaaban*, *G. G. Mostafa*, and *W. M. Elhady*. Forensic Medicine & Toxicology, Faculty of Veterinary Medicine, Zagazig University, Zagazig, Egypt. Sponsor: *A. Kadry*.
- #2183 **Poster Board Number** 343
Biochemical Effects of Some Commercial Pediculicides on Some Mammalian Targets. *N. S. Ahmed*¹, *A. K. Osman*², and *K. A. Osman*¹. ¹Pesticide Chemistry & Toxicology, Faculty of Agriculture, El-Shatby, Alexandria University, Alexandria, Egypt; and ²Faculty of Pharmacy, Alexandria University, Alexandria, Egypt.
- #2184 **Poster Board Number** 344
Subchronic Exposure of Dicrotophos Worsens Hepatic Injury in Diabetic Rats. *S. K. Ojha*¹, *S. M. Nurulain*¹, *J. Yasin*², *T. Saeed*³, *M. Shafiullah*¹, *C. Sharma*², and *E. Adeghate*³. ¹Pharmacology and Therapeutics, UAE University, Al Ain, United Arab Emirates; ²Internal Medicine, UAE University, Al Ain, United Arab Emirates; and ³Anatomy, UAE University, Al Ain, United Arab Emirates.
- #2185 **Poster Board Number** 345
Terbufos Sulfone Toxicity Is More Severe in Diabetic Rats. *S. M. Nurulain*¹, *S. Ojha*¹, *M. Shafiullah*¹, *M. Oz*¹, *J. Yasin*², *T. Saeed*³, *T. Kornelia*⁴, and *E. Adeghate*³. ¹Pharmacology and Therapeutics, UAE University, Al Ain, United Arab Emirates; ²Internal Medicine, UAE University, Al Ain, United Arab Emirates; ³Anatomy, UAE University, Al Ain, United Arab Emirates; and ⁴Pharmacodynamics, Semmelweis University, Budapest, Hungary.

Abstract

Wednesday Afternoon, March 25
1:00 PM to 4:30 PM
CC Exhibit Hall

Poster Session: Bioinformatics

Chairperson(s): *Janet Moser*, Chemical Security Analysis Center, Aberdeen Proving Ground, MD.

Displayed: 1:00 PM–4:30 PM

Author-Attended: 2:45 PM–4:30 PM

- #2186 **Poster Board Number** 401
LactMed: A Critical Online Resource on Drugs and Breastfeeding. *P. Wexler*¹, *P. O. Anderson*², and *J. Knoben*¹. ¹Toxicology and Environmental Health Information Program, National Library of Medicine, Bethesda, MD; and ²University of California, San Diego, CA.
- #2187 **Poster Board Number** 402
MyAlternaMed: Digital Aggregation and Organization of Phytochemical Data from Traditional Medicines and Dietary Supplements and Potential Interactions with Western Therapeutics. *H. Irimagawa*^{1,2}, *B. Ford*^{1,2}, and *D. Johnson*^{1,2}. ¹Nutrition Science & Toxicology, UC Berkeley, Berkeley, CA; and ²Emiliem, Inc., Berkeley, CA.
- #2188 **Poster Board Number** 403
A Bioinformatics Pipeline—ArrayTrack for Genomics-Based Molecular Characterization of Foodborne Pathogens. *H. Fang*¹, *J. Xu*², *I. Patel*³, *J. Gangiredla*³, *K. Lampel*³, *C. Elkins*³, *G. Zhou*², *B. Gong*², *F. Qian*², *S. C. Harris*², *J. Meehan*², *S. Jackson*¹, *P. C. Howard*¹, and *W. Tong*². ¹Office of Scientific Coordination, NCTR/FDA, Jefferson, AR; ²Division of Bioinformatics and Biostatistics, NCTR/FDA, Jefferson, AR; ³Office of Applied Research and Safety Assessment, CFSAN/FDA, Laurel, MD; and ⁴National Institute of Standards and Technology, Gaithersburg, MD.
- #2189 **Poster Board Number** 404
Screening of Information on Drug-Induced Liver Injury from the US FDA-Approved Drug Labels. *K. Yu*, *Z. Liu*, *Y. Ding*, *M. Chen*, *J. Xu*, and *W. Tong*. Division of Bioinformatics and Biostatistics, National Center for Toxicological Research, US Food and Drug Administration, Jefferson, AR.
- #2190 **Poster Board Number** 405
An Integrated Analysis of Gene and microRNA Expression Profiles in the Rat Liver Exposed to Two Structurally Similar Drugs: Amiodarone and Benzbromane. *H. Bisgin*, *Y. Wang*, *B. Gong*, and *W. Tong*. NCTR/FDA, Jefferson, AR.
- #2191 **Poster Board Number** 406
Molecular Determinants of Pulmonary Lesions. *H. Assaggaf*¹, *T. Aljifri*¹, *C. Yoo*², and *Q. H. Felty*¹. ¹Environmental & Occupational Health, Florida International University, Miami, FL; and ²Biostatistics, Florida International University, Miami, FL.
- #2192 **Poster Board Number** 407
StemCellQC™: A Smart Detection Multiplexing Toolkit for Toxicological Evaluation of Stem Cell Processes and Health. *A. Zahedi*, *V. On*, *S. C. Lin*, *B. Bays*, *B. Bhanu*, and *P. Talbot*. University of California Riverside, Riverside, CA.

Program Schedule (Continued)

Abstract

- #2193 **Poster Board Number 408**
A Comparative Analysis of Estradiol and PPT Treatment Effects in MCF7 Cells As Part of the Human Toxome Project Using Agilent's Genespring Multi-Omics Analysis and Integration Solution. C. B. Livi¹, R. Fasani¹, M. Rosenberg¹, R. Chen², H. Li², A. Fornace², J. D. Yager³, S. Odwin-DaCosta³, K. Boekelheide⁴, M. M. Vantangoli⁵, M. E. Andersen⁵, P. D. McMullen⁵, S. Pendse⁵, A. Maertens⁵, T. Luechtefeld³, A. Kleensang³, M. Bouhifd³, and T. Hartung³. ¹Agilent Technologies, Santa Clara, CA; ²Georgetown University, Washington, DC; ³Johns Hopkins University, Baltimore, MD; ⁴Brown University, Providence, RI; and ⁵Hamner Institutes for Health Sciences, Research Triangle Park, NC.
- #2194 **Poster Board Number 409**
Flavonoids As Chemopreventive Agents by Interacting with ERBB Receptors. W. Maldonado-Rojas, M. Olivero-Acosta, and J. Olivero-Verbel. Environmental and Computational Chemistry Group, University of Cartagena, Cartagena, Colombia.
- #2195 **Poster Board Number 410**
Chemical Effects in Biological Systems (CEBS) Database: Advanced Histopathology Search Applications. I. Lea¹, A. Rashid¹, C. Favaro¹, and J. Postel². ¹Vistronix, Durham, NC; and ²NIEHS, Research Triangle Park, NC. Sponsor: M. Hooth.
- #2196 **Poster Board Number 411**
Exposure Science Data and the Comparative Toxicogenomics Database. C. J. Grondin, A. P. Davis, J. Wiegiers, T. C. Wiegiers, and C. J. Mattingly. Biological Sciences, NC State University, Raleigh, NC.
- #2197 **Poster Board Number 412**
The Comparative Toxicogenomics Database: Ten Years in the Making. C. J. Mattingly¹, C. J. Grondin¹, K. Lennon-Hopkins¹, C. Saraceni-Richards¹, D. Sciaky¹, J. Wiegiers¹, R. McMorran², B. L. King², T. C. Wiegiers¹, and A. P. Davis¹. ¹Biological Sciences, NC State University, Raleigh, NC; and ²Mount Desert Island Biological Laboratory, Salisburys Cove, ME.
- #2198 **Poster Board Number 413**
ToxEvaluator: An Integrated Computational Platform to Aid the Interpretation of Study-Related Findings. D. Pelletier¹, T. C. Wiegiers², A. Enayetallah³, C. Kibbey³, M. Gosink³, P. Koza-Taylor³, C. J. Mattingly², and M. P. Lawton¹. ¹Pfizer Drug Safety R&D, Groton, CT; ²North Carolina State University, Raleigh, NC; and ³Biogen Idec, Cambridge, MA.
- #2199 **Poster Board Number 414**
Big Data to Knowledge (BD2K)—A Graphical Approach for Data Coordination and Integration. J. F. Reichard¹, M. Medvedovic², and S. Sivagas². ¹Toxicology Excellence for Risk Assessment (TERA), Cincinnati, OH; and ²Department of Environmental Health, University of Cincinnati, Cincinnati, OH.
- #2200 **Poster Board Number 415**
A ToxBank Integrated Data Analysis of SEURAT-1 Reference Compounds. G. J. Myatt¹, P. Kohonen², R. C. Grafström², N. Jeliaskova³, M. Hegi⁴, and B. Hardy⁴. ¹Leadscope, Columbus, OH; ²Karolinska Institutet, Stockholm, Sweden; ³Ideaconsult, Sofia, Bulgaria; and ⁴Douglas Connect, Basel, Switzerland.

Abstract

- #2201 **Poster Board Number 416**
Development of a Framework for an Environmental Health Science Language. C. Lawler¹, A. Haugen¹, R. R. Boyles¹, A. Dearry¹, C. J. Mattingly², and M. Haendel³. ¹NIEHS, Research Triangle Park, NC; ²North Carolina State University, Raleigh, NC; and ³Oregon Health Sciences University, Portland, OR.
- #2202 **Poster Board Number 417**
Using the Reactome Pathway Database and Bioinformatics Tools for the Visualization, Interpretation, and Analysis of Toxicogenomic Data. M. E. Gillespie. PHS, St. John's University, Queens, NY.
- #2203 **Poster Board Number 418**
Chemical Security Analysis Center: Predictive Toxicology Program. J. Moser^{1,2}, R. Jablonski¹, W. Ashman^{1,2}, and P. Grasso¹. ¹Chemical Security Analysis Center, Aberdeen Proving Ground, MD; and ²Battelle Memorial Institute, Columbus, OH.
- #2204 **Poster Board Number 419**
Scientific Text Extraction Using FIDDLE: A Foundation for Accurate Literature Mining. R. Shah, J. Phillips, and B. Howard. Sciome LLC, Research Triangle Park, NC.
- #2205 **Poster Board Number 420**
Compound-Induced Hepatocarcinogenesis: The Role of Feed-Forward Loops. T. M. Souza, D. Jennen, and J. Kleinjans. Toxicogenomics, Maastricht University, Maastricht, Netherlands. Sponsor: H. van Loveren.

Wednesday Afternoon, March 25
 1:00 PM to 4:30 PM
 CC Exhibit Hall

Poster Session: Computational Toxicology and Data Integration II

Chairperson(s): Susan C. Tilton, Environmental and Molecular Toxicology, Oregon State University, Corvallis, OR.

Displayed: 1:00 PM–4:30 PM

Author-Attended: 1:00 PM–2:45 PM

- #2206 **Poster Board Number 423**
Quantitative Nanostructure Toxicity Relationship: Developing Predictive Cell Recognition Models for Gold Nanoparticles. W. Wang¹, A. Sedykh², B. Yan³, and H. Zhu^{1,2}. ¹Center for Computational and Integrative Biology, Rutgers University, Camden, NJ; ²Department of Chemistry, Rutgers University, Camden, NJ; and ³School of Chemistry and Chemical Engineering, Shandong University, Jinan, China.
- #2207 **Poster Board Number 424**
Developing Quantitative Structure Activity Relationship (QSAR) Models for Effects on Nematode Larval Growth and Zebrafish Embryonic Development. J. Hsieh¹, A. Sedykh³, N. Kleinstreuer², J. Franzosa⁴, W. A. Boyd⁴, and R. R. Tice¹. ¹DNTP, NIEHS, Research Triangle Park, NC; ²Integrated Laboratory Systems, Inc, Morrisville, NC; ³MultiCASE Inc., Beachwood, OH; and ⁴NCCT, US EPA, Research Triangle Park, NC.

Program Schedule (Continued)

Abstract #	Abstract #		
#2208	Poster Board Number425 Using Professional Judgment to Validate Structural Alert-Based Predictive Toxicity. <i>J. Zhang</i> , and <i>J. Kneeland</i> . Gradient Corp, Cambridge, MA.	#2217	Poster Board Number434 Comparison of L1000 and Affymetrix Microarray for <i>In Vitro</i> Concentration-Response Gene Expression Profiling. <i>M. T. Martin</i> ¹ , <i>A. Karmaus</i> ^{1,3} , <i>M. B. Black</i> ² , <i>G. P. Daston</i> ⁴ , <i>J. M. Naciff</i> ⁵ , <i>E. W. Carney</i> ⁵ , <i>B. A. Wetmore</i> ² , <i>R. S. Thomas</i> ¹ , and <i>M. E. Andersen</i> ² . ¹ USEPA, Research Triangle Park, NC; ² Hammer Institutes, Durham, NC; ³ ORISE, Research Triangle Park, NC; ⁴ Procter and Gamble, Cincinnati, OH; and ⁵ Dow Chemical Company, Midland, MI.
#2209	Poster Board Number426 Comparative Assessment of Several <i>In Silico</i> Systems and Models to Predict the Outcome of the Ames Mutagenicity Assay. <i>A. Brigo</i> , <i>W. Muster</i> , and <i>T. Singer</i> . Pharmaceutical Sciences, Roche Innovation Center Basel, Basel, Switzerland.	#2218	Poster Board Number435 Integration into Big Data: First Steps to Support Reuse of Comprehensive Toxicity Model Modules. <i>S. Watford</i> ^{1,3} , <i>E. Jeff</i> ¹ , <i>I. Rusyn</i> ⁵ , <i>D. Reif</i> ³ , <i>R. Judson</i> ³ , and <i>M. T. Martin</i> ² . ¹ Environmental Science and Engineering, UNC Chapel Hill, Durham, NC; ² ICF International, Durham, NC; ³ USEPA/ORD/NCCT, Research Triangle Park, NC; ⁴ Statistics, NCSU, Raleigh, NC; and ⁵ Texas A&M, College Station, TX.
#2210	Poster Board Number427 Statistically Derived (Q)SAR Alerts vs. Expert Rule Alerts: Redundant or Complementary? <i>R. Benz</i> ¹ , <i>S. Chakravarti</i> ² , <i>R. D. Saiakhov</i> ² , and <i>A. Sedykh</i> ² . ¹ OmnyCorp, Rockville, MD; and ² MultiCASE, Inc., Beachwood, OH.	#2219	Poster Board Number436 Data Integration and Visualization for Transparent Communication of the Category Read-Across Using ToxPi (Toxicological Priority Index) Tool: P-series Glycol Ethers Case Study. <i>M. R. Wilson</i> ¹ , <i>N. N. Ball</i> ² , <i>E. W. Carney</i> ² , <i>J. Rowlands</i> ² , and <i>I. Rusyn</i> ¹ . ¹ Texas A&M University, College Station, TX; and ² The Dow Chemical Company, Midland, MI.
#2211	Poster Board Number428 Improving QSAR Models of A/T Base Pair Mutation by Using Only <i>E. coli</i> Tests. <i>R. D. Saiakhov</i> , <i>S. Chakravarti</i> , and <i>A. Sedykh</i> . MultiCASE Inc, Beachwood, OH. Sponsor: <i>R. Benz</i> .	#2220	Poster Board Number437 Comparative Analysis between ToxCast and US FDA Databases Shows Evaluation of Applications of ToxCast in Safety Evaluation of US FDA-Regulated Products. <i>H. Hong</i> , and <i>W. Tong</i> . National Center for Toxicological Research, Jefferson, AR.
#2212	Poster Board Number429 Construction and Application of (Q)SAR Models to Predict <i>In Vitro</i> Chromosome Aberrations. <i>K. P. Hewes</i> , <i>L. Stavitskaya</i> , <i>B. L. Minnier</i> , and <i>N. L. Kruhlak</i> . CDER, US FDA, Silver Spring, MD. Sponsor: <i>M. Powley</i> .	#2221	Poster Board Number438 An Integrative Approach for Predicting PAH Toxicity in Environmental Mixtures. <i>S. C. Tilton</i> ¹ , <i>D. Thomas</i> ² , <i>E. S. Peterson</i> ^{2,1} , <i>K. Anderson</i> ¹ , <i>R. L. Tanguay</i> ¹ , and <i>K. M. Waters</i> ^{2,1} . ¹ Superfund Research Program, Oregon State University, Corvallis, OR; and ² Pacific Northwest National Laboratory, Richland, WA.
#2213	Poster Board Number430 Comparative Analysis of Quantitative Structure Activity Relationship Approaches: A Polychlorinated Biphenyls Study. <i>S. M. Bobst</i> ¹ , <i>P. Ruiz</i> ² , and <i>M. Vracko</i> ² . ¹ University of Houston-Victoria, Victoria, TX; ² Division of Toxicology and Human Health Sciences, Agency for Toxic Substances and Disease Registry, Atlanta, GA; and ³ Laboratory of Chemometrics, National Institute of Chemistry, Ljubljana, Slovenia.	#2222	Poster Board Number439 Converging Bioinformatics Evidence Implicates Endocrine-Disrupting Pesticide Mixture Exposure on Epigenetic Regulation of KISS1-GnRH Control on Precocious or Delayed Puberty. <i>A. Deoraj</i> , and <i>D. Roy</i> . Environmental & Occupational Health, Florida International University, Miami, FL.
#2214	Poster Board Number431 3D-SDAR Analysis of PLD and hERG. Are They Related? <i>I. Slavova</i> ¹ , <i>S. H. Slavov</i> ¹ , <i>D. A. Buzatu</i> ¹ , <i>N. L. Kruhlak</i> ² , <i>J. M. Willard</i> ² , <i>J. P. Hanig</i> ² , <i>J. G. Wilkes</i> ¹ , and <i>R. D. Beger</i> ¹ . ¹ NCTR, Jefferson, AR; and ² CDER, Silver Spring, MD.	#2223	Poster Board Number440 HTS and SAR Analysis of Chemicals from the Elk River Spill. <i>S. S. Auerbach</i> ¹ , <i>N. Y. Choksi</i> ² , <i>S. Ferguson</i> ¹ , <i>J. Hsieh</i> ¹ , <i>D. L. Svoboda</i> ³ , <i>G. J. Myatt</i> ⁴ , <i>M. Wampole</i> ⁵ , <i>A. Sedykh</i> ⁶ , <i>M. Lawless</i> ⁷ , <i>J. Proust</i> ⁸ , <i>N. J. Walker</i> ¹ , <i>S. Masten</i> ¹ , <i>M. S. Wolfe</i> ¹ , <i>R. R. Tice</i> ¹ , and <i>J. R. Bucher</i> ¹ . ¹ NIEHS/DNTP, Research Triangle Park, NC; ² ILS, Inc, Research Triangle Park, NC; ³ SSS, Inc., Durham, NC; ⁴ Leadscope, Inc., Columbus, OH; ⁵ Thompson Reuters, New York, NY; ⁶ MultiCASE, Inc., Beachwood, OH; ⁷ Simulations Plus, Inc., Lancaster, CA; and ⁸ Proust Institute for Biomedical Research, Barcelona, Spain.
#2215	Poster Board Number432 Genome-Wide Comparison of Four Toxicogenomics Assay Systems. <i>Z. Liu</i> , <i>H. Fang</i> , <i>J. Xu</i> , and <i>W. Tong</i> . National Center for Toxicological Center, FDA, Jefferson, AR.		
#2216	Poster Board Number433 Building Predictive Gene Signatures through Simultaneous Assessment of Transcription Factor Activation and Gene Expression. <i>N. M. VanDuyn</i> ^{1,2} , <i>J. Franzosa</i> ¹ , <i>K. Houck</i> ¹ , <i>W. Ward</i> ¹ , <i>A. Medvedev</i> ³ , <i>S. S. Makarov</i> ³ , <i>B. N. Chorley</i> ¹ , and <i>C. Corton</i> ¹ . ¹ US EPA, Durham, NC; ² ORISE, Durham, NC; and ³ Attagene, Inc., Morrisville, NC.		

Program Schedule (Continued)

- Abstract #**
- #2224 **Poster Board Number 441**
Making Sense of the New ToxCast Data: A Case Study with PPAR γ D. L. Filer, K. Houck, M. T. Martin, and R. Judson. US EPA NCCT, Research Triangle Park, NC.
- #2225 **Poster Board Number 442**
Bioinformatic Analysis of Epigenome Response to Environmental Pollutants. D. Mitic Potkrajac¹, V. Veljovic¹, G. Apic¹, and R. B. Russell². ¹Cambridge Cell Networks Ltd, Cambridge, United Kingdom; and ²Cell Networks, University of Heidelberg, Heidelberg, Germany.
- #2226 **Poster Board Number 443**
Comparative Data-Mining Across Multiple Toxicity Databases Harmonized by eTOX Ontology to Test Hypotheses. T. Steger-Hartmann¹, F. Pognan², F. Sanz³, K. Briggs⁴, S. Escher⁵, T. Kleinoeder⁶, C. Schwab⁶, J. Wichard¹, and C. Yang⁶. ¹Bayer HealthCare, Berlin, Germany; ²Novartis, Basel, Switzerland; ³IMIM-UPF, Barcelona, Spain; ⁴Lhasa Ltd., Leeds, United Kingdom; ⁵Fraunhofer ITEM, Hanover, Germany; and ⁶Molecular Networks GmbH, Erlangen, Germany.
- #2227 **Poster Board Number 444**
Relating Adverse Events to Contraindications: A New Window into Drug Toxicity. C. Hasselgren¹, O. Ursu¹, J. Bhate², U. Mahadevan², and T. Oprea¹. ¹Department of Internal Medicine, University of New Mexico, Albuquerque, NM; and ²Molecular Connections Pvt. Ltd, Bangalore, India.
- #2228 **Poster Board Number 445**
Fish Connectivity Mapping: A Transcriptomics-Based Tool for Ecotoxicology. R. Wang. NERL, US EPA, Cincinnati, OH. Sponsor: D. Villeneuve.
- #2229 **Poster Board Number 446**
Structure-Activity Model for Temporal Scaling Factors of Inhaled Hazardous Chemicals. A. Prussia, J. S. Snyder, and E. Demchuk. Division of Toxicology and Human Health Sciences, Agency for Toxic Substances and Disease Registry, Atlanta, GA. Sponsor: J. Wheeler.
- #2230 **Poster Board Number 447**
Assessment of the Predictive Use of the ECOSAR In Silico Modeling Program in Comparison to Experimental Data for the Fish Aquatic Toxicity Test Study Endpoint. K. Fitzpatrick, and P. Aikens. Huntingdon Life Sciences, Huntingdon. Sponsor: C. Auletta.
- #2231 **Poster Board Number 448**
A Framework for Rapid Hazard Assessment of Chemicals Using Quantitative Adverse Outcome Pathways. E. J. Perkins¹, N. G. Reyero Vinas², K. Gust^{1,2}, F. C. Hill¹, M. Mayo¹, and J. K. Stanley¹. ¹Environmental Laboratory, US Army, Engineer Research & Development Center, Vicksburg, MS; and ²Institute for Digital Biology, Mississippi State University, Starkville, MS.
- #2232 **Poster Board Number 449**
Chemical Structural Profiling of ToxCast II Compounds Predicted Lack of Reactivity in Nrf2, MTF2, and CREB3, Hallmarks for Nonspecific Cellular Stress. B. Bhatarai, D. Wilson, S. Marty, R. Hunziker, P. S. Price, and E. W. Carney. TERC, The Dow Chemical Company, Midland, MI.

- Abstract #**
- #2233 **Poster Board Number 450**
Development of a Conceptual Module to Investigate Pharmacokinetic Influences When Evaluating Chemicals in Adverse Outcome Pathways. J. A. Leonard¹, C. Grulke², M. Goldsmith³, D. T. Chang³, M. B. Phillips¹, and Y. C. Tan¹. ¹National Exposure Research Laboratory, US Environmental Protection Agency, Research Triangle Park, NC; ²Lockheed Martin, Durham, NC; and ³Chemical Computing Group, Montreal, QC, Canada.
- #2234 **Poster Board Number 451**
An In Silico Skin Absorption Model for Fragrance Materials. J. Shen¹, L. Kromidas¹, T. W. Schultz², and S. Bhatia¹. ¹RIFM, Inc., Woodcliff Lake, NJ; and ²The University of Tennessee, Knoxville, TN.
- #2235 **Poster Board Number 452**
A Pilot Study of Clustering-Based Safety Assessment for Fragrance Ingredients. J. Shen, L. Kromidas, D. Wilcox, A. Api, and S. Bhatia. RIFM, Inc., Woodcliff Lake, NJ.
- #2236 **Poster Board Number 453**
Development of Chemical Categories by Optimized Clustering Strategies. A. Bitsch¹, M. Batke¹, U. Gundert-Remy², M. Gütlein³, S. Kramer⁴, F. Partosch², and M. Seeland⁵. ¹Chemical Risk Assessment, Fraunhofer Institute of Toxicology and Experimental Medicine, Hannover, Germany; ²Institute for Clinical Pharmacology and Toxicology, Charité, Berlin, Germany; ³FDM, University of Freiburg, Freiburg, Germany; ⁴Institute of Computer Science, University Mainz, Mainz, Germany; and ⁵Institute of Computer Science, Information Systems, Technical University of Munich, Munich, Germany.
- #2237 **Poster Board Number 454**
In Silico Prediction of Physicochemical Properties of Environmental Chemicals in Combination of Molecular Fingerprints and Machine Learning Approaches. Q. Zang¹, K. Mansouri², D. G. Allen¹, N. Kleinstreuer¹, W. Casey³, and R. Judson². ¹ILS/NICEATM, Research Triangle Park, NC; ²EPA/ORD/NCCT, Research Triangle Park, NC; and ³NTP/NICEATM, Research Triangle Park, NC.

Wednesday Afternoon, March 25
 1:00 PM to 4:30 PM
 CC Exhibit Hall

Poster Session: Epigenetics

Epigenomic Influences in Toxicological Responses

Chairperson(s): Tao Chen, School of Public Health, Soochow University, Suzhou, China; and Asok K. Dasmahapatra, National Center for Natural Product Research, University of Mississippi, University, MS.

Displayed: 1:00 PM–4:30 PM

Author-Attended: 2:45 PM–4:30 PM

- #2238 **Poster Board Number 501**
Changes of DNA Methylation Patterns in Subjects Exposed to Polycyclic Aromatic Hydrocarbon. H. Duan¹, Z. He², P. Bin¹, Y. Niu¹, W. Chen², and Y. Zheng¹. ¹Key Laboratory of Chemical Safety and Health, National Institute of Occupational Health and Poison Control, Chinese Center for Disease Control and Prevention, Beijing, China; and ²Faculty of Preventive Medicine, School of Public Health, Sun Yat-sen University, Guangzhou, China.

Program Schedule (Continued)

Abstract #	Abstract #	Abstract #	Abstract #
#2239	Poster Board Number502 HDAC Inhibition by Sodium Butyrate Reduces Insulin Resistance and Fat Deposition and Protects Beta Cell Dysfunction in Type 2 Diabetic Rat: Investigation on Chromatin-Dependent Mechanisms. S. Khan, and G. Jena. Department of Pharmacology and Toxicology, National Institute of Pharmaceutical Education and Research (NIPER), Mohali, India.	#2246	Poster Board Number509 Reveratrol Treatment Results in a miRNA-Regulatory Network in Renal Cancer Cells and Suppresses Cancer Growth and Metastasis by Therapeutically Targeting miR-181d, miR-21, miR-10a, miR-17, BCL-2, CDC25a, MCL-1, and STAT3. H. Guan ^{1,2} , L. Chen ³ , S. Yang ³ , P. S. Nagarkatti ¹ , and M. Nagarkatti ^{1,2} . ¹ Pathology, Microbiology and Immunology, University of South Carolina School of Medicine, Columbia, SC; ² WJB Dorn Veterans Affairs Medical Center, Columbia, SC; and ³ Urology, Renmin Hospital of Wuhan University, Wuhan, China.
#2240	Poster Board Number503 The Steroidal Saponin, Dioscin, Isolated from Wild Yam (<i>Dioscorea villosa</i>) Root Extract, Has the Potential to Modulate Human Breast Cancer Metastasis. P. Aumsuwan ^{2,1} , S. I. Khan ^{1,3} , I. A. Khan ^{1,3} , L. A. Walker ^{1,2} , Z. Ali ¹ , B. Avula ¹ , and A. K. Dasmahapatra ^{1,2} . ¹ National Center for Natural Product Research, University of Mississippi, University, MS; ² Department of BioMolecular Sciences, Pharmacology Division, University of Mississippi, University, MS; and ³ Department of BioMolecular Sciences, Pharmacognosy Division, University of Mississippi, University, MS.	#2247	Poster Board Number510 Persistence of Genomic Effects following Early-Life Exposure to a Nongenotoxic Carcinogen in Mice. B. N. Chorley ¹ , G. Carswell ¹ , S. D. Hester ¹ , H. Mortensen ¹ , A. D. Lake ² , A. B. DeAngelo ¹ , and C. E. Wood ¹ . ¹ National Health and Environmental Effects Research Laboratory, US Environmental Protection Agency, Research Triangle Park, NC; and ² Oakridge Institute for Science and Education, Research Triangle Park, NC.
#2241	Poster Board Number504 Examining Environmental Effects on the Epigenome. J. A. Camacho, P. Allard, S. Kreik, and Z. Lundby. Molecular Toxicology, UCLA, Los Angeles, CA.	#2248	Poster Board Number511 Dioxin (TCDD) Induces Epigenetic Transgenerational Inheritance through Alterations in DNA Methylation, Histone Modifications, and microRNA Profile. N. P. Singh ¹ , X. Yang ¹ , U. P. Singh ¹ , M. Nagarkatti ^{1,2} , and P. S. Nagarkatti ¹ . ¹ Pathology, Microbiology, and Immunology, University of South Carolina School of Medicine, Columbia, SC; and ² WJB Dorn Veterans Affairs Medical Center, Columbia, SC.
#2242	Poster Board Number505 Epigenetic Regulation of miR-182-5p Overexpression Contributes to the Hepatocarcinogenicity of Trichloroethylene in B6C3F1 Mice. Y. Jiang, J. Chen, J. Tong, and T. Chen. School of Public Health, Soochow University, Suzhou, China.	#2249	Poster Board Number512 MicroRNA hsa-miR-128-3p Reduced CYP2C9 Expression in Human Liver Cells. B. Ning ¹ , D. Yu ¹ , B. Green ¹ , A. K. Marrone ¹ , Y. Guo ² , S. Kadlubar ³ , J. C. Fuscoe ¹ , and I. Pogribny ¹ . ¹ NCTR/FDA, Jefferson, AR; ² Beijing Children's Hospital, Beijing, China; and ³ University of Arkansas for Medical Sciences, Little Rock, AR.
#2243	Poster Board Number506 MicroRNAs and Their Potential Involvement in Arsenic-Induced Oxidative Stress. X. Ren ¹ , Z. Gong ¹ , C. Hang ² , H. Yan ² , J. R. Olson ¹ , T. Kavanagh ³ , and H. Wu ² . ¹ University at Buffalo, Buffalo, NY; ² Wenzhou Medical University, Wenzhou, China; and ³ Environmental and Occupational Health Sciences, University of Washington, Seattle, WA.	#2250	Poster Board Number513 DNA Methylation Profiles in Liver and Kidney during the Rat Life Span Show Age, Sex, and Tissue Differences. T. Han, V. Vijay, C. Moland, J. C. Kwekel, V. G. Desai, and J. C. Fuscoe. Division of Systems Biology, USFDA/NCTR, Jefferson, AR.
#2244	Poster Board Number507 Aluminum Maltolate Alters Cell Cycle Progression and Histone Modifications in Mouse Embryonic Stem Cells. S. R. Gadhia, and F. A. Barile. Department of Pharmaceutical Sciences, St. John's University, Queens, NY.	#2251	Poster Board Number514 Epigenetic Markers of B Cell Differentiating Transcription Factor Genes in Mice Exposed to Dust from Nellis Dunes Recreational Area, Clark County, Nevada. L. Murphy ¹ , C. E. Banister ² , B. J. Buck ³ , D. Goossens ³ , J. DeWitt ⁴ , and D. E. Keil ¹ . ¹ Microbiology and Immunology, Montana State University, Bozemen, MT; ² Drug Discovery and Biomedical Sciences, South Carolina College of Pharmacy, University of South Carolina, Columbia, SC; ³ Geoscience, University of Nevada Las Vegas, Las Vegas, NV; and ⁴ Pharmacology and Toxicology, East Carolina University, Greenville, NC.
#2245	Poster Board Number508 Does the Epigenome Predispose for Susceptibility to DNA Damage? M. Jetten ¹ , S. Claessen ¹ , H. Gmuender ² , J. van Delft ¹ , T. Wittenberger ² , and J. Kleinjans ¹ . ¹ Toxicogenomics, Maastricht University, Maastricht, Netherlands; and ² Genedata AG, Basel, Switzerland. Sponsor: H. van Loveren.		

Program Schedule (Continued)

Abstract #	Abstract #
#2252	#2259
Poster Board Number515 DDT Exposure Reduces DNA Global Methylation in Susceptible MTHFR 677 C>T Pregnant Mexican Women. R. Ruiz-Ramos ¹ , L. E. Torres-Sánchez ² , M. La Merrill ³ , L. López-Carrillo ² , J. Chen ^{3,4} , and M. E. Cebrian ⁵ . ¹ Institute of Forensic Medicine, Universidad Veracruzana, Boca del Rio, Mexico; ² Reproductive Health, INSP, Cuernavaca, Mexico; ³ Department of Preventive Medicine, Mount Sinai School of Medicine, New York, NY; ⁴ Department of Pediatrics, Mount Sinai School of Medicine, New York, NY; and ⁵ Department of Toxicology, CINVESTAV, Mexico City, Mexico.	Poster Board Number522 Use of an <i>In Vitro</i> Stem Cell-Based Model of Early Mammalian Germ Cell Development to Investigate the Effects of Environmental Chemicals on Epigenetic DNA Marks during Gamete Formation. E. L. Marczylo ¹ , J. Janus ² , and T. W. Gant ^{1,2} . ¹ Toxicology, Public Health England, Didcot, United Kingdom; and ² Systems Toxicology Group, Medical Research Council, Leicester, United Kingdom.
#2253	#2260
Poster Board Number516 DNA Methylation Modifies Urine Biomarker Levels in 1,6-Hexamethylene Diisocyanate Exposed Workers: A Pilot Study. L. A. Nylander-French ¹ , M. C. Wu ² , J. E. French ³ , J. Boyer ¹ , L. Smeester ⁴ , A. Sanders ⁴ , and R. Fry ¹ . ¹ Environmental Sciences & Engineering, University of North Carolina at Chapel Hill, Chapel Hill, NC; ² Public Health, Fred Hutchinson Cancer Research Center, Seattle, WA; ³ TOXGEN/TOXicoGENetics, Chapel Hill, NC; and ⁴ Preventive Medicine, Icahn School of Medicine at Mount Sinai, New York, NY.	Poster Board Number523 A Mechanistic Study of Cigarette Smoke-Induced COPD in C57BL/6 Mice: The Changes in Lung Epigenome following Smoking Cessation or Switching to Aerosol from a Prototypic Modified-Risk Tobacco Product. N. Siero ¹ , M. Talikka ¹ , J. Hoeng ¹ , M. Peitsch ¹ , A. Hayes ^{2,3} , and N. Ivanov ¹ . ¹ Philip Morris International R&D, Neuchatel, Switzerland; ² Spherix Consulting, Rockville, MD; and ³ Scientific Advisory Board, Philip Morris International R&D, Neuchatel, Switzerland.
#2254	#2261
Poster Board Number517 Furan Induces Long-Term Persistent Epigenetic Alterations in the Livers of Fisher 344 Rats. A. de Conti ¹ , T. Kobets ¹ , S. D. Burnett ¹ , V. Tryndyak ¹ , T. Han ² , J. C. Fuscoe ² , F. A. Beland ¹ , D. R. Doerge ² , and I. Pogribny ¹ . ¹ Division of Biochemical Toxicology, National Center for Toxicological Research, Jefferson, AR; and ² Division of Systems Biology, National Center for Toxicological Research, Jefferson, AR.	Poster Board Number524 <i>In Utero</i> Lead (Pb) Exposure and Neuron-Specific DNA Methylation Changes in Mice. Z. Farooqui ¹ , K. Bakulski ² , C. Faulk ¹ , A. K. Barks ³ , and D. Dolinoy ¹ . ¹ Environmental Health Sciences, University of Michigan, Ann Arbor, MI; ² Johns Hopkins University, Baltimore, MD; and ³ University of Minnesota, Minneapolis, MN.
#2255	#2262
Poster Board Number518 Methylation Profiles in Chronic Smokers and Moist Snuff Consumers. G. L. Prasad, and M. F. Borgerding. R & D, RJ Reynolds Tobacco Co, Winston-Salem, NC.	Poster Board Number525 Impact of Transplacental Polycyclic Aromatic Hydrocarbon Exposure on the Epigenome. T. Fish, D. Larson, and A. D. Benninghoff. Department of Animal, Dairy and Veterinary Science, Utah State University, Logan, UT.
#2256	#2263
Poster Board Number519 Biological Impact of Repetitive Element-Mediated Changes in Transcription after Exposure to Cocaine. T. Wang ¹ , J. Feng ² , J. Santos ¹ , M. Cahill ² , L. Shen ² , D. Fargo ¹ , E. Nestler ² , and R. Woychik ¹ . ¹ NIEHS, Durham, NC; and ² Mount Sinai School of Medicine, New York, NY.	Poster Board Number526 Epigenome-Wide Effects of Perinatal Bisphenol A Exposure in Adult Mice with Hepatic Tumors. C. Weinhouse, C. Faulk, K. E. Sant, O. S. Anderson, M. A. Sartor, and D. Dolinoy. University of Michigan, Ann Arbor, MI.
#2257	#2264
Poster Board Number520 DNA Methylation and Hydroxymethylation As Biomarkers for Chemical Allergy. V. Chapman ^{1,2} , T. Zollinger ¹ , R. Terranova ² , J. Mogg ² , I. Kimber ¹ , and R. J. Dearman ¹ . ¹ Manchester University, Manchester, United Kingdom; and ² Discovery and Investigative Safety, Novartis Institutes for Biomedical Research, Basel, Switzerland.	Poster Board Number527 Toxic and Essential Metals, the Epigenome, and Placental Toxicity: Examining the Preeclamptic DNA Methylome. P. D. Ray ¹ , E. Martin ² , J. E. Laine ² , M. Grace ³ , P. Cable ³ , W. Bodnar ² , K. Boggess ³ , and R. Fry ^{1,2} . ¹ Toxicology, University of North Carolina at Chapel Hill, Fuquay Varina, NC; ² Gillings School of Public Health, University of North Carolina at Chapel Hill, Chapel Hill, NC; and ³ UNC Hospitals, University of North Carolina at Chapel Hill, Chapel Hill, NC.
#2258	#2265
Poster Board Number521 DNA Methylation: A Role in <i>In Vivo</i> T Cell Polarization? I. Kimber ¹ , V. Chapman ^{1,2} , T. Zollinger ² , R. Terranova ² , J. Mogg ² , and R. J. Dearman ¹ . ¹ Manchester University, Manchester, United Kingdom; and ² Discovery and Investigative Safety, Novartis Institutes for Biomedical Research, Basel, Switzerland.	Poster Board Number528 Epigenetics and Air Pollution: Adaptation to Daily Ozone Exposure Is Mediated through Chromatin Modifications. E. C. Bowers ^{1,2} , S. D. McCullough ² , L. A. Dailey ² , J. J. Kahle ² , and D. Diaz-Sanchez ² . ¹ UNC Chapel Hill, Chapel Hill, NC; and ² US Environmental Protection Agency, Research Triangle Park, NC.

Program Schedule (Continued)

Abstract #

- #2266 **Poster Board Number529**
Sex-Specific Effects of Arsenic on Global Levels of Histone Mark H3K36me2 in Peripheral Blood Mononuclear Cells from Bangladeshi Adults. C. G. Howe¹, M. Hall², V. Ilievski¹, V. N. Slavkovich¹, F. Parvez¹, A. B. Siddique³, M. H. Shahriar³, M. N. Uddin³, T. Islam³, J. H. Graziano¹, and M. Gamble¹. ¹Environmental Health Sciences, Columbia University, New York, NY; ²Epidemiology, Columbia University, New York, NY; and ³Columbia University Arsenic Project in Bangladesh, Dhaka, Bangladesh.
- #2267 **Poster Board Number530**
Nickel Induces Epigenetic Dysregulation through Repressive Chromatin Domain Disruption. S. Cuddapah¹, C. C. Jose¹, B. Xu², L. Jagannathan¹, C. Trac³, R. K. Mallela¹, T. Hattori³, D. Lai³, S. Koide³, and D. E. Schones². ¹Department of Environmental Medicine, NYU School of Medicine, Tuxedo, NY; ²Department of Cancer Biology, City of Hope, Duarte, CA; and ³Department of Biochemistry and Molecular Biology, The University of Chicago, Chicago, IL. Sponsor: *M. Costa*.
- #2268 **Poster Board Number531**
Effect of Prenatal Environmental Tobacco Smoke Exposure on Promoter Methylation and Asthma. S. Christensen¹, Z. Jaffar¹, K. E. Pinkerton³, M. Ferrini¹, V. Porter¹, B. Postma¹, A. Holian^{1,2}, and Y. Cho^{1,2}. ¹Center for Environmental Health Sciences, University of Montana, Missoula, MT; ²Biomedical and Pharmaceutical Sciences, University of Montana, Missoula, MT; and ³Center for Health and the Environment, University of California-Davis, Davis, CA.
- #2269 **Poster Board Number532**
Early Epigenetic Modulation of Nrf2 and Lipogenic Genes by PNPP Exposure of Bisphenol A Is Associated with Hepatic Steatosis in Female Mice. P. Shimpi¹, B. Rubin², A. Slitt¹, and M. K. Skinner¹. ¹University of Rhode Island, Kingston, RI; ²Tufts University, Boston, MA; and ³Washington State University, Pullman, WA.
- #2270 **Poster Board Number533**
High-Fat Diet Modifies the Effect of Perinatal Bisphenol A Exposure on the Epigenome. K. M. Collison, L. Marchlewicz, C. Faulk, and D. Dolinoy. Environmental Health Sciences, University of Michigan, Ann Arbor, MI.
- #2271 **Poster Board Number534**
Comparison of NAC and CAPE in Modulating H2O2-Induced Alterations in Cytotrophoblast Cell Survival, Apoptosis and miRNA Expression. C. E. Cross^{1,2}, M. F. Tolba³, J. T. Speidel¹, M. Xu¹, and S. Abdel-Rahman¹. ¹Obstetrics and Gynecology, University of Texas Medical Branch, Galveston, TX; ²School of Osteopathic Medicine, A.T. Still University, Mesa, AZ; and ³Pharmacology and Toxicology, Ain Shams University, Cairo, Egypt.
- #2272 **Poster Board Number535**
Sulforaphane Protection from Diabetic Nephropathy Is Possibly Mediated by Increasing Nrf2 Transcriptional Regulation of Metallothionein via Inhibition of HDAC2 Activity. L. Kong^{1,2}, H. Wu^{1,2}, L. Miao³, and L. Cai¹. ¹Pediatrics, University of Louisville, Louisville, KY; and ²Nephrology, 2nd Hospital of Jilin University, Changchun, China.

Abstract #

- #2273 **Poster Board Number536**
Genetic Damage Is Associated with the DNA Methylation in Cord Blood from a Population Highly Exposed to Air Pollutants. N. Montes¹, I. Alvarado-Cruz¹, I. García-Aguilar¹, M. J. Solís-Heredia¹, M. Rangel-Calvillo², E. López-Bayghen¹, and B. Quintanilla-Vega¹. ¹Toxicology, CINVESTAV, Ciudad de México, Mexico; and ²General Hospital Dr. José María Rodríguez, Mexico City, Mexico.
- #2274 **Poster Board Number537**
Integrated Bioinformatics Analysis of microRNA and mRNA Expression Profiles in the Liver of Rats Treated with a Nongenotoxic Hepatocarcinogen, Thioacetamide. Y. Morikawa¹, T. Uehara¹, Y. Wang², C. Castro^{2,3}, B. Gong², J. Yan², T. Chen², M. Kaneto², and W. Tong². ¹Shionogi & Co., Ltd., Osaka, Japan; ²National Center for Toxicological Research, US FDA, Jefferson, AR; and ³University of North Carolina, Charlotte, NC.

Wednesday Afternoon, March 25
1:00 PM to 4:30 PM
CC Exhibit Hall

Poster Session: Kidney

Chairperson(s): *Monica Valentovic, Pharmacology, Physiology and Toxicology, Marshall University School of Medicine, Huntington, WV.*

Displayed: 1:00 PM–4:30 PM

Author-Attended: 1:00 PM–2:45 PM

- #2275 **Poster Board Number539**
Renal Tubular Pigmentation Associated with Senna Administration. G. A. Willson¹, D. Malarkey², N. Allison¹, J. K. Dunnick², J. F. Hardisty¹, and R. A. Miller¹. ¹Experimental Pathology Laboratories, Inc., Durham, NC; and ²NIEHS, NIH/DHHS, Research Triangle Park, NC.
- #2276 **Poster Board Number540**
Comparison of the Expression of Stem Cell Markers in Monolayer and Spheroid Cell Cultures of Human Renal Epithelial Cells with That Expressed in the Immortalized Human Proximal Tubule Cell Line, HK-2. S. Shrestha, S. H. Garrett, D. A. Sens, and S. Somji. Pathology, University of North Dakota, Grand Forks, ND.
- #2277 **Poster Board Number541**
Nephrotoxicity following Soman (GD) Exposure in the Rat Model. J. F. Irwin¹, M. Guignet¹, K. Laitipaya¹, A. Opitz¹, M. Wegner², J. H. McDonough¹, and E. A. Johnson¹. ¹Research, USAMRICD, Aberdeen Proving Ground, MD; and ²Research Support, USAMRICD, Aberdeen Proving Ground, MD.
- #2278 **Poster Board Number542**
Role of Renal Bioactivation Enzyme Systems on 3,5-Dichloronitrobenzene (3,5-DCNB)-Induced Nephrotoxicity In Vitro. J. Tate², C. Racine¹, S. Vermudez², C. Tyree¹, D. Ward¹, D. Anestis¹, and G. O. Rankin¹. ¹Pharmacology, Physiology and Toxicology, Marshall University, Huntington, WV; ²West Virginia Wesleyan College, Buckhannon, WV; and ³Chaminade University, Honolulu, HI.

PS Poster Sessions

RI Regional Interest Session

R Roundtable Sessions

S Symposium Sessions

TS Thematic Sessions

W Workshop Sessions

Program Schedule (Continued)

Abstract #		Abstract #	
#2279	Poster Board Number543 Potential Mechanisms Involved in the Aggravation of Renal Tubulointerstitial Fibrosis Caused by Fluoride Exposure in Rats with Unilateral Ureteral Obstruction. T. Kido ^{1,2} , M. Tsunoda ² , C. Sugaya ² , H. Hano ³ , and H. Yanagisawa ¹ . ¹ Public Health and Environmental Medicine, The Jikei University School of Medicine, Tokyo, Japan; ² Hygiene, Kitasato University School of Medicine, Sagami-hara, Japan; and ³ Pathology, Jikei University School of Medicine, Tokyo, Japan.	#2286	Poster Board Number550 Evaluation of Biomarkers of Early Kidney Injury in an Adult Mexican Population Environmentally Exposed to Fluoride. M. I. Jiménez-Córdova ¹ , M. Cárdenas-González ¹ , G. Aguilar Madrid ² , A. Barrera-Hernández ¹ , E. E. Villarreal-Vega ³ , I. A. Domínguez-Guerrero ³ , R. Infante-Ramírez ³ , C. González-Horta ³ , O. Barbier ¹ , and L. M. Del Razo ¹ . ¹ Toxicology, Cinvestav-IPN, Mexico City, Mexico; ² Salud en el Trabajo, Instituto Mexicano del Seguro Social, Mexico City, Mexico; and ³ Ciencias Químicas, Universidad Autónoma de Chihuahua, Chihuahua, Mexico.
#2280	Poster Board Number544 Canine Renal Proximal Tubule Cells As an In Vitro Model for Toxicity Assessment of Pet Food Ingredients. J. Koci ¹ , B. Jeffery ² , J. E. Riviere ¹ , and N. A. Monteiro-Riviere ¹ . ¹ Anatomy and Physiology, College of Veterinary Medicine, Kansas State University, Manhattan, KS; and ² Mars Inc., Global Quality and Food Safety, McLean, VA.	#2287	Poster Board Number551 Imaging Techniques Supporting Human Risk Assessment of Drug-Induced Crystal Nephropathy in Preclinical Studies. B. Lenz ¹ , U. Niederhauser ¹ , S. Deininger ² , J. Fuchser ² , M. Siam ³ , S. Schadt ¹ , A. De Paepel ¹ , P. Maliver ¹ , R. Zurbach ¹ , and M. Albassam ¹ . ¹ Roche Pharma Research and Early Development, Hoffmann-La Roche, Basel, Switzerland; ² Bruker Daltonik, Bremen, Germany; and ³ Accelrys AG, Liestal, Switzerland.
#2281	Poster Board Number545 Diglycolic Acid, the Toxic Metabolite of Diethylene Glycol, Inhibits Renal Mitochondrial Respiration. R. H. Nichols, T. Conrad, and K. McMartin. Pharmacology, Toxicology & Neuroscience, LSU Health Sciences Center, Shreveport, LA.	#2288	Poster Board Number552 Hepcidin: A Novel Treatment for Heme-Mediated Kidney Injury? R. van Swelm ^{1,2} , J. Wetzels ³ , V. Verweij ² , C. Laarakkers ¹ , J. Pertijs ² , R. Masereeuw ² , and D. Swinkels ¹ . ¹ Laboratory Medicine, Radboudumc, Nijmegen, Netherlands; ² Pharmacology and Toxicology, Radboudumc, Nijmegen, Netherlands; and ³ Nephrology, Radboudumc, Nijmegen, Netherlands. Sponsor: F. Russel.
#2282	Poster Board Number546 Effects of Polyphenolics of <i>Cocos nucifera</i> Husk Fiber on Selected Kidney Function Indices in Rat. J. O. Adebayo, O. O. Owolabi, S. T. Baruwaa, S. O. Malomo, and E. A. Balogun. Biochemistry, University of Ilorin, Ilorin, Nigeria.	#2289	Poster Board Number553 Acute Renal Toxicity to Diglycolic Acid: Preliminary Findings of an In Vitro-to-In Vivo Comparison. M. Mossoba, Z. Keltner, T. Black, N. Olejnik, A. S. DePina, K. Belgrave, V. Topping, P. Wiesenfeld, J. Sprando, S. Vohra, H. Toomer, and R. Sprando. Division of Toxicology, Food and Drug Administration, Laurel, MD. Sponsor: J. Yourick.
#2283	Poster Board Number547 Exploring the Role of Oxidative Stress in 3,5-Dichloroaniline (3,5-DCA)-Induced Nephrotoxicity In Vitro. C. Racine, D. Anestis, J. G. Ball, M. Valentovic, and G. O. Rankin. Pharmacology, Physiology, and Toxicology, Marshall University, Huntington, WV.	#2290	Poster Board Number554 High-Concentration SGLT2 Inhibitor-Mediated Change in Renal Glucose Metabolism. P. F. Secker, S. Hochrein, and D. R. Dietrich. Human & Environmental Toxicology, University of Konstanz, Konstanz, Germany.
#2284	Poster Board Number548 A Predominant Role of Prostaglandin E₂ Receptor EP1 in Dioxin-Induced Neonatal Hydronephrosis. K. Aida-Yasuoka ¹ , W. Yoshioka ¹ , A. Shimada ¹ , N. Fujisawa ¹ , N. Endo ¹ , S. Narumiya ² , N. Nishimura ¹ , and C. Tohyama ¹ . ¹ Grad. Sch. of Med., The Univ. of Tokyo, Tokyo, Japan; and ² Grad. Sch. of Med., Kyoto Univ., Kyoto, Japan.	#2291	Poster Board Number555 Unravelling the Phenomenon of Propiverine-Induced DAAO Accumulation in Rat Kidney: A Direct Approach. A. Heussner ¹ , M. Y. Maier ¹ , L. Luks ¹ , P. F. Secker ¹ , S. Sacchi ^{2,3} , L. Pollegioni ^{2,3} , and D. R. Dietrich ¹ . ¹ Human & Environmental Toxicology, University of Konstanz, Konstanz, Germany; ² Dipartimento di Biotecnologie e Scienze della Vita, Università degli studi dell'Insubria, Varese, Italy; and ³ Centro Interuniversitario di Ricerca in Biotecnologie Proteiche The Protein Factory, Politecnico di Milano, Milano, Italy.
#2285	Poster Board Number549 Strain Differences in Renal Biomarker Response following Cisplatin or Vancomycin Administration in Sprague-Dawley and Wistar Han Rats. L. Besenhofer ¹ , R. Yeager ¹ , T. L. Palenski ¹ , C. Mattis ¹ , D. Desmond ¹ , S. Riendl ¹ , J. K. Johnson ¹ , H. Yang ² , and K. Barnhart ¹ . ¹ Preclinical Safety, AbbVie, Inc., North Chicago, IL; and ² Data and Statistical Sciences, AbbVie, Inc., North Chicago, IL.	#2292	Poster Board Number556 Unravelling the Mechanism of Propiverine-Induced DAAO Accumulation in Rat Kidney: The Role of Proteasomal Degradation. L. Luks, and D. R. Dietrich. Human & Environmental Toxicology, University of Konstanz, Konstanz, Germany.

Program Schedule (Continued)

Abstract #

- #2293 **Poster Board Number557**
Identification of Epigenetic Modifications of CDK Inhibitors Induced by Nephrotoxicants Using Targeted DNA Methylation and Next-Generation Sequencing. R. T. Kolli¹, N. E. Scholpa¹, T. C. Glenn², and B. S. Cummings¹. ¹Pharmaceutical Biomedical Sciences, University of Georgia, Athens, GA; and ²Environmental Health Science, University of Georgia, Athens, GA.
- #2294 **Poster Board Number558**
Live Cell High-Content Imaging to Mechanistically Classify Kidney Toxicity. S. Ramm, W. W. Chen, and V. S. Vaidya. Laboratory of Systems Pharmacology, Harvard Medical School, Boston, MA.
- #2295 **Poster Board Number559**
Renal Expression of TGF- β 1 and Inflammation-Related miRNAs in a Rat Model after Subchronic Exposure to Fluoride. B. Parada-Cruz, T. Jacobo-Estrada, M. Cárdenas-González, E. López-Ventura, and O. Barbier. Toxicología, CINVESTAV, Mexico City, Mexico.
- #2296 **Poster Board Number560**
Inhibition of TGF- β 1-Induced Renal Epithelial Mesenchymal Transition (EMT) by Chrysin Is Mediated through Akt Inhibition. S. M. Ford, and R. Nagavally. Toxicology Program, St. John's University, Jamaica, NY.
- #2297 **Poster Board Number561**
Early Detection of Kidney Toxicity in Humans Using Urinary microRNA-21, -200c and -423. M. Pavkovic¹, C. Robinson-Cohen², O. Nicoara³, D. Antoine⁴, J. Himmelfarb⁵, S. Waikar⁶, and V. S. Vaidya^{1,5}. ¹Laboratory of Systems Pharmacology, Harvard Medical School, Boston, MA; ²Kidney Research Institute, University of Washington, Seattle, WA; ³Nephrology, Boston Children's Hospital, Boston, MA; ⁴Molecular and Clinical Pharmacology, University of Liverpool, Liverpool, United Kingdom; and ⁵Department of Medicine, Brigham and Women's Hospital, Boston, MA.
- #2298 **Poster Board Number562**
Fluoride Enhances Basal Autophagy but Depresses Autophagic Response to Starvation in NRK-52E Cells. D. D. Lopez-Ventura¹, M. P. Santoyo¹, E. López-Ventura¹, J. Narváez Morales¹, L. Arreola-Mendoza², and O. Barbier¹. ¹Toxicología, CINVESTAV, Distrito Federal, Mexico; and ²CIEMAD-IPN, Distrito Federal, Mexico.
- #2299 **Poster Board Number563**
Effect of Cadmium Exposure during Gestation over HIF-1 in Rat Fetal Kidney. T. Jacobo, M. Cárdenas-González, B. Parada-Cruz, and O. Barbier. Toxicology, CINVESTAV, México City, Mexico.
- #2300 **Poster Board Number564**
ERK1/2 Suppresses PGC-1 α and Mitochondrial Biogenesis in Endotoxin and I/R-Induced AKI. J. Collier, J. A. Smith, R. M. Whitaker, and R. Schnellmann. Drug Discovery and Biomedical Sciences, Medical University of South Carolina, Charleston, SC.

Abstract #

- #2301 **Poster Board Number565**
Resveratrol Attenuates Cisplatin Cytotoxicity in HK-2 Cells: Effects on TNF α and Oxidative Stress. M. Valentovic, J. G. Ball, R. Murphy, A. Lamyathong, and A. Schnelle. Pharmacology, Physiology and Toxicology, Marshall University School of Medicine, Huntington, WV.
- #2302 **Poster Board Number566**
SMOC2 Mediates Kidney Fibrosis via Activating Fibroblasts. A. K. Ajay¹, F. Craciun¹, and V. S. Vaidya^{1,2,3}. ¹Medicine, Harvard Medical School, Boston, MA; ²Harvard Program in Therapeutic Sciences, Harvard Medical School, Boston, MA; and ³Department of Environmental Health, Harvard School of Public Health, Boston, MA.
- #2303 **Poster Board Number567**
Altered slc6a20b Sequence in Chemokine Receptor D6 Knockout Mice May Be Related to Protection from Diabetic Nephropathy. S. Zheng¹, J. Xu¹, D. Powell², H. Bodduluri³, L. Cai¹, and P. Epstein¹. ¹Pediatrics, University of Louisville, Louisville, KY; ²Nephrology and Hypertension, University of Louisville, Louisville, KY; and ³Microbiology and Immunology, University of Louisville, Louisville, KY.
- #2304 **Poster Board Number568**
The Hedgehog-Gli1 Pathway Promotes Ethanol-Induced Renal Fibrosis. C. Latchoumycandane¹, L. Nagy², and T. M. McIntyre¹. ¹Cellular & Molecular Medicine, Lerner Research Institute Cleveland Clinic, Cleveland, OH; and ²Pathobiology, Lerner Research Institute Cleveland Clinic, Cleveland, OH.
- #2305 **Poster Board Number569**
Effects of Pregnancy and Renal Insufficiency on the Disposition of Mercuric Ions. C. Bridges¹, C. S. Oliveira², L. Joshee¹, and R. K. Zalups¹. ¹Division of Basic Medical Sciences, Mercer University School of Medicine, Macon, GA; and ²Post-Graduate Course in Biological Science - Toxicological Biochemistry, Federal University of Santa Maria, Santa Maria, Brazil.
- #2306 **Poster Board Number570**
Fenofibrate Upregulates FGF21 and Nr1f2 Function to Prevent Diabetic Nephropathy. Y. Cheng^{1,2}, J. Zhang^{1,3}, Z. Xu², and L. Cai¹. ¹University of Louisville, Louisville, KY; ²Jilin University, Changchun, China; and ³The People's Hospital of Liaoning Province, Shenyang, China.

Wednesday Afternoon, March 25
1:00 PM to 4:30 PM
CC Exhibit Hall

Poster Session: Receptors

Chairperson(s): Curtis Omiecinski, Pennsylvania State University, University Park, PA.

Displayed: 1:00 PM–4:30 PM

Author-Attended: 2:45 PM–4:30 PM

- #2307 **Poster Board Number601**
Hepatocyte-Targeted Deletion of Aryl Hydrocarbon Receptor Increases Hepatic Energy Storage and Alters Energy Homeostasis. N. Girer, I. Murray, L. Zhang, A. Patterson, and G. H. Perdew. Center for Mol. Tox. and Carcinogen., Penn State University, University Park, PA.

- PS** Poster Sessions
- RI** Regional Interest Session
- R** Roundtable Sessions

- S** Symposium Sessions
- T** Thematic Sessions
- W** Workshop Sessions

Program Schedule (Continued)

Abstract #	Abstract #
#2308	#2315
Poster Board Number 602 Characterization of Human and Mouse PXR- and CAR-Mediated Transcriptional Activation by Bisphenol A and Its Related Compounds. H. Kojima ¹ , S. Sanoh ² , S. Takeuchi ¹ , K. Sugihara ³ , K. Yoshinari ⁴ , and S. Kitamura ⁵ . ¹ Hokkaido Institute of Public Health, Sapporo, Japan; ² Graduate School of Biomedical and Health Sciences, Hiroshima University, Hiroshima, Japan; ³ Faculty of Pharmaceutical Science, Hiroshima International University, Kure, Japan; ⁴ School of Pharmaceutical Sciences, University of Shizuoka, Shizuoka, Japan; and ⁵ Nihon Pharmaceutical University, Saitama, Japan. Sponsor: T. Yoshida.	Poster Board Number 609 Nuclear Receptor 4A1 (NR4A1) As a Drug Target for Renal Cell Adenocarcinoma. E. Hedrick ² , A. Abudayyeh ¹ , S. Lee ³ , G. Kim ⁴ , M. A. Abdelrahim ⁵ , U. Jin ⁴ , and S. H. Safe ^{2,4} . ¹ Department of Emergency Medicine, University of Texas MD Anderson, Houston, TX; ² Veterinary Physiology & Pharmacology, Texas A&M University, College Station, TX; ³ Department of Food Science and Technology, Keimyung University, Daegu, Republic of Korea; ⁴ Institute of Biosciences and Technology, Texas A&M Health Sciences Center, Houston, TX; and ⁵ Department of Internal Medicine, Baylor College of Medicine, Houston, TX.
#2309	#2316
Poster Board Number 603 The <i>In Vitro</i> and <i>In Vivo</i> Response to PPARα Activation in Rats. P. D. McMullen, S. Pendse, S. Bhattacharya, R. N. Hardwick, B. Parks, E. LeCluyse, R. A. Clewell, and M. E. Andersen. The Hamner Institutes for Health Sciences, Durham, NC.	Poster Board Number 610 Insect Growth-Regulating Insecticides Differentially Activate the PPAR Signaling Network. C. N. Holmes, and G. A. LeBlanc. Biological Sciences, North Carolina State University, Raleigh, NC.
#2310	#2317
Poster Board Number 604 Genome-Wide Analysis of Aryl Hydrocarbon Receptor (AhR)- and AhR Repressor (AhRR)-Bound Regions in Dioxin-Treated MCF7 Cells. Y. Yang, S. Ahmed, and J. B. Matthews. Department of Pharmacology and Toxicology, University of Toronto, Toronto, ON, Canada.	Poster Board Number 611 The Gut Microbiota Impacts Persistent Organic Pollutant-Associated Inflammation via an Aryl Hydrocarbon Receptor-Dependent Mechanism. L. Zhang ¹ , R. Nichols ¹ , R. Hao ¹ , J. Cai ¹ , P. Smith ¹ , E. Hatzakis ² , G. H. Perdew ¹ , and A. Patterson ¹ . ¹ Veterinary and Biomedical Sciences, Pennsylvania State University, University Park, PA; and ² Department of Chemistry, Pennsylvania State University, University Park, PA.
#2311	#2318
Poster Board Number 605 Role of the Aryl Hydrocarbon Receptor in the Development and Function of Breast Cancer Stem Cells. E. A. Stanford ¹ , O. Novikov ¹ , Z. Wang ¹ , G. Murphy ² , and D. H. Sherr ¹ . ¹ Environmental Health, Boston University School of Public Health, Boston, MA; and ² Hematology and Oncology, Boston University School of Medicine, Boston, MA.	Poster Board Number 612 Role of Nuclear Receptors in Steatohepatitis Caused by Aroclor 1260 and High-Fat Diet Coexposure. B. Wahlang ¹ , K. C. Falkner ² , M. Song ² , H. Clair ² , R. A. Prough ² , and M. Cave ^{1,2} . ¹ Pharmacology & Toxicology, University of Louisville, Louisville, KY; and ² Department of Medicine, University of Louisville, Louisville, KY.
#2312	#2319
Poster Board Number 606 Functional Differences among Polymorphic TCDD-Inducible Poly-ADP-ribose Polymerase (TIPARP) Variants. T. E. Cho, A. Gomez, and J. B. Matthews. Department of Pharmacology and Toxicology, University of Toronto, Toronto, ON, Canada.	Poster Board Number 613 CYP1A6 Induction by TCDD Is More Sensitive to TALEN Mutagenesis of AHR1β Than AHR1α in the <i>Xenopus laevis</i> Cell Line XLK-WG. S. H. Freeburg, E. G. Engelbrecht, and W. H. Powell. Biology, Kenyon College, Gambier, OH.
#2313	#2320
Poster Board Number 607 Nuclear Receptor 4A1 (NR4A1) Is a Drug Target for Treating Rhabdomyosarcoma. A. Reeder ¹ , E. Hedrick ¹ , and S. H. Safe ² . ¹ Veterinary Physiology & Pharmacology, Texas A&M University, College Station, TX; and ² Institute of Biosciences & Technology, Texas A&M Health Science Center, Houston, TX.	Poster Board Number 614 Interactions between Thyroid Hormone and Dioxin Signaling in the Frog <i>Xenopus laevis</i>. M. M. Koenecke, J. D. Taft, and W. H. Powell. Biology, Kenyon College, Gambier, OH.
#2314	#2321
Poster Board Number 608 Nuclear Receptor 4A1 (NR4A1) As a Drug Target for Breast Cancer Chemotherapy. E. Hedrick ¹ , S. Lee ² , J. Somagoni ³ , M. Singh ³ , and S. H. Safe ¹ . ¹ Veterinary Physiology and Pharmacology, Texas A&M University, College Station, TX; ² Department of Food Science and Technology, Keimyung University, Daegu, Republic of Korea; and ³ Department of Pharmaceutics, College of Pharmacy and Pharmaceutical Sciences, Florida A&M University, Tallahassee, FL.	Poster Board Number 615 Comparative Analysis of Quercetin and Its Structurally-Related Analogues on Activation of Rat and Human Vitamin D Receptor. A. Lau, G. Yang, and T. K. Chang. Faculty of Pharmaceutical Sciences, The University of British Columbia, Vancouver, BC, Canada.
	#2322
	Poster Board Number 616 (Ant)agonist-Induced Modulation of ERα and ERβ Cointeraction. L. de Haan ¹ , N. Evers ¹ , S. Wang ¹ , J. H. van den Berg ¹ , R. Houtman ² , J. P. Groten ^{2,1} , and I. Rietjens ¹ . ¹ Toxicology, Wageningen University, Wageningen, Netherlands; and ² Toxicology, Pamgene International B.V., 's Hertogenbosch, Netherlands.

Program Schedule (Continued)

Abstract #		Abstract #	
#2323	Poster Board Number 617 The Role of the Ah-Receptor in Aversion to Novel Food Items in Rats. S. Mahiout ¹ , V. Pustyl'nyak ² , and R. Pohjanvirta ¹ . ¹ University of Helsinki, Helsinki, Finland; and ² Novosibirsk State University, Novosibirsk, Russian Federation. Sponsor: M. Viluksela.	#2330	Poster Board Number 624 Differential Interactions of the Mouse and Human Constitutive Androstane Receptors (CAR) with RXRs and DNA-Binding Motifs. E. Laurenzana, R. Agrawal, and C. J. Omiecinski. Center for Molecular Toxicology, The Pennsylvania State University, University Park, PA.
#2324	Poster Board Number 618 The Autoinduction Mechanism of Aryl Hydrocarbon Receptor 2 (AhR2) through TCDD-Activated AhR1/2 in the Red Seabream (<i>Pagrus major</i>). S. Bak ¹ , E. Kim ^{1,2} , M. Iida ³ , and H. Iwata ³ . ¹ Life and Nanopharmaceutical Science, KyungHee University, Seoul, Republic of Korea; ² Biology, KyungHee University, Seoul, Republic of Korea; and ³ Center for Marine Environmental Studies, Ehime University, Matsuyama, Japan.	#2331	Poster Board Number 625 Activation of the Car and Pxr Nuclear Receptors in the Liver of MIBK-Exposed Mice. B. J. Hughes ¹ , M. J. LeBaron ¹ , L. Kan ¹ , A. M. Lynch ² , S. Borghoff ³ , S. M. Green ⁴ , T. Mensing ⁵ , S. S. Sarang ⁶ , and C. Smulders ⁶ . ¹ The Dow Chemical Company, Midland, MI; ² The American Chemical Council, Washington, DC; ³ ToxStrategies, Inc, Cary, NC; ⁴ Eastman Chemical, Kingsport, TN; ⁵ Sassol Solvent, Moers, Germany; and ⁶ Shell International, Houston, TX.
#2325	Poster Board Number 619 The Effect of Quercetin and Kaempferol Aglycones and Glucuronides on PPAR-γ Activation. K. Beekmann ^{1,2} , L. Rubio ³ , L. de Haan ¹ , L. Actis-Goretta ² , and I. Rietjens ¹ . ¹ Division of Toxicology, Wageningen University, Wageningen, Netherlands; ² Nestlé Research Center, Nestec Ltd., Lausanne, Switzerland; and ³ Department of Food Technology, Universitat de Lleida, Lleida, Spain.	#2332	Poster Board Number 626 ARNT Regulates Noncanonical NF-κB Activity through Modulation of RelB-p100 Nuclear Localization. K. Gardella, I. Muro, K. Sarkar, and C. Wright. Division of Pharmacology and Toxicology, College of Pharmacy, and The Center for Molecular and Cellular Toxicology, The University of Texas at Austin, Austin, TX.
#2326	Poster Board Number 620 Pharmacological Modulation of GRM1 Activation by Riluzole Results in a Reduction in Exosome Levels in Melanoma. A. L. Isola ^{1,2} , Y. Wen ³ , J. Goydos ³ , and S. Chen ^{1,2,3} . ¹ Susan Lehman Cullman Laboratory for Cancer Research, Ernest Mario School of Pharmacy, Rutgers University, Piscataway, NJ; ² Joint Graduate Program in Toxicology, Rutgers University, Piscataway, NJ; and ³ Rutgers, Cancer Institute of New Jersey, New Brunswick, NJ.	#2333	Poster Board Number 627 Constitutive Androstane Receptor/Pregnane X Receptor-Dependent CYP450 Inhibition and Metabolism of Antifungal Itraconazole. T. Chen, F. Chen, D. Coslo, and C. J. Omiecinski. Center for Molecular Toxicology and Carcinogenesis, Department of Veterinary and Biomedical Sciences, Pennsylvania State University, University Park, PA.
#2327	Poster Board Number 621 Functional Roles of the Ah Receptor PASB Domain Revealed by Site-Directed Mutagenesis. A. Soshilov, and M. Denison. Environmental Toxicology, University of California Davis, Davis, CA.	#2334	Poster Board Number 628 Hormetic Mechanism-Receptor/Cell Signaling Pathways. R. Blain ¹ , and E. J. Calabrese ² . ¹ ICF International, Fairfax, VA; and ² Department of Public Health and Health Sciences, Environmental Health Sciences Division, University of Massachusetts, Amherst, MA.
#2328	Poster Board Number 622 Dietary Beta-Naphthoflavone Exposure Suppresses Mammary Gland Differentiation and Lactogenic Gene Expression in Pregnant Mice. K. R. Belton, G. H. Perdew, and A. Patterson. Center for Molecular Toxicology and Carcinogenesis, Department of Veterinary and Biomedical Sciences, Pennsylvania State University, University Park, PA.	#2335	Poster Board Number 629 Aryl Hydrocarbon Receptor +/- Mice Are Protected from High-Fat Diet-Induced Disruption of Metabolic Rhythms. C. Jaeger, and S. Tischkau. Southern Illinois University School of Medicine, Springfield, IL.
#2329	Poster Board Number 623 Genomic Profiling of the Constitutive Androstane Receptor in Humanized Mice. B. Niu ¹ , C. A. Praul ¹ , I. Albert ³ , and C. J. Omiecinski ¹ . ¹ Center for Molecular Toxicology and Carcinogenesis, Department of Veterinary and Biomedical Sciences, Pennsylvania State University, University Park, PA; ² Genomics Core Facility, Pennsylvania State University, University Park, PA; and ³ Department of Biochemistry and Molecular Biology, Pennsylvania State University, University Park, PA.	#2336	Poster Board Number 630 Identification of Human Constitutive Androstane Receptor (hCAR) Modulators. C. Lynch ^{1,2} , J. Zhao ¹ , R. Huang ¹ , L. Li ² , H. Wang ² , and M. Xia ¹ . ¹ National Center for Advancing Translational Sciences, National Institute of Health, Rockville, MD; and ² Pharmaceutical Sciences, University of Maryland, Baltimore, Baltimore, MD.
		#2337	Poster Board Number 631 Ligand Activation of PPARβ/δ Attenuates Inflammation in Both Primary and KC13-2 Kupffer Cells. G. Balandaram ¹ , J. M. Peters ¹ , and F. Gonzalez ² . ¹ Department of Veterinary and Biomedical Sciences, The Pennsylvania State University, University Park, PA; and ² Laboratory of Metabolism, NCI, Bethesda, MD.

Program Schedule (Continued)

Abstract

- #2338 **Poster Board Number632**
The Nuclear Receptor Constitutive Androstane Receptor (CAR) Is Essential for Toxaphene-Induced Liver Tumorigenic Response in Mice. Z. Wang¹, X. Li¹, B. Neal², J. C. Lamb², and J. E. Klaunig¹. ¹Indiana University, Bloomington, IN; and ²Exponent Inc, Alexandria, VA.
- #2339 **Poster Board Number633**
The Role of Nuclear Receptors Constitutive Androstane Receptor and Pregnane X Receptor in Dieldrin-Induced Liver Tumors in Mouse. Q. Wu, Z. Wang, X. Li, and J. E. Klaunig. Indiana University, Bloomington, IN.
- #2340 **Poster Board Number634**
LXRα Antagonist, SPA088 Attenuates T0901317-Induced Nonalcoholic Fatty Liver. W. Sim¹, K. Lee¹, D. Kim¹, K. Shin², and B. Lee¹. ¹College of Pharmacy, Seoul National University, Seoul, Republic of Korea; and ²College of Pharmacy, The Catholic University, Bucheon, Republic of Korea.
- #2341 **Poster Board Number635**
Deletion of TIPARP Increases Sensitivity to Dioxin-Induced Hepatosteatosis and Lethality. S. Ahmed¹, D. Bott¹, A. Gomez¹, L. M. MacPherson¹, A. Rasheed², L. Tamblin¹, K. Sugamori¹, Y. Yang¹, T. E. Cho¹, C. Cummins², D. M. Grant^{1,2}, and J. B. Matthews¹. ¹Pharmacology, University of Toronto, Toronto, ON, Canada; and ²Pharmacy, University of Toronto, Toronto, ON, Canada.
- #2342 **Poster Board Number636**
Preliminary Characterization of a Suite of Nuclear Receptor Knockout Rats. K. P. Forbes, E. Kouranova, A. McCoy, and X. Cui. Research and Development, SAGE Labs, Saint Louis, MO. Sponsor: T. Brayman.

Wednesday Afternoon, March 25

1:00 PM to 4:30 PM

CC Exhibit Hall

Poster Session: Nanotoxicology, *In Vivo*

Chairperson(s): Alison Elder, University of Rochester, Rochester, NY.

Displayed: 1:00 PM–4:30 PM

Author-Attended: 1:00 PM–2:45 PM

- #2343 **Poster Board Number641**
Biokinetics and Effects of Barium Sulfate Nanoparticles. N. Konduru Venkata¹, R. Landsiedel², T. C. Donaghey³, J. Brain¹, W. Wohlleben², and R. M. Molina¹. ¹Environmental Health, Harvard School of Public Health, Boston, MA; and ²BASF SE, Ludwigshafen, Germany.
- #2344 **Poster Board Number642**
Identification of the Appropriate Dose Metric for Pulmonary Inflammation of Silver Nanoparticles in an Inhalation Toxicity Study. H. Braakhuis^{1,2}, F. R. Cassee^{2,3}, P. Fokkens², L. de la Fonteyne², W. H. de Jong², A. G. Oomen², P. Krystek⁴, H. van Loveren^{1,2}, and M. V. Park². ¹Department of Toxicogenomics, Maastricht University, Maastricht, Netherlands; ²National Institute for Public Health and the Environment (RIVM), Bilthoven, Netherlands; ³Institute of Risk Assessment Sciences, Utrecht, Netherlands; and ⁴Philips Innovation Services, Eindhoven, Netherlands.

Abstract

- #2345 **Poster Board Number643**
Effects of Amorphous Silica Coating on Cerium Oxide (CeO₂) Nanoparticle-Induced Pulmonary Responses. J. Y. Ma¹, R. R. Mercer¹, M. Barger¹, D. Schwegler-Berry¹, P. Demokritou², and V. Castranova³. ¹PPRB/HELD, NIOSH, Morgantown, WV; ²Harvard, Boston, MA; and ³School of Pharmacy, WVU, Morgantown, WV.
- #2346 **Poster Board Number644**
Biokinetic Comparison after Single IV Administration or Chronic Aerosol Inhalation of TiO₂ Nanoparticles: Impact on Blood-Brain Barrier. C. Disdier¹, J. Devoy², M. Chalansonnet², F. Gagnaire², L. Gate², F. Cosnier², and A. Mabondzo¹. ¹BiTec-S, CEA, Gif sur Yvette, France; and ²INRS, Toxicology and Biometry Division, INRS, Nancy, France. Sponsor: A. Lund.
- #2347 **Poster Board Number645**
“Taqunn” Dispersion Method with Direct Injection Whole-Body Inhalation System for Engineered Nano Materials Toxicity Studies. J. Kanno, and Y. Taquahashi. Division of Cellular and Molecular Toxicology, National Institute of Health Sciences, Tokyo, Japan.
- #2348 **Poster Board Number646**
Short-Term Inhalation of Nanosized Copper Oxide Results in Adverse Pulmonary Effects in Rats. I. Gosens¹, B. Bokkers¹, L. Manadori², D. Hristozov⁴, W. H. de Jong¹, V. Stone³, and F. R. Cassee¹. ¹National Institute for Public Health and the Environment (RIVM), Bilthoven, Netherlands; ²Veneto Nanotech, Rovigo, Italy; ³Heriot-Watt University, Edinburgh, United Kingdom; and ⁴University of Venice, Venice, Italy.
- #2349 **Poster Board Number647**
Biokinetics and Inhalation Toxicity of Nano-BaSO₄ after 1, 4, 13, and 52 Weeks of Exposure. J. Keller¹, L. Ma-Hock¹, W. Wohlleben^{2,1}, K. Wiench³, V. Strauss¹, K. Kuettler¹, S. Gröters¹, B. van Ravenzwaay¹, and R. Landsiedel^{1,2}. ¹Experimental Toxicology and Ecology, BASF SE, Ludwigshafen am Rhein, Germany; ²Polymer Physics, BASF SE, Ludwigshafen am Rhein, Germany; and ³Product Safety, BASF SE, Ludwigshafen am Rhein, Germany.
- #2350 **Poster Board Number648**
Inhalation of Cadmium Oxide Nanoparticles by Pregnant Mice Causes Nephrotoxicity in Both Mother and Offspring. J. L. Blum¹, J. Edwards², W. C. Prozialeck², and J. T. Zelikoff¹. ¹Environmental Medicine, New York University School of Medicine, Tuxedo, NY; and ²Pharmacology, Midwestern University, Downers Grove, IL.
- #2351 **Poster Board Number649**
Pulmonary Response of Tungsten (IV) Oxide (WO₃) Nanoparticles in Golden Syrian Hamsters. M. V. Prajapati, and J. M. Cerreta. PHS, St. John's University, Queens, NY.
- #2352 **Poster Board Number650**
Inhaled TiO₂ Nanoparticles Induce Formation of NLRP3 Inflammasome and Upregulation of IL1-β Expression in the Lungs of Golden Syrian Hamsters. O. O. Adebolu, and J. M. Cerreta. PHS, St. John's University, Queens, NY.

Program Schedule (Continued)

Symposium Session: Adult Neurogenesis in Chemical-Induced Neurotoxicities: A New Frontier in Toxicological Mechanistic Investigations, Biomarker Research, and Therapeutic Targeting

Chairperson(s): Wei Zheng, School of Health Sciences, Purdue University, West Lafayette, IN; and Aaron B. Bowman, Neurology, Vanderbilt University, Nashville, TN.

Endorser(s):

Metals Specialty Section
Neurotoxicology Specialty Section
Stem Cells Specialty Section

Loss of neurons in selective brain region(s) and retina is the pathological characteristic of numerous neurodegenerative diseases such as Parkinson's disease (PD), Alzheimer's disease (AD), and retinitis pigmentosa, among others. Classic neurobiology states that postmitotic neurons lack the ability to divide and thereby replace themselves. However, recent studies provide strong evidence that neurogenesis in the adult brain may mitigate adult neuronal loss by sustaining nonmotor function in PD and slowing cognitive deterioration and memory loss in AD. During adult neurogenesis, new neurons are generated from two primary proliferative niches in the adult brain. The subventricular zone (SVZ), nurtured by the cerebrospinal fluid (CSF) in brain ventricles, provides neural stem cells (NSC) via the rostral migration stream (RMS) to other brain regions, while the subgranular zone (SGZ) in the hippocampus produces new granule neurons for dentate gyrus. New studies suggest that toxicant exposure can alter neurogenesis, leading to compromised plasticity and neuronal dysfunction and exacerbating neuronal vulnerability to environmental toxicants. This session brings together experts in this fast evolving research field with a particular focus on how neurotoxicant exposure alters the adult neurogenesis and developmental proliferation. The goal of this session is to synthesize perspectives of critical niche areas of adult neurogenesis and its toxicology, with a focus on mechanisms that will provide new clues for potential amelioration and therapeutic intervention. This session will be of interest to those engaged in neurotoxicology related to neurodegenerative diseases, development, metal and pesticide toxicities, and systems biology.

Symposium Session: Advanced Approaches for Quantitative Risk Assessment Using Human Data with Applications across Disciplines

Strategies for Exposure and Risk Assessments

Chairperson(s): Deborah Proctor, ToxStrategies, Inc., Rancho Santa Margarita, CA; and Annie Albin Lumen, Biochemical Toxicology, US FDA/NCTR, Jefferson, AR.

Endorser(s):

Occupational and Public Health Specialty Section
Regulatory and Safety Evaluation Specialty Section
Risk Assessment Specialty Section

Health risk and safety assessments developed from human data are typically complicated by confounding and covariates, yet there are obvious advantages to using human, rather than animal, data for risk assessment, particularly when attempting to assess risk or set safety thresholds among sensitive individuals and/or vulnerable populations and life stages. Further, the cumulative effects of multiple stressors and the mixture of environmental exposures from multiple sources are of important public interest but not readily evaluated in animal models. Recent advances in risk assessment modeling of human data for food allergies, pharmaceutical safety assessment, and occupational and environmental health have been achieved to address sensitive subgroups, conduct dose-response modeling, and assess cumulative exposures and health risks in relevant disciplines. Although the data needs vary across disciplines, the requirement to quantitatively describe variability in human response to a public health challenge is necessary across all. The objectives of this symposium are to review new approaches for risk assessment using human data and discuss case studies where these approaches have been applied, including biologically based pharmacokinetic modeling, dose-response modeling using smoothing splines, and probabilistic analysis to predict individual and population-level exposure-response relationships. The session aims to foster the use of innovative approaches across disciplines, focusing on risk assessment in sensitive/vulnerable subpopulations or sensitive life stages, and discuss strategies for improved decision-making and risk management.

Workshop Session: Genomics of Nonrodent Mammalian Species and Impacts on Nonclinical Safety Evaluation of Pharmaceuticals and Clinical Translation

Epigenomic Influences in Toxicological Responses

Chairperson(s): Jing Yuan, Boehringer Ingelheim Pharmaceuticals, Inc., Ridgefield, CT; and Hong Wu, Investigative Toxicology, DSRD, Pfizer Inc, Groton, CT.

Endorser(s):

Clinical and Translational Toxicology Specialty Section
Drug Discovery Specialty Section
Molecular and Systems Biology Specialty Section

Inclusion of a nonrodent mammalian species is required in the safety assessment of pharmaceuticals according to ICH guidelines. The nonhuman primate has been commonly used for nonclinical safety assessment. In recent years, the minipig has emerged as a viable alternative of nonrodent species. The use of nonrodent species for testing aims at limiting the uncertainty in the risk extrapolation process from animal safety data to the human situation. The uncertainty mainly originates from species variation and population heterogeneity in various biological processes. While the use of small sample sizes for nonrodent species contributes to the observed variability or precision in a nonclinical safety study, any phenotypic variability observed is largely attributed to the genetic composition of testing animals. Therefore a better understanding of genetic variation and its subsequent impact on data interpretation from nonclinical safety studies in nonrodents is important. Comparative genomic studies in nonrodent species and humans will aid in better selection of relevant nonrodent species for safety assessment and better understanding of target organ toxicity mechanisms, which should lead to better translatability to humans. In this workshop, we will discuss the use of genetic and genomic data to support understanding of safety endpoints in nonrodent mammalian species, mainly nonhuman primates and minipig. The following issues will be included: (1) an overview of nonrodent mammalian species and genomic technologies used in nonclinical animal studies; (2) a series of case studies that illustrate the application of genetics and genomics in addressing toxicology issues, including species selection, immunomodulation, and target organ toxicity; (3) challenges and future perspectives of using genetic and genomic data to support safety assessment in nonrodent mammalian species; (4) a commentary from the regulatory perspectives on the application of genomics in clinical translation and challenges in regulatory submission.

- #2379 1:30 **Genomics of Nonrodent Mammalian Species and Impacts on Nonclinical Safety Evaluation of Pharmaceuticals and Clinical Translation.** J. Yuan¹, and H. Wu². ¹Boehringer Ingelheim Pharmaceuticals, Inc., Ridgefield, CT; and ²Pfizer Inc., Groton, CT.

Workshop Session: Increasing Interest and Engagement in Toxicology and STEM Disciplines: The Multiple Modalities and Impact of Research and Internship Opportunities for High School and Undergraduate Students

Chairperson(s): Richard S. Pollenz, Cell Biology, University of South Florida, Tampa, FL; and William D. Atchison, Department of Pharmacology/Toxicology, Michigan State University, East Lansing, MI.

Endorser(s):

Committee on Diversity Initiatives
Education Committee
Postdoctoral Assembly

Only 40 percent of undergraduates who enter STEM disciplines graduate with a STEM degree. The loss is even greater for students from underrepresented groups. Thus, there is urgency at all educational levels to institute high-impact practices that will not only assure a strong pipeline within the STEM disciplines, but also produce qualified graduates with the skills to succeed in the job market and in graduate school. One of the most impactful practices to retain and prepare students interested in STEM disciplines is their strategic engagement in research experiences and internships. These experiences can be targeted at middle and high school students to get them interested in specific disciplines and STEM careers, and then offered to undergraduates either in the summer or as part of their academic programs to encourage STEM persistence, career readiness, and matriculation to graduate school. Since these types of experiences are often tailored to the agency or institution and have different programming elements, this session will provide case studies of proven research and internship programs that have been offered to high school students, undergraduates, and graduate students in academia, government, and industry. Presentations will focus on the implementation and management of the programs, details of the training exercises, staffing needs, costs, and assessment practices that document the impact to the students. The session should be beneficial to all institutions and agencies interested in developing similar programs or building on their current programs. In addition, these types of initiatives not only provide engaged opportunities for students, but serve as demonstrated evidence

Workshop Session: Integrating Gene Expression Profiling into High-Throughput Toxicity Testing

Chairperson(s): Chris Corton, US EPA, Durham, NC; and Scott S. Auerbach, NIEHS/NTP, Morrisville, NC.

Endorser(s):

In Vitro and Alternative Methods Specialty Section
Mechanisms Specialty Section
Molecular and Systems Biology Specialty Section

Coordinated programs in high-throughput toxicity testing (HTT) (e.g., Tox21 and ToxCast screening programs) currently use assays that evaluate a limited number of potential molecular targets. Because of their complete coverage of the genome, microarrays have the potential to evaluate the underlying network of most, if not all, targets simultaneously. This workshop addresses the growing recognition in the toxicology community that technologies that measure global gene expression can be adapted for HTT. Significant advantages for integrating these technologies into HTT include simultaneous assessment of a greater diversity of potential chemical targets, linkage to ongoing large-scale efforts that examine gene expression changes after chemical and genetic perturbations in multiple *in vitro* systems (in particular, the Library of Integrated Network-based Cellular Signatures

Abstract

[LINCS] project), and the potential for using *in vitro* transcript profiling as a first step in HTT prior to more targeted *in vitro* assays. This workshop brings together a balanced representation of experts working in the field who will address challenges and provide solutions for using these global technologies in HTT and interpreting the results to inform risk assessment. The first speaker will present a comprehensive strategy for how expression profiling can be integrated into HTT, allowing the audience to understand the context of the following talks. The second and third speakers will describe two technologies (RASL-Seq and L1000 platforms) that have promising applications to HTT, highlighting how differences in platform performance can impact interpretation of chemical effects. The fourth speaker will discuss how transcript profiling results derived from cell cultures can be extrapolated to potential dose-relevant effects in the tissues of humans. The last speaker will describe the LINCS project as a model of HTT, in which transcript profiling of ~8000 chemicals was carried out across 17 cell lines. This workshop will be of broad interest to SOT members including scientists interested in the application of *in vitro* assays to regulatory decision-making.

Workshop Session: Strengths and Weaknesses of Mouse Models in Studies of Immunological Effects of Drugs and Chemicals

🔄 Safety Assessment Approaches for Product Development

Chairperson(s): Courtney E. Sulentic, Pharmacology and Toxicology, Wright State University, Dayton, OH; and Bindu Nanduri, Mississippi State University, Mississippi State, MS.

Endorser(s):

Immunotoxicology Specialty Section
Regulatory and Safety Evaluation Specialty Section

Recent results with high-throughput datasets have raised new interest in discussions on the suitability of mice as models for immunology, inflammation, and immunotoxicology in humans. Mouse models are routinely used in immunotoxicology safety testing, efficacy testing for new drugs, and in basic immunology research. Recent studies from the Inflammation and Host Response to Injury, Large-scale Collaborative Research Program compared humans to mouse models with regard to trauma and sepsis, and raised questions about the validity of mice as a model to study acute inflammatory responses in humans (www.pnas.org/cgi/doi/10.1073/pnas.1222878110).

Program Schedule (Continued)

Abstract

This and other publications and original data from the presenters will provide an opportunity to discuss evidence for and against mice as suitable models for humans with regard to inflammation, immunology, and immunotoxicology. Data from industry and academia will be presented, along with evidence from various murine strains currently used in the study of acute inflammatory responses and immunity to attempt to identify key differences between mice and humans with regard to inflammatory and immune responses. Presenters will discuss how increased knowledge of these differences could increase the value of the mouse as an animal model for immunotoxicity studies.

Workshop Session: The Carcinogenicity of Outdoor Air Pollution: A Review of the IARC Evaluation of Outdoor Air Pollution and Particulate Matter in Polluted Air As Group 1 (Known) Human Lung Carcinogens and Possible Bladder Carcinogens

Strategies for Exposure and Risk Assessments

Chairperson(s): George M. Woodall, NCEA, US EPA, Research Triangle Park, NC; and Paul White, University of Ottawa, Ottawa, ON, Canada.

Endorser(s):

**Carcinogenesis Specialty Section
Mixtures Specialty Section
Risk Assessment Specialty Section**

In October 2013, the International Agency for Research on Cancer (IARC), a specialized agency of the World Health Organization (WHO), evaluated outdoor air pollution and particulate matter (PM) in polluted air as Group 1 (known) human lung carcinogens. This workshop reviews and summarizes the key data from four disciplines (epidemiology, animal carcinogenesis, environmental mutagenesis, and human genotoxicity and epigenetic biomarkers) that were used to support the evaluation reached by IARC. This IARC Monograph (Vol. 109) follows an earlier set of monographs on the carcinogenicity of (a) polycyclic aromatic hydrocarbons and bitumin, (b) indoor air due to coal and biomass burning, and (c) diesel and gasoline emissions. These monographs, along with the outdoor air monograph, now provide an extremely comprehensive, timely, and integrated overview of all available research on outdoor air pollution. As noted in the outdoor air monograph, which is anticipated to be published in mid-2015, the working group concluded that there was sufficient evidence both in humans and animals for the carcinogenicity of outdoor air pollution and its associated PM, and there was strong mechanistic evidence from a wide variety of studies worldwide to support this conclusion. Four of the five speakers in this workshop were members of the IARC working group that made this evaluation. This session will wrap-up with a talk by the chair of the monograph who will note the lessons learned from this extensive analysis. He will also identify the future research directions and public health implications that emerge from this monograph and its remarkable data base. The views expressed in this abstract are those of the authors and do not necessarily reflect the views or policies of the US Environmental Protection Agency.

Workshop Session: Windfall or Pitfall: Is There a Need for Modification of Developmental and Reproductive Toxicology Studies When Endocrine Disruption Is the Mode of Action?

Safety Assessment Approaches for Product Development

Chairperson(s): *Bernard van Ravenzwaay, Toxicology, BASF SE, Ludwigshafen am Rhein, Germany; and Leon E. Gray, Endocrinology Branch, NHEERL, US EPA, Research Triangle Park, NC.*

Endorser(s):

**Molecular and Systems Biology Specialty Section
Reproductive and Developmental Toxicology Specialty Section**

Endocrine disruption (ED) has become an important topic of public concern. Despite increasing attention, little consensus exists about if/how low doses of ED chemicals affect homeostasis or even how these activities should be measured or regulated. Critics of current methodologies suggest that gaps in standard developmental and reproductive toxicity studies result in insufficient prediction of human safety in cases with an ED mode of action, arguing that nontraditional study designs and systems biology endpoints should be incorporated into regulatory decision-making. An increasing number of ED research and regulatory studies are now conducted using protocols modified to include *ex vivo* and *in vitro* assays, and kinetic modeling, as well as 'omic and epigenetic assessments. These enhancements may provide many new avenues for scientific discovery, but come at a price of increasing complexity. In this workshop, the strengths, weaknesses, and experimental pitfalls of these techniques will be presented and compared with conventional approaches to assess the consequences of ED. Advantages of such modifications for the detection and assessment of ED compounds will be weighed against their drawbacks using real-world example studies. The studies will first be presented, addressing what modifications were used and whether the "add on" parameters helped with hazard assessment. After each speaker has presented, the workshop will then conclude with a panel discussion session covering the good, the bad, and the ugly—which endpoints are useful and which are too complicated to make work, or generate uninterpretable data. The session will be of broad interest to academic, industry, regulatory, and consultant toxicologists concerned about the current status of ED testing and/or advances in nonclinical ED safety assessment.

Roundtable Session: Epigenetics and Chemical Safety Assessment: Are We Ready?

Epigenomic Influences in Toxicological Responses

Chairperson(s): Igor Pogribny, National Center for Toxicological Research, Jefferson, AR; and Jay I. Goodman, Michigan State University, East Lansing, MI.

Endorser(s):
Regulatory and Safety Evaluation Specialty Section
Risk Assessment Specialty Section

Continuous exposure to certain natural and manmade chemicals might be a major cause of noncommunicable human diseases, including cancer. Evidence is accumulating indicating that some of the earliest events preceding the development of these pathological states involve perturbations of the cellular epigenome, including modifications at the 5-position of DNA-cytosine, histone modifications, and expression of noncoding RNAs. This suggests that despite a lack of conclusive information to clarify which epigenetic changes are involved directly in the pathogenesis of exposure-related disease and which are the results of the pathological state, they might be useful in safety assessment of chemicals, including pharmaceuticals. The application of epigenomic profiling technologies to chemical safety assessment has great potential for providing novel mechanistic insights into the molecular basis of long-lasting cellular perturbations, including increased susceptibility to disease and/or toxicity. However, a better understanding of some of the key questions, including the following: (i) can we design screening systems to identify epigenetic perturbations that are actual predictors of toxicity?; (ii) what type(s) of epigenetic alterations should be used as biomarkers of exposure?; (iii) can appropriate trans-species epigenetic biomarkers be identified?; (iv) how does the inter-individual variability of the epigenome affect risk assessment?; (v) can these biomarkers and evaluations improve the risk assessment process?; and (vi) what needs to be acquired prior to incorporation of an epigenetic evaluation into the overall chemical safety assessment process?

#2424 4:30 **Epigenetics and Chemical Safety Assessment: Are We Ready?** I. Pogribny¹, and J. I. Goodman². ¹Biochemical Toxicology, National Center for Toxicological Research, Jefferson, AR; and ²Pharmacology and Toxicology, Michigan State University, East Lansing, MI.

4:30 **Introduction.** I. Pogribny. US FDA-NCTR, Jefferson, AR.

4:35 **Investigating the Role of Epigenetics in Product Safety Assessment.** R. J. Rasoulpour. Dow AgroSciences, Indianapolis, IN.

Roundtable Session: The Future of Carcinogenicity Testing Safety Assessment Approaches for Product Development

Chairperson(s): Yvonne Dragan, DuPont, Newark, DE; and James E. Klaunig, Indiana University, Ellettsville, IN.

Endorser(s):

**Carcinogenesis Specialty Section
Regulatory and Safety Evaluation Specialty Section**

The current carcinogenicity testing scheme was developed in the 1930s and has undergone modifications in the years since. However, considerable advances in biology and knowledge of cancer mechanisms have also occurred over this time, and our increased mechanistic understanding of cancer development and progression coupled with the need to increase the science base of risk assessment warrant a re-evaluation of cancer testing approaches. This roundtable will examine current and future cancer assessment. Specifically, the roundtable will address how improvements in the detection and identification of carcinogens and the utility of this information for human risk assessment should be incorporated into the evaluation of potential carcinogenic risk. For example, recent proposed changes to the ICH S1 cancer risk guidelines have sparked a discussion of the utility of the rodent bioassay. The format of the roundtable will consist of three speakers providing an overview of the current and anticipated future approaches to carcinogen testing. In addition, a panel consisting of the three speakers and three additional toxicologists involved with carcinogen testing from the academic, industry, and regulatory sectors will be convened and will address the future testing paradigm for cancer.

- #2425 4:30 **The Future of Carcinogenicity Testing.** Y. Dragan¹, and J. E. Klaunig². ¹Haskell Global Centers, DuPont, Newark, DE; and ²Department of Environmental Health, Indiana University, Ellettsville, IN.

Education-Career Development Session: Crafting High-Impact Manuscripts: The Process from Hypothesis through Review and Publication

Chairperson(s): Caitlin J. Murphy, University of Texas at Austin, Austin, TX; and Karin M. Streifel, University of California Davis, Davis, CA.

Endorser(s):

**Board of Publications
Career Resource and Development Committee
Postdoctoral Assembly**

Publications are an essential component for a successful career across all sectors of toxicology, including industry, academia, and government. Although mentors provide informal guidance, students and postdoctoral fellows rarely receive formal training on how to develop a high-impact manuscript. Therefore, trainees still have questions regarding the publishing process. A complete understanding of the publication process will benefit junior scientists in formulating research plans, preparing manuscripts, in developing manuscript submission strategies, and in effectively serving as a reviewer—all important elements in a successful career. This session is designed to provide early-career toxicologists with insight into the publication process from the journal's perspective. Speakers will focus on (1) how to craft a high-impact manuscript; (2) the role of the associate editor, strategies of selecting reviewers, the expectations of a reviewer, and responding to reviewers' comments; (3) maintaining scholarly productivity in non-academic careers; and (4) publishing in top-tier journals. Each speaker will also highlight what led to some of his or her most significant publications. Attendees will learn the benefits of publishing in the Society of Toxicology's journal, how this may help in their unique career path, and define the roles of key players of the publication process. As well, Dr. Marcia McNutt, the editor in chief of *Science*, will share her insights on what it takes to publish in high-impact journals. This discussion is pertinent to all junior-level toxicologists who are in the process of publishing, undergoing revisions, and reviewing manuscripts. This career-development session will provide the formal training to understanding the entire process of creating a high-quality manuscript.

- #2426 4:30 **Crafting High-Impact Manuscripts: The Process from Hypothesis through Review and Publication.** C. Murphy¹, K. Streifel², G. W. Miller³, D. Dolinoy⁴, L. D. Lehman-McKeeman⁵, and M. McNutt⁶. ¹University of Texas at Austin, Austin, TX; ²University of California - Davis, Davis, CA; ³Emory University, Atlanta, GA; ⁴University of Michigan, Ann Arbor, MI; ⁵Bristol-Myers Squibb, Princeton, NJ; and ⁶*Science*, Washington, DC.
- 4:30 **Introduction to Crafting High-Impact Manuscripts: Questions from Trainees.** C. Murphy. University of Texas at Austin, Austin, TX.

Late-Breaking Abstracts Scheduled for Thursday

In December, we invited our colleagues to submit an abstract during the late-breaking abstract submission phase. We are pleased with the number of abstracts received for consideration and that an overwhelming number were accepted for the Annual Meeting. These abstracts will be presented on Thursday, March 26, along with several dynamic symposium and workshop sessions already scheduled. You can find the poster sessions in the Sails Pavilion. A PDF supplement of these additional abstracts will be available to download via the SOT website in early March. The abstracts are not available in the final *Program* but are fully searchable through the SOT Mobile Event App and Online Planner.

Symposium Session: Chromatin Structure, Genomics, and Transcriptional Responses to Environmental Insults

Epigenomic Influences in Toxicological Responses

Chairperson(s): Ivan Rusyn, Integrative Biosciences, Texas A&M University, College Station, TX; and Igor Pogribny, National Center for Toxicological Research, Jefferson, AR.

Endorser(s):

Carcinogenesis Specialty Section
Mechanisms Specialty Section
Molecular and Systems Biology Specialty Section

Exposure to many environmental toxicants has been associated with epigenetic changes, which can affect gene expression patterns and likely contribute to disease or other phenotypes associated with exposure. The information on the mechanisms by which chemicals may impact gene expression is rapidly evolving, and recent discoveries show how exposures perturb the proteins and processes upstream of DNA methylation and other epigenetic marks. The transition from using epigenetic signatures of exposure as potential biomarkers to identifying their mechanisms allows for better characterization of the biology of how environmental insults are involved in establishing and maintaining gene expression patterns and chromatin state. The participation of the proteins that act as “readers,” “writers,” or “erasers” of the epigenetic code, depositing/removing epigenetic marks or binding to them and recruiting other proteins, as well as other factors such as noncoding RNAs, chromatin remodeling complexes, inter- and intra-chromosomal interactions, and functional genomic elements, is now possible to elucidate using the latest genomic technologies. This symposium will explore how transcriptional regulation may be controlled by the developmental cues and/or environmental stimuli through a series of complex mechanisms which fall under the heading of epigenetic processes or modifications. Through a series of case studies, the basic mechanisms of the environmental control of epigenetic mechanisms will be illustrated. The linkages among exposure, genome, epigenome, and the host genetics will be addressed through data from *in vivo* and *in vitro* model systems.

Symposium Session: Comprehensive Analysis of Nano Silver Toxicity Profiles: Known, Unknown, and Surprises!

Chairperson(s): Srikanth S. Nadadur, Division of Extramural Research & Training, NIEHS, Research Triangle Park, NC; and Linda S. Birnbaum, NIEHS, Research Triangle Park, NC.

Endorser(s):

Inhalation and Respiratory Specialty Section
Nanotoxicology Specialty Section

The fascinating optoelectronic and chemical properties of noble metal nanoparticles led to their significant application in nanotechnology and biomedicine. The silver nanoparticles have found widespread use in consumer products ranging from disinfectant, antifouling agents, and textiles, to nutraceuticals, biosensing, diagnostic imaging, and therapeutics. This widespread use of nano silver has potential to contribute to human health effects and raise environmental safety concerns. Hence, there is a need to develop an integrated and coordinated approach to gain a comprehensive understanding on the potential toxicity to better guide safe and sustainable use of nanotechnology. The toxicology data available to date on nano silver produced by diverse methods, physicochemical properties (size, shape, and surface coatings), and systems (*in vitro*, *in vivo*) used to investigate toxicity outcomes suggest the issue of dissolution of nanoparticles and silver ions and incomplete characterization data. As part of ongoing research efforts within the NIEHS Centers for Nanotechnology Health Implications Research Consortium, investigations are carried out to understand the biological interactions and response to silver nanomaterials of defined shape, structure, and surface coating. These materials were commercially procured, extensively characterized, and investigated using cell culture systems (human, mouse, rat) representative of diverse organ systems and multiple rat and mouse models (wild type, knock out, collaborative cross strains, physiological states). The biological, physiological endpoints, and toxicokinetics from different routes of exposure indicated toxicity outcomes are dependent on the physicochemical properties, silver dissolution kinetics, cell culture system, or animal strains used. The presentations in this session will share with the scientific community the issues and scientific challenges in integrating this information into predictive health effects risk assessment models.

Symposium Session: Epigenetics, Developmental Programming, and Immune Function: Where Do We Go from Here?

Epigenomic Influences in Toxicological Responses

Chairperson(s): Berran Yuceso, University of Cincinnati, Cincinnati, OH; and Victor J. Johnson, BRT-Burleson Research Technologies, Morrisville, NC.

Endorser(s):

- Immunotoxicology Specialty Section
- Inhalation and Respiratory Specialty Section
- Reproductive and Developmental Toxicology Specialty Section

The epigenome is most vulnerable to dysregulation during the prenatal/fetal period as certain transient environmental influences can lead to persistent changes in epigenetic marks. These changes can adversely affect human development and health in childhood. Importantly, epigenetic changes that occur early during development may persist throughout life and, in some cases, may result in transgenerational impact on disease susceptibility. Many of the environmental factors that are implicated in infectious and noncommunicable disease risk are known to influence epigenetic programming of immune-related genes. This symposium is aimed at exploring the interaction

Abstract

between epigenetic, environmental, and developmental factors and its implications for childhood, lifecourse, and transgenerational disease risk, and also for immune dysregulation and inflammation. In order to achieve this aim, the symposium will start with an overview of the central role of both microbial- and mammalian-generated epigenetic marks on immune development and dysfunction and will discuss related health risks and specific vulnerabilities. Next, the impact of prenatal and early postnatal environmental exposures on asthma and allergy risk will be discussed in the context of epigenetics, including alterations in DNA methylation, histone modifications, and microRNA expression of candidate genes. This will be followed by multigenerational and transgenerational outcomes of gestational arsenic exposure on tumor incidence in relation to epigenetic changes and the role of immune-related epigenetic regulation on tumor susceptibility. The symposium will end with a presentation discussing environmental epigenetics, the opportunity for development of epigenetic biomarkers of exposure and disruption of immune cell functions that are associated with disease development, and epigenetic potencies of individual pollutants. Novel, high-throughput technologies for examination of the epigenome as a whole will be leveraged to illustrate these concepts.

- #2439 9:00 **Epigenetics, Developmental Programming, and Immune Function: Where Do We Go from Here?** B. Yuceso¹, and V. J. Johnson². ¹University of Cincinnati, Cincinnati, OH; and ²BRT Burleson Research Technologies, Morrisville, NC.
- 9:00 **Introduction.** B. Yuceso¹, and V. J. Johnson². ¹University of Cincinnati, Cincinnati, OH; and ²BRT Burleson Research Technologies, Morrisville, NC.
- #2440 9:05 **Environmental Epigenetics: Pivotal Factors for Programming Immune Function vs. Dysfunction.** R. R. Dietert. Cornell University, Ithaca, NY.
- #2441 9:41 **Prenatal and Postnatal Environmental Exposures and Epigenetic Influences in Asthma and Allergy Risk.** R. Miller. Columbia University, New York City, NY. Sponsor: B. Yuceso.
- #2442 10:17 **The Effects of Gestational Arsenite Exposure on the F2 Generation: Role of Epigenetics.** K. Nohara¹, K. Okamura¹, T. Suzuki¹, I. Hatada², and K. Hata³. ¹National Institute for Environmental Studies, Tsukuba, Japan; ²Institute for Molecular and Cellular Regulation, Gunma University, Maebashi, Japan; and ³National Institute for Child Health and Development, Tokyo, Japan.
- #2443 10:53 **Early-Life Exposure to Environmental Pollutants and Epigenetic Programming of Immune-Related Diseases.** S. Ho. University of Cincinnati, Cincinnati, OH.
- 11:29 **Panel Discussion/Q&A.**

Symposium Session: Exposure Assessment in the 21st Century: Needs and Challenges Facing High-Throughput Exposure Modeling

Strategies for Exposure and Risk Assessments

Chairperson(s): Barbara A. Wetmore, *The Hamner Institutes for Health Sciences, Research Triangle Park, NC*; and Benjamin C. Blount, *NCEH, CDC, Atlanta, GA*.

Endorser(s):

Occupational and Public Health Specialty Section
Regulatory and Safety Evaluation Specialty Section
Risk Assessment Specialty Section

The release of *Toxicity Testing in the 21st Century: A Vision and a Strategy* generated a great deal of interest in assessing the utility of high-throughput (HT) *in vitro* assays in chemical hazard identification. Dosimetric adjustment of *in vitro* bioactivity data allows the derivation of oral equivalent doses that, on a mg/kg/day basis, provide a comparator to external exposure, allowing generation of putative margins of exposure (MOEs) that may then be employed in prioritization strategies. As federal HT hazard assessments transition to chemicals lacking exposure estimates, developing HT exposure prediction tools becomes increasingly important and is key to inserting risk relevancy into the process. While recent HT modeling efforts have yielded promise, they have concomitantly identified key needs that will require resolution to reduce model uncertainty. Biomonitoring data can play an important role in ground-truthing models, but ongoing surveys only offer limited data relevant for this task. This session will provide an update on the HT exposure modeling efforts currently underway, challenges identified, and additional needs to support realistic estimates of exposure variability, including identification of sensitive populations. This symposium will also provide perspective on the use of such tools in a regulatory setting.

- #2444 9:00 **Exposure Assessment in the 21st Century: Needs and Challenges Facing High-Throughput Exposure Modeling.** B. A. Wetmore¹, and B. C. Blount². ¹The Hamner Institutes for Health Sciences, Research Triangle Park, NC; and ²National Center for Environmental Health, Centers for Disease Control and Prevention, Atlanta, GA.
- 9:00 **Introduction.** B. A. Wetmore¹, and B. C. Blount². ¹The Hamner Institutes for Health Sciences, Research Triangle Park, NC; and ²National Center for Environmental Health, CDC, Sewanee, GA.
- #2445 9:05 **Evaluating Rapid Models for High-Throughput Exposure Forecasting.** J. F. Wambaugh. National Center for Computational Toxicology, US EPA, Research Triangle Park, NC.
- #2446 9:37 **Developing, Applying, and Evaluating Models for Rapid Screening of Chemical Exposures.** J. Arnot^{1,2}, H. Shin³, A. Ernstoff^{4,5}, S. Csiszar⁵, P. Fantke⁴, X. Zhang⁶, D. Bennett³, O. Jollif⁷, B. A. Wetmore¹, and T. E. McKone^{8,9}. ¹ARC Arnot Research & Consulting Inc., Toronto, ON, Canada; ²University of Toronto Scarborough, Toronto, ON, Canada; ³University of California Davis, Davis, CA; ⁴Technical University of Denmark, Kongens Lyngby, Denmark; ⁵University of Michigan, Ann Arbor, MI; ⁶Harvard University, Cambridge, MA; ⁷The Hamner Institutes for Health Sciences, Research Triangle Park, NC; ⁸Lawrence Berkeley National Laboratory, Berkeley, CA; and ⁹University of California Berkeley, Berkeley, CA.
- #2447 10:09 **The Impact of Rapid Bioactivity-Exposure-Based Prioritization on Chemical Safety.** S. M. Knott. Office of Science Coordination and Policy, Exposure Assessment Coordination and Policy Division, US EPA, Washington, DC. Sponsor: B. Wetmore.

Abstract

- #2448 10:41 **Biomonitoring As an Exposure Assessment Tool in the Context of High-Throughput Screening (HTS): Concepts, Challenges, and Approaches.** L. Aylward¹, and S. Hays². ¹Summit Toxicology, LLP, Falls Church, VA; and ²Summit Toxicology, LLP, Allenspark, CO.
- #2449 11:13 **Using Environmental and Biological Measurements to Develop Generalizable Relationships for Exposure Models.** R. Rudel, R. Dodson, and J. Brody. Silent Spring Institute, Newton, MA.

Workshop Session: Microphysiological Models of the Developing Nervous System: Biologically Driven Assembly Inspired by Embryology and Translated to Human Developmental Toxicology

Approaches for Protecting Vulnerable Populations

Chairperson(s): Thomas B. Knudsen, *National Center for Computational Toxicology, US EPA, Research Triangle Park, NC*; and William Slikker Jr., *Office of the Director, US FDA-NCTR, Jefferson, AR*.

Endorser(s):

In Vitro and Alternative Methods Specialty Section
Neurotoxicology Specialty Section
Reproductive and Developmental Toxicology Specialty Section

Recent advances using human stem cells and other cells that can be ushered through differentiation and developmental maturation offer an unprecedented opportunity to develop predictive systems for toxicological assessment. The use of human cells is an advantage because there is no need to extrapolate across species, but even so, there may be the requirement that different cell types interact in a three-dimensional (3D) relationship in order to provide prediction of the intact human. For example, in the developing nervous system, multiple cell types including neurons, astrocytes, and oligodendrocytes, interact in the presence of growth factors, cytokines, and other hormones to function within a 3D spatial configuration that can reflect normal biological functioning in a predictive manner. The purpose of this workshop is to take a close look at the novel approaches being applied for biologically driven assembly, in which exploiting the capacity of an embryo to build tissues and organs from scratch, and the multicellular response dynamics in biologically driven assembly are facilitating "human-on-a-chip" microscale systems and other cellular-complex culture models for evaluating developmental neurotoxicity. The individual topics will address the progress that has been made concerning how the cellular microenvironment dictates tissue morphogenesis and the importance of 3D cellular architecture in cellular function; identification of signaling pathways that contribute to exogenously-induced developmental neurotoxicity; mini-brain organoid platforms to study complex cellular networks and disease models for drug development, toxicology, and medicine; and the requirement for quantitative outcome measures that are essential to the overall success of the organotypic culture approach in order for it to be predictive of the human situation. Standard approaches will be outlined with the use of positive and negative test agents to allow confirmation of the reproducibility of these *in vitro* test systems in different laboratory environments. The views expressed in this abstract do not necessarily reflect US EPA or US FDA policy.

- #2450 9:00 **Microphysiological Models of the Developing Nervous System: Biologically Driven Assembly Inspired by Embryology and Translated to Human Developmental Toxicology.** T. B. Knudsen¹, and W. Slikker². ¹NCCT, US EPA, Research Triangle Park, NC; and ²NCTR, US FDA, Jefferson, AR.
- 9:00 **Introduction.** T. B. Knudsen. US EPA, Research Triangle Park, NC.

Workshop Session: Painting the Future of Repeat-Dose Systemic Toxicity Testing: Progress from the European SEURAT-1 Project

Chairperson(s): Russell S. Thomas, National Center for Computational Toxicology, US EPA, Research Triangle Park, NC; and Maurice P. Whelan, Institute for Health and Consumer Protection, European Commission Joint Research Centre, Ispra, Italy.

Endorser(s):

**In Vitro and Alternative Methods Specialty Section
Molecular and Systems Biology Specialty Section
Regulatory and Safety Evaluation Specialty Section**

In 2011, a public-private partnership between the European Commission and Cosmetics Europe funded the "Safety Evaluation Ultimately Replacing Animal Testing" (SEURAT-1) cluster of six research consortia, with the goal of filling scientific knowledge gaps and accelerating the development of nonanimal test methods for repeat-dose toxicity testing. Replacement of repeated-dose testing with alternative approaches is a daunting task and will require a complete shift in paradigm toward a new definition of "adversity" defined at the molecular and cellular level, rather than by traditional apical endpoints. To demonstrate and evaluate the applicability of the alternative methods developed within the consortium, a series of cross-cluster case studies were initiated to (i) develop a series of adverse outcome pathways (AOPs) that can be used for designing integrated test systems, (ii) demonstrate various AOP-based systems for quantitatively predicting repeat-dose toxicity, and (iii) apply information from the predictive systems to a chemical safety assessment. The purpose of this workshop is to present, for the first time, the results and lessons learned from a complementary set of these case studies. The workshop will be of high interest to a broad audience, including industry representatives whose products are affected by the European Union ban on cosmetic animal testing, government regulators interested in *in vitro* alternatives to animal tests, and academic researchers investigating the mechanisms of chemical toxicity.

Abstract

- #2455 9:00 **Painting the Future of Repeat-Dose Systemic Toxicity Testing: Progress from the European SEURAT-1 Project.** R. S. Thomas¹, and M. P. Whelan². ¹National Center for Computational Toxicology, US EPA, Research Triangle Park, NC; and ²Systems Toxicology Unit and the EU Reference Laboratory for Alternatives to Animal Testing (EURL ECVAM), European Commission Joint Research Centre, Ispra, Italy.
- 9:00 **Introduction.** R. S. Thomas. US EPA, Research Triangle Park, NC.
- #2456 9:05 **Predictive Power and Robustness of an AOP Construct for Bile Salt Export Pump Inhibition to Cholestatic Injury.** M. Vinken. Toxicology, Vrije Universiteit Brussel, Brussels, Belgium.
- #2457 9:34 **Chemotypes for Mitochondrial Toxicity Prediction.** M. T. Cronin¹, S. J. Enoch¹, J. C. Madden¹, M. D. Nelms¹, K. R. Przybylak¹, A. N. Richarz¹, F. P. Steinmetz¹, and C. Yang². ¹School of Pharmacy and Biomolecular Sciences, Liverpool John Moores University, Liverpool, United Kingdom; and ²Altamira LLC, Columbus, OH.
- #2458 10:03 **AOP-Based Classification Model for Repeat-Dose Liver Toxicity.** A. Lostia, and M. P. Whelan. Institute for Health and Consumer Protection, System Toxicology Unit, European Commission, Joint Research Centre, Ispra, Italy. Sponsor: *R. Thomas.*
- #2459 10:32 **Development of a Liver Co-Culture System for Evaluating Adverse Outcome Pathways Leading to Fibrosis.** L. A. van Grunsven. Liver Cell Biology Lab, Vrije Universiteit Brussel, Brussels, Belgium. Sponsor: *R. Thomas.*
- #2460 11:01 **Case Studies on Using In Vitro Molecular Screening, 'Omics, and Computational Models to Support a Quantitative Chemical Risk Assessment and Chemical Read-Across.** A. White¹, and D. Knight². ¹Safety & Environmental Assurance Centre, Unilever, London, United Kingdom; and ²European Chemicals Agency, Helsinki, Finland.
- 11:30 **Panel Discussion/Q&A.**

Thursday Morning, March 26
9:00 AM to 11:45 AM
CC Room 8

Platform Session: POPs—In Vitro, In Vivo, and Computational Modeling Studies

Chairperson(s): Bruce A. Fowler, Consultant, Rockville, MD; and Jack Vanden Heuvel, Penn State University, University Park, PA.

- #2461 9:00 **Human Organic Anion Transporting Polypeptides (OATPs) 1B1, 1B3, and 2B1 Can Transport Perfluoroalkyl Sulfonates.** W. Zhao¹, J. Zitzow², D. J. Ehresman³, S. Chang³, J. L. Butenhoff¹, and B. Hagenbuch¹. ¹Pharmacology, Toxicology and Therapeutics, KU Medical Center, Kansas City, KS; ²Pace Analytical, Minneapolis, MN; and ³3M Company, St. Paul, MN.
- #2462 9:20 **Effects of PFOA and PFOS on Cholesterol Efflux and Gene Expression in THP-1, Huh-7, and Caco-2 Cells.** J. Vanden Heuvel^{1,2}, J. A. Garban¹, D. B. Hannon^{1,2}, and K. Toyokawa². ¹Veterinary and Biomedical Sciences, Penn State University, University Park, PA; and ²Indigo Biosciences, Inc., State College, PA.

Program Schedule (Continued)

Abstract

- #2463 9:40 **Transcriptomic Effects of Ortho-PCBs on Developing Zebrafish.** *J. V. Goldstone, B. Lemaire, A. Kubota, and J. J. Stegeman.* Biology, Woods Hole Oceanographic Institution, Woods Hole, MA.
- #2464 10:00 **Toxicological Responses following Oral Exposure to Dechlorane Plus in Zebrafish (*Danio rerio*).** *H. Kang, D. Jung, and K. Choi.* School of Public Health, Seoul National University, Seoul, Republic of Korea.
- #2465 10:20 **Fetal TCDD Exposure Increases Adult Male Mouse Susceptibility to Urinary Dysfunction.** *W. A. Rieke^{1,2}, C. Lee³, T. Clapper³, A. J. Schneider³, R. W. Moore³, K. P. Keil⁴, L. L. Ablar⁴, J. Wynder^{2,1}, A. L. Alvarado⁴, R. E. Peterson³, and C. M. Vezina^{4,2}.*
¹Urology, University of Wisconsin, Madison, WI; ²Molecular and Environmental Toxicology, University of Wisconsin, Madison, WI; ³School of Pharmacy, University of Wisconsin, Madison, WI; and ⁴School of Veterinary Medicine, University of Wisconsin, Madison, WI.
- #2466 10:40 **Exposure to Higher Doses of 2,3,7,8-Tetrachlorodibenzo-*p*-dioxin Increases the Abundance of Segmented Filamentous Bacteria in Mice Gut Microbiota.** *P. Bhaduri¹, R. D. Stedtfeld¹, K. A. Fader², T. M. Stedtfeld¹, T. R. Zacharewski², J. Tiedje³, and S. A. Hashsham¹.* ¹CEE, Michigan State University, East Lansing, MI; ²BMB, Michigan State University, East Lansing, MI; and ³MMG, Michigan State University, East Lansing, MI.
- #2467 11:00 **Epigenetic Effects of Persistent Organic Pollutants during Human Adipocyte Differentiation.** *M. W. van den Dungen^{1,2}, D. E. Kok², A. J. Murk¹, and W. T. Steegenga².*
¹Subdepartment of Environmental Technology, Wageningen University, Wageningen, Netherlands; and ²Division of Human Nutrition, Wageningen University, Wageningen, Netherlands. Sponsor: *I. Rietjens.*
- #2468 11:20 **Pathway Analysis of Different Persistent Organic Pollutants Suggests Common Disease Connections.** *P. Ruiz¹, A. Perlina², B. A. Fowler³, and M. Mumtaz¹.* ¹Division of Toxicology and Human Health Sciences, Agency for Toxic Substances and Disease Registry, Atlanta, GA; ²Sanford-Burnham Medical Research Institute, La Jolla, CA; and ³Emory University Rollins School of Public Health, Atlanta, GA.

THANK YOU

ATTENDEES

On behalf of the 2014–2015 SOT Council, thank you for attending the 2015 SOT Annual Meeting and ToxExpo in San Diego, California. Your participation at this event plays a significant role in making the Society of Toxicology the number one scientific not-for-profit organization for toxicologists in the world. See you next year in New Orleans.

Meet the Editor-in-Chief of *Toxicological Sciences*

Gary W. Miller

SOT Pavilion

Monday–Wednesday

March 23–25

10:00 AM–11:00 AM and 2:00 PM–3:00 PM

Interact with Speakers—Use the Mobile Event App or Online Planner to select the presentations you want to attend during the Annual Meeting. You may search speaker and abstract authors by name, affiliation, abstract number, and keyword. Use the results to build your schedule to maximize your meeting experience. The Attendee Messaging tool also enables you to contact (or interact with) presenters before, during, and after the meeting. Accessing session and speaker details is quick and easy.

Late-Breaking Abstracts Scheduled for Thursday

In December, we invited our colleagues to submit an abstract during the late-breaking abstract submission phase. We are pleased with the number of abstracts received for consideration and that an overwhelming number were accepted for the Annual Meeting. These abstracts will be presented on Thursday, March 26, along with several dynamic symposium and workshop sessions already scheduled. You can find the poster sessions in the Sails Pavilion. A PDF supplement of these additional abstracts will be available to download via the SOT website in early March. The abstracts are not available in the final *Program* but are fully searchable through the SOT Mobile Event App and Online Planner.

Acetyl Tributyl Citrate 213			Antibody Testing 1228
Acetylation 792			Antibody-Drug Conjugate 30, 31, 35

Abstract Keyword Index (Continued)

The numerals following each keyword refer to the relevant abstract number(s).

Anticancer Agent 608, 625	ASAT 595	Beas2B Cells, <i>Caenorhabditis elegans</i> , Mouse 1249	Biologics 663
Anticancer Agents 201, 565	Asbestos 761, 1566, 1869, 1897, 2418	Beer 501	Biologics Safety Assessment 1840
Anticancer Drugs 567, 1287, 2046	Ascorbic Acid 1346	Behavior 251, 263, 269, 858, 959, 960, 1333, 2144	Biomarker 241, 347, 738, 898, 984, 1205, 1207, 1210, 1214, 1215, 1216, 1223, 1225, 1365, 1612, 2028, 2031, 2032, 2034, 2202, 2250
Antidotes 851	<i>Aspergillus</i> 925	Behavior and Cognitive Function 1786, 2128	Biomarker Discovery 1226, 2033
Antidrug Antibodies 668	Assay Validation 1627, 1631, 2409	Behavioral Impairment 1793	Biomarker Translation 1226, 2297
Antidrug Antibody 626	Assessment 205	Behavioral Toxicology 1781	Biomarkers 15, 126, 337, 618, 777, 943, 1193, 1202, 1204, 1211, 1218, 1232, 1815, 1818, 1884, 2029
Antifertility 1431	Assessment Factor 1874	Benchmark Dose 215, 1695, 1696, 1766, 1907	Biomarker Discovery 1226, 2033
Antihistamine 1808	Asthma 300, 346, 653, 1228, 1234, 1358, 1580, 1586, 1874, 2179, 2268, 2441	Benchmark Dose Modeling 217	Biomarker Translation 1226, 2297
Antihypertensive Agent 634	Astrogia 949	Benzalkonium Chloride 453	Biomarkers 15, 126, 337, 618, 777, 943, 1193, 1202, 1204, 1211, 1218, 1232, 1815, 1818, 1884, 2029
Antimicrobial Safety 633	Astrocyte 1523	Benzene 205, 514, 517, 560, 1044, 1798	Biomarkers for Exposure 515
Antimicrobials 1285	Astrocyte Neuron Coculture 636	Benzo(a)pyrene 193, 211, 1010, 1086, 1149, 2049	Biomarkers of Exposure 1209, 1227
Antioxidant 176, 1015, 1034, 2111	Astrocytes 948	Benzo(c)fluorene 80	Biomaterial 237
Antioxidant Response 1097	ATF3 143	Benzo(a)pyrene 193, 211, 1010, 1086, 1149, 2049	Biomimetic Devices 1629
Antioxidants 1026, 1041	ATF4 1977	Benzo(c)fluorene 80	Biomolecular Gene Signature 127
Antiproliferation 2051	Atherosclerosis 916, 1243, 1408, 1819, 1825, 1968	Benzo(a)pyrene 193, 211, 1010, 1086, 1149, 2049	Biomonitoring ... 328, 498, 499, 502, 518, 756, 2163, 2445, 2448
Antipsychotic Drug 2053	Athymic 1845	Benzo(a)pyrene 193, 211, 1010, 1086, 1149, 2049	Biomonitoring of Exposure 520
Antiretroviral 491	ATM 969	Benzo(a)pyrene 193, 211, 1010, 1086, 1149, 2049	Bioorthogonal 920
Antiretroviral Drug 1045	Atrazine ... 1464, 1700, 2101, 2141, 2151, 2171	Benzo(a)pyrene 193, 211, 1010, 1086, 1149, 2049	Bioorthogonal Probe 2150
Antiretrovirals 534	Attention Deficit/Hyperactivity Disorder 2160	Benzo(a)pyrene 193, 211, 1010, 1086, 1149, 2049	Biopharmaceutical 2377
Antisense 607, 1806	Audience Participation 1654	Benzo(a)pyrene 193, 211, 1010, 1086, 1149, 2049	Bioproduct 662
Antisense Oligonucleotides 135, 156, 605	Auditory Startle 861, 1776	Benzo(a)pyrene 193, 211, 1010, 1086, 1149, 2049	Bioremediation 2181
Antitumor Effect 611	Autism 327, 1767, 1794, 2113	Benzo(a)pyrene 193, 211, 1010, 1086, 1149, 2049	Biosimilar 603
Antiviral Drug 882	Autoantibodies 1768, 1769	Benzo(a)pyrene 193, 211, 1010, 1086, 1149, 2049	Biotechnology 596
Antral Follicles 1448	Autoimmune 670, 682	Benzo(a)pyrene 193, 211, 1010, 1086, 1149, 2049	Biotransformation 1009
Anxiolysis 375	Autoimmune-Prone Mice 2401	Benzo(a)pyrene 193, 211, 1010, 1086, 1149, 2049	Biotransformation/Cytochrome P450 2094
AOP 852, 853, 854, 856, 917, 1326, 1334, 1339, 1892, 1924, 2456	Autonomic Function 313	Benzo(a)pyrene 193, 211, 1010, 1086, 1149, 2049	Biphenyl Hydrolase-Like Protein ... 1169
AOPs 1862	Autophagy 138, 297, 387, 551, 568, 572, 932, 1161, 1295, 1457, 1511, 1525, 2050, 2298	Benzo(a)pyrene 193, 211, 1010, 1086, 1149, 2049	BIRC-8 559
Aortic Rings 1258	Avagacestat 619	Benzo(a)pyrene 193, 211, 1010, 1086, 1149, 2049	Birth Cohort 353, 766, 1704
APAP 118	Avian Reproduction 1415	Benzo(a)pyrene 193, 211, 1010, 1086, 1149, 2049	Birth Defects 2151

Society of Toxicology Awards and Honors

SOT Honor Descriptions

Honorary Membership

The Society of Toxicology recognizes nonmembers who embody outstanding and sustained achievements in the field of toxicology with Honorary Membership. Candidates are nominated by two Full or Associate members of the Society. Seconding letters and information regarding career achievements in toxicology should accompany the nomination. A two-thirds vote of Council determines recipients, with not more than two Honorary Members elected during any one term of Council. Nominations should be sent to SOT Headquarters by October 9.

Inductees

1962	Eugene M. K. Geiling*
1962	W. F. Von Oettingen*
1962	Torald H. Sollman*
1963	Ethel Browning*
1966	R. Tecwyn Williams*
1976	Norton Nelson*
1982	George H. Hitchings*
1986	Bernard B. Brodie*
1986	Herbert Remmer*
1991	Hyman J. Zimmerman*
1994	Ronald W. Estabrook
1994	Wendell W. Weber
1995	Gertrude B. Elion*
1995	Charles S. Lieber*
1996	Sten G. Orrenius
1996	Dennis Parke*
1997	John E. Casida
1997	Roger W. Russell*
1998	Jud Coon
1998	Michel Mercier
1999	William O. Robertson
1999	Takashi Sugimura
2000	Findlay Russell*
2001	Herbert L. Needleman
2007	Mario Molina
2008	Lee Hartwell
2008	H. Robert Horvitz
2009	Gilbert S. Omenn
2009	Sir John E. Walker
2010	Sir Philip Cohen
2010	Ferid Murad
2011	William C. Hays
2011	Frances Oldham Kelsey
2012	Frank J. Gonzalez
2012	Leroy Hood

2013	Jeremy K. Nicholson
2014	Sir John B. Gurdon
2014	Donald E. Ingber
2015	Shawn Douglas Lamb

Awards Descriptions

Achievement Award

The Achievement Award is presented to a member of the Society of Toxicology who has less than 15 years of experience since obtaining his/her highest earned degree (in the year of the SOT Annual Meeting) and has made significant contributions to toxicology. This award consists of a plaque and a cash stipend.

Award Recipients

1967	Gabriel L. Plaa*
1968	Allan H. Conney*
1969	Samuel S. Epstein
1970	Sheldon D. Murphy*
1971	Yves Alarie
1972	Robert L. Dixon*
1974	Morris F. Cranmer
1975	Ian C. Munro*
1976	Curtis D. Klaassen
1977	James E. Gibson
1978	Raymond D. Harbison
1979	Michael R. Boyd
1980	Philip G. Watanabe*
1982	Frederick P. Guengerich
1984	Melvin E. Andersen
1985	Alan R. Buckpitt
1986	Sam Kacew
1987	James S. Bus
1988	Jeanne M. Manson
1989	James P. Kehrer
1990	Michael P. Waalkes
1991	Debra Lynn Laskin
1992	Michael P. Holsapple
1993	David L. Eaton
1994	James L. Stevens
1995	Lucio G. Costa
1996	Kenneth S. Ramos
1997	Kevin E. Driscoll
1998	Rick G. Schnellmann
1999	Michel Charbonneau*
2000	Christopher Bradfield
2001	Martin A. Philbert
2002	Ruth A. Roberts
2003	Lois D. Lehman-McKeeman
2004	David C. Dorman
2006	José E. Manautou
2007	Jeffrey M. Peters
2008	Ivan Rusyn
2009	Russell S. Thomas
2010	Gary W. Miller
2011	Nathan Cherrington
2012	Donna D. Zhang
2013	Wei Xu
2014	Matthew J. Campen
2015	Vishal S. Vaidya

Society of Toxicology Awards and Honors (Continued)

Arnold J. Lehman Award

The Arnold J. Lehman Award is presented to recognize an individual who has made a major contribution to risk assessment and/or the regulation of chemical agents, including pharmaceuticals. The contribution may have resulted from the application of sound scientific principles to regulation and/or from research activities that have significantly influenced the regulatory process. The nominee may be employed in academia, government, or industry and must be an SOT member. This award consists of a plaque and a cash stipend.

Award Recipients

1980	Allan H. Conney*
1981	Gabriel L. Plaa*
1982	Gary M. Williams
1983	David P. Rall*
1984	Tibor Balasz*
1985	Frederick Coulston*
1986	Gerrit Johannes Van Esch
1987	John P. Frawley*
1988	Kundan S. Khera*
1989	Richard H. Adamson
1990	Harold C. Grice
1991	Bernard A. Schwetz
1992	Roger O. McClellan
1993	Thomas W. Clarkson
1994	Bruce N. Ames
1995	Emil A. Pfizter*
1996	John F. Rosen*
1998	Helmut Alfred Greim
2000	Carole A. Kimmel, Janardan K. Reddy
2001	Samuel M. Cohen
2002	Dennis Paustenbach
2003	Michael L. Dourson
2004	Melvin E. Andersen
2005	Rory B. Conolly
2006	Kathryn R. Mahaffey*
2007	Harvey J. Clewell
2008	Vicki Dellarco
2009	Michael Bolger
2010	Edward V. Ohanian
2011	Bette Meek
2012	Joe L. Mauderly
2013	Moiz Mumtaz
2014	B. Bhaskar Gollapudi
2015	Richard A. Becker

Best Postdoctoral Publication Awards

The Best Postdoctoral Publication Awards recognize talented postdoctoral researchers who have recently published exceptional papers in the field of toxicology. Applications are reviewed by the Postdoctoral Assembly Board and outside reviewers with appropriate scientific expertise. The research reported in the paper must have been conducted while the applicant was engaged in a postdoctoral research position. The applicant will be the first author on a peer-reviewed paper published online or in print, or in press, in the preceding interval of October 1 to September 30. Review articles will not be accepted unless they contain meta-analyses, and/or decision analyses. Co-first authored papers will be accepted, with clear delineation of applicant's effort. The review process follows NIH conflict of interest, confidentiality, and nondisclosure rules.

Award Recipients

2007	Nadine Dragin, Kristen Mitchell, Drobna Zuzana
2008	Joshua P. Gray, Christie M. Sayes, Khristy J. Thompson
2009	Jeffrey W. Card, Kembra Howdeshell, Lewis Zhichang Shi
2010	Bret F. Bessac, Manabu Nukaya, Nicholas Radio
2011	Dieldrich S. Bermudez, Joshua A. Harrill, Jordan Ned Smith
2012	Maryse Lemaire, Xuefeng Ren, Nisha S. Sipes
2013	Petra Haberzettl, Anne Loccisano, Yuanyuan Xu
2014	Annie Lumen, Gul Mehnaz Mustafa, Phoebe A. Stapleton
2015	John Clarke, Yong Ho Kim, Christina Powers

Board of Publications for the Best Paper in Toxicological Sciences Award

The Board of Publications Award for the Best Paper in *Toxicological Sciences* is presented to the author(s) of the best paper published in this official SOT publication during a 12-month period, terminating with the June issue of the calendar year preceding the Annual Meeting at which the award is presented. The author(s) need not be a member of the Society of Toxicology. Submissions should include a one-page summary of the paper's contribution to the science of toxicology and a copy of the article for which the nomination is being made. Any member of the Society may submit one title for consideration. In addition, the titles of no more than six papers to be considered are submitted by the editor of *Toxicological Sciences*. All papers submitted will be evaluated by the Board of Publications. This award consists of a plaque and a cash stipend. (This award was formerly known as the Frank R. Blood Award from 1974–1994.)

Best Paper in Toxicological Sciences

(formerly published as *Fundamental and Applied Toxicology*)

Award Recipients

1995	J. L. Larson, D. C. Wolf, B. E. Butterworth
1995	M. I. Luster, C. Portier, D. G. Pait, G. J. Rosenthal, D. R. Germolec, E. Corsini, B. L. Blaylock, P. Pollock, Y. Kouchi, W. Craig, K. L. White, A. E. Munson, C. E. Comment
1996	B. C. Allen, R. J. Kavlock, C. A. Kimmel, E. M. Faustman
1997	F. L. Fort, H. Ando, T. Suzuki, M. Yamamoto, T. Hamashima, S. Sato, T. Kitazaki, M. C. Matony, G. D. Hodgen
1998	D. D. Parrish, M. J. Schlosser, J. C. Kapeghian, V. M. Traina
1999	C. A. Franklin, M. J. Inskip, C. L. Baccanale, C. M. Edwards, W. I. Manton, E. Edwards, E. J. O'Flaherty
2000	H. A. Boulares, C. Giardina, C. L. Navarro, E. A. Khairallah*, S. D. Cohen
2001	J. Chen, Y. Li, J. A. Lavigne, M. A. Trush, J. D. Yager
2002	M. J. Bajt, J. A. Lawson, S. L. Vonderfecht, J. S. Gujral, H. Jaeschke
2003	S. Haddad, M. Beliveau, R. Tardif, K. Krishnan
2004	A. Nyska, C. Moyer, A. Ledbetter, D. Christiani, M. Schlasweiler, D. Costa, R. Hauser, U. Kodavanti
2005	N. V. Soucy, M. A. Ihnat, L. Hess, C. D. Kamat, A. Barchowsky, M. J. Post, L. R. Klei, C. Clark
2006	H. Sawada, K. Takami, S. Ashai
2007	T. Green, R. Lee, S. Lloyd, J. Noakes, T. Pastoor, R. Pepper, M. Robinson, P. Rose, A. Toghill, F. Waechter, E. Weber
2008	S. Snykers, T. Vanhaecke, P. Papelue, A. Luttun, Y. Jiang, Y. V. Heyden, C. Verfaillie, V. Rogiers
2009	Q. Yang, T. Nagano, Y. Shah, C. Cheung, S. Ito, F. J. Gonzalez

- 1991 J. B. Silkworth, D. Cutler, L. Antrim, D. Houston, C. Tumasonis, L. S. Kaminsky
- 1992 D. A. Fox, S. D. Rubinstein, P. Hsu
- 1993 T. Mably, R. W. Moore, R. W. Goy, R. E. Peterson
- 1994 S. J. Borghoff, W. H. Lagarde

Congressional Science Leadership Award

The Congressional Science Leadership Award provides recognition of a congressional leader who demonstrates reliance upon sound scientific principles in either (1) public policy or decision-making relating to health and safety or (2) dedicated advancement of legislation for the protection of human, animal, and environmental health. This award consists of a plaque.

Award Recipients

- 2009 Congressman David Wu (D-OR)
- 2010 Senator Johnny Isakson (R-GA)
Congressman David Price (D-NC)
- 2011 Congresswoman Judy Biggert (R-IL)
Senator Amy Klobuchar (D-MN)
- 2012 Congressman Rush Holt (D-NJ)
- 2013 Congressman Dave Reichert (R-WA)
- 2014 Senator Tom Udall (D-NM)

Contributions to Public Awareness of the Importance of Animals in Toxicology Research Award

The Contributions to Public Awareness of the Importance of Animals in Toxicology Research Award is presented annually to an individual (or organization) in recognition of contributions made to the public understanding of the role and importance of experimental animals in toxicological science. This award may be for either a single seminal piece of work or a longer-term contribution to public understanding of the necessity of the use of animals in toxicological research to both ensure and enhance the quality of human and animal health and the environment. This award consists of a plaque and a cash stipend.

Award Recipients

- 2000 Allegheny-Erie Regional Chapter
- 2001 Massachusetts Society for Medical Research
- 2002 George Nethercutt
- 2003 Michael Derelanko
- 2004 North Carolina Association for Biomedical Research (NCABR), Americans for Medical Progress (AMP)
- 2005 Orrin G. Hatch, Foundation for Biomedical Research (FBR)
- 2006 Jayne Mackta

Distinguished Toxicology Scholar Award

The Distinguished Toxicology Scholar Award is presented to a member of SOT who has made substantial and seminal scientific contributions to our understanding of the science of toxicology. Nominees should be active scientists involved in toxicological research. The prime consideration for this award is scientific accomplishments. This award consists of a plaque and a cash stipend. The recipient delivers the Distinguished Toxicology Scholar Award Lecture at the SOT Annual Meeting. (This award was presented in 2001 as the Scientific Achievement Award.)

Award Recipients

- 2001 James E. Troska
- 2003 Henry C. Pitot
- 2004 Gerald N. Wogan
- 2005 Daniel Nebert
- 2006 Sten G. Orrenius
- 2007 Stephen H. Safe
- 2008 Toshio Narahashi*
- 2009 Lance R. Pohl
- 2010 Harihara M. Mehendale
- 2011 Oliver Hankinson
- 2012 Ernest Hodgson
- 2013 John J. Lemasters
- 2014 Richard E. Peterson
- 2015 Ian Kimber

Society of Toxicology Awards and Honors (Continued)

Education Award

The Education Award is presented to an individual who is distinguished by the teaching and training of toxicologists and who has made significant contributions to education in the broad field of toxicology. This award consists of a plaque and a cash stipend.

Award Recipients

1975	Harold C. Hodge*
1976	Ted A. Loomis
1977	Robert B. Forney*
1979	Sheldon D. Murphy*
1980	Herbert H. Cornish*
1981	Frederick Spurling*
1982	Lloyd W. Hazleton*
1983	Julius M. Coon*
1984	Frank Guthrie, Ernest Hodgson
1985	William B. Buck
1986	Robert I. Krieger
1987	Gabriel L. Plaa*
1988	John Autian
1989	Tom S. Miya
1990	Charles H. Hine
1991	Hanspeter R. Witschi
1992	Dean E. Carter*
1993	Curtis D. Klaassen
1994	Robert A. Neal*
1995	William Carlton
1996	Robert Snyder
1997	Albert E. Munson
1998	David J. Holbrook
1999	Jules Brodeur
2000	Gary Carlson
2001	Harihara Mehendale
2002	Joseph Borzelleca
2003	Frederick W. Oehme
2004	A. Jay Gandolfi
2005	Nobuyuki Ito
2006	Robert A. Schatz
2007	Torbjörn Malmfors
2008	Steven Cohen
2009	Janice E. Chambers, Serrine S. Lau
2010	Tetsuo Satoh
2011	Michael Gallo
2012	John H. Duffus
2013	Rick G. Schnellmann
2014	Herman N. Autrup
2015	Theodore A. Slotkin

Enhancement of Animal Welfare Award

The Enhancement of Animal Welfare Award is presented annually to a member of the Society in recognition of a contribution made to the advancement of toxicological science through the development and application of methods that replace, refine, or reduce the need for experimental animals. The achievement recognized may be either a seminal piece of work or a long-term contribution to toxicological science and animal welfare. This award consists of a plaque and a cash stipend.

Award Recipients

2000	Yves Alarie
2001	Alan Goldberg
2002	Gary Williams
2003	G. Frank Gerberick, Ian Kimber
2005	Daniel Acosta
2006	William S. Stokes
2007	Thomas Hartung
2009	Sally Robinson
2010	Leonard M. Schechtman
2013	Martin L. Stephens
2014	Marcel Leist

Founders Award

The SOT Founders Award is presented to a Full, Emeritus Full, or Retired Full member of the Society of Toxicology who has demonstrated outstanding leadership in fostering the role of toxicological sciences in safety decision-making through the development and/or application of state-of-the-art approaches that elucidate, with a high degree of confidence, the distinctions for humans between safe and unsafe levels of exposures to chemical and physical agents. This award consists of a plaque and a cash stipend.

Award Recipients

2008	John Doull
2009	Roger O. McClellan
2010	James S. Bus
2011	Joseph F. Borzelleca
2012	John A. Moore
2013	William Alfred Suk
2014	John A. Thomas

Global Senior Scholar Exchange Program

The Society of Toxicology Global Senior Scholar Exchange Program (GSSEP) aims to increase the global impact of toxicology on human health and safety by working to strengthen toxicology programs and capacity in universities in developing countries. Through this novel program, SOT will sponsor specific collaborations between universities in the United States and in developing countries. The program enables an exchange visit of senior scientists between the partnered universities to address identified gaps in the developing country university's core toxicology curriculum; supports courses or symposia on toxicology topics of high priority in the developing country; and funds the senior scholars' attendance at the SOT Annual Meeting as an opportunity to present research and establish networking opportunities.

Award Recipients

2012	Scholar: Jesus Olivero-Verbel (Colombia) Hosts: Michael P. Waalkes and Miroslav Styblo (USA), Scholar: Orish Ebere Orisakwe (Nigeria) Host: Judith T. Zelikoff (USA)
2013	Scholar: Sri Noegrohati (Indonesia) Hosts: Michael Dourson and Bernard K. Gadagbui (USA), Scholar: Mohamed Mosaad Salama (Egypt) Host: Mohamed B. Abou-Donia (USA)
2014	Scholar: Gonzalo J. Diaz (Colombia) Host: Wilson K. Rumbeiha (USA) Scholar: Ebenezer O. Farombi (Nigeria) Host: James E. Klaunig (USA)
2015	Scholar: Sunisa Chaiklieng (Thailand) Host: Norbert E. Kaminski (USA) Scholar: Deepak Dhakal (Nepal) Host: Aaron Barchowsky (USA)

Society of Toxicology Awards and Honors (Continued)

Graduate Student Travel Support

Graduate Student Travel Support defrays expenses for doctoral students presenting platform talks or posters at the SOT Annual Meeting. To be eligible, the student must be an SOT member (or have submitted a membership application) who has not previously received SOT Graduate Student Travel Support. Funding priority is based on seniority in graduate school.

Leading Edge in Basic Science Award

The Leading Edge in Basic Science Award is presented to a scientist who, based on his/her research, has made a recent (within the past five years), seminal basic scientific contribution to understanding fundamental mechanisms of toxicity. The recipient may be a respected basic scientist, member or nonmember, including toxicologists as well as other scientists who may not identify themselves with the discipline of toxicology but whose research findings are likely to have a pervasive impact on the field of toxicology. The recipient delivers the Leading Edge in Basic Science Award Lecture at the SOT Annual Meeting. This award consists of a plaque and a cash stipend.

Award Recipients

2009	John Katzenellenbogen
2010	Richard S. Paules
2011	Masayuki Yamamoto
2012	Myung-Haing Cho
2013	Donald E. Ingber
2014	Vishal S. Vaidya

Merit Award

The Merit Award is presented to a member of the Society of Toxicology in recognition of distinguished contributions to toxicology throughout an entire career in areas such as research, teaching, regulatory activities, consulting, and service to the Society. This award consists of a plaque and a cash stipend. The recipient delivers the Merit Awardee Lecture at the SOT Annual Meeting.

Award Recipients

1966	Henry F. Smyth Jr.*
1967	Arnold J. Lehman*
1968	R. T. Williams*
1969	Harold C. Hodge*
1970	Don D. Irish
1971	Kenneth P. DuBois*
1972	O. Garth Fitzhugh*
1973	Herbert E. Stokinger*
1974	William B. Deichmann*
1975	Frederick Coulston*
1976	Verald K. Rowe*
1977	Harry W. Hays*
1978	Julius M. Coon*
1979	David W. Fassett*
1980	Bernard L. Oser*
1981	John H. Weisburger*
1982	Harold M. Peck*
1983	Perry J. Gehring*
1984	Tom S. Miya
1985	Carrol S. Weil*
1986	Ted A. Loomis
1987	Bo Holmstedt
1988	Seymour L. Friess*
1989	Wayland J. Hayes Jr.*
1990	Sheldon D. Murphy*
1991	Toshio Narahashi*
1992	W. Norman Aldridge
1993	John Doull
1994	Ernest Hodgson
1995	Robert A. Scala
1996	Gabriel L. Plaa*
1997	Mary O. Amdur*
1998	John A. Thomas
1999	Thomas Clarkson
2000	Philippe Shubik*
2001	Donald Reed

2002	Bernard Schwetz
2003	M. W. Anders
2004	Robert Goyer
2005	Roger O. McClellan
2006	A. Wallace Hayes
2007	James A. Swenberg
2008	Hanspeter Witschi
2009	Gary M. Williams
2010	Marion F. Ehrich
2011	Michael Aschner
2012	Curtis D. Klaassen
2013	Frederick Peter Guengerich
2014	Jay I. Goodman
2015	Günter Oberdörster

Minority Undergraduate Student and Advisor Awards

The Minority Undergraduate Student and Advisor Awards provide support for awardees to participate in the Undergraduate Education Program at the SOT Annual Meeting. This program is an introduction to the discipline of toxicology for undergraduate science majors and includes an orientation, a special poster session with scientists, and activities with an SOT mentor. The travel awards are for those from groups underrepresented in the sciences (African American, Native American, Latino or Hispanic Americans, and Pacific Islanders) and for their advisors. The advisors are eligible regardless of racial or ethnic background. Meeting registration and support for travel, lodging, and meals are provided for students and advisors who are not local to the meeting site. Students and advisors from local institutions receive meeting and program registration and meals. In the past, the program has been supported in part by NIH-MARC, Pfizer, Johnson & Johnson, Covance, and other supporters. The recipient list is available on the website.

Outstanding Graduate Student Leadership Awards

The Outstanding Graduate Student Leadership Award is presented by the SOT Graduate Student Leadership Committee in recognition of graduate student representatives who have contributed to the Society in a significant manner beyond the routine duties of a representative of a Regional Chapter, Specialty Section, or Special Interest Group.

Award Recipients

2009	Enrique Fuentes-Mattei, Sheppard A. Martin
2010	Haitian Lu, Erica N. Rogers, Prasad Krishnan
2011	Heather Bolstad, Michael Borland
2012	Chad Brocker, Azita Cuevas
2013	Shirisha Chittiboyina, Hannah Pope-Varsalona
2014	Brittany Baisch, Christin Grabinski, Alessandro Venosa

Society of Toxicology Awards and Honors (Continued)

Perry J. Gehring Diversity Student Travel Award

The Perry J. Gehring Diversity Student Travel Award recognizes a student who was selected to participate in a previous SOT Undergraduate Program, is from an ethnic group underrepresented in toxicology (African American, Hispanic, Native American, or Pacific Islander), and is presenting a paper at the upcoming SOT meeting. The award recipient is selected by the Committee on Diversity Initiatives.

The Gehring Student Travel Award is provided through the Society of Toxicology Endowment Fund. This award recognizes Dr. Perry J. Gehring, who served as SOT President in 1980–1981 and made important scientific contributions, especially in biological modeling and evidence-based assessment. Dr. Gehring had a strong interest in encouraging individuals from ethnic groups underrepresented in the sciences to enter biomedical sciences and toxicology.

Award Recipients

2009	Vanessa De La Rosa
2010	Nygerma L. Dangleben
2011	Eva A. Amouzougan
2012	Alba K. Gonzalez Rivera
2013	Alexandra Colón-Rodríguez
2014	Pamella B. Tijerina
2015	Latisha T. Pryor

Pfizer SOT Undergraduate Student Travel Awards

Pfizer SOT Undergraduate Student Travel Awards are presented through the Society of Toxicology to foster an interest in graduate studies in the field of toxicology by bringing promising undergraduate students to the SOT Annual Meetings. Pfizer, Inc., will provide up to five awards per year to undergraduate students presenting research at the Annual Meeting. Awardees will be selected by the Education Committee based on the quality of the submitted abstract and the advisor's supporting recommendation. Those selected will receive travel assistance for the meeting, a plaque presented at the annual Awards Ceremony, and recognition at a special Pfizer function. Awardees will be matched with a graduate student and a Pfizer scientist to mentor them during the Annual Meeting, and will have the opportunity to attend the Society of Toxicology Undergraduate Education Program on the Sunday of the Annual Meeting.

Award Recipients

2006	Shawntay Chaney, Theresa M. Eagle, Natalie Malek, Adeliada Segarra, Ryan Vaughan
2007	Kay Gonsalves, Lisa Koselke, Basharat Sanni, Sonia Talathi, Anna Zimmerman
2008	Amy DeMicco, Tharu Fernando, Yamel Perdomo, Amy Yi Hsan Saik, Kelly Sullivan
2009	Sherine Crawford, Trish T. Hoang, Kelly Krcmarik, Cory M. Mathias, P. Sean McGrath
2010	Annie L. Carlton, Alisha Chitrakar, Megan E. Culbreth, Chang Woo Lee, Sharon Ochs
2011	Brandon Haghverdian, Jessica H. Hartman, Camila Odio, Viviana Vidal Anaya, Phillip Alan Wages
2012	Ashley Press, Darien Shapiro, Qi Wang, Brittany Winner, Frances A. Xin
2013	Amy Ashworth, Naing Bajaj, Adrienne R. Klinger, Anna Lang, Douglas J. Saforo
2014	Wesley Cai, Cory V. Gerlach, Lukas Gora, Elaine Kuo, Virginia Mitchell, Kia Z. Perez-Vale, Ricardo Rivera-Soto, Bradley Rowland, Kelly Schlotman, Jennette Shoots, Kelly VanDenBerg
2015	Weelic Chong, Zuania Ideliz Cordero Badillo, Emily A. Daniel, Gifty Aboagye Dominah, Scott H. Freeburg, Kathryn E. Fulda, Samantha Hall, Alexander Jones, Megan M. Koenecke, Sloane Kathryn Miller, Latisha T. Pryor, Yssa Rodriguez, Nicole A. Sidebotham, Anna V. Wojcicki

Public Communications Award

The Public Communications Award is presented by the Society of Toxicology to an individual who has made a major contribution to broadening the awareness of the general public on toxicological issues through any aspect of public communications. The award should reflect accomplishments made over a significant period of time. Examples of qualifying media in which the nominated communication may appear are as follows: books, brochures, continuing education courses, databases, extension bulletins, magazines, newspapers (local or national), outreach, public presentations, public forums, radio and television scripts, and workshops. This award consists of a plaque and a cash stipend.

Award Recipients

1994	Michael A. Kamrin
1995	Philip Abelson*
1996	Bruce N. Ames
1997	Audrey Gotsch
1999	Ann de Peyster
2001	Anna Shvedova
2002	Sam Kacew
2003	Charlene A. McQueen
2004	Kenneth Olden
2005	Robert Kreiger
2007	Linda S. Birnbaum
2010	Philip Wexler
2012	Martin A. Philbert
2013	Marti Lindsey
2014	David L. Eaton
2015	Andrew D. Maynard

SOT/AstraZeneca/SOT Endowment Fund/IUTOX Travel Award

(formerly known as SOT/AstraZeneca/IUTOX Travel Fellowships)

The Society of Toxicology sponsors travel awards administered by IUTOX and supported by AstraZeneca, the Society of Toxicology, and the SOT Endowment Fund. Awards are available to junior and senior scientists from a country where toxicology is underrepresented to assist with travel to attend the Society of Toxicology Annual Meeting.

Award Recipients

2002	Christophor Dishovsky (Bulgaria), Zoltan Gregus (Hungary), Maritza Rojas Martini (Venezuela), Choon-Nam Ong (Singapore), W. Wasowicz (Poland), Ping-kun Zhou (China)
2003	Jian-Hui Liang (China), Marjan G. Vracko (Slovenia), Eman A. Seif (Egypt)
2004	Cristina Bolaton (Philippines), P.K. Gupta (India), Salmaan Inayat-Hussain (Malaysia), Xianping Ying (China)
2005	Diana B. Apostolova (Bulgaria), Marite Arija Bake (Latvia), Teresa I. Fortuoul (Mexico), Mary Gulumian (South Africa), He Jiliang (China), Khalidya Khamidulina (Russia), L. Orish Orisakwe (Nigeria), Songsak Sriuanujata (Thailand), Sinan Suzen (Turkey)

Society of Toxicology Awards and Honors (Continued)

Tawit Suriyo (Thailand)

SOT Regional Chapter Awards

Most SOT Regional Chapters provide awards to recognize outstanding students, postdoctoral scholars, or scientists throughout their career. Application requirements and deadlines vary. For more details refer to the award descriptions on the SOT website at www.toxicology.org, under Regional Chapters or the Awards and Fellowships section.

SOT Special Interest Group Awards

SOT Special Interest Groups provide awards to recognize outstanding students, postdoctoral scholars, or scientists throughout their career. Application requirements and deadlines vary. For more details refer to the award descriptions on the SOT website at www.toxicology.org, under Special Interest Groups or the Awards and Fellowships section.

SOT Specialty Section Student Awards

Most SOT Specialty Sections provide awards to recognize outstanding students, postdoctoral scholars, or scientists throughout their career at the SOT Annual Meeting. Application requirements and deadlines vary. For more details refer to the award descriptions on the SOT website at www.toxicology.org, under Specialty Sections or the Awards and Fellowships section.

SOT Undergraduate Intern Travel Award

Each year SOT funds several undergraduates for summer research projects in toxicology. To encourage these students to continue to pursue toxicology, SOT provides travel support for eligible students to present the work they completed during the summer at the next Annual Meeting.

Award Recipients

2015 Hillary K. Markey, Royce Harrison Nichols

Society of Toxicology Awards and Honors (Continued)

Toxicology Landmarks Program

SOT is committed to creating a safer and healthier world by advancing the science of toxicology. In order to accomplish this mission, SOT will work to become a forum for novel discoveries and to increase the visibility of the organization and the members as scientific leaders and resources. The SOT Landmarks Program accomplishes these objectives by recognizing the scientists, science, and achievements that toxicology has made throughout the ages. Each year, the SOT Communications Committee evaluates entries for the Landmarks Program and selects an achievement for recognition. The chosen landmark will be recognized with a plaque that will be placed at an appropriate location to honor an individual, event, or notable achievement that contributed to the advancement of the science of toxicology. That achievement will be confirmed by the leadership of the Society and will be recognized at the SOT Annual Meeting and ToxExpo.

Award Recipients

2012 Bruce N. Ames
2013 Herbert L. Needleman

Translational Impact Award

The Translational Impact Award is presented to a scientist whose recent (in the past 10 years) outstanding clinical, environmental health, or translational research has improved human and/or public health in an area of toxicological concern. Scientists who are leaders in multidisciplinary team efforts who have contributed to alleviating toxicity-related health problems are particularly attractive candidates. The nominee may be a member or nonmember from any background (toxicologists, clinicians, basic scientists, epidemiologists, engineers, etc.). This award consists of a plaque and a cash stipend. The recipient delivers the Translational Impact Award Lecture at the SOT Annual Meeting.

Award Recipients

2009 Thomas W. Kensler
2010 Kenneth E. McMartin
2011 Weida Tong
2012 John G. Benitez
2014 Timothy D. Phillips
2015 Jefferey Burgess

Translational/Bridging Travel Award

Two awards will be given annually to assist with travel to the SOT Annual Meeting. The SOT Awards Committee will confer two awards annually to either a mid- or senior-level scientist or clinician with at least ten years of postdoctoral research or clinical practice experience and who has an active research program, or currently is active in the practice of clinical toxicology, medical toxicology, disease prevention, or in the application of transitional toxicology. This award consists of a cash stipend and a complimentary registration for the SOT Annual Meeting.

Award Recipient

2012 Xuemei Huang
2013 M. Shane Hutson

Undergraduate Educator Award

The Undergraduate Educator Award, supported by the Endowment Fund, is presented to an SOT member who is distinguished by outstanding contributions to the teaching of undergraduate students in toxicology and toxicology-related areas, and whose efforts support SOT's strategic efforts to "Build for the Future of Toxicology." Members of the Society of Toxicology who have made significant contributions to undergraduate education in toxicology may be nominated and should have a faculty appointment with primary responsibilities in the teaching of undergraduates and demonstrate a distinguished undergraduate teaching record. This award consists of a plaque and a cash stipend.

Award Recipients

2011 Joan B. Tarloff*
2012 Sue M. Ford
2013 Sidhartha Ray
2014 William D. Atchison
2015 Mindy F. Reynolds

Undergraduate Toxicology Education Awards

The Undergraduate Toxicology Education Awards provide support for awardees to participate in the Undergraduate Education Program at the SOT Annual Meeting. This program is an introduction to the discipline of toxicology for undergraduate science majors and includes an orientation, a special poster session with scientists, and activities with an SOT mentor. The travel awards are for those from institutions that receive a limited amount of federal funding in science and technology (list of institutions is available on the website). Preference in selection will be students who are first-generation college attendees (that is, neither parent graduated from a four-year academic institution).

Meeting registration and support for travel, lodging, and meals are provided for students who are not local to the meeting site. Students from local institutions receive registration, meeting materials, and an expense stipend. The recipient list is available on the website.

Supported Award Descriptions

AstraZeneca Traveling Lectureship Awards

The AstraZeneca Traveling Lectureship Award is presented through the Society of Toxicology to recognize excellence in research and service in toxicology and to promote greater collaboration between European and North American toxicologists and to enable North American toxicologists. The award is intended to familiarize recipients with research and regulatory issues in Europe and to bring a North American perspective to these issues. Candidates for the award should be established, mid-career North American scientists who are members of the Society and who demonstrate the ability to develop collaborative relationships with European colleagues.

Award Recipients

1990	Robert I. Krieger, Joseph R. Landolph
1991	Sam Kacew
1992	Charles V. Smith, Jerold A. Last
1993	Terrence James Monks, Harihara H. Mehendale
1995	David L. Eaton, Hanspeter R. Witschi
1996	Rick G. Schnellmann, James P. Kehrer
1997	Lucio G. Costa, Durisala Desai
1998	Syed F. Ali, Curtis J. Omiecinski
1999	Alvaro Puga
2000	Kenneth Ramos, Garold Yost*
2001	Ronald Hines, Richard Seegal
2003	William D. Atchison
2004	Charlene A. McQueen
2005	Kevin M. Crofton
2006	Robert A. Roth
2007	Michael S. Denison
2008	José E. Manautou
2009	Kim Boekelheide
2010	J. Chris Corton
2011	Saber Hussain
2012	Bhagavatula Moorthy

Colgate-Palmolive Awards for Student Research Training in Alternative Methods

The purpose of the Colgate-Palmolive Awards for Student Research Training in Alternative Methods is to enhance student research training using *in vitro* methods or alternative techniques to reduce, replace, or refine use of animals in toxicological research. The Awards Committee will present the awards to graduate students. Two or more awards, up to \$3,750 each, are available annually. Awards will defray travel, per diem, and training expenses.

The award is for expenses for training consistent with the goal of this award program. The training may include, but is not limited to, use of *in vitro* and *ex vivo* procedures, use of nonmammalian animal models, computer modeling, and structure-activity relationships. Graduate students may propose to develop expertise in relevant methodologies at (1) a laboratory away from their home institution; (2) a laboratory at their home institution that would not be available to them otherwise; or (3) approved workshops, symposia, or continuing education programs where hands-on training will be received. The training should help toxicology graduate students enhance their thesis or dissertation research.

Award Recipients

2000	Jason Gross
2001	Jason Biggs, Victoria Richards
2002	Kartik Shankar, Chad M. Vezina, Ryan L. Williams
2003	Sachin Devi, Midhun Korrapati, Pallavi Limaye
2004	Jaya Chilakapati, Marc A. Nascarella
2005	Vishaka Bhave, Ankur Dnyanmote, Jonathan Maher
2006	Mary Hassani, Prajakta Palkar
2007	Renee Gardner, Prajakta Palkar, Rohit Singhal, René Viñas
2008	Kimberly A. Hays, Haitian Lu
2009	Jennifer Cole, Katie Beth Paul, Samuel Peterson
2010	Maxwell C. K. Leung, David T. Szabo, Natalia M. VanDuy
2011	Vijay More
2012	Agnes Forgacs, René Viñas
2013	Aaron Lulla, Jamie Moscovitz, Alexandra Munoz
2014	Laura E. Armstrong, Christin M. Grabinski
2015	Prajakta Shimpi

Colgate-Palmolive Grants for Alternative Research

The Colgate-Palmolive Grants for Alternative Research will identify and support efforts that promote, develop, refine, or validate scientifically acceptable animal alternative methods to facilitate the safety assessment of new chemicals and formulations. Scientists at any stage of career progression may submit a proposal. High priority will be given to projects that use *in vitro* or nonanimal models, reproductive and developmental toxicology, neurotoxicology, systemic toxicology, sensitization, and acute toxicity. The maximum award is \$40,000, made as a single lump payment. Awardees can re-apply for funding in subsequent years.

Award Recipients

2006	Rola Barhoumi, Abby Benninghoff, Jodie Flaws, Courtney Sulentic, Xiaouzhong Yu
2007	Rita L. Caruso, Daniel R. Cerven, Anne R. Greenlee, Glenn M. Walker
2008	Daniel R. Ceven, Duncan C. Ferguson, Shashi K. Ramiah
2009	Qin M. Chen, Timothy J. Shafer, Mehmet Uzumcu
2010	Patrick Allard, Duncan C. Ferguson, Mehmet Uzumcu
2011	Patrick Allard, Hao Zhu
2012	Mingzhu Fang, Jennifer Freeman
2013	Lei Li Kerr, Hao Zhu
2014	Patricia E. Ganey, Matthew Troese
2015	Alfredo Miranda de Goes, Lei Li Kerr

Colgate-Palmolive Postdoctoral Fellowship Award in *In Vitro* Toxicology

The Colgate-Palmolive Company sponsors the Colgate-Palmolive Postdoctoral Fellowship Award in *In Vitro* Toxicology through the Society of Toxicology to advance the development of alternatives to animal testing in toxicological research. The award is given annually and includes stipend and research-related costs up to \$44,000 for one year (including funding to attend the SOT Annual Meeting to present this research). The award is available to postdoctoral trainees employed by academic institutions, federal/national laboratories, or research institutes worldwide. Preference will be given to applicants in their first year of postdoctoral study.

Award Recipients

1988	Ernest Bloom
1989	Gin Hsieh
1990	Dennis E. Chapman
1991	Anne Walsh
1992	Qin Chen
1993	Erika Cretton
1994	William Chan
1995	Bob Van de Water
1997	Alan Parrish
1999	Russell Thomas
2001	Kevin Kerzee, Christopher Reilly
2002	Kevin Kerzee
2003	Kimberly Miller
2004	Kimberly Miller
2005	Francis Tukov
2007	Aaron Rowland
2008	Aaron Rowland
2009	Ankur Dnyanmote
2010	Ankur Dnyanmote
2011	Cassandra Deering-Rice
2012	Melanie Adler
2013	Melanie Adler
2014	Jonathan H. Shannahan
2015	Fabian A. Grimm

Supported Award Descriptions (Continued)

Colgate-Palmolive Traveling Lectureship in Alternative Methods in Toxicology Award

Offered 1996–2008

Award Recipients

- 1996 University of Mississippi Medical Center
Visiting Professor: Tetsuo Satoh
- 1996 University of Illinois at Urbana
Visiting Professor: Julio Davila
- 1996 Mississippi State University
Visiting Professor: Michael Holsapple
- 1996 Washington State University
Visiting Professor: Daniel Acosta
- 1997 Indiana University School of Medicine
Visiting Professor: A. Jay Gandolfi
- 1997 University of Arizona Health Science Center
Visiting Professor: Kevin E. Driscoll
- 1997 University of New Mexico
Health Sciences Center
Visiting Professor: Sam Kacew
- 1997 University of Illinois
Visiting Professor: Michael Denison
- 1998 University of Washington
Visiting Professor: Bruce Fowler
- 1998 San Diego State University
Visiting Professor: Leigh Ann Burns-Naas
- 1999 San Diego State University
Visiting Professor: Robert Chapin
- 2000 Yale University, School of Medicine
Visiting Professor: Narendre Singh
- 2001 Medical College of Wisconsin
Visiting Professor: Garold Yost
- 2003 Washington State University
Visiting Professor: Marc W. Fariss
- 2004 University of Louisiana at Monroe
Visiting Professor: Snorri S. Thorgeirsson
- 2008 University of Louisiana at Monroe
Visiting Professor: George Michalopoulos

Novartis Graduate Student Fellowship Award

The Novartis Graduate Student Fellowship Award is available for student members of the SOT engaged in full-time graduate study toward a PhD in toxicology. The major professor must be an SOT member. The evaluation is based primarily on originality of the dissertation research, research productivity, relevance to toxicology, scholastic achievement, and letters of recommendation. Finalists are interviewed at the Annual Meeting and receive travel support.

Award Recipients

- 1989 Timothy Zacharewski
- 1990 Mary Suzanne Stefaniak
- 1991 Donald Bjerke
- 1992 Lhanoo Gunawardhana
- 1993 Christopher Martenson
- 1994 Nyla Harper
- 1995 Heather E. Kleiner
- 1996 Russell Thomas
- 1997 Melva Rios-Blancos
- 1998 Kent Carlson
- 1999 Mark Hickman
- 2000 Jeffrey Moran
- 2001 Vishal Vaidya
- 2002 Kartik Shankar
- 2003 Sachin Devi
- 2004 James Luyendyk
- 2005 Andrea W. Wong
- 2006 Sheung P. Ng
- 2007 Atrayee Banerjee
- 2008 Helen J. Badham
- 2009 Yue Cui
- 2010 Eric N. Liberda
- 2011 Alexandria Lau
- 2012 Julia E. Rager

Syngenta Fellowship Award in Human Health Applications of New Technologies

The Syngenta Fellowship Award in Human Health Applications of New Technologies is presented to either a third-year (or later) graduate student or a postdoctoral trainee. Funding in the amount of \$15,000 is to support mode-of-action research aimed at characterizing dose-dependent effects of xenobiotics on mammalian systems in such a way that the causal sequence of key events underlying toxicity is elucidated. The work should permit a quantitative basis for extrapolation of the results from animal bioassays or animal models (*in silico*, *in vitro*) to humans at relevant human doses. The awardee will receive funding to travel to the SOT Annual Meeting to accept the award and for travel to a Syngenta facility to present the results.

Award Recipients

- 2010 Haitian Lu
- 2011 Michelle C. DeSimone
- 2012 Benjamin Moeller
- 2013 Julia E. Rager
- 2014 Dilshan S. Harischandra
- 2015 Alok Ranjan

Endowment Fund Honor Roll of Contributors

The SOT Endowment Fund Board, on behalf of the entire membership of the Society of Toxicology, gratefully acknowledges the generosity of the many donors who made contributions to the SOT Endowment Fund from January 1, 2014 to January 31, 2015.

2014–2015 Honor Roll of Contributors

—LIFETIME PARACELSUS CIRCLE VISIONARY—

\$50,000–\$100,000

None at this time.

—LIFETIME PARACELSUS CIRCLE FUTURIST—

\$25,000–\$49,999

• Barbara Gehring and Family • Roger O. and Kathleen M. McClellan • Dharm V. Singh • Elizabeth K. Weisburger •

—LIFETIME PARACELSUS CIRCLE LEADER—

\$10,000–\$24,999

• Daniel and Patricia Acosta • Mary and Joseph F. Borzelleca • Young Soo Choi • Lax Desai • John and Vera Doull • William C. Hays •
 • Shawn Douglas Lamb • Joe and Teri LeBeau • Lois D. Lehman-McKeeman • Frank C. Lu and Family •
 • Harihara M. and Rekha Mehendale • Mark R. Montgomery •
 • Dennis J. Paustenbach • James A. and Gloria Jean Popp • K. S. Rao •

—LIFETIME PARACELSUS CIRCLE BENEFACTOR—

\$5,000–\$9,999

• Linda S. and David Birnbaum • Balbir S. Brar • Steven D. and Elaine S. Cohen • David L. Eaton • Marion F. Ehrich • Jeff Handler •
 • Eileen P. Hayes • Charles H. Hobbs • Jerry B. Hook • Rudolph E. and Susan Jaeger • Curtis and Cherry Klaassen •
 • Frank and Sally Kotsonis • Kannan Krishnan • Gary L. Lage • Robert E. Larson • John B. Morris •
 • Gilbert S. Omenn • Robert E. and Ursula Osterberg • Rick G. Schnellmann • Jacqueline H. Smith • Robert J. Staab •
 • Thomas R. Sutter • Robert G. Tardiff • John E. Whalan • James S. Woods •

Endowment Fund Honor Roll of Contributors (Continued)

2014–2015 Honor Roll of Contributors

Individual Contributors

— LIFETIME PARACELSUS CIRCLE MEMBER —

An initial contribution of \$500 or more and a commitment to make cumulative contributions of \$5,000 or more within a 10-year period.

- Kim Boekelheide and Janet Austin • Matthew S. and Renee Bogdanffy • Brad Bolon • Dennis J. and Leigh Ann Burns Naas • Jon C. and Judith R. Cook • George B. and Anna Karen Corcoran • Joan M. Cranmer • Yue Cui • Jack H. and Suellen Dean • Paul W. and Grace Ferguson • Bruce A. Fowler • Angelo and Christine Furgiuele • Michael A. Gallo • Donald E. and Elly Gardner • Peter L. Goering • Bernard D. Goldstein and Russel Lynn Carruth • Jay I. Goodman • Jack R. Harkema • Renee Hartsook • Bob and Diane Higginbotham • Ronald N. Hines and D. Gail McCarver • Michael and Mona Holsapple • Ijaz S. Jamall • Norbert and Beth Kaminski • Anumantha G. Kanthasamy • James E. and Lisa Klaunig • Elaine Valerie Knight • Robert H. Ku • Pamela J. Lein • Jose E. Manautou • Gary and Patti Miller • Nancy A. Monteiro-Riviere • Jay Murray • Adrian Nanez • Martin A. Philbert • Kenneth S. Ramos • Donald J. Reed • Charles F. Reinhardt • Denise Robinson Gravatt • Robert A. Scala • I. Glenn Sipes • William and Cristine Slikker • Cheryl Lyn Walker • Kendall B. and Gail A. Wallace • Clarissa L. Russell Wilson • Helmut Zarbl •

— PARACELSUS CIRCLE CONTRIBUTOR —

\$500 or more in 2014–2015

- Michael and Lisa Aleo • Aaron Barchowsky • Norman J. and Valerie G. Barlow • Hugh A. Barton • Barbara D. Beck • Lorrene A. Buckley • Kristina D. Chadwick • Chellu S. Chetty • Heather V. Dowty • Editors of *Neurotoxicology and Teratology* • Scott H. Garrett • Mary E. Gilbert • Judith A. Graham • Joseph H. Graziano • Jack R. Harkema • Kristina M. Hatlelid • Andrij Holian • Kyle and Carey Kolaja • Frederick J. Miller • Richard Nass • Alvaro Puga • Donald J. Reed • John A. Thomas • Patricia Wells • John and Sandra Wise • John A. Wisler • Hanspeter R. Witschi • Ronald K. and Mary C. Wolff • Carol S. Wood • Robert O. Wright • Qingda Zang •

— GOLD ENDOWMENT CONTRIBUTOR —

\$250–\$499 in 2014–2015

- Chidozie and Grace Amuzie • Max Costa • Betty J. Eidemiller • Sakina E. Eltom • Michael J. Graziano • Stephen B. Harris • Danuta J. Herzyk • Michael F. Hughes • Michael and Sally Mann • Maralee McVean • Sharon A. Meyer • Linda H. Nie • Seema Somji • Miroslav Styblo • Jeff Tepper • David J. Thomas • James G. Wagner • David B. Warheit • Patricia M. Williams • Wei Zheng • Anatoly Zhitkovich •

— SILVER ENDOWMENT CONTRIBUTOR —

\$100–\$249 in 2014–2015

- Matthew C. Cave • Nancy D. Denslow • Darol E. Dodd • Gregory L. Finch • Jodi A. Flaws • Jennifer L. Freeman • Patricia E. Ganey • Dori R. Germolec • Diane Hardej • Rogene F. Henderson • William Irwin • Vijay M. Kale • John J. LaPres • Betina J. Lew • Joe L. Mauderly • Nagender Reddy Panyala • Richard W. Pfeifer • Aramandla Ramesh • Sidhartha D. Ray • Jean F. Regal • John H. and Joan E. Richburg • Bob Roth • Tetsuo Satoh • MaryJane K. Selgrade • Don and Mary Ann Sens • Mari S. Stavanja • Weiyi Su • Therry Winata The • Kristine L. Willett • Hong Xie • Chengfeng Yang • Judith T. Zelikoff •

Endowment Fund Honor Roll of Contributors (Continued)

2014–2015 Honor Roll of Contributors

—BRONZE ENDOWMENT CONTRIBUTOR—

\$40–\$99 in 2014–2015

- Tiffini K. Brabham • Cynthia L. Browning • Jennifer and Timothy Duringer • Julie A. Gosse •
- John C. Lipscomb • Julieta Martino • Jessica M. Sapiro • Sharmilee P. Sawant •

Institutional Contributors

—DIAMOND CONTRIBUTOR—

\$10,000 or more

- Toxicon •

—PLATINUM CONTRIBUTOR—

\$5,000–\$9,999

- Elsevier •

—GOLD CONTRIBUTOR—

\$2,500–\$4,999

- Gradient • Zoetis •

—SILVER CONTRIBUTOR—

\$1,000–\$2,499

None

—EMPLOYER’S MATCHING CONTRIBUTION—

- Amgen Foundation on behalf of Adrian Nanez • Amgen Foundation on behalf of John A. Wisler •
- Bristol-Myers Squibb Foundation on behalf of Kristina Dam Chadwick •
- Bristol-Myers Squibb Foundation on behalf of Michael J. Graziano • Pfizer Foundation on behalf of Denise Robinson Gravatt •
- Pfizer Foundation on behalf of Heather Dowty • Pfizer Foundation on behalf of Hugh Barton •
- Pfizer Foundation on behalf of Tiffini K. Brabham •

Details about SOT 2014 Endowment Fund Recipients can be found on pages 80–83. For more information about the Award Recipients and the Endowment Fund, please visit www.toxicology.org/endowment.

Endowment Fund Donor Contribution Form

SOT Endowment Family of Funds

The individual Funds that make up the SOT Endowment Fund are briefly described below. All are, or intend to become, Permanently Restricted Net Asset Funds, with their assets invested so their Funds will be continued in perpetuity with proceeds used for the purpose(s) identified by their original donor or those who provided leadership for creating each specific Fund.

Society Funds

- **Education**—Proceeds from this Fund support a margin of excellence in SOT Educational Activities.
- **Global Activities**—Proceeds from this Fund will be used to promote the involvement of the SOT in international activities such as those of the International Union of Toxicology.
- **SOT Strategic Priorities**—Proceeds from this Fund support the highest priority needs of the Society as determined by the SOT Council.

The Society of Toxicology is matching 1-to-1 dollar contributions to all permanently restricted funds (donations to temporarily restricted funds match will be vested once the fund has reached the required threshold for permanent status). The 1-to-1 match is effective for contributions made between July 1, 2013 until June 30, 2016, or until the \$400,000 in matching funds has been expended.

Named Funds

These Funds match the interests of the donors with the future financial needs of SOT, its Specialty Sections (SS), Special Interest Groups (SIG), and Regional Chapters (RC).

- **Daniel and Patricia Acosta Diversity Student Fund**—SOT Education Fund
- **Mary Amdur Student Award**—Inhalation and Respiratory SS
- **Celebrating Women in Toxicology Award Fund**—Women in Toxicology SIG
- **Young Soo Choi Student Scholarship Award**—Korean Toxicologists Association in America SIG
- **Laxman S. Desai ASIO Student Award**—Association of Scientists of Indian Origin SIG
- **Diversity Initiatives**—Committee on Diversity Initiatives
- **John Doull Student Award**—Risk Assessment SS
- **Environmental Carcinogenesis Research Fellowship Fund**—Carcinogenesis SS
- **Founders Fund**—Founders Fund recipient selected by Awards Committee
- **Donald E. Gardner Inhalation Toxicology Education Award**—Inhalation and Respiratory SS
- **Perry J. Gehring Biological Modeling Student Award**—Biological Modeling SS
- **Perry J. Gehring Diversity Student Travel Award**—Committee on Diversity Initiatives
- **Perry J. Gehring Risk Assessment Student Award**—Risk Assessment SS
- **Harry W. Hays Memorial**—SOT Education and/or Strategic Priorities
- **Health and Environmental Science Institute Immunotoxicology Young Investigator Student Award**—Immunotoxicology SS
- **Vera W. Hudson and Elizabeth K. Weisburger Scholarship**—Women in Toxicology SIG
- **Frank C. Lu Food Safety Student Award**—Food Safety SS
- **Jean Lu Student Scholarship Award**—American Association of Chinese in Toxicology SIG
- **Roger O. McClellan Student Award**—Comparative and Veterinary SS and Toxicologic and Exploratory Pathology SS
- **Harihara Mehendale ASIO Student Award**—Association of Scientists of Indian Origin SIG
- **Metals Specialty Section Student Research Award**—Metals SS
- **Molecular and Systems Biology Student Award**—Molecular and Systems Biology SS
- **Sheldon D. Murphy Memorial Fund**—SOT Education and/or Student Travel
- **Toshio Narahashi Neurotoxicology Fellowship Award**—Neurotoxicology SS
- **Pacific Northwest Toxicology Development**—Pacific Northwest RC
- **Emil A. Pfizer Drug Discovery Student Award**—Drug Discovery Toxicology SS
- **Gabriel L. Plaa Education Award**—Mechanisms SS
- **Renal Toxicology Fellowship Award**—Mechanisms SS
- **Robert J. Rubin Student Travel Award**—Mechanisms SS and Risk Assessment SS
- **Dharm V. Singh ASIO Student Award**—Association of Scientists of Indian Origin SIG
- **Dharm V. Singh Carcinogenesis Award**—Carcinogenesis SS
- **Carl C. Smith Student Mechanisms Award**—Mechanisms SS
- **Ronald G. Thurman Student Travel Award**—Mechanisms SS
- **Toxikon, A Preclinical Toxicology Organization, and Dr. Dharm Singh Association of Scientists of Indian Origin Award Fund**—Association of Scientists of Indian Origin SIG

Recognition Levels

Individual Recognition

(Based on July–June Fiscal Year Giving)

- **Paracelsus Circle**—\$500 or more
- **Gold**—\$250–\$499 or more
- **Silver**—\$100–\$249 or more
- **Bronze**—\$40–\$99 in a given year

Individual Recognition

(Cumulative Contributions)

- **Lifetime Paracelsus Circle Visionary**—\$50,000 or more
- **Lifetime Paracelsus Circle Futurist**—\$25,000–\$49,999
- **Lifetime Paracelsus Circle Leader**—\$10,000–\$24,999
- **Lifetime Paracelsus Circle Benefactor**—\$5,000–\$9,999
- **Lifetime Paracelsus Circle Member**—\$5,000 Commitment

Corporate/Institutional Recognition information can be found on the SOT website under contributions.

Donors who give \$40 or more will be identified by name on the SOT Endowment Fund website and other Fund literature unless they wish to remain anonymous. In the case of couples who are both members of the SOT, the Recognition Level is based on the contribution of each individual. Thus, a \$500 joint contribution from a couple who are both members of the SOT is recognized at the Gold Level and a \$1,000 joint contribution is recognized at the Paracelsus Circle Level.

501(c)3 Charitable Organization

The SOT Endowment Fund is part of the Society of Toxicology, a charitable, nonprofit, 501(c)3 organization under the Internal Revenue Code. The SOT Tax Identification Number is 52-605-7050. Contributions to the SOT Endowment Fund typically will be considered tax-deductible contributions. The Society of Toxicology will provide written acknowledgment of all contributions made to the SOT Endowment Fund.

Donor Contribution Form

The SOT Endowment Fund is a family of Funds created to match the interests of Donors with the future financial needs of the SOT, its Specialty Sections, Special Interest Groups, and Regional Chapters. The individual Funds and Recognition Levels are briefly described on the proceeding page.

Contribution Information

- I wish to be identified by name as an Endowment Fund Donor by Recognition Level, as shown on the proceeding page. Name for acknowledgment: _____
- I do not want to be publicly identified as a Donor; I wish to remain anonymous.
- I intend to contribute \$5,000 or more within ten years in order to be recognized as a **Lifetime Paracelsus Circle Member**. (For budget purpose only—not legally enforceable.)
- My employer will match my contribution. (Please enclose your employer's Matching Gift Form)
Employer _____

Please contact me concerning the following:

- To assist in arranging a Corporate Gift/Stock or other assets.
- Naming the SOT Endowment Fund in my Will or Trust.
- Purchasing a Charitable Gift Annuity.
- Establishing a new Fund.
- Contributing securities, property, etc.
- Other _____
- I am giving my gift (\$500 minimum):
In memory of _____
In honor of _____

Annual Meeting Supporting Opportunities

Supporting Opportunities Are Still Available and Help To:

- Show your company's commitment to advancing toxicology
- Gain valuable exposure to more than 6,500 attendees
- Keep meeting registration fees affordable to scientists, students, and all attendees, thereby bringing more participants together at this important event
- Reduce your bottom line—contributions are tax deductible under 501(c)3 provisions

Supporting Opportunities Gives You:

- Recognition in all Annual Meeting publications and promotional materials, *ToxExpo Directory*, the SOT website, postmeeting newsletters, and colorful signage and banners at the meeting
- The right to host an Exhibitor-Hosted Session at the Annual Meeting
- Invitations to the President's Reception
- And much more!

The Diamond Level Supporters (\$10,000 or more) can be found on the back cover.

For more information contact SOT Headquarters and ask for Laura Helm at 703.438.3115 or email laura@toxicology.org.

The Society of Toxicology appreciates the generous contributions of the 54th Annual Meeting Supporters

(as of February 6, 2015)
